MISS EMMA PETERS, Highland Grove, N.S., writes; "I am more than pleased with the results from Catarrhozone. It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrhozone are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

Mr. LAWRENCE KENNEDY, of West New Annam, says; "For three years I suffered from catarrh and throat trouble. I tried many remedies but they were of no avail. I got no relief till I tried Catarrhozone. Too much cannot be said of so valuable a medicine. I shall always recommend Catarrhozone to anyone troubled with catarrh; it is a positive cure."

MR. W. W. BEACH, of Chipman, Ont., who suffered for years from "systematic catarrh says; "Catarrhozone is the best remedy I have ever used for catarrh and I have used a lot of them. Catarrhozone was exactly suited to my case."

No intelligent person can doubt the merit of Catarrhozone which receives more praise from Medical Journals, doctors and the public than any other remedy; it is certain to cure every type of catarrh, lung and throat trouble. Two months' treatment, $1.00; sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S., and Kingston, Ont. Refuse a substitute for Catarrhozone.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Rooms to Let

Rooms to let with board, apply to Mrs. Boyce, 352 1-2 Water St. 3-d

Wanted

Waitress at the White Kitchen, one understanding light cooking preferred. 163 Simcoe street. 3d

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

Worse Weather than Ours

Don't grumble at our present cold weather. According to the Maple Creek Signal, a man in that locality woke up a few nights since to find his roof flying away on the wings of the blizzard, his walls collapsed and his bed and bed clothes mixed up in sweet confusion with the firewood and the family cat. Neither he, nor his relatives residing in the house, strange to relate, were seriously injured.

DUTTON'S MARKET.

See our Grocery Window for Bargains.

R. A. DUTTON
Phone 304. 418-420 George Street

The attendance at the
Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School

NOT AN OFFICER

(To the Editor of The Times)

Sir,—I see my name mentioned in an article on the Turf Club. I have nothing to do with the affairs of the club—only donate—and that comes regularly.

J. M. BROOKS.

Settlers Low Rates West

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

A New Brigade

In connections with the revival meetings now being held in the Salvation Army Barracks, a Brigade has been formed, called the Service-of-Song Brigade. They will give their first special song service to-night. The title is "Two Golden Lillies." It is a touching story of the sea, showing how a little girl saved her father's life, and nearly lost her own in doing it. The story is interspersed with heart-stirring solos, duets and quartettes, the whole making an intensely interesting meeting. All are welcome, no charge for admission.

Government Will Consider It

Inquiry was made at the Crown Lands Department, Toronto, respecting a shooting privilege reported to have been granted by the late Administration to Mr. H. H. Macrae, Col. H. M. Pellatt, of Toronto, and others over several miles of marsh on the border of Rice Lake for a period of twenty-one years, at an annual rental of $160. It was learned that, while the order in Council was passed some three weeks ago, the lease or concession has not yet been executed, and that the matter will be one of several acts of the recent Administration which will come before the new Government for consideration.

Curlers Returned from Orillia

The curlers, who have been playing in Orillia, returned to town yesterday at noon, and report that they have had a most enjoyable time in that town, in fact, the best they have had on any trip yet, taking into consideration the fact, that the train they travelled on, arrived in Orillia five hours late. Fate was against our players as they lost the game by 13 points. The curlers speak very kindly about Mr. Buntin, the G.T.R. uptown ticket agent, by whose efforts and courtesy, they were granted the use of a private parlor car to and from Orillia.

PRETTY CHURCH WEDDING

Nuptials of Mr. A. Jordan and Miss May M. Long.

Yesterday St. John's church was the scene of a happy event, where the merry chimes of the bell, rang out the intelligence that another marriage had been registered in the books of that ever sacred edifice. Miss Mary M. Long, daughter of Mr. Charles Long, of Strathcona, Alberta, was married to Mr. Sam. Jordan, the George street florist. After the ceremony, the wedding party drove to the residence of Mr. James Long, Reid street, where a recherche wedding breakfast was served.

The customary congratulatory speeches were made. The Rev. J. C. Davidson, Rector of St. John's, who had officiated at the ceremony in the church, making a few well timed and appropriate remarks. The bridesmaid was Miss Ethel Tully, while Mr. John Jordan assisted the groom, his brother. The happy couple left on the 5.10 C.P.R. train for Toronto, where they will spend their honeymoon, returning home next Monday. Mr. John Jordan had to face an artillery fire of questions as to why he does not do likewise.

A Cathedral Wedding

A very pretty wedding took place at St. Peter's Cathedral yesterday morning, when Miss Annie Guerin, only daughter of Mr. Napoleon Guerin, Louis street, became the bride of Mr. Archie Barbeau, formerly of Sault Ste. Marie, Ont. The ceremony was performed by Rev. Father Galvin. The bride wore a handsome travelling suit of seal brown broadcloth, trimmed with velvet and picture hat to match. Miss V. Barbeau, sister of the groom was bridesmaid, while Mr. Frank O'Brien acted as best man. A delightful wedding breakfast was served at the home of the bride, after the ceremony.

The happy couple left on the 8.20 G.T.R. train for Toronto and other western points, and on their return will reside at 7 Louis street.

—Donald Barnum, a resident of Cookstown, in Huntingdon Township, last Saturday, attempted to walk to the house of about a mile distant. He left about 10 p.m. and Sunday morning was found frozen to death a short distance from home.

WINTER MEAT EATING

The Poor Stomach's Tale of Woe Just How Mi-o-na Is Needed.

At this season of the year thousands of people are already showing the ill symptoms that are sure to result from the usual winter diet. Indoor life, meat-eating, hearty food, lack of exercise, overwork, and poor ventilation spell "sickness," and poor health.

If the stomach cannot do its work properly, ill health is sure to follow. Mi-o-na is the one medicine that assures a natural digestion, that strengthens the stomach, that soothes and heals all irritation, congestion, and inflammation in the stomach or bowels. It is this that makes it a certain and guaranteed cure for all stomach troubles.

If the digestion is impaired, the blood is impoverished and becomes filled with poisonous impurities, deranging the whole system and causing sickness and suffering. Mi-o-na, acting upon the stomach and digestive organs cures sleeplessness, nervous troubles, headaches, backaches, and general weakness and debility.

If you are weak and ailing the chances are that it is due to a diseased stomach, but you can be cured by using Mi-o-na. Ask Wm. Madill, the reliable Druggist, to show you

LITTLE LOCAL LINES

Touches Here and There by Times Reporters on Their Round

—No police court held yesterday.

—Another doctor coming to Peterborough this week. Wow!

—Fortune usually smiles on the man who hustles while he waits.

—Queen Alexandra Circle, A.O.F., held a basket social last night in the S.O.E. Hall.

—Port Hope town council has voted, 4 to 2, not to reduce the number of liquor licenses.

—The Girls' Guild of All Saints church, held a well patronized valentine social last night.

—The German Conversation Club meet at St. Luke's Rectory on Thursday evening at 7.30.

—Last night the curlers who will play the Queen City Club in Toronto next Friday were picked.

—Next week's attraction at the Opera House will be H. Wilmot Young's Bijou Comedy Company.

—The Midland division of the Grand Trunk is blocked north of Lindsay, and no tickets are offered for sale.

—Delegates to the Sunday school convention presented their report at the evening service in St. Luke's last night.

—Has St. Valentine's Day brought you one of those with pink hearts and paper lingerie, or one of the other kind?

—Heintzman & Co. upright piano, slightly used, great bargain. Cash or credit. W. G. Lendrum, Photographer, 170 Charlotte street. 3d

—It is rumored that a special train will bring visitors from North Bay and intermediate points, to attend the consecration of Rev. D. J. Scollard on Feb. 24th.

—A new feature in the Salvation Army services will be the service-of-song Brigade. Their first special service will be held to-morrow night, and it is entitled "Two Golden Lilies." It is in the nature of a marine sacred drama, including songs; solos and choruses.

—P. C. Stewart last night, gathered in a deaf and dumb man, who is elated as D. and D. although berefit by nature of the power of expressing his disgrobation vegbally, he made known his displeasure, most emphatically, by inarticulate grunts, and shaking the bars of his temporary boudory.

SOCIAL AND PERSONAL

—Rev. O. C. Elliott, of Belleville, is visiting his mother, Mrs. Scott; 112 Stewart street.

—Mrs. Wm. Garnett and her daughter, Miss Effie, of Port Hope, are visiting friends in town.

—Miss Jane Eyres left town yesterday for a visit with friends in Toronto and Hamilton. She expects to be absent about a month.

—Mr. D. W. Dumble, Police Magistrate, was reported late last night, as being much better and gaining strength.

—Miss May Denne entertained her young friends Monday night at the family residence, George street. A very pleasant evening of dancing and games terminated at a late hour.

—Mr. W. E. Wesley has gone east in the interests of his employes, Messrs. J. J. Turner & Sons; he will call on merchants in Perth, Almonte, and other points.

—C. F. Campbell, an old Peterborough boy, once on the staff of this Journal, is in town, in the interests of the Retail Merchants' Journal, of Toronto.

—Messrs. D. Hughes-Charles, and J. H. Garbutt are representing Peterborough at the annual convention of the Ontario Association of Fairs, being now in session in Toronto.

—We are pleased to learn that Mr. Fred Collins, son of Mr. J. D. Collins, on whom a critical operation has lately been made by Prof Shuttleworth in the Toronto Hospital, is improving and indications point to a possibility of his being able to return home from Toronto about March 10.

NEW PROPRIETORS

Mr. R. H. Leary Hands Over the Reins of Management to McCallum Bros.

Yesterday new owners finally took over an important business interest, for some years the large livery and hack business on Water street, that Mr. R. H. Leary has managed so successfully, was definitely handed over to Messrs. McCallum Bros. of Orillia, who had been negotiating for its possession for some little time. This business is one that its former owner has brought to a high state of efficiency, and is one that bears comparison with any in the province. Notwithstanding the present competition of the street railway, the new proprietors have every reason to believe it will be maintained in as good a condition as ever. Mr. Leary will retire, for a time, from work of all kind and recuperate.

A BROAD CHARTER

Peterborough Cereal Company's Powers as Accorded by Charter Now Gazetted

The Peterborough Cereal Company have been given extensive powers, as denoted by their charter published in the current Ontario Gazette. The Provisional Directors are; Messrs. W. H. Meldrum, W. G. Ferguson, Adam Hall, R. R. Hall, and W. H. Collier, of Kingston. The charter authorizes them to "Manufacture, but, sell, trade, or deal in any and all kinds of grain, flour, cereals, vegetables, fruits, animals and their products, poultry and their products, and the products of the farm, and in any and all articles manufactured therefrom, and, for such purposes, to own and operate boats, barges, elevators and warehouses," the Corporate Name of the Company to be Peterborough Cereal Company, Limited; the share capital of the Company to be two hundred and fifty thousand dollars divided into two thousand five hundred shares of one hundred dollars each, the head office of the Company to be at the said town of Peterborough.

Enforcing the Factory Act

The Provincial Factory Inspectors recently dealt with a case where a "permit" signed by a Justice of the Peace and the principal of a public school, had been made out with a view to allowing a boy of twelve to continue working in a factory after the boy had been notified by the inspectors that he must quit work because he was under age. The reason advanced in the "permit" was that owing

there are doubtless many cases of hardship experienced through the enforcement of the age limit; abuses would gradually creep in if the law were not enforced. The factory inspectors would, therefore, like to have the public understand that no persons have any power to grant "per-

How Health Is Gained.

The story of a great deal of the unhappiness of women is a story of lost health. Women wonder how it is that little by little the form loses plumpness, the cheeks grow hollow and sallow, and they feel tired and worn-out all the time. In a large proportion of cases when women are weak, run-down and falling off in flesh and looks, the root of the trouble can be traced to womanly diseases which undermine the general health. The proof of this is that women who have been cured of painful womanly diseases by the use of Dr. Pierce's Favorite Prescription have recovered their general health, gained in flesh and in appearance.

$500 Reward for Women Who Cannot be Cured.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I suffered for three years with ovarian trouble," writes Mrs. Ana Quinn (Treasurer Woman's Athletic Club), of 556 Sycamore St., Milwaukee, Wis. "The treatment I took did not do me a particle of good, until a good neighbor who had been using Dr. Pierce's Favorite Prescription advised me to give it a trial. The next day took my first dose, and it was my first step toward recovery. In nine weeks I was a different woman; my flesh which had been flabby became firm, complexion clear and my eyes bright. It was simply an inducting of the great change within from pain and suffering to health and happiness."

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorize the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorize the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 863 of the County of Peterborough, passed to authorize such conveyance by the said County.

4. To authorize the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 3 of chapter 74 of 3 Edward VII. so as to authorize the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

BY-LAW No. 1081—To provide for borrowing money to pay the Town's proportion of the cost of sewers on certain streets in the said Town;

BY-LAW No. 1082—To provide for borrowing money to pay the cost of the construction of sewers on certain streets in the said Town secured by local special rates;

BY-LAW No. 1109—To provide for borrowing the sum of $10,000 for the purchase of a site for an Armory in the said Town;

BY-LAW No. 1112—To provide for borrowing the sum of $3,000 required by the Board of Education to pay for alterations in the heating apparatus in the Central Public School;

BY-LAW No. 1117—To provide for borrowing $20,000 for the purpose of making extensions, improvements and alterations in the Waterworks system of the said Town;

BY-LAW No. 1119—To provide for borrowing the sum of $12,000 for reconstructing and repairing bridges and for purchasing land for and opening new streets in the said Town;

BY-LAW No. 1126—To aid The Peterborough Cereal Company (Limited) by a grant of land and a fixed assessment of $10,000 for ten years;

BY-LAW No. 1127—To aid The Peterborough Shovel and Tool Company (Limited) by a grant of land and a fixed assessment of $4,000 for ten years;

Dated at Peterborough this 11th Day of February, 1905.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIII NO 40 — PETERBOROUGH ONTARIO, FRIDAY FEBRUARY 17 1905. — PRICE TWO CENTS

JAPANESE ON THE SHAKHE BOMBARDED RUSSIANS.

Russians Mounted Force Retired When Enemy was Reinforced---Vladivostok Sealed Up by Admiral Uriu's Squadron.

Tokio, Feb. 17.—The following despatch was received this morning from the headquarters of the Japanese armies in Manchuria;

"In the direction of the Shakhe River our artillery on February 14th bombarded Chiensunmuraotzu and set fire to that village. The enemy's artillery in the neighborhood of Sanchongtzu Mountain replied.

"During the night of February 14 a section of the enemy's infantry attacked Waitao Mountain, and at dawn February 15 a battalion attacked Waitao Mountain, but the Russians were entirely repulsed.

CLOSELY BLOCKADED.

New York, Feb 17.—A St. Petersburg despatch to the Herald says;

"Reports received here announce that Vladivostock is being closely blockaded by Admiral Uriu's fleet."

WHITE BY ACCLAMATION

Again Elected as Councillor for Smith Township

A meeting was held at Bridgenorth on Monday for the purpose of receiving nominations for the position of Township Councillor for Smith, made vacant by the disqualification and subsequent withdrawal of Mr. Richard White, of Young's Point. Mr. F. J. Bell, the Township Clerk, presided at the meeting. Mr. Richard White was named by Mr. R. J. Kidd, seconded by Mr. James Sucese, and this being the only nomination, Mr. White was declared elected by acclamation.

MANAGER OF CONSTRUCTION

The New Appointment for Mr. J. W Leonard

Mr. J. W. Leonard, the President of the Guelph and Goderich Railway Company, a line that will be operated on its completion by the C. P. R., has been appointed manager of construction of the latter company's line between Sudbury and Toronto. Mr. Leonard will have his office in Toronto. The Sudbury-Toronto line is now graded between Sudbury and Byng Inlet, and work upon the laying of the track will, it is said at the head office here, commence immediately upon the opening of spring. The line will shorten the route between Toronto and Winnipeg, by some sixty miles.

READY FOR FURNISHING

The Y. W. C. A. Building is now Nearing Completion

The House committee of the Y.W.C.A. desire to announce that as the building is nearing completion, it is necessary that arrangements be made for the furnishing of the rooms.

The committee feel that very many of the citizens would like to assist in the matter. The custom in all public institutions is to have iron bedsteads, and, in order to have uniformity in this particular, the committee intend purchasing these wholesale.

It is almost impossible to specify the articles required, but anything in the line of house-furnishings will be thankfully received. Donations in money or goods may be sent to the Y.W.C.A. rooms, over the Bank of Commerce, at as early a date as possible.

THE HOUSE FAMINE

Scarcity Will be Very Great When the Spring Opens up

The building season will open in most of the cities and towns of Canada with little relief in the matter of house accommodation. In Toronto, where the pinch is severely felt, some respectable people being housed in stables, the Trades and Labor Council wants the city to advance loans to help workingmen to build homes of their own. At Toronto Junction the residents are face to face with a house famine. In Peterborough there are few vacant houses, and although building promises to be brisk the coming season, if people troop into the city at the same rate that they did last year, the scarcity of dwellings will be about as bad as ever. Those who have money and wish to build are holding off in the expectation that the building cost will fall in a year or two, but that is unlikely, so long as the times continue prosperous.

A GOOD IDEA

The Y.M.C.A. Will Add Sleeping Accommodations to Their Fine Building

Many a stranger in town forgets his foreign environments as soon as he has called at, and made acquaintance, with the homelike quarters of our local Y.M.C.A. Building. However, unlike the mode of procedure in Y.M.C.A. buildings in other cities, he must lay his head elsewhere when night comes on, and thus he is forced to choose between boarding houses, too often bleak and ill-furnished, or hotel, where he feels, as he is, a stranger.

To complete the already splendidly planned and equipped building, the local Y.M.C.A. officials have decided and the House Committee will carry out the particulars to erect dormitories in the top story of the building. The work will shortly begin and it is hoped that the rooms will be ready for occupation by April 1st. It is expected that $1,000 will about cover the expense of the proposed alterations.

Partitions will be erected, as the rooms, as at present, are too large for the number of guests it is anticipated will apply for quarters. In addition to the accommodation this will present to out of town members, there is no doubt but that many of our local young men will apply for

CHANGES GOING ON

Messrs. May and Green are Having Their Goods and Chattels Moved

All was in confusion yesterday at the new offices of the Town Tax Collector and the Town Engineer. As already told in The Times, these gentlemen had to vacate the old premises, in favor of the coming branch of the Bank of Nova Scotia, and new quarters were secured for them immediately over Mr. C. N. Brown's flour and feed store. The new offices, which are just at the right hand, at the head of the stairs, are, it would seem, altogether inadequate for the purposes of such important public business, however they may do until more suitable accommodation is procured. By the time the humble citizen has caught his breath, after climbing the stairs, he will enter a small room located between Mr. Hay's office at the south, and Mr. Green's at the north, overlooking Simcoe street.

A new partition has been erected to make the office for Mr. Hay, the Town Engineer, and all walls are being newly hung with paper, and ceilings whitewashed. There is no vault on the premises, but one gentleman facetiously suggested that the tax office be connected with the Ontario Bank by pneumatic tube or wire aboy carrier, over Simcoe street.

POLICE COURT NEWS

Deaf and Dumb Men Gets Six Months in the Central Prison.

Yesterday, Magistrates H. Rush and Eastwood, arose in their might and gave James McGee the limit. McGee is a deaf mute, whose familiarity with the glass that both cheers and inebriates, has made him a terror to many householders in the neighborhood of his arrest. On Tuesday last at the corner of George and King streets, armed with a bottle, the outward and visible sign of the inward and spirituous load he staggered under, McGee terrorized the gamins by, both by actions and inarticulate gruntings. People were afraid to approach the seeming lunatic, and had difficulty in preventing his smashing windows. After his arrest by P. C. Stewart, he acted, in the police cells, like a demented, smashing the heavy cell bucket, and a lamp. He had only been released from jail last Sunday, after a month's confinement, and had been warned to leave town; however, he declined to obey this mandate unless provided with a ticket to Belleville. As he had no particular spite against that city, the Chief politely declined to accede with this modest request. Their Honors decided that a six months' sojourn in the Central Prison, Toronto, would suit McGee's complaint. If he comes up again it will be six months twice a year for some time to come.

At yesterday's court, Fred Hubbell, charged with vagrancy, a youth of some 17 summers, pleaded that he would rather go to the Central for six months, than return to his home in Smithtown, or go to work. The Magistrates advised him to go home, and, after a warning as to his future conduct allowed him to go.

GRANTS TO FAIRS

Ontario Fairs Association Recommended a Change

Mr. D. Hughes-Charles, President of the Peterborough Industrial Fair Association, was in Toronto on Tuesday, attending the annual convention of the Ontario Fairs Association.

The meeting decided that it would be in the best interests of scientific agriculture in this province if a radical change were made in the present method of apportioning the Government grants to township and district societies, approximating $80,000, and that henceforth the grants be made on the basis of the actual work done and money expended by each fair for purely agricultural purposes. Hitherto the Department of Agricultural has granted $800 to each district society and $420 to be divided equally among the township societies in the district. Many of these societies hold fairs that are not of much educational value to the farmers and stock raisers, and that expend more money on horse racing, grand stand performances, etc., than in prizes for pure bred stock, and exhibits of farm and garden products. The association, after a lengthy discussion, adopted the resolution noted above as being calculated to encourage the best fairs and to discourage the extraneous attractions.

The resolution was moved by Mr. Hughes-Charles, and seconded by Mr. Mooney, of Berlin. The chief objection urged to it by a number of the speakers was that the withdrawal or decrease of the grant in the cases of a number of the smaller fairs might result in their complete extermination. It was pointed out, however, that a deliberatum of the association was to consolidate energies to a some of the smaller and inefficient fairs, and that in any event the resolution was simply a recommendation to the Government. It would not affect any fairs for the present year, and the Government would first have to draft some plan for carrying it into effect.

SHOOTING IN COURT

Woman Draws a Revolver and a Lively Fusillade Followed

Jacksonville, Fla., February 17.—Miss May Brown, is dead, her mother, Mrs. Joseph H. Freeman, dangerously wounded and William B. Cahoon, city detective, is lying at death's door, the victims of a shooting affair in Judge Farris' Court yesterday Owen Loadholder was placed on trial to answer a charge made by Miss Brown. The testimony was all in, and Judge Farris announced that he would give a decision on Wednesday. Mrs. Freeman arose and said she wanted the matter settled then and there. She pulled a revolver and fired at Loadholder. Her daughter ran to her side and begged her not to shoot. Loadholder with a drawn revolver, ran behind Judge Farris for protection. Several shots were fired, and Mrs. Freeman and her daughter fell to the floor. The daughter died in a few minutes, but before she passed away she drew a revolver and fired in the direction of Loadholder, striking Detective Cahoon in the back. Loadholder is in gaol. The court room was filled, and there was a stampede. One woman fainted and was trampled on.

A PAPAL ENCYCLICAL

Dealing With Relations of Church and State in France

Rome, February 17.—The Pope has informed several Cardinals that he is preparing an encyclical, detailing the history of the conflict in France between Church and State, and announcing the basis of a new organization of the French clergy. The entire encyclical will probably be published at a special consistory.

LOST NEAR SOUTH POLE

Antarctic Explorers Believed to Have Perished

Paris, February 17.—It is greatly feared the Antarctic expedition, commanded by Dr. Charcot, which started more than a year ago from a South American port in the hope of reaching the south pole, has been lost.

It is known to have encountered a terrible storm in April last year, and has not been heard of since, nor have any traces of its movements been discovered by Uruguay, which sent out a party to its rescue.

Charles Rabot, a member of the committee of the Society of Geography in Paris, intends to organize another search party to ascertain its fate.

GREAT ICE JAM

The Great Ice Jam on the St. Lawrence River

Ogdensburg, N.Y., February 17. — The ice jam in the St. Lawrence at Crosby's Island, twelve miles below Waddington, has gradually filled in, until yesterday a foot bridge was offered between Waddington and Morrisburg, Ont., via Dry Island, something never before known. The river is now blocked with ice for ten miles and doing great damage. The water is eleven feet above high water mark, and still rising.

Yesterday afternoon while a gang of quarry men in Adams' and Duford's quarries at Chaumont, was engaged in removing a mass of frozen earth which overhung the ledge where they were working, a large piece crushed down upon George Morehouse, one of the workmen, fatally injuring him.

A REMARKABLE CASE

A Singular Occurrence Recalled by Death of T. Guertin

St. Hyacinthe, February 16.—Mr. T. Guertin, who is dead here as the result of injuries inflicted by a snow plough, was the central figure some thirty years ago of a singular occurrence. Mr. Guertin, while living at La Presentation, went out hunting with a nephew named Brunelle, who was visiting him from the United States. While they were out the nephew decided to go to his home across the line, and the uncle returned alone. The suspicions of the neighbors were aroused, and, some bloody linen found in the woods giving an appearance of proof, Guertin was tried for murder, found guilty, and sentenced to death. Two days before the execution the nephew heard of his uncle's predicament, and arrived just in time to save Guertin's life.

THE CHADWICK CASE

The First Indictment to be Tried Will Probably Be for Conspiracy

Cleveland, Ohio, February 16.—J. P. Dawley, chief counsel for Mrs. Chadwick, appeared before Judge Taylor in the United States District Court yesterday and asked that the district attorney state upon what charge his client would first be tried. In reply District Attorney Sullivan said that as the grand jury was still in session and hearing testimony relative to the case, he could not tell definitely upon which indictment she should be tried until the latter part of the present week, when he expected the grand jury would complete its work. Mr. Sullivan added, however, that Mrs. Chadwick would probably be placed on trial first on the charge of conspiracy. The indictment, against Mrs. Chadwick, alleging conspiracy, charges her with acting with President Beckwith and Cashier Spear, of the Citizens' National Bank of Oberlin to violate the statutes of the United States regarding such banks.

—The Dan. Spence ambulance was out yesterday bringing a patient

LEAVE IT WITH THE PROVINCE

A letter on the North-West school question, addressed to the Editor of The Times, without date or signature, states that "if a Province should "not be coerced into "establishing Separate "Schools it should not be "coerced into rejecting "Separate Schools. Con-"sequently the logical "position for Ontario elec-"tors is to remain silent "and allow the measure to "become law, if the Ter-"ritories are satisfied." No one proposes that the new Provinces shall be coerced into rejecting Separate Schools. There are two proposals; one that the Separate Schools shall be established by Federal authorities, and the other that the Provincial authorities shall have full liberty to establish, maintain or abolish Separate Schools.

POWERFUL NAVY FOR UNCLE SAM

Will Soon be Second in the World

MANY NEW SHIPS BUILT

And Vast Increase in Naval Expenditure by United States

Washington, February 16. — In twenty years the United States has expended almost a billion dollars in building up a modern naval establishment. To be exact, the amount is $925,028,014.04. The work began in 1883, when Mr. Arthur was President, and the first appropriation was $14,819,976.80. At that time there was no such thing as a United States navy. The few ships that were in commission were of ancient pattern and entirely contemptible as a fighting force. But from the day that President Arthur signed the first Act the work of naval construction has proceeded steadily, until at the present time the United States stands third in the list of sea powers. Only Great Britain and France have larger fleets. With the immense resources available, it will not be long, at the present rate of increase, before the American navy will surpass that of her sister Republic, and work up to an equality with Great Britain. The steady increase in the annual appropriation for naval purposes has brought it up from $14,819,976 in 1883 to $103,633,115 in 1903-04. These figures show the determination of the people to have a navy, for, while there have been scattering protests against the heavy expenditures, there has been no force behind them. On the whole, the people are satisfied to bear the burden in order to make the display. At the present time there are fourteen battleships, ten armored cruisers, and twenty-three vessels of other classes under construction. Altogether the navy consists of 285 ships of all classes fit for service, ranging from eleven first-class battleships to fourteen supply and hospital ships, with forty-seven vessels under construction, ranging in power from battleships to tugboats, while fifteen unserviceable wooden steam and sailing vessels are carried on the list.

A Pointer for our Merchants

The Woodstock Sentinel-Review says the grocers of that place are considering a new arrangement in the delivery of goods to customers. It provides for the delivery of all orders received before 10 o'clock during the forenoon, orders received between 10 o'clock and 4 o'clock to be delivered in the afternoon, and orders received after 4 o'clock in the afternoon to be delivered the next morning. In regard to Saturday, the new scheme provides that no orders received after 8 o'clock p.m. will be delivered on Saturday night. Some such plan here would tend to earlier shopping, and thus not only ease the burden of the delivery men and horses, but of the clerks also.

THE ASSESSMENT ACT

New Phases of the Act now in Operation

The new Assessment Act is causing the assessors considerable trouble. It is difficult to understand, but when once mastered, will be comparatively easy. Peterborough's assessment will not be made for some time to come, so that the assessors will have ample opportunity to study the Act.

In some municipalities a notification is being sent to each married woman assessed on property held in her own right that she may if she pleases, have the name of her husband entered on the rolls, and thus secure representation for the property. Under the old act a married woman could only vote at elections for school trustees, whereas now her husband may vote on her property at all municipal elections, and, if sufficiently qualified, on money by-laws.

It has developed, however, that some married women object to allowing their husbands' names on the rolls, evidently fearing that they thus lose control of their properties. The assessment roll does not prove or disprove ownership of property, and although this has been emphasized the department has received many refusals of married women to give their husbands votes on the property which they themselves own.

One provision of the act that will do much to encourage the young man contemplating matrimony is that relating to the exemption on personal earnings. Those who are not assessed as tenants or householders have an exemption up to $400, whereas a tenant enjoys an exemption of $1,000. The late Judge McDougall found that a tenant was one who was directly liable to the householder for the rent. With a rate of twenty mills on the dollar the tenant earning $1,000 would have no taxes to pay on it, while a young man boarding would pay $12 a year on the same income.

In the larger cities notices are being sent out to large employers of labor, requesting the names and places of residence of all employees, and the amount of wages or salary paid each. This information is checked with the rolls, and all of those who are shown to be tenants are allowed the $1,000 exemption. The taxes under this assessment are payable in 1906, and there will be an early collection to ensure the payment of their share by the thousands of young men who live in lodging and boarding houses.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

A GREAT GAME TO-NIGHT.

The seniors had a work-out last night, and are in the pink of condition for to-night's game with Markham. The locals are aware of the fact that they will have to travel some to down the visitors who have strengthened up some since the game at Markham and attribute their defeat to over-confidence. However, the local septette are determined to win and a hard, fast game of hockey will take place.

Trinity College School, Port Hope, have a hockey team coming here on Saturday. They will play the West End Rockey team on the Brock street rink.

Markham Hockey team play here to-night.

• • • •

The Ladies' Hockey Club had a splendid practice game yesterday. They had a full team on both sides.

• • • •

The ice, which has been in splendid condition of late, will be reserved to-day for the hockey game.

THE SEPARATE SCHOOL TROUBLE A MATTER OF MUCH SPECULATION.

The Impending Debate at Ottawa on the Western Autonomy Bill---Will Mr. Sifton Resign? Is Absent From the House.

Ottawa, Feb. 17.—Naturally the Autonomy Bill is the uppermost question among the members of the House at the present time. If it were not for the Separate School issue involved, it would be a simple piece of legislation that would be disposed of easily and expeditiously. But members of the Government and members of the House find themselves in a very difficult position in dealing with the question. It was upon this very issue that the Liberals gained office in 1896. Consequently it becomes difficult for the Administration to fasten Separate Schools on that vast territory from the boundary of Manitoba to the Rocky Mountains. Yet that is what the Government seems prepared to do.

The Ministry's Intentions.

In well informed circles it is accepted as the settled policy of the Government to reenact in the new bill the clause under which Separate Schools are now authorized in the Territories. Every possible influence is being exerted to make this policy acceptable to members on both sides of the House. It is being represented as a purely constitutional question, and doubt is thrown upon the validity of the measure to establish Separate Schools in the new Province for all time against the wishes of future generations of electors. The aim is apparently to chloroform those representatives whom the country would naturally expect to voice the opposition to the measure.

Premier Haultain's Attitude.

In this connection it is feared that Premier Haultain will not offer any serious opposition to the bill in that shape. This is an important point gained in favor of the Church. He represents the Territories as they are to-day, and is regarded as sure to be the Premier of one of the new provinces. If he is willing to accept autonomy with Separate Schools attached, it will provide a powerful leverage to move hesitating members in the same direction. The motive that impels Mr. Haultain to this course is probably the politician's inclination not to throw down the gauntlet to an organized vote. He knows the influence of the Church that it moves as a mass against the public man who sets himself against its purposes, and it may be that he prefers to work with it rather than take the chances of being crushed by it.

What Will Mr. Sifton Do?

If, as suspected, the advocates of Separate Schools have secured him as an ally, they have accomplished a good deal. This fear of Premier Haultain has raised the question in the minds of many as to what Mr. Sifton will do. He is out of the country at present. Is it because of a desire to avoid embarrassment? Will he return to take part in the debate? And if he does, what will be his attitude? He made his reputation by fighting against imposing a Separate School system upon the Province of Manitoba. Chiefly because of his success in the memorable struggle of 1896 he was the acceptable representative of the West in the Cabinet. Will he absent himself from Parliament, or will he return and champion the new provinces as he did Manitoba? If he should do that it would necessarily involve his retirement. Another form the question takes is whether he will remain away until the Act is passed, and continue to hold his place in the Ministry. If this also has been accomplished—the silence and acquiescence of Mr. Sifton—it marks a double victory for the forces that are behind the Church. Mr. Haultain and Mr. Sifton, by reason of their personal abilities, as well as of their representative positions, will be powerful allies for the Government, as they would be potent forces against the proposed bill.

Western Men are Puzzled.

The uncertainty regarding the course of these leaders has a confusing effect upon the western members. Some of them doubtless will be found opposing the Separate School clause of the bill, but their attacks must necessarily be weakened by the lack of leaders who have the experience for such a conflict, and who could claim to represent, not one constituency only, but the whole West. If the Territorial Premier and Minister of Interior provide a shield for the silent western member, the task of fighting the bill will be rendered still more difficult.

What of the Orangemen?

What will Dr. Sproule do? He is the Grand Master of the Orange Association. In that capacity he represents a body of sentiment in this Province and the West that is unitedly and positively opposed to any extension of the Separate School system. In all probability he will lead a determined attack upon that clause of the bill. There is no other course open to him, if he wishes to remain in public life. Mr. N. Clarke Wallace saw, and took, the straight path in 1896. He was a more forceful man in some respects than the present Grand Master. But the path he blazed is the only one that his successor can follow with credit to himself and satisfaction to the members of the order he represents.

What Will Mr. Borden Do?

A good deal of speculation is also indulged in as to what the leader of the Opposition will do. His Quebec following is not numerous, but it is influential in the party councils, and may swing his into line with those who seem ready to languidly oppose or silently accept the whole thing. Such a policy would be most unpopular in Ontario, whence Mr. Borden draws most of his support. It would lessen the enthusiasm of thousands of his sworn supporters and alienate the increasingly large independent element. The question is a difficult one for Mr. Borden, no doubt, but the safe course is the one that runs parallel with sound principle. If he should decide to adopt a vigorous policy in opposition, it would become difficult for the natural opponents of Separate Schools to maintain an attitude of silence or acquiescence. He would besides stimulate those who under any circumstances will resist the Separate School clause in the new bill.

Venezuela Defies Roosevelt

Paris, Feb. 17.—A semi-official despatch from Caracas, Venezuela, says that upon the pressure of President Castro, the court has ordered the sequestration of the landed property of the American Asphalt Company. This decision, the despatch adds, has caused excitement in the American colony at Caracas.

This is practically a defiance to the United States, and it will be interesting to see how soon President Roosevelt takes action, which will bring the two countries to the brink of war. He has already twice warned Venezuela that continued defiance of the demands of the United States would meet with prompt reprisal, and it will not be surprising if an American squadron is sent at once to Venezuelan wat-

The Way Admiral Loskinsky Described th Port Arthur Fleet

Paris, Feb. 16.—French special correspondents sent to meet the French steamer Australiens, having on board General Stoessel and others of the survivors of Port Arthur, forward detailed accounts of discord among the Russian officers. The army officers are particularly hostile to the fleet, habitually calling it the "frightened fleet."

Admiral Loskinsky, who was com-

Port Arthur, is lengthily quoted as making a bitter criticism of General Stoessel, Admiral Alexieff, and others. The Matin quotes Loskinsky as characterizing Vice-Admiral Stark and Rear-Admiral Withoeft as "bed chamber admirals, not acquainted with their duties and seasick whenever afloat." The admiral added that Vice-Admiral Skrydloff prudently established himself ashore at Vladivostock, notwithstanding his opportunity to break the ineffective blockade of Port Arthur.

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was afflicted with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if desired.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 17 1905

THE ONTARIO SURPLUS

The fact that a surplus of six million dollars borrowed by the Ross Government some time ago falls due for payment in a few days has caused anxious renewed enquiries by Conservative newspapers after the famed Ontario surplus. Some of these journals profess to wonder how it is that Ontario, if possessing a surplus of three millions as was stated prior to the provincial general election, happens to have a loan of six millions to pay now. The Ottawa Journal thinks that the surprise is not altogether inexcusable, still it is quite possible there is a genuine surplus, notwithstanding the apparent debt. The money, or most of it, is stated to have been borrowed to build the Temiskaming railway. That railway is owned by the province, and ought to be good value for the money. In other words, the province may be owing six millions in cash for the time being, but if the province owns a corresponding six millions in railway, Ontario is neither richer nor poorer than before the money was borrowed.

The real point is, what is the condition outside of the money which has been put into the railway?

The Conservatives should possess their souls in peace for a little. Their delegates in the Whitney Cabinet are in a position now to secure the fullest information, and will undoubtedly announce as early as possible their deductions.

EDITORIAL COMMENT.

A Toronto paper says 80 per cent. of the public school pupils in Toronto do not go beyond the third book. Can that be true? Most public school pupils are in the third book at from 10 to 12 years of age. What do they do afterward? Or is the Toronto youth specially stupid and backward?

• • • •

The Toronto female teachers are not so lucky as their male associates in the matter of salaries. The minimum has been fixed at $350 again, and the maximum raised to $710.

• • • •

The United States Senate's action in rejecting the arbitration treaties shows that it, as not a factor in the advance of civilization. The "big stick" theory possesses it, more's the pity.

• • • •

The Russians at Mukden have everything in readiness for retreat at any time. They have learned one lesson.

DOURO COUNCIL

Regular Meeting Held on Monday, February 6th

Council met on Monday, February 6th. All the members were present. On motion of the reeve, the minutes of the previous meeting were read and confirmed.

Moved by Coun. F. Leahy, and seconded by Coun. Allen, that the auditors present their report.

Moved by Coun. F. Leahy, and seconded by Coun. Allen, that the auditors report be received and adopted, and that the clerk get 200 copies printed.

Moved by Coun. John R. Allen, and seconded by Coun. Quinlan, that the sum of $50.00 be expended on line of road between lots 5 and 6, in con. 7.

Moved by Coun. Quinlan, and seconded by Coun. Allen, that no action be taken towards purchasing a road grader at the present time.

Moved by Coun. F. Leahy, and seconded by Coun. Quinlan, that the reeve be instructed to communicate with the proper authorities to require the government to erect guards on the river road in front of lots 8 and 9, in con. 8, and in front of lots 7 and 8, in con. 10.

Moved by Coun. F. Leahy, and seconded by Coun. Allen, that John O'Brien be authorized to make 100 links of concrete tile 12 inches in diameter for culvert purposes, cost not to exceed $1 00 per link delivered where required.

Moved by Coun. Quinlan, and seconded by Coun. Allen, that Jeremiah Mober be appointed pathmaster in road division No. 49, in place of Michael Kennedy.

Orders on treasurer: Maurice Corcoran, auditor, $9.00; Geo. Brooks, auditor, $9.00; W. E. O'Brien, collector, salary, 1904, $50.00; Portland Cement Co., on certificate of engineer, re Buckley's lake drain $919.87; Times Printing Co., $1.50; caretaker of town hall, oil, etc, 50c.; reeve, stamping ink for auditors' pad, 25c.

Moved by Coun. F. Leahy, and seconded by Coun. Quinlan, that the names subm tted by the collector as his bondsmen be approved of and accepted.

On motion, council adjourned at a call from the reeve.

INVESTORS.

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. BUTTE COPPER MINING & SMELTING CO., Butte, Montana.

BED CHAMBERS ADMIRALS

Paris, Feb. 16.—French special correspondents sent to meet the French steamer Australiens, having on board General Stoessel and others of the survivors of Port Arthur, forward detailed accounts of discord among the Russian officers. The army officers are particularly hostile to the fleet, habitually calling it the "frightened fleet."

Admiral Lockinsky, who was commander of the torpedo defences at Port Arthur, in lengthily quoted as making a bitter criticism of General Stoessel, Admiral Alexieff, and others. The Matin quotes Lockinsky as characterizing Vice-Admiral Stark and Rear-Admiral Withoeft as "bed chamber admirals, not acquainted with their duties and seasick whenever afloat." The admiral added that Vice-Admiral Skrydloff prudently established himself ashore at Vladivostock, notwithstanding his opportunity to break the ineffective blockade of Port Arthur.

NOT A SCAPEGOAT.

Lockinsky declared he would denounce Stoessel, Skrydloff, and Alexieff before the court-martial, as he did not intend to let himself be made a scapegoat like Rear-Admiral Oukatemsky, "who now trembles with fear in a Chinese hospital." Lockinsky cited many instances of the unpreparedness of the land and naval defences, frequent conflicts of authority, and demoralization during critical engagements.

Substantially the same account is given by four French newspapers, which describe General Stoessel and Admiral Lockinsky as refusing to speak to or salute each other. The papers say the discord among the officers foreshadows grave scenes before the court-martial.

STOESSEL SARCASTIC.

The Petit Parisien quotes General Stoessel as sarcastically saying:

"Rojestvensky had better not establish a too secure base on the route, or like the naval officers at Port Arthur it will be impossible to let them venture seaward."

The correspondent of the Petit Parisien adds;

"General Stoessel cannot pardon the navy's failure to succor him, while the navy fully returns his hatred."

The French special correspondents conclude that the fortress fell largely because of the regrettable quarrels among the officers.

WAS AN INCENDIARY.

Tokio, Feb. 16.—A fire took place at the Atsuma works, near Nagoya, last night, and the damage done was considerable.

The origin of the fire is unknown, but it is considered possibly the work of an incendiary. A searching investigation is now in progress.

NEW TORPEDO BOATS.

Tokio, Feb. 16.—The new torpedo boat-destroyers Ariake and Fubuki, constructed in Japan, have been placed in commission. Their average speed is 29 knots per hour.

The torpedo boat-destroyer Arare is finished at the Yokosuka Navy Yard, and is ready to be launched.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

25,000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $500,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 feet working tunnel, shaft with three levels, ore hoisted by gravity discharging from one level to another through winzes into our own railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, healthy stock mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment, after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

From Yesterday's Issue

WILL CONTEST EVERY MOVE

Gaynor and Greene Will Appeal at Every Stage

IT MAY BE A LONG FIGHT

The Standing of Judge Lafontaine as Extradition Commissioner Will Be Attacked

Quebec, February 15.—Gaynor and Greene seem to have made up their minds that it will take some time to extradite them to the United States and they intend, if they have to go back at all, to delay their going as long as possible. They are particularly careful to say nothing to the press, but some of their friends, to whom they have opened up their minds are not quite so discreet and hence some of their recent sayings may be reproduced.

Captain Greene, for instance, has repeated to more than one of his acquaintances that he would not further contest extradition at all, if assured a change of venue from Savannah. He says that the judge there before whom Mr. Erwin, the United States District Attorney, wishes to have him stand his trial is so much pledged to convict him that he obtained his re-election on the bench on that very policy. Consequently, Captain Greene will now fight extradition to the very last.

There is at present no love lost at all between Gaynor and Greene, and judging from the manner in which they both talk, each is inclined to blame the other for his misfortunes, and neither will very much regret anything that may happen to the other.

THEIR PLAN OF CAMPAIGN.

Whatever proceedings are taken in accordance with the Privy Council's decision to remove them to Montreal for trial before Judge Lafontaine will be appealed from to higher courts so far as it is possible to go. Then the justification of Mr. Lafontaine as a judge in extradition proceedings will be attacked by means of a writ of prohibition and there will be unprecedented contestations of procedure under the treaty, which, it is confidently believed, will result in the discovering in it fatal defects. Both the contestation and the prohibition proceedings are expected to give rise to several appeals if decided against the accused at first, and should it come to a trial of the extradition demand upon its merits, Judge Lafontaine's decision, if adverse to Gaynor and Greene, will be appealable to a judge of teh Superior Court or Court of Appeals, if the appeal judge should decide against the accused. There can still be no extradition without an order signed by the Governor-General-in-Council and His Excellency cannot sign until the Order-in-Council has been passed by the Ministers, nor will the ministers so pass it until recommended so to do by the Minister of Justice.

SLIDING INTO THE SEA

England Gradually Slipping Under the Ocean's Surface

Dover, Del., Feb. 16.—It is hourly expected that another million tons or so of Great Britain will drop off into St. Margaret's bay, and reports from other parts of the kingdom say that like catastrophies are expected at various points. This is particularly true at Brighton, and the publication of a work, picturing the ruins of the ancient capital of East England, Dunwich, just issued, may be prophetic of the fate of London's Newport. Dunwich, we are told, had 52 churches and vast fortifications. Its ruins in Suffolk are falling to pieces, and the name of the ancient town is preserved only by a few houses. So did the once famous town of Ravansburg drop into the sea.

At one time Ravansburg was more important than Hull is to-day. Fifteenth century chroniclers described it as a thriving town, rich in beautiful edifices. We last hear of its existence in 1538. Then it dropped into the sea.

The following seaport towns of the England of to-day are gradually sliding into the sea; Lowestoft, Clacton, Aldenburg, Walton and Beech Head. England loses as much ground annually as comprised by the rock of Gibraltar. On the east coast alone enough ground to form another Heligoland is swallowed by the ocean annually.

The agricultural department placed at the correspondent's disposal the following table showing the gradual reduction of Great Britain's agricultural domain by the sea's inroads;—1867, 56,964,260 acres; 1880, 56,815,254 1890, 56,786,199 acres; 1900, 56,782,602 acres.

"According to this it is easy to figure out when some Irish ultra-patriots will have their wat," said King Edward recently, "because England is

THE NEW CAPITAL

If In Case of War Banff Could not be Easily Captured

Calgarry, N.W.T., February 15.—The advocates of Banff as the Provincial capital, are urging that one strong reason for the location is that it can be easily defended in case of war. Today C. W. Fisher, M.L.A., of Banff, addressed a letter to Premier Haultain, in which he said: "Although the times are peaceful and Canada desires peace we ought to consider the possibility of war. If such an unhappy event should occur what spot in the West could be so easily defended. A capital on the prairie would be exposed to easy capture, while Banff in a few weeks could be turned into an impregnable fortress.

ARMISTICE WITH JAPAN

Czar Said to Have Conferred Regarding Steps Toward Peace

Paris, February 16.—A despatch to the Petit Parisien from St. Petersburg says that the Czar is said to have consulted competent persons upon the best way to conclude a preliminary armistice with the Japanese, and then to come to a definite understanding upon conditions that would not be too humiliating or onerous for Russia to accept.

SURPLUS IS SUBSTANTIAL

C. P. R. in Six Months Places $2,452,531 to its Credit

Montreal, February 16.—At the regular meeting of the directors of the C.P.R. held this afternoon, a dividend of 1 per cent. on the common stock for the half-year ending Dec. 31, was declared. After the payment of working expenses, fixed charge sand dividends now declared, there is a surplus for the half-year of $2,452,531.

AS TO ADVERTISING.

The Merchant Who Builds up His Business Through Publicity and the Doctor Who Does the Same.

The most peculiar thing in life is human nature and its contradictions. What is right for one man or woman to do is quite wrong for another. Ask those who approve the one and condemn the other why and they will not be able to give a reasonable answer. It is all right for one man, for instance, to advertise his business, but it is equally wrong for another man to do so. It is all right for the merchant to inform the public that he has some $1 silks which he is selling for 64 cents and a package of toothpicks thrown in, but let a doctor advertise that he has a particular remedy for a particular form of trouble and see what a howl will go up from—the other doctors. And yet all doctors advertise—when they get a chance. The only difference between doctors in this matter is that some of them pay for their advertisements and the others do not. But in both cases the value of the advertising is recognized.

One of the greatest advertisers in this country is Dr. Ray V. Pierce, of Buffalo, N. Y., head of the famous World's Dispensary Medical Association, which manufactures those widely and favorably known remedies, the "Favorite Prescription" and the "Golden Medical Discovery." Dr. Pierce, like other men who have dealings with the public, knows that the only way to sell goods is to let the people know that you have them to sell. A merchant might have the finest line of goods in the world and at the right prices, but if he did not let the people know about them those goods would stay right on his shelves. And it is so with the patent medicine business. The proprietor must let the people know that he has a remedy which will accomplish certain results, that he is prepared to give them careful and scientific treatment by mail and the terms on which he will do so. Then those who need his services will go to him. They can't be reached any other way. Then why condemn the man who advertises a cure any more than the man who advertises a necktie?

But there is another point about this business of advertising. Fake advertisements may carry a business for a time but not for long. Lincoln used to say that you could not fool all the people all the time. That has been proved many times. A business which, like Dr. Pierce's, has stood the test of nearly 40 years, which has borne the brunt of many an attack directed by ignorance or malice, could not have reached its present mammoth proportions on misrepresentations or fake advertisements. There must be something more than that as its foundation. There must be honor and honesty in dealing with the public; else there will be failure.

The Pierce Remedies were among those which a certain prominent journal recently charged not to be what they were advertised to be. But an immediate libel suit for $300,000 brought by Dr. Pierce led to a speedy retraction of the charge.

FRENCH TROOPS TO EAST

General Unrest in French China is Greatly Feared

Marseilles, February 16.—The Government ordered 6,000 troops to Tonkin, French Cochin China. The cruiser La Touchetreville sails Sunday with the first detachment of 500 artillerymen. The order is due more to general unrest than to any particular danger.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from this shaft alone show a clear profit of $500 a day.

Another claim, with **4 feet of ore averaging $21 a ton still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,

Catarrh Leads to Consumption

he Experience of a Lady in Sydee Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was cold, just a simple cold," writes Mrs. A. V. Thorburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use Catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of staying my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing colds to develop. To neglect catarrh is ever worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally. It prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by all intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months treatment guaranteed to cure. Price $1.00, trial size 25c. at druggists or N. C. Polson & Co., Kingston, Ont., U.S.A., and Kingston, Ont. Refuse a substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

BEAUTIFUL SCENERY AT NIAGARA FALLS.

One of the wonders of the world is the ice bridge at Niagara Falls, and a sight you will not soon forget. A visit to the falls will be a holiday well spent. For tickets and full information apply to any Grand Trunk Agent.

Peterborough Man Row in Missouri

Mr. H. Rush, of the Confederation Life Company, yesterday, was in receipt of a letter from Mr. W. E. Hilliard. Mr. Hilliard is an old Peterborough boy, well remembered by many of our readers, and is a son of the late Mr. George Hilliard M. P. Some years ago he went to Regina to live, but has since located at Kirksville, Mo., where he has commenced a three years' course in the study of osteopathy.

Pretty Cathedral Wedding

A very interesting wedding was celebrated yesterday morning at six o'clock at St. Peter's Cathedral, when Miss Marcelline Gagnon, daughter of Mr. Jas. Gagnon, was united in marriage to Mr. Justus Blodgett, son of Mr. Z. Blodgett. Rev. Father O'Brien performed the ceremony. The bride was attired in cream crepe de chene cloth trimmed with lace and chiffon and the bridesmaid wore pale blue lustre, trimmed with cream lace and hat to match. Mr. Geo. Blodgett was groomsman. A wedding breakfast was partaken of after the ceremony, and the happy young couple left on the 7.12 train for Toronto and points west. Mr. and Mrs. Blodgett will reside in town.

DUTTON'S MARKET.

See our Grocery Window for Bargains.

R. A. DUTTON
Phone 304. 418-420 George Street

The attendance at the
Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

Old Shoes for New Ones

Visitors to the Brock street rink had better keep a string on their shoes, whilst there, several mistakes have been made lately, when a number 7 man has gone off with a number 11 pair of boots. In mistakes of this kind, it generally happens, that the mistaker gets a new pair and leaves his old ones of the vintage of 1899 or forgets to leave his old ones at all. A strict watch is now being kept on portable property.

Improving the National

The National Hotel will soon blaze forth with a new splendor. Paper hangers, decorators and other cunning artisans are transforming the appearance of the hotel interiors. No expense is being questioned, and Solomon in all his glory will not be a circumstance, to the place as it will appear shortly. The new carpets are especially worthy of notice, both in texture and the blending of the colors. Among the extensive additions is a new hardwood floor.

Get Your Scales in Order

Mr. R. W. Errett, Inspector of Weights and Measures is making his annual rounds, inspecting, testing, and marking the scales and weighing machines throughout the country. Mr. Errett reports a marked increase in his work, owing to the great influx of small shops, groceries in particular. He states that so far, this year, he has experienced little trouble or attempts to have false weights or incorrect scales. This speaks well for the honesty of our local tradesmen.

P. S. Reports Presented.

At the last regular weekly teachers' meeting, at St. Luke's church Sunday School, after the Rev. Mr. Langfeldt had finished the lesson, Mr. J. J. Turner, jr., representing the Bible class, and Miss Lizzie Stewart, and Mr. A. Kingdon, representing the Sunday school, tendered their reports of the Toronto Diocese Sunday School Convention, to which they had been delegates. Their reports were very satisfactory, and gave a very lucid description of the proceedings.

Called to Whitby

Rev. D. O. Crossley, Oshawa, who has very acceptably filled three years' pastorate in the Methodist church at Peterborough, has received an unanimous invitation from the Official and Trustee Boards of Whitby Methodist Tabernacle to become their pastor after next Conference. He has accepted the invitation, subject to the will of the Stationing Committee. Rev Vernon H. Emory of Whitby, has received and accepted a similar invitation to succeed Mr. Crossley in the pastorate here. The church here has a membership of nearly 600, and pays a salary of $1,000, with free parsonage.—Oshawa Vindicator.

THE SIDEWALK LAW

A Few Hints That May Save Our Readers From Much Trouble

As there seems to be some misunderstanding throughout the town as to the exact status of the citizen in regard to law passed to protect our grass plots, pavements, and sidewalks and to recall their attention to the penalties for neglecting the same, we give below a summary of the Act passed on February 6th, 1905.

"1. No person shall place, sprinkle or deposit salt on any of the granolithic or concrete sidewalks in the town of Peterborough, or cut, mark or otherwise injure such sidewalks.

2. An axe or other similar implement shall not be used to remove ice from any such sidewalk.

3. No person shall injure any such sidewalks by allowing boxes, barrels, kegs or other heavy packages to fall on same nor by unloading such boxes, barrels, kegs or other heavy packages by allowing the same to drop or fall from any vehicle to any such sidewalk.

4. Any person guilty of a breach of this bylaw shall, on conviction, be subject to a fine not exceeding fifty dollars and costs, collected in the ordinary way."

MANY SAY

Just Can't Do It

"Go away and don't bother me. Maybe coffee is causing all my ails but I just don't see how I can give it up."

That is the pitiful wail of a despairing coffee slave and yet there is an easy and sure way out of the slavery.

"I knew coffee was the cause of all my trouble," confesses an Indianapolis woman. "But I just couldn't give it up. I used to try but every time went back to coffee until finally my nervous system was in such condition that a single cup of coffee was sufficient to throw me into a state bordering on hysterics. I had generally two terrific sick headaches every week, and was simply a wreck of nerves.

"Finally I was induced to try Postum, but at the first trial it was so thin and weak I knew something must be the matter, so I read the directions over again and found it is not made like coffee but must have 15 minutes at least for steady boiling. So I tried again and the result was a deep, rich-colored, perfectly delicious drink that weaned me from my coffee without any regrets.

"The Postum took coffee's place so completely that before we realized it we had forgotten coffee ever existed and all the time I was improving rapidly, from the very time I began the Postum.

"To put it briefly, the improvement continued until I am again a well woman.

"Although I drank the Postum and got on well, my husband couldn't be induced to drink it for he thought I was one of the people coffee hurt and he wasn't. But about six weeks ago he had an attack of kidney trouble and the first thing the doctor told him was to quit coffee. Then for the first time he tasted the Postum and he was surprised and delighted. He has drank it ever since and his attack of kidney trouble is gone and this morning he made me feel proud by saying the Postum was the best coffee he ever drank. Now all of our children drink it, too.

"I make our morning Postum on the after-supper fire the night before and a light boiling in the morning brings it to perfection and in this way it takes no longer to make in the morning than coffee did. It doesn't taste stale like coffee does, the flavor is really improved." Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the famous

WEDDING BELLS.

Wedding in Douro

On Tuesday, Feb. 7th, a very interesting wedding took place in St. Joseph's church, Douro, when Miss Mary Leahy, was united in marriage to Mr. Bernard Harrington, of Enniskmore. The ceremony was performed by Rev. Father Keilty. Miss Mary Holland, cousin of the bride, Enniskmore, was bridesmaid. The groom was supported by his cousin Mr. John Harrington, of Enniskmore.

After the wedding the bridal party drove to the residence of Mr. Michael Ryan, brother-in-law of the bride, where a dainty repast was served.

Mr. and Mrs. Harrington will reside in Enniskmore and The Times unite with their many friends in wishing them many years of wedded happiness.

A Lindsay Wedding

On Wednesday morning a very pretty wedding took place in St. Mary's church, Lindsay, when Miss Sadie McDonnell, was united in marriage to Mr. Neill Tobin of Peterborough. The ceremony was performed by Ven. Archdeacon Casey.

The bride was attended by her sister Miss Georgina McDonnell and was attired in a costume of gray ladies' cloth with picture hat to match. The bridesmaid was gowned in brown ladies' cloth with picture hat to match.

The groom's gift to the bride was a handsome gold watch and to the bridesmaid a gold bracelet. After a honeymoon trip to Belleville and other eastern points, Mr. and Mrs. Tobin will take up residence on Hunter street, Peterborough.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—Members interested in Foreign Mission Work met at the Y.M.C.A. last night.

—There was a good attendance at the practice of the Charlotte street choir last night.

—Several of our fellow townsmen were worshipping at the shrine of the muses yesterday in Toronto.

—Peterborough Snow Shoe Club will tramp next Wednesday night, both ladies and gentlemen will take part.

—Yesterday the mercury was scared down to the point marked 16. Palm fans and swimming trunks were little in demand.

—Keene holds its last carnival of the season this evening. It is under the auspices of the Rod and Gun club.

—Heintzman & Co. upright piano, slightly used, great bargain. Cash or credit. W. G. Lendrum, Photographer, 170 Charlotte street. 3d

—The special feature at the Y.M.C.A. services next Sunday is a talk by Rev. A. H. Brace on "Slippery Places." Miss Bellegham will sing.

—Work is progressing on the two seventy-foot long dump scows being made at McDonald's Point. They are for use on the Trent Valley Canal and will be finished before the season opens.

—The curlers are in Toronto, we hope to see them come home laden with the wreaths of victory. Quite a number of local gentlemen went up last night, so as to be in good trim for to-morrow's roaring game.

—The children seem to pay less heed to the cold, than their elders, there being, according to Inspector Walker, a higher average of attendance than for several years previously. Chicken pox is keeping a few at home.

—Members of the Baptist church in Lindsay, are tackling a big proposition, no less than an effort to raise six hundred dollars next Sunday, to be applied towards getting "Received payment" marked at the foot of their building fund account.

—The Hockey Club hope that smokers will refrain from the fragrant weed while matches are going on. If one cigarette will poison a skunk what effect must several hundred pipes and cigars have on a lot of panting straining players.

Members of the George Street Methodist church will regret to learn that Rev. Dr. Potts, owing to illness will be unable to deliver the sermon he was announced to give in that and the Charlotte street church. It is likely that a substitute will take his place, as arrangements to that end are now being made.

SOCIAL AND PERSONAL

—Mrs. Jolliffe and Mr. R. N. Jolliffe, were in Toronto yesterday.

—Mr. E. H. D. Hall is in Toronto wielding a curling broom.

—We regret to learn that Miss Eliza Eastland has been ill since Monday.

—Mr. L. Potvin has been in Keene visiting with his friend Mr. W. B. Huyck.

—Miss Ethel Cummings, of Norwood, is visiting town, the guest of Miss Clara Faint.

—Prof. Gliddon, who was in Toronto attending the Massey Hall concert, is home again.

—Mr. C. E. Hubbs, who is on the staff of Messrs. Barnett & Co., Bruin Lake, is spending a few days in town.

—We are pleased to hear that Mr. J. B. Pearce, ex-Warden of Norwood, is recovering from his recent severe illness.

—Mr. John Crane, of the Ontario Bank, was in Toronto yesterday, attending the concert of the Mendelssohn choir.

—Miss Margaret Williamson, of Cayuga, who has been visiting at the home of her brother, Mr. G. H. Williamson, 216 London street, has returned home.

—Many of his old time friends and acquaintances yesterday shook hands with Mr. John Doyell, of Souris, Man., and congratulated him on his hale and hearty appearance.

—Messrs. Richard Hall and Son have secured the services of Miss Gardeur as head lady of the dress making department. Miss Gardeur is spoken of as an artiste in her specialty.

—Miss Bertha Parnell has returned after a visit in Marmora, where she was the guest of her cousin, Mr. Pearce, M.P., and also in Norwood, where she visited Mr. and Mrs. Vandervort.

—Miss Wright, buyer for the millinery department of Messrs. Richard Hall and Son's dry goods store, left town yesterday for New York, to attend the spring millinery openings.

—Mr. Leslie Kennedy, of Chicago, son of Dr. William Kennedy, left for home yesterday, after a visit to his uncle and aunt, Mr. and Mrs. A. E.

Life at Stake

Somewhere in the world life is at stake every minute of the day. Right at our own doors, perhaps, is going on a struggle as grim and fierce as any fight or flight on record. You hear the hollow tearing cough; see the cone of blood which tells of the wounded lungs; mark the emaciated body and hectic cheek, and know a life is at stake.

The use of Dr. Pierce's Golden Medical Discovery has saved many a life in just such a crisis. It cures obstinate, deep-seated coughs, stops the hemorrhage, strengthens "weak" lungs, and restores the emaciated body to its normal weight and strength.

There is no alcohol in the "Discovery," and it is absolutely free from opium, cocaine, and all other narcotics.

"I desire to send you this brief, unsolicited testimonial," writes Rev. Joseph H. Peoperman, Barium Springs, Iredell Co., N. C. "In the case of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs. I promptly gave her Dr. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This experience caused me to recommend Dr. Pierce's medicines to my neighbors, who, without exception, used them with favorable results."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay customs and mailing *only*, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

—Mr. W. H. Tuck, of the Co-operative Grocery, left yesterday for New York, accompanied by Mrs. Tuck and his son Walter. Walter has been ill in the Nicholl's Hospital, and his parents decided to take him to the American metropolis for medical treatment.

—Mr. J. Hilliard Carnegie, M.L.A., son of Mr. John Carnegie, of town, is the guest of honor at a banquet being held at Kinmount to-day, and tendered him by his many friends and constituents of East Victoria. Mr. T. E. Bradburn, M.L.A., and others from town are attending, if the snow has not detained them en route.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

Sir Charles Tupper Talks of Hon. Jos. Chamberlain's Propaganda

DUTY ON CANADA WHEAT

Baronet Does not Think Duty of 2 Shillings a Quarter Will Affect Price of Bread

Montreal, February 18. — Sir Charles Tupper is about to make another trig to Europe, and, notwithstanding his advanced age, he still takes a remarkably clear-sighted interest in every topic of public interest. At the Windsor Hotel, for example, in the course of an interview with a reporter, he indicated his willingness, should opportunity offer, to take a part in the Chamberlain propaganda in Great Britain during the coming spring.

But the present trip is primarily undertaken to get away from the rigors of the Canadian winter, which Sir Charles, while physically in the best of condition for a man of his age, finds now slightly trying upon him.

Sir Charles, who leaves for Boston this evening, will sail from that port for Naples. The next couple of months will be spent enjoying the delights of the Italian winter. Later on, when the climatic conditions are more inviting in Great Britain, he will proceed northward.

"Can you tell us something regarding separate schools in the North-West Territories?" asked the reporter.

"Well, no," responded Sir Charles, laughing meanwhile. "That is the one question upon which I could not wish to touch. I did not hesitate when occasion arose to take action upon the school question, but now that I am out of politics I could could not wish to say anything that might prove a source of embarrassment to any one. I have said what I think upon the school question, and was, perhaps, made to suffer for entertaining those opinions."

After he had also declined to speak upon the question of granting autonomy to the North-West Territories, for much the same reason reason already given, the reporter asked Sir Charles if he would take any part in the Chamberlain propaganda in Great Britain.

"I have never hesitated to let the people of the British Isles know my opinions on all those great fiscal questions that are so important to the people of the British Empire at large. It is altogether likely, then, that should occasion arise I will once more lend my advice to the people at home."

"You have not changed your opinion on the Chamberlain policy?" ventured the reporter.

"Certainly I have not," responded Sir Charles, with emphasis. "If anything, I am even more strongly entrenched in the opinions I have already frequently expressed in that regard. The Chamberlain policy, in my opinion, is the one best fitted to unify the British people throughout the world. The only bond now existing between the people of Great Britain and their kinsfolk in the self-governing colonies is one of sentiment—a strong bond truly, but it could be materially strengthened if to it were added one of mutual self-interest.

Chamberlain has only made one mistake, and that was when he admitted, as he virtually did admit, that the imposition of two shillings a quarter on wheat would result in making the bread in Great Britain dearer. Now, that is an assertion that I think is capable of denial, and I have on more than one occasion proved its inaccuracy to a demonstration. But the fact that Chamberlain has himself made such an admission has given his opponents the strongest possible ground upon which to appeal to the great masses of the people. Mr. Chamberlain, of course, meets the contention by the fact that what is paid in excess on bread will be more than compensated in the reduced cost of sugar, tea, coffee and other staples. Such an argument will satisfy the more intelligent electors, but it will not satisfy the great mass of the ignorant public who find that their bread is to be taxed. But, as I have said, there was no reason to suppose that bread would be made dearer by the increased tax. Statistics show that the price of bread has never fluctuated except under the imposition of a tax of five shillings a quarter on wheat. Less than that has made no difference in current prices."

"What do you think would be the effect upon public opinion in the United States, were the Chamberlain policy put into effect through law?" asked the reporter.

"What effect could it have?" demanded Sir Charles. "They could not very well do anything worse than the McKinley tariff and Dingley bill. My own impression is that the United States appreciate those who respect themselves, and that when you are prepared to treat them to a dose of their own medicine is just the time that they commence to extend a suitable measure of consideration to others. The thing that has always irritated me more than anything else in Great Britain is the fear that is everywhere expressed that public sentiment in the United States might possibly be aroused over a given course of action. The people of the British Empire should settle these domestic matters on a basis altogether irrespective of the opinion that other nations may entertain on the same subject."

GREEK SCULPTURE

Prof. Carruthers' Lecture Before Fortnightly Club Last Night

Prof. Carruthers, of Toronto University, lectured under the auspices of the Fortnightly Club last night on "Greek Sculpture" in the Y.M.C.A. hall. One of the chief features of the lecture was the display of photographs on the lantern slide. Nothing of greater educative value has taken place in Peterborough for many years. At the conclusion of the lecture a vote of thanks was tendered Prof. Carruthers. Owing to last night's heavy snow storm, the attendance, although satisfactory was not as large as such an attraction would otherwise have drawn.

A STEP FORWARD

The Beet Sugar Company are to buy Property for Their Industry

Shareholders in the Beet Sugar Company, at a meeting in the Foresters' Hall, passed a by-law authorizing the directors to take the necessary steps to complete purchase of the property in the south end of the town. From the confident tone of the shareholders, there is no doubt but that the prospects for the establishment of this large industry are very bright. Of course the ultimate success of this industry is largely dependent on the way it may be managed, and the attitude of the farmers in this locality.

IRON IN THE AIR

Threw Iron at Fred Adlum as a Political Argument

Yesterday William Austin and Fred Adlum had a political argument in the shops of the Peter Hamilton Company, Limited. As a result, Adlum charges that Austin threw a piece of iron at him, inflicting a severe scalp wound. Medical aid was called, and the injured man was removed to his home on Bolivar street. Unless unforseen complications arise the wound is not likely to prove serious. Austin was arrested, and a charge of assault laid; he is held over until Wednesday, when, if no serious results arise, he will be tried in the Police Court. At a late hour last night The Times learned that Adlum was doing well.

MRS. JAS. MOHER DEAD

An Old and Well Known Resident of Douro Goes to Her Rest

Mary Sheehan, widow of the late James Moher, died at the residence of Mr. and Mrs. Redmond Carey, 6th concession of Douro, on Thursday morning.

The old lady was 84 years old, and died unexpectedly, of old age. She leaves behind to mourn her loss three daughters, Mrs. Redmond Carey, of Douro; Mrs. Maloney and Mrs. McFadden of Mount Pleasant; her three sons are, William and John of Douro, and Daniel, of Peterborough.

Mrs. Moher was a kindly lady, loved and respected by the neighbors. The funeral will take place this morning at nine o'clock from the residence of Mr. Redmond Carey, and come to St. Joseph's cemetery. Rev. Father Kelly will sing the requiem mass.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

Peterborough Wins the Round By 36 Goal to 9

Defeated Markham Last Night on the Brock Street Rink by a Score of 27 to 3

LOCALS WILL MAKE STRONG BID FOR CHAMPIONSHIP.

About 1,500 People Witnessnessed a Fast and Clean Game of Hockey.

By the defeat of the Markham Hockey team last night by the overwhelming score of 27 to 3, Peterborough wins the round by 27 goals having defeated the visitors on their own ice on Tuesday night by a score of 9 to 6. This places the victors one more step nearer the much coveted, and so far keenly contested for intermediate championship.

The locals are now champions of districts one, two, three and four, and have but one more semi-final game to play, with Victoria Harbor or Berlin, the winner going into the finals, which will be played in Toronto on the Mutual street rink.

About 1,500 people were in the rink, and lustily cheered the locals who were looked upon as winners, although it was generally conceded that the Markham septette would make them fight all the way.

From the commencement of the game the Peterborough supporters began to talk up, and soon the excitement was intense.

The visitors were accompanied by a small contingent but they were unable to make themselves heard so great was the din and uproar of the crowd of Peterborites who yelled themselves hoarse.

The Markham team deserve the heartiest praise for their work as they played a clean, fast game of hockey, and Referee McCord had no trouble to keep the players at the game. All offsides and any attempts at loafing were quickly taken in, and the offenders penalized. His decisions at all times were satisfactory and undisputed. Both teams were about evenly matched in weight, the home team having a little advantage if any.

The ice was in splendid condition for fast hockey and the large crowd of spectators witnessed a speedy, clean game. The locals from the start had got their bearings, and from the sound of the gong that told the game had commenced they jumped in, and as a result the game was a round of bright, dashing plays. The forward line never played more perfect combination, their passing was short, swift and accurate, and the shooting was good. Crowley and Glover on the defence made many sensational rushes, and figured in some of this combination, especially in the last half. Glover spoilt a number of well meant shots of the visitors, and more than once did Bill Crowley take a flying run up the ice to test how accurate he was in the shooting line. Ernie Wasson was prepared for a hard fight, but Glover and Crowley took the brunt of the work and left Ernie little to do, although he was called upon to stop a few hot ones poked at him. Cavanah was there with those "characteristic rushes," and sizzler shots, a number of which found the right spot. All eyes were on Walley Parnell, he was in the game for keeps, swift, clean, and neat, he was able, by his clever stick work to dodge and turn on the visitors time after time. Chris Graham, on the opposite wing is a speedy skater, and works well with the rest of the forwards, his checking and following up, were a feature of the game. On mid ice, Morgan plays a sure and steady game and uses his head to great advantage, he makes a mark of the man in the nets, and had a great neck in spoiling the visitors on their returns in last night's game.

The visitors' forward line was unable to catch the locals in their fast clip, and could not pass the strong defence. Robertson at right wing played the best game on the forward line, while Gee at cover-point was the most conspicuous and figured in a number of nice rushes, but they went flat when he reached Crowley or Glover. They were deficient in stick handling, and had little or no combination. Towards the end of the last half they made an effort to start some combination, but it was ragged. Pringle in goal had a hard time of it, as the locals seemed to work the puck close onto the nets before shooting.

FIRST HALF.

The game started about 8.40 and immediately the rubber travelled to the Markham end, Halstead got the puck and started up the ice was met by Crowley who secured the rubber passed to Chris Graham to Cavanah who scored in two minutes. From this on the game was never in doubt. Halstead broke his skate, and Chris Graham went off to even matters. It took two minutes for Morgan to tally off a pass from Cavanah, followed by another, Parnell taking the puck the length of the rink and scoring. Then came a series of attacks on the visitors' nets, Cavanah, Morgan and Parnell shooting shot after shot which were blocked, finally Gee secured the disc, and started up the ice, Crowley made use of his weight and went off for two minutes. The local forwards came down the ice with a lightning piece of combination, Cavanah passed to Morgan who again pierced the net. In a little over a minute Peterborough chalked another as the result of a combine started by Crowley to Cavanah to Parnell, who scored. With the score five against them the visitors made a spurt, and Gee took a run up the ice, but Parnell took up the chase, and soon the rubber was travelling in another direction. Pringle stopped one from Morgan, and the puck went back to Crowley, who passed to Cavanah, to Morgan, and the score read Peterborough six, Markham nil. Then came the longest period of the game in which it took to score a goal, the visitors holding the boys for seven minutes, at the end of which time Parnell scored on a pass from Morgan, who received the rubber from Graham. In this period Sullivan took a three minute rest for tripping, Parnell repeated in 1-2 minute.

It took six minutes for Peterborough to add another, Glover went to the fence followed by Crowley and Cavanah, who had a 3-minute rest. Graham, Morgan, and Parnell with Wasson in goal were left to play the whole Markham bunch, and they worked like trojans to prevent a score. Glover came on, followed by Crowley and Cavanah, and soon the scoring started. Up the ice the forwards came four abreast and worked the puck right into the nets, Cavanah doing the trick. It looked like a shut out for the visitors in this half, but Sullivan got one in. This ended the scoring for the first period, score 9 to 1.

SECOND HALF.

The second half was pretty much a repetition of the first, but the goals came still faster. The locals presented a pretty appearance as they shot up the ice with a combined attack on the visitors' nets. This series of plays was frequently fathered by Glover and Crowley, who warmed up by taking a spin leaving Wasson in the nets playing the part of an interested spectator. In this half the locals scored eighteen and Markham two.

Total 27—3.

Following is the line-up:—

Peterborough		Markham
Wasson	Goal.	
Glover	Point.	Pringle
Crowley	Cover-point.	Halstead
Cavanah	Rover.	Gee
Morgan	Right Wing.	Maxwell
Parnell	Left Wing.	Sullivan
Graham	Right Wing.	Wilson
		Robertson

Referee—W. A. McCord.
Time-keeper—F. A. Clark.
Penalty time-keeper—A. Brodie, Toronto.
Umpires—Peterborough, Jean Hurtubuise; Markham, H. Tully.

* * * *

Summary of goals:—

FIRST HALF.

1. Peterborough, Cavanah, 2 3-4 mins.
2. Peterborough, Morgan, 2 mins.
3. Peterborough, Parnell, 2 mins.
4. Peterborough, Morgan, 3 mins.
5. Peterborough, Parnell, 1.15 secs.
6. Peterborough, Morgan, 4 mins.
7. Peterborough, Parnell, 7 mins.
8. Peterborough, Parnell, 1-2 min.
9. Peterborough, Cavanah, 6 mins.
10. Markham, Sullivan, 40 secs.

SECOND HALF.

11. Peterborough, Morgan, 45 secs.
12. Peterborough, Morgan, 2.15.
13. Peterborough, Parnell, 4 mins.
14. Peterborough, Cavanah, 45 secs.
15. Peterborough, Cavanah, 30 secs.
16. Peterborough, Parnell, 45 secs.
17. Peterborough, Morgan, 6 mins.
18. Peterborough, Parnell, 1 min.
19. Peterborough, Morgan, 2.45.
20. Peterborough, Parnell, 2 mins.
21. Peterborough, Morgan, 10 secs.
22. Peterborough, Graham, 2 mins.
23. Peterborough, Cavanah, 4.45.
24. Peterborough, Morgan, 3.15.
25. Peterborough, Graham, 15 secs.
26. Peterborough, Graham, 15 secs.
26. Peterborough, Cavanah, 4.45.
27. Peterborough, Morgan, 3 mins.
28. Peterborough, Graham, 32 secs.
29. Markham, Sullivan, 1.35.
30. Markham, Wilson, 27 secs.

PENALIZED.

Peterborough—Crowley 2, Glover, Cavanah, Morgan.
Markham—Sullivan.

WANT PROVINCIAL CONTROL

In an interview, regarding the school question, with The Times representative yesterday, Mayor Emerson, of Calgary, who is in Toronto on business, said: "The unanimous sentiment in the North-West is that we should strongly resent any interference on the part of the Dominion Government in dealing with our educational matters. We want to be left as free to deal with them as the other Provinces that have come into Confederation since 1867. I believe we would not accept autonomy if there were attached to it any rider affecting our educational system."

WANTED NO INTERFERENCE

PEOPLE OF THE NORNHWEST AND THE SCHOOL QUESTION

The Mayor and President of the Board of Trade of Calgary Say That Interference From Ottawa Will Be Resented

Toronto, February 17.—"The unanimous sentiment in the North-West is that we should strongly resent any interference on the part of the Dominion Government in dealing with our educational matters. We want to be left as free to deal with them as the other Provinces that have come into confederation since 1867. I believe we would not accept autonomy if there were attached to it any rider affecting our educational system." This was the view expressed to a reporter by Mr. H. J. Hutchings, President of the Calgary Board of Trade and Chairman of the School Board. It was unqualifiedly in by Mr. J. Emerson, Mayor of the City after five years' service as Alderman. Both gentlemen, who are guests at the King Edward, are on their way home from Ottawa, where last week they headed a deputation of twelve from their city which waited upon Premier Laurier, in connection with questions arising out of the proposed creation of two new Provinces in the North-West.

They were surprised, they said, to find so much being made of their school question in older Canada. In the North-West there was no dissatisfaction; the separate school system was distinct in name only, the text books, regulations, standards for teachers and everything else were the same as in the public schools, and were, like the latter, under the supervision of a Government inspectors. The people of the North-West felt they were able to manage their own school affairs, and they did not want any clauses in the constitution with the Federal Parliament would give to the prospective Provinces binding them and their successors to any particular system or scheme of education.

J. M. KELLY DEAD

A Rochester Gentleman Well Known to Chemong Campers Has Passed Away

Many of the towns people who own cottages at, or make the annual trip to Chemong will, this coming summer, miss a well-known and ever welcome face. Alderman J. Miller Kelly, of Rochester, N.Y., who, with his family, has for years been a member of that fast increasing membership of American visitors to the summer resorts which make Peterborough famous, has passed away. Mr. Kelly was always an ardent admirer of the Chemong Lake district, and has not missed stopping at Chemong, every summer, for years. He made a large circle of friends and acquaintances among our local people, who will greatly miss him and his family. Mr. Kelly died quite suddenly from appendicitis, on Tuesday last, and was interred yesterday.

THE LOCAL POST OFFICE

Mr. R. R. Hall's Efforts at Ottawa Meets With Success

Some time ago The Times stated that improvements in the Post Office would be made in a short time This is now confirmed. Mr. R. R. Hall, the popular and energetic member for the riding, has been at work for some time, and has been assured that no time will be lost in having the changes made. As explained some time ago, it is proposed to have three wickets and increase the number of private boxes. To do this the room now used for registering letters and parcels will be utilized, and a public entrance made at the north-east corner of the building. This will give ample accommodation, and will at once remove all trouble in the way of crowding.

Mr. Hall also proposes to secure free postal delivery in town, if at all possible, and is strongly urging this upon the Government.

CZAR'S UNCLE ASSASSINATED--A REIGN OF TERROR

Grand Duke Sergius Blown to Pieces by the Assassin's Bomb While Driving in His Carriage---Czar May be the Next.

Moscow, Feb. 18.—While Grand Duke Sergius was driving to-day from the Nicholas Palace through the Senate quarter, his carriage was followed by two cabs. At the Law Courts a sleigh in which were two men, one of whom was dressed as a workman, went quickly ahead of the Grand Duke's carriage. The sleigh then slowed up to allow the carriage to pass, and at that moment a bomb was thrown beneath the carriage. The force of the explosion broke all the windows of the Law Courts and the report was heard outside the city.

The carriage was blown to pieces, nothing but the four wheels remaining. The horses were not hurt and bolted.

The Grand Duke was instantly killed. His head was blown off, actually being separated from his body, which was frightfully mangled.

The coachman was also killed. He was so frightfully burned by the explosive with which the bomb was charged that he died while being taken to an hospital. The murderers were arrested.

St. Petersburg, Feb. 18.—The news of the tragedy in which Grand Duke Sergius was blown up created a tremendous sensation in St. Petersburg, where the announcement by telephone from Moscow arrived during the afternoon.

Owing to the intense excitement prevailing at Moscow, few particulars are ascertainable.

The tragedy in reality was no great surprise, as it was known that the terrorists had already condemned the Grand Duke to death, and ever since the affair of January 22 the inauguration of a bomb-throwing campaign had been expected.

Grand Duke Sergius, who was a brother-in-law, as well as uncle, of the Emperor, and who had exercised immense influence at court, was regarded as the most reactionary of the Grand Dukes.

As Governor-General of Moscow, the Grand Duke Sergius was intensely unpopular. His advent as Governor-General was followed by expulsions of the Jews from the central Provinces, and throughout his Administration his rigorous and harsh measures aroused the greatest hostility, especially among the students. Two years ago, after the students' riot, in which many were killed or wounded, several hundred expulsions to Siberia followed under the orders of Grand Duke Sergius and General Trepoff, now Governor-General of St. Petersburg, but who was then Chief of Police of Moscow. As there were many threats made against his life, the Grand Duke was obliged to flee to his summer residence, twenty miles from the city. During the recent strike disturbances the Grand Duke left the Dskoutchny Palace on the outskirts of the city, where he had been living, and took refuge inside the ramparts of the Kremlin, where he had since lived in what is known as the little palace, opposite the famous statue of Alexander II. The trip to the Kremlin on that occasion was made at night between solid lines of troops.

WEALTHY AND HANDSOME.

Grand Duke Sergius was the wealthiest member of the Imperial family. He was tall, handsome, and cordial in manner, in spite of the ruthless fashion in which he exercised his authority as Governor-General. He was childless, but had adopted two children of his brother Paul, who was banished on account of a morganatic alliance. Sergius' record as a soldier was not brilliant. He suffered a disastrous defeat at the hands of General Kouropatkin during the famous Kouruk manoeuvres. The Grand Duke Sergius, uncle of the Russian Emperor, and formerly Governor-General of Moscow, is understood to have been condemned to death by the revolutionary party in December last.

The Governor-Generalship of Moscow was abolished early in the year, and the Grand Duke, according to despatches from Moscow on January 4, kept closely to the well-guarded Mokowski Palace on the outskirts of Moscow, retaining his position of commander-in-chief of the military district. Later in January, however, it was announced that the Grand Duke had sought refuge in one of the palaces off the Kremlin. He has been classed as the most reactionary member of the Imperial family, as the head of what is referred to as the war party, and has been stigmatized by the Liberals as Russia's evil genius.

Grand Duke Sergius was born in 1857, and was married in 1884 to Princess Elizabeth of Hesse-Darmstadt. They have no children.

SOMETIMES a cold settles in the bowels. The pain pierces like a knife. Get rid of it promptly by taking Perry Davis' Painkiller in peppermint water. There is but one Painkiller, Perry Davis'. Refuse substitutes.

AN UNWELCOME VISITOR

John Duncan Accused Of at Yesterday's Police Court

At the Police Court yesterday morning John Duncan was in trouble. It seems that when John takes it into his head to make a social call, he will not be denied admission, however unwelcome he load makes him to the one he honors. He decided to call on Mr. Goodacre, in front of St. John's church, on Hunter street, and insisted on shaking hands with his unwelcoming host. Mr. Goodacre, finding it impossible to get rid of him otherwise, called in P.C. McGinty. Magistrate Rush made a rapid calculation and found that John had had just $2 worth of fun, for which the incidental expenses amounted to $1.90 more. Next summer's circus would have given him more fun and left him $5 in bank.

The two Italians, arrested for the recent stabbing affair, were remanded for the third time. They will face Mr. Rush again on Monday.

GOOD SAMARITANS

The Lock Works Employes Prove Themselves Kind Friends in Need

Our readers will remember that Mr. John O'Brien, as has many another good man under similar circumstances, was recently placed in temporary financial distress, by the burning of his house, a few nights ago. Mr. O'Brien's son is employed at the Peterborough Lock Works, and to show their sympathy for a fellow workman, and help the head of a family in trouble, the employees at the works circulated a subscription list, and raised the handsome sum of $25, which has been handed over as a pleasant surprise to Mr. O'Brien. The kindly action has been spoken of generally throughout the town in the highest terms of praise. It is such kindly acts as this that appeals to whatever is good in a man.

PURE MAPLE SYRUP!

A good substitute for butter, since the latter has become very scarce and is an article that is very acceptable on any table. We have just received from the makers in Brome county, Quebec, an excellent quality of last year's Maple Syrup. Sells at 27c per quart.

E. F. MASON & CO.

—During a hockey match at Belleville last night between the Ritchie Company's and the Grocers' team William McCreary of the former had good balance in hand to the good, after deducting all expenses. It is a matter of regret that so good a carnival as the last one was prevented by the inclemency of the weather keeping people at home, from showing such a profit to the Forresters, as the excellence of the affair would justify. Votes of thanks were tendered to the judges, who acted in so impartial and satisfying a manner. Mr. and Mrs. John Crane, and Mr. and Mrs. K. Eardly-Wilmot. A vote of thanks was also tendered to Messrs. J. J. Turner & Son., for the magnificent decorations with which their firm made the rink so beautiful.

READS THE BOOK

"The Road to Wellville" Pointed the Way

Down at Hot Springs, Ark, the visitors have all sorts of complaints, but it is a subject of remark that the great majority of them have some trouble with stomach and bowels. This may be partly attributed to the heavy medicines.

Naturally, under the conditions, the question of food is very prominent.

A young man states that he had suffered for nine years from stomach and bowel trouble, had two operations which did not cure, and was at last threatened with appendicitis.

He went to Hot Springs for rheumatism and his stomach trouble got worse. One day at breakfast the waiter, knowing his condition, suggested he try Grape-Nuts and cream, which he did, and found the food agreed with him perfectly.

After the second day he began to sleep peacefully at night, different than he had for years. The perfect digestion of the food quieted his nervous system and made sleep possible.

He says: "The next morning I was astonished to find my condition of constipation had disappeared. I could not believe it true after suffering for so many years; then I took more interest in the food, read the little book "The Road to Wellville," and started following the simple directions.

"I have met with such results that in the last five weeks I have gained eight pounds in spite of hot baths which take away the flesh from anyone.

"A friend of mine has been entirely cured of a bad case of indigestion and stomach trouble by using Grape-Nuts Food and cream Name for breakfast.

"There is one thing in particular—I have noticed a great change in my mental condition. Formerly I could hardly remember anything, and now the mind seems unusually acute and retentive. I can memorize practically anything I desire." Name given by Postum Co., Battle Creek.

Late Carnival Accounts Settled

The local branch of the Canadian Order of Foresters, to whose energetic and able management the town owes the fact, that Peterborough does not take a back seat with any town, in getting up carnivals worthy of attendance by people from any city, and in interesting the public in this good, clean branch of winter amusements, have wound up the financial business of the last, and, probably, best of the carnivals so far this season. The committee met and paid their accounts, and have a

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Sleepless?—Yes, nervous and unhappy too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong, I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polman & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 18 1905.

A NEW CONSUMPTION CURE

In June last the Montreal Board of Trade instructed Dr. A. D. Martigny to investigate Marmoreck's method of treating tuberculosis as practised in Europe. The doctor devoted two months to the study of the matter in France, and on Friday last presented his report to the Board. The method as described is exceedingly simple, consisting essentially of injections of a serum in varying doses, according to the condition of the patient, and his tolerance of it. These injections are given in series, each series being separated by a period of rest. In mild cases the doses are weak, and in serious or very acute ones they are stronger. Patients are not required to remain at home or in hospital while undergoing treatment, but may, as a rule, occupy themselves to a certain extent with their affairs. The serum is obtained from a horse which has been rendered refractory to tuberculosis. To render the animal thoroughly immune, it is injected at regular intervals with toxine in ever increasing doses. Each injection will sicken it, but as the quantity of toxine increases, necessitating a constantly greater reaction, its resistance increases in proportion. In this way a horse could be made to stand doses which would kill 400 or 500 ordinary ones. Thus the first dose being half a cubic centimetre, it becomes possible, after a while, to inject into it 500 cubic centimetres of the same toxine in a single dose. At this stage the animal's blood contains a large quantity of antitoxine. A certain measure of this blood is then abstracted, and the serum obtained from it is known as anti-tuberculosis serum. Dr. De Martigny described the beneficial effects obtained from the use of the serum, such as the diminution of the fever, the relieving of the coughing, and the lessening and final stoppage of night sweating. He felt positive that if Marmoreck's method was applied at once to the treatment of all the consumptives of Montreal the disease would, in ten years, be as rare as smallpox is today.

DOWNEYVILLE PUBLIC SCHOOL

Comments of "St. Luke's Parish Church" on the Recent Trustee

The following, taken from "St. Luke's Parish Church Work," has been handed The Times, with a request to publish same in these columns:

The Roman Catholic Bishop of Peterborough has come into prominence by a rather high-handed and Roman-like method by which he changed a public school into a separate school at Downeyville. The people of that community feel that they have been tricked, and therefore labor under the keenest sense that even Roman Catholics begin now to assert their independence, and to resent priestly interference of that sort. Proceedings were at once taken resulting in an abandoning of the schemes of the tricksters. The Roman "father" in Downeyville is said to have prompted the Roman Bishop, and under this combination the trouble arose. Why the Roman Church dislikes the public school system so much can be easily seen. The system of education in public schools is infinitely superior to that in separate schools, and with this superiority in education which is the greatest enemy of the Roman Church, the "faithful" would soon leave the Roman fold.

CHANDOS.

The council of the township of Chandos met at Hales' school house on February 11, 1905. The members were all present. The minutes of last meeting were read and accepted.

Bylaws No. 81, 83, 84 and 85 passed their first reading.

Moved by Coun. G. A. Bullied, and seconded by Coun. Geo. Campbell, that council adjourn for dinner.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Trotter, that bylaws Nos. 81, 83, 84 and 85 be read a second time.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. Geo. Campbell, that Dr. A. Bell be instructed to procure and keep in stock 6,000 units of diphtheria antitoxine.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Bullied, that Times Printing Co.'s offer be accepted for printing and supplies for 1905.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. Trotter, that there be a new road division opened along concession, between cons. 2 and 3, comprising lots 8, 9, and 10, in 2nd con., to be known as No. 34, with John Batchlor as overseer.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Bullied, that clerk be authorized to notify the following parties that they have lots in land sale of 1905 (for back taxes): Wm. Brown, lot 25 in 5th con.; Willia Johnston, lot 5 in 9th con.; Thomas Kelly, lot 26 in 15th con.—Carried.

Moved by Coun. J. Trotter, and seconded by Coun. J. Bullied, that bylaws Nos. 81, 83, 84 and 85 be read third time and signed by reeve.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Trotter, that clerk get an order for five dollars to pay Peterborough Examiner for ballots and supplies for municipal election.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. J. Trotter, that the council do now adjourn, to meet at Caldwell school house at call of mayor.

INVESTORS.

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. BUTTE COPPER MINING & SMELTING CO., Butte, Montana.

GAYNOR AND GREENE CASE

Mr. McMaster Thinks He Will Win Against the Fugitives

Montreal, Feb. 16.—Mr. Donald McMaster, K.C., who is representing the U.S. Government in the Gaynor-Greene case, stated this morning that the American Government was sending him the full text of the Privy Council's recent decision and instructions as to what course he should pursue.

It was certain that the case against Gaynor and Green would be prosecuted with promptness and he expected that proceedings would be instituted in a very short time, despite the efforts of the fugitives to balk the efforts to extradite.

Mr. McMaster will go to England in July in connection with the case and he thinks that he will ultimately defeat Gaynor and Greene in their fight to avoid extradition.

IN THE SPRING and in the Fall a good flesh building tonic is required whenever weakness or loss of weight is apparent. "The D & L" Emulsion will be found admirable for this purpose.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Winnipeg, Feb. 17.—To-day will see the finish of at least two, if not all three, of the open competitions in the Manitoba bonspiel, and will also witness the finish of the other competitions. There is a possibility of a tie-up through rinks being in several competitions, in which case it will be to-morrow before the bonspiel is formally declared at an end.

The McMillan Cup, the consolation competition, was closed out yesterday, Lawson of Cypress River winning from Parker of Pipestone in the final.

Skip Flavelle of Lindsay is the only Easterner to get into the prize list in any events. He gets either third or fourth in the Grand Challenge. Mat Braden of the Thistles is in the finals of the Grand Challenge, beating Flavelle in the semi-final last even. McDougall of the Granites is in the fours, too, but other members of the jewelry class have not been determined.

Wm. Scott of Parkdale got into fours of the Alfred Dolge, but there are only two prizes in this.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of sub-sections (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have broken 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvelously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfontein, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $13.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, sores on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

Before Treatment

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 14 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 30 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or be pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

POWERFUL NAVY FOR UNCLE SAM

Will Soon be Second in the World

MANY NEW SHIPS BUILT

And Vast Increase in Naval Expenditure by United States

Washington, February 16. — In twenty years the United States has expended almost a billion dollars in building up a modern naval establishment. To be exact, the amount is $925,028,014.04. The work began in 1883, when Mr. Arthur was President, and the first appropriation was $14,819,976.80. At that time there was no such thing as a United States navy. The few ships that were in commission were of ancient pattern and entirely contemptible as a fighting force. But from the day that President Arthur signed the first Act the work of naval construction has proceeded steadily, until at the present time the United States stands third in the list of sea powers. Only Great Britain and France have larger fleets. With the immense resources available, it will not be long, at the present rate of increase, before the American navy will surpass that of her sister Republic, and work up to an equality with Great Britain. The steady increase in the annual appropriation for naval purposes has brought it up from $14,819,976 in 1883 to $103,633,115 in 1903-04. These figures show the determination of the people to have a navy. For, while there have been scattering protests against the heavy expenditures, there has been no force behind them. On the whole, the people are satisfied to bear the burden in order to make the display. At the present time there are fourteen battleships, ten armored cruisers, and twenty-three vessels of other classes under construction. Altogether the navy consists of 265 ships of all classes fit for service, ranging from eleven first-class battleships to fourteen supply and hospital ships, with forty-seven vessels under construction, ranging in power from battleships to tugboats, while fifteen unserviceable wooden steam and sailing vessels are carried on the list.

SHOOTING IN COURT

Woman Draws a Revolver and a Lively Fusillade Followed

Jacksonville, Fla., February 17.—Miss May Brown, is dead, her mother, Mrs. Joseph H. Freeman, dangerously wounded and William H. Cahoon, city detective, is lying at death's door, the victims of a shooting affair in Judge Farris' Court yesterday Owen Loadholdes was placed on trial to answer a charge made by Miss Brown. The testimony was all in, and Judge Farris announced that he would give a decision on Wednesday. Mrs. Freeman arose and said she wanted the matter settled then and there. She pulled a revolver and fired at Loadholdes. Her daughter ran to her side and begged her not to shoot. Loadholdes with a drawn revolver ran behind Judge Farris for protection. Several shots were fired, and Mrs. Freeman and her daughter fell to the floor. The daughter died in a few minutes, but before she passed away she drew a revolver and fired in the direction of Loadholdes, striking Detective Cahoon in the back. Loadholdes is in gaol. The court room was filled, and there was a stampede. One woman fainted and was trampled on.

GREAT ICE JAM

The Great Ice Jam on the St. Lawrence River

Ogdensburg, N.Y., February 17. — The ice jam in the St. Lawrence at Croil's Island, twelve miles below Waddington, has gradually filled in, until yesterday a foot bridge was effected between Waddington and Morrisburg, Ont., via Dry Island, something never before known. The river is now blocked with ice for ten miles and doing great damage. The water is eleven feet above high water mark, and still rising.

Yesterday afternoon while a gang of quarry men in Adams' and Buford's quarries at Chaumont, was engaged in removing a mass of frozen earth which overhung the ledge where they were working, a large piece crushed down upon George Morehouse, one of the workmen, fatally injuring him.

LOST NEAR SOUTH POLE

Antarctic Explorers Believed to Have Perished

Paris, February 17.—It is greatly feared the Antarctic expedition, commanded by Dr. Charcot, which started more than a year ago from a South American port in the hope of reaching the south pole, has been lost.

It is known to have encountered a terrible storm in April last year, and has not been heard of since, nor have any traces of its movements been discovered by Uruguay, which sent out a party to its rescue.

Charles Rabot, a member of the committee of the Society of Geography in Paris, intends to organize another search party to ascertain its fate.

LOSS OF FLESH, cough, and pain on the chest MAY not mean consumption, but are bad signs. Allen's Lung Balsam loosens the cough and heals

A PAPAL ENCYCLICAL

Dealing With Relations of Church and State in France

Rome, February 17.—The Pope has informed several Cardinals that he is preparing an encyclical, detailing the history of the conflict in France between Church and State, and announcing the basis of a new organization of the French clergy. The entire encyclical will probably be published at a special consistory.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $320,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—**"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

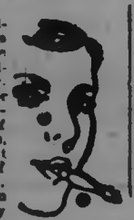
CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.



Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents dropping in the throat, allays inflammation. Catarrhozone now.

Be certain to Catarrhozone to remove and cure that doctorse, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No home should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation, heals sore spots and running at the nose.

Obituary

The many friends of Mr. and Mrs John Davidson, will deeply sympathize with them in the loss they have sustained in the death of their darling baby girl, Ellen Baby, aged 10 months. The funeral, this afternoon for the family residence, 321 Water street.

Quietly Wedded

On Wednesday, Feb. 8th, a quiet wedding took place at St. Andrew's Manse, when Rev. J. G. Potter, united in marriage, Mr. John Heffernan of town and Miss Bertha Murphy, of Centerville. Miss May Murney sister of the bride was bridesmaid. Mr. and Mrs. Heffernan will reside in Peterborough.

Regarding Small Steamers

The new Steamboat Act which is now before Parliament will contain some important changes, which will affect the steamboat men in this district. Under this act even small steamboats must carry certified engineers doing away with the temporary certificates which are issued often to non-residents of Canada and are usually held by the engineers on private launches and such craft There was considerable opposition to the bill but this clause went through.

Our Members

Mr. John Finlay, M.P., for East Peterborough, is a member of the following Standing Committees of the House of Commons;—Committee on Railways, Canals, and Telegraph Lines; on Standing Orders; on Banking and Commerce; also on Agriculture and Colonisation. Mr. Finlay's seat in the House of Commons is in the 7th row on the Government side, his number being 92. Mr. R. R. Hall, member for West Peterborough, occupies number 93, next to Mr. Finlay, and is also a member of several important committees.

Nearly a Conflagration

The alarm that hastened many people yesterday morning with their dressing, although not much damage was done, in all probability, saved Mr. Meldrum's handsome new mill, on Simcoe street, from being totally destroyed.

The employes coming to work at 7 o'clock, smelt the fumes from the incipient fire and called the brigade, which extinguished the fire in short order. The fire, which only did some $25 worth of damage, is suspected to be attributable to a spark from the grinder falling into the wheat bin, where it had probably smouldered all night.

SOCIAL AND PERSONAL

—Mrs. John Nicholl, of Lethbridge, Alberta, was in town yesterday.

—Miss May Needham, of Millbrook, is in town, the guest of Miss Birdie Martin.

—W. S. Maguire, representing the Bijou Stock Co., is registered at the National Hotel.

—Mr. John E. Belcher, C.E., has recovered from his illness, and is able to attend to business again.

—Mr. Thos. Hill, general merchant and grain dealer, of Pontypool, was in town on business yesterday.

—Ex-Ald. H. H. Lang of Ottawa, was in town yesterday on business. He was much impressed with our city.

—Miss Clara Bellegham was in Toronto yesterday. She went up to attend the Meldelssohn concert.

—Mr. and Mrs. S. P. Ryan of Hamilton, are the guests of Mr. and Mrs. J. A. Sharpe, 309 King street, the occasion being their honeymoon.

—Mr. T. D. MacGregor has been called to Toronto for the purpose of acting as arbitrators between the architects and owners of some new houses in Rosedale.

E. E. Shortell, J. B. Laing and H. J. Finch, Toronto; Jos. Brooks, Simcoe; W. Kennedy and R. J. Killier, Montreal, are guests at the Oriental Hotel.

—Miss Menzies, 291 Rubidge street, entertained a large party of her young friends. The "at home was a social success, winding up with a Valentine tea. The decorations were much admired.

—Mrs. Bradburn, accompanied by her daughters, Mrs. Huston and Miss Mabel, together with Mrs. Huston's little daughter, are sojourning in Florida, having left Peterborough on Monday last.

OPERA HOUSE.

All next week, Feb'y 20- Marjie Adams and H. Wilmot Young and supported by the big Bijou Comedy Company. Monday night, "Fogg's Ferry." Popular prices 15 and 25.

T. A. S. Band Improving

Mr. L. A. Halley is feeling proud of the results arising from his tuition of the T.A.S. Band, who have improved wonderfully in the short time Prof. Halley, has had to train them. The band, which now numbers twenty-two instruments, is playing in great symphony and delicate touch, and their instruments are of the best modern device. The band will make its bow to the public on Monday, when they will give a concert in the T. A.S. Hall, augmenting the attractive program, by the addition of an orchestra of seven pieces, which will render a number of selections. This orchestra is constituted as follows;—Piano, Miss Lewis; violin, A. McPherson; cornet, R. Ramsay; trombone, T. McDonough; bass, G. Scott; clarinet, R. Clemes; leader, L. A. Halley. Other artists who will appear that night are;—Miss Kline, Lakefield; Miss Bryce, Keene; Mrs. Callender, Norwood; T. Weir, Miss C. White, Mrs. Morrow who will also act as accompanist.

Take care of your Teeth

by using every Morning and Evening

CALVERT'S

Carbolic Tooth Powder

This pleasant antiseptic dentifrice owes its wide popularity to the efficient way in which it cleanses the teeth, moreover, it thoroughly purifies the breath, and the regular use of it is completely free from acid.

It may be had at the nearest Druggists, or by mail from F. C. CALVERT & Co., 267, Dorchester Street, West Montreal.

Send 1 cent stamp for sample of this Dentifrice.

THEY ARE SURE LOSERS

Those Who Invest in New Telephone Proposition

THE MONEY WILL BE LOST

As it Was in Peterborough and Elsewhere When Similary Invested

Peterborough's Experience in Running Opposition Telephones to the Present Splendid Bell Service—$50,000 Lost in a few Months—Some Cold Facts for the People.

Now is the appointed hour, and a most appropriate and opportune time in which to call the serious attention of our readers to the proposed futile attempts to enrich a few adventurers, who would apply the thumbscrews of legalized blackmail to one of the greatest and most satisfactorily managed public necessities of our generation. Monopoly and centralisation of the natural resources, and products, that Providence has manifestly given for the general good of mankind is quite justly and, in all common sense, universally bringing censure on the heads of the Standard Oil, the Beef, the Tobacco, Metals, Cottons, Woollen, Transit, and all similar monopolistic corporations; but this is a vast corporation, which spreads its helping arms far and wide over the Dominion, not with a view or intention to squeeze out competition, but from the manifest necessities of the case, in the interests of the public quite equally with their own.

A few of our fellow-townsmen, a few years ago, antagonized against the local branch of the Bell Telephone Company, by the mal-judgment of a popular, but indiscrete and over-zealous, agent, tried the experiment of introducing a local opposition to the already well organized Bell service. The result is still fresh in the minds of those hot-heads who, relying on their experience, and on the specious promises of the promotors, launched this puny local concern. What was the result? Just what happened to such other companies, (including the Federal Co., of Montreal,) as would happen to a man who might attempt to satisfy the appetite of an elephant with a blade of grass!

With the limited capital that such local companys can command, unable, within any definite or specified time to even make reliable promises of outside connection with other towns and cities, they stagger along, unable to sustain the financial burdens that the ever-increasing expenses impose, paralyzed by the unforseen, unprovided for, but inevitable, misfortunes that befall them as a result of storm, ice, fire or underground disturbances from causes too many to enumerate, until the bubble of their extravagant expectations bursts, and it becomes a choice between absolute bankruptcy or going, hat in hand, to the Company, that at a fair living price had given a better local, (not to mention outside) service than they had, and selling out at the Bell Company's own terms. With our quondam opposition in Peterborough, we remember the confusion that arose, the never-ending trouble that both merchants and householders experienced, the hard-worked girls who wasted months learning a business, that, on failure of their local employment, excepting the few for whom the Bell Company kindly found places, was of no further use to them, the hard-earned dollars subscribed by deluded citizens in ever increasing jeopardy, and, more than all, the feeling of relief pervading the town when the old established Bell Company had the field to themselves again.

In the general cry against monopolies, less more or less justification in every dissenting voice, but, to hurl the epithet, "Monopoly," against the one and only Telephone Company in successful operation, is like men living in glass houses; the stone will smash the glass in its flight, but, in the former parallel case, the rebound must injure, not so much the Bell Telephone, as the public themselves, who are the real gainers by preserving what can only be of use to them as a monopoly. Both common sense and, that most convincing argument of all, experience, tells, and has most emphatically demonstrated, that local opposition to the Bell Telephone Company, with all its concurrent disturbance of business, and final withdrawal from business, has had no other result than failure, and, seldom, any foundation but a scheme to ultimately sell out to or blackmail a company against which the public has no substantial grievance. Business and actual present facts teach the Bell Company, and and experience has taught local companies that, as the exchanges increase their subscribers, working expenses increase in a much faster ratio than the number of telephones in use, and local companies that have gone, and must go, to the wall, know that the public only pays, in Canada at least, a fair price for a first-class service. For incipient, half-hearted local companies to dangle the bait of premises that surrounding towns will follow suit and ultimately be joined by pretences," as they cannot foresee the local jealousies and a thousand difficulties that are almost certain to arise before their promised link to link exchange idea can be consummated.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—Heintzman & Co. upright piano, slightly used, great bargain. Cash or credit. W. G. Lendrum, Photographer, 170 Charlotte street. 3d

—The roads leading to town are almost impassible. Those in Ennismore are worse than the oldest inhabitant remembers.

—For the balance of this month we will sell crokinole boards for $1.15, and all other games at reduced prices. Times Bookstore.

—Yesterday, curlers in town, were like angels, few and far between, owing to six of our rinks being away in Toronto.

—A successful cutioo ball was given in Lindsay on Tuesday night in aid of the Ross Hospital, which was attended by 150 [illegible]

—Butter is now selling at from 28 to 30 cents per pound. It isexpected that prices will drop to-day, if the farmers are able to get to town.

—Accommodation for one or two ladies, with or without board in private family, where no other boarders are kept, very central location. Apply at this office for address.

—Last night during the heaviest whirls of the snow storm, the lamps on the street car fronts threw as clean cut and clearly defined rays of light as a powerful search light.

—The ladies of the Y.W.C.A. are grateful for the manner in which their request for furnishings has been answered. They are particularly thankful to Mr. Robert Fair, of the Golden Lion for his kindness.

—Belleville last summer spent $31,920.64 on granolithic pavements, of which $19,596.37 came from the parties on whose property the pavements frouted, and the balance, $12,324.27, from the general ratepayers of the city.

—Five big bargains, advertised in another column, should be of interest to book lovers. This is a chance to get a 30-volume set of Chambers' Encyclopedia in paper binding for $1.00 for the set while they last. Times Bookstore.

—The council will probably discuss the question of enlarging the fire hall premises at an early date. Unless too much should be demanded it is penny wise and pound foolish to refuse the brigade anything that will add to their effectiveness.

—The cheese factories will begin operations earlier than usual, this year, as the supply in sight is inadequate to meet the demand. The knowing ones prognosticate that higher prices will rule, and prospects for a successful year for the factory are bright.

MANY THANKS are due from the proprietors of Weaver's Cerate to friends who have written to tell of the Cerate's good work in curing scrofulous humors, scald head and other skin diseases. These kind words are most encouraging.

—It is likely that many members of the 57th Regiment will listen to Rev. E. A. Langfeldt's lecture on Monday, Feb. 27th, entitled, "Life in the German Army." This will be a rare opportunity to hear an exposition of this subject, as the Rev. gentleman is an ex-German officer.

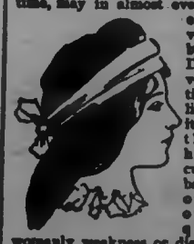
—The assessors in county municipalities are now at work. One of their duties is to enter the names of manhood franchise voters—young men who are of age and are not assessed on real estate or otherwise. It is the duty of every patriotic citizen to see that the assessor has the name of every young man entitled to vote.

—The Toronto News says—Officials of the Crown Lands Department said yesterday that the Rice Lake shooting concession for 21 years to Col. Pellatt, Mr. H. H. Macrea, and others had been authorised by Order-in-Council shortly before the resignation of the Ross Government, but that the lease had not yet been executed. This is one of the matters which will be reviewed by the present Government.

—The Havelock Standard recognizes a good thing when they see it, as they say, in reporting a recent concert;—"Miss Rush of Peterborough, who poss a very rich and full toned soprano voice, captured the appreciation of the audience in her first number, "Sing Me to Sleep," and responded with an encore, "Blue Bells." Her other selections were "O Dry Those Tears," and "Good Night, Little Girl." Miss Rush has a very charming stage presence and personality."

THE FIRST LESSON

That the young girl has of womanhood is not seldom a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.



All the pain and misery which young girls commonly experience at such a time, may in almost every instance be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease.

"I received your letter some time ago, with advice about your wonderful medicine," writes Miss Sadie Johnson, of 26 Brady Street, Dayton, Ohio. "I was troubled with severe pains every month when I wrote to you for advice. After receiving your letter and following its directions, I am now happy to say that after five years of untold suffering I have not had any pains since first using your 'Favorite Prescription.' I was induced through a friend to write to you and follow your kind advice. I thank God and Dr. R. V. Pierce for the health I now enjoy. I shall urge other women who suffer as I did to use your medicine."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAPPY AND HEALTHY.

A Beautiful Canadian Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 434 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently.

"I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since.

"I now have the greatest faith in Peruna." F. E. KENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, slush and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh.

The following letter gives one young woman's experience with Peruna:

Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following:

"Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I considered this money well spent.

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rose Gerbing.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

EMPRESS MOTHER OF CZAR WILL BE NEXT VICTIM OF ASSASSIN--A THREATENING LETTER.

St. Petersburg, Feb. 19--According to reports in circulation the empress mother has received a threatening letter warning her that she will be the next victim. Another rumor is that at a meeting of the grand dukes last night it was unaminously decided to withdraw all opposition to assembling of a Zemskyo Sobor and recommend its immediate summoning by the emperor.

EXTRAORDINARY SITTING OF RUSSIAN COUNCIL FOLLOWS ASSASSINATION

St. Petersburg, Feb. 18.—An extraordinary sitting of the council of the empire has been summoned to consider the situation resulting from the assassination of Grand Duke Sergius.

St. Petersburg, Feb. 18.—Oppression like the shadow of doom seems to be hanging over the Russian capital. Bells are tolling and the people in the streets are awe-struck at yesterday's bloody crime.

Berlin, Feb. 18.—Emperor William was not present last night at the annual banquet of the Prussian house of lords, absenting himself out of respect to the late Grand Duke Sergius of Russia.

St. Petersburg, Feb. 18.—Prince Friedrich Leopold of Prussia, who had been visiting the Emperor, started for Berlin at midnight.

London, Feb. 18.—A Russian non-commissioned officer has confessed that he was bribed to put loaded shell in a saluting gun on the occasion of the blessing of the waters of Neva.

Paris, Feb. 18.—President Loubet, Premier Rouvier, the entire ministry and all the foreign ambassadors here have forwarded expressions of sympathy to the Russian embassy on the assassination of Grand Duke Sergius.

PUBLIC OPINION IS GROWING STRONGER

The Demand for Reforms in Russia Must be Listened to

ALL CLASSES ARE AFFECTED

It is Quite Impossible to Tell What a Single Day May Bring Forth

St. Petersburg, Feb. 20. — Public opinion becomes steadily more threatening. "Down with the Romanoff dynasty," is heard in the saloons, theatres and streets.

News from the provinces reveals a similar situation. Peasants along the Volga, notably at Saratoff, Samara and, Kasan and in Central Russia, particularly in Voronezh, Kaluga, Orel and Moscow, refuse to pay their state taxes, saying they are unable to do so, and that unless the state grants them land from the state domains they will be obliged to take it themselves.

This news has frightened the Government because of its political import. It embarrasses the financial administration of the country.

People of high social position and great influence in St. Petersburg business affairs who have hitherto been refraining from all political action now discuss politics earnestly and admit the imminence of a radically reorganized scheme of government.

Agitation throughout the country persists in the most astonishing way.

HEARD IN MOSCOW

Rumor of Czar's Freedom Policy Confirmed

Moscow, February 18.—It is asserted by leading nobles of this city that the rumored determination of the Czar to grant large practical concessions to the people has been confirmed. The attitude of Moscow millionaires and manufacturers, which has also been adopted by St. Petersburg industrial and financial men, has produced a deep impression on the Czar and his advisaries. Until now the middle classes, especially those who belonged to the Moscow conservative class, were opposed to any European progress. Among the nobility and in high aristocratic circles a number of people under the influence of English or French education have always had liberal views, but this was known to the Government, which paid little attention to it. When, however, the representatives of industry and finance take similar views, the authorities realize that their situation is becoming entirely untenable. While quiet prevails, the alarm of the authorities over the disposition of the laborers and peasants who are more concentrated in Moscow than in St. Petersburg, is evidenced by the fact that all the streets and squares in the neighborhood of the famous Kremlin are patrolled day and night by the Cossacks, and gendarmes and mounted police. Moreover, every infantry regiment in Moscow and the suburbs is held in readiness for action.

Peterboro Boy Lithographed

Peterborough with its canoes known and referred to all round the globe, its industries and attractions mentioned through the continent, is of late attracting attention by the different clubs and sporting representatives it sends forth. In the Milwaukee Sunday Sentinel, of Feb. 12th, is a fine lithographic picture of Mr. R. E. Dolan, who is on the Stumph and Laughoff team, that will try to wrest the championship from the celebrated Ansons, in the great national championship bowling contest that takes place this week in Milwaukee. The meet extends throughout the week, and is attracting bowling clubs from every state in the Union. Mr. Dolan is an old Peterborough boy, and his prowess in the game will please his many friends in town.

—Five big bargains advertised in another column, should be of interest to book lovers. This is a chance to get a 20-volume set of Chambers'

LOCAL RUSSIANS ON ASSASSINATION

Russians in Canada Deplore This Grand Duke's Death.

A MOST HUMANE MAN

Grand Duke's Death a Long Step Towards Freedom for the People

Montreal, February 20.—The assassination of Grand Duke Sergius has excited the wildest interest in all circles in this city.

While the majority of the Russian refugees sympathise with the perpetrators of the outrage, there is an underfeeling that the time for intimidation, and a reign of terror is past.

If the Russian Liberals can obtain their rights, without an appeal to force, then those privileges, if gained without bloodshed, are worth all the more. The fact that the Grand Dukes have exerted considerable influence with the Czar to prevent his granting the long sought for demands, has not concealed the fact that these concessions were gradually coming, and the lack of success which attended the recent demonstration in force in the city of St. Petersburg should have warned the Liberals against the repetition of such proceedings.

RUSSIAN CONSUL'S VIEWS.

The Russian Consul-General, M. Nicholas de Struve, was informed by a reporter of the news from Moscow.

"I deplore it greatly, it will injure their own cause," he remarked. "While I have heard that the administration of the Grand Duke Sergius in Moscow, was not popular, I little thought that such a catastrophe as this would occur in the centre where the Liberals are most powerful. It is a terrible blow to their own cause.

"The Grand Duke Sergius was the second youngest son of the Emperor, Alexander III. He married a sister of the present Empress, Princess Elisabeth of Hesse-Darmstadt. Though very young at the time of the late Turkish war, he distinguished himself greatly there, and was most highly thought of by the troops. While I have heard that his administration was unpopular, I believe that the late Grand Duke was of a most humane disposition.

"I am sorry for all concerned in the affair.

LIEUTENANT DUBIN'S OPINION.

Lieutenant Dubin, late of the Russian navy, in an interview with a reporter, stated that he was not so greatly surprised at the assassination of the Grand Duke.

At the time of the coronation of the Emperor Nicholas, the Grand Duke Sergius had been made Governor-General of Moscow. He had frequently heard that his administration was most unpopular.

In recent advices received from relatives in Moscow, there had been bitter complaints of the restrictions imposed by the Grand Duke, and mention was freely made of his severity in dealing with all political offenders. He was a stronger type than his nephew, the Czar; a man of iron will.

"In appearance, he was tall and slight, but muscular. He was a good horseman, and possessed a stronger face than most of his brothers. He was popular with the troops, and had been in command of the Russian cavalry for a number of years.

"I believe that the action will result advantageously to the revolutionary party. Sergius was the head of the reactionary movements, and a leader of the bureaucrats. With his death a strong influence with the Czar against the concessions of the demands of the Liberals is removed.

"Sergius was a tower of strength to the reactionarien. They will miss him greatly.

"I remember seeing the Grand Duke Sergius at a review which took place in Moscow, some ten years ago. A soldier had fallen from his saddle, smitten by sunstroke. Before any one could reach him, the Grand Duke had lifted him from the ground and assisted him to an ambulance. Such acts as these made

EXPLANATION OF ASSESSMENT ACT

Some Features That Business Men Should Understand

A SYNOPSIS OF NEW ACT

Which Ratepayers Should Carefully Study—Duties of Assessors

Below we publish a synopsis of the new Assessment Act, which should be read by all ratepayers who are not familiar with the mode of assessment that will be introduced this year. It is as follows:-

Land includes all trees, mines and minerals, all buildings and any fixtures placed upon or affixed to land. Land and buildings shall be valued separately, and so entered in the roll and at their actual value.

Business Assessment.—All persons engaged in carrying on any business shall be assessed for business assessment to be computed by reference to the assessed value of the land so occupied, but in no case shall the assessment be less than $250. The percentages are as follows: Distillers, 150 per cent.; brewers, wholesale merchants, insurance companies, trust companies, express companies, banks and any other financial institution, 75 per cent.; manufacturers, 60 per cent.; departmental stores, coal and wood dealers, lumber dealers, lithographers, printers, publishers, clubs, where meals or spirituous liquors are furnished, liquor stores, 50 per cent. Except that in cities of 100,000 coal dealers shall be at 30 per cent.

Lawyers, solicitors, doctors, dentists, civil, mechanical and electrical engineers, architects and financial or commercial agents, 50 per cent., when the premises are office premises only, but when part house and part office, then 25 per cent. of the whole joint premises, and liable to be assessed also for any income from the business to the amount that such income exceeds the statutory exemption and business assessment combined.

Retail merchants in cities of 50,000 or over, 25 per cent.; under 50,000 and over 10,000, 20 per cent.; and all other municipalities, 35 per cent.; every other business 25 per cent.

Income.—All income derived in the Province except rent or real estate and the income from any mercantile or manufacturing business which is assessed for business assessment, and all income derived out of the Province by residents in the Province without any exemption whetever.

Franchise Companies.—Telephone companies for their ordinary real estate as other persons, and in cities, towns, villages in lieu of street plant being assessed are to be assessed for income to the extent of 60 per cent. of their gross receipts in each case, except that in cities of 100,000 or over the percentage is increased to 75 per cent. In townships they are to be assessed at $125 per mile for the first line of wire, and $7.50 per mile for each additional wire. Telegraph companies in the same manner, but the percentage only to be 60 per cent. in all places, and the mileage $40 and $5.

Electric railways, gas companies, water companies and all companies using the streets to be assessed for the amount that another company having the same powers would give for the property, all these companies to be liable in addition for business assessment on real estate other than street plant and right of way.

Steam Railways.—Right of way at the same rate as the lands through which they run, and exclusive of their tracks, etc.; also for their tracks and other structures on the streets, and for any lands other than the above, inclusive of any structures or fixtures thereon. Railways are not liable to business assessment, and are the only ones so exempt.

Exemption, Land.—All property of the Crown, and of the municipality, every college, all public and separate schools, every incorporated seminary of learning when actually occupied as such, but not if otherwise occupied; public hospitals, all charitable institutions. Lands of two acres' extent, vacant or used for farm or garden purposes, to be valued as farm lands.

All machinery used for manufac-

and boilers or electric or other motors, but this not to apply to the machinery of a railway company or to any of the franchise companies.

Income.—$1,000 exempt from personal earnings of those who are assessed as householders and $400 only exempt to any others, this in places of 10,000 and over. In other places the exemption is only $700 from personal earning and $400 as in the other case. There is now no exemption from income derived from stocks, mortgages or other investments.

General Provisions.—All persons are required to give to the assessor any information that he may require to enable him to make a proper assessment of their property or income, such information to be made in writing in detail within 10 days after demand, and verified by oath under penalty of $100 fine and $10 per day for each day of default.

All persons employing others are requested to furnish a list of their employees earning over the statutory exemption, the amount so paid them, and their addresses, under the same penalty as above mentioned.

And all corporations not mercantile or manufacturing or who are assessable directly for income themselves, shall furnish under oath, subject to the same penalties as before mentioned a list of their shareholders, and the amount of dividends received by them. The assessors and any other employees of the corporation are prohibited under penalty of $200 fine from giving any information regarding the assessment of any person except the ordinary notice of assessment, with the further provision that the assessment rolls when returned shall be open to inspection, in the office of the City Clerk. The assessor also now inquires and takes the date of any death or birth that has occurred in the family within the last calendar year.

PETERBOROUGH TIES

Possibility That Peterborough May Manufacture Rechtics B fore Long

Everything indicates that Peterborough is becoming a cog in the great industrial wheel that is rolling Canada on towards wealth and the world's recognition as a nation. Hardly a month goes by, but what the Board of Trade, or influential citizens, hear from, or are approached by, capitalists or manufacturers from a distance, who contemplate establishing factories or a plant of some discription. The latest industry that indicates a possibility of settling here, while not one of very great magnitude, is a neektie factory and it would be a welcome addition.

Mr. Atwood, of Montreal, a gentleman with great experience in manufacturing neckties, has been looking over the various sites and inducements here, that would tend to make him locate in Peterborough. The John Hall estate, from whom the room necessary for the factory, will be leased, contemplate making the necessary improvements and alterations, in the hall, formerly occupied by the Maccabees, on Water street, over Mr. Begley's store. At the start the principal feature will be a large number of sewing machines, using electricity as their power. The Maccabees have moved to Forresters' Hall on George street. The chances are good for Peterborough getting the factory

A BRAHMIN FROM BOMBAY

NATIVE HINDOO STUDENT ON HIS TRAVELS

Studying Educational Methods—Has Devoted Many Years to Investigation in Many Countries

Montreal, February 20.—Professor Kerabaw, a native Brahmin of Bombay, India, arrived in the city from St. John. For the past two years he has been professor in Oriental languages to the Oriental Association of St. Petersburg.

The distinguished East Indian is a graduate of Bombar University both in the faculties of arts and of law. He has spent the past seven years in travel in which he has devoted his attention to studying the conditions in various countries of a wide range of subjects, notably philosophy and sociology. An accomplished linguist, speaking eight languages with ease, he has visited China, Japan, Mongolia, Siberia, Russia, Germany, Italy, Holland, France and Great Britain.

Prof. Kerabaw stated that the object of the present visit to Canada was to study the higher educational system of the Dominion, and its possibilities for Indian students. There was scrcely a European country of importance which has not its quota of Indian students, and Professor Kerabaw was anxious to learn whether Canada was not better adapted than many of these as an educational centre for his fellow-countrymen.

What the Indian student seeks today was technical training, and in this department England did not offer the same opportunites as Germany. Moreover, the English system was too expensive for the average student from India, whose financial resources were usually limited. On the other hand, education in Germany meant the loss of a year's time in learning the language, which was of no value to the student on his return to India.

If then, Canadian conditions

St. Petersburg, Feb. 19.—In diplomatic circles the opinion is quite generally expressed that yesterday's tragedy may be followed by the decision of the government to conclude peace.

For some time, despite the official attitude maintained by the government there has been a growing appreciation of the difficulties of prosecuting the war in the midst of increasing complications at home, and as announced yesterday, the matter was actually the subject of formal consideration by the Emperor and his ministers Feb. 16.

Strong influences, which it is understood, in spite of denials, are heralded by M. Witte, president of the Committee of Ministers, have been working quietly in this direction. Gen. Grigenberg's revelations, followed by the murder of Grand Duke Sergius, in the opinion of some of the ablest diplomatics are not unlikely to lead the Emperor definitely to decide upon peace.

In this connection the war office are already alarmed by the new danger threatening the Manchurian army from the systematic attempts making by Japanese and Chinese bandits to cut the line of communications back of the army. According to reports about 10,000 men, split up into bands of several hundred each, are operating from Mongolia, and are striking at the railroad.

A Russian detachment following up the Japanese band which cut the road below Harbin, fell into an ambuscade of two regularly organized Japanese regiments and was almost cut to pieces, losing half its men and one gun. The fear is that if the bands move further north or west they might interrupt communications to such an extent to make it impossible to supply the army. This danger has already compelled the triple reinforcement of the railroad guards below Harbin.

OFFICERS ELECTED

Annual Meeting of the Peterborough Light and Power Company

On Thursday last, the Peterborough Light and Power Company, a branch of the American Cereal Company, held their annual meeting in the offices of the company.

There were present Messrs. Robert Gordon, of Chicago, assistant treasurer of the American Cereal Company, T. E. Bradburn, W. H. Hill, W. H. Cluxton, and J. H. Larmouth.

The reports presented for the last year were very satisfactory, showing an increase in business—both in the receipts and in the number of consumers.

The company is now supplying about fifty arc lamps to business concerns, while the number of incandescent lights installed is considerably ahead of last year.

The following officers were elected for the coming year.—

President—T. E. Bradburn.
Vice-Pres.—John Stuart, Chicago.
Sec.-Treas.—Robert Gordon, Chicago.

Mr. J. H. Larmouth was re-appointed Managing Director.

ROADS BADLY SNOWBOUND

King Frost Has Our Local Railways by the Throat.

Last week was an expensive and harassing experience with the roads, both highway and railroads. Not for many a year, has such a persistent, and continuous series of snow storms and blizzards, compelled the railroads to issue so many bulletins showing trains late or cancelled.

Local merchants were compelled in many cases to use every ingenuity in supplying customers with goods, of which their stocks are depleted, as there was no freight moving with certainty or despatch; many an engagement at a distance was perforce cancelled owing to irregularity of passenger service, and even His Majesty's Mails found "No Royal Road," through the hard drifted snow. The prevailing winds on Friday and Saturday being west, the Grand Trunk Railway suffered more than the C.P.R. from the drifting snow, and while the officials worked liked beavers sparing neither money nor labor, some mail and passenger trains were simply unable to get through and so cancelled.

On Saturday the Belleville morning train was cancelled, so no mails from that point arrived in town; the Lakefield branch was tied up for several days, some gentlemen, whose business necessitated their presence in that village, on Saturday, were compelled to plough through snowbanks and over fences behind teams.

Several gentlemen, who left Toronto on Friday night for Peterborough, did not arrive until 2.30 a.m. on Saturday, coming around by Lindsay. The service between here and Port Hope, both passenger and freight, was completely disorganised for the last three days of the week, the freight department being hit the hardest. Owing, partly, to the direction of the wind, the C.P.R. was not so severe a sufferer, as the snow blew along the tracks running east and west instead of piling up drifts almost as hard as sand. The C.P.R. mail trains were practically on time on Saturday, in part accounted for, by the officials of that road giving particular attention, and complete right of way to the passenger service. Nearly eighty men were busy shovelling snow from the tracks between Pontypool and Myrtle. These men are kept warm at night, and comfortable, as a colonist sleeping car, provided with all necessaries follows the gang. In some places on the C.P.R. the road has almost the appearance of a tunnel through the snow, and although the expenses have been enormous, the officials are determined to uphold their world-wide reputation, for prompt and reliable train service. A large gang of sons of Sunny Italy are kept permanently at Havelock to cope with any unforseen contingency that may arise through this ultra-seasonable weather. It is probable that the freight department will resume its normal condition in a day or two. Coal importers report that the freight yards of Buffalo are again causing the Canadian roads much trouble. These yards are completely tied up, and great difficulty is experienced in securing the United States coal consigned to Canada.

Home Merchants Deserve Trade

It is likely that protection for our merchants and citizens will be asked for at the next council meeting. For many years this town has been a stamping ground for all kind of peddlers and itimerant merchants. It seems an injustice to the merchants, who pay rent, taxes and all expenses incidental to doing business where they live, to have irresponsible outsiders, who can handicap them from obvious reasons, canvas the town, even though they pay a small license. The house to house agent has no stake in the town's prosperity, pays none of the town's expenses, and after, in most cases, selling an inferior article, decamps with his profits to pastures new. How often has the credulous housewife, not regretted buying some limerick article, with high sounding name, from a travelling salesman, when she found that the article "Guaranteed woolens by a firm worth one million dollars, to be all wool and a yard wide," is the shoddiest kind of shoddy. She has no redress, nor her cash, nor the agent.

FRAMERY GUTTED BY FIRE

The Interior of the Building Badly Burned —The Stock a Complete Loss.

At 4.45 yesterday morning the fire brigade were called from the snugness of their beds to fight their old enemy fire. Mr. Dunslow's fine new shop on George street, known as the "Framery," was on fire, and despite all, though the firemen, who worked as usual like beavers, were promptly on hand, their labors were rewarded only by saving the surrounding property. The smoke at times was so dense as to almost suffocate them, and it is feared has perculated to the adjoining shops, particularly Mr. Hawley's confectionery store, to such an extent as to do damage. Several people living over the "Framery" had a close call, being driven out in a hurry, by the fumes. The fine new, and well assorted stock and plant of the Framery is gone, simply and literally gone, nothing remains but the empty walls or frame of the Framery. The loss will be considerable as it is understood that Mr. Dunslow had only $300 insurance.

Protestant Home Inmates Had Musical Treat

In our Saturday's issue, an account of the concert tendered to the folk of the concert tendered to the old folk at the Protestant Home, was unfortunately crowded out. The concert was given by the promptings of such a kindly spirit, and in so good a cause we feel justified in now referring to it. It was given by the Visiting Committee of the George Street Epworth League, who treated the inmates to a most pleasurable medley of songs, recitations and addresses, rendering the evening a bright spot in the memory of those hearing them. Among the numbers on this most interesting program were; —Vocal duet, Misses Chasty; vocal duet, Misses Hall; duet, Mr. and Miss Huycke; reading, Miss Irwin; recitation, Miss Louise Frund; reading, Mrs. Armstrong; recitation, Mrs. W. Badge. Addresses were also given by Mr. O. A. Kidd, president of the League, and Mr. Garnet Galley.

Small Market on Saturday

Owing to the blocked conditions of the roads leading to town, from every quarter of the compas, there was a noticeably small market on Saturday. Those who braved the storm and drifts, made the townspeople pay the piper. If the goose, of fable, which used to lay golden eggs, had been brought in Saturday, its owner might have missed the moral of the fable, and killed her, for eggs were as scarce as teeth in the hens that lay them. Butter was also more in demand than supply, and ranged from 30 cents to, as high, as 50 cents per pound. Eggs sold freely at 35 cents per doz. Chickens were strictly the food of the bloated bond clipper yesterday, who had paid as much as $1.50 a pair for them. Beef and the heavier meats were plentiful, and within reach of all, even a newspaper man was seen to blow himself on half a pound of round.

THE STOMACH IN WINTER

Hearty Food Puts Extra Strain on This Important Organ

Winter is a little more than half over, and the results of its hearty food are shown in the variable appetite, nausea, heartburn, sallow skin, furred tongue, headache, backache and sleeplessness. The stomach has been overworked, the nervous system is unstrung, the blood is in bad condition, the digestive organs are tired out.

It is at this season of the year that Mi-o-na, the only remedy known that gives strength to the stomach and digestive organs, is of especial value.

Mi-o-na is not a bit-or-miss cure, but is an unusual combination of remedies that makes it infallible in restoring health to the stomach and digestive system. It overcomes any said condition that may be present in the stomach and intestines, soothes and heals the irritated mucous membrane, has a stimulating effect on the solar-plexus, and combines peculiar properties that strengthen the nerves of the stomach, and puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and the digestive system will be so strengthened that it will extract from the food all the elements that make solid bone, firm muscle, and pure blood. It is a guaranteed cure for all diseases of the stomach, excepting cancer.

The guarantee on Mi-o-na is given by one of our best known Druggists, Wm. Medill, who agrees to refund the

Records for Salvation Army.

The local corps of the Salvation Army, has mustered in many recruits lately. The special services have turned the hearts of many to the light. Yesterday meetings were conducted by Adjt. Jennings and Lieut. Salter, subjects, 11 a.m. "The Will, of God;" 3 p.m. "Idolatory;" 7 p.m. "Things That Fail." The band played special selections afternoon and evening. Owing to special invitations many new faces were seen in the Barracks, and all showed great interest in the services.

Pit Subject for the Graphic

The artists of such English illustrated papers as the Graphic and London News, seem to have, judging by their pictures, but one conception of Canada. They always depict Canada as a country of perpetual snow, where one shoots a polar bear from his bedroom window, as he dresses for breakfast, or a man in furs lassoing a buffalo in the back yard. On Saturday, within two blocks of the Post Office, The Times saw a gentleman, who, to reach and dig out the air-supply pipe of his plumbing system, within ten feet of the front door, was compelled to don a pair of snowshoes, and having reached the locality of the pipe, had to dig down nearly six feet through the accumulated snow to reach it. The English papers would doubtless label a view of the scene, "An everyday occurance in Canada."

TURN RUSSIAN FLEET

Large Forces of Japanese Reported to be Working to the East

London, Feb. 20.—Reports received here show that part at least of the Russian cavalry reported to be at Tsehe have gone back to the north with some loss, but the precise outcome of the raid is not known. It does not seem to have developed importantly.

It is reported in St. Petersburg that a large Japanese force is moving east to outflank the Russians.

A correspondent at the Russian headquarters dating his despatch Feb. 15, says that the position seems to have been made more complicated and more uncertain by the Battle of Haikoutai and the approach of an early spring. The Japanese have brought up many siege guns from Port Arthur, and some of them are pounding Putiloff Hill. Chinese report that 200 siege guns are in position at Liao-Yang.

LEARY'S

Hack, Livery and Horse Repository

CHANGED HANDS

M'CollumBros

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. J. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended in the past to our predecessor.

McCOLLUM BROS.

CARD OF THANKS.

In connection with the above announcement of the McCollum Bros. I desire to take this occasion to thank the public of Peterborough most heartily for the generous patronage bestowed on me during the past eleven years.

I desire also to bespeak for my successors a continuance of that liberal patronage in the future, as I can conscientiously recommend them as practical and reliable livery men, and worthy of all the patronage that may

Baby's Birth a Trying Time

Made Easy if the Mother Prepares Her System With a Bracing Treatment of

FERROZONE

A Womanly Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system WITH the vim and fire of youth, builds up firm tissues, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

SEPARATE SCHOOL QUESTION

True it is: Freedom's battle, once begun, is handed on from sire to son, says the Christian Guardian. The enemy of liberty and progress watch at the gateway of the empire, and, once admitted, they wage incessant war, unless the shackles they would forge are secure and the populations they would oppress are ground down to the quiet of a helpless subjection. This explains the condition of Russia today. This shows what is going on in France, and what is attempted in freedom-loving Britain. In every case it is rampant and insatiable ecclesiasticism that excites and maintains the strife; that prevents the relations of the church to God to the masses of the people, and seeks by special privileges to use the secular arm of sectarian advantage. Even in our young and happy country we have had samples of this kind of mediaevalism, and have seen the consequences of the kind of ingredients it poure into the streams of the national life. And, again, when it is proposed to erect our north-western domain into provinces, the attempt is made to impose upon them a system of separate schools for all time to come. There is neither patience nor patriotism to let the provinces for themselves settle such a question, under the Dominion basal law, which leaves education to the provinces; but the cry is raised, and the demand made, for a system of separate schools. What a spectacle! Greek separate schools! Galician separate schools! Mennonite separate schools! Mormon separate schools! Protestant separate schools! Roman Catholic separate schools! And then divide up the Protestants scattered over the prairies into separate schools! Why not? What a burlesque on nation building! How are we to get civil and political homogeneity, a noble and patriotic citizenship, by this wretched separatism! The people of the territories that, in the spirit of accommodation, gave some little countenance to separate schools at the start, have shown they do not want them. Why impose them now on the people at the call of the Roman priesthood? After working under board and council and government for years, while Protestant and Catholic leaders working jointly and harmoniously as they could, there are now some nine or ten separate schools for Roman Catholics, and some seven or eight hundred national or public schools. This proves the mind of the people at large, and especially of patriotic Roman Catholic laymen, who are desirous of building up a free nation. The public and national school system must prevail. In our judgment, and we think it will fare ill with any Dominion government that would make separate schools a fixture, or go any length in that direction.

"THE TRUTH" ABOUT THE CZAR

Carl Joubert tells what he says is "the truth" about the Czar. Consideration of sentiment or conventional reticence do not qualify his utterances. He wishes to indicate that the Czar of Russia, besides being weak, is the reverse of brave. Accordingly, he shows us Nicholas II. abjectly hiding on the floor of his open carriage because a little girl in holiday attire has flung a bouquet towards him, and assures us that the general who shared the carriage with his sovereign on this occasion, and sought to reassure him, was promptly given a post in a distant government, "where he was not perpetually brought face to face with his imperial majesty." Or take this passage: "The grand visit which Nicholas II. paid to France a few years ago was a period of severe strain both to himself and to his gentlemen-in-waiting. * * Twice a day he received absolution from his chaplain. In his clothes was concealed a small piece of garlic, as a talisman against the plots of his enemies. A rope of the Orthodox church used to lick his eye twice a day as a preventive against the machinations of the Nihilists. No one but Baron Freederickas knows the extent of the misery which he suffered until he returned to Russia."

If this is really the truth about the Czar he isn't much.

SEEKS TO SOOTHE THE STRIKE FEVER

Czar Orders Scheme to Improve Conditions

SHORTER HOURS OF LABOR

Law Affecting Strikes to be Changed —Conditions Improving all Over the Country

St. Petersburg, Feb. 20.—It is officially announced that the committee appointed under the recent ukase of the Czar has decided that the supervision of industrial affairs shall remain with the Minister of Finance. The Minister has been instructed to frame a scheme for the improvement of the condition of the working people, including a shortening of the hours of labor, if possible. He will also alter the law pertaining to strikes, and provide for furnishing medical aid to workers.

The strike situation, according to reports from the interior, is everywhere improving, even in Poland. Here all danger of a renewal of an acute stage seems to have passed. All the works, with the exception of the Putiloff Iron Works and two others have resumed work.

The imperial ukase summoning a joint commission of masters and work men chosen by themselves, to investigate the causes of discontent among the laborers, was posted at all the works to-day, creating a favorable impression.

HEARD IN MOSCOW

Rumor of Czar's Freedom Policy Confirmed

St. Petersburg, Feb. 20. — Public opinion becomes steadily more threatening. "Down with the Romanoff dynasty," is heard in the saloons, theatres and streets.

News from the provinces reveals a similar situation. Peasants along the Volga, notably at Saratoff, Samara and Kazan and in Central Russia, particularly in Voronezh, Kaluga, Orel and Moscow, refuse to pay their state taxes, saying they are unable to do so, and that unless the state grants them land from the state domains they will be obliged to take it themselves.

RUSSIAN PRINCE FINED

Kicked German Hotel Porter Because Cartoons Displeased Him

Berlin, Feb. 18.—Some weeks ago a Russian Prince named Kotschoubey was staying at a Dresden hotel. He told a porter to get him a copy of the comic paper Simplicissimus. The man did as he was told, and the Prince found that the paper contained a number of violent anti-Russian cartoons.

He thereupon kicked the porter so violently that the man was ill for several days.

The Prince has just been fined 1,000 marks in a Dresden court. He was informed by the Court that Russian methods of abusing subordinates were not tolerated in Germany.

FIVE BIG BARGAINS

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide [illegible] for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [illegible] uses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Klondyfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and found they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the ... months treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately? As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment, after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

MAY TAKE HAND IN FISCAL FIGHT

Sir Charles Tupper Talks of Hon. Jos. Chamberlain's Propaganda

DUTY ON CANADA WHEAT

Baronet Does not Think Duty of 2 Shillings a Quarter Will Affect Price of Bread

Montreal, February 18. — Sir Charles Tupper is about to make another trip to Europe, and, notwithstanding his advanced age, he still takes a remarkably clear-sighted interest in every topic of public interest. At the Windsor Hotel, for example, in the course of an interview with a reporter, he indicated his willingness, should opportunity offer, to take a part in the Chamberlain propaganda in Great Britain during the coming spring.

But the present trip is primarily undertaken to get away from the rigors of the Canadian winter, which Sir Charles, while physically in the best of condition for a man of his age, finds now slightly trying upon him.

Sir Charles, who leaves for Boston this evening, will sail from that port for Naples. The next couple of months will be spent enjoying the delights of the Italian winter. Later on, when the climatic conditions are more inviting in Great Britain, he will proceed northward.

"Can you tell us something regarding separate schools in the North-West Territories?" asked the reporter.

"Well, no," responded Sir Charles, laughing meanwhile. "That is the one question upon which I could not wish to touch. I did not hesitate when occasion arose to take action upon the school question, but now that I am out of politics I could could not wish to say anything that might prove a source of embarrassment to any one. I have said what I think upon the school question, and was, perhaps, made to suffer for entertaining those opinions."

After he had also declined to speak upon the question of granting autonomy to the North-West Territories, for which the same reason already given, the reporter asked Sir Charles if he would take any part in the Chamberlain propaganda in Great Britain.

"I have never hesitated to let the people of the British Isles know my opinions on all those great fiscal questions that are so important to the people of the British Empire at large. It is altogether likely, then, that should occasion arise I will once more lend my advice to the people at home."

"You have not changed your opinion on the Chamberlain policy?" ventured the reporter.

"Certainly I have not," responded Sir Charles, with emphasis. "If anything, I am even more strongly entrenched in the opinions I have already frequently expressed in that regard. The Chamberlain policy, in my opinion, is the one best fitted to unify the British people throughout the world. The only bond now existing between the people of Great Britain and their kinfolk in the self-governing colonies is one of sentiment—a strong bond truly, but it could be materially strengthened if to it were added one of mutual self-interest.

Chamberlain has only made one mistake, and that was when he admitted, as he virtually did admit, that the imposition of two shillings a quarter on wheat would result in making the bread in Great Britain dearer. Now, that is an assertion that I think is capable of denial, and I have on more than one occasion proved its inaccuracy to a demonstration. But the fact that Chamberlain has himself made such an admission has given his opponents the strongest possible ground upon which to appeal to the great masses of the people. Mr. Chamberlain, of course, meets the contention by the fact that what is paid in excess on bread will be more than compensated for by the reduced cost of sugar, tea, coffee and other staples. Such an argument will satisfy the more intelligent electors, but it will not satisfy the great mass of the ignorant public who find that their bread is to be taxed. But, as I have said, there was no reason to suppose that bread would be made dearer by the increased tax. Statistics show that the price of bread has never fluctuated except under the imposition of a tax of five shillings a quarter on wheat. Less than that has made no difference in current prices."

"What do you think would be the effect upon public opinion in the United States, were the Chamberlain policy put into effect through law?" asked the reporter.

"What effect could it have?" demanded Sir Charles. "They could not very well do anything worse than the McKinley tariff and Dingley bill. My own impression is that the United States appreciate those who respect themselves, and that when you are prepared to treat them to a dose of their own medicine is just the time that they commence to extend a suitable measure of consideration to others. The thing that has always irritated me more than anything else in Great Britain is the fear that is everywhere expressed that public sentiment in the United States might possibly be aroused over a given course of action. The people of the British Empire should settle these domestic matters on a basis altogether irrespective of the opinion that other nations may entertain on the same subject."

THE LOCAL POST OFFICE

Mr. R. R. Hall's Efforts at Ottawa Meets With Success

Some time ago The Times stated that improvements in the Post Office would be made in a short time This is now confirmed. Mr. R. R. Hall, the popular and energetic member for the riding, has been at work for some time, and has been assured that no time will be lost in having the changes made. As explained some time ago, it is proposed to have three wickets and increase the number of private boxes. To do this the room now used for registering letters and parcels will be utilized, and a public entrance made at the north-east corner of the building. This will give ample accommodation, and will at once remove all trouble in the way of crowding.

Mr. Hall also proposes to secure free postal delivery in town, if at all possible, and is strongly urging this upon the Government.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanitarium and Free Hospital for Consumptives, is now well known.

The 1,800 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 2,484 to 2,078 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $370,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $24 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—"**It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine.**" In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore.**"

A freighter and miners at Idaho City have invested; the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Fine Weather Gives Relief from Catarrh

But Never Cures it Because the Germs are Still Alive. Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use, and so sure to cure permanently that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says; "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I perservered with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in this locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 22 Monument St., Medford, writes: "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefited by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of inhalant costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can.

Street Railway Sleep Schedule

It reflects the greatest credit on the management and men of the Peterborough Street Railway Company, that they have given the people an almost perfect service during last week's storms. Seldom were cars late or the schedule departed from. There are larger cities than Peterborough that have nothing like so good a service, be the weather good or bad. In several cities last week the street cars ran almost at their own convenience as far as time or connections were concerned.

DUTTON'S MARKET

See our Grocery Window for Bargains.

R. A. DUTTON

Phone 304. 418-420 George Street

The attendance at the

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

No Disturbance on the Train

There is no truth in the rumor about town, on Saturday, that there was a fight, in which knives and revolvers were said to have been displayed, among the eighty men, twenty-five of them Italians, who went by C.P.R. to shovel snow at Myrtle and intervening stations. The rumor was absolutely without foundation.

The Lecture on France To-night

Among this week's attraction is a lecture to-night, in St. John's sunday school, by the Rev. Mr. Davidson, of Galt. His subject is "France," and will be illustrated by stereoptican views. Mr. Davidson has devlivered this lecture in several towns and a gentleman, who listened to this lecture, speaks very highly of the French views. The proceeds will go to the Woman's Auxiliary of St. Johns.

This Week is Cut Glass

This week we will sell the following goods at bargain prices:

Fine glass vases, plain or with frosted decorations, regular beauties, for only 15 cents each.

Mustache cups and saucers, in nice fancy china, for only 15 cents.

Fine quality children's plates, cups, and saucers for 15 cents, also new lines for 10 cents.

Pretty mustard cups with spoon and lid for 15 cents. Times Bookstore.

Rev Father Phelan May Leave

It is on the tapis that there will soon be come important changes among the local Roman Catholic clergy in the Peterborough diocese, partly as a result of the elevation of the Rev. Father J. D. Scollard to the Bishopric of Sault Ste. Marie. It is rumored, among those likely to know, that Rev. Father Phelan, the popular parish priest of Young's Point, will accompany Bishop Scollard to Sault Ste. Marie, and that his parish will be transferred to the Rev. Father John O'Brien, of the Cathedral. Report also says that Rev. Father McColl will take the vacancy in North Bay, and that Rev. Father Fitzpatrick, of Ennismore, will be appointed to St. Peter's Cathedral.

Fred Adlum's Condition Improving

Beyond a local soreness, and the probability of a permanent scar where the iron struck his scalp, Fred Adlum is not much the worse from the pointed way in which Wm Austin drove home his argument last week, when the two had a political difference in the shop of Messrs. Peter Hamilton Manufacturing Company's works. Austin, who is in jail, in default of the necessary bail, is somewhat reticent about the matter, and is philosophically awaiting his trial in the Police Court on Wednesday morning. Should fever, or blood poisoning set in, and the complication make Adlin worse, Austin will have a serious charge to face, but this is not likely at this late date.

Peterborough Boy a Winner

The Times extends its congratulations to Dr. R. G. Boucher over hisson, Dr R. B. Boucher of Phoenix, B.C., winning, by his expertness as a skip, a much coveted prize, curling. We append a clipping taken from the Phoenix B.C., Pioneer;

"First prize in the Walkerville open competition, was won by the rink skipped by Dr. Boucher, first prize in the Hudson Bay trophy, won by the rink skipped by Isaac Crawford, and second prize in the Consolation, won by Mr. Crawford's rink. The two rinks attending from Phoenix Curling Club were as follows—

C. L. Thornber, lead	C. H. Reeves
G. E. Day second	A. Strachan
G. L. McNichol, vice	J. A. Morrin
R. B. Boucher skip	I. Crawford

Sailor, Well Known in Peterborough Dead

The sad intelligence of the death, unexpectedly, of Captain Robert Leach, of Cleveland, O., has been received here by his brothers-in-law, Messrs. William and George Fowler of this town. Capt. Leach was well known at all the ports of call on the great lakes, and universally respected as a man and a sailor. He has often visited Peterborough with his family and had many friends here.

His wife is a sister of Messrs. Wm. and George Fowler of Peterborough; Mrs. W. Scott, of Smith; Mrs. A. Grant of Peterborough; Mrs. Richard Lillico, of North Monaghan; Mrs. John Dobbin, of Manitoba; and Mrs. George Tully of Iowa, U.S.A., John Fowler of North Monaghan, and Jas., of Toronto, are brothers of Mrs. Leach.

The late Capt. Leach leaves a wife and three boys to mourn his loss.

The funeral took place Friday, at Cleveland, Ohio.

RECEPTION TO CARNEGIE

Banquet Given Member for East Victoria at Ennismore

Mr. J. H. Carnegie, M.L.A. for East Victoria, was given a banquet at Scott's Hotel, Ennismore, on Friday night. Many of his supporters were present. Mr. Carnegie, who was prominently mentioned as minister of agriculture in Premier Whitney's Cabinet, expressed himself as highly gratified at the reception given him, and assurred his hearers that Premier Whitney would fulfil all the promises he had made during his campaign. Mr Carnegie assured his hearers that the reign of corruption had come to an end in this province.

A TERRIBLE DEATH.

AN OLD RESIDENT OF PETERBOROUGH AND HER GRANDSON KILLED BY TRAIN.

Mrs. Hannah and Little Harry Cobourne Stepped off G.T.R. Train at the Diamond and Fell in Front of the Wheels.

One of the saddest accidents that have occurred in Peterborough for many a month, occurred at the south end of the town, between Perry and Bank streets, Saturday night.

Among the passengers from Port Hope, by the Grand Trunk train, leaving at eight o'clock Saturday night, were an old resident of Peterborough, Mrs. Thos. Hannah, and her little grandson, Harry Cobourn, a boy of some four or five years old. The passengers in the car had their attention drawn somewhat to the little boy, by his merry talk and, seeing the old lady, as grandmothers will, petting and supply him with cakes and other articles dear to a boy's heart. When the train approached the diamond, the brakesman announced the nearby station, calling "Peterborough," when the train was near Perry street; between Perry and Bank streets, the train came to a stop, and Mrs. Hannah, was seen by the passengers to get from her seat, and gathering up several bundles, take the little fellow with her and go out on the platform. As the car windows were covered with a thick coating of frost, it was impossible for those in the cars to see their exact position, so it will likely never be known whether Mrs. Hannah was deluded by the brakesman's call of Peterborough, and expected to get off on the platform, or whether, living in the south end of the town, she intended to get off so many blocks nearer her home than in the station.

After closing the car door, behind her and the boy, Mrs. Hannah was never again seen alive. It seems she jumped with the boy from the car steps, just as the train started again towards the station. The snow banks are somewhat high on the east side of the track where she jumped, and, there being a large lump of frozen snow, or ice, lying beside the track, the supposition is that she struck this, and rolled back under the wheels, dragging the boy with her, as the bodies were found side by side, lying across the east rail, with the feet much higher than the heads, resting on the snow bank. Death was instantaneous. The boy's neck was broken, one arm smashed and he had severe cuts, although he does not seem to have been under the wheels; the post-mortem will show what was the immediate cause of Mrs. Hannah's death.

The bodies were not much mangled or the faces disfigured. Dr. Gray, the Coroner, at first had some difficulty in identifying the remains, so telephoned the different clergy, asking them to announce particulars of the accident in the several churches. Mr. R. E. Wood, County Crown Attorney, advised the Coroner to hold an inquest, which will be done to-day.

Mrs. Hannah, is the widow of the late Mr. Thos. Hannah, who was gored to death about 14 years ago by a vicious bull at Rosemount. Mrs. Hannah leaves to mourn her loss, her son Charles, Miss Bertha and Mrs. Cobourn, mother of the little boy killed. Mrs. Hannah will be buried at Rosemount, near Port Hope. The bodies lay all day Sunday in the establishment of Mr. A. Comstock, and will be taken to their late residence 13 Lake street. The family yesterday were the recipients of much sympathy from the neighbors. Mrs. Hannah was 52 years of age, and the little boy four.

LITTLE LOCAL LINES

Items Here and There by Times Reporters on Their Round

—The Bobsaygeon correspondent of be Lindsay Watchman-Warder says

—Mr. John Crane, will deliver an address on "Paper Money" before All Saint's Guild this evening.

—The Fortnightly Club is stronger by twenty new members. The officers are naturally pleased.

—Mrs. Thos. Gilgore of Peterborough was present last week at the funeral of her nephew, Wm. Kelso.

—The Gospel meeting at the Y.W.C.A. was much impressed by the address given by Mr. Frank Mason. Miss Bella King sang.

—Mr. Wm. English, of Stirling, has purchased the hardware stock of Frost Bros., Hastings, and will be ready for business in a few days.

The roof of a shed adjoining a residence near Inverlea Park, gave way under its weight of snow. A lady reading in the house had a narrow escape.

Saturday's mails were all late. The Belleville mails via the Junction were all cancelled, and will not be distributed until they arrive this morning.

—Quite a number of citizens showed their sympathy with Mr. and Mrs. James Davidson, 881 Water street, on Saturday, by attending the funeral of their little daughter Ellen Ruby.

—Mr. William Taylor had a spill at the corner of George and Charlotte streets Saturday. No bones were broken, but Mr. Taylor, was somewhat bruised from falling out of the sleigh.

—Mr. Boddy, the C.P.R. ticket agent, has received advices not to sell any tickets on their lines north of Orangeville as they are blocked with snow. The Central Ontario road is also out of business on account of the recent storm.

—Rev. Dr. Moore, of Ottawa, secretary of the Canadian Association for the prevention of tuberculosis will lecture before the Sanaterium Association in the Y.M.C.A. hall to-morrow night. He will speak on the cause and cure of tuberculosis and the public is cordially invited.

—The Trusts and Guarantee Company, Limited, Toronto, has been appointed administrator of the estate of W. H. Maines, of Hastings County, the executor named under the will having renounced in the company's favor.

—The Haliburton correspondent of the Bobcaygeon Independent says—We have a Medicine Co., giving entertainments and they help to pass the time. One of the village youngsters swallowed its toy watch the other day, and now it is taking the Company's medicine to pass the time away.

—A well attended meeting was held yesterday at four p.m., in the Y.M.C.A. The Rev. A. H. Brace delivered an interesting address taking as his subject "Slippery Places." The songs were illustrated by appropriate stereopticon views. Miss Clara Belleghem with her clear soprano voice, led the singing.

—Contributions to aid the distressed O'Brien family have been coming in freely. The family fully recognize and appreciate the generosity of our citizens and thanks to the general interest that has been exhibited in their behalf, are now in a much better position financially.

—It showed well for the honesty of our citizens, when, a few nights ago, a certain merchant on Hunter street, having the grey matter under his hat revolving more rapidly on the subject of bacon and eggs than hardware, went home to supper, and left all kinds of valuable goods hanging outside the shop, and the door locked. On his return everything was as he left it.

SOCIAL AND PERSONAL

—Mrs. Conroy, of the Windsor Hotel, has been confined to bed for some days through illness.

—Mr. James Cumming, of Norwood, will likely leave for the North-West, the 1st of March, as representative of the Peterborough Cement Roofing Company.

—Mr. Daniel Shannahan, of Otonabee, died last week. His brother-in-law, Mr. James McCabe, and Miss Nellie McCabe his neice, attended the funeral, in Lindsay last week.

—The following gentlemen were registered at the Oriental on Saturday. J. E. McCleary, Toronto; F. W. Slater, Montreal; Kenneth Mindley, Markham; G. E. Burroughs, Manager of the Trent Valley Woolen Mills; A. H. Colville, and H. B. Dryden of the Campbellford Dispatch, Campbellford. The Campbellford guests were snowbound here.

IN MEMORIAM

Lines written in memory of the death of the two-year-old son of Mrs. and Mr. Hector Baker, who passed away Dec. 26th, 1904 "He is not dead but sleepeth."

On the 26th of December,
While friends around did weep,
He clamly passed away,
In Jesus fell asleep.

We would not call him back again,
For he is better far,
From sin and sorrow he is safe,
Within the gates ajar.

At home his steps no more they'll hear,
Which was a welcome sound.
No more that loving voice will cheer.
It's silent, 'neath the ground.
A mother's joy, a father's pride;
A loving brother dear,
Has bid farewell to earthly friends.
And gone away from here.

You miss his footsteps on the floor,
Amidst the household din,
You miss that merry laugh of his,
With its happy, joyous ring.

Restrain thy tears, dear mother,
And learn this lesson still,
That God who gives can take away.
Blest be His Holy Will.

WRITTEN BY A FRIEND.

PURE MAPLE SYRUP:

A good substitute for butter, since the latter has become very scarce and is an article that is very acceptable on any table. We have just received from the makers in Brome county, Quebec, an excellent quality of last year's Maple Syrup. Sells at 27c per quart E. F. MASON & CO.

BEAUTIFUL SCENERY AT NIAGARA FALLS

One of the wonders of the world is the ice bridge at Niagara Falls, and a sight you will not soon forget. A visit to the falls will be a holiday well spent. For tickets and full information apply to any Grand Trunk Agent.

Good Boys

Are the bad boys very often. The boy that's good for anything is generally precocious. He's a healthy animal, and the healthy animal will fight for his rights.

When a boy shuns the rough sports of his companions he is apt to be a weakling, and to be conscious of the fact.

A great many mothers have testified to the wonderful curing and strengthening power of Dr. Pierce's Golden Medical Discovery. All strength comes from food after it has been perfectly digested and assimilated. By curing diseases of the stomach and other organs of digestion and nutrition, "Golden Medical Discovery" enables the perfect nourishment of the body, which is thus built up in the only way a body can be built up—by food.

There is no alcohol in "Discovery," and it entirely free from opium, cocaine, and all other narcotics.

"Dr. Pierce's medicine has done wonders for my two sons," writes Mrs. M. Hartrick, of Demster, Oswego Co., N. Y. "Both had scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had one in over a year. My younger son had scrofulous sores on his neck; had two lanced, but has not had any since he commenced to take your medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper cover, sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. For cloth binding send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

JAPS REPORTED DEFEATED SUSPICIOUS MOVEMENTS

Russian Officers Opposed Port Arthur Surrender ---At a General Council Only Sided with General Stoessel.

St. Petersburg, Feb. 20.—According to a despatch from Mukden, special reports have been received at that place stating that the surrender of Port Arthur occurred against the wishes of most of the officers of the garrison. The despatch says that at a general council held after General Kondratenko's death, only two officers, General Reiss, chief of staff of General Stoessel, and Colonel Khvostoff, agreed with General Stoessel that further resistance was useless, the others joining in Lieut.-General Smirnoff's view that there should be no surrender until the stores were exhausted. At that time, according to the Mukden report, stores for a month remained, after serving out 3,900 pounds of flour to each company of the garrison, and other provisions for the hospitals and a large amount of horse meat, flour and canned meats. There were no vegetables, which was responsible for many cases of scurvy.

According to the Mukden report, the Japanese were amazed when the Russians accepted the conditions. The correspondent adds details of the surrender and describes the thin ranks of Japanese regiments participating in the entry parade on Jan. 7. Many of these regiments mustered only a few hundred, in spite of fresh drafts, showing how dearly Japan had paid for the fortress.

RUSSIANS FORTIFYING.

Tokio, Feb. 21.—Field Marshal Oyama reports that the Russians are continuing their defensive works in all directions. They continue to shell portions of the Japanese line on Friday. On the same day they essayed a small infantry attack, but were repulsed.

JAPS REPORTED DEFEATED.

St. Petersburg, Feb. 21.—Gen. Sakharoff, General Kuropatkin's chief of staff, reports that a detachment of Russian cavalry, while reconnoitring encountered and annihilated a Japanese squadron, losing in the affair one officer and three men killed and twenty-four men wounded.

SUSPICIOUS MOVEMENTS.

Mukden, Feb. 21.—Rumors of suspicious movements movements by Gen Ma, military governor of the Province of Chili, and Chinese troops in neutral territory, are causing apprehension lest they are co-operating with the Japanese, and Chinese bandits who are reported to be advancing toward the Russian communications. Two companies of frontier guards who were sent to investigate mysterious signals seen at night at the railway station of Goudzhou pass encountered eight squadrons of Japanese cavalry and were obliged to retire with heavy losses. The Chinese are distributing among the soldiers fictitious press despatches giving imaginary details concerning the strikes in Russia.

Village Swept by Fierce Fire

Florence Business Losses Amount to Over $40,000—Early Morning Blaze on Saturday Does Much Damage to a Thriving Community.

Florence, Feb. 19.—The main business part of the town was yesterday destroyed by fire. The total loss is about $40,000. The following business places were destroyed:

McDonald and Wells, hardware, furniture, undertaking and implements.
Walter Drew, general merchant.
Leroy Miller, druggist and optician.
Dr. Kelly's office and barns.
Miss Budd, dressmaking parlors.
Masonic Hall.

About three o'clock fire was discovered in McDonald and Wells' hardware store. The fire had attained considerable headway before being discovered, and nothing could be done to save the block.

From the hardware store it quickly spread to the furniture and implement store in the rear. Then it spread both ways, north and south. The brick block occupied by Walter Drew, general merchant, was next gutted. Here the fire was stopped from going further south.

The adjoining block north of the hardware occupied by Leroy Miller, druggist and optician, was next consumed. Dr. Kelly's office was partly torn down to prevent further northward course of the fire. After Dr. Kelly's barn was destroyed the fire was brought to a standstill.

Loss:

W. Drew, general merchant, some few drygoods saved, about $7,000, insured in Economical and London Mutual for $4,500.

McDonald and Wells, hardware, furniture and undertaking and implement business, nothing saved. Loss $10,000. Insured in Canadian Gore and Mutual for $6,000.

Leroy Miller, druggist, some goods saved, loss about $3,000, some insurance, amount not known.

Masonic Hall, all destroyed.

Miss Budd, dressmaker, store, completely destroyed.

The buildings were owned by the Davison estate. Harry Brendon, of Leamington, being the heaviest loser on the buildings. Insurance on the buildings is not known.

Florence is a village in the Township of Euphemia in the west riding of Middlesex.

WAS KNOWN IN ENGLAND

Late Grand Duke Often Visited at Windsor Castle

London, February 22.—The Grand Duke Sergius was well known in court and diplomatic circles in England, which he visited in the late autumn and winter of 1892. He was then accompanied by the Grand Duchess Sergius, and the noble pair paid a visit to Queen Victoria, who was the Grand Duchess' grandmother, while she was in residence at Windsor Castle. The visit to England extended from November 25 to December 8, and the Grand Duke and his consort received an enthusiastic welcome. The welcome to the Grand Duchess was doubly kind from the love of the British people for the late Princess Alice, her mother.

FIGHTS DEATH $5,000,000

Penniless Actor, Believed Dying, is Awarded Big War Claim

San Francisco, February 22.—With a fortune of $5,000,000 awarded him by the British Government for losses sustained after the Jamieson raid in South Africa, Luscomb Searelle, an actor, is believed to be dying here in a hospital, practically penniless. Searelle was a British sympathizer during the raid and was owner of a theater in Johannesburg at the time. He purchased several thousand stands of arms for the use of the raiders and concealed them beneath the stage of the theater, where they were discovered by a Boer stage hand. He was sentenced to be shot and his estates were confiscated, but he escaped from South Africa with John Haya Hammond. His claim has been pending since the end of the Boer war. Word that it had been allowed was received yesterday.

Royal Baking Powder

45 CENTS a pound can [AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

TELEPATHY IN GRIEF

Child Cries While Father Expires in a Distant State

Elkhart, Ind., February 22.—Ten-year-old Francis Connell suffered acute despondency last Monday night, crying for his mother, who had died a few hours after his birth. Today a letter was received telling of the death of the boy's father, Fred Connell, in a New York hospital on Monday night, his last words being ing of his child. The father had disappeared eight years ago.

SEIZED CHADWICK GEMS

Woman Imported Them and Gave Them to Friends

Cleveland, February 22.—Collector [illegible] four packages of jewelry alleged to have been imported from Brussels and Paris by Mrs. Chadwick and never reported for customs duty. Loach declined to give the names of the persons who were forced to give up the jewelry, and also refused to give the value of the gems.

"All I can say now," said he, "is that three of the seizures were residents from Mrs. Chadwick to different persons. They are all residents of Cleveland."

ENFRANCHISEMENT OF WOMEN

Many Women May Vote Under the New Assessment System

Considerable interest is being aroused among the citizens in the new Assessment Act as a result of the active work going on in the department. During the week The Times called attention to the effect the Act would have upon men, not leaseholders, earning over $400 a year, but even a more interesting feature is the effect of the Act upon the salaries of women, and the ultimate influence upon civic legislation.

Up to the present time only spinsters and widows owning property in their own right have been allowed to vote, but now it will be made possible to augment this voting strength by adding all women, not householders, whose salaries are $800 and over per year.

The Act does not differentiate as between man and woman, and consequently the lady teachers and specialists, in the service of the Board of Education, stenographers in large offices, travelers, canvassers, etc., not householders, must pay taxes on all income over $400, and when $800 is reached the voting power may be exercised.

It is interesting to note that with widow and spinster property owners voting in municipal elections, and the possible application to the Legislature for an amendment to the Act giving married women property-owners the right to vote, and the addition of non-propertied women voters to the list, there are rapid advances being made towards the enfranchisement of women.

JAPS WANT LITERATURE

The Religious Tract Society Appeals for Supply of Books

London, February 20.—The Times says: In a letter, addressed to us under date January 19 the committee of the Religious Tract Society inform us that they have just had before them a letter from the agent of the Japan Book and Tract Society, in which he vividly portrays the eagerness of the Japanese soldier to accept and read Christian literature.

Soldiers in hospitals and convalescents not only clamor for reading matter for themselves, but also make requests on behalf of their comrades. A missionary visitor carrying books and tracts has been at once the centre of the eager throng, and every page of printed matter has soon been carried off.

The committee of the Religious Tract Society made some months ago a grant of £100 in aid of this work, and at the same time despatched a quantity of Russian tracts for the use of such Russian prisoners as may be able to read.

In response to a most urgent appeal from Japan, they are making a further grant of £100 to provide for a continued distribution of Christian literature amongst the Japanese soldiers, and they have also shipped to Japan another supply of Russian tracts for use amongst the Russian prisoners.

The committee believe that there are many here at home who, recognizing the responsibility of our alliance with Japan, and remembering that the Christian faith is already held by some of the most distinguished sons of Japan in her naval, military, and administrative services, will be glad to help the Religious Tract Society in the work for which it is thus providing.

REMOVING SNOW

The System Adopted by Other Cities and Towns

A citizen has written The Times regarding the removal of snow from the streets. He says that the cost, on account of the street railway, will be very large. There is no doubt as to this. There is no way of evading it that we know of. It may be interesting to know how other places get along:

In Toronto, snow is removed from the streets whereon street railway tracks are laid by large sleighs, having a capacity of seven cubic yards each. The city pays two-thirds and the street railway one-third of the cost of such removal.

In Buffalo, when snow is banked upon the streets, making it dangerous to traffic, the same is removed by contract at the rate of 25 cents per cubic yard and dumped into the manholes of the large trunk sewer. On the streets whereon are tracks of the street railway company, a portion of the expense is borne by the latter.

In Detroit and Toledo the large cartage companies remove the snow, jobbing out their teams to the city.

WEATHER NOTES

Fair and mild.

HOBSON PREDICTS WORLD CONFLICT

Says Powers Will be Involved When Russia Occupies Mongolia in the Spring

THE INTEGRITY OF CHINA

Former Naval Officer Declares Japs Will be Crushed After Internecine Strife Has Been Quelled

St. Louis, February 20.—A war of nations—the greatest conflict the world ever will have known—over the dissection of China following Russian occupancy of Mongolia was the prediction made in an interview by Captain Richmond Pearson Hobson, of Merrimac fame, yesterday. Captain Hobson was speaking of the Russo-Japanese War and pointed out that China, not Manchuria, is what the Russians are fighting for.

The former naval constructor is on a lecture tour and spoke at Central Presbyterian church yesterday morning and at Cabanne M. E. church, South, in the evening.

Concerning internecine strife in Russia and its war abroad, Captain Hobson said:

"The internal trouble in Russia will only serve to make that nation prosecute a more vigorous war in the Orient, and far from bringing about a cessation of the conflict soon, it will tend to prolong it indefinitely. Russia will force the rebellious people to the front and there compel them to fight its battles."

Captain Hobson said that the present war with Japan, in which apparently the integrity of Manchuria is involved, is only a ruse on the part of Russia eventually to bring about the dismemberment of China.

"Russia does not care about Manchuria," he said. "She wants the whole of China taken from the control of the yellow race, and as soon as one of the other Powers openly espouses her cause, the sturdy little Jap, having lost control over the sea, will be crushed, and the work of dissecting China will begin.

PREDICTS WORLD WAR.

"As soon as the spring campaign opens, I look for Russian occupation of Mongolia, and when this takes place it will, in my opinion, precipitate a war of nations—the greatest conflict in the world.

"You know Germany has mobilized its navy, and, mark what I say, as soon as she has a sufficient excuse Germany's navy will be the first to assist Russia. France will follow. You may rest assured that beneath all this sentiment which is being manifested for Russia by these two nations there is some understanding as to what will be done with China.

"That the Manchurian contention is only a part of a general scheme which involves the dismemberment of China is, I think, further proved by Russia's attitude to that nation. Ever since the war began Russia has accused China of not preserving neutrality. She evinces by this that she is ready to grasp every opportunity to include the whole of China in the war zone.

"After careful calculation, based on much study and on an extended sojourn in China, where I inspected the work of hundreds of Chinese laborers, which gave me an insight into their industrial capacity, I estimate that by 1950 China, properly opened, will add nearly $5,000,000,000 to the world's commerce, and that on a fair footing, with an open door and equal chances for all, America should really secure $3,000,000,000 of this, or one-fifth more than her total present commerce.

"At this critical juncture, the war in the Orient has caused a grouping of the nations of Europe so as to transfer the balance of power to the side of those nations who would seize China. In order to restore the balance of power on the side of peace, the United States should hasten will all dispatch the building of new vessels and the completion of vessels now building."

Toronto Man and Wife Shot At Roseneath.

Cobourg, Feb. 20.—A shooting affair took place at Roseneath, a settlement near here last night.

It appears a Mr. Blackwell, an eye specialist, from Toronto, who has been in Roseneath for about a week or ten days, had some trouble with his wife last night, and in some manner both were severely shot.

The authorities have left for Roseneath.

Later—The doctors who are in Roseneath and have operated on Mrs. Blackwell are unable to say how the accident occurred.

Blackwell has a bullet wound in the face, Mrs. Blackwell being shot in the neck.

The statement that the shooting was the result of a quarrel is wrong. Full particulars are not obtainable until the operating physicians arrive here to-night, about six or seven o'clock.

Forty-Four Persons Injured In a Railway Wreck

Patterson, N.J., Feb. 21.—An east-bound way train on the Erie Railroad jumped the track three miles east of here to-day. One girl was killed, and many persons were injured. A special train with physicians and nurses has started for the scene of the accident.

It is reported that seventy persons were injured in the wreck. Five cars were ditched, and some of them are said to have rolled down the embankment. The train was known as the Middletown Flyer, and was coming from Middletown to Jersey City. The accident happened between Fairlawn and Warrenpoint, on the Bergen County branch.

An official statement from the offices of the Erie Railroad in this city said that the train which was wrecked was a commuters' train which ran as local from Middletown to Suffern, and as express from Suffern to Jersey City. Near Fairlawn all five of the cars jumped the track, but the locomotive remained on the rails.

It is supposed that the wreck was caused by the breaking of a flange coupled of the car wheels.

Official reports to the Erie offices say one girl was killed and twenty-seven persons injured. The train carried 150 passengers, most of them commuters bound to New York.

The dead girl was Miss Grace Matthews of Suffern, N.Y. An unidentified woman is suffering from a fractured skull, and will die.

It was announced at the offices of the Erie Railroad Company at 11 o'clock that the injured in the wreck numbered forty-four, and that they were being brought to Jersey City on a relief train.

in her present position could not act so defiantly to the Powers when there is question of peace proposals if she did not have the moral backing, at least, and some assurance of physical support of these two friendly nations.

"Evidently holding out the menace of the yellow peril, Russia has agreed to give France and Germany their share of the spoils to the detriment of England and the United States. It is evident that the French people are not in sympathy with the French Government in its present position. I do not doubt that much which I have foreshadowed can be averted if France can be detached from the general scheme.

"England and the United States ought to take a firm stand. Their interests are almost identical, and we especially cannot afford to sit still and permit others to plot. We ought to be up and doing. America has always stood as a great peace nation and in the present conflict it ought to use drastic measures if necessary to restore the balance of peace in the Orient.

"To look quietly on will mean a great loss to us. If Russia, France and Germany secure control in the Orient, it will mean that our commerce with the people there—and it is worth millions—will be destroyed.

"That the Manchurian contention is only a part of a general scheme which involves the dismemberment of China is, I think, further proved by Russia's attitude to that nation. Ever since the war began Russia has accused China of not preserving neutrality. She evinces by this that she is ready to grasp every opportunity to include the whole of China in the war zone.

"After careful calculation, based on much study and on an extended sojourn in China, where I inspected the work of hundreds of Chinese laborers, which gave me an insight into their industrial capacity, I estimate that by 1950 China, properly opened, will add nearly $5,000,000,000 to the world's commerce, and that on a fair footing, with an open door and equal chances for all, America should really secure $3,000,000,000 of this, or one-fifth more than her total present commerce.

"At this critical juncture, the war in the Orient has caused a grouping of the nations of Europe so as to transfer the balance of power to the side of those nations who would seize China. In order to restore the balance of power on the side of peace, the United States should hasten will all dispatch the building of new vessels and the completion of vessels now building."

A DOCTOR DUMPED

Dr. Mars McClelland's Sleigh Upset, and Horse Steps on His Leg

Yesterday, Dr. Mars McClelland, of 190 Brock street, had a most unpleasant experience, which in all probability will make him yearn for the Sunny South in preference to the merry jingle of the sleigh bells. The Doctor was driving south on the west side of Water street, and just at the intersection of Smith street, the high bank of snow accumulated at that point, caused his sleigh to veer over so considerably that it suddenly upset, throwing the doctor out. His horse, a well bred, and spirited animal, took fright, and attempted to run away, however, Dr. McClelland, with great pluck, and presence of mind, hung on to the lines, even after the horse had pulled the shafts from the cutter. The doctor was then in a position of jeopardy, the horse backing and plunging in the deep snow, and before he could finally control it, the animal planted one of its feet on the doctor's leg, below the knee, causing him considerable pain, but fortunately not fracturing the bones. His trousers and under drawers were cut through by the iron caulks on the frightened animal's shoe. The doctor, although his blood left a well marked trail behind him, and his nerves were somewhat unstrung from the shaking up he sustained, walked to his home. The Times would call attention to the location of this accident, as it is a very dangerous spot, and the snow should be removed before another such accident can occur.

TRADING STAMPS

Should This Aid for Patronage be Prohibited and Goods Sold Fairly?

The Montreal Retail Dealers' Association has written to the local association, asking their co-operation in discountenancing the giving of trading stamps, and have asked the Peterborough Association to circulate a petition to this effect. The use of this subtle argument in the selling of goods is illegal in Ontario, but permitted in other provinces. A meeting of retail merchants will be held to discuss and take action in this matter, to-morrow night, in the Y.M.C.A. Hall. Below is a copy of the petition, which is addressed to the Senate and the Commons:

"We, the undersigned, retail merchants, respectfully petition you in view of the evils without number, caused to the retail trade of the petitioners by the distribution of trading stamps known also as cash receipts, to amend the criminal code in such a manner as to declare illegal the issuing, sale and distribution of said trading stamps or cash receipts, and your petitioners will ever pray."

CLAIMS JAPAN BEGAN THE WAR

Russian Minister at Washington Speaks

War not Made by Japan, but Forced by the Russian Bully

Washington, Feb. 22.—Count Cassini Russian minister, has again been discoursing, in his familiar vein, about the war. We often more learn from him that, so far from being nearly over, the war has only begun, and that it will end only when Russia is victorious. There can be no reasonable objection on the part of anybody else, if there be none on the part of the Russian Ambassador, to his indulging himself in public with these flights of prediction.

But when he turns from prophecy to history, amusement must give place to indignation. When he repeats, "My country did not seek this war, but was forced into it by a perfidious attack upon our forces, which were not prepared for it, at such a distance," he states the exact contrary of the notorious fact. It is perfectly plain to whoever will read the diplomatic correspondence which preceded the war that Russia considered herself at last in a position to defy Japan in Manchuria and Korea, having been engaged for years in massing troops and warships in the Far East precisely in preparation for such a contingency. As to the "perfidious attack." It was delivered two days after Japan had notified Russia that she abandoned further negotiation as useless and hopeless, and that she would take her own measures to protect her own interests. It is possible that Count Cassini's version will be read with complacency in the Foreign Office at St. Petersburg. But it is put out ostensibly to influence American opinion. And there is not an American man, woman, or child whose mind will be affected by such monstrous misstatements.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

HOCKEY.

Thessalon will play the return game in Victoria Harbor to-night, and not Thursday night, as previously announced.

• • • •

President J. Ross Robertson, of the O.H.A. left yesterday for the south. He will visit Florida and Cuba before his return.

• • • •

The correct score in the St. Andrew's-Cobourg game on Friday was 9 to 6 in favor of the college, instead of 8 to 6, as reported.

• • • •

The Toronto papers in their reports of the Smiths Falls v. Marlboro game Saturday evening have the following to say of H. Armstrong, of last year's seniors:

Armstrong went through the field like a winged-thing, beating the whole Falls team with his great speed and stick-handling, and he passed more than usual.—Toronto Telegram.

• • • •

Harold Armstrong displayed marvelous speed when he assumed the aggressive, and also did most effective work on the defence, playing with more caution than usual.—Toronto Star.

• • • •

Armstrong was the luminous light of the game. He played in dashing form throughout, checking hard and rushing brilliantly. He was a decided factor in the scoring, keeping the forwards well fed, and shooting when the chance was offered in deadly fashion.—Globe.

• • • •

The T.A.S. play in Fenelon Falls to-night.

• • • •

Best's "Happy Thoughts," defeated Barrie's "Bedellas," last night.

• • • •

What a great pair of home ice players Goderich and Stratford must be. First Goderich beats Stratford 8 to 6; then Stratford downs Goderich 10 to 2. The teams both have to play away from home to-night, and on form it looks as if neither should win.

IMMIGRATION PLANS DOWN BY THE SEA

Government Will not Compete With Federal Authorities

WILL SUPPLY LITERATURE

Province Not Getting Its Share—Openings in Agriculture in and the Fisheries

Halifax, N. S., February 22.—The announcement recently made that Nova Scotia is about to undertake a vigorous emigration propaganda in the British Isles is to some extent misleading. It is true that the speech of Premier Murray at the farewell dinner given by the Halifax Board of Trade last week to John Howard, Agent General of Nova Scotia in London, on which occasion Nova Scotia's immigration needs were informally discussed was open to that interpretation, the Provincial authorities have no intention of entering the emigration field in competition with the federal agencies.

During Mr. Howard's visit, the Agent General, accompanied by Premier Murray, held a conference with the Council of the Board of Trade, at which Mr. Howard pointed out that Nova Scotia and, in fact all Eastern Canada, were neglected in the Federal emigration scheme in England. While the Dominion agencies and the steamship companies were making England ring with their descriptions of the attractions of the West, nothing was being done to place Nova Scotia and her great resources in the public eye. If Nova Scotia wanted immigrants, literature descriptive of the Province, its resources and farming and manufacturing possibilities must be available for distribution.

COMMITTEE WILL BE NAMED.

As the result of Mr. Howard's representations an immigration committee will be appointed by the Halifax Board of Trade to co-operate with the Local Government in preparing suitable literature for distribution abroad through the office of the Agent General. But it is not the intention of the Government to establish an emigration agency in London. The Provincial Ministers hold that it is the province of the Federal Government to deal with immigration, and while they would welcome desirable settlers, the time has not yet arrived for the province to inaugurate an expensive immigration policy. At the same time it is felt that Nova Scotia is entitled to a share of the large influx of immigration, to secure which Canada is paying a million dollars a year, and the new immigration committee will join the Local Government in urging the Federal authorities to devote some attention to the immigration needs of this Province. In this work Nova Scotia will cordially co-operate. There are opportunities in Nova Scotia for the well-to-do tenant farmers of Britain, who would find profitable employment for their energy and capital in restoring to fertility some of the neglected and deserted farms in the Province.

The fishing fleets also needs recruits. Many vessels lay idle last season because crews to man them were not to be had for "love or money." The more remunerative work offering in plenty ashore in the industrial centres and in railway construction is every year making drains on the complement of the Bank fleet. The fishing industry is capable of great expansion, but before expansion is possible sailors must be imported to take the place of the deserting Bluenoses. To man the fleets operating from Lunenburg, Digby, Canso and other fishing centres, English and Scotch fishermen would be welcomed, and that need must be soon supplied if Nova Scotia is to maintain her supremacy in the Atlantic fisheries.

When the great steel plants at Sydney and Sydney Mines are in full operation skilled labor will be in great demand, but the Government is not likely to undertake to provide labor for big corporations. That is a matter which will be left to private enterprise.

OLD RESIDENT DEAD

Demise of Mrs. (Patrick) Begley Yesterday Morning

Yesterday morning, one of Peterborough's oldest citizens, in the person of Mrs. Mary W. Bolgey, passed away. Mrs. Begley, relict of the late Patrick, was born in Ireland, and when very young, came to this country, settling first in Belleville, where she married. After living at different times in Bowmanville, Oshawa, and Lindsay, she came, twenty-five years ago, to Peterborough.

She leaves three sons and two daughters to mourn her loss. They are, Messrs. Robert, Joseph and Thos all of Peterborough. The daughters are Mrs. John McCall, of Lindsay, and Miss Minnie, town. The late Mrs. Begley was prominently identified with church work, being a leading member of the Ladies' Aid Society of St. Peter's Cathedral, and a devot and active member of the congregation. She had a wide circle of friends who will deeply regret her demise and sympathize with the family in their irreparable loss.

The funeral will take place from the residence of her son, Thomas J. Begley, Victoria Avenue, on Wednesday morning at ten o'clock. Interment will be made at the Roman Catholic cemetery.

SANTAL-MIDY

These tiny Capsules cured in 48 hours wherever known. Specifics, Guelphs and Bolton about this.

Thin-Blooded, Tired Nervous, Unhappy

I Was Sick, Broken Down, No Strength, Couldn't Sleep, No Appetite

FERROZONE

Gave Me Energy, Force, Vim, Comfort Made Me Well.

Because Ferrozone gives instant effect and steadily builds up new flesh it is used by thousands in poor health.

No other tonic in the world is like Ferrozone. No other medicine accomplishes such marvelous results.

Its wonderful merit in building up and strengthening is acknowledged by every physician.

It makes you feel better at once like Mrs. Chaires Benny, of Cloyne, Ont.

HER STATEMENT

"I was sick.

"I was broken down, had no strength, couldn't eat, I was sleepless.

"My nerves were irritable. I was thin-blooded and continually unhappy.

"I tried Ferrozone.

"It gave me new energy, force, vim. It brought me comfort, strength—it made me well."

To get new vital energy, renewed youth, use Ferrozone. It makes the blood rich and red, fortifies the system with reserve strength, puts new life into all that use it. Greatest tonic and rebuilder known. 50c. per box or six boxes for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

OPPOSITION AND SEPARATE SCHOOLS

No doubt the Western school question will trouble the Government, but it must not be forgotten that it will also trouble the Opposition, says The News. In the ranks of an Opposition there will usually be found men who regard such a question as a crisis, not for the nation, but for the party in power. Their reasoning is specious. "The difficulty of "the Government is our opportunity. "If they take this course they of-"fend the Protestants. If they take "that course, they offend the Cath-"olics. Why should we help them "out of a difficulty? Let them "skin their own shanks." If the last expression sounds coarse, we have only to plead that it was used to fortify the argument that the Liberals, nearly twenty years ago, ought not to take a positive stand on the Riel question. If Sir John Macdonald did not hang Riel, he would lose Ontario. If he did hang Riel, he would lose Quebec. Heads I win, tails you lose. Sir John is beaten anyway. This was the reasoning of the smart school of politicians. Sir John was not beaten. His opponents were beaten, not so much because they took one side or the other after Riel was hung, as because they tried to take both sides.

This is the snare of an Opposition. It is apt to think too much of the responsibility of a Government, and too little of its own responsibility. If Separate Schools are fastened upon the West, the greater share of responsibility will rest upon the Liberal Government and its supporters in Parliament. But that will not remove the burden of responsibility from the shoulders of the Opposition. If Mr. Borden would take a determined stand against the forcing of Separate Schools on the West, it is probable that the West would be left free. Whatever the rest of the Dominion may have done, Ontario has given its confidence to the party led by Mr. Borden. It gave him a majority in the Federal election, although it was well known that he could not be Premier of Canada, that he must be the leader of an Opposition. Does not this loyalty invest Mr. Borden with a peculiar responsibility? We do not say that he is bound to carry out the ideas of Ontario, which gives him nearly two-thirds of his Parliamentary following. But we do think that in view of the generous support given to him by a Province that he knew he would be defeated, he is bound to take a high and strict view of his duties as a leader of the Opposition. This Province at least may say that if Separate Schools are fastened on the West, Mr. Borden's responsibilities are as great as those of the Premier of Canada.

THE QUALITY OF FRENCH NEUTRALITY

News comes from time to time that the Japanese are protesting against French hospitality to the Russian fleet in Madagascar. The wonder is that Japan has been so patient in this matter. We suspect that the reason for her patience is contempt for the naval power of Russia. If Japan considered the naval expedition against her formidable, we believe that she would long since have summoned Great Britain to fulfill her obligations under the treaty of alliance by aiding Japan in the war on the ground that France is aiding Russia.

The Russian fleet has been lying in French waters off Madagascar for six weeks. Admiral Rojestvensky arrived there January second, and has been joined from time to time by other detachments. No one knows where the fleet is or what it has been doing. The first impression given was that it was lying off the coast outside the three mile limit, but it is known that the fleet has been thoroughly coaled from German colliers and it is believed that it has been repaired by workmen from the French naval station in Madagascar. If this does not amount to establishing a hostile naval base in neutral territory, then there is nothing in international law.

The excuse of the French is that their neutrality law and the proclamation issued under it are less specific than those of other countries in relation to the time belligerent ships can remain in neutral waters and the assistance they can receive to go to sea. But nations are not permitted to deviate in their own law from the general rules of international law unless they are willing to take the responsibility.

When Great Britain did this during the American civil war, the Geneva tribunal made her pay heavy damages. It will be surprising if France does not have to face a like demand after the war is over.

INVESTORS

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $14,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. BUTTE COPPER MINING & SMELTING CO., Butte, Montana.

COIN PAID TO JUDAS STOLEN

Historic Hebrew Shekel Part of New York Thief's $50,000 Loot

New York, Feb. 20.—An old Hebrew shekel, said by its owner to be one of the thirty pieces of silver paid to Judas Iscariot for betraying Christ, has been stolen, with other rare coins worth $50,000, from the apartments of Mark Fisher, owner of an automobile exchange at 220 West Thirty-sixth street. A woman who gave her name as Catharine Voliner was arrested to-day at 214 East Forty-second street charged with the theft. She was formerly in Fisher's employ and was dismissed by him.

Fisher said he discovered the shekel at an auction sale several years ago, where its true value and history were unknown. He declares he has refused an offer of $22,000 from a member of the London branch of the Rothschild family for it.

ALFONSO SAYS NAY

He Won't Marry Anybody Till He Gets Good and Ready

Madrid, Feb. 21.—King Alfonso is proving most intractable in the matter of marrying the daughter of the duke of Connaught, or any other woman selected as a consort. He has had frequent interviews with the queen, in which he says he will not marry before he is 20 years old, and not then if he doesn't want to do so.

ADVERTISE IN THE TIMES.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

10 King Street W., Toronto

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondafountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaister, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

AFTER TREATMENT

Peter R. Summers, of Kalamazoo, Mich., relates his experience:

I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method treatment, and in a few weeks I felt like a new man. I had the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

LOCAL RUSSIANS ON ASSASSINATION

Russians in Canada Deplore This Grand Duke's Death.

A MOST HUMANE MAN

Grand Duke's Death a Long Step Towards Freedom for the People

Montreal, February 20.—The assassination of Grand Duke Sergius has excited the wildest interest in all circles in this city.

While the majority of the Russian refugees sympathize with the perpetrators of the outrage, there is an underfeeling that the time for intimidation, and a reign of terror is past.

If the Russian Liberals can obtain their rights, without an appeal to force, then those privileges, if gained without bloodshed, are worth all the more. The fact that the Grand Dukes have exerted considerable influence with the Czar to prevent his granting the long sought for demands, has not concealed the fact that these concessions were gradually coming, and the lack of success which attended the recent demonstration in force in the city of St. Petersburg should have warned the Liberals against the repetition of such proceedings.

RUSSIAN CONSUL'S VIEWS.

The Russian Consul-General, M. Nicholas de Struve, was informed by a reporter of the news from Moscow.

"I deplore it greatly, it will injure their own cause," he remarked. "While I have heard that the administration of the Grand Duke Sergius in Moscow, was not popular, I little thought that such a catastrophe as this would occur in the centre where the Liberals are most powerful. It is a terrible blow to their own cause."

"The Grand Duke Sergius was the second youngest son of the Emperor, Alexander III. He married a sister of the present Empress, Princess Elisabeth of Hesse-Darmstadt. Though very young at the time of the late Turkish war, he distinguished himself greatly there, and was most highly thought of by the troops. While I have heard that his administration was unpopular, I believe that the late Grand Duke was of a most humane disposition.

"I am sorry for all concerned in the affair.

LIEUTENANT DUBIN'S OPINION.

Lieutenant Dubin, late of the Russian navy, in an interview with a reporter, stated that he was not so greatly surprised at the assassination of the Grand Duke.

At the time of the coronation of the Emperor Nicholas, the Grand Duke Sergius had been made Governor-General of Moscow. He had frequently heard that his administration was most unpopular.

In recent advices received from relatives in Moscow, there had been bitter complaints of the restrictions imposed by the Grand Duke, and mention was freely made of his severity in dealing with all political offenders. He was a stronger type than his nephew, the Czar; a man of iron will.

"In appearance, he was tall and slight, but muscular. He was a good horseman, and possessed a stronger face than most of his brothers. He was popular with the troops, and had been in command of the Russian cavalry for a number of years.

"I believe that the action will result advantageously to the revolutionary party. Sergius was the head of the reactionary movements, and a leader of the bureaucrats. With his death a strong influence with the Czar against the concessions of the demands of the Liberals is removed.

"Sergius was a tower of strength to the reactionaries. They will miss him greatly.

"I remember seeing the Grand Duke Sergius at a review which took place in Moscow, some ten years ago. A soldier had fallen from his saddle, smitten by sunstroke. Before any one could reach him, the Grand Duke had lifted him from the ground and assisted him to an ambulance. Such acts as these made him very popular among the troops. But his rule and measures were very unjust.

HEARD IN MOSCOW

Rumor of Czar's Freedom Policy Confirmed

Moscow, February 18.—It is asserted by leading nobles of this city that the rumored determination of the Czar to grant large practical concessions to the people has been confirmed. The attitude of Moscow millionaires and manufacturers, which has also been adopted by St. Petersburg industrial and financial men, has produced a deep impression on the Czar and his adviseries. Until now the middle classes, especially those who belonged to the Moscow conservative class, were opposed to any European progress. Among the nobility and in high aristocratic circles a number of people under the influence of English or French education have always had liberal views, but this was known to the Government, which paid little attention to it. When, however, the representatives of industry and finance take similar views, the authorities realize that their situation is becoming entirely untenable. While quiet prevails, the alarm of the authorities over the disposition of the laborers and peasants who are more concentrated in Moscow than in St. Petersburg, is evidenced by the fact that all the streets and squares in the neighborhood of the famous Kremlin are patrolled day and night by the Cossacks and gendarmes and mounted police. Moreover, every infantry regiment in Moscow and the suburbs is held in readiness for action.

Small Market on Saturday

Owing to the blocked conditions of the roads leading to town, from every quarter of the compass, there was a noticeably small market on Saturday. Those who braved the storm and drifts, made the townspeople pay the piper. If the goose, of fable, which used to lay golden eggs, had been brought in Saturday, its owner might have missed the moral of the fable, and killed her, for eggs were as scarce as teeth in the hens that lay them. Butter was also more in demand than supply, and ranged from 30 cents to, as high, as 50 cents per pound. Eggs sold freely at 35 cents per doz. Chickens were strictly the food of the bloated bond clipper yesterday, who had paid as much as $1.50 a pair for them. Beef and the heavier meats were plentiful, and within reach of all, even a newspaper man was seen to blow himself on half a pound of round.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

$60,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 2,484 to 2,079 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $330,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Bell, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested; the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Consumption Can Be Cured

A Powerful and Effective Destroyer o Disease Germs Discovered Which Cures Consumption.

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the vaporized air cure. The vapor is more soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler, the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly cured by Catarrhozone.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

Important Addition to Times Plant

The Times has had an addition to its already first-class and modern plant made. It is a fine new power jogging machine, made in, and imported especially for our own use, from Chicago. This makes three of these machines now in use in The Times' bindery, so that our patrons will never now have to wait their turn for book binding or similar work.

Frosts Bursts Pipes on Bridge

The Light and Power Company had a staff of men, under Mr. Al. Jones at work on the Hunter street bridge yesterday. It seems that the iron structure of the bridge, contracting under the excessive cold of the last few days, had shortened the bridge by some three inches. The pipes conveying gas to the Fifth Ward are firmly attached to the bridge and when it shrunk these three inches the pipes separated, and allowed an escape of gas. It will be necessary to connect the broken pipes by flanges. It will take about a week to complete the job.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

FIRE NOTICE

Mr. Dunslow has the pleasure to inform the numerous patrons of the "Framery," which was destroyed by fire on Sunday last, that he has resumed business in the store occupied by Colonel Miller, 438 George street, pending refitting of the old premises. A new stock previously ordered for the spring trade is being moved forward. A continuance of the kind and generous patronage hitherto extended to the old "Framery," is solicited. 3d

Opera House Last Night

The opera house last night held a large and enthusiastic audience which viewed with pleasure the performance given by H. Wilmot Young—Marjie Adams and the Bijou Comedy Co. The performers were capable, the costumes as apropos to the play and the general make-up all that had been claimed for it. The leading characters in the hands of Mr. Young and Miss Adams were finely handled. One of the [illegible] company are the eight big specialties, they were all good. To-night the play will be "Under Two Flags," introducing Miss Marjie Adams as "Cigarette." There will be an entire change of specialties at each performance.

E. F. Mason Buys Another Grocery

The Cooperative Grocery store, until lately owned and operated by Mr. Tuck, has been sold to our enterprising townsman, Mr. E. F. Mason. Mr. Tuck was compelled, by ill-health of his son, Walter, to go to New York, that the boy might get medical treatment in a hospital in that city. This is the second branch establishment operated by Mr. Mason, making him proprietor of the two old stands, one at 351 George street, and the parent business at 429 George street; now Mr. Mason can be also found at the north-east corner of George and Brock streets. Such enterprise as this is typical of a true son of Peterborough, and deserves attention at the hands of the purchasing public.

Death of Mrs. Daniel Sullivan

Yesterday, Mr. Daniel Sullivan, 612 Stewart street, sustained a sad blow in the loss, by death, of his wife, Sarah H., who was only 26 years of age. Her mother, Mrs. Mary Harrington survives her, and her death is also mourned by her husband, five sisters and four brothers. The sisters are Hannah, of Enniamore, Mrs. Owens of Galway, Mrs. O'Brien of Grafton, Mrs. Allen, Brockville, Mrs. Birch, of Dakota, and Mrs. Kane of Kinmount. The brothers are James of Sault Ste. Marie, Ont., Charles of Dakota, William of Marionette, Mich and Daniel of Enniamore. The deceased was loved and respected by all with whom she came in contact. The funeral will take place on Wednesday morning at 9 o'clock from St. Peter's Cathedral and thence to the Ennismore cemetery for burial.

Rather Shower Hockey Match

Among the crowd of Peterboroughians that went to Markham last week to see and help our hockey team add to their laurels, was the son of a local hotel keeper, who is an enthusiastic admirer of the game. During progress of the game, our local boniface became enthused, and when a Markham sport had the temerity to mention a possibility of his home team winning, he pulled out a roll of the long green, the size of a flat, and peeling off $15 put it in the hands of a bystander, daring the Markham man to endorse his own opinion to that extent. The loyal son of Markham could not take a bluff like that, and covered the $15. After it was demonstrated that Markham could not play hockey with Peterborough, the smiling Peterborough man bethought him of his bat and looked for the stakeholder. Latest reports by cable confirm the reports that he is still looking.

Mr. Crane's Lecture on Paper Money

In the Sunday school, of All Saint's church, last night, a large and deeply interested audience listened to Mr. John Crane's concise and luminous history of banking, with special reference to paper currency. Mr. Crane prefaced his address by a general comparison between Canadian banking systems and those of other countries. It might be stated that the comparison showed our own system in no unfavorable light with those of other countries. The speaker then turned back the page of banking lore to ancient times, and the system of exchange and barter then in vogue, touching briefly on the first historical issue of bank notes in Canada and other countries, and the laws appertaining to such notes at the time, passing on to the present banking laws. Mr. Crane dealt briefly but clearly on the redemption of current notes by the banks, passing on to a description of the English system, particularly that of the Bank of England, explaining how that large financial bulwark of England's national credit, never issued a note a second time. He then showed how in times of both industrial prosperity, and temporary depression, the banks came to the aid of not only the commercial community, but enabled the farmer to move his crops. The lecture was brought to a close by a history of the different legal tenders of the Government. Those fortunate enough to hear this address, went home better posted on the history of bank notes than previous to the meeting. The meeting was presided over by the Rector, and was in aid of the Girls' Guild of All Saints.

THERE'S A REASON
Look in each pkg. for the famous little book "The Road to Wellville."

A Heavy Loss

As recorded in yesterday's Times, the Framery is no more. Mr. H. Dunslow estimates that his loss is in the neighborhood of $1,200, on which he only had $600 insurance. Mrs. Birdsall, who owns the building, will not be so heavy a loser as would have been expected by anyone who saw the fire, this is, of course, due to the prompt and intelligent work done by our fire laddies, her loss will amount to about $250. Mr. A. Campbell, the baker, who rooms over the burnt out store, has had his household goods damaged to a considerable extent by water and smoke, as has Mr. Trennum, Mr. Hawley, is a sufferer by the fire to some extent, his confectionery store was closed all day yesterday in consequence. Fortunately, the large handsome group portrait of the Shamrock Lacrosse club, Montreal, presented to the T. A.S. by Rev. Dr. O'Brien, and recently framed by Mr. Dunslow, was delivered last week.

Mrs. J. Kincaid's Sister Gone

The Times respectfully tenders its sympathy to Mrs. John Kincaid over the sad death of her sister. Mrs. John Belch of Mt. Horeb. The Millbrook Reporters says;—The death of Mrs. John Belch, nee Miss M. J. Thornton, took place at Mount Horeb, recently, after a lingering illness, borne with Christian fortitude and patience. Deceased had reached the age of 71 years, and was highly respected by all who knew her. She was a faithful member of the Presbyterian church, a true Christian, and her many kindly acts will live long in the hearts of those who came in contact with her. She, with her husband, the late John Belch, were among the first settlers of Manvers township, near Mount Horeb. She leaves to mourn her loss a loving mother, three daughters, Mrs. Beyell, Mrs. Caldwell and Mrs. Wilson, and one son, David, besides two brothers, J. D. Thornton of Omemee, and W. J. Thornton, of Beulah, Man., and two sisters, Mrs. John Kincaid, of Peterborough, and Miss Thornton, of Omemee. The funeral was very largely attended on Saturday last. The services were conducted by her pastor, Rev. J. M. Whitelaw, B.D. The interment took place in Mount Pleasant Presbyterian cemetery.

—A poster tea will be given by the Fraser Mission Band at Miss Agnes Hall's residence, 300 London street, to-night.

—Messrs. Theodore McWilliams and James Lundy walked in from Keene on Saturday night. They found it

—The regular monthly meeting of St. John's W.A. will be held in the Guild room, Tuesday, Feb. 21st, at 3.30 p.m.

—A meeting of the Ministerial Association was held yesterday morning, but no business of importance was transacted.

—Thirteen men from James Lyle's lumber camp, at Fairy Lake, have at last succeeded in digging their way through to town.

—The representatives of St. Andrew's Young Men's Guild did not go to Centerville last night on account of the bad sleighing.

—Prof. Needler of Toronto University, will lecture in George street church on Friday night next, under the auspices of the Epworth League on "Luther, as a force in Literature."

—Rev. H. B. A. Ketchen, assistant pastor of St. Paul's church, returned on Saturday from spending several days in and around Norval, Halton County.

—A meeting of the creditors of E. W. Gardiner, confectioner, George street, who made an assignment, a few days ago to Orias de Lafiante, will be held on Feb. 28.

a very long ten miles.

—The Young Men's Guild of George street church will hold a meeting on Thursday night, when an address on "Liquid Air" will be delivered to the members by Mr. M. J. Hutchinson.

—Mr. W. H. Greer, of Brandon, Man., is at the Cavanagh Hotel. This gentleman will be in town from 27th February until 6th March, for the purpose of buying horses for the North West.

—The Water Commissioners should see that the hydrants throughout the town are kept clear of snow or ice, or we will have a fire some day, and the brigade will be unable to cope with it.

—The Young Men's Guild of St. Paul's church—in fact all the young men connected with the congregation—are requested to meet at the church on Thursday evening when a social time will be spent.

—Mr. W. H. Wrighton does not approve of dog fights. Yesterday the north window of his grocery store on George street was smashed by two of these animals who had fought and during a clinch in the third round, did not notice the transparent barrier to the ring.

SOCIAL AND PERSONAL

—Dr. Wood, a well-known dentist of Cobourg, is dead, aged 78.

—Mr. George McGue and wife, of Centerville, are visiting friends in town.

—Mrs. F. H. Dobbin is spending a few days in Norwood, the guest of S. P. Ford, M.D.

—Mrs. John Crane and her daughter Miss Gladys, are in Toronto for a few days, visiting friends.

—County Magistrate George Edmison fell on the ice on Hunter street yesterday, and was badly shaken up.

—Mr. Thos. L. Anderson has returned from Fort William where he has been spending a few weeks.

—Mr. D. W. Dumble was able to come down stairs to-day. It will probably be two weeks before he will be down town.

—Mr. A. Jones was able to attend to business yesterday for the first time in two weeks, having recovered from his late attack of la grippe.

—Miss Helen Davies has recovered from a severe cold which has confined her to her room for the past week. Prof. Davies and Miss Davies have resumed teaching to-day at their residence, 189 McDonnell street.

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who had never been well until she was made well by the use of Dr. Pierce's Favorite Prescription. There are a great many other women in like case. They have always been sufferers from disease. They have never known the joy of perfect health.

For all such women Dr. Pierce's Favorite Prescription holds out the prospect of perfect and permanent health, by the cure of the womanly diseases which weaken women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"It gives me pleasure to let you know of the great benefit received from Dr. Pierce's medicines and the advice which you so kindly sent," writes Mrs. Bertie Parker, of Bonham, Fannin Co., Texas. "I took your 'Favorite Prescription,' 'Golden Medical Discovery' and 'Pleasant Pellets,' and followed your advice regarding the 'Lotion Tablets,' and am cured. I had been treated by different doctors and spent one hundred dollars for treatment and medicine, but received very little relief. I have only spent seventeen dollars and fifty cents for your medicine and it has cured me in three or four months of ulceration and falling of uterus. I suffered severe misery in my back, also irregular periods. Had bearing-down in lower portion of body and [illegible] all the time. Appetite poor. Had nervous headache almost daily. Was troubled with pain in left side, near heart, and shortness of breath was very short all the time, had pain in stomach, pain in my thighs, pain in breast, also between my shoulders. Bowels constipated. I am well now and enjoying better health than ever before in my whole life. Am happy to tell you that I was cured by your good advice and good medicine, the 'Favorite Prescription,' 'Golden Medical Discovery,' 'Pleasant Pellets' and 'Lotion Tablets.' These medicines cured me and will cure others also."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute.

Dr. Pierce's Pleasant Pellets regulate the bowels.

—The Lindsay Post says; Mr. F. H. Dobbin, managing director of the Peterborough Review Co., was in town yesterday on his way north to Kinmount to be present at the banquet tendered Mr. J. Hilliard Carnegie, M. P.P., for East Victoria, on Friday at the Northern Hotel. In consequence of last night's fierce storm, the gentleman mentioned and others guests from a distance may have to sample north country hospitality for a week to come.

—We see in the Cobourg Sentinel that: The Belleville Reform Club met on Monday night, and appointed a deputation to go to Ottawa and interview the Government and urge that the outlet of the Trent Canal be at Trenton. No need of troubling the Government. Cobourg has the cheap, reliable and only feasible route for this canal. Port Hope and Trenton might as well hang up their fiddles, as with their rock bound courses they are not in it.

ST. LUKE'S YOUNG MEN'S GUILD

Interesting Talk by Mr. Jeffrey—A Pleasant Evening Spent

There was a good attendance at St. Luke's church last night to hear Mr. Jeffry's talk on "Macbeth," given under the auspices of the Young Men's Guild of the church. An enjoyable program of instrumental and vocal solos was also rendered in a pleasingly acceptable manner those taking part being; Instrumental solo, Mrs. A. W. Turner, vocal solo; Mr. Jos. Legg, Mr. Jeffrey's talk on "Macbeth," vocal solo, Mr. Sproule. It was moved by Rev. Mr. Langfeldt seconded by Mr. Kelly, that a vote of thanks be tendered Mr. Jeffrey for his able talk. This was carried unanimously. Mr. J. J. Turner acted as chairman in the absence of the president Mr. Kelly.

FELL THROUGH SKYLIGHT

Walter Sager Seriously Injured by Broken Glass.

Last night Walter Sager, the 11-year-old son of Mr. F. Sager, superintendent of the Star of the East Gold Mining Company, at Marmora, was playing on the roof of the summer kitchen adjoining Mr. Sager's residence, corner of McDonald and College streets, when he slipped and fell through the glass sky light, sustaining severe injury. The broken glass cut the boy, and injured the rectum so severely that the doctors had him removed to the Nicholl's Hospital, where an operation followed later on. The injury involved the necessity of having many stitches applied, but it is hoped that no permanent result will accrue. Doctors Carmichael and Brad were in attendance, and other medical assistance was summoned to attend at the subsequent operation.

LEARY'S
Hack, Livery and Horse Repository
CHANGED HANDS
M'COLLUM BROS
Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. R. H. Leary, 421 Water Street.
It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended in the past to our predecessor.
McCOLLUM BROS.

CARD OF THANKS.
In connection with the above announcement of the McCollum Bros. I desire to take this occasion to thank the public of Peterborough most heartily for the generous patronage bestowed on me during the past eleven years.
I desire also to bespeak for my successors a continuance of that liberal patronage in the future, as I can conscientiously recommend them as practical and reliable livery men, and worthy of all the patronage that may be entrusted to them.
ROBT. H. LEARY

OTHER ASSASSINATIONS SURE TO COME SOON.

Assassin Justifies His Deed and Says Other Victims Will be Found---Will Free Czar of Evil Influences.

Moscow, Feb. 22.—The assassin of Grand Duke Sergius maintains an attitude of profound indifference. When pressed to reply to questions he declared that all the efforts of the authorities would have no result. Before his victim was laid under the earth, other victims would be found.

Regarding his motives, the assassin said he only acted in the interests of an oppressed people. He considered the deed was an act of duty. The Grand Duke had for years violated every canon of ordinary decency and ruined the country, while exploiting the weak will of the Emperor for their own ends. They had made him a tryant, so that people execrated him.

He was aware that the Emperor was an innocent dupe, and his party had decided to deliver the Emperor from the influences surrounding him, in the hope that he some day would join in the movement and become head of a national Government based on Western lines.

Neither the police nor their spies, he addred, will be able to protect those who are doomed to death.

Tokio, Feb. 22.—Field Marshal Oyama, reporting to-day, says that a small infantry attack was made on Frang Mountain on February 22. The Russians shelled Layatai on the night of February 19, using heavy guns.

Kaffa, Crimea, Feb 22.—Lieut.-Gen Stoessel, former commander of Port Arthur, arrived here to-day.

St. Peteraburg, Feb. 22.—It is officially announced that Grand Duke Paul has been re-admitted to the Russian army with his former rank of lieutenant-general and aide-de-camp general.

Frederickshaven, Denmark, Feb. 22.—The third Russian Pacific Squadron anchored to-day in Skagen Bay, and is now coaling. The squadron has been joined by some other units, and now consists of five ironclads, an auxiliary cruiser, a gunboat, and three transports.

Simon catreet.

ANARCHIST SOCIETY FORMED IN MONTREAL

It Is Believed That Band of These Men are in City

OPINIONS OF LEADING JEWS

Violence and Assassination Utterly Disapproved of and Discountenanced

Montreal, February 23.—Headed by one Mr. Vineberg, the reputed leader of the Russian Revolutionary Band in New York, there was a meeting of Russian Jews held yesterday in the Empire Hall, under the auspices of the Montreal Branch, which, it is said, was organized two years ago. The assassination of the Grand Duke Sergius was the subject of an address by Vineberg, and the meeting endorsed his sentiments which were of a nihilistic tendency.

It is believed that there is a so-called society of anarchists in this city, the members of which are Jews of the lower orders, led by a few countrymen.

A few of the leading members of the Jewish community were seen today by a reporter, and they disclaim all connection with these people, about whose movements they know nothing; and they deplore the fact that Jews in Montreal are in any way associated with yesterday's meeting.

Mr. L. Cohen said: "It is a great pity, such a meeting could never be taken as an indication of respectable Jewish opinion, on such a subject. I don't even believe they were all Jews at that meeting, and those who were there should be ashamed of themselves. I know nothing about the meeting until today."

DISAPPROVE OF METHODS.

Mr. C. I. de Sola, being seen by a reporter, said: "It is scarcely necessary to say that Jews the world over utterly disapprove of the methods of Nihilists and Anarchists, who resort to violence and assassination to attain their ends. Jews are pre-eminently a law-abiding and peaceful people, and believe only in constitutional methods of agitation. There can be no excusing and no condoning violence, neither can any good ever be attained by it. The meeting referred to was not even heard of by any Jew of standing in the community, until read of it in the paper the next day, and I have not the slightest doubt that 98 per cent. of those present were purely attracte dby curiosity to hear what was said. There are always silly men who will do stupid things, but they do not represent anybody but themselves, and are entirely disclaimed by the Jewish community. The Jews have suffered cruelly from oppression in Eastern Europe, and it is only natural that they feel very bitter against their oppressors. They have been the victims of massacres, and every kind of outrage and injustice, but this does not make them lose sight of the fact that their religion teaches that 'thou shalt not commit murder.'"

Mr. M. Vineberg stated: "It was a most unfortunate thing that I should bear the same name as that irresponsible individual who is reported to have addressed that meeting yesterday. I don't know him and don't wish to, nor do I know anything about the following he is said to have in the city. The Jews of Montreal have no need for any revolutionary organization, because they are free and no respectable Jew can be in sympathy with those mischief-makers who held the meeting yesterday."

Mr. A. Blumenthal stated, "I had occasion to pass by the room where the meeting was being held yesterday and men were collecting money for the purpose of purchasing bombs for use in Russia. The police patrol was going to be summoned and as soon as they heard of it, they dispersed. How can you associate the Jews of Montreal with such a worthless crowd."

Mr. Herman Abramowitz thought that whilst it was true that the Jews suffered many cruelties at the hands of the late Grand Duke, who was regarded as their great enemy, "yet it was foreign to the Jewish spirit to rejoice at his downfall and those who met to celebrate his death were in no way representative of the sentiment of the Jewish community in the matter."

WILL SEEK PARTNER

Hon. J. Israel Tarte to be Married Shortly

Montreal, February 23.—The Quebec Telegraph says that the marriage of Hon. J. Israel Tarte to Mrs. Turcotte, of Ottawa, is announced to take place on February 23.

BOMBS FOR GRAND DUKES

Russian Authorities Seep Large Quantities at Frontier

London, February 23.—A St. Petersburg despatch to the Central News states that the Russian authorities have stopped at the frontier large quantities of bombs, presumable intended for use by Russian Anarchists in furths rattempts upon the lives of members of the autocracy.

POWER FOR SPEAKER

A Great Deal More Patronage and Responsibility—Ministers Got Rid of Some of It

Toronto, February 23.—The Speaker of the new Assembly will be vested with the full powers of that office according to the rules of the House adopted in 1867, and adopted largely from the rules of the House of Commons at Ottawa. These rules have not heretofore been properly enforced, the different Ministers taking a great deal of the work and privileges upon themselves.

The new Speaker will have complete control of the Legislative Assembly, the appointment of special clerks and the regulation of all the officials of the Assembly. The Sergeant-at-Arms will be responsible to the Speaker for the safe-keeping of the mace, and the conduct of the messengers and other inferior officials of the Assembly. The housekeeper, who ha sformerly had full charge of the buildings, will in future be responsible to the Sergeant-at-Arms.

ALLEN'S LUNG BALSAM

will positively cure deep-seated COUGHS, COLDS, CROUP.

A 25c. Bottle for a Simple Cold.
A 50c. Bottle for a Heavy Cold.
A $1.00 Bottle for a Deep-seated Cough.
Sold by all Druggists.

REVOLUTION IN GAUTEMALA

Reported That an Uprising May Take Place Soon

San Francisco, February 23. — The steamer Denderah, from Hamburg, via Central American ports, brings a report that a revolution in Guatemala is likely in the near future. At a coffee plantation in Tapachula, Mexico, close to the Guatemalan border, 2,000 men, ostensibly laborers, but said to be part of the revolutionary army, are awaiting developments. The men are well armed and drilled and ready at a moment's notice to march into Guatemala and take the field against Cabrera.

T.A.S. BAND CONCERT

A Decided Success Scored on Monday Evening

The T.A.S. Band made its first public appearance on Monday evening in the society's hall, and gave a very fine concert. Their rendering of the different selections was most artistic and great praise should be given this organization, which has only been in existence for four months. Mr. Halley, the conductor, is to be congratulated on the success the band has attained in so short a space of time. This band is composed of twenty-two pieces and is composed as follows:—

First cornets—F. Huppie, V. Morrow.
Second cornet—J. Minnicolo.
Clarinets—Angus McPherson, H Hickey, J. White, W. McPherson, C. Morrow, L. A. Halley.
Alto horns—C. Kane, J. Fox.
Euphoniums—G. Scott, W. Maher.
Bass horns—J. Weir, J. Lazier.
Trombones—E. Hickey, J. Beyette, F. Pope.
French horn—R. Ramsay.
Piccolo—E. McNichull.
Drums—Bass, M. O'Brien; snare F. Clancy.

Mr. H. Leclaire was chairman and filled the position most acceptably. The opening number was the "Mascot" march which displayed careful training and precision. Miss Carrie White then gave a recitation "Yes I'm Guilty," and as an encore gave "The Queer Hospital."

Mr. L. A. Halley gave a clarinet solo "Serenade," which was well received.

A vocal solo by Mrs. Callender, of Norwood, was next enjoyed. It was entitled "Awake," and drew forth an enthusiastic encore in response to which she sang "Sing On."

"Under Southern Skies," was then rendered by an orchestra consisting of six members of the band. The orchestra is composed as follows; Messrs. Ramsay and J. McPherson, violins; McDonough, cornet; Halley, clarinets; Scott, trombone, and Clones, piano.

Mr. Jas. Weir then rendered a nautical selection, "King of the Main," and received a hearty encore.

Miss Carrie White was again heard in "Bijah's Story," and as an encore she gave "The Giggling girl."

Miss Delaine then rendered a vocal solo, which was followed by a march by the band entitled "Light of Foot," by J. Slatter.

The accompanists of the evening were Mrs. Morrow, Miss Halley, and Miss LeGros.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BERLIN WINS.

Berlin defeated Stratford, at the former place last night, by a score of 4 to 1 in a semi-final game.

CURLING.

The Peterborough bonspiel opened yesterday afternoon and all sheets of ice are being utilised. The spell is the largest and most notable in the history of the club, and promises to be the most successful. Thirty-seven rinks are taking part including rinks from Lindsay, Port Hope, Oshawa, Beaverton, Scarboro, Keene, Lakefield, Norwood, Bobcaygeon and Peterborough. Following are the competing rinks;

Two O'Clock.

McCamus, Keene, vs. Brown, Peterborough.
W. Harrison, Beaverton vs. McFadden.
Finlay, Norwood, vs. Burton, Port Hope.
Strickland, Lakefield vs. Cummings, Norwood.
Read, Bobcaygeon vs. Edwards, Peterborough.
Sykes, Oshawa vs. Peacock, Port Hope.

Five O'Clock.

M. Hamilton, Peterborough, vs. Frost, Peterborough.
Walters, Lindsay, vs. Cameron, Peterborough.
Hamilton, Uxbridge, vs. Rutherford, Peterborough.
Morrow, Peterborough, vs. Ray, Peterborough.
VanNorman, Bobcaygeon, vs. Hemming, Port Hope.
Pairs — Bobcaygeon, vs. Galloway, Beaverton.

Eight O'Clock.

Patterson, Scarboro, vs. Roach, Beaverton.
Kennealy, Keene, vs. Ridpath, Lakefield.
Hall, Peterborough, vs. McSweyn, Lindsay.
Neil, Peterborough, vs. Ferguson, Peterborough.
Matthews, Peterborough, vs. Campbell, Keene.
Sharp, Uxbridge, vs. Carswell, Oshawa.

* * * *

BASEBALL.

A card has been received at The Times Office from Guy W. Green, of Lincoln, Nebraska, manager of Green's Nebraska Indian ball team. He would like to arrange a game here. Last year this team won 149 out of 175 games played.

JAPAN WANTS AN ENDURING PEACE.

Chicago, Ill., February 23.—Count Inouye, Japanese Minister in this city, discussing the peace rumors which persist in circulating in responsible European quarters, especially in Russia, said to a press correspondent:

Russia has permitted the impression to get abroad that peace is impossible until she has won a great victory. That presupposes that after suffering such defeat Japan will be more ready to make peace than now. That is obviously a misconception. We are anxious that the war should come to an end, but if Russia wins a great victory the Japanese people will demand prompt and complete revenge. Any Russian successes, therefore, will spur us on to the struggle, until we recover the ground lost. What we intend to avoid at all cost is the conclusion of a mere truce. We will entertain nothing but enduring peace, for we are determined to preclude for all time the recurrence of such a situation as made this war necessary—the robbery of the fruits of our victory over China."

ENGLAND IN AN ALMOST DEFENCELESS CONDITION

So Says an Army Veteran of Forty Years, Experience---The Reforms Promised in War Office Have Never Been Carried out.

London, February 22.—"Never for fifty years has England been in such a defenceless state as she is at the present moment.

"There is more chaos and a greater lack of definite object in the present war office than there has ever been before."

In these remarkable words "A General Officer of Forty Years' Service," begins a letter to The Standard a startling indictment of Great Britain's present army system after the accomplishment of the Esher reforms so warmly eulogised by the prime minister.

Anticipating the retort that Great Britain's existing defencelessness is due to the changes made by the Esher scheme, and is only temporary, "A General Officer of Forty Years' Service," declares that, so far from these defects being temporary, they are likely to become permanent unless some protest be made.

For the first time in his long career, therefore, the writer, convinced that he is doing a national service, transgresses the rule which forbids any officer in the army to write to the press. The Esher committee declared that "the decisions taken will stand and executive orders will be issued in the name of the council as a whole."

In July last Mr. Arnold-Forster calmly told the House of Commons that in some of the proposals he be then put forward the army council was not with him.

"I must not have it supposed," he said, "that any soldier desires that there should be a reduction of any line battalion, with which he ever has been associated."

"Here it was obvious," says the Standard's correspondent, "that the secretary of state for war or the army council, or both, were breaking one of their chief recommendations of the committee.

"But the worse has followed. The Army Council are aware of the fact that the proposed reduction of the militia and the volunteers is a step fraught with the greatest danger to England, especially at the present moment, when the settlements after the Far Eastern war looms in front of us.

"To reduce our military strength by one man in the present crisis is nothing short of a crime, and the Army Council must know it."

"A General Officer," then summarizes the result of Mr. Arnold-Forster's administration of the War Office as follows:

"Lord Kitchener is profoundly dissatisfied with the State of the Indian army. Sir John French has offered his resignation on account of his dissatisfaction with a policy which seeks to circumscribe the usefulness of his command. Sir William Nicholson has been relegated to Gibraltar, to the regret of the whole army. The one man in the War Office in whom the army possesses unbounded confidence is Sir Edward Ward, and the chief aim of the present administration has been to endeavor to reduce him to the state of a mere machine. The short service system has been abandoned, because the army at present is unable to supply India with its full complement of soldiers.

"We were promised that the first step towards reform would be a final decision as to the purpose for which the army exists. The question has never been answered, and we all know that until it is answered no army reform is possible. Drafts for the Indian army cannot be found. Next year there will not be enough men to bring up the army in India to its strength. Nothing has been done to decide on what basis India is to be treated. Instead of trying to improve the militia and volunteers, the present administration is reducing them in numbers just at a moment when we cannot afford the loss of a single man trained, even somewhat imperfectly, to the use of the rifle. The Army Council know that, at this present moment, with the army in its present chaotic state, a foreign power landing in the form of a raid, thirty or forty thousand good troops could cripple England almost beyond recovery.

"This," continued the writer, "is not an overdrawn picture, but a series of absolute solid facts which I defy anybody to contradict. We are living in dangerous times, and the need for an adequate defence is greater than ever. This need is not being met; and whatever may be consequences of this letter, I shall consider that in writing it I have done nothing but my duty."

MAY BE PARENTAL NEGLECT

Merritton Child's Death Will be Subject of Investigation

St. Catharines, February 23.—There is considerable talk in Merritton over the death of a twelve-months-old child of Mr. and Mrs. D. Strong. It is alleged that the infant died from neglect, but others say of starvation. It is said that the mother is not responsible entirely for her actions, and that she has been in the habit of neglecting the child, and that the neighbors have fed it frequently. The child died Saturday night. Sunday High Constable Boyle visited the house and found the little body lying where it had died. The mother, it is alleged, showed the utmost indifference. An investigation will probably be held.

DEPUTATION FROM WEST

MANITOBA WANTS TO EXTEND ITS BOUNDARIES

Sir Wilfrid Laurier Receives Representatives of Province and Promises Consideration

Ottawa, Feb. 21.—Sir Wilfrid Laurier received a delegation from the Manitoba Government asking that the boundaries of Manitoba be extended westward, taking a pretty large slice away from the Northwest Territories, and northward as far as Hudson Bay. Hon. Colin H. Campbell, Attorney-General of Manitoba, and Hon. Robert Rogers appeared for the province.

Some time ago the Manitoba Government asked Sir Wilfrid if he would receive a delegation for the purpose mentioned. The Premier replied to the request of the Provincial Government that they would be glad to hear what they had to say on any date that they would name. To-day was set apart for this purpose.

The Manitobans explained what they desired and Sir Wilfrid said that he would lay the whole matter before his colleagues in connection with the autonomy question.

There does not appear to be any chance whatever of the Northwest agreeing to the demand of Manitoba for a portion of the best of its country. This would be strenuously opposed. As for extending the boundaries of the province northward it is more than likely that this matter will be left over until the claims of the other provinces are considered. For the present the granting of autonomy to the Territories must be first settled.

Incorporation for Agriculturists

Hon. Sydney Fisher, Minister of Agriculture, has under consideration the enactment of a law to permit the incorporation and registration of agricultural associations. Cheese and butter associations are incorporated by special act, but the Minister is thinking of having a law that would be general in its character, and applicable to such organizations as seed-growers' associations. Incorporation would give such associations a better status and render them amenable to the law.

THE LIFE OF THE CZAR IS IN THEIR HANDS

Revolutionists Have Repeatedly Saved Him But May Now Accomplish His Death.

St. Petersburg, Feb. 22.—Martial law has been declared at Tsarskoe-Selo, owing to numerous threatening letters being received at the palace. The chief of the secret police has ordered special precautions to prevent any outrage on the Imperial family.

In a recent work, entitled "The Truth About the Czar, and the Present State of Russia," Carl Joubert describes the revolutionary organization, which he asserts has millions of pounds in London, New York, San Francisco, and Chicago. In Russia it has three million members. The machinery which controls this huge engine of revolution works smoothly. Each Province of Russia has its headquarters, and over them all is the Executive Committee, consisting of twelve men. The committee hold the life of the Czar in their hadns.

WARNED DE PLEHVE.

The committee warned De Plehve. He disregarded their warning, and, in spite of his precautions, was removed. Sighyagin and Bobrakoff were removed in the same manner. The sentence of the committee is arrived at by ballot. If one white ball is found in the box the life of the Minister is spared. Plehve's life was balloted for three times before he was condemned. The Grand Duke Sergius and Prince Obolensky have been warned. The Grand Duke Constantine, after being warned, obeyed the committed. The committee. The committee kept the Czar informed of all their movements. He was notified of the impending fate of Plehve. He found the letter four days before Plehve was killed, on the table of his private study. He read it and handed it over to Mouravieff, the Minister of Justice.

FRIGHTENED CZAR.

On the day of Plehve's assassination the Czar found another letter noting the fact. The tragedy unnerved him. For two days he was prostrated by the shock. He was warned that if a hair of the head of Sosonoff were injured, he would pay for it with his life. Sosonoff still lives. Mr. Joubert says that the committee have saved the Czar's life on five occasions. But for them he would have been assassinated on the day his second daughter was born; he would have been poisoned a week before he started on his visit to France. They saved his life in January, 1901, and one two other occasions between 1901 and 1903. Yet the two men who sought to kill him are to-day in his service at the palace.

THE TRUE CAUSE

Why the Optic Belonging to a Local Limb of the Law Has Gone Into Mourning

One of our local limbs of the law, has for the last few days, had some explanations to make for an optic in mourning. All the old time excuses, from the obstinate stick of wood that refused to be split, to the hind foot of a fractious cow, were given, but the truth, and this great family journal knows only the truth, is that this legal luminary had a dispute last Sunday with the head waiter of a leading hotel in town. The legal gentleman was forcibly reminded that the waiter was not the trembling victim under cross examination in court, and the dispute ended by his eye running into a head-on collision with the waiter's good right fist.

EXPIRED WHILE EATING

Mr. Dan Conley Choked to Death at a Lakefield Hotel

Doctor J. W. Gray, the Coroner, received a telegram yesterday, notifying him of the sudden death, at the Craig House, Lakefield, of a man named Dan. Conley. Mr. Conley had arrived yesterday morning, at Lakefield, from the shanty and put up at the Craig House. During the course of dinner Conley suddenly took a choking spell, and throwing up his arms, expired. Doctor Baker, of Lakefield, was at once summoned, but, too late for mortal aid to assist, he immediately communicated with the Coroner, Doctor Gray. Late last night The Times ascertained that no inquest would be held, as Mr. Conley had evidently died of heart disease, accompanied by the choking spell.

A NEW VENTURE

Mr. J. M. Green to Open a Music Store on Water Street

Many of our townsmen will recognize, in a new music store about to be opened, a well known man, at present connected with the Salvation Army, in fact, the leader of its band. Mr. J. M. Greene, will not be altogether a novice in business, as he was, some time ago, engaged in the grocery business, in partnership with his brother, on Charlotte street. Mr. Green will bring to his aid the experience learned by travel, having been in London, England, as a member of the Canadian Staff Band, during the Jubilee celebration.

About March 15th, Mr. Greene purposes opening up a music store on Water street in the building north of Mr. Francis Mason's Greenhouses.

He intends to sell all kinds of musical instruments and kindred lines and will also teach violin, brass instruments and mandolin in which subjects he has a number of pupils at the present time.

POLICE COURT NEWS

The Magistrate Had Two Cases of Insanity to Decide Upon

Yesterday morning Magistrates Rush and Eastwood had their hands full. Camille Deluine, had a serious charge on the slate, against him, that of selling liquor, and having neglected to attend to the little formality of procuring a license. The scene of the alleged illicit sale was on Simcoe street, west of the Railway, where he serves up the bananas and macaroni to 26 boarders from his classic native land, and the date was the 31st January. He pleaded guilty and was remanded for a week in order that further evidence against him may be secured.

William Knightley is insane, and a dangerous man to let loose, and this not only describes his present condition, but is his history for the past 20 years, when he first became known to the local police. If let out of sight and proper restriction be habitually feeds on what he scrapes from the streets. He will be examined by two doctors and the County Judge, and if they pronounce him insane, steps will be taken to have him admitted to an insane asylum.

An Englishman stopping with a well known and respected citizen was arrested yesterday also charged with insanity. He began to exhibit signs of it, and indications pointed to his mania taking a homicidal or suicidal turn, so he was locked up, pending trial as to his mental condition.

OUR DEMANDS

Provisions of the Bill Whereby Peterborough Becomes a City, with Our Civic Requests to the Legislature.

Among the many Bills that will come before the coming session of the Ontario Legislature, is one that involves the momentous nomenclature, as well as various matters appertaining to financial affairs.

The various provisions of the bill are;

"That the town be incorporated as a city, to ratify eleven money by-laws, including $50,000 for the purchase of a site and the erection of a collegiate institute, to pay for granolithic sidewalks and sewers, to provide $10,000 for a site for an armory; $3,000 to pay for alteration in heating apparatus of the Central public school, $20,000 for water works; $12,000 for repairing bridges and opening new streets; to aid by a grant of land and fixed assessment of $4,000 for ten years the Peterborough Cereal Company, and a fixed assessment of $4,000 for ten years of the Peterborough Shovel Company."

A GOOD SCHEME

To be Introduced in Woodstock on the Part of Business Men and Clerks

The city of Woodstock is taking under consideration a plan, whereby hardworked clerks and business men may have a part of the day at their disposal, other than that which they spend in bed, rushing to work or bolting a ten minutes meal. If adopted, public opinion and common humanity will endorse and insist in putting in force the following scheme as outlined in the Woodstock Sentinel which says in part; The grocers of that place are considering a new arrangement in the delivery of goods to customers. It provides for the delivery of all orders received before 10 o'clock and 4 o'clock to be delivered in the afternoon, and orders received after 4 o'clock in the afternoon to be delivered the next morning. In regard to Saturday, the new scheme provides that no orders received after eight o'clock p.m. will be delivered on Saturday night."

WESTWARD, HO!

Mr. Jas. Stevenson Starts for San Francisco To-day, Visiting Friends En Route

This morning one of our oldest and best known citizens, a man who perhaps more than any man alive has helped build up the town of which we are so justly proud, leaves Peterborough on an extended tour of visits. Mr. Stevenson's ultimate destination, is San Francisco, where he will spend a few weeks with his sister, Mrs. Swayne, of Oakland. He will, en route, spend a day with his brother in Port Hope; thence he will proceed direct to Chicago, where he will spend a few days with Mr. A. H. Gross, his nephew, the well known gas millionaire and lawyer of Chicago. During his visit in Chicago, Mr. Stevenson will take advantage of its proximity to visit De Kalb, Ind., where his younger son, Rufus, is manager of the gas plant in that city. This is a long journey for a man of Mr. Stevenson's age, and calls to mind his sturdy North of Ireland constitution and pluck. He will be absent about two months. The Times joins with Mr. Stevenson's many friends in wishing him "Bon Voyage," a pleasant trip and a safe return.

—The funeral of the late Mrs. Hannah and Harry Osborne, whose sad death we announced in Monday's issue, will take place to-day at 10.30 from 13 Lake street to the G.T.R. station. The remains will leave by the 11.45 a.m. train for Beaumont, via Garden Hill.

CURLING.

Winnipeg, Feb. 20. The last game in the Winnipeg bonspiel took place Saturday night, when the final between Carman and Russell (Kidd) rinks of the Thistles of Winnipeg for the Blue Ribbon prize was played. In resulted in the finest game of the bonspiel. With one end to play, the score was a tie, and Carman was out with his last stone. The American-Abell was won by Alex. Douglass, Thistle Club, Winnipeg, and the Whyte Cup by Maldeau, Assiniboine Club, Winnipeg.

Sullen, Discontented, Morose, Low Spirited

Brace Up—Vitalize Nerves and Blood With

FERROZONE

The Effect is Instant—Makes You Snap and Dance With Vitality

Your appetite is gone.

What little you eat brings no satisfaction.

You're getting blue and melancholy—you can't rest or sleep.

Nervous prostration is staring you in the face.

Your unstrung nerves can only be nourished back to health by a nerve tonic like Ferrozone. It cures weakness of the inner nerves, gives vitality and strength to the blood and nervous system, makes all the organs work in harmony.

The following experience of Mrs. D. P. Courtland, of Myrtle, proves the prompt action of Ferrozone.

"I had no nerve strength.

"My appetite was poor and my system was out of order.

"I felt 'weak' and dispirited, was tired out the whole day long.

"Did Ferrozone help me?

"It gave me strong nervous system, a good appetite, and abundance of health."

Ferrozone contains concentrated nourishment you can't get in any other way. No other medicine has Rits so quickly. 50c. per box or six boxes for $2.50, at all dealers in Medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

Eastern Office—17 Fleet street, London, E.C.

TIMES PRINTING COMPANY, Publishers and Proprietors, Peterborough, Ontario.

UNION LABEL

PETERBOROUGH, FEBRUARY 22 1905

OUR ARCTIC POSSESSIONS

Ellesmere Land, which has just been annexed by the Canadian Government, is intimately associated with the voyages of Parry, Franklin, Nares, McClintock, and other explorers of the Arctic regions. All the territories included under the same have nominally belonged to the British Empire since 1819, when they were claimed on behalf of George III. by Sir William E. Parry, at the time Lieut. Parry, on his first voyage to the Arctic. Ellesmere Island or, as it is termed, Ellesmere Land, consists of eighteen thousand square miles; North Devon, another island, has an area of twenty-two thousand square miles; and North Somerset is ten thousand square miles in extent. They have heretofore been classified as a part of the North-West Territory called Franklin, in memory of Sir John Franklin. The territory is five hundred and ninety thousand square miles in extent, and consists of all the Arctic islands belonging to British North America. Ellesmere Land is separated from Greenland by Smith Sound, and possesses a range of mountains rising from one to five thousand feet above the level of the sea. The islands are by no means unpopulated, though, so far as is known, no census has ever been taken. The inhabitants, of course, are Esquimaux.

A COMMENDABLE CABINET

The Toronto Sun, which speaks for the farming community, approves of Mr. Whitney's selection of Cabinet Ministers as being on the whole commendable. None of the undesirables have been taken in. Mr. Foy is a sound lawyer, and will prove a good administrator; Mr. Hanna is one of the strongest men in the House, and one from which much is expected, while Mr. Matheson was the logical choice for the office of Provincial Treasurer.

The selection in which The Sun is peculiarly interested is that of Minister of Agriculture, and in this case that paper has no hesitation in saying that Mr. Whitney has made the best possible choice open to him. Mr. Monteith is not only a straight, clean man, of high ideals, but he has peculiar qualifications for the office he is called to fill. He is a graduate of the Ontario Agricultural College; he served for a year or two as president of the Experimental Union, and has been in close touch with all the educational movements connected with progressive agriculture. His speech at the Massey Hall demonstration shows that he is entering upon his duties in the proper spirit. He does not look upon his department as a part of the machinery of politics, but as a means of advancing the prosperity of the great agricultural industry.

WELCOME AS SUNSHINE after storm is the relief when an obstinate, pitiless cough has been driven away by Allen's Lung Balsam. No opium in it. The good effect lasts. Take a bottle home with you to-day.

FOR DELICATE WOMEN AND

EDITORIAL COMMENT.

"Russia May Recall Kuropatkin," says yesterday's head line. Well, they'll have to hurry or he'll get home first.

* * * *

If there isn't an arrest made soon, Lariviere will overflow his banks and inundate the rest of the committee.

* * * *

President Castro having cropped up again, it is now in order for the Mad Mullah to bound into the limelight.

* * * *

Probably one reason why the Czar doesn't want a Cabinet is, that he has strikes enough as it is.

* * * *

There are some by-elections coming on in Ontario, but Ross is not going to f-i-g-h-t them.

BURLEIGH

Meeting of the Municipal Council in Regular Session

The council of Burleigh and Anstruther met on February 11th, 1905, when there were present C. R. D. Booth, Reeve, in the chair, and Councillors Tucker, Hales, Coones and Lean.

The reading of the minutes was dispensed with until next meeting, owing to illness of Clerk.

Communications were read from Sawyer Massey, re crusher; Wood, Grundy Co., re debentures; county York council, re motor vehicles; county council, re Brown Falls bridge.

Moved by Coun. Coones, seconded by Coun. Hales, that the following accounts be paid: W. H. Casement, supplies for engine, $13.18; T. F. Lean, teaming and wood, $4.00; T. Mellmoyle, balance of salary, collector, $40.00; T. G. Eastland, postage, $1.50.—Carried.

Moved by Coun. Lean, seconded by Coun. Tucker, that the Reeve meet the County committee on Roads and Bridges to confer with them on Brown Falls bridge.—Carried.

Moved by Coun. Lean, seconded by Coun. Coones, that $5.00 each be paid to J. C. Stone and T. Stevens for taking vote re Debenture bylaw.—Carried.

A Bylaw, No. 77—To provide for the issue of debentures, $1,000, to pay for stone crusher, having received the sanction of the ratepayers, was passed, sealed and signed by the Reeve and Clerk.

Council then adjourned.

THE CURSE OF RUSSIA

The Coterie of Grand Dukes Who Have Much to Say in the Government.

St. Petersburg, Feb. 22.—Russia has a clique of Grand Dukes, who exert a powerful force in the shaping of the affairs of government. Their influence on Emperor Nicholas has been pronounced ever since he ascended the throne. Until the assassination of Grand Duke Sergius, five of the Grand Dukes were members of the Committee of Ministers, of which M. Witte is president. While the government of Russia is an absolutely hereditary monarchy, with the Emperor in supreme power, it is nevertheless recognized that the Grand Dukes are the real rulers.

Nicholas has repeatedly manifested a disposition to grant reforms for the amelioration of the conditions affecting the people of Russia. In nearly every instance where he has taken the initiative, the influence of the grand ducal clique has thwarted his desires. He has been deceived, if all reports are to be believed, by the representations made by his uncles and their allies, who oppose bitterly any departures from the established form of government.

The Grand Dukes who compose the power behind the throne are;

Grand Duke Michael, brother of the Emperor, and heir presumptive.

Grand Duke Vladimir, uncle of the Emperor.

Grand Duke Alexis, High Admiral, uncle of the Emperor.

Grand Duke Paul, uncle of the Emperor.

Grand Duke Michael, grand-uncle of the Emperor.

Grand Duke Alexander, General Director of Communication of Ministers.

History of late days has supplied many instances of the power wielded by the Grand Dukes, especially the uncles of the Emperor. It has given also an insight into the corrupt administrations of the members of the reigning family, each of whom generally holds some important post in the government. Grand Duke Nicholas commander-in-chief of the army during the war with Turkey, fell into complete disgrace in the eyes of Emperor Alexander, for example, when it was discovered that a fair friend of his had accepted a bribe of $500,000 from a firm of army contractors. Another uncle of the Emperor, Grand Duke Constantine, now dead, was dismissed from his post of High Admiral for a series of gross peculations carried on for a period of twenty years.

WHO ARE THEY?

The title of Grand Duke is limited to sons and grandsons of sovereigns; the great-grandsons, who are not grandsons of a Czar, are princes. The eldest Grand Duke is the Emperor's great-uncle, Michael Nicolaevitch, who is the sole surviving son of Nicholas I. He has five sons, all of whom are in the army except Alexander who is in the navy. One of his sons, the Grand Duke Michael Michaelovitch, who married the Countess Torby, was banished therefor, and only recently has been allowed to return to Russia. The youngest Grand Duke is Dimitri Paulovitch, born in 1891, a first cousin of the Emperor.

One Grand Duke whose name has been seen in print much of late is Cyril, son of Grand Duke Vladimir. He and his brother Boris have been at the front during the war with Japan. Cyril in the navy and Boris in the army. The former was one of the survivors of the destruction of the battleship Petropavlovsk. Of the other Grand Dukes the Emperor's uncle Alexis is being constantly mentioned as the Grand Admiral of Russia.

REFORMS IN RUSSIA

The Commission Appointed by the Czar asks for Representatives of Employers and Labor

St. Petersburg, Feb. 22.—Senator Shidlovski, president of the commission, appointed by Emperor Nicholas to ascertain the causes of discontent among the working classes of St. Petersburg, in a note issued to-day invites the employers and workmen to elect representatives to sit on the commission. Factory owners and contractors employing not less than a hundred persons are entitled to elect fifteen representatives of the different industries, while the workmen of the various establishments can choose electors who on March 8, will elect 45 delegates to serve on the commission. Each establishment employing 100 to 500 persons is entitled to choose one elector, and those employing 500 to 1,000 persons two electors. Concerns employing over a thousand persons are entitled to an elector for each 500 employes. Both men and women are entitled to vote, but delegates must be men who have worked at least a year in their respective factories, and must be freely elected by the workers themselves without interference on the part of the employers.

The note issued by Senator Shidlovski guarantees the personal safety of the delegates.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of one [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

135 Church St. - Toronto Ont

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondefontain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 2 years' standing. I was operated, on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

HOBSON PREDICTS WORLD CONFLICT

Says Powers Will be Involved When Russia Occupies Mongolia in the Spring

THE INTEGRITY OF CHINA

Former Naval Officer Declares Japs Will be Crushed After Internecine Strife Has Been Quelled.

St. Louis, February 20.—A war of nations—the greatest conflict the world ever will have known—over the dissection of China following Russian occupancy of Mongolia was the prediction made in an interview by Captain Richmond Pearson Hobson, of Merrimac fame, yesterday. Captain Hobson was speaking of the Russo-Japanese War and pointed out that China, not Manchuria, is what the Russians are fighting for.

The former naval constructor is on a lecture tour and spoke at Central Presbyterian church yesterday morning and at Cabanne M. E. church, South, in the evening.

Concerning internecine strife in Russia and its war abroad, Captain Hobson said:

"The internal trouble in Russia will only serve to make that nation prosecute a more vigorous war in the Orient, and far from bringing about a cessation of the conflict soon, it will tend to prolong it indefinitely. Russia will force the rebellious people to the front and there compel them to fight its battles."

Captain Hobson said that the present war with Japan, in which apparently the integrity of Manchuria is involved, is only a ruse on the part of Russia eventually to bring about the dismemberment of China.

"Russia does not care about Manchuria," he said. "She wants the whole of China taken from the control of the yellow race, and as soon as one of the other Powers openly espouses her cause, the sturdy little Jap, having lost control over the sea, will be crushed, and the work of dissecting China will begin.

PREDICTS WORLD WAR.

"As soon as the spring campaign opens I look for Russian occupation of Mongolia, and when this takes place it will, in my opinion, precipitate a war of nations—the greatest conflict in the world.

"You know Germany has mobilized its navy, and, mark what I say, as soon as she has sufficient excuse Germany's navy will be the first to assist Russia. France will follow. You may rest assured that beneath all the sentiment which is being manifested for Russia by these two nations there is some understanding as to what will be done with China, in her present position could not act so defiantly to the Powers when there in question of peace proposals if she did not have the moral backing, at least, and some assurance of physical support of these two friendly nations.

"Evidently holding out the menace of the yellow peril, Russia has agreed to give France and Germany their share of the spoils to the detriment of England and the United States. It is evident that the French people are not in sympathy with the French Government in its present position. I do not doubt that much which I have foreshadowed can be averted if France can be detached from the general scheme.

"England and the United States ought to take a firm stand. Their interests are almost identical, and we especially cannot afford to sit still and permit others to plot. We ought to be up and doing. America has always stood as a great peace nation and in the present conflict it ought to use drastic measures if necessary to restore the balance of peace in the Orient.

"To look quietly on will mean a great loss to us. If Russia, France and Germany secure control in the Orient, it will mean that our commerce with the people there—and it is worth millions—will be destroyed.

"That the Manchurian contention is only a part of a general scheme which involves the dismemberment of China as I think, further proved by Russia's attitude to that nation. Ever since the war began Russia has accused China of not preserving neutrality. She evinces by this that she is ready to grasp every opportunity to include the whole of China in the war zone.

"After careful calculation, based on much study and on an extended sojourn in China, where I inspected the work of hundreds of Chinese laborers, which gave me an insight into their industrial capacity, I estimate that by 1950 China, properly opened, will add nearly $5,000,000,000 to the world's commerce, and that on a fair footing, with an open door and equal chances for all, America should really secure $3,000,000,000 of this, or one-fifth more than her total present commerce.

"At this critical juncture the war in the Orient has caused a grouping of the nations of Europe so as to transfer the balance of power to the side of those nations who would raise China. In order to restore the balance of power on the side of peace, the United States should hasten with all dispatch the building of new vessels and the completion of vessels now building."

JAPS WANT LITERATURE

The Religious Tract Society Appeals for Supply of Books

London, February 20.—The Times says: In a letter, addressed to us under date January 19 the committee of the Religious Tract Society inform us that they have just had before them a letter from the agent of the Japan Book and Tract Society, in which he vividly portrays the eagerness of the Japanese soldier to accept and read Christian literature.

Soldiers in hospitals and convalescents not only clamor for reading matter for themselves, but also make requests on behalf of their comrades. A missionary visitor carrying books and tracts has been at once the centre of the eager throng, and every page of printed matter has soon been carried off.

The committee of the Religious Tract Society made some months ago a grant of £100 in aid of this work, and at the same time despatched a quantity of Russian tracts for the use of such Russian prisoners as may be able to read.

In response to a most urgent appeal from Japan, they are making a further grant of £100 to provide for a continued distribution of Christian literature amongst the Japanese soldiers, and they have also shipped to Japan another supply of Russian tracts for use amongst the Russian prisoners.

The committee believe that there are many here at home who, recognizing the responsibility of our alliance with Japan, and remembering that the Christian faith is already held by some of the most distinguished sons of Japan in her naval, military, and administrative services, will be glad to help the Religious Tract Society in the work for which it is thus providing.

FIGHTS DEATH $5,000,000

Penniless Actor, Believed Dying, is Awarded Big War Claim

San Francisco, February 22.—With a fortune of $5,000,000 awarded him by the British Government for losses sustained after the Jamieson raid in South Africa, Luscomb Searelle, an actor, is believed to be dying here in a hospital, practically penniless. Searelle was a British sympathiser during the raid and was owner of a theatre in Johannesburg at the time. He purchased several thousand stands of arms for the use of the raiders and concealed them beneath the stage of the theater, where they were discovered by a Boer stage hand. He was sentenced to be shot and his estates were confiscated, but he escaped from South Africa with John Hays Hammond. His claim has been pending since the end of the Boer war. Word that it had been allowed was received yesterday.

WAS KNOWN IN ENGLAND

Late Grand Duke Once Visited at Windsor Castle

London, February 22.—The Grand Duke Sergius was well known in court and diplomatic circles in England, which he visited in the late autumn and winter of 1892. He was then accompanied by the Grand Duchess Sergius, and the noble pair paid a visit to Queen Victoria, who was the Grand Duchess' grandmother, while she was in residence at Windsor Castle. The visit to England extended from November 25 to December 8, and the Grand Duke and his consort received an enthusiastic welcome. The welcome to the Grand Duchess was doubly kind from the love of the British people for the late Princess Alice, her mother.

ALFONSO SAYS NAY

He Won't Marry Anybody Till He Gets Good and Ready

Madrid, Feb. 21.—King Alfonso is proving most intractable in the matter of marrying the daughter of the duke of Connaught, or any other woman selected as a consort. He has had frequent interviews with the queen, in which he says he will not marry before he is 20 years old, and not then if he doesn't want to do so.

GREAT COUNTRY GRAND CHANCES GLORIOUS CLIMATE

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from this shaft alone show a clear profit of $500 a day.

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire width and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite the trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a footing never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. HNY BROWN, of Tenecape, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomizer, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

The complete Catarrhozone outfit contains a large bottle of inhalent, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. PRINGLE.

Odd Fellowship

On the 14th February, their gazetted away at Newtonville Mr. William Rich, a gentleman who was well known to many local people, and who had relatives here in the persons of Mrs. A. W. Lockhart, 742 Murray street, and Mrs. Geo. Walton, of Smith, his sisters. Mr. Rich was 56 years of age, and died from pneumonia and heart failure, after an illness of only two weeks' duration. He was by profession a farmer and local Methodist preacher. Mr. Rich leaves a wife, but no children, and his popularity was in evidence by the large attendance at his funeral. His end was peace.

Shoe Store Has New Attractions

The Douglas Shoe Store, on George street, has completely recovered from its recent trouble owing to the fire of a few weeks ago. It has been born anew, and its appearance would do credit to such an institution in any part of any city anywhere. A leading feature in the apparatus for embellishing the shoe show windows, and displaying the footwear to greatest advantage. It is a new patented invention, rickly oxydized, and adapted to make the greatest display with the least labor or inconvenience. The store where this really excellent brand of shoes is to be found is worthy the notice of the most confirmed critic.

At the Opera House

"Under Two Flags," that masterpiece of Ouida's, was presented and admirably rendered by the Bijou Comedy Company. Mr. H. Wilmot Young, as the extravagant but manly Englishman played his part with finish and showed his total abandonment of self in the character he portrayed, while Miss Maybe Adams as "Cigarette," the vivacious and fort vivandiere was as though moulded into her part. The specialities were rewarded by rounds of applause and frequent encores. Mr. R. Wordley, in his humorous tramp sketch fairly caught on with the gods. The company is a good one, the properties and costumes well worth a larger price than demanded.

Another Bob Sleigh Accident

Will the small boy or girl never learn the danger of stealing rides on the passing bob? Yesterday at the corner of Brock and Aylmer streets, a boy of about 12 years of age seeing an approaching team, gave the customary yell of announcement to his youthful pals, and as the bob passed, jumped aboard. There was no sleigh box on the bobs, ubt there was a chain wound round the axle. In some way the chain became detached and wound about the youthful passenger, who then fell off the bob, and was dragged, at rapid pace along the snow clad street. Fortunately no bones were broken, but next ride the lad wants, will not be a stolen one as he was considerably bruised and shaken up.

Women's Art Association

It is proposed to form a branch of the Women's Art Association, of Canada, in Peterborough. The objects of this Association are the encouragement and promotion of more general interest in Original Art in town, and more especially for the mutual help and co-operation of women who are lovers of art in its various forms. It will also be the aim of the association to encourage every effort to awaken interest in the public at large by holding exhibitions and lectures upon subjects pertaining to Art. A meeting to form such an Association will be held in the Y.M.C.A. building on the afternoon of Friday, Feb. 24th at 3 o'clock and it is hoped that all women who are lovers of the beautiful will make it a point to be present.

New Residence for Stony Lake

The proprietor of a well known hotel in town has for many years been an ardent admirer of the beauties of Stony Lake and its neighborhood. He has at last determined to shake off the shackles of business for a few weeks every summer, and to do so in comfort; so will erect, as soon as the weather will permit, a beautiful cottage at Eels Creek, near Hazelwood Lodge, the summer home of Mr. R.W. Grubbe where 291 visitors called during last summer's season. The genial boniface will spend in the neighborhood of $1,200, and will spare neither money nor trouble in making his new residence a marked factor in the beauties of the lake.

Death of Mrs. Montgomery

Yesterday morning an old and highly respected resident of Peterborough passed away in the person of Mrs. Elizabeth Braden Montgomery. The deceased lady had been ill for about eight months. She was born at Lockport, N.Y., on Nov. 14th, 1823, and has resided in Ontario since childhood. She was united in marriage to Mr. Andrew Montgomery, of Smith township on Dec. 6th, 1843. Mr. Montgomery survives her and has reached the advanced age of 90 years. On Dec. 6, 1903, Mr. and Mrs. Montgomery celebrated their diamond wedding anniversary. In addition to her husband, six daughters and three sons are left to mourn the loss of a kind and tender mother. Mrs. Montgomery was a true Christian, and bore her trials and suffering with the utmost fortitude. The funeral will take place this afternoon at 2.30 o'clock, and will be private.

Old Peterborough Boy Banquet'd

The many old friends of Mr. W. E. Wright, one time of the local firm of Wright and Paton, pump makers, will be pleased to learn that he has been the recipient of a banquet, and valuable tokens of regard, at the hands of his fellow employes, in Toronto. Adverting to the occasion, the Toronto Star says:—"Mr. W. E. Wright, of the National Cash Register Company, was tendered a banquet at Webb's, Saturday night, by his fellow employes, prior to his departure for Regina. Mr. Wright has been appointed manager of the Western office, and will leave in a few days for his new scene of labor. His friends Saturday night gave him a jolly evening, and gained out a few things he will not soon forget, including a handsome steamer trunk. Mr. F. E. Mutton, district manager, was toast master, and gave everyone an opportunity of testifying to Mr. Wright's good qualities, and his fitness for his new and more responsible position."

BEAUTIFUL SCENERY AT NIAGARA FALLS

One of the wonders of the world is the ice bridge at Niagara Falls, and a sight you will not soon forget. A visit to the falls will be a holiday well spent. For tickets and full information apply to any Grand Trunk Agent.

LITTLE LOCAL LINES

Readers Here and There by Times Reporters on Their Round

—Bijou Comedy Company at the Opera House to-night.

—The Girls' Guild of George street church held a special meeting last night.

—County Magistrate George Edmison will hold court at Norwood on Saturday.

WORK BEING PUSHED

Bank of Nova Scotia Premises Being Handsomely Fitted Up

Worked is actively being pushed ahead on the fittings of the new quarters of the local branch of the Bank of Nova Scotia. This very acceptable addition to our local banks is starting under particularly auspicious omens, and the branch manager, Mr. E. T. Hammett is determined that his premises shall be fitted in such a manner as will be not only pleasing to the eye, but prove comfortable to the patrons of the bank.

The Peterborough Canoe Company has the contract of making all the bank fittings, flooring, etc., and are straining every nerve to have the bank interior finished and ready for business by Saturday, March 4. Messrs. Meadows of Toronto, have the contract for the brass work, railings and tellers' cages, and Messrs. J. & J. Taylor are supplying the safes.

"WHIZ! I WALK A MILE"

Is a laconic definition of a toboggan ride. It's quick work going down the slide, but it's a long climb back to the starting point. It is very much that way with health; it is quickly lost and slowly regained. When the first symptoms of failing health appear, proper care may prevent the descent to utter weakness and debility. Usually the complication of disorders known as general debility has its origin in a diseased condition of the stomach and other organs of digestion and nutrition. These diseases are perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. It cures through the stomach disorders which have their origin in a diseased condition of the stomach.

There is no alcohol in the "Discovery," neither opium, cocaine nor other narcotic.

"I was all run down; had no strength; had sharp darting pains all through me; head and back ache every day," writes Mrs. Frank Caswell, of Salamanca, N. Y. "I was also troubled with a distressed feeling in the stomach and pain in front of the hip bones. I had a severe cough and it nearly killed me to draw a long breath. I was so sore through my lungs.

"I wrote to Dr. Pierce, telling my symptoms as near as I could. He sent me a very kind letter, advising me to try his medicines, which I did, and before I had taken them a week I was decidedly better. I took two bottles of the 'Golden Medical Discovery' and two of the 'Favorite Prescription,' and am sure I never felt better in my life than when I quit taking them."

Dr. Pierce's Pleasant Pellets are a cure for biliousness.

Peterborough, is in town for a day or two renewing acquaintances. Mr. Geo. Watson, of Peterborough, was storm bound in town over Sunday. He was on his way north. Miss G. Pollard, of Peterborough, is visiting east ward friends.

CHANGED HANDS

M'COLLUM BROS

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. R. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended in the past to our predecessor.

McCOLLUM BROS.

CARD OF THANKS.

In connection with the above announcement of the McCollum Bros. I desire to take this occasion to thank the public of Peterborough most heartily for the generous patronage bestowed on me during the past eleven years.

I desire also to bespeak for my successors a continuance of that liberal patronage in the future, as I can conscientiously recommend them as practical and reliable livery men, and worthy of all the patronage that may be entrusted to them.

RUSSIA NOW WILLING TO CEASE WAR IN THE EAST

Russia States Her Position and Peace Conditions Are Agreed On---Greatest Difficulty Lies in Settling Question of Indemity

London, Feb. 23.—A despatch to Reuter's Telegram Co., from St. Petersburg confirming advices of Feb. 17, and Feb. 18 from St. Petersburg to the effect that peace was under consideration adds;

"The question of peace has not only been formally discussed, but the conditions on which Russia is prepared to make peace have practically been agreed upon. These are as follows;

"Korea to be placed under Japanese suzerainty.

"Port Arthur and the Liaotung peninsula to be ceded to Japan.

"Valdivostock to be declared a neutral port, with an open door.

"The eastern Chinese R. R. to be placed under neutral international administration.

"Manchuria as far north as Harbin to be restored as an integral part of the Chinese Empire.

"The difficulty lies in settling the question of indemnity upon which it is known that Japan insists, but it is thought that this obstacle is not insuperable.

"The most trustworthy opinion at St. Petersburg is that in view of the internal situation and the enormous difficulty in carrying on the war, peace on the terms outlined will be concluded within a comparatively short time, if the indemnity question can be arranged but it is quite possible that Russia will risk another battle before a decision is reached."

MRS. LOUX TELLS HOW SHE KILLED CHILDREN

Relented Three Times, Turned off Gas and Revived Them

SHE WEAKENED TOO LATE

Fear That They Would Contract Asthma From Her the Motive, She Says

Newark, February 23. — A story perhaps more pitiful than shocking in its realism is told by Mrs. Charles E. Loux, confined in the Essex County Jail charged with the murder of her two little girls, Minnie, aged three years, and Elsie, eighteen months, at her home in Bloomfield on Sunday last.

She murdered them and sought self-destruction, the mother said, because she feared they would grow up and suffer from asthma as she had done. Three times she turned on the gas, only to relent, turn it off, and open the window to bring them back to life. She had relented a fourth time and was dragging herself to their bedside when she was overcome and fell unconscious. That she was not killed was due to an investigation of the neighbors, who became suspicious on seeing no sign of life about the house.

Alienists will examine Mrs. Loux, but she says it was not insanity, but love for her little ones, that led her to kill them. She says she expects to pay the death penalty for her act.

"When my husband started for South Jersey at noon on Saturday to be gone until Sunday night, and I found myself alone," said Mrs. Loux, "I began to brood over the destruction of my children to save them from future suffering and thought of nothing else while preparing them for bed Saturday night. Then I fully determined to end their lives and my own and wrote farewell letters to my husband and a friend. At 10 o'clock I closed the door of our bedroom, and after thinking over the matter of an hour or more turned the gas partly on.

"I then walked up and down the room, still brooding and hoping for death, yet fearing that it would come. I did not think of plugging up the keyholes and crevices in doors and windows, and the gas had little effect.

"At 2.30 o'clock I looked at the children. They were awake and evidently aware that something was wrong, though they knew not what. I could see that they were suffering, and I could not bear it, so I turned off the gas and opened the window. I kissed and fondled the children, and told them they would soon feel better. They did, too, but just after 3 o'clock the awful feeling that I must end it all came upon me again. Elsie and Minnie were asleep, and I again turned on the gas half way.

"I dreaded to look at the children, but at 6 o'clock I found that they were still alive and awake. The older one was able to let me know that she had a pain in the back of her head, and for the second time I was unable to stand the thought of their suffering. Again I turned off the gas and opened the window and took them up. They soon became better under the influence of the fresh air, and once more I lulled them to sleep. Then I fell to brooding again. The old determination to kill them and myself returned, and for a third time I turned on the gas. It was then 7 o'clock on Sunday morning.

"While I was still walking the floor the children began to cry, and, thought I had not looked at them for more than an hour, I ran to them and picked them up. I opened the door and window, and then carried them out of the bedroom into the bathroom, where I gave them cold water and held their heads out of an open window, that they might inhale the fresh air. In a short time they were all right again, and for a few minutes I was happy.

"I fondled them for an hour or more, but when I put them into their crib the thought that we must all die before the return of my husband in the evening came back to me stronger than ever. It was then 10 o'clock on Sunday morning. With the thought of so stupefying the children that they would not suffer I gave each of them an unusually large dose of paregoric, and they were soon fast asleep. I turned the gas on full force and again began to walk the floor, not daring to look at my babies lest I might again falter. The room filled with gas more rapidly than before, but did not seem to overcome me. I heard the clock strike 11, and a few minutes later I looked toward the crib. My babies were dying! They were suffering!

"I was beside myself with grief, and the desire to take them up seized me. I went toward them to do so, but the gas was getting a hold on me. I became dizzy and faint, and staggered toward the bed. Then I fell backward upon it. I can remember looking at the ceiling and making an effort to go to the children, but I could not. After that I knew nothing until I came to my senses in the hospital."

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

ACCIDENTALLY SHOT

The Wounding of Mr. and Mrs. H. H. Blackwell at Roseneath Was Due to Accident

Cobourg, Feb. 23.—Further investigation of the double shooting of Mr. H. H. Blackwell, of Toronto, and his wife, at Roseneath, on Sunday night, shows that it was accidental. Mr. Blackwell was staying at the Commercial Hotel in Roseneath and Mrs. Blackwell joined him there on Saturday. Mr. Blackwell states that he was handling the revolver, when it was accidentally discharged; shooting him in the face. The bullet entered the lower part of the right cheek and came out just beneath the right ear. Mrs. Blackwell sprang forward to snatch the revolver from him, when the weapon was again discharged, and a bullet entered her throat and lodged in her shoulder. The attending physician succeeded in removing the bullet. The probability is that both will recover, unless blood poisoning sets in.

STUDENTS STOP WORK

Significant Demonstration at the University of St. Petersburg Demands Democratic Reforms

St. Petersburg, Feb. 23.—The spirit of revolution has complete possession of a great meeting of professors, students and directors of the St. Petersburg University yesterday to discuss the question of joining in the general strike inaugurated by similar institutions in Russia and decided to close the university till fall. The speeches were of the most incendiary character, and resolutions were adopted demanding; 1, A constituent assembly on the basis of universal suffrage, and under conditions of liberty of speech of the press and of association and the freedom of laborers to strike; 2, Full amnesty for politicians and political offenders; 3, Autonomy for each part of the country not of Russian nationality.

MAY SAVE ENTOMBED MINERS

One Hundred Men Caught in Mine Explosion May Still be Living

Birmingham, Feb. 23.—E. T. Schuler, one of the owners of the Virginia mines, where more than one hundred miners were imprisoned yesterday afternoon by an explosion, was advised this morning that the rescuers were close to the entombed men, and that one body had been found and removed.

Schuler thinks there is a good chance for a number of the miners to be found alive, as he says the air shaft into the mine is working. The rescue parties worked all night and were augmented by miners from various mines in the district.

ALL PROBABLY DEAD.

Birmingham, Ala., Feb. 23. — Only one body has so far been taken from the Virginia mines. It is now said that the exact number of men entombed by the explosion is 116. Practically all hope of finding any of the imprisoned men alive has been abandoned. The rescuers during the night encountered much after-damp, and many of them had to be taken to the surface and revived, having been overcome by the fumes. This leads the rescuers to believe that the entombed men could not have survived.

SWEPT OVER BOSTON DOCKS

Disastrous Fire at Hoosac Tunnel Piers---Big Steamer Damaged

Boston, Feb. 23.—A large double pier No. 3 and No. 4, of the Hoosac Tunnel Docks in Charlestown, together with considerable valuable freight, was completely destroyed by fire early today, and the steamer Philadelphia, from which the crew fled so hastily that three were injured, was hauled into the stream with her upper works ablaze.

The loss to the Boston & Maine Railroad Company, the owners of the docks, is estimated at fully $400,000, while the damage to the Philadelphian will, it is thought, bring the total loss up to about a million dollars.

The adjoining pier, No. 5, which was burned last November, and which was being rebuilt, was slightly damaged. The steamer Dalton Hall, on the opposite side of the pier from the Philadelphian, backed out under her own steam, practically uninjured.

SOME NARROW ESCAPES.

Chief Stewart Fellows, of the Philadelphian, jumped overboard, and was rescued in an exhausted condition, while one of the firemen of the steamer jumped to the deck of a nearby lighter, and had a leg broken. Capt. Dickinson and his wife were taken off by the fireboat, after they had been driven to the stern of the burning steamer, and were about to jump into the harbor.

The fire started, presumably from spontaneous combustion, in some hay on Pier 4, at three o'clock in the morning, and within five minutes fully a quarter of an acre of covered pier, well filled with the most inflammable goods, was wrapped in flames. Blazing brands were carried across the harbor to the city proper, but fortunately away from a large grain elevator at the head of Pier No. 4.

The Philadelphian, which arrived last Saturday, and had discharged about a quarter of her cargo, caught fire within a few minutes. Her crew, who rushed on deck at the first alarm, were driven over the side by the great volume of flames which poured across the docks. But few harbor tugs were in the neighborhood, and it was nearly an hour before she was hauled from her perilous position.

More than half the fire department of the city was called into service, and fought the fire until dawn before it was subdued.

Wanted

A waitress, one understanding light cooking preferred. Apply at White Kitchen, 168 Simcoe St. 7d

COLLEGIATE INSTITUTE EXAMINATIONS.

Standing of the Pupils in the Different Forms

THE BIG BONSPIEL

Charlotte St. Rink the Mecca of All Curlers.

The big bonspiel was in full swing yesterday afternoon and evening, attracting all lovers of the roarin' game. On Tuesday afternoon and evening, eighteen matches were played, with the following results;

Keene v. Peterborough, won by Peterborough by one shot.

Beaverton v. Lindsay—Won by Lindsay by five shots.

Norwood v. Port Hope—Won by Norwood by two shots.

Lakefield v. Norwood—Won by Norwood by five shots.

Bobcaygeon v. Peterborough—Won by Bobcaygeon by 14 shots.

Port Hope v. Oshawa—Won by Port Hope by eight shots.

Lindsay v. Peterborough—Won by Lindsay by 18 shots.

Uxbridge v. Peterborough—Won by Peterborough by 25 shots.

Bobcaygeon v. Port Hope—Won by Bobcaygeon by seven shots.

Bobcaygeon v. Beaverton—Won by Bobcaygeon by eight shots.

Peterborough v. Keene—Won by Peterborough by one shot.

Uxbridge v. Oshawa—Won by Oshawa by eight shots.

Scarboro v. Beaverton—Won by Scarboro by two shots.

Keene v. Lakefield—Won by Lakefield by eight shots.

Peterborough v. Lindsay—Won by Peterborough by two shots.

WEDNESDAY MORNING.

The scores this morning were;—

Oshawa.	Keene.
Sykes, 20.	Keannedy, 18.
Norwood.	Peterborough.
Cummings, 19.	Edwards, 9.
Keene.	Beaverton.
McCamus, 16.	Morrison, 7.
Norwood.	Lakefield.
Finlay, 14.	Strickland, 7.
Peterborough.	Lindsay.
Brown, 13.	McFadden, 8.
Bobcaygeon.	Peterborough.
Read, 16.	Giroux, 10

The result of the afternoon and evening games will appear to-morrow.

A GOOD MOVE

One Step Nearer to Stamping Out the System of Using Trading Stamps

Peterborough Retail Merchants' Association, at a meeting held in the Y.M.C.A. Hall, presided over by its President, Mr. R. Fair, passed the following resolution;—

"Resolved,—That having heard the request of the Montreal Federation of Retail Dealers, regarding the Trading Stamp system, the members of the Peterborough Association desire to express their appreciation of the efforts that are being made to secure such federal legislation as will stamp out effectively such unfair competition in business; and with the view of co-operating with the movement for securing legislation to this end the president and executive officers of the association be hereby authorised to sign the petitions asking for such legislative enactment and forward same to the proper authorities at Montreal."

As noted in The Times, the Montreal Federation of Retail Merchants have been in communication with the Peterborough Association, with a view to obtaining the signatures of the latter association to a petition to the Ottawa Government, asking the Government to formulate legislation that will prohibit the use of the pernicious trading stamp. The petition reads as follows;

"We, the undersigned retail merchants, respectfully petition you, in view of the evils without number, caused to the retail trade of the petitioners by the distribution of Trading Stamps, known also as cash receipts.

"To amend the criminal code in such a manner as to declare illegal the issuing, the sale and the distribution of said trading stamps, or cash receipts, and your petitioners will ever pray."

A PALATIAL EMPORIUM

The New Confectionery Store of Messrs. Demetre Bros. to Excel Anything Outside the Large Cities.

Mr. P. G. Demetre's new confectionery store, which will open in about a month, in the old premises of Mr. G. Carton, is to be of a kind that will be another fixed mark in the memory tablets of visitors to remind them of Peterborough. Mr. Demetre has stores in several places with headquarters at Montreal, but indications point to the Peterborough branch being the most elaborate of all.

The store on the corner of George and Charlotte streets will be both for wholesale and retail confectionery. The main store in front will be 80 feet in depth and 21 in width. In the main store on the north side will be the immense soda fountain, some 15 feet long, made almost wholly of onyx, with French plate mirrors. This fountain was made specially for Messrs. Demetre Bros. On the south side, to a height of two feet will be a continuous panelling of specially carved oak, above which, running the whole length of the store, will be French plate mirrors to a further height of about five feet. All the show cases and other fixtures, including counters, will be of the very latest and most gorgeous character. At the rear of the store will be placed, at convenient intervals, a large number of small tables, on which will be served ice cream and light refreshments, in season. The mirrors, fountain and other fixtures have now arrived and awaiting the completition of necessary repairs to the shops, to be placed in position. The new firm will manufacture all candies fresh, from day to day. The proprietors will send out several travellers as soon as they are settled. Such enterprise which not only serves the purpose of its instigators, but is a credit to the town and should, as such, be recognised.

Mr. James' Horse on the Tear Again

Mr. Charles James, ginger beer manufacturer, has a horse, and that horse cannot plead a first offence, when accused of running away. A few days ago, this family journal recorded a flying trip taken by this quadruped, unauthorised by its owner, and yesterday the untamed steed took fright once more, when standing in front of the Commercial Hotel. At quite 6.10 quit, he flew round Brock street and was arrested in its wild career, near Messrs. McCallum's Livery Stables on Water street. No damage was done, even the ginger beer corks remained intact.

Sizing Up Readings

The many ladies who have, from time to time, waited and watched for the goods Miss Delaney had ordered from the head millinery centres in the largest cities, will be surprised to learn that she is giving up the millinery business, in order to enjoy a well earned rest. Miss Delaney has catered to the artistic tastes of the ladies in Peterborough, for over eight years, and has established a deserved reputation, and the name of an artistic modiste.

Miss Delaney has been successful in disposing of her business to two expert milliners, who are leaving lucrative positions as head trimmers to enter business for themselves in Peterborough. On the first of March the new firm, composed of Miss Allen, from Toronto, and Miss Fellow, from Montreal, will take over Miss Delaney's business, and continue to carry it on in the same well known premises. Preparations are now being made for entering upon the spring trade with full confidence in their ability to please the ladies of Peterborough.

THE TRENT CANAL FOR YORK COUNTY.

Project - to Extend the Canal to Aurora Likely to Succeed.

Special to The Times

Ottawa, Feb. 23.—A large deputation from the County of York waited on the Hon. Mr. Emmerson, Minister of Railway, this afternoon. The deputation represented the Trent Valley Canal Extension Association, and was composed of Mayor Cane, Newmarket, President of the association; Mayor F. T. Daville, Aurora, Vice-President; and T. H. Brunton, Newmarket, Secretary; Hon. E. J. Davis, T. Herbert Lennox, M. P.P., J. F. Wildman, Esra Lundy, W. L. Rogers, J. E. Hughes, Robert Schmidt, L. Cane, Charles Webster, T. H. Lloyd, T. Somerville, H. W. Evans, and C. G. Ross, Newmarket; ex-Mayor Fleury, L. L. Hartman, D. A. Redcliffe, L. A. Wilson, W. G. Baldwin, W. J. Knowles, W. J. Bassett, N. C. Towns, of Aurora, and M. McCartill, Sutton West.

The project which they advocate is the extension of a canal from Lake Simcoe, about nine miles to Aurora, by way of Holland Landing, Newmarket and Aurora, so as to enable the products of these towns to enter the Trent Valley Canal at Beaverton, and get an outlet by water transport. Other projects which are suggested are to extend a canal from Lake Simcoe to Schomberg, and to connect Sutton by a canal with the lake.

Hon. Mr. Emmerson, in reply, stated that the project was one that would receive the serious attention of the Government. He promised to give the matter due consideration, speaking hopefully of the outlook.

It is very probable that a survey will be made of the proposed route, and an estimate prepared of the cost of same.

THE C. P. R'S. ROLLING STOCK

Great Additions to The Great Railway's Cars

ONE THOUSAND ENGINES

And Over Thirty-Two Thousand Freight Cars now on Duty

Montreal, February 23. — Bearing in mind the conditions of a couple of years ago, when the unexpected volume of traffic that offered at that time, occasioned the officials of the company not a little anxiety in their efforts to meet all demands that were made upon the rolling stock of the company, the C. P. R. last year did not a little toward rendering a recurrence of the conditions absolutely impossible.

Statistics have just been supplied that indicate the desire of the company to keep well abreast of the demands of the public, if not slightly in advance. The completion of the Angus shops, in which the company manufactures most of its rolling stock, has, of course, rendered it much easier to secure the necessary rolling stock, than was formerly the case. Under old conditions the company was forced, in a great measure, to rely upon the capacity of outside concerns, and these, when exceptional pressure was brought to bear, were found insufficient to meet all the demands made upon them. The company now has the largest mechanical department of its kind on the continent, where it is possible, not only to build sleeping, parlor, passenger, baggage and freight cars, but to construct locomotives as well.

As a result of the efforts put forth during the year 1904 the C. P. R. has now 1,020 locomotives, 1,977 passenger cars and 32,590 freight cars in service. Added to these there are 26 dining cars and 110 sleeping cars now in use.

During the year mentioned there were 55 locomotives put in service, and 70 more are under order, most of which will be delivered during the present year.

There were, during 1904, 1,500 freight cars put into service, and 4,000 more are on order.

As in the past, the chief complaint against the operations of the company has been, especially in the West, where the removal of wheat has required the use of a great many locomotives and cars, that not sufficient of these were obtainable, it will be seen from the figures just set forth that very little cause for criticism will exist ere the next harvesting season comes around.

Seventy-three additional passenger cars of the most approved pattern were placed in service last year, and that 50 more are on order.

During the year mentioned five new dining cars were delivered and seven new sleeping cars. Seventeen new sleeping cars are building.

To keep pace with the demands of new districts that require railway facilities the C. P. R. during 1904 built 100 miles of extensions. The laying of these tracks was, however, in addition to the 900 miles of track that were relaid with heavy rail all over the system.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The Smith's Falls team defeated the Marlboros last night on the former's ice by a score of 5 to 4. The half-time score was 3—4, neither team scoring in the second half. This gives the Marlboros the senior championship.

• • • •

The O.H.A. Situation.

Victoria Harbor, by defeating Thessalon Tuesday night by 11 to 8 and by winning the round by 16 to 7, put themselves in the semi-finals of the intermediate series. Peterborough and Victoria Harbor will likely be thrown together, perhaps one game this week and another early next week. The winner will play off with the winner of the western section. Berlin last night defeated Stratford by 4 to 1 and have a lead of 3 goals. By the end of next week the intermediate winners will be picked.

• • • •

Victoria Harbor Won, 11 to 8.

Victoria Harbor, Feb. 21,—In the return game, Victoria Harbor defeated Thessalon to-night in the fastest game ever seen on home ice by a score of 11 to 8. Half-time score, 5 to 3. The game was marked by many brilliant end-to-end rushes by both teams, and the checking was very close. Referee Caldwell was very impartial and gave excellent satisfaction to both teams.

• • • •

Those heretofore invincible champions, the T.A.S. hockey team, met their Waterloo at Fenelon Falls, being defeated by the players of that village, by the fairly convincing majority of 29 to 0. Well it washed, but there is room for really truly explanation. The T.A.S. team were short by two players, and had to take up with them two men who were quite out of practice, while the Fenelon Falls men had been in constant practice and played their team strength, and all their men had practised together for years. The Fenelon Falls' boys were men enough to assume boys were men enough to assure their victims that they were. The first team undergoing continued defeat who did not ask them to let up a little so as not to make too bad a showing.

Limbs Ached With Weakness

Cheeks Were Sunken and Pale—Appetite Poor—Sleep Hard to Obtain

FERROZONE

Made a New Woman of Mrs. Clarence Agustus of Walbervilla

When you want to get over weakness and sleeplessness without stopping work, use Ferrozone. It is the one sure remedy that brings bracing health at once.

Try Ferrozone and notice how much better you will feel. Mrs. Clarence Augustus, of Windsor, writes:

"My weakness was chronic.

"It seemed to invade every organ of my body.

"My cheeks were sunken and pale.

"I had no appetite, and slept very poorly.

"Since using Ferrozone I am like a new being. I am strong, have no more aches or weak spells.

"Ferrozone is indeed a grand tonic."

It's the nourishment in Ferrozone that makes you feel good. It puts life into the blood, energy into the nerves, makes you dance and sing with new found health; try Ferrozone, 50c. per box, or six boxes for $2.50; at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 23 1905

WONDERS DEVELOPED BY WAR

The most wonderful part of Japan's wonderful military development is not a story of battles won. It is a fight on disease such as the world has never before witnessed, and Maj. Louis L. Seaman, an expert, declares that an example has been set that the world will do well to follow instead of pursuing its present antiquated methods.

Long before the opening of hostilities the Japs were ready. They had discovered that in war disease kills five where bullets kill one, and they were certain that the proportion was extravagant. They established the most wonderful Red Cross system in the world and that body now has more than 1,250,000 members. They had trained nurses in hundreds, modern supplies for use in the care of the sick and wounded in unlimited quantities.

They studied the germ theory and made war on bacteria the first of all, and they studied serums until her students expect to control dysentery, typhoid, erysipelas, and eventually tuberculosis. They wiped out that dread oriental disease, beriberi, by scientific feeding of men. At same time Japan discarded the fuss and pomp of war and brass buttons and gold lace and other tomfoolery are almost unknown.

What does it all amount to? At the reserve hospital at Hiroshima up to August 1 last, 6,626 wounded had been received. And at that time but thirty-four had died. In seven trips made by the hospital ship Hakusi Maru 2,406 wounded men were transported and not a case was lost in transit. It is asserted that in the first six months of the war the loss from preventable diseases had been reduced to a fraction of 1 per cent.

In the Spanish-American war, in six weeks, bullets killed 268 and disease 2,982. In the French campaign in Madagascar, in 1894, of 15,000 men sent to the front, twenty-nine were killed in action and 7,000 from preventable disease.

If war is inevitable, and a thing to be reckoned with, it does seem that men should be killed legitimately, on the field, fighting for a cause, and not destroyed by diseases that so often find their birth in the negligence of mankind.

A LENTEN MOVEMENT

Word of an unusual religious "rapprochement" comes from Wisconsin, where a Protestant movement to give a special significance to the Lenten season has met the outspoken Roman Catholic countenance. A meeting of Protestant clergy of all denominations planned a great moral campaign for Lent, and proceeded to invite the co-operation of their Roman Catholic brethren. The prompt result was that Archbishop Messmarr, of Milwaukee, the head of the Catholic Federation movement, gave the proposal his cordial approval and has issued a circular letter to his priests in which he describes the object of the campaign, as "undoubtedly praiseworthy and the plan well chosen." He goes on to say:

"The Protestant committee charged with arrangement of this so-called evangelistical campaign has asked for the co-operation of the Catholic clergy. Seeing absolutely no reason for refusing to comply with their wish, I gladly promised to notify our clergy the more so that the work is entirely Catholic. * * The time chosen is in harmony with Catholic practice, as it is usual during the time of Lent to treat the moral subjects rather than speculative dogma. * * * It would be un-Christian to refuse co-operation in what appears assuredly to be a useful and timely work, fully in consonance with Catholic practice, merely for the reason that such co-operation is asked by persons not of our faith."

The Archbishop sets forth his reasons for urging the plan, saying:

"First, that the ministers of non-Catholic denominations are the religious teachers and leaders of their people, and, as such, will always exercise a powerful influence upon our separated brethren.

"Secondly, however much the sects may differ from the Catholic Church in creed and belief, yet the difference in regard to Christian morality of the law of God is, thanks to Divine Providence, and the inherent power of the Christian principle, not so great, though unfortunately, still wide enough."

As a Canadian paper, the Hamilton Times, remarks, it is pleasant to note that when great calamities or great movements to benefit mankind bring together the masses, questions of creed take a subordinate place, and the doctrine of human brotherhood asserts itself. The movement in Wisconsin is a good augury. It goes to show that people of divergent creeds can still respect and esteem one another, and when occasion requires can unite for the furthering of the good of all.

THE DOOM OF NIAGARA

According to the geologists Niagara Falls is doomed to disappear by natural processes of erosion after some tens of thousands of years. According to the political scientist it is doomed to disappear within the present generation by the agency of greed and graft unless some check can be put upon the predatory instincts of the New York Legislature. The first danger cannot be averted. The second can, and must.

A resolution has just been introduced into the New York Assembly empowering the Federal Government to enter into negotiations with Great Britain for a treaty which will provide a method of joint action between Canada and this country to preserve the falls. Such a treaty would necessarily involve an agreement as to the amount of water which each nation would allow its citizens to divert from the Niagara River for power plant purposes. A necessary preliminary would doubtless be the conversion of the American shore from a State into a Federal reservation.

Canada has been more careful than has New York State in the granting of franchises to power companies. Still, New York has not yet taken any irretrievably ruinous steps. Its Legislature is, however, continuously assailed both directly and indirectly by capitalists eager to get the right to use the water. The indirect attempts are more dangerous than the direct, for the latter can be fought and defeated, but the former are apt to slip through the Legislature without detection at almost any time.

If international action is not taken New York should cause a careful investigation to be made of the amount of water that can be taken from the Niagara River without injuring the falls, and it should then place in its State constitution a provision which will make sure the protection of the falls for all time to come.

REMARKS BY GENERAL BOTHA

At the recent meeting of Boers at Pretoria General Botha uttered a strong demand for responsible government. Referring to representative government, he said that he could not honestly advise the people to accept it. He had been asked whether, even under representative government, they would not be able to secure some of the things they wanted. People who asked such a question he regarded as madmen. They must not say that because they could not get the whole, they would be satisfied with half. It was ridiculous to expect them to be satisfied with what was proposed. He asked the meeting to propose a resolution which stated with moderation, but clearly, that they were only going to associate themselves and be satisfied with one form of government for the country, and that was responsible government. They should also demand the same measure for Orange River Colony. At the same time he professed entire loyalty to the British Government. The Boers, as a people, he said, had only one object, which was to co-operate with the British in the country for the general benefit. But, he went on to say, if the Imperial Government expected them to be faithful, it must also prove that it trusted them. One reason why the Boers are opposed to a representative government is said to be their willingness to reveal their full voting power before it can be asserted with full effect.

THE MANITOBA FRAUDS

Further Revelations as to the Tampering With Voters' Lists in Provencher

Winnipeg, Feb. 23.—J. A. Magus, a deputy returning officer for polling sub-division 44 of the Dominion constituency of Provencher, is charged with erasing, or causing to be erased, certain names from the voters' list. The most important evidence elicited during the hearing was that of a mail clerk named Auger, who swore that he had received his appointment as poll clerk in candidate Cyr's committee room, and that he was a frequent visitor in the Liberal room. He also swore to seeing the ballot boxes in the rooms unlocked and unguarded. He swore he was a Dominion Government servant, also that he was not a partisan.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

COUGHS BULLET AFTER 35 YRS.

Veteran of Franco-Prussian War Relieved in Odd Manner

Paris, February 23.—In the Franco-Prussian war M. Barbier of Hericourt received a bullet in the shoulder. The surgeons were unable to extract it and recently he suffered from violent pains in the head which puzzled the doctors. A few days later he spat out the bullet after a coughing fit. For thirty-five years the projectile has been circulating in his body, eventually going to the head and then to the throat, from which it was thrown up. M. Barbier feels the pain no longer.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A ttler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler who has cultivated his land has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or surveying township.

A settler who avails himself of the provisions of one of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 60 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.
INCORPORATED
Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke Fountain South Africa.—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Silverlen, I saw on the dumps several thousand tons, probably 3000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the outcroppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 25 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and, Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Books sent Free.

25 000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with ore piling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 60 ton capacity ochotime, railroad over one mile long, engine on track, three of company with fireproof vaults, boarding house and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1600 feet in the big tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which will then be hauled to the smelter, that will sell as high ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy inside of 30 or 60 days. As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment, after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

From Yesterday's Issue

ANARCHIST SOCIETY FORMED IN MONTREAL

It Is Believed That Band of These Men are in City

OPINIONS OF LEADING JEWS

Violence and Assassination Utterly Disapproved of and Discountenanced

Montreal, February 23.—Headed by one Mr. Vineberg, the reputed leader of the Russian Revolutionary Band in New York, there was a meeting of Russian Jews held yesterday in the Empire Hall, under the auspices of the Montreal Branch, which, it is said, was organized two years ago. The assassination of the Grand Duke Sergius was the subject of an address by Vineberg, and the meeting endorsed his sentiments which were of a nihilistic tendency.

It is believed that there is a so-called society of anarchists in this city, the members of which are Jews of the lower orders, led by a few countrymen.

A few of the leading members of the Jewish community were seen today by a reporter, and they disclaim all connection with these people, about whose movements they know nothing; and they deplore the fact that Jews in Montreal are in any way associated with yesterday's meeting.

Mr. L. Colen said: "It is a great pity, such a meeting could never be taken as an indication of respectable Jewish opinion, on such a subject. I don't even believe they were all Jews at that meeting, and those who were there should be ashamed of themselves. I knew nothing about the meeting until today."

DISAPPROVE OF METHODS.

Mr. C. I. de Sola, being seen by a reporter, said: "It is scarcely necessary to say that Jews the world over utterly disapprove of the methods of Nihilists and Anarchists, who resort to violence and assassination to attain their ends. Jews are pre-eminently a law-abiding and peaceful people, and believe only in constitutional methods of agitation. There can be no excusing and no condoning violence, neither can any good ever be attained by it. The meeting referred to was not even heard of by any Jew of standing in the community, until read of it in the paper the next day, and I have not the slightest doubt that 95 per cent. of those present were purely attracte dby curiosity to hear what was said. There are always silly men who will do stupid things, but they do not represent anybody but themselves, and are entirely disclaimed by the Jewish community. The Jews have suffered cruelly from oppression in Eastern Europe, and it is only natural that they feel very bitter against their oppressors. They have been the victims of massacres, and every kind of outrage and injustice, but this does not make them lose sight of the fact that their religion teaches that 'thou shalt not commit murder.'"

Mr. M. Vineberg stated: "It was a most unfortunate thing that I should bear the same name as that irresponsible individual who is reported to have addressed that meeting yesterday. I don't know him and don't wish to, nor do I know anything about the following he is said to have in the city. The Jews of Montreal have no need for any revolutionary organization, because they are free and no respectable Jew can be in sympathy with those mischief-makers who held the meeting yesterday."

Mr. A. Blumenthal stated, "I had occasion to pass by the room where the meeting was being held yesterday and men were collecting money for the purpose of purchasing bombs for use in Russia. The police patrol was going to be summoned and as soon as they heard of it, they dispersed. How can you associate the Jews of Montreal with such a worthless crowd."

Mr. Herman Abramowitz thought that whilst it was true that the Jews suffered many cruelties at the hands of the late Grand Duke, who was regarded as their great enemy, "yet it was foreign to the Jewish spirit to rejoice at his downfall and those who met to celebrate his death were in no way representative of the sentiment of the Jewish community in the matter."

ROBBED AN INVALID

Brockville Youths Stole One Hundred Dollars But Were Captured

Brockville, February 23.—Two lads named Robbie Rusland and George Simons were employed by an invalid woman to clean her sidewalk. After doing the work they went into the house for their pay, and spied a pocketbook containing $101.50, which they appropriated. They skipped across the river to a small village on the American side and fitted themselves out with gold watches, etc., preparatory to starting for New York. The police nabbed them in the act of boarding the train. They were brought back and a portion of the money recovered. Today Police Magistrate Deacon committed the youths for trial.

EX-PREMIER ROSS

Leaves Toronto on a Trip to Jamaica—Has Suffered Much With Rheumatism Lately

Toronto, February 22.—Hon. G. W. Ross, ex-premier, leaves today for Jamaica. The Sunday World says it is informed that Mr. Ross has felt the reaction consequent upon his relinquishing the duties of Government and since his resignation has been laid up a good deal of the time in bed. Some of his friends, however, say he is feeling as well as usual, except that his chronic affliction, rheumatism, is bothering him a little more than usual, and that it is believed the change to a warm climate will entirely recuperate him.

THE CASE SETTLED

Downeyville School Dispute Comes to an End

The litigation over the Downeyville school case has been settled. Father Brethreton, the parish priest, called personally at the office of Mr. T. E. Weldon, Lindsay, solicitor for the public school supporters, and returned the deed of the public school. He also paid the total expenses of the action, amounting to $175. There is no question but that the action of the priest is due to the influence of the Bishop of Peterborough, who is credited with having issued instructions that the school shall be given back to the public school trustees.

—A subscriber gives a test for water milk which is simplicitty itself. A well-polished knitting needly is dipped into a deep vessel of milk and immediately withdrawn in an upright position. If the sample is pure some of the milk will hang to the needle, but if the water has been added to the fluid, even small proportions, the milk will not adhere to the needle.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanitarium and Free Hospital for Consumptives, is now well known.

The 1,250 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, so long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, there were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 68.

$82,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$90,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do as much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 3,484 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; all work done on vein and in ore; no dead work; nearly $250,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed. Estimates on ore from this shaft alone show a clear profit of $500 a day.

Another claim, with 4 feet of ore averaging $21 a ton still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $24 a ton. Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. WIN be a steady producer and dividend payer as soon as improvements are installed.

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine." In 1904 Mr. F. M. Whitmore said:—"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Advertising in The Times will bring Results

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your Lungs Cured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves securely in the throat and lungs where they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and lends to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

House Wanted

An eight or ten-room house, in good location. First-class tenant. Address care of Times Office.

Roads Badly Blocked

The roads in almost every direction are badly drifted. On Tuesday, Mr J. H. Gardiner, the well-known auctioneer, had a twenty-mile drive to a sale in Manvers, and found drifts from six to fifteen feet deep in many places. He succeeded in reaching his destination only after a desperate struggle.

FIRE NOTICE

Mr. Dunslow has the pleasure to inform the numerous patrons of the "Framery," which was destroyed by fire on Sunday last, that he has resumed business in the store occupied by Colonel Miller, 436 George street, pending refitting of the old premises. A new stock previously ordered for the spring trade is being moved forward. A continuance of the kind and generous patronage hitherto extended to the old "Framery," is solicited. 9d

Phone 204. 418-420 George Street

The attendance at the
Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE.

TO JOIN THE CABINET

Hon. A. B. Aylesworth to Enter at Early Date

It is now quite certain that Hon. A. B. Aylesworth is to become a member of the Dominion Cabinet at an early date. Mr. Aylesworth, as our readers know, contested Durham at the general elections in November last, and was defeated by a small majority. It is altogether likely that an Ontario constituency will shortly be offered him. Indeed it is quite possible that East Peterborough may be selected, as it is regarded as a safe constituency, particularly for a member of the Government. Mr. Aylesworth will no doubt soon become the strong man in the Cabinet, and the individual on whom the mantle of Sir Wilfrid Laurier will fall when the time comes for the Premier to retire from active politics.

AN OTONABEE WEDDING

Nuptials of Miss Janet E. Gillespie and Mr. J. Francis Elmhurst

On Feb. 15th, a very interesting wedding took place at the home of Mrs. Peter Gillespie, Villiers, when her daughter, Janet E. was united in marriage to Mr. Francis R. Elmhurst. The ceremony was performed by Rev. D. D. McDonald, pastor of Keene Presbyterian church.

The bride was attired in brown silk with white chiffon and sequine trimming. Her bouquet was of white carnations.

Miss Bessie Vivian was bridesmaid, and wore brown voile with sequine trimming and carried white carnations. Mr. J. Elmhurst, Keene, acted as best man. The wedding march was played by Miss Maggie Comstock. After the ceremony a dainty dejeuner was served, after which Mr. and Mrs. Elmhurst left for their future home in Otonabee. The Times unites with their many friends in wishing the happy young couple many years of happiness and prosperity.

FITZGERALD—HANNA

Yesterday afternoon a very pretty and interesting wedding was celebrated at 174 London street, when Miss Madeline, daughter of Mr. W. G. Fitzgerald, was united in the holy bonds of matrimony to Mr. Ernest Claude Hanna, of Smith. The ceremony was performed by Rev. Mr. Scott, pastor of the Murray street Baptist church.

The bride was becomingly attired and was attended by Miss Bella McConkey, Mr. Wm. Hanna, of Smith was best man.

Many beautiful and costly wedding presents were received by this popular young couple which shows the high esteem in which they are held. Mr. and Mrs. Hanna will reside in Smith.

Wedded in Texas

Many persons in town will read with interest the following report of a wedding which took place in Laredo, Texas:—"On Feb. 1st, 1905, at 10.30 a.m., Miss Lydia Redman and Mr. Will C. Rogers, M.A., (Queen's,) of Lindsay, were married in the parlors of the Base Hotel of Laredo, Texas. The number who witnessed the event was limited, but Mr. and Mrs. Rogers, have the satisfaction of knowing the most select of the city were among the guests. Judge Martinessy Blenavides performed the ceremony. Mr. and Mrs Rogers left next afternoon for their home in Monterey, Mexico, where Mr. Rogers is employed in Smelter No. 2. The bride is a Port Perry belle.

SOMETHING NEW

An Artistic Innovation in Peterborough, Whereby Art is Wedded to Photography.

In keeping with the energy and enterprise that characterises the citizens of Peterborough, Mr. R. M. Roy, the Hunter street photographer, has introduced a new style of picture, whereby the older style of art is wedded to photography. Mr. Roy, has brought direct from Dantzing, Germany, a free hand artist, whose reputation was more than a local one. By the art and assistance of this gentleman, Mr. Roy now can turn out a most pleasing style of picture. The head and neck of a sitter is photographed on a white back ground and then his German colleague, with pen or pencil, finishes the remainder of the figure by hand drawing. This is the initial introduction of this style of art in Canada, and Mr. Roy is enabled to add to the pleasures of all lovers of artistic beauty. The finished pictures strongly reminded the observer of the well-known Gibson pictures.

BEAUTIFUL SCENERY AT NIAGARA FALLS

One of the wonders of the world is the ice bridge at Niagara Falls, and a sight you will not soon forget. A visit to the falls will be a holiday well spent. For tickets and full information apply to any Grand Trunk Agent.

HOW TO KEEP WELL

Strengthen the Stomach With Mi-o-na and Get Perfect Health

The source of health is the stomach and the digestive system. When acting as Nature designed they should, the organs of digestion do their work regularly and unconsciously, like a perfect machine.

Those who use Mi-o-na do not have a sallow complexion, sunken cheeks, nor flabby flesh. Their skin has a ruddy glow, the eyes are bright, the breath sweet and the step elastic. In short, the users of Mi-o-na have the maximum of good health and are plump, rosy and robust.

Nine-tenths of all sickness comes from a weak stomach, causing loss of flesh, shattered nerves, flatulency, heartburn, sick headaches, backaches, spots before the eyes, rheumatic troubles, and general weakness and debility. Take a Mi-o-na tablet before each meal, and all irritation, congestion and inflammation in the stomach or bowels will be immediately soothed and relieved. In fact, the stomach will become well and strong and the whole system filled with strength and vitality.

Even if a weakened stomach has brought you to a chronic stage of ill health, where life is one long drawn out pain, do not despair. Mi-o-na will effect a cure if the simple direction in each 50c. box are faithfully followed.

Read the guarantee given by Wm. Medill with every package of Mi-o-na he sells. He pledges himself in this guarantee to refund the money should Mi-o-na fail to help.

To Make a Bride

Many a woman would make a beautiful bride but she is deterred from entering the married state because of ill-health.

$500 REWARD
FOR WOMEN
WHO CANNOT BE CURED.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"If women would study the laws of health and use a little more common sense there would not be such a large number to-day suffering with the ills peculiar to our sex," writes Mrs. Sallie Martine (President Medical Social Science Club), of the South Halstead Street, Chicago, Ill. "Then when medicine is needed if they would take the 'Favorite Prescription,' they would have a chance to get well. I used Dr. Pierce's Favorite Prescription three years ago and it cured me of female weakness of several years' standing, so I know what I am talking about when I praise it and always know what the result will be where it is used."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

LITTLE LOCAL LINES

Random Here and There by Times Reporters on Their Round

—The Lindsay Council and Board of Trade have indulged in a taffy pull.

—The C.P.R. train from Toronto was some hours late yesterday. The G.T.R. train from Toronto at noon was an hour late.

—The formal opening of the Young Conservative Club's handsome new rooms will probably take place next week.

—The largest red fox skin seen here for years was brought to town yesterday. It was trapped in North Monaghan by Mr. Smithson.

—For the balance of the season All Saints' rink will be open for skating every evening, with the exception of Monday, from 8 to 10.30 o'clock.

—The regular monthly meeting of the Ladies' Auxiliary of the Y.M.C.A. will be held to-day at 3.30 o'clock. All members are requested to be present.

—A four-year-old son of John McIntosh, merchant, of Belleville, was last evening bitten by two dogs, which had him down on the snow, and would probably have killed him had not two ladies driven the brutes off. The child was severely bitten about the head.

—The two cars ordered by the Street Railway Company, from Cleveland, arrived yesterday. These are second-hand cars, ordered for emergency purposes, so that the Railway Company will be able to cope with an unforseen contingency. If new, these cars would cost in the neighborhood of $3,000 each.

SOCIAL AND PERSONAL

—Mr. T. E. Bradburn, M.L.A. went to Toronto yesterday.

—Mr. J. H. Brandon, Fenelon Falls, was in town yesterday.

—Mrs. W. J. Morrow's chorus club met last night for practice.

—Mr. J. G. Edwards, brother of Mr. E. B. Edwards is in town.

—Mrs. John Crane and her daughter, Miss Gladys, have returned from Toronto.

—Mr. W. J. Crossen, of the great Crossen Car Manufacturing Company, of Cobourg, is in town.

—Mrs. M. J. Brophy, and her daughter, have returned to Ottawa, after an extended visit with Mrs. Harry Phelan.

—Miss Hattie Campbell, who has been on a visit to her mother, Mrs. James Campbell, returned to Truro, N.S., yesterday.

—Mr. E. T. Hammitt, local manager of the Bank of Nova Scotia, went up to the city last night. He will return this evening.

—Mr. Harry Phelan, of 335 Rubidge street is about again. He has been confined to the house for weeks by a cold and rheumatism.

—Mr. Wm. McGregor, of the Simpson House, Lindsay, who has been visiting eastern cities, has returned to Lindsay.

—Miss Jean Robson, of Norwood, has returned home after spending a week very pleasantly with her aunt, Mrs. G. Learmouth, Sherbrooke street.

—The engagement of Mr. Percy Pearson, Montreal, to Miss Lillian Farrar, of that city, is announced. Mr. Pearson's many Peterborough friends will be interested.

—Mrs. S. C. Bennett, Peterborough, and Mr. Enos Souch, Portage la Prairie, Man., are visiting their father, Mr. S. Souch. —Bowmanville Statesman.

—Mr. and Mrs. J. A. McDonald were in Peterborough last week. Mr. C. Shannon returned from Peterborough on Friday. Rev. Father Murtagh was in Peterborough last week.—Marmora Herald.

—Rev. Father Collins of Bracebridge, is in town to attend the coming consecration. The rev. gentleman has a large circle of friends and admirers here, as he was, a few years since, stationed in Peterborough, in connection with the cathedral.

At the Opera House

Another good house last night saw Mr. H Wilmot Young in the character of Terrance O'More, and Miss Marjie Adams take the part of Kathleen Mavourneen. The Bijou Comedy Co. has established itself in the minds of our townsmen, as a combination of theatrical people presenting a good clean series of plays, well rendered and set up. Their specialities are above the average. To-night the company will present "My Jack," a western comedy drama in four acts, with Mr. Young and Miss Adams in the leading parts.

A SAD EVENT

Little Walter Sager Succumbs to the Injuries Received in His Fall

The whole community will tender their respectful and heartfelt sympathy to the family of Mr. S Sager, over the sad manner in which the little boy Walter was so suddenly stricken down. Our readers know from our account in yesterday's issue, how the poor boy fell through a sky-light of the summer kitchen, and received such severe injuries that he had to be taken to the hospital. Yesterday morning he died there, about seven o'clock; owing to his having only recently recovered from an attack of diphtheria, he was so weak, as to be unable to stand the loss of blood consequent on his accident or the shock incidental to it.

As noted in The Times, Mr. Sager was away at the Star of the East Mine, north of Kalador, and only came home last night so the date of the funeral was not known as we go to press.

What makes the accident particularly sad and distressing is that only a few months ago a younger brother to the one who died yesterday morning was blinded, by the explosion of a detonating cap, and is now in the Belleville School for the Blind.

Walter Sager was born in Rochester, Pa. He was the third eldest in a family of eight, the other children being Herman, the eldest, aged 19; Laura, Floyd, Gail, Helen, Ruth and Mildred. The deceased was a very bright lad, and his sudden death will come as a great bereavement in the home and he deeply deplored by all who knew him. Mr. and Mrs. Sager chose Peterborough as their place of residence a little over a year ago, and in that time have made many friends.

POLICE COURT NEWS

Yesterday was Magistrate Rush's busy day at the police court. The first attraction on the program was when the main actor in the drama, William Austin, faced the footlights, and answered to the charge of assault, preferred by Frederick Adlum. County Crown Attorney Wood conducted the case for the prosecution, the prisoner was defended by Mr. F. D. Kerr of Messrs. Denniston, Peck, Kerr and Stevenson.

Adlum gave his side of the case, which practically coincided with the report given by The Times in a former issue. He and Austin had differed over political questions, and as verbal argument would not prevail, Austin supplemented his statement of the case by bad language, on several occasions. On February 17th in their workshop. Austin again used bad and abusive language, and then drawing a weapon from his hip pocket, struck him over the head with it, inflicting a severe scalp wound, which bled profusely.

To Mr. Kerr he admitted that he had walked some distance after receiving the blow, on the same day, and had also recovered sufficiently to go to work the Monday following.

Dr. Amy gave medical testimony as to the severity of the wound.

Mr. Kerr called no witnesses, pending the trial, which will come before the next competent court of jurisdiction.

W. McCormick was committed as insane, and will await the usual examination in the jail.

The dusky son of Italy, charged with selling liquor, whacked up $200 as a guarantee of good faith, and allowed to get out on bail.

Yesterday a man was arrested for taking a too heavy load of the juice that both cheers and inebriates; up to a late hour last night, he was still too much under the influence to discover what his name was.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

A SOCIAL EVENT

Private Series of Literary Evenings Held at the Residence of Mr. D. Hughes-Charles

The second of a series of literary evenings at the residence of Mr. D. Hughes-Charles, 21 Scott street, was held on Tuesday evening. The feature of the evening was a lecture by Mr. Henry D. Burnett, of the Canadian General Electric Company, who took for his subject, Herbert Spencer. Mr. Burnet gave a history of his early career as a philosoper and scientist, later on referring to his writings and comparing his life work, and theories with those of Huxley, Tyndal and Darwin. The lecture was a most interesting and instructive one and was afterwards criticised and commented on in a clear and concise manner by Messrs. J. Hamden Burnham and Rev. Dr. Torrance. There were about forty of the leading literary people of the town present. Mr. R. Mee, Dominion, Rev. Mr. Langfeldt and other gentlemen are to speak at various subjects of interest at subsequent meetings, which will be duly announced.

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorise the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorise the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 863 of the County of Peterborough, passed to authorise such conveyance by the said County.

4. To authorise the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 3 of chapter 74 of 3 Edward VII. so as to authorise the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

Czar Firmly Decided War Must Surely Be Continued

German Court Has Been Advised That War is to be Fought to a Finish and with Great Energy---Fleet of Destroyers.

The war will be pressed with the utmost energy, the domestic situation being now within the control of the authorities. Those who have advised peace, and suggested inquiries for Japan's terms, the French and British Governments, are for the present silent, and are likely to remain so unless events of an extraordinary character shake the Russian Emperor's resolution.

Berlin, Feb. 24.—The Emperor of Russia has elected to continue the war.

His position is absolutely firm, and the German court has been advised in that sense.

The considerations that led to the Emperor's decision as understood here are;

First. The judgment of the chiefs of the army that Field Marshal Oyama not only cannot defeat General Kuropatkin, but stands in danger of defeat himself. How cowardly, therefore, for Russia to ask for mercy with all the men and money essential to a successful war.

Second, All the forces of criticism now directed against the Government for having once fought rather than yield to legitimate interests, and for having failed to win victories, would be continued with added fury against the Government that accepted war and then betrayed the country. A Government that would crave peace of Russia's enemy while still capable of winning victory would be giving the party of change genuine grounds for a revolution.

The facts of the military situation, love of country, and arguments of expediency were all against peace and for pressing the war hopefully.

Japs Will Have a New Flotilla Ready in a Year

Tokio, Feb. 24.—The Japanese Government expects to complete within a year her new fleet of torpedo boat-destroyers. Each vessel will be capable of making 29 knots an hour. The destroyers will each be equipped with two torpedo tubes, besides the usual armament. The ten torpedo boats recently completed are now being placed in commission.

Frederikshavn, Denmark, Feb. 24.—The third Russian Pacific squadron, commanded by Rear-Admiral Nebogatoff, left Skagen Bay heading westward during the night.

Japs Trying to Get a Base to Operate

Port Louis, Mauritius, Feb. 23.—There is an unconfirmed report that Japanese agents ar enegotiating for the purchase or lease of certain islands near the Seychelles group for coaling stations.

Tokio, Feb. 24.—As a result of a conference with the bankers of Tokio, Yokohama, Osaka, Nagoya, and Kyoto, the Government has practically determined upon a fourth domestic loan of 100,000,000 yen, to be issued at 6% per cent., and payable in seven years. The formal announcement of the loan is expected soon.

SAW MURDER IN A DREAM.

London, Feb. 24.—An extraordinary circumstance occurred in connection with the alleged murder of Edward Hayward, of Mundham, Sussex, by Tom King, near Edmonton, a few weeks ago. His brother, Harry Hayward, came down to breakfast looking perturbed, and said to his sister, "I have had a bad dream. I saw Ted shot."

Two days after he received a communication from the Canadian police, telling him that his brother had been murdered, and asking him to come and identify him. He proceeded to Edmonton with a vivid picture in his mind of the man seen in the dream.

OZARINA COLLAPSES IN TERROR

St. Petersburg, Feb. 24.—Fear of the assassination of the Czar has brought the Czarina to serious collapse. Six specialists are now in attendance on her in the palace in Tsarskoe-Selo. It is said the imperial patient is in delirium and close to death, but so far no official announcements have been made and every detail of her illness is closely guarded.

The Czarina, following the assassination of Grand Duke Sergius, became frantic at the thought that the Czar would be the next victim of the Terrorists. It has even been reported that she believed the revolutionists would not spare her baby heir to the throne, and that she gave herself to such gloomy brooding that her mind became temporarily affected.

The specialists went to Tsarskoe-Selo last night on a special train from St. Petersburg. They held a conference this morning. The Czar is greatly distressed at his wife's condition, and has requested a German specialist in nervous troubles to hurry to her bedside. The Czarina was one of the closest friends of Sergius, his wife being her sister. The piteous grief of the widow has had a disastrous effect upon the Empress.

DARE NOT STOP WAR

Indignation in The Army Ranks is Very Great

Moscow, Feb. 24.—What Kuropatkin's army might do if it were brought home just now is the question which is working with feelings of national horror to delay negotiations for peace. One-third of the Manchurian forces, is aggressively democratic; the other two-thirds is mainly neutral. Positive adherents of the autocracy are very few. Therefore the Democratic officers and men, with whom, by the way, Kuropatkin heartily sympathizes are of more account at the present juncture than all the rest of the army. They are composed chiefly of the younger generation. Among them are reservists who cerish the purpose, if possible, of penalizing the Government for tearing them away from their wives, babies and property in Upper Russia. It would not be surprising if the bureaucrats should decide that it might be a hazardous thing to stop the war and bring these disaffected soldiers into th emidst of the tumult about the autocracy. The Manchurian army now almost to a man knows the details of the January massacre and the indignation in all ranks is very great.

RUSSIAN ASSASSINATIONS--TERRIBLE LIST

The Grand Duke Sergius is the sixth high-placed Russian official to be assassinated in the past three years, the others being M. Von Plehve, Minister of the Interior; M. Sipiaguine, Minister of the Interior; M. Bogolieroff, Minister of Education; General Bobrikoff, Governor of Filand, and General Bogdanovitch, Governor of Ufa. The following is a list of murders and attempted murders on Russian officials within recent years:

M; Bogolieroff, Minister of Education, assassinated Feb. 27, 1901.

M. Pobiednosteff, shot at in March, 1901.

M. Sipiaguine, Minister of the Interior, assassinated April 15, 1902.

General de Whal, Governor of Vilna, shot at May 18 1902.

Prince Obolenski, Governor of Kharkoff, assailed in August, 1902.

M. Bessonoff, Kharkoff, Chief of Police, also wounded August, 1902.

General Bogonovitch, Governor of Ufa, assassinated May 19, 1902.

Prince Gulitsin, Governor-General of Caucasus, attacked October 27, 1903.

M. Metlenko, Chief of Police, fired at in Grodno, November 12, 1903

General Bobrikoff, Governor of Finland, assassinated June 17, 1904.

M. Von Plehve, Minister of the Interior, assassinated July 28, 1904.

Czar Alexander II. was assassinated on the 13th of March, 1881, and in 1883 the Chief of the Secret Police was killed at St. Petersburg, while in 1891 the Chief of the Moscow Secret Police was also assassinated.

PREMIER HAULTAIN OPPOSED TO SCHOOL CLAUSES

Guarantee of Separate System Has No Constitutional Warrant, Says Premier of the North-West Territories--Only a Draft.

Ottawa, Feb. 24.—Premier Haultain of the North-West does not yet feel at liberty to express his views for publication upon the autonomy legislation now before the House of Commons, as his negotiations with the federal Government are not yet concluded. At the same time it is known that he considers the Dominion authorities have no constitutional warrant for the action they saw fit to take upon the educational clauses and the public lands question. Mr. Haultain acknowledges that the grant in lieu of lands constitutes a large immediate aid, and that as regards future years the provision made by the Government assures Alberta and Saskatchewan a steady annual income of $1,125,000, which is certainly not to be despised. At the same time Mr. Haultain argues that upon constitutional grounds the new Provinces are entitled to their respective public domains.

ONLY A DRAFT.

As regards the schools clause of the legislation that Sir Wilfrid has prepared, Mr. Haultain believes that full control over education should certainly be left to the new Provinces. He is especially opposed to section two of the education clause, which binds the Provinces to make financial provisions for Separate schools. Mr. Haultain looks on this feature of the Government legislation as a mere draft, and hopes that it will later on be subjected to material change.

The Territorial Premier is still of the opinion that the Federal authorities should have created not two but one Province in the North-West.

SIDEBOARD PRESENTED

Mr. and Mrs. Humphrey Finlay Presented With an Oak Sideboard and an Address.

A few nights ago, Mr. and Mrs. Humphrey Finlay had a large and pleasant surprise party, when about 30 friends gathered unexpectedly, to say good-bye to them, on the eve of their leaving Fowler's Corners for Mount Pleasant to live. A handsome quarted oak sideboard was presented accompanied by the following address;—

Fowler's Corners,
Emily, Feb. 18th, 1905.

Mr. and Mrs. Humphrey Finlay,
Emily.

Dear Friends,—We, your neighbors and friends have learned with the deepest regret of your intention of removing from our midst, and we have gathered here to-night to express that regret in a tangible form, and to spend another one of the many pleasant evenings with you.

During the time that you have been in our midst we have had many opportunities of learning your true worth, and it is in no conventional way that we express our regret that you have decided to remove from the community in which you have made so many warm friends, but we have this satisfaction that what will be our loss will be the gain of thecommunity in which you may make your future residence.

As a token of our esteem for you, and as an evidence of our regret at your departure we ask you to accept this sideboard, and we hope that it may serve to remind you of the period in your lives which you spent im Emily township, a period which we hope has not been altogether unpleasantly spent.

We hope that we shall still be privileged to meet you frequently, and if such should not be our lot, we shall hope that w. will meet in that place not made with hands, eternal in the Heavens.

Signed on behalf of your friends.
JOHN BRADLEY,
ROBERT. NURSE,
GEORGE DEYELL,
SIDNEY BAILEY.

MOUNT PELEE'S REACTION

Colossal Frauds in Connection With the Relief Fund

Paris, February 24.—Three years after its own disastrous eruption Mont Pelee has led to the outbreak of a scandal which has broken the career of one of the foremost and most trusted of the public servants of France. Soon after the calamity occurred, M. Maurice Bloch, chief accountant of the Ministry of the Colonies, was dispatched to distribute $100,000 to the sufferers, and his accounts were all duly passed by the Colonial Minister of the day, M. Decrais. But strange things now appear. M. Bloch allowed himself $40 a day expenses, $10 to one assistant, and $12 to another—treble and quadruple the allowances of generals or admirals. Not content with this excessive scale the allowances dated from leaving Paris, instead of from arrival in the colony, the voyage having been made on a warship, where everything was provided gratis. The upshot of it all is that his place knows M. Maurice Bloch no more.

BIG CATHOLIC CONGRESS

To Be Held at Strassburg in August of This Year

Rome, February 24.—It has been decided to hold an International Catholic Congress at Strassburg in August under the presidency of Dr Fritzen, the Bishop of the Diocese Pope Pius has addressed a brief to the organizers of the conference expressing his satisfaction that the Congress intends to devise means for faithfully putting into practice the exhortations of the Holy See regarding church music. He hopes that the Congress will produce abundant fruit and sends his apostolic blessing to all who take part.

On the international commission formed to draw up the program, England is represented by the Rev. Antony Dolpech, of Farnsborough, and the Rev. Father Moloney, of London; Ireland, by the Rev. Henry Hewerunge, of Maynooth and the Rev. Fr. Mocqueraau, of Appuldurcombe. Representatives of Italy, Switzerland, Austria-Hungary and Germany have also been selected.

A GORGEOUS SPECTACLE

The Consecration Ceremony in St. Peter's Cathedral To-day.

The Consecration of Rev. Father Scollard as Bishop of Sault Ste. Marie Will be Attended by Three Archbishops, Five Bishops and About Eighty Priests.

To-day, at nine o'clock, Peterborough, will witness one of the grandest and most impressive ceremonials that modern times know. The Roman Catholic Church is, and has always been, remarkable for the splendor of the ritual, the complicated but gorgeous vestments, the impressive music, and the unique character of all its ceremonies, but in the sacred consecration of a bishop, all these unite to form a scene that will ever live in the minds of those who are fortunate enough to witness it. The cathedral doors will be open shortly after eight in the morning to allow handling, and proper placing, of the thousands of those holding admission tickets. For days those of the clergy who will witness the translation of Rev. Father Scollard to the high office of Bishop, have been arriving from every province, and for the United States. There are now in town three Archbishops, five Bishops and about 80 priests, among the latter being many members of the different brotherhoods and societies.

Rev. Father Scollard is the guest of Bishop O'Connor. The form of consecration of a bishop of the holy Catholic church according to the Latin rite is a long one and will probably take all morning. After the ceremony, their lordships and the clergy will attend a dinner given by the local clergy. The oath to be taken by the bishop elect involves his promise of fidelity and obedience to the Pontiff, and that he will have no share in any plot against his life or limb. The Holy Father does not demand acts of civil vassalage or subjection from bishops residing beyond the Roman States; on the contrary they swear allegiance to their respective governments where they live. The candidate for consecration must fast the day before the ceremony, in the church. For the consecration there must be used the Pontifical vestments for the elect, also a cope, ewers and water, gifh of bread, comb and cloths for cleansing him from the oil, together with candles, wine and bread ornamented with gold and silver for his offering.

At the appointed hour the ceremony begins, the consecrator being in full pontificals, when the elect puts on the amict, alb, cincture, and stole, crossed upon his breast as a priest, and then takes the cope and the sandals.

The consecrator being vested, sits at the altar, and the elect, wearing his small cap, is led to him by the assistant bishops; after painting the consecrator they are seated, the senior assistant bishop on the right and the junior on the left of the elect. Then after questions asked and answered, and the examination is over the consecrator takes off his mitre and says mass; after that confession the elect makes some changes in his vestments, and is vested with tunic, dalmatic, chasuble, and sandals; after further portions of the service are performed in the anointment, further on the mitre is placed on the head of the elect and he is translated to the Bishopric. Among the priests attending are;

THEIR GRACES:

His Grace Archbishop Gautier, of Kingston.
His Grace Archbishop Duhamel, of Ottawa.
His Grace Archbishop Begin, of Quebec.

BRITISH SUBJECTS AND NOT ANARCHISTS

Leaders of Russian Revolutionary Bund Say Opposed to Terrorism

EDUCATION NOT DYNAMITE

Claim That Money Was Collected to Help Along the Cause of Enlightenment

Montreal, February 24.—Mr. E. Ellison, a local organizer of the Russian Revolutionary Bund, stated in course of an interview that the Jews who held a meeting at the Empire Hall on Sunday last, were not Anarchists, and, like the leaders of the Reform Societies in Russia, were opposed to terrorism, though they use have at leerved notice upon Bulgaria

The persons who took part in the meeting were all "Jews of Canada, and mostly three-quarters of them are British citizens with respectable Jewish opinion," said Mr. Ellison. "They know that they live under the British flag where there is free speech, and they know how to use it. They are of the same class that were driven away from their home by the Russian Government, and their conscience cries for revenge. They, therefore, have all rejoiced at the assassination of the Grand Duke Sergius."

Mr. Ellison claimed that the people at the meeting, mostly workingmen, were in sympathy with the speakers' appeal to help the movement to set Russia free, and many gave the last cent they had.

Mr. S De Zwirek, the Montreal representative of the Russian Revolutionary Bund, said that he did not think he had been fairly treated by those who expressed their opinions of the work of himself and his colleagues. He said thta some of them charged the Bund with collecting money, for the purpose of buying bombs and dynamite for the destruction of members of the Russian dynasty. Such an idea was never in their thought, he declared. What they desired to do was to educate the people so that their cause might be properly ventilated, and with the hope that education would help to ameliorate the condition of things.

"Why," he said, "if we wanted money for dynamite, we should not have to collect it in such sums as we are now doing. Five cents would construct a bomb that would blow up any carriage. With the money that we have we could blow up one hundred and eighty million people in Russia. What we want is thousands of times as much money as we have, but not for bombs. We want it to help to soften the suffering of our unhappy compatriots. That is what we need the money for. We cannot even send out our lecturers to educate the people without we have money.

"I do not mean to say that personally I am not glad that Grand Duke Sergius has been killed. He was the man that ordered every Jew to leave the city, in which he ruled as Governor-General, within twenty-four hours. They pleaded for a little time, so that what they owned could be turned into cash, but he was inexorable, and they were driven from the city, and even from the surrounding land where he reigned supreme. Decidedly, I am not sorry that such a man met his just end."

AN ARTIFICIAL SUMMER AT NIAGARA FALLS

One of the wonders of the world is the ice bridge at Niagara Falls, and a sight you will not soon forget. A visit to the falls will be a holiday well spent. For tickets and full information apply to any Grand

Gen. Kouropatkin's Retreat.

St. Petersburg, February 24.---Rumors are current in this city this morning that Gen. Kuropatkin has been outflanked by a strong force of the Japanese army in the vicinity of Sinmintin and compelled to retire from the Shakhe River; but official despatches, so far made public, and the Associated Press' Mukden advices give no intimation that such a contingency is even remotely possible. Military circles scout the report entirely and say no body of Japanese of sufficient strength has been observed operating on the right Russian flank to force Gen. Kuropatkin to abanbon his exceedingly strong position on the Shakhe [illegible]

BALKAN WAR GER AIN

Turks to Take Advantage of Russia's Adversity

WILL ATTACK BULGARIA

May Become a Great War—The Coming Storm Centre

London, February 24.—As soon as the snow melts in the Balkan Mountains there is certain to be war and destruction. The restraining hand of Russia, which has prevented hostilities between Bulgaria and Turkey, is no longer forceful, and the attempts which have been made by the Austrian and Russian Ambassadors at Constantinople to induce the Sultan to behave properly have accomplished nothing. The revolutionary element in Macedonia has obtained funds in some manner, and is said to be well supplied with arms and ammunition, while the Bulgarian Government has been preparing for war all winter, and is likely to provoke an invasion by the Turks, which has been prevented by Russian influence for the last three years. Being no longer in a position to intervene with arms, Russia will not have so much influence.

The people of Macedonia are Christians—principally members of the Orthodox Greek church, with a few Roman Catholics. The officials, the police and the military forces which are necessary to sustain the authority of the Sultan are all Moslems, and the taxes extorted from the poverty-stricken farmers and herdsmen are not expended for the benefit of the country, but are sent to Constantinople. The cruelty of the Turkish officials, and the Bashi-Bazouks who execute their orders, is beyond belief; the atrocities which have been committed in almost every village would shock the world if the truth were ever told. The Turks are merciless. One of the proverbs of that company says that wherever their shadow falls desolation will follow.

Nearly half the population of Macedonia has been exterminated or driven from that Province. The remainder have retaliated on the Turkish oppressors to the best of their ability, but they are comparatively feeble and impotent, and are unable to defend themselves. About three years ago the European powers, which are very jealour, for fear one may get a little more influence in the Balkan peninsula than another, exacted from the Sultan a promise of reform. But, as everybody knows, his promises are never fulfilled They have kept after him ever since, and from time to time have obtained nominal concessions, some of which have been partially carried out, but the most of them have been ignored. Finally, by the common consent of the nations of Europe, the Ambassadors of Austria and Russia at Constantinople were authorized to make the best arrangements possible for the relief and future protection of the persecuted Christians. The Sultan, as usual, has played fast and loose with them, with no more conscience than he has shown in other matters. For example, when they compelled him to recall the governors and other magistrates who were accused of cruelty and unlimited murder, he sent even worse men to take their places. When they exacted from him by persistent pressure a concession that the police should be placed under the control of foreign officers, it was suddenly discovered that the police force in Macedonia was a myth. It seemed to dissolve and vanish immediately after that agreement, and when the foreign officers who had been selected reached their posts of duty they could find no men to command and nothing to do.

During the last few months the Sultan has been sending additional troops into Macedonia and is placing them along the border of Bulgaria. It is no secret that, as soon as the snow is out of the mountains and the weather will permit, the Turks intend to renew the carnival of massacre and persecution that has been going on for years, and will punish resistance by extermination. The new governors of the Macedonian vilayets are notorious for their cruelty and determination, and the officers in command of the troops along the border are the ablest strategists in the Turkish army. It is believed to be the intention of the Sultan to invade Bulgaria at the slightest provocation, and that will not be lacking, because the Macedonian committee is ready to send revolutionary parties across as soon as the snow is gone and their hiding places in the mountains are accessible. It is understood that Servia has agreed to stand with Bulgaria if the latter is attacked, and the Albanians, who occupy the territory west of Macedonia, are already in revolt against their Turkish oppressors.

The situation is so acute that Austria, Russia, Germany and England have all served notice upon Bulgaria and Servia that they must not give any aid or comfort to the revolutionary bands in Macedonia, because if Turkey retaliates the entire Balkan peninsula will be instantly involved in war. This would not, however, be altogether unfortunate, because it would provoke the active intervention of the powers, and might result in placing all of European Turkey, or at least Albania and Macedonia, under the protection of Austria. This would be of inestimable advantage, particularly if Austria were to introduce the same policy that has been so successful in Bosnia, another of the lost provinces of Turkey, which was in a similar condition to Albania and Macedonia twenty-five years ago, but is now one of the most prosperous, peaceful

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Think what it would mean to your family if you were to be taken today!

You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. E J. Brooks, of Berlin, says: "My nerves were weak and I was irritable and cross.

"My heart palpitated like an engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength, endurance and energy to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 24 1905

LONGEVITY BY EASY AND PLEASANT MEANS

How to live long and enjoy life is a problem of perennial interest. Many of the alleged solutions are delusive because they ignore one or the other half of the problem. They either aim at longevity at the expense of joy or secure joy at the cost of longevity. Plenty of exercise is generally advised, but there are hardened sinners who will take any risk rather than submit to the accessible forms of exercise. A severe and ascetic regimen is another favorite suggestion, which to multitudes seems "a remedy worse than disease."

But Drs. Luke and Hollander, nerve specialists of London, have just advanced — or emphasized — a theory which should command an easy and phenomenal success. Do you wish to preserve youth and at the same time assure yourself the maximum of happiness and the minimum of privation and routine? If so, take an immense amount of mental exercise.

The authorities named say that the average agricultural laborer in England is threatened with softening of the brain or mental paralysis at the comparatively early age of 65 or 70, simply because he does not use his mind. Being little thinking, he gives the blood no chance to circulate through the brain, and mental decay results. On the other hand, judges and statesmen who constantly employ their intellectual faculties live to a great age and do not lose their keen interest in the activities of existence to the very end.

We naturally think of men like Humboldt, Gladstone, Spencer and of many aged scientists and public men still living and in harness, and find abundant confirmation of the theory in that the means prescribed are not only within the reach of all, not excepting the worst paid of agricultural laborers, but, in addition, are so agreeable and delightful that they may resorted to for their own sake.

Mental exercise in this day and generation need not involve the least drudgery to the adult. With excellent newspapers, full of discussions of intricate problems of political, economic, religious and social life, with periodicals galore, with cheap editions of immortal masters like Milton, Shakespeare, and scores of other poets, novelists, essayists, dramatists, and philosophers, and with free and traveling libraries, need any man forego the stimulation, exhilaration and pleasure of mental activity.

Experts who tell us not to worry are indulging in counsel of perfection, but when they tell us to read great books, think of lofty and noble things and exercise our mental faculties they point to the most unusual method of making our troubles appear small and ephemeral and reducing them to the minimum.

THE CZAR BOOMED

No matter with what horror the people of these great free nations view assassination, it is impossible to feel much sorrow for the fate of Grand Duke Sergius or sympathy with those whose policy he represented. He was everything that liberty-loving people abhor. He was at once uncle and brother-in-law of the the power and influence which he exercised, and which was ever used to restrict the liberties of the masses and to solidify the Russian bureaucracy. Von Plehve was one of his ideals. Six months ago Von Plehve was "removed" by the same forces that compassed his superior's fate yesterday. The Russian people may be crushed so that concerted uprising is rendered difficult, but the life of official tyrants is an uncertain thing when individuals willingly court death that they may avenge upon their persons a nation's wrongs. Sergius had been notified that if the the Moscow demonstrations were suppressed with bloodshed his life would answer. His wife was warned not to accompany him, showing that the self-constituted executioners did not wish her harm. If Sergius feared—and he probably did—he gave no sign beyond having his guards constantly near. But what guard can be effective against a nation's hate—a hate so strong that it scoffs at death?

Now Trepoff is probably uneasy, as he has been marked. The Czar, too, it is rumored, has been condemned. He is said to be in a condition almost bordering on nervous prostration, and the murder of his uncle brings very near to him a sense of the sorrow caused by the needless carnage caused at St. Petersburg and Moscow when his own troops were ordered to fire upon masses of loyal subjects whose sole offense was that they sought to lay a petition before him. Is a life like that the Czar leads to be desired?

INVESTORS.

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. WANTS TO PAY INDEMNITY

China Would Purchase Gold and Liquidate Debt

Pekin, Feb. 24.—China's indemnity question is not yet settled, the pettifogging schemes of some European powers being notable.

China agreed in October to pay in gold, but refused to pay the arbitrary rate of exchange and bankers' commission except in silver. By the protocol China pays monthly, but is credited every six months. She now claims interest at 4 per cent. on the monthly payments in advance.

China admits that the deficit on Jan. 1 varies from nine million to nine and a half million taels, according to different accountants. She proposes to pay 8,000,000 taels within 25 days, with interest as from Jan. 1, and to sign an agreement, this to cover all deficits.

An additional proposal is that China free herself of debt to the powers by any of the following methods:—

Payments in gold coin to each country, in gold bullion, by gold drafts, or by telegraphic transfer. China would buy gold in the open market from the lowest bidder, thus avoiding an arbitrary rate of exchange and the bankers' commission, having much money and being able to pay her debts in full.

The United States, Great Britain, and Japan agree to this, but some of the European powers still refuse.

HOW'S THIS?

WILL FIGHT WITHIN FORTNIGHT

Kuropatkin Getting Ready to Try Conclusions

St. Petersburg, Feb. 24.—Information from a high source states that Gen. Kuropatkin is preparing industriously to try final conclusions with Field Marshal Oyama, and that a decisive battle may be expected within a fortnight.

Foreign military attaches have been asked to leave Vladivostock, probably in anticipation that operations will begin there when spring opens.

Emperor Nicholas is said to be dissatisfied with the conduct of Gen. Grippenberg in Manchuria; and he has not only sustained Gen. Kuropatkin, but has ordered Gen. Grippenberg to return to his post. It is gossip in court circles that Gen. Grippenberg's face was far from cheerful when he left the Emperor's Cabinet.

JAPS IN INDIAN OCEAN.

London, Feb. 24.—The correspondent at Tokio of the Daily Telegraph states that Admiral Kamimura and his squadron are in the Indian Ocean, and the correspondent believes that important naval developments are imminent.

WERE FORCED BACK.

Tunkhetchen, Feb. 21, via Mukden, Feb. 23.—Extensive movements by the Japanese opposite the Russian left flank caused the sending out of two scouting divisions on Feb. 18, the first occupying positions on both banks of the Kitse River at Suidoun, and the second occupying a pass 11 miles south-east of the Tunkhetchen. On Feb. 19 the Japanese attacked both divisions during a snowstorm and forced back the Russians beyond the Kitse from Suidoun. Skirmishing continues to-day with varying fortunes. The division at the pass maintained its ground against the fire of four old-style guns, using common black powder. The Russian losses are less than a score wounded.

USED HEAVY GUNS.

Tokio, Feb. 24.—Field Marshal Oyama, reporting to-day, says that a small infantry attack was made on Fang Mountain on Feb. 20. The Russians shelled Laputai on the night of Feb. 20, using heavy guns.

ORANGEMEN TO ACT

Strong Feeling Aroused Over the Separate School Question

There is a strong feeling being aroused from one end of Canada to the other over the proposal to fasten Separate schools on the people of the new provinces in the west. In Peterborough the feeling exists as strongly as it does elsewhere. The following petition addressed to the House of Commons, has been received and is being largely signed;

"We, the undersigned electors in the constituency, do pray that in granting provincial autonomy to the North-West Territories the Dominion Parliament will not by any enactment or otherwise, withhold from the newly-created Provinces full and unrestricted freedom of action; 1, in all matters affecting the establishment, maintenance, and administration of schools; 2, the official language to be used in the debates of the legislative assemblies therein, and in proceedings before the Provincial courts, and in recording and publishing the same; 3, in all other matters and subjects generally understood to be of purely local concern. This petition is addressed to the House of Commons of Canada, in Parliament assembled."

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SANTA MEDI

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke Fountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

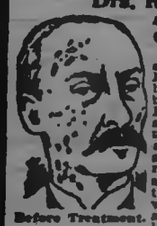
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.



Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 3 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 24,000 shares to any person, that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

SWEPT OVER BOSTON DOCKS

Disastrous Fire at Boston Tunnel Piers—Big Steamer Damaged

Boston, Feb. 23.—A large double pier No. 3 and No. 4, of the Boston Tunnel Docks in Charlestown, together with considerable valuable freight, was completely destroyed by fire early to-day, and the steamer Philadelphia, from which the crew fled so hastily that three were injured, was hauled into the stream with her upper works ablaze.

The loss to the Boston & Maine Railroad Company, the owners of the docks, is estimated at fully $400,000, while the damage to the Philadelphian will, it is thought, bring the total loss up to about a million dollars.

The adjoining pier, No. 5, which was burned last November, and which was being rebuilt, was slightly damaged. The steamer Dalton Hall, on the opposite side of the pier from the Philadelphian, backed out under her own steam, practically uninjured.

SOME NARROW ESCAPES.

Chief Stewart Fellows, of the Philadelphian, jumped overboard, and was rescued in an exhausted condition, while one of the firemen of the steamer jumped to the dock of a nearby lighter, and had a leg broken. Capt. Dickinson and his wife were taken off by the firehoat, after they had been driven to the stern of the burning steamer, and were about to jump into the harbor.

The fire started, presumably from spontaneous combustion, in some hay on Pier 4, at three o'clock in the morning, and within five minutes fully a quarter of an acre of covered pier, well filled with the most inflammable goods, was wrapped in flames. Blazing brands were carried across the harbor to the city proper, but fortunately away from a large grain elevator at the head of Pier No. 4.

The Philadelphian, which arrived last Saturday, and had discharged about a quarter of her cargo, caught fire within a few minutes. Her crew, who rushed on deck at the first alarm, were driven over the side by the great volume of flames which poured across the decks. But few harbor tugs were in the neighborhood, and it was nearly an hour before she was hauled from her perilous position.

More than half the fire department of the city was called into service, and fought the fire until dawn before it was subdued.

MAY SAVE ENTOMBED MINERS

One Hundred Men Caught in Mine Explosion May Still be Living

Birmingham, Feb. 23.—E. T. Schuler, one of the owners of the Virginia mines, where more than one hundred miners were imprisoned yesterday afternoon by an explosion, was advised this morning that the rescuers were close to the entombed men, and that one body had been found and removed.

Schuler thinks there is a good chance for a number of the miners to be found alive, as he says the air shaft into the mine is working. The rescue parties worked all night and were augmented by miners from various mines in the district.

ALL PROBABLY DEAD.

Birmingham, Ala., Feb. 23. — Only one body has so far been taken from the Virginia mines. It is now said that the exact number of men entombed by the explosion is 116. Practically all hope of finding any of the imprisoned men alive has been abandoned. The rescuers during the night encountered much after-damp, and many of them had to be taken to the surface and revived, having been overcome by the fumes. This leads the rescuers to believe that the entombed men could not have survived.

STUDENTS STOP WORK

Significant Demonstrations at the University of St. Petersburg Demands Domestic Reforms

St. Petersburg, Feb. 23.—The spirit of revolution has complete possession of a great meeting of professors, students and directors of the St. Petersburg University yesterday to discuss the question of joining in the general strike inaugurated by similar institutions in Russia and decided to close the university till fall. The speeches were of the most incendiary character, and resolutions were adopted demanding: 1. A constituent assembly on the basis of universal suffrage, and under conditions of liberty of speech of the press and of association and the freedom of its voters to strike; 2. Full amnesty for religious and political offenders; 3. Autonomy for each part of the country not of Russian nationality.

WORLD-FAMOUS INSTITUTION.

A Center From Which Has Radiated Unmeasured Good Throughout The Wide World.

THE ELECTRIC CENTER.

Conducted on the most Modern and Scientific Principles. One of the Points of Interest on the Niagara Frontier.

In this age of wonderful discoveries and equally wonderful applications of those discoveries, the eyes of the world are directed to the Niagara Frontier. Here is the great center of operations in electrical science. Here the first attempt was made to apply to man's use the knowledge of one of nature's properties and powers, a knowledge that was wrested from nature by the brilliant minds and the studious thought of the world's leading scientists. The development of electric power at Niagara Falls is now something of an old story, and yet it is a story which is seemingly to have no end.

It is now perhaps fifteen years since operations were first begun by a corporation to develop on a large scale electric power for commercial use at Niagara Falls. The initial effort was to produce 50,000 horse-power. By the time that was successfully done it was found necessary to double the capacity of the first plant. This plant is located on the American side of the falls. On the Canadian side there are now underway the erection of three separate plants which will develop something like 350,000 horse-power. This product is being used and will be used in various ways. Great industries have been established at the falls as the result of this wonderful power, industries—some of them—that were unknown to man before it was possible to obtain electric power in practically unlimited quantities and at reasonable prices. Furthermore, this power is now transmitted successfully long distances, and the City of Buffalo uses it in many ways. It runs its street cars, it lights its streets, it runs thousands of its manufacturing plants. The day is coming when it will do more. Tesla, who made possible the transmission of electric power under high voltage for long distances, has made still further discoveries in this line, and he now promises that ere long he will be able to send practically unlimited power from Niagara to almost any part of the world for whatever use is desired. He is now talking about a $2,000,000 plant at Niagara for this purpose.

All these things have made the Niagara Frontier the cynosure of the world's eyes, and Buffalo as the commercial center of that Frontier is receiving the attention due to it. Buffalo, however, is known to the world for other reasons. It is the second city in size in the Empire State. It is among the leading commercial cities of the world. It is the eighth in point of population in the United States. It is here that the most modern steel making plant in the world has been built. It is known far and wide as the city which held the most beautiful exposition that was ever conceived by man. It is known throughout this country, and in foreign lands as well, as the city in which is located an institution that is a household word throughout the land and as the point of manufacture of household remedies that have brought health and strength to thousands upon thousands of sufferers.

This institution is the Invalids' Hotel and these remedies are collectively known as the Pierce medicines, and specifically known as the "Favorite Prescription" and the "Golden Medical Discovery." Dr. Ray V. Pierce is the founder of this institution and the [illegible] in the management of the mammoth business, which has been born of the confidence of human kind in the truth of what he has claimed for the remedies and their proved efficacy, in his son, Dr. V. Mott Pierce. The business, which is now conducted by the World's Dispensary Medical Association, is proof that the sick and suffering who have called here for aid have not called in vain. A business of this kind does not flourish for forty years unless there are truth and honor and results back of it.

Many attacks have been made upon the Dr. Pierce remedies, but for thirty-eight years they have retained the confidence of the people, and they will do so for many times thirty-eight years to come. Even the latest attack, made by a prominent women's journal, has not destroyed that confidence. A prompt suit for $200,000 damages because of the statement that Dr. Pierce's remedies contained alcohol, was followed by an equally prompt retraction of the charge. The editor found, on having proper analyses made, that these remedies were free from alcohol, free from opiates, free from all injurious ingredients, just as it advertised.

As an outgrowth of the business of manufacturing and marketing the Pierce remedies, there has grown up an institution in Buffalo known as the Invalids' Hotel. Here thousands of persons, men and women, have come for successful treatment for special diseases. This is the home of the large staff of physicians and surgeons which Dr. Pierce has gathered about him. Everyone of these men is a graduate from some medical college of standing and reputation. Everyone of them is a specialist. Everyone of them is preeminently successful in his own line. Here the fortunate patient receives the best treatment known to modern medical science. Thousands have come here for treatment and thousands have gone away cured. And these have sung the praises of the Invalids' Hotel throughout the length and breadth of the land.

As a matter of fact, the Invalids' Hotel is a modern hospital without the distressing appearance of one. It is a comfortable home where the ailing one is carefully and scientifically treated. It has its operating rooms, and at the head of this department stands Dr. Lee H. Smith, who ranks as one of the leading surgeons of the country. It has a unique treatment-room constantly charged with ozone and equipped with many curious appliances, by means of which patients not able to exercise secure the benefit of such exercise without effort on their part. It has many curious contrivances for massaging different parts of the body and for stimulating and strengthening various organs. It has electrical machines for treatment by that wonderful curative agent of nature. It has an X-ray-room wherein is one of the finest X-ray apparatus manufactured, where examinations of patients are made and where they are treated by the X-rays and by high frequent currents. Results have been obtained in this room which have astonished experts elsewhere. It has its own dispensing-room, with its staff of graduated and licensed pharmacists. Here all prescriptions given by the various doctors, either for patients in the hospital or at their homes, are filled.

There is nothing left to chance in the Invalids' Hotel. It is, in brief, a modern hospital, conducted by experts upon the most scientific principles. And it is this fact which makes it one of the noteworthy institutions of Buffalo and the Niagara Frontier.

It would be unfair to the Dr. Pierce establishment to leave the subject without brief reference to the immense laboratory in which the world-famous medicines are manufactured. Roots, herbs and barks of known powers and specific properties are used in these medicines. They are gathered in the woods and fields, especially for Doctor Pierce, and they are bought in large quantities. At the laboratory they are ground and mixed by skilled men and prepared with the utmost care and under the most cleanly conditions. They are always the same and always just what they purport to be; nothing else. Thousands of bottles are filled daily and shipped to almost every known point, whence from drug stores they find their way alike into the [illegible]

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non-assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with 4 feet of ore averaging $21 a ton still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton. Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a **big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

mply Inhale Catarrhozone; it Cures Because it Goes where the Disease Actually Is.

These diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone. Nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sale by far exceeds that of any other two remedies on the market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. S. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone.' I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me untold good and completely eradicated this awful disease from my system.'

Complete outfit, guaranteed to cure costs $1, sample size 25c. At all druggists or N. C. Polson & Co. Kingston, Ont., or Hartford, Conn. U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

A Treat for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

Will the Boys Win the Boots?

A sample pair of hockey boots, which will be presented to the winners of the O.H.A. Intermediate championship, is on exhibition in the window of J. T. Stenson, George street. The boots are exceptional well made on up-to-date lines. Let us hope that the members of Peterborough's invincible team may find perfect fits for the prize.

A Successful Operation

Yesterday afternoon the interesting and, in older times, dangerous operation for appendicits was performed at the Nicholl's Hospital by Doctor Carmichael, assisted by doctors Brad and Young. The patient was the little grandson of Mr. William Eyres of Antrim street. The operation was eminently successful, and the patient, although not quite over the sickness incidental to the anaesthetic, is progressing favorably.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

North Monaghan Surprise Party

On Wednesday night about twenty people drove out to North Monaghan to call on, as a surprise party, Mr. and Mrs. John Cox. A very pleasant evening was spent, with games of various kinds interspersed with music. Mr. and Mrs. Cox doing all in their power to entertain their welcome visitors. The party returned to town at a late hour, and reported having had a most enjoyable evening, notwithstanding the state of the roads; in fact some of the young ladies are said to have remarked that bad roads give great opportunities for discussing philosophical and other subjects.

Farm Work Made Easy

The farmers of Canada are indebted to the Family Herald and Weekly Star of Montreal for one of the best agricultural papers ever issued. The issue of February 22 of that great paper is largely devoted to the important question of labor saving method son the farm. It is wonderfully instructive, better than all the agricultural meetings and exhibits of farm machinery ever held in this country. The Family Herald and Weekly Star should be received by every farmer in Canada. Our readers should write at once for a copy of February 22 issue, it alone is worth all they charge for a full year's subscription (one dollar).

Funeral of Walter Sager

It is generally expected that a long cortege of the public will join this afternoon, with the personal friends of the Sager family, at the funeral of the late Walter Sager. Seldom has the death of one so young, occurring no particular place in the knowledge of the public from politics or office, excited such deep and general sympathy, as has the sad death of this little boy. The family may if this poor consolation can in any degree help to alleviate their distress, rest assured that the hearts of the people bleed for them in their late troubles. The children of the class to which Walter Sager belonged in school, subscribed their little pocket-monies, and assisted by the teacher, purchased a beautiful floral design, which was sent to the family. The funeral taken place at 2.30.

A CHAPTER OF ACCIDENTS

Doctor T. H. Young, of 343 Water Street, Has Several Accidents Requiring His Attention.

On Monday last, a young man named Percy Johnston, while working up his biceps, in the Y.M.C.A. Gymnasium fell from one of the many appliances that make this excellent home of training so complete, and broke his arm at the elbow. Dr. Young was immediately summoned and set the fractured bone. Mr. Johnston was taken to his home at 69 Chambers street, where he is now doing nicely.

On Saturday night last a youth 17 years old, by name Doris, while playing hockey, entered into a scrimmage, with two other players, and falling, had the misfortune to be the victim of a rather painful accident, as the skate of one of the otherplayers came forcibly on, and cut his foot. Dr. Young dressed the wound, which is now healing.

Andrew Goodfellow, a car tender employed at the Canadian General Electric Company's Works, had the misfortune, yesterday, to have the top of his thumb lacerated. Dr. Young the medical attendant of the works was called, and found it necessary to amputate the wounded portion of the thumb, to the first joint.

SALESMEN ARE EXONERATAD

Story Circulated Against Them Was False Says Investigating Committee

Again Dame Rumor is astray, as may be seen by the subscribed letter which explains itself:

"We, the undersigned, do hereby state that we have looked over the bank book of the Young's Point cheese factory for 1903, comparing it with all deposits made in the Toronto Bank in that year, and have found, to the best of our knowledge, everything correct, and have seen that A. Wilson, maker, and 'W. Young,' salesmen, are exonerated from all blame regarding the story which has been circulated against them."

Wm. Bullock, patron.
Wm. Lane, patron.

FAILING EYESIGHT

Caused by Improper Food

Writers who live sedentary lives and who use coffee are apt to be troubled by faulty vision, which they usually attribute to overwork. That they are sometimes mistaken is proved by the following statement from an old newspaper man:

"For nearly 40 years I have earned my living with the pen. A few years ago I began to suffer from occasional 'blind spells.' My vision frequently became obscured by what may be called kaleidoscopic blurs, in which constantly changing figures like wheels, stars, etc., floated before my eyes, making it impossible for me to work while it lasted. They were usually followed by dull, heavy headaches.

"My physicians, two of them, advised me that my eyes had become weakened by overwork. I consulted an oculist, but he could not discover the cause of the trouble. I bought stronger glasses but they did not help me.

"Last summer, while living temporarily in a boarding house, I found the very weak coffee a thing to complain of, till suddenly I discovered that my 'blind spells' were becoming less frequent. I then satisfied myself by experiments that it was coffee that was deranging my optic nerves.

"A friend advised me to try Postum coffee, and although I had no faith in it, I began to use it. In three days' time the 'blind spells' completely ceased. Going back to the old coffee the 'blind spells' returned. I am entirely satisfied that coffee was the cause of the ailment, and that Postum was its cure." Name given by Postum Co. Battle Creek, Mich.

There's a reason. Coffee is a narcotic that breaks down the cells in the nerve centres and unless nature succeeds in repairing the damage each day, disease and distress follows in some one or more organs. It may be eyes in one, stomach and bowels in another, heart or kidneys in another and yet each effected from the same cause, coffee. The sure way to certainly know is to quit coffee 10 days and use Postum. If the distress begins to disappear you have the key to your puzzle.

Look in each pkg. for the famous little book, "The Road to Wellville."

Jolly Jack Tar.

"Jolly" is the word generally associated with the jack tar. He is the picture of health, and the health bubbles over in mirth and merriment. When people are sick, especially when sickness attacks the lungs the doctor often advises a sea voyage. But in the large majority of cases the sea voyage is impossible.

It is to the men and women of the workaday world to whom sea voyages or change of climate are impossible, that Dr. Pierce's Golden Medical Discovery comes as the greatest earthly boon. The effect of this medicine upon those whose lungs are "weak" is remarkable. Even where there is bronchitis, spitting of blood, emaciation, weakness, conditions which if unchecked or unskillfully treated lead to consumption, "Golden Medical Discovery" in ninety-eight cases out of a hundred works a perfect and permanent cure. It strengthens the stomach and other organs of digestion and nutrition, so that the body in all its parts is not merely fed but nourished. And it is by nourishment that Nature builds up the body to resist or throw off disease.

"I had a terrible cough something over a year ago and could find nothing to stop it, or even to do me a quantity of good," writes Mr. M. Perry Esq., of Cameron, Screven Co., Ga. "I chanced to see an advertisement of yours, and forthwith bought a bottle of your invaluable 'Golden Medical Discovery.' Before I had taken half a bottle I was entirely well."

Dr. Pierce's Pellets cure constipation.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W.Dumble

Acting Magistrate Harry Rush had an assortment of cases before him, at yesterday's court, ranging from D. and D. to Hogbite.

William Smith who boosts Port Hope by calling that pretty little town, "Home," was charged with being drunk and disorderly. He pleaded first offence, so was given a gentle hint that Port Hope yearned for his presence, whilst Peterborough could still do business in the same old spot without him, and was wafted out.

Patrick Murphy, was assessed the sum of $5. He pleaded guilty to being drunk and disorderly. Pat knows he value of time as he said he did not want to hear the evidence. He has five days in which to raise the assessment.

A lady living at the corner of Sherbrooke and Rubidge streets, is no longer the owner of a dog. Her last canine pet had the bad judgment to bite a gentleman who does not like that brand of dog, and so a summons was issued. Having the choice between paying a $5 fine or doing without a dog, Fido has gone to his long home. Officer Adams officiating at the ceremony.

SOCIAL AND PERSONAL

—Mrs. Wm. Irwin is in Toronto, and will not receive to-day.

—Mr. Pat. Young, of Young's Point is in town for a few days.

—Miss Clara Hatley, of Orillia, is visiting her sister, Mrs. (Rev.) E. A. Langfeldt.

—Mrs. D. H. McMurty of Ottawa, is visiting her sister, Mrs. J. A. Turner, McDonnel street.

—Mr. Percy Mitchell, of Belleville, is a guest of his aunt, Mrs. J. H. Sherwood, 675 Stewart street.

—Hon. John Costigan will be in town to-day to attend the consecration services at St. Peter's cathedral.

—Miss Gertrude Pollard has returned home, having spent a very pleasant vacation with friends in Lindsay and Omemee.

—H. J. Canning, and H. H. Clement, of Toronto; J. J. Foley, of Fallowfield; J. T. Aylmer, of London; and J. P. Pearce, of Orillia, are guests at the Oriental.

—Rev. Father P. J. Kelly, son of Mr. Thos. Kelly, of town, Curate of the parish of Trout Creek, in the Parry Sound District, is in town to attend the consecration.

—Rev. Father Joseph O'Sullivan, nephew of the late Doctor O'Sullivan, is in town. The rev. gentleman is an ex-pupil of our high school.

—The many friends of our esteemed Police Magistrate, Mr. D. W. Dumble, will be pleased to learn that he has sufficiently recovered as to have been out for a drive.

MISS GREEN MARRIED

A Lady Well Known in Peterborough, Married in St. John, N.B.

The many friends of Mr. P. H. Greene, who a few years ago, had a photograph studio on Hunter St., will doubtless send congratulations to Mrs. C. H. Merritt, nee Annie Maud Green, his daughter. Append is a clipping from the Daily Telegraph of St. John, N.B., of the 17th inst.:

"Miss Annie Maud Green, eldest daughter of P. H. Green, the Charlotte street photographer, was united in marriage last Wednesday afternoon to Charles Holden Merritt of the office staff of T. McAvity & Sons. The ceremony took place at five o'clock at the residence of the bride's father, 66 Elliot Row, Rev. Christopher Burnett, pastor of Leinster Baptist church, officiating, in the presence of a few relatives. The bride was tastefully gowned in pale grey coleinne silk. She was given away by her father, and the couple were unattended. A large number of handsome gifts were received from friends and relatives in the city, Rothesay, and in Peterborough and Berlin, Ont. From the office staff and clerks in T. McAvity & Sons, a handsome carved solid oak chair was received. The groom's gift was a beautiful fur-lined coat and stone marten stole. Mr. and Mrs. Merritt have many friends in the city, and elsewhere, who will wish them every happiness."

SANTAL-MIDY

These tiny Canadian arrest in 48 hours inflamed bowels, bladder, kidneys and lungs.

Local Incidents

—Two rooms, with or without board, suitable for persons going to business. Very central. Apply at this office for address.

—Why be without a fountain pen when you can get the "New Rival," guaranteed, for only $1.? Be sure and see it. Times Bookstore.

—There was again a bumper attendance at the opera house last night to see the Bijou Comedy Company, play "My Jack." The play, a typical western drama was well put on.

—For bargains in fancy goods, stationery and toys come to Times Bookstore. See our north window with display of articles going at ten cents, some worth twice the money.

—Mr. J. J. Cottingham, the George street barber shows enterprise. He has had, placed in his shop, a compress and air plant, for the purpose of shampooing and massage treatment.

—The choir of St. Luke's church had their annual sleigh drive last night. Russas met them at the post office, and the Ashburnham town hall it was a great success owing to the mild weather.

—It is suggested that a branch of the Woman's Art Association of Canada be formed in Peterborough, and a meeting of all those interested in it will be held this afternoon at 3 o'clock in the Y.W.C.A. Hall.

—The Chief of Police has on hand, and wants owners for a book found, "The Revised Statutes of Ontario, vol. III. of 1897," and a large door key, to save his corkscrew, when trying to get in late at night, the owner had better get the key.

—Lindsay Post: Peterborough is to have another new industry—a necktie factory. It is to be hoped that the effort to build up and develop the business of the concern will not result in "necktie" parties, so popular in the Southern States, becoming a fad in our sister town.

—George Powell, the well-known horseman, of Orillia, recently sold the noted geser, Sphinx B., 2.15 1-4, the price reported being $500. Sphinx B. is a roan gelding, well over 16 hands, and has this season raced better than ever before over the winter tracks. As he is a young horse, there is still a good chance that he may better his present record.

—At the police court this morning four spectators of Friday night's hockey match between the Ingram & Davey and Pastimes teams at the Granite rink, were charged with causing a disturbance by swearing. Barrister Andrew Grant appeared for the accused and entered a plea of guilty. The magistrate imposed a fine of $1 without costs.—St. Thomas Journal.

BUSINESS CHANGES

Mr. J. W. Green Disposes of His Photograph Studio

Peterborough is seeing many changes in the personelle of different lines of business, grocers, milliners, tailors and others and now comes photography. Mr. J. W. Green, who, for years, has operated a photograph gallery on Hunter street has decided to take a well earned rest, and has sold out to Mr. J. L. Richmond of Brantford, and formerly of Campbellford. Mr. Richmond has taken charge of the business and will be found there, giving it his personal attention. Mr. Green has retired from the business to devote his time to the business of the Star of the East Gold Mining Company. His successor is a man who stands high in his profession having devoted more than 20 years to the study and practice of the photographic art. He has worked in some of the largest cities, and states that he will take a back seat from no one.

POLAND IN FULL REVOLT CZAR'S TROUBLES INCREASE

Strength of Latest Uprising Lies in Improved Mental Condition of the Masses

Finland Also in State Bordering on Anarchy

Days of Oppression of Jewish People Appear to be Nearing End

A Great Financial Crash is Threatened in Europe of Revolutionists upon St. Petersburg Government.

St. Petersburg, February 24.—The situation in Russia is full of danger to the peace of Europe. Corrupt, military despotism has at last driven the working people into revolt. As long as nihilism was in the hands of the educated classes it gave no serious trouble to the authorities, for it gained no hold of the working people. The new organization, which began in the strikes of 1896-1897, and has now culminated in the general uprising of the workers in the great cities, besides a socialistic movement, and before many days are past its importance will be shown by a movement in Poland.

The Russian officials in the Polish provinces are incompetent and corrupt. The Poles are excluded from all official posts. "The Russian officials are half-educated, stupid, ill-mannered, callous, lazy and discourteous." These are the words of Prince Imeretinsky, who confidentially reported to his imperial master on the condition of the Russian provinces of Poland. The Poles are a half-conquered people. They are the most strenuous enemies of the Russian officials in particular. A revolutionary movement has been brewing in Poland for the last eight years and the passion of Polish nationality is even more intense than that of Finland.

The Poles are clever revolutionists. Thousands of exciting pamphlets have been circulated through the masses of the working people. The factory workers have little else to read than revolutionary literature, for the government starves their minds in obedience to Pobiedonostoff's passion of keeping the people ignorant and seething them in superstition.

After a hundred years of Russian domination the hatred of Poland is greater than ever. Although there has been no insurrection for forty years, the Poles are still striving for their independence, and a Polish insurrection today would be more unanimously supported by the Polish people in 1863. The people, moreover, are better educated, for the insurrection of 1863 collapsed largely through the ignorance of the people. The state of anti-Russian feeling in Poland is more menacing than in Finland.

The alien question, which threatened to become the battle ground of English politics in the next session of parliament, is closely affected by the outbreak of revolution in Russia. The Jewish inhabitants of the sixteen provinces of the Pale are the most intelligent and intellectual of the many races under the sway of the Romanoff.

JEWISH EMANCIPATION

Believed the End of Jewish Persecution at Hand

London, February 24.—The Russian system of stunting the mind of the Jewish children has had the natural effect of turning Jewish intellect into undesirable channels. Hence the majority of the leaders of revolutionary movements are of Hebrew origin. My authorities for making this statement are M. Gorymekine, who was minister of the interior ten years ago, and M. Plehve, who made the same statement to me shortly before his death. No revolution and no constitutional change can take place in Russia without opening the gates of the reservoir of Jewish mind and character now pent up.

The effect of the emancipation of the Jews in Russia will be an event of stupendous importance to the world. At present a small percentage only of the Jews are allowed to receive education. When culture is accessible to all of them the acuteness and brain power which has enabled the Jewish people to acquire the control of the finances, the press, and the telegraph news system of Europe, of the theatres of America, and of the gold supply in South Africa will quickly make them predominant within the Russian Empire. Scarcely a decade will pass before the stupid, intemperate and corrupt Slavonic officials are replaced by alert, intellectual and efficient administrators of the Jewish race. Whether this is an advantage or the reverse is a matter of opinion.

THE RUSSIAN GRAND DUKE

Where the Enormous Wealth of Russia Goes at Present

London, February 24.—The Post St. Petersburg's special says: The three miles of palaces on the south bank of the Neva are inhabited mostly by grand dukes and their parasites. This is where the wealth of Russia has been absorbed. The disappearance of the grand dukes, the sequestration of their revenues, and the transfer of power to competent and honest people are things seems

A STARTLING FEATURE OF THE SEPARATE SCHOOL CLAUSE

Sir Wilfrid's bill as presented to the House appears to mean that not only must all the money that the new provinces devote to education be divided pro rate between public schools and separate schools, but all the money that these provinces may at any time hereafter apportion for high school or university education, or any kind of education, must be also divided in the same way. This is more drastic than anything yet known in the older provinces. Not only this, but there is something even worse:

Sir Wilfrid Laurier declared that settlers have gone into the new provinces because they expected they would have separate schools. Is it not also fair to infer that the thousands of settlers who went in from the States and other places expected that the law as set out in the Dominion lands act would be respected and maintained in their integrity as set out in the act?

The Toronto World says that the best constitutional authorities say that by no process of constitutional distortion can the words "public school" herein used be made to cover separate schools. And yet this is what Sir Wilfrid Laurier proposes.

LOOKS LIKE A MURDER.

Brantford, Feb. 25.—The dead body of Mrs. Doyle, a widow 84 years of age, who resided with her son, Feliz Doyle, on a farm three miles from Burford village in Brant county, was found in a woodshed this morning. A deep gash in the head, penetrating the skull, was the cause of death. As to how this was inflicted there is no evidence. The woman was not wealthy.

Dr. Johnston, the coroner, has decided to open an inquest to-morrow. The son is still at the homestead and is in no way suspected of the death, which may have been accidental.

THE ONTARIO LEGISLATURE TO ASSEMBLE ON MARCH 22

Toronto, Feb. 25.—The Legislative Assembly of the Province of Ontario is called to assemble on Wednesday, March 22nd.

Premier Whitney made the announcement last night at the Queen's. He had nothing to add in the way of a statement.

In the afternoon a Cabinet meeting had been called, but owing to the absence of Hon. W. J. Hanna, Hon. J. S. Hendrie, Hon. Dr. Willoughby and Hon. Dr. Pyne, it was stated that the settlement on the date of calling the House together would be deferred until this afternoon when a full Cabinet meeting will be held.

CONSECRATION CEREMONY.

Thousands of People From All Parts of Canada Witness the Proceedings.

Yesterday was a red letter day among members of the Roman Catholic faith in two dioceses. The Rev Father D. J. Scollard, owing to his personal popularity, in addition to the grand Toute ensemble of one of the most gorgeous sights that the people of Canada will ever see was the cynosure of thousands of deeply impressed people of both Catholic and Protestant faiths. Yesterday was doubly a day of interest to local people, both from the rare ceremony of consecration, and, from the fact, that this is the first Bishop to be consecrated in the comparatively new diocese of Peterborough. His Lordship, Bishop Scollard, is too well known here to necessitate a detailed history of his life and labors; from a priest of the little back country parish of Hamilmore, he has had confirmed on him the gift of one of the greatest honors the Holy Pontiff has to bestow. Yesterday's ceremony, to those who fully understand it, was a grand display of symbolism, pregnant with the deepest significance; to those who only could look at it through the spectacles of admiration for a gorgeous display, it could not but fix on their minds a confusing, yet sequential procession of wonderfully brilliant events and dignitaries of high ecclesiastical position.

The church was packed to the doors with the leading citizens of many communities, but everything had been so admirably arranged there was no unpleasant crowding.

The officiating clergy were as follows:—

Consecrator—His Grace Archbishop Gauthier, Kingston.

First Assistant—His Lordship Bishop O'Connor, of Peterborough.

Second Assistant—His Lordship Bishop Lorraine, of Pembroke.

Chaplains to Assistants—Rev. Father McColl and Vicar-General Browne, of Peterborough; Rev. Fathers Latulip and Ryan of Pembroke.

Consecrandus—Rev. Father D. J. Scollard.

Chaplains—Rev. Father Primeau, S. J. Sudbury; Rev. Father Lussier, Montreal.

First Master of Ceremonies—Rev. Dr. O'Brien, Peterborough.

Second Master of Ceremonies—Rev. John O'Brien, Peterborough.

Cheaters — Rev. Father Phelan, Young's Point; Rev. Father Cotey, Blezzard Valley.

Deacon of Mass—Rev. Father Larmarche, Toronto.

Sub Deacon—Rev. Father Damens, Montreal.

Processional Cross Bearer—Rev. Father Scanlon, Grafton.

Archbishop's Cross Bearer—Rev. Father F. J. O'Sullivan, Lindsay.

MR. TETLEY'S PURCHASE

Important Real Estate Transfer on the Corner of George and Sherbrooke St.

Mr. W. R. Tetley, capitalist, has purchased that valuable property, situated at the corner of George and Sherbrooke streets, from Miss Minnie H. Poole, of 255 George street. The property consists of 114 feet on Sherbrooke street, with a frontage of 40 feet on George street, and owing to its location, not only on George street but in the direct way to both C.P.R. and G.T.R. stations, is a very valuable one. Mr. Tetley's ultimate intention is to rebuild on the premises, but in the meantime, the present building will be occupied by Mr. Tetley as a first-class butcher shop under the sign designation of T. Guerin and Co., Mr. Tetley's partner, Mr. T. Guerin, is well and favorably known among all classes of the community, as for many years Tommie was the popular assistant of Mr. Harry Winch, whose shop used to be in the old market building. They will keep a butcher's shop, first-class in every particular.

MR. JAS. REGAN HERE

Visit of an Old Times Company Employee. Now a Successful Merchant in Atlin, B. C.

Mr. James Regan, an old Peterborough boy, well known and respected by his Peterborough contemporaries, left town a few days ago after having renewed acquaintance with his old friends during a short visit here. He is now visiting in Toronto, where he was rejoined yesterday by his mother, Mrs. Regan of Peterborough. Jimmy, in company with his mother and wife are at present the guests of Mr. William Duncan of Toronto Junction. The party will shortly leave Toronto for Detroit, where they will spend some time, until Mr. Regan leaves for his home in Atlin, B.C., in which growing town, Mr. Regan is a prominent factor in the mercantile community. Jimmy began his career as a lad in the office of the Peterborough Canoe Company where he gained the experience and training which culminated in his present successful position.

THE NORTHWEST IS AFLAME WITH ANGER

The Whole Country in a Furious State of Excitement.

Calgary, N.W.T., February 24.—The liveliest excitement is developing here in regard to the autonomy bill, and particularly with that portion of which proposes to fasten separate schools on the new provinces. It is proposed to form a coalition government to fight the bill, and allay the rapidly growing discontent. The press calls on the people to "speak with no uncertain sound" in opposition to the bill.

Regina, February 24.—Dr. Wm. Gowan wired the following to the press of the East: "The idea of two provinces is, I think, generally accepted as the best solution of the problem, but that is about the only provision of the bill which will be accepted. We want our lands; we emphatically do not want money in lieu of lands. That is what our association said positively and unanimously at their annual meeting, because it is practically impossible for the Territories to correct errors of administration by a government at Ottawa in which we have only a partial voice. "We want Territorial lands controlled by Territorial people, so that we can immediately remedy maladministration. This right or power has no money equivalent. The school settlement is an insult to Western people. Sir Wilfrid has gratuitously advertised us as narrow, bigotted, and intolerant; that we cannot be trusted to do justice to the minority, hence he must and does compel us to be tolerant. Compulsion of that kind is irritating and if I mistake not, will raise the ire of the West.

"When Sir Wilfrid withholds the provincial right to legislate as we please on provincial subjects he is not granting us provincial autonomy, which is what we want and are going to have. Western Canada can be trusted to be just and generous to any minority, and Sir Wilfrid has no right to insult us by assuming otherwise, and making his insult 'constitutional.'"

STRONG INDIGNATION EVERYWHERE

Whole Country Opposed to the Provisions of the New Bill.

Winnipeg, Man., February 24.—Though the news of the Government's refusal in every particular of Manitoba request for extension of her boundaries was not many hours old, the time was sufficient for indignation at this cavilier treatment of the Province to become general in Manitoba. Strong indignation is indeed the universal feeling, men of all classes and all politics agreeing for once in opinion of course of the Ottawa Government. That Manitoba is entitled to as large an area as any Western province to be created is the general tenor of sentiments expressed and the criticisms heard is that the stand taken by Sir Wilfrid Laurier is the extreme of injustice and is indefensible. Several leading men suggest public protest and agitation in support of the requests made on behalf of the Provincial Government as a step immediately resorted to, and that it should be aided by every Manitoban.

Representative business men of the city without regard to their party political opinion talk freely and conclusively shows the setiment of Winnipeg on the high-handed action of the Government.

The city, in fact, sees but one way on the subject. The reasons advanced by Premier Laurier for his attitude are termed excuses of the rankest sort, and especially unpalatable is his dictum that the other provinces must consent before Manitoba can have the shred of her desire, that will remain possible of fulfillment after the government's plan of division is carried out. The announcement of the Dominion Premier that the Territories must have Separate Schools is bitterly opposed by all Protestants, not only in Manitoba, but throughout the West.

ONTARIO WILL MOVE

Protestant Churches to be Appealed to to Enter the Fight.

Toronto, February 24.—That the attempt of Sir Wilfrid Laurier to fasten Separate Schools on the great North-West will provoke a terrific storm, goes without saying. Many prominent citizens, regardless of political sentiment, are unalterably opposed to handicapping the new provinces in any such a manner. The Orangemen will start the fight at once, and will call to their assistance the Protestant Churches throughout the country. It is felt that Sir Wilfrid Laurier offered a gratuitous insult to the Protestants of Ontario when he referred to the non-sectarian schools as Godless and immoral. Such, of course, is far from the truth. The causes which produce the evils referred to by Sir Wilfrid in the United States, is not even remotely due to the system of education in that country, but, as everybody knows, is produced by the influx of foreign element into that country from the slums of Europe.

WRECKED OFF SPOOK ISLAND.

A Party From Peterborough Have an Unpleasant Experience.

A few evenings ago, Messrs. Demutel, Martin Connors, Wilt Metheral, Dan McCabe and Tobin, of town, with a large party of friends, drove to Harwood to a ball held at the Hotel Corkery. There were about 75 couples at the ball, which was a great success. People from Cobourg, Keene, Peterborough and Havelock attended. Mr. Archie Moore was master of ceremonies whilst Wilt Metheral held up the musical end. Dancing was kept up until about six o'clock in the morning. As the Peterborough guests were returning home they found the ice, on Rice Lake, covered with water, and dangerous. Whilst passing Spook Island the horses drawing a sleigh load of them, broke through the upper crust of ice, and in their struggles, smashed the double trees and ran off. The occupants of the sleigh had to wade ashore in Spook Islands, and remain there until the horses were caught and the breakage to their gear repaired; They arrived home about noon, none the worse.

HAS A CLOSE CALL

Struck by a Mass of Falling Snow from the Roof of the Customs House

A few days ago the family journal called, in no uncertain words, the attention of its readers, to a danger which hangs, like the sword of Damocles, over the heads of every man, woman and child who walks our streets. Mr. J. J. Turner has nearly been a victim to one of the dangerous masses of snow that lodge on too many roofs in town. As he was passing the Custom House, a heavy mass of snow, loosened by the present warm weather, fell and struck him on the side of the head. He was somewhat dazed by the blow and it was some time before he recovered from the shock. Had it been a chunk of ice that struck Mr. Turner, the result would undoubtedly have been very serious.

During these mild days some additional steps should be taken by the authorities to see that all ice and snow is removed from roofs sloping toward the street.

While the police have notified many proprietors and tenants, this danger-ous nuisance is still in evidence.

A BIG BATTLE EXPECTED NOTHING FROM KUROPATKIN

For Two Days and Russia Expects that Great Events are in Progress in Manchuria--- Collisions Between Scouting Parties.

St. Petersburg, Feb. 25.—A second day has passed without despatches having been given out from General Kuropatkin, which is interpreted to support the rumors that great events are in progress in Manchuria. The war office, however, maintains that there have been no important news, and that there have been no developments since the last despatches made public, in which the commander-in-chief reported all quiet with the exception of minor operations toward the eastward. A press despatch from Mukden yesterday made no mention of a battle and retirement of the Russians.

Mukden, Feb. 25.—A daring Russian raiding party under the command of Col. Siegmundt completely destroyed with explosives the bridge south of Hai Cheng, about ten miles east of New Chwang, February 21, blowing up 70 feet of it.

MR. T. E. BODDY HONORED

Presented with a Purse of Gold, and Other Tokens of Regard

Last night at the Snowden House a large number of leading citizens, including Mayor H. Best, met together to honor and show their esteem for an old friend who is leaving town. Mr. T. E. Boddy, better known throughout the town, as Tom, was the hero of the occasion; It has been known for some time, with general regret, that Mr. Boddy, requiring a change of air, and rest had decided to change from his present employment, as ticket agent for the C.P.R. to that of fruit farming. Last night he was absolutely taken by surprise, when so many of his old friends had him come to the Snowden House, where an address, signed, on behalf of the committee, by Messrs. W. Snowden, William Taylor, late of the C.P.R. service, and Mr. Dodd, the local C.P.R. agent, was presented to him by Mr. R. H. Hay. The address, in few, but feeling, words testified to the regret his friends felt at losing so old and good a citizen, and so influential and obliging an official, and to the hope that he would meet with every happiness and success in his new vocation. The Mayor, on behalf of the committee, then presented Mr. Boddy, with a purse of gold and a beautiful set of pipes. Mrs. Boddy was, at the hands of the committee, the recipient of a handsome grease of silver, as a mark of the esteem and respect she was held in by the community.

Mr. Boddy was completely taken by surprise, overpowered by his emotions, and could not at first reply; however he tried to express his appreciation of the kindness shown him, and thanking his donors, spoke of the regret he felt at leaving the scene of many happy years, his sorrow at the severance of so many long-standing friendships, and of the warm spot Peterborough and its townsmen, would ever hold in his heart. After a pleasant evening, besprinkled with songs and speeches the assembly broke up at an early hour.

WOMAN'S AUXILIARY

St. Luke's Church Branch Elect Officers at Their Annual Meeting

St. Luke's church has seen another year of good work done by the Woman's Auxilary of that parish. At the annual meeting the various officers presented their reports, and, judging by reports, the officials of the Auxiliary have been indefatiguable in their labors, and much good has accrued. The total funds received, amounting to $252.74, to which was added the talent fund, originated by some of the members, which amounted to $14.73.

Two bales were sent, one to The Blackfoot Home hospital, the other to the Sarcee Home. The value of the bales is estimated to be about $100. The election of officers resulted as follows;

Hon. President—Mrs. E. A. Peck.
Pres.—Mrs. Walter Boswell.
1st. Vice.-Pres.—Mrs. E. A. Langfeldt.
2nd Vice-Pres.—Mrs. W. J. Scott.
Corres. Sec.—Mrs. J. J. Turner, jr.
Rec.-Sec.—Mrs. H. Butcher.
Treas.—Mrs. L. Gaskins.
Dorcas Sec.—Mrs. F. J. Jamieson.
Organist—Mrs. Graham.
Superintendent of Juniors — Mrs. A. O. Sawyer.

Representatives on executive appointed by the rector—Mrs. Phillips, and Mrs. Launderville.

By-law Governors and treasurer—Mrs. L. Turner.

Delegates to annual meeting—Mrs. G. R. Browning and Mrs. H. Butcher.

Police Court

OFFICIALS
Chief of Police, G.I. Read
Magistrate, D.W. Dumble

The Times' Police Court Reporter is fortunately a temperance man, as the old saying that "His Satanic Majesty finds mischief for ill hand to do," might otherwise have applied. There was nothing yesterday morning for Magistrate Rush to do; all was peace and quiet on the Otonabee.

COUNTY POLICE COURT.

County Police Magistrate George Edmison held the scales of justice at Norwood on Thursday. Only two cases came before him. Terrence Smith, whose figure used to be so familiar behind the white team of the fire brigade, keeps a hotel at Norwood, and was up on a charge of disorderly conduct. The evidence showed that though "Blessed be the peace maker," the middle man in a fight, generally gets the hardest blows of all. Terry had interfered between two men, who had organized a little scrap in his hotel, with the reward of being summoned before the judge. He was discharged, and his lacerated feelings are somewhat soothed by seeing one of the participants in the fight, Fred Smith, fined $2 and costs, on the same charge as brought him from the bar of beer to the bar of justice.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. P. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash. I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me?

"Well, I think it saved my life! It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it, 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

SEPARATE SCHOOLS IN THE WEST

In opening the discussion of the question of Separate Schools in the West, Sir Wilfrid Laurier said that the old passions which such a question aroused were not buried. He spoke of violent appeals, of the inflammable material that might be kindled "whenever questions arise "which ever so remotely touch upon the religious convictions of the "people." It is not too much to say that he invites and challenges an the most controversial ground. As The News puts it, he raises the issue in the sharpest way. His speech goes to the root of the matter. He does not apologize for Separate Schools; he justifies them. He declares that the Separate School system is the best, because it gives the greatest possible scope for instruction in Christian morals and Christian dogma. He adopts the arguments of those who in Great Britain and in the United States attack the non-clerical system of education and advocate denominational education; the argument that non-clerical schools are Godless schools, from which come loose notions of morality, resulting in murder, lynching and divorce; in brief the argument that education is safe only in the hands of the clergy, of whatever denomination. If we admit his premises, we must concede clerical education all along the line. If the child of Catholic parents cannot safely be left in the hands of trustees and teachers of various denominations, the child of Presbyterian, Methodist, Anglican, Baptist parents is entitled to the same protection. He should not be allowed to grow up with the lax notions of marriage and the sanctity of human life that the non-clerical school encourages. For that is, after all, the real difference between the Public School and the Separate School under Catholic control. The Catholic objection to the Public School is not that it is Protestant in a religious sense, but that it is under lay control rather than clerical control. Those who advocate Catholic schools would be quite willing to see also Anglican or Methodist schools in full operation. What they are contending for is clerical control in matters of education, and they would be quite willing to see this control exercised by pastor as well as by priest.

The Times holds that there should be no interference in school matters by any church. There is no fair ground between that and allowing every church to interfere with school affairs. There is no argument in favor of special privileges for any one church in the matter of schools. But so long as there is the smallest square, the merest quibble of the law, which can be construed into the "right" to establish Separate Schools there will be trouble. Under these circumstances the final "constitution" for the new Provinces would contain a clause prohibiting the establishment of Separate Schools for any church. And that would settle the matter for ever.

To compel the Provinces to establish Separate Schools would be pure tyranny and should not be thought of for a moment.

THE HARD TIMES IN ENGLAND

There is much trouble in England now. Times are hard. Great multitudes are without work, and a demand is made that both the government the municipal authorities shall come to their relief by starting public improvements. As to the cause of the great number of unemployed opinions differ. Mr. Chamberlain says the want of employment is a result of free trade or "free imports." High tariffs abroad, with no tariff at home, deprive the native Briton of work. The remedy is to clap a duty on foreign goods, so that more will be made at home, and so that foreign countries may be forced by retaliation to lower their duties on British exports. A correspondent of the London Times finds the cause of diminished employment largely in the recent "municipalization of industry," which, being effected at great expense, puts up taxes and discourages the investment of new capital. Old industries are being thus destroyed and new ones discouraged. Recent laws gave control of local affairs to a new and less competent class, with the result that cities are providing themselves with many costly luxuries, regardless of the effect on private industries.

The manufacturers, finding themselves taxed out of existence, invest their money abroad to better advantage and live on the income derived from foreign investments, while their employes who voted for the luxuries which their employers were to pay for now find themselves out of work. Free imports and municipal waste are thus, in the opinion of the capitalist class, the causes of the decadance of British industry and destitution of the workingman. The British trade unionist, however, have a different theory. They hold that labor is not sufficiently organized—that employers are insufficiently squeezed and Parliament is insufficiently controlled. Another reason they offer for want of work is the introduction of labor-saving machinery. This may be done to enable the embarrassed manufacturer to compete with foreign manufacturers, but the local workman regards it from the local point of view. Certain results follow. When what is saved thus in the cost of production by new machinery is all turned over to the workman in higher wages or shorter hours the employer must needs go out of business, since no business can be conducted without a profit. Combinations may be formed to cut down expenses, but the tendency remains. "So the whole thing," according to the London Times, "moves in a vicious circle, with the general result that staple industries are slowly dying out among us, while our population is more and more relying on unskilled employments."

APSLEY.

—Mrs. Kilborne has returned from her visit to Peterborough.

—Dr. Bell is confined to his home through illness. We hope to see him around again.

—Some of the camps are about to break up. The snow is deep in the woods, and so the men find it pretty hard to work to advantage.

—Everything about the village is rather quiet. Doubtless on account of the snow the roads are rather heavy, and everybody is keeping in till someone else gets out to break them. But there are always some sleighs about. The stores are not doing a very rushing business, so in the interim Tommy is fixing up his show cases, dusting and cleaning up in general. Our genial Postmaster is in his usual place, ever courteous and obliging. Mr. McIlvena, our blacksmith, is at his forge, ready either to pull nails out or put them in as occasion demands. Simon is busy getting up a shipment of creamery for the spring trade, and his father looks on. In fact, Apsley this week is not the busy little centre it usually is. But even when the snow is deep and the thermometer drops sorrowful, Cupid still is busy with his arrows. He is cutting quite a caper in the village lately, and it affords a pleasing topic over the teacups for the lovers of Mrs. Grundy. We hope there will be a happy issue.

—One of our citizens, some few evenings ago, was surprised to have five young gentlemen call on them and for an hour or two to treat them to all the latest slogs and sagers. Needless to say they were highly entertaining. But if the truth were told they were young ladies in masculine attire. Surely the said five ladies have entirely forgotten themselves, and lost all sense of modesty. Or, perhaps, it was only a lark, and, as was said before, it is very quiet here, one has to invent something new in the line of amusement to vary the monotony.

—St. Valentine's Day was celebrated here in the usual fashion. The school boys and some of the other young folks spent their few coppers in buying very insulting and disgraceful pictures and mailing them to their friends. St. Valentine's Day has lost much of its old time charm, and, instead of a token of friendship and love which would be in keeping with the spirit of the day, the small boy finds great pleasure in buying these pictures which he fancies are a good "take off" on those to whom he sends them. It is certainly time that such a practice were dying out.

WILL NOT HURRY WAR

Japan Can Afford to Move With Deliberation

Tokio, Feb. 24.—Offical circles begin to take the view that it is unnecessary for Japan to hurry military events in the presence of the numerous forces that are operating to destroy the efficiency of the enemy. It is held that Kuropatkin's ultimate base is menaced with revolution, that the trans-Siberian Railway will not permit of further increase of the Russian troops at the front where great difficulty is experienced in feeding the army already assembled.

Kuropatkin's medical supplies and hospital accommodations are overtaxed. An awful condition of health is almost certain to arise in the Russian ranks, when the humidity of spring begins to penetrate the dugouts in which the Czar's soldiers live.

It is demanded that the problem of preserving the health of the Japanese troops is almost equally serious.

Oyama's army in every way is more favorably situated in respect of support and attention from its home base. It is argued from all this that Japan can well afford to move slowly, while Russian difficulties together with the growing demand in Russia for peace tend to remove the enemy who now opposes the political and territorial plans of the Mikado's Government.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of one more [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have broken 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1903.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ADVERTISE IN THE TIMES.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke Fountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

The Big Four

Consolidated Gold Mines Limited.

Capital $625,000, of which 35 per cent in shares is now in our Treasury. Shares fully paid and non-assessable.

Mines directly west of the LeRoi and LeRoi No. 2. War Eagle and Centre Star, four of the largest gold-copper mines in the world, all of which have paid large dividends.

Same identical ore and veins now in sight on the BIG FOUR. Large ore bodies.

Assays from $5 to $800 in gold, copper, silver, etc. Very rich display as now on exhibition in the city ore exhibit, causing wide comment.

We have nearly two miles of Railway on Big Four property with water and timber in abundance.

Rossland ore shipments for 1902, 360,000 tons. Shipped for 1903, about 450,000 tons, 1904 about 600 000 tons. Total value of Rossland ores mined, $81,000,000.

Rossland's large ore bodies are a great success with the concentration system of ore reduction. $3.00 ore now pays to mine as now proved by the latest reports and dividends.

No less than 100 shares sold. Shares can be had on instalment plan, payments monthly. Twenty per cent. cash, balance within a year.

Company has no debts or liabilities and a full force of men now working.

References.—The Hon. Mayor, Gold Commissioner, postmaster, or any bank or business man in city.

There is a tide in the affairs of men
Which taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries.

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $3,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with ore piling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity ore bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock a

10 CENTS PER SHARE - PAR VALUE $1.00.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

BALTIC FLEET OFF MADAGASCAR

Great Island off West Coast of Island Now its Rendezvous

TWO ATTACHES ARE KILLED

Officers Writing From Front Say Kuropatkin is Hero of the Army

Port Louis, Mauritius, Feb. 24.—Russia's Baltic fleet is still making Nossie Be, off the North-West Coast of Madagascar, its rendezvous. The whole fleet and colliers number 70 vessels of all kinds. Only a few colliers remain at Diego Suarez, Madagascar.

The Russian officers and sailors are enjoying themselves greatly. They spend their time fishing and eating. They are well supplied with such delicacies as jam and chocolate, and consume large quantities of champagne and fine wines.

The fleet has been supplied with 50,000 bushels of potatoes and 10,000 bags of flour by local merchants.

MURDERED TWO ATTACHES.

Che Foo, Feb. 24.—Two Chinese junkmen who were recently arrested here by the Che Foo authorities have confessed that they murdered Von Gilgenheim, the German naval attache De Cuverville, the French attache and one European who were escaping from Port Arthur, last August. The junkmen implicate three others and efforts are being made to arrest them. In their confession the murderers state that the crew frightened by an approaching storm refused to proceed, and that the officers forcibly mastered, whereupon the crew became enraged and threw them overboard.

KUROPATKIN, ARMY'S HERO.

St. Petersburg, Feb. 24.—Letters from some of the ablest officers in Manchuria are reaching this city, warning the advisers of the Czar that the army will regard with aversion any scheme aimed at Kuropatkin. That officer is termed the solitary great leader the war has produced among the Russian admirals and generals, and the one officer of high rank who is a veteran of past struggles.

"Our commander-in-chief's position must not be attacked," say these letters. "Such an attempt would be like a dagger thrust in the heart of the army. Moreover, it would conduce to the development of a situation in Manchuria similar to that which seems to prevail in the home situation—disorder, ferment and possibly open rebellion.

"Kuropatkin is beloved by the army because of his warm heart for the private soldiers, for the men who agonize and bleed and perish in the trenches. The army admires Kuropatkin because he exacts from strategy, tactics and personal magnetism all they can give toward a campaign of infinite difficulty against a foe of unexampled efficiency. Intrigue should cease in the presence of these facts. The day is past when Russians will submit to great national wrong merely to gratify the personal motives of highly placed persons."

Officers invalided home are speaking in similar tone.

BIG CATHOLIC CONGRESS

To Be Held at Strassburg in August of This Year

Rome, February 24.—It has been decided to hold an International Catholic Congress at Strassburg in August under the presidency of Dr. Fritzen, the Bishop of the Diocese. Pope Pius has addressed a brief to the organizers of the conference expressing his satisfaction that the Congress intends to devise means for faithfully putting into practice the exhortations of the Holy See regarding church music. He hopes that the Congress will produce abundant fruit and sends his apostolic blessing to all who take part.

On the international commission formed to draw up the program, England is represented by the Rev. Antony Deltech, of Farnsborough, and the Rev. Father Moloney, of London; Ireland, by the Rev. Henry Bewerunge, of Maynooth, and the Rev. Fr. Mocquereau, of Appuldurcombe. Representatives of Italy, Switzerland, Austria-Hungary and Germany have also been selected.

HOW'S THIS?

Hall's Family Pills are the best.

NARROW CHESTED, weak lunged people can't be cured by medicine, is painful, too, for the burning and itching give you no peace. Why not end the trouble and restore your skin

MOUNT PELEE'S REACTION

Colossal Frauds in Connection With the Relief Fund

Paris, February 24.—Three years after its own disastrous eruption Mount Pelee has led to the outbreak of a scandal which has broken the career of one of the foremost and most trusted of the public servants of France. Soon after the calamity occurred, M. Maurice Bloch, chief accountant of the Ministry of the Colonies, was dispatched to distribute $100,000 to the sufferers, and his accounts were all duly passed by the Colonial Minister of the day, M. Decrais. But they have been reopened,

The junior series will conclude next week. Three teams still remain—Parkdale, St. Andrew's College and Stratford. Tuesday night Parkdale were beaten by Stratford, but did not do badly and may overtake the Stratfords Thursday night, when the return game will be played on Mutual St. Rink. St. Andrew's College are keeping in good trim, waiting for the winner of the Parkdale-Stratford game.

GREAT COUNTRY GRAND CHANCES GLORIOUS CLIMATE

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed. Estimates on ore from this shaft alone show a clear profit of $500 a day.

Another claim, with 4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire width and ore in shaft assays $64 a ton. Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. Will be a steady producer and dividend payer as soon as improvements are installed.

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine." In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Deadly "La Grippe"

Or Epidemic Influenza is Caused by an Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out the epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested. It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe he has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrh it is a wise precaution to always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone. Fatal consequences can often be avoided in this way. The Inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket ready for use in church, at work, in the theatre, street car, anywhere, at any time. The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

Nearly a Panic

There was very nearly a panic at the opera house last night. While the play was in progress a rumor of fire, caused the people to flock for the doors, but fortunately the actors quited the crowd by assuring them that nothing was wrong. No person was injured.

Mr. Langfeldt's Lecture.

"Life in the German Army," is likely to be a drawing card on Monday next in the Baptist church, Park street. It has been remarked that many members of the 57th Regiment will attend the Rev. E. A. Langfeldt's lecture. This will be a rare opportunity to hear an exposition on this subject as the rev. gentleman is an ex-German officer.

Nell Gwynn at the Opera House

Another crowded house saw the Bijou Opera Company, last night, play the old historical "Nell Gwynne," with Mr. J. Wilmot Young in the character of Charles II., and Miss Marjie Adams as Nell Gwynne. It would be invidious to particularise any of the members or attractions of this really excellent company, as they are all deserving of kind words. The play for this afternoon's matinee is "Ten Nights in a Barroom," and Dr. Jekyll and Mr. Hyde in the evening.

BIRTH

LOUNT—On Friday, Feb. 24th, at No. 1, Fleming Terrace, Peterborough, the wife of Mr. Frederick Lount, Manager of the Bank of Toronto, Orenmore, of a son.

CHEATED FOR YEARS

Prejudice Will Cheat Us Often If We Let It

You will be astonished to find how largely you are influenced in every way by unreasoning prejudice. In many cases you will also find that the prejudice has swindled you, or rather, made you swindle yourself. A case in illustration:

"I have been a constant user of Grape-Nuts for nearly three years," says a correspondent, "and I am happy to say that I am well pleased with the result of the experiment, for such it has been.

"Seeing your advertisement in almost all of the periodicals, I for a long time looked upon it as a hoax. But after years of suffering with nausea and bitter eructations from my stomach, together with more or less loss of appetite and flesh, I concluded to try Grape-Nuts food for a little time and note the result.

"I found it delicious, and it was not long till I began to experience the beneficial effects. My stomach resumed its normal state, the eructations and bitterness both ceased, and I have gained all my lost weight back.

"I am so well satisfied with the result that so long as I may live and retain my reason Grape-Nuts shall constitute quite a portion of my daily food." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Fire vs. Enterprise

Fire destroyed the most complete odd stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunnlow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

Wedding Bells

On Tuesday, Feb. 21st, a quiet wedding took place at St. Andrew's manse, when Rev. J. G. Potter united in marriage, Miss Helen F. McKelvin, daughter of Mr. Thomas McKelvin, town, and Mr. William G. Peck, also of Peterborough. The witnesses were Mr. John Penrose and Miss Penrose. Mr. and Mrs. Peck will reside in Peterborough.

Park Street Bap ist Church

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Ontario Legislature has been called to meet on Wednesday, March 22nd.

—Stratford defeated Berlin last night at the former place by three goals to one.

—There was a full attendance of the 57th Band at the band hall yesterday evening.

—Wedding invitations and calling cards printed in latest style at moderate prices. Times Printing Co.

—The German Conservation Club will meet to-night at the residence of Col. J. Z. Rogers, instead of St. Luke's rectory.

—To-day we will sell 25 sheets of good quality note paper for only five cents. Stephen's ink in all sized bottles. Times Bookstore.

—Mr. S. P. Weller of Indian River, the cattle guard inventor, had one of his fingers badly lacerated in a planning mill accident a few days ago.

—Judge Weller is confined to the house with a severe cold. In his absence the Division Court cases this morning were taken by Judge Edmison.

—The display of crocuses and other spring flowering bulbs in Mr. F. Mason's, George street, shop window attracted the attention of many passers by yesterday. It is a beautiful relief to the soul-wearying snow.

—The little grandson of Mr. William Eyres, who, as reported in our issue of yesterday, had an operation by Dr. Carmichael, for appendicitis, is reported by the hospital authorities as doing finely.

—Mr. James McColl of Westwood, came to Peterborough Friday to have performed an operation on his finger which he had the misfortune to have badly crushed some time ago.

—A large photo of Bishop Scollard is on view in the window of Roy's photo studio, Hunter street. The picture is a beautiful example of the high artistic quality of the photographic work of this studio.

—The scenery lately purchased from the Peterborough Opera House, for the town hall, has been placed in position and all who have seen it declare that the hall is improved from $200 to $500 in value by the addition.—Havelock Standard.

—The Havelock Amateur Dramatic Society, comprising a number of the young people, will appear in the town hall, Havelock, on the evening of Friday, March 3rd, 1905, in that popular Irish drama, "The Haunted Mill, or Con. O'Regen's Secret."

OPERA HOUSE TO-NIGHT;

BIJOU COMEDY CO.
in
DR. JEKYLL AND MR. HYDE.
Popular Prices 15 and 25c
Matinee this afternoon at 2.30.

—Mr. Roland Johnston, of Lakefield, is adding a dressmaking department to his up-to-date dry goods establishment. The new department will be under the charge of Misses Rodger and Mowry and will be opened March, 15th. "Rolly's" many Peterborough friends will be pleased to know that he is prospering.

—The funeral of the late Mrs. Andrew Montgomery, London street, took place on Thursday afternoon. Rev. Dr. Torrance conducted the services. The pall bearers were Messrs J. H. Cobb, John Sawers, R. Chowen and A. J. Raddon, of Peterborough; T. Roberts, of Welcome and Dr. Totter, of Lindsay.

—Yesterday in the Oriental Hotel, several gentlemen were discussing the relative merits of the different clubs in the Trent Valley League. Mr. P. Carrol, of this town, has $50 worth of faith in the ultimate success of the T.A.S. Hockey Club in this series of games, and backed his opinion that they would win out. The other end of the bet is held up by a gentlemen from Toronto.

—Mr. H. Brundette, of Port Hope, and Mr. R. Drayton of Peterborough, were in town to-day and purchased the well-known steam yacht, Minnah, owned by Mr. A. Cottingham, which has been plying on the Scugog for a number of years. The yacht will be shipped on the first of May to Rice Lake, where it will be used as a pleasure and tourist boat. We understand the figure paid was a good one. We are sorry to see this fast yacht leave our port.

SOCIAL AND PERSONAL

—Mr. James Flynn, of Peterborough, was in town on Tuesday, shaking hands with old friends. — Havelock Standard.

—Mrs. Dobbin, wife of Mr. F. H. Dobbin, manager of the Peterborough Review, is a guest at Dr. Ford's this week.—Norwood Register.

—Mr. E. B. Stone, of London, who for many years practised law in Peterborough, arrived in town yesterday for a short visit.

—Miss Juliet Orde, daughter of Mrs. C. B. Orde, lately of Peterborough, has returned to her home in Toronto, after a visit with Mrs. Dumont of

COMMODORE NICHOLSON OF OUR NAVY

Recommends Pe-ru-na—Other Prominent Men Testify.

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R St., N. W., Washington, D. C., says:

"Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."—S. Nicholson.

The highest men in our nation have given Peruna a strong endorsement. Men of all classes and stations are equally represented.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

CARD OF THANKS

To the Ladies of Peterborough;—

Ladies,—Having decided, after a long and eminently successful business in this town, to retire, and take a protracted rest, Miss. Delaney begs to tender her most sincere thanks to the ladies of Peterborough, for their continuous and repeated patronage. Miss Delaney, feels that the large and eminently successful business she had built up, is evidence of the opinion of the ladies of Peterborough, that her judgment and taste were deserving of recognition, and she feels deeply the practical expression of such opinion.

—Mr. James of the Toronto World is a guest at the Oriental.

—Mr. and Mrs. Dennis Scully, of Ops, are guests at the Commercial Hotel.

—J. DeLamorandiere of Killarney, Ireland; Alex Kavanagh, Bancroft; J. MacGillis, Port Arthur, and C. J. Read, Toronto, are guests at the Oriental Hotel.

—Mr. D. J. McEwen, G.T.R. Ry. agent at North Bay, who with his wife and family have been guests at the Oriental, left last night for home.

—The many friends of Miss Lila M. Bell, will be pleased to hear she has been accepted as nurse in training at St. Joseph Hospital, London, Ont. having passed her entrance examination with honors.

—Mr. Jas Stevenson, Peterborough, was in town yesterday, visiting his brother, Mr. W. G. Stevenson, William street. The old gentleman was on his way to visit his sister in San Francisco. This is quite an undertaking for a man 82 years of age. —Port Hope Guide.

—Mr. Hamill Hall, formerly in the C.P.R. Telegraph Office, but for the past two or three years in the employ of the C.P.R. Telegraph Co. in the Northwest, is home for his holidays. He is at present employed in the vicinity of Edmonton, N.W.T., and is well pleased with the west.

WEATHER NOTES

Fair and mild.

$500 REWARD FOR WOMEN
WHO CANNOT BE CURED.

So universally successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in guaranteeing, and binding themselves to forfeit, as per the undersigned proprietors' guarantee printed herein, the above sum in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial [illegible] we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

Therefore, desist on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit $500 if they cannot cure you.

In cases attended by a leucorrheal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 50 cents in stamps for Dr. Pierce's Common Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

BARRIE'S BIG ALTERATION SALE

FURS, HATS AND MEN'S FURNISHINGS

Furs Must Go at Extraordinary Reductions

The argument for buying Furs at all is the comfort they give. The argument for buying them now is the money you save. The argument for buying them here is the absolute certainty of quality and the extraordinary values you get them at

International Commission Closes North Sea Incident

Admiral Who Saw Things There Let Down Easy by the Commissioners---The Closing Session Presented a Brilliant Scene.

Paris, Feb. 27.—The decision of the International commission of inquiry into the North Sea incident was publicly announced at the closing session of the commission this afternoon. The decision sets forth at considerable length the circumstances and incidents and gives the opinions of the admirals on the various important points involved.

The decision says the delay of the Russian transport Kamschatka following the break down of her machinery was perhaps the cause of the incident. The commander of the Kamschatka signalled to Admiral Rojestvensky during the evening that he had been attacked by torpedo.

The Admiral therefore had reason to believe he might be attacked and gave orders for strict vigilance against the possible approach of torpedo boats. The majority of the commission considers that Admiral Rojestvensky's orders were not excessive in time of war, under the circumstances, and he had every reason to consider the situation very alarming.

"The commissioners," the decision says, "recognize unanimously that the fishing fleet committed no hostile act and the majority of the commissioners are of the opinion that as there were not either among the fishing boats or in their vicinity any torpedo boats, the opening of fire by Admiral Rojestvensky was not justified."

The decision further says, the Russian commissioner did not share in the latter opinion.

"In any event," the decision continues, "the commissioners are glad to recognize unanimously that Admiral Rojestvensky personally did all he could from the commencement to the end to prevent the trawlers being the object of fire by the Russian squadron.

Concerning the squadron's proceedings, without assisting the damaged trawlers the decisions says:

"The commissioners are unanimous that under the circumstances preceding and following the incident that there was such uncertainty concerning the danger to the squadron as to warrant Admiral Rojestvensky in continuing his route. However, the Majority regrets that the Admiral did not inform the neighboring maritime powers of what had occurred."

The decision concludes as follows; 'The commissioners declare that their views as formulated are not of a nature to cast any disrespect upon the military valor nor upon the sentiments of humanity of Admiral Rojestvensky and the personnel of his squadron."

The closing session of the commission presented a brilliant scene. The spacious salon of the foreign office was crowded with prominent officials, members of the diplomatic corps, including Russian, British and American ambassadors, members of the Japanese legation, officers of the army and navy, judges of the highest French courts and many wives and other relatives of members of the commission. The admirals forming the commission appeared in ordinary civilian dress.

Admiral Fournier, France, the president of the commission, read the decision amid impressive silence, the spectators following minutely. The general impression among the audience was that the decision was in the nature of a compromise. Admiral Fournier closed the commission with a speech of thanks to its members. He said that each of them would return to his country bearing as a recompense for his labors the legitimate satisfaction of duty well accomplished. They left behind them a profound impression of esteem, devotion and which the difficult task had been performed.

NO JUSTIFICATION FOR ADMIRAL ROJESTIVENSKY'S BROADSIDES

MR. LANGFELDT'S LECTURE

Will Speak on German Army on 24th Inst. in Park Street Church

"Life in the German Army" by Rev. E. A. Langfeldt, M.A., is the subject for this long promised lecture in the Park street Baptist church to-night. All classes should hear our German Fellow Canadian. The Orange brotherhood and members of all denominations are welcome.

Mr. Langfeldt's Orillia experience ought to be repeated with even greater enthusiasm.

DON'T WANT SEPARATE SCHOOLS

Mr. W. D. Thornton, of Calgary, Says Fight is On

Mr. W. D. Thornton, of Calgary, is in town, after an absence of 26 years. Mr. Thornton formerly resided in Lakefield, and went to the west over a quarter of a century ago. He is accompanied by Mrs. Thornton, who is visiting relatives in this district.

Mr. Thornton thinks that the west will not tolerate Separate Schools, and if the Government tries to force them on the people, there will be serious trouble. He believes that this matter should be left to the people themselves to deal with.

Mr. and Mrs. Thornton will return to the west about the middle of March.

MARRIED 60 YEARS.

Mr. and Mrs. A. C. Dunlop Celebrate 60th Anniversary of Their Wedding

Mr. and Mrs. A. C. Dunlop, of Water street on Saturday celebrated the 60th anniversary of their wedding.

On Monday, Feb. 25th, 1845, a happy wedding ceremony was performed at "Dunlop House," Douro, the residence of Hon. T. A. Stewart, when Mr. A. C. Dunlop led to the altar, Hon. Mr. Stewart's second daughter. That they have been spared for over half a century to enjoy the association then formed, must be a source of happy reflection to the bride and bridegroom. Many friends called upon them on Saturday at their residence, corner of Water and Murray streets, and there are many outside of the circle mentioned who have learned to respect them, and who will unite with the others in hoping that they may still be spared to enjoy their declining years together.

On Saturday Mr. and Mrs. Dunlop received many messages of congratulation over the sixtieth anniversary of their wedding day. Among them was one from a gentleman who once had a book store in this town, and who is now the editor of the Montreal Gazette, Mr. Richard White, congratulating them and recalling events of 60 years ago.

A PROSPEROUS COMPANY

Good Financial Showing Made by the Union Life Assurance Company

In another column our readers will see the annual statement, of a young but eminently successful Life Assurance Company. The Union Life Assurance Company, of Toronto, has only been doing business for three years, yet, in that short time their third annual statement shows that they are perfectly sound, and that the prospects for policy holders, are as bright as those insured in any of the older companies, even though their prospectuses show a greater volume of business done and larger assets. The policy holders in this flourishing company have every reason to feel not only every confidence in the validity of their policies, but entertain good hopes of substantial profits. A company that in three years can with a subscribed capital of $100,000, show a balance sheet with assets of $176,730.04, with new business written up in 1904, amounting to $5,142,669.48, and with a total income in 1904 of $242,189, as compared with $172,713 in the preceding year, cannot but establish for itself a reputation for good management and absolute security for its policy holders. The President of the company Mr. H. Pellman Evans, together with the directorate must feel proud of the showing of their company.

MEN RETURNING FROM WOODS.

Dickson Lumber Company Almost Finished Their Winter's Work

The Dickson Lumber Company have almost finished their winter's work. most of the men they had employed in their shanties have been coming into town, during last week, and the few remaining men are only putting on the finishing touches, and winding up this winter's business. The company say that they did not have as much trouble this winter as last, owing to their foresight in having roads ploughed through their limits after the first heavy snow fall, so that they were thus enabled by use of a sprinkler to keep the road beds well frozen and smooth, thus enabling the ploughs to keep the roads open. They estimate their cut this winter at fourteen million feet of which is somewhat larger than that of the preceding year. Owing to the two steamers they own, yclept, alligators, which are equally at home in water or on land, they expect to get the first of their drives to Peterborough by the end of June. One alligator will meet the drive at the mouth of Mississauga Creek, and help it through to Buckhorn, and then return for the next drive.

This important lumber industry will prove of great assistance to the town, and will furnish work for a large gang of men all next summer; if in enterprise could be displayed by the Dickson Company that holds our

THE GREATEST WARSHIP AFLOAT

Japan now Building a Mammoth War Vessel

WILL COST TEN MILLIONS

The Largest and Most Powerful Vessel in the World

London, February 27.—The Daily Telegraph says that the Mikado's Government will immediately begin at Yokosuka a battleship of 19,000 tons, with a speed of 18.25 knots and an armament of four 12-inch guns, twelve 10-inch guns, and twelve 4.7 inch guns.

This enormous vessel will be the largest and most powerful in the world, and in line of battle would be equivalent to three or four vessels of the ordinary type. It will cost probably ten millions of dollars.

Note that the ship will, besides four 12-inch guns, have twelve 10-inch. The great majority of existing battle ships have only four 10-inch guns as their chief battery, backed up by 6-inch ones, or, at best, 7.5-inch. Britain, hitherto always in the lead, has been arming her recent battle ships with four 10-inch guns as the leaders, and with 7.5-inch as the secondary battery. The biggest battleship built or building for Britain is 16,500 tons, with 12-inch and 9.2-inch guns. A battle ship of 18,000 tons for the British navy was designed at the Admiralty in 1903, but the proposal was abandoned on account of the immense expense involved. But Japan faces more.

The Japanese have come to the conclusion, in which they appear to be endorsed by the great majority of naval experts, that the biggest ships and the biggest guns are the winners. The talk of the torpedo boat value, rife at the beginning of the war, is dead. It is realized that torpedo boats don't count except working from the protection of battleships or forts, and that if an enemy's battleship can beat yours, he has you cooked no matter how many torpedo boats or cruisers you have. The Japs are not stopping with their big new battleship. The two most powerful armored cruisers yet built are to be begun—powerful not so much in tonnage, which is to be 12,000 (Britain has larger) but in guns, namely, four 12-inch and six 10-inch each. "All future ships," says the Tokio correspondent of The Telegraph, 'are to be heavily armored, all guns below 10-inch being discarded, as the lesson of the war clearly shows that long-range guns can alone be decisive in future naval warfare."

FARMER WANTS A WIFE

ASKS THE TIMES TO PROCURE A LIFE PARTNER

The Great Family Journal, not be Partial Publishes Letter in Full

As the dream of spring grows upon the world, and the stir and thrill of sweet, enlivening sap are felt in the veins of sugar maples, the call of young love comes out of the north-west.

But the call that reached this great family journal has in it a sublime note of sorrow and uncertainty, an indefinite and comprehensible yearning, which directs itself to no particular mate, but to femininity at large.

It suggests the familiar story of the maiden lady who went into the darkling wood to pray for a husband. As she ended her supplication an owl from the dim branches above cried: "Whoo; who-o-e."

"Anybody, Lord," eagerly replied the supplicant.

Not to keep our fair young readers long in suspense, this g.f.j. is in receipt of a letter from a young farmer near Lindsay, a love letter, breathing desire, constancy, and no little courage, in which he asks this g.f.j. to direct and mail to some young woman not over twenty, who wishes a good husband, steady, honest and prosperous, who will make her life happy if love and care can accomplish such a result.

The Times, with that innate and natural modesty which always characterized this g.f.j., feels that it cannot take the responsibility of sending the proposals to any one girl; nor does it desire to show partiality to any one of the thousands of its young women readers who would adorn a home and bring happiness to their chosen husband. It therefore prints the young man's letter in full, and will gladly forward to him any replies which may be received. Here is the letter:

"Dear Friend:

"I am a perfect stranger to you, but if you will allow me to call you 'Dearest Girl' I will try to be your best friend and, if you like, lover.

"I want a sweetheart all for my very own. I will love her dearly and live for her alone.

"I have not got much property, but a kind and willing heart, able only eighteen years old, but I know I can make a good living for you, with you to cheer and help, and we could be happy together.

"There are lots of farms around here for rent, and lots of ways to make a living, if you will only be mine. Won't you? Please be my own true love. I don't care who you are, or what you are, or what you have been, if you will only truly love me. We all have our own faults, and if you will write and frankly tell me all about yourself I won't care what you have done; I will love you just the same.

"I have never loved a girl before. Most girls love a courtship. I know I would if I was a girl. We can have one all our very own if you like. Most girls love a honeymoon We can have one all our very own, and go to the World's Fair at Portland, Ore., this year. I have relations there.

"Well I can but ask. It lies with you to do the rest. But if you only will I shall always be yours.

"From your would-be lover,

"——————."

A RUSSIAN MONSTER

Man Nine Feet Eight Inches High in Canada

Victoria, B.C., February 26.—A Russian giant, 9 ft. 8 in. high and weighing thirty-two stone (448 lbs.) arrived at Victoria on Tuesday morning from Berlin, and was conveyed in a pantechnicon van to the Hippodrome, where he is to be exhibited. The giant, who is 23 years of age, was accompanied by his wife and child, and Mr. H. W. Garrick, of the Hippodrome, travelled with him from Queensborough, where he had arrived in the early morning, having had to pass the night on deck in consequence of his great height.

He was born at Tchartkov, in Asiatic Russia, and has been previously exhibited at Berlin and elsewhere. His arrival at Victoria was witnessed by a large crowd, many of the members of which followed the pantechnicon van on its passage through the streets to the Hippodrome. The giant, whose name is Machnow, and who speaks only Russian and German, was seated on a couch 9 ft. 6 in. long. A stoppage was made at two points on the journey, first to allow of a photograph being taken, and secondly at a tailor's shop in the Strand, which Machnow entered to be measured for a dress suit. At both places the crowd was so great that the police threatened to summon those in charge for causing an obstruction. The tailor's assistant was compelled to mount a pair of steps in order to take the gigantic man's measurements. It was stated that 15 yards of double-width cloth would be required for suit, the quantity used for an average man's suit being from 3 1-4 to 3 1-2 yards. The measurements were as follows: Neck to waist, 32 in.; total length of coat, 65 in.; across the shoulders, 31 in.; shoulder to elbow, 36 in.; total length of sleeve, 55 1-2 in.; across the chest, 30 in.; round the chest, 60 in.; round the waist, 55 in.; side-seam of trousers, 72 in.; side-seam inside the leg, 30 in.; and thigh, 40 in. round. Machnow, whose boots are 2 ft. long and who wears 26 in. collars, is said to be the tallest man in the world.

Did a Good Business

Mr. E. F. Mason, the enterprising George street grocer, who bought out the stock of Mr. Tuck, at the corner of George and Brock streets, and who is selling off the stock there at cost, did an enormous business on Saturday. The ladies all seemed out after bargains, and kept Mr. Mason's staff on the hustle all day.

—On the Brock street rink ice last Friday, a young man was accidentally struck on the mouth by a hockey stick, and had two teeth knocked out, and several loosened.

PROTECT YOURSELF AGAINST GERMS.

People With Weak Stomachs Must Be Able to Fight Disease

When the stomach and digestive organs are weak, the food does not digest, and there is a sour, slimy, fermenting mass, making it an ideal spot for the disease germs to multiply. The only way to protect yourself against disease germs is to strengthen the stomach and digestive organs, and Mi-o-na is the only agent, so far as is known, that will accomplish this.

The ordinary medicine that is taken for indigestion and stomach troubles is advertised to act upon the food alone, and hence can give no more than temporary relief. Mi-o-na is a certain cure in all cases of stomach troubles, excepting cancer, because it enables the stomach and digestive organs to act in the way Nature intended they should. Drugs cannot digest the food; they simply decompose it.

If you suffer with distress after eating, pains in the head, chest, sides and back, belching of gases and undigested food, bad taste in the mouth, dizziness, or vertigo, heartburn, variable appetite, sick headaches, spots before the eyes, and have a general feeling of despondency, weakness, and debility you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful does with Mi-o-na. Just one simple tablet out of a fifty cent box before eating, and your stomach will soon become so strong and healthy that you will be germ proof. Ask Wm. Medill to show you the guarantee under which he sells Mi-o-na; costs nothing unless it

RIVAL TO CLERGUE

Big Works to be Erected on St. Mary's Rapids

Sault Ste. Marie, February 25.—The great Clergue enterprise on the Michigan side, The Michigan Lake Superior Power Co., is to have a rival.

The Edison Sault Electric Co. will put up a big power plant on St. Mary's Rapids near the locks. It will expend $120,000 during the present summer.

The first section is to have a capacity of nearly three thousand horse power. Alex. Dow, of Detroit, with several Wall street capitalists, is behind the move.

It is the intention ultimately to use every bit of power in the St. Mary's River, amounting to about half a million horse power or more.

ENCOURAGEMENT OF ART

A Branch of the Woman's Art Association to be Organized Here.

Last week a well attended and highly successful meeting was held in the Y.M.C.A. parlor, to consider the proposal of establishing a branch of the Woman's Art Association in Peterborough. Miss Bertram, for some years a member of the Toronto Association, and now residing in Peterborough occupied the chair and explained the object of the Association, which was the promotion and encouragement of original art. This would be accomplished by holding exhibitions and lectures and, if it should be thought advisable, by arranging for studio accommodation. It was further pointed out that there were two classes of members, honorary and professional. The former are ladies interested in promoting art matters. The latter include artists and serious art students, who are willing to subscribe to the objects of the Association.

It was moved by Mrs. J. R. Stratton and seconded by Mrs. Britt, that a committee, composed of Mrs. Hughes-Charlton, Mrs. Burnett, Mrs. Dunsford, Mrs. Denniston, Miss Hatton, Miss Bennet, Miss Bertram, and the mover, be appointed to draw up a constitution, and make final arrangements for an exhibition to be held in Peterborough early in March.

At the close of the meeting about forty ladies handed in their names for membership.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble

Henry Truesdale, an elderly man, is possibly a connoisseur in fur rugs. His alleged hobby for collecting these articles was the reason for eating his Sunday dinner at the town's expense in Chief Reesel's lodging house. On Saturday a farmer, with a relative, put up his rig at the Windsor Hotel stable. The young man went into the hotel for purposes of his own, leaving his relation in the sleigh. Unfortunately the guardian he left, had visited several places where the cheering bowl is dispensed, and was consequently sleepy, and not in quite a fit state to render an account of his stewardship. It is said that Truesdale, noticing this, went boldly up to the rig, and pulling the fur rug from off the knees of the slumbering man made off with it for his home in the north end of Water street. The small boy, who is always round, claims that he saw the act, and reported it to the Chief. When the Chief, accompanied by P.C. Stewart, arrived at Truesdale's house, he found him and his wife sitting in the hall which had other furs laid on the floor. Truesdale immediately told the Chief he had found a rug on the street, and had intended taking it to the Police Offices. However, the Chief brought the rug, and Truesdale with him, and, on the way whistled the old ballad, "We gather them in." Truesdale will explain his possession of the rug to the Magistrate this morning.

THE CURATE NAMED

Appointment of Rev. Mr. Tandy as Curate of St John's Church

The Times is able to announce that the question of nominating the Curate for St. John's Church, has been definitely settled. The congregation recognizing that the Rev. J. C. Davidson, the Rector, although unsparing of his health and labors, is unable, owing to the rapidly growing number of communicants and church members to perform the whole work of the parish, have appointed the Rev. Mr. Tandy, of Havelock, as curate and colleague to Mr. Davidson. Mr. Tandy is a young man of excellent education, pleasing manner, and gifted with great oratorical ability. He will assume his duties on the first of April. St. John's church is to be congratulated on such a valuable acquisition, and there is no doubt but that, with this additional aid, the indefatigable Rector will now be able to place his church on the high pinnacle of success, to which his ambition and earnest interest in its welfare leads him. At yesterday's morning service, the Rector announced that Professor Glidden, had decided to resign his leadership of the choir, that the amount paid him might be applied to the stipend of the new Curate, who will, in addition to his other labors lead the choir.

The rev. gentleman spoke feelingly of the loss the church would sustain in losing Mr. Glidden's services, and expressed his sincere appreciation of Mr. Glidden's unselfish act of resignation for the general good of the

CANADA'S PROGRESS IN TELEPHONES

Remarkable Record of Bell Co. in Ten Years

THE COMPANY PROSPERING

President Sise Dwells Upon the Opposition of Some Toronto People to the Company

Montreal, February 25.—At the annual meeting of the Bell Telephone Company, Mr. C. F. Sise, the president, pointed out that, while twenty-five years ago the company began business with a capital of $297,000, the capital today was just a trifle short of eight millions in stock, and the reserve $2,000,000. In 1885 the long distance mileage amounted to 2,000 miles; today it is 32,000. Ten years ago there were 39,000,000 exchange connections during the twelve months; now there are 228,000,000. Ten years ago the subscribers throughout Canada numbered 29,000; now there are 66,000 instruments earning rental. Mr. Sise also remarked that the 20,000 shares of new stock issued during the year had been readily taken up at a premium of 25 per cent.

Mr. Sise stated that the company, under its charter, had the right of issuing $2,000,000 additional stock, a total of $10,000,000 in all. This, of course, was sufficient for future contingencies, but he very much doubted if Parliament could be induced to grant additional powers without a great deal of trouble, owing to the opposition of some of the people of Toronto. They had the right, however, to issue bonds.

Mr. C. P. Sclater, the secretary, in the annual statement pointed out that 8,988 subscribers had been added during the year, and that 1,242 miles of wire had been added to the long distance system. The total receipts for the year amounted to $2,-939,653, the operating expenses were $2,078 492. The net revenue was $701,000. Of this amount dividends took $588,000.

PRACTICAL RECOGNITION

His Lordship, Bishop Scollard, Presented with a Beautiful Crozier and a Purse of Gold.

After the banquet, in the Concert Hall, which was given to the clergy attending the late consecration ceremony, a reception was held in the cathedral by His Lordship Bishop Scollard. The clergy of the diocese of Peterborough presented His Lordship with an address and a purse of money. His Lordship in replying to the address, referred to the new diocese over which he was placed, its area, possibilities and great future. In his farewell words to his brother priests of the diocese of Peterborough, his manifestations of grief were so marked that he was obliged to discontinue his remarks.

The clergy of the Diocese of Sault Ste. Marie next followed with an address in French, and presented His Lordship Bishop Scollard with a beautiful crozier and purse of gold. His reply was a graceful one in every respect. The address was read by Rev. Father Langlois, S.J., Sturgeon Falls, and the presentation made by Rev. Father Primeau, S.J., Sudbury.

Next followed a brief address from a body of laity, comprising several members of Ottawa Council Knights of Columbus. The address was accompanied by a gift of a pictoral cross, beautifully bejewelled. The address was signed by Hon. Chas. Fitzpatrick, Minister of Justice; Hon. John Costigan, M.P., Hon. F. R. Latchford, J. B. McColl, M.P., West Northumberland; C. A. McCool, M.P., Nipissing; Chevalier John Heney, M. J. Gorman, K.C., Ottawa; W. Powers, M. P., Quebec, and other distinguished Roman Catholics of the Dominion.

His Lordship had an address presented to him yesterday, in Ennismore, by his old parishioners of St. Martin's church. He will assume charge of the new diocese of Sault Ste. Marie next Sunday.

Rev D O Crossley Surprised

The many friends of the Rev. Mr. Crossley, who was a few years ago, pastor of the Charlotte street Methodist church, will be interested to learn that he has been called to Whitby. The Port Hope Times says; Rev. D. O. Crossley, who has very acceptably filled three years' pastorate in the Methodist church at Bowmanville, has received an unanimous invitation from the official and Trustee Boards of Whitby Methodist Tabernacle to become their pastor after next conference. He has accepted the invitation, subject to the will of the Stationing Committee. Rev. Verner H. Emery of Whitby has received and accepted a similar invitation to succeed Mr. Crossley in the pastorate at Bowmanville. The church there has a membership of nearly 600, and pays a salary of $1,600 with free parsonage. The church is a very happy one, with two towns, one of which contains a church of

ANNUAL SOCIAL

The Annual Social Given to the Students of the Peterborough Business College by the Y.M.C.A.

The sterling merit and growing importance of our local seat of mercantile learning, as well as the high moral standing of its pupils is evidenced by the fact that the Y.M.C.A., has again followed the precedent it established of giving an annual social to the students of the Peterborough Business College.

Mr. Pringle, the Principal, at the very pleasant reunion in the Y.M.C.A. parlors, in thanking their hosts for the honor done him and his associates, feelingly referred to the power they in connection with the Y.M.C.A. must have in framing the whole future lives of his students.

Mr. Williamson discharged the duties of chairman.

Solos were rendered by Messrs. N. Redpath and J. B. Sproule, both receiving encores.

Instrumentals were given by Miss Dobbin and Messrs. Blewitt and Todd.

Addresses were given by Messrs. J. C. Brown, I.P.S. for Peterborough County and Mr. A. W. Crossman.

Mr. Brown spoke of the need of spelling reform and outlined the principal phases of his phonetic system. He also gave the boys some good advice along the line of business success.

Mr. Crossman's address was packed full of good suggestions out of the experience of a successful business man.

Mr. Dridge favored the company with a number of gramaphone selections. After refreshments the gathering dispersed with the singing of "God Save the King."

Peterborough Firm Get Contract

Messrs. Duncan and Doups, the Brock street painters, in competition with Port Hope, and local firms, were awarded the contract of decorating the Toronto Bank at Millbrook. They were working all last week, and will probably complete the job by Wednesday. A Port Hope gentleman told The Times that this Millbrook Bank is as handsome in appearance inside as any bank in Peterborough. Peterborough talent will tell. The bank has just had an addition added to the rear to provide sleeping quart

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The O.H.A. have ordered the Marlboro-Smith Falls game to be played off at Peterborough or Kingston.

* * * *

The Peterborough seniors will play in Berlin on Wednesday night the return game being played here Friday night. The winner of the round will go into the finals with Victoria Harbor.

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to E. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

FERROZONE

Will Make You Feel Like New - It Vitalizes, Tones and Strengthens

The best medicine for restoring vitality and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs. Mary Mc-long, of Harbor Houche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night, bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 27 1905

THE STATUS OF SEPARATE SCHOOLS

The argument in favor of dividing the school taxes of bonused industries in proportion to the population rests upon the assumption that Public and Separate Schools are upon a level before the law. That is a false premise from which to argue. The State Schools are the Public Schools. They are designed for the education of all classes. The program of studies is arranged with that object in view. No matter what religious creed a man professes, he can send his children to the Public Schools without the least danger of having them taught doctrines to which he objects. The purpose of the Public Schools is to equip boys and girls for the duties of life. The moral discipline that accompanies the instruction is such as would be approved by every thoughtful parent. The convictions of neither Jew nor Unitarian could be offended by what is taught in the State Schools, let alone those of a Roman Catholic.

The Separate Schools, on the other hand, are strictly and admittedly sectarian. They are designed to teach the pupils the dogmas of the Church. No Protestant could send his children to a Separate School and be sure that his religious views were not being influenced thereby. There are strong grounds for arguing against the existence of Separate Schools. In this Province they are conducted under a compromise that was accepted in good faith by Public School supporters. The limits have been set in the statutes of the Province. The concessions granted were generous in the extreme. It was a generous act to grant them official recognition in the first place. The State had established schools which were open to the children of Roman Catholics upon exactly the same terms as to all other classes in the community. But they demanded the privilege of having Separate Schools in which the Roman Catholic religion should be taught. In the United States they are compelled to pay extra for that privilege. Every Roman Catholic taxpayer in the United States must contribute to the support of the Public Schools. If they wish to teach the catechism along with secular subjects, they must provide funds for that purpose in addition to paying the regular school rate. The comparison gives some idea of the generosity that has been displayed towards the Church in this Province.

The law in Ontario gives every dollar of taxes paid by the Roman Catholics for education to the Separate Schools. What more in fairness could be asked? Having obtained the right to apply every cent of their school taxes to their own schools, it is surely exceeding all reasonable bounds for Roman Catholics to demand a proportion of the taxes paid by Protestants, such as was demanded quite recently in several localities in this Province.

In the matter of the North-West, Roman Catholics are absolutely within their rights in asking the Government of the new Provinces for separate Schools. They are entirely outside their rights in asking the Federal Government to improve Separate Schools upon the local Governments. The Government of Canada should make haste to grant a full measure of autonomy, and to consign this dangerous question to the new Province or Provinces, to be settled there, and there alone. The issue then will be purely Provincial and in each Province will possess distinctive phases which will render a general agitation all but impossible.

THE ENGINEERING MAGAZINE

The Engineering Magazine for March opens with an article by Mr. H. L. Gantt, the widely-known inventor of the "Bonus System" of wage payment. His theme is the "Compensation of Labor," and presents probably the most comprehensive statement yet made of the view that all methods of wage-fixing are—or should be—attempts to make employer and employee see the facts in the same light. His paper is an excellent exposition of the most advanced practice in works management. Another important contribution in the same field is Mr. A. W. Buell's discussion of "Cost Keeping in General Contract Work," which closes the number. It is an extension of the methods of analytical study and exact control into a hitherto almost unexplored field. Mr. Arnold's illustrated account of the storeroom methods of the Pond shops is an interesting example of special practice.

Monsieur L. Periaux, secretary of the technical section of the Automobile Club de Paris, contributes a very interesting illustrated review of the latest types of heavy motor vehicles and their use and economy. Mr. Alex. Del Mar, the distinguished authority on the precious metals, describes remarkable hydraulic work in the ancient Roman placers of Las Medulas, Spain. Mr. R. Neilson presents the first of a series of fully illustrated articles on modern steam-engine economy, taking up first the superheating of steam, and Mr. F. V. Henshaw compares critically the various systems of power supply for mining work. The number carries also the usual complete Review of the Engineering Press and The Engineering Index.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

John L. Sullivan's challenge to J. J. Corbett was the sensation in pugilistic circles last week. The old gladiator was in St. Louis, and everywhere his defi was greeted by derision. Corbett ridiculed it more than any one else.

"Fight old John L.? Why, the idea is preposterous," stated Corbett to a reporter, when he read the challenge. "Sullivan should shut up and leave the fighting game to the young fellows. He's an old man and is out of it now."

Sullivan is wrathy over Corbett's remarks concerning his age.

"I'm not so old but I can whip that dude," declares John L. "He says I'm an old man and ought to shut up. Well, I'm only 46 and Jim is precious near 40, so there isn't much difference in our ages, is there?"

John L.'s interview with the St. Louis Star, for it was an interview the Old Roman had with that paper, was held over the 'phone.

"Ting-a-ling-a-ling."

"Hello. This is the sporting editor of the Star. Who's that?"

"Sullivan, John L. Sullivan."

"Hello, old boy, what can the Star do for you?"

"Well, it's just this. I notice that the other papers are making fun of my challenge to Corbett. The Star has always been friendly to me. It's the best sporting paper in the west and I want you to hear all I have to say. Don't interrupt me until I'm through. My challenge to Corbett is on the square. I don't want to fight him just yet. I ain't in shape to do that, but I'll be all right in say six months from now. I've figured it out—been tipped off by a man who knows—that the boxing game will soon be on again in New York. Bouts limited to eight rounds, or, my friend, will be allowed. So I want to get Jim Corbett in the 'old town' when the game is re-opened there. To show that I'm sincere I'll bet $10,000 I can store away that dude. He's the one blot on my reputation.

"I ain't issuing this challenge to advertise any saloon or anything else. I may not be as good as I was once but I'm still good enough to thrash the daylights out of that hand-painted bluffer. Eight rounds is about my distance, but within six months I'll be in good shape enough to go that far with Corbett or any of them. Please publish my statement as I want to let all my friends know that my challenge of last week was no drunken talk. I ain't drinking no more, and hope I never will again."

"We'll be glad to print your statement, John. Is that all?"

"Yes. Good-bye, young fellow. Say! Remember, tell the public John's drinking days are over, and he'll trod the narrow path from now on. Good-bye!"

"Buzz-zzzzz!"

And the interview was over.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1908.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvelously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Silverton, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

Capital $625,000, of which 35 per cent in shares is now in our Treasury. Shares fully paid and non-assessable.

Mines directly west of the LeRoi and LeRoi No. 2, War Eagle and Centre Star, four of the largest gold-copper mines in the world, all of which have paid large dividends.

Same identical ore and veins now in sight on the BIG FOUR. Large ore bodies.

Assays from $6 to $800 in gold, copper, silver, etc. Very rich display in new ore exhibition in the city are exhibits, causing wide comment.

We have nearly two miles of Railway on Big Four property with water and timber in abundance.

Rossland ore shipments for 1903, 280,000 tons. Shipped for 1904, about 410,000 tons, 1905 about 400,000 tons. Total value of Rossland ores mined, $21,000,000.

Rossland's large ore bodies are a great success with the concentration system of ore reduction. $3.00 ore now pays to mine as now proved by the latest reports and dividends.

No less than 100 shares sold. Shares can be had on instalment plan, payments monthly. Twenty per cent. cash, balance within a year.

Company has no debts or liabilities and a full force of men now working.

References.—The Hon. Mayor, Gold Commissioner, postmaster, or any bank or business man in city.

There is a tide in the affairs of men
Which taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries.

25000 SHARES

The above number of shares of stock that is worth to day on the open market $6,000, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, rail; and over one mile long, ongoing on track; offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver. 1800 foot working tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which will then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately? As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 150 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

POLAND IS IN FULL REVOLT

A Great Financial Crash is Threatened in Europe of Revolutionists upon St. Petersburg Government.

St. Petersburg, February 24.—The situation in Russia is full of danger to the peace of Europe. Corrupt, military despotism has at last driven the working people into revolt. As long as nihilism was in the hands of the educated classes it gave no serious trouble to the authorities, for it gained no hold of the working people. The new organization, which began in the strikes of 1896-1897, and has now culminated in the general uprising of the workers in the great cities, heralds a socialistic movement, and before many days are past its importance will be shown by a movement in Poland.

The Russian officials in the Polish provinces are incompetent and corrupt. The Poles are excluded from all official posts. "The Russian officials are half-educated, stupid, ill-mannered, callous, lazy and discourteous." These are the words of Prince Imeretinsky, who confidentially reported to his imperial master on the condition of the Russian provinces of Poland. The Poles are a half-conquered people. They are the most strenuous enemies of the Russian officials in particular. A revolutionary movement has been brewing in Poland for the last eight years and the passion of Polish nationality is even more intense than that of Finland.

The Poles are clever revolutionists. Thousands of exciting pamphlets have been circulated through the masses of the working people. The factory workers have little else to read than revolutionary literature, for the government starves their minds in obedience to Pobiedonostoff's purpose of keeping the people ignorant and seething them in superstition.

After a hundred years of Russian domination the hatred of Poland is greater than ever. Although there has been no insurrection for forty years, the Poles are still striving for their independence, and a Polish insurrection today would be more unanimously supported by the Polish people in 1863. The people, moreover, are better educated, for the insurrection of 1863 collapsed largely through the ignorance of the people. The state of anti-Russian feeling in Poland is more menacing than in Finland.

The alien question, which threatened to become the battle ground of English politics in the next session of parliament, is closely affected by the outbreak of revolution in Russia. The Jewish inhabitants of the sixteen provinces of the Pale are the most intelligent and intellectual of the many races under the sway of the Romanoff.

tion and no constitutional change can take place in Russia without opening the gates of the reservoir of Jewish mind and character now pent up.

The effect of the emancipation of the Jews in Russia will be an event of stupendous importance to the world. At present a small percentage only of the Jews are allowed to receive education. When culture is accessible to all of them the acuteness and brain power which has enabled the Jewish people to acquire the control of the finances, the press, and the telegraph news system of Europe, of the theatres of America, and of the gold supply in South Africa will quickly make them predominant within the Russian Empire. Scarcely a decade will pass before the stupid, intemperate and corrupt Slavonic officials are replaced by alert, intellectual and efficient administrators of the Jewish race. Whether this is an advantage or the reverse is a matter of opinion.

JEWISH EMANCIPATION

Believed the End of Jewish Persecution at Hand

London, February 24.—The Russian system of stunting the mind of the Jewish children has had the natural effect of turning Jewish intellect into undesirable channels. Hence the majority of the leaders of revolutionary movements are of Hebrew origin. My authorities for making this statement are M. Gorymekine, who was minister of the interior ten years ago, and M. Plehve, who made the same statement to me shortly before his death. No revolu-

THE RUSSIAN GRAND DUKE

Where the Enormous Wealth of Russia Goes at Present

London, February 24.—The Post St. Petersburg's special says: The three miles of palaces on the south bank of the Veva are inhabited mostly by grand dukes and their parasites. This is where the wealth of Russia has been absorbed. The disappearance of the grand dukes, the suppression of their revenues, and the transfer of power to competent and honest people are things essen

WOMAN'S AUXILIARY

St. Luke's Church Branch Elect Officers at Their Annual Meeting

St. Luke's church has seen another year of good work done by the Woman's Auxiliary of that parish. At the annual meeting the various officers presented their reports, and, judging by reports, the officials of the Auxiliary have been indefatiguable in their labors, and much good has accrued. The total funds received, amounting to $252.74, to which was added the talent fund, originated by some of the members, which amounted to $54.73.

Two bales were sent, one to The Blackfoot Home hospital, the other to the Sarcee Home. The value of the bales is estimated to be about $100. The election of officers resulted as follows;

Hon. President—Mrs. E. A. Peck.
Pres.—Mrs. Walter Boswell.
1st. Vice-Pres.—Mrs. E. A. Langfeldt.
2nd Vice-Pres.—Mrs. W. J. Scott,
Corres. Sec.—Mrs. J. J. Turner, jr.
Rec.-Sec.—Mrs. H. Butcher.
Treas.—Mrs. L. Geakins.
Dorcas Sec.—Mrs. F. J. Jamieson.
Organist—Mrs. Graham.
Superintendent of Juniors — Mrs. A. O. Sawyer.
Representatives on executive appointed by the rector—Mrs. Phillips, and Mrs. Launderville.
P. M. C. Convenor and treasurer—Mrs. L. Turner.
Delegates to annual meeting—Mrs. G. R. Browning and Mrs. H. Butcher.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanitarium and Free Hospital for Consumptives, is now well known.

The 1,800 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 3,484 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

GREAT COUNTRY GRAND CHANCES GLORIOUS CLIMATE

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $370,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire width and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested; the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

You Take It Mixed With Air

A Powerful Destroyer of Disease Germs Which Cures Every Type of Catarrh Bronchitis and Throat Trouble.

Ever since Adam the air of the Pine woods has been known to possess marvellous healing properties. In fact doctors claim that people living in the balsamic atmosphere of the woods never contract consumption or catarrh.

A new remedy that embraces all the healing curative powers of the pine woods has at last been realized. It contains the balsams, the ozone and many other antiseptics that make it an absolute cure for all catarrhal diseases.

For years doctors have been looking for just such a remedy and claim the newly discovered Catarrhozone is the most effectual, the most scientific cure for catarrh, bronchitis and winter ills, they have ever met.

So powerfully healing is Catarrhozone that simple colds in the head and coughs can be cured in less than an hour. Chronic catarrh is eradicated from the system in the most thorough manner. It doesn't matter whether the catarrh affects the nose, throat or stomach, it can be completely driven from the system by using fragrant healing Catarrhozone.

The remotest parts of the lungs and air passages often contain germs of catarrh and consumption which cannot be reached by ordinary treatments. But the searching vapor of Catarrhozone carries its antiseptic healing power direct to those isolated spots. So thoroughly does Catarrhozone reach all diseased surfaces that it cures for all time, and no relapse need ever be feared.

"My nose was so stuffed up from catarrh that I could not breathe except through my mouth," writes John D. Perkins, a well known merchant in Hamburg. "My breath was horribly offensive and my digestion was completely knocked out. I used Catarrhozone, and was cured in two weeks. I wouldn't take five thousand dollars for the benefit and good health I received from Catarrhozone which I can recommend as a certain, absolute cure for catarrh."

Two months treatment costs $1.00; sample size, 25c. At druggists or by mail from N. C. Polson & Co., Hartford Conn., U.S.A. and Kingston, Ont. Catarrhozone always cures—refuse a substitute, and insist on getting Catarrhozone when you ask for it.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand Trunk Agent.

Fire vs. Enterprise

Fire destroyed the most complete odd stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunslow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

Saturday's Market

There was a very fair sized market Saturday morning, the country roads having improved considerably. The supply of butter was large. The selling price was 25 cents per lb. Fresh eggs were there in abundance, and the quotation was 25 cents per dozen. Apples were offered in good quantities, and were disposed of from 65 to 90 cents per bag. Beef was selling at from five to six cents, and there was a fair representation of pork, there being no change in the quotation. The fact that butter has come down in price is particularly gratifying to those who had to buy it. Last Saturday it was selling at 45 cents.

The attendance at the
Peterboro Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE.

Bijou Comedy Company will Return

The Bijou Comedy Company ended a very successful week at the opera house on Saturday. Saturday evening standing room was at a discount. This excellent company leave this morning for Lindsay, where they play a week's engagement. They will return to Peterborough, on the 6th of March, and have arranged to play here for a week, when they will present a varied program of the best dramas and comedies.

New Library Books

The following new books have just been added to the Public Library:—
The Christian Opportunity—Davidson.
Japan—Hearn.
By the Fireside—Wagner.
The Garden of Allah—Richens.
Kate of Kate Hall—Fowler.
The Prodigal Son, 2nd copy—Hall Caine.
The Prospector, 2nd Copy —Ralph Connor.

Bargains at the Grocery Sale

Now's the time to stock your larder with pure groceries. The great sale of the Tuck stock is attracting people who know what good groceries are at bargain prices. This is without exception, the best possible chance in years. The goods are being sold at wholesale prices, and less, and the quality is guaranteed. Your time will not be wasted in attending this sale, as every lot will be sold at quick clearing prices. Remember the sale is going on at the Co-operative Grocery Store, corner of Brock and George streets. E. F. Mason & Co.

A Brick Worth $1,000 on View

Had some of the down-east American confidence men been in Peterborough on Saturday, they would like the Arab have folded their tents and stolen away. In the window of the Star of the East Gold Mining Company, was a solid block of virgin gold, taken from their mine. It was brought by Mr. E. J. Cowan, the manager of the mine, who is enthusiastic about the mine's future. It took 100 tons of ore to produce this valuable little block, worth $1,000, and it weigh 51 ounces, and is eight inches by an inch and a quarter wide, and one inch thick. There are about 35 men at present employed at the mine, but just as soon as suitable buildings can be erected, the staff will be increased. In a short time it is expected that there will be a large settlement in the vicinity of the mine. The company is using steam power in connection with their plant at present, but intend developing electric power from the Mississipi Rover, a mile and a quarter distant.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Charity Board will meet tonight.

—The Ladies' Aid of Murray St. Baptist church will hold a national banquet on Thursday, March 9th.

—Shovel off your roof and your sidewalk as well. You will thus be a philanthropist and save an action for damages.

—Mr. J. S. Willison, the editor of the Toronto News, will give the next lecture under the auspices of the Fortnightly Club.

—It is understood that the recent bereavement in the family of Prof. Clarke, will not affect his engagement to lecture here in May.

—The House Committee of the Y.W.C.A. will meet this afternoon at three o'clock, and the monthly Board will meet half an hour later.

—The town was crowded on Saturday, owing in part to the beautiful weather and partly to the fact that the roads, although full of slush holes, were tolerably passable.

—The Music Committee of St. Andrew's church will meet on Wednesday evening next to consider applications for the position of sporano leader in the choir.

—His Lordship the Bishop of Calgary and his son E. T. J. V. Pinkham who is attending Trinity College School, were in town last week. The Bishop is on his way westward.

—"Life in the German Army," will prove to be a drawing card at the Baptist church, Park street, tonight. It is likely that many members of the 57th regiment will listen to the Rev. E. A. Langfeldt lecture.

—Mr. Fred Looney, an employe of the erecting department of the Canadian General Electric Company had his left hand rather badly burned on Friday last, while pulling out a heavily charged electric switch.

—Last week as one of the men were coming to town from the shanties, he had the misfortune to loose his pay order for $40. Will the finder oblige by leaving it at The Times office. It is not negociable.

—Miss Anna Hurley read a very interesting essay on Robert Emmet at the regular fortnightly meeting of the Ladies' Literary Association of St. Peter's T.A.S. which was held in the Association Hall Friday evening.

—A meeting of baseball enthusiasts was held at the Oriental Hotel on Friday evening. There was a fair attendance. The prospects of the coming season were discussed. Another meeting will be held shortly.

—Mr. J. S. Willison, managing editor of the Toronto News has consented to lecture before the Fortnightly Club here on "The Function of an Independent Newspaper." He will speak about the middle of March. The date will be announced definitely in a few days.

—The Peterborough Business College executed the address which was presented to His Lordship Bishop Scollard on Friday by the priests of the diocese of Peterborough. The address was illuminated and handsomely executed in colors, and is a credit to the gentleman, the result of whose skill it is.

—Mr Harry Long, the popular caterer had charge of the catering for the dinner which was served Friday after the consecration of Bishop Scollard in the Convent, and 90 persons were sat down to an excellently served repast. Bishop Scollard personally thanked Mr. Long for the way in which the dinner was handled.

—Mr. Percy Coward, formerly male alto soloist of the Westminster Abbey Choir, England, sang at both services in Charlotte street Methodist church yesterday. Also at the noon's meeting, Y.M.C.A., at four o'clock. The speaker at the latter service was Rev. W. J. Jolliffee. At the evening service Mr. Coward rendered "Life's Lullaby," and "Oh Lord Thou Hast Searched Me," in a very pleasing manner.

There's a reason.

The Happy Home.

Happiness must be founded on health. Where there is ill-health there will surely be unhappiness. The happiness of many a home has received its downfall at the table, spread with rich and dainty foods. The first symptoms of disease of the stomach are ignored as being disagreeable but not dangerous. Presently dyspepsia or some other form of disease fastens on the stomach.

At any stage Dr. Pierce's Golden Medical Discovery will cure diseases of the stomach and other organs of digestion and nutrition. But the cure is quicker if the "Discovery" is used in the earlier stages of disease. If you have any symptoms of diseased stomach use "Golden Medical Discovery" and be cured.

"I feel that I would be doing an injustice to you if I did not send you a statement of my case," writes Mrs. David W. Guice, of Hamburg, Franklin Co., Miss. "I had liver complaint and indigestion. Everything that I ate disagreed with me. I suffered all the time with swimming in my head; heart beat too fast; my feet and hands were cold all the time. Did not sleep well at all. Was able to get about but very little. I commenced to use Dr. Pierce's Golden Medical Discovery and "Pleasant Pellets" in May, 1897, and by December I could begin to get about very well. Have been doing my work ever since. Feel better than I have for several years."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

SOCIAL AND PERSONAL

—Mr. Anderson, M.P.P., East Peterborough, was in town on Saturday.

—Mr. R. R. Hall, M.P., our representation in the Dominion House is home for a day or two.

—Miss Minnie McHugh of Lindsay, who has been spending a couple of days in town, returned to her home Saturday night.

—Mr. H. Hall, who is located in the West at Westaskawin, Atla, is in town on a visit. He was formerly connected with the C.P.R. Telegraph office here.

—Evangelists Irving and May are to hold a series of gospel meetings in Peterborough, beginning to-morrow night in the Gospel Hall on George street.

—Mr. John A. Fowler, of North Monaghan, was in town Saturday for the first time in three weeks, owing to his having been laid up by an attack of la grippe.

—Mr. C. F. Winnegard, of Winnipeg, left for his home in North Williamsburg on Saturday after spending a visit in town as the guest of the Misses Robertson, Reid street.

—W. J. Kovnahan, H. W. Hogwood and Hugh Wilson, Toronto; A. H. Chadwick, Montreal; F. J. Miller, Montreal, and Charles Grasse, Hamilton are guests at the Oriental.

—Mr. Fred Taylor, manager of the Bank of Montreal in Chicago, a former manager of the Peterborough branch of the bank, has distinguished himself as a curler in the Windy City, having skipped the rink which won two cups at the big bonspiel there recently.

—Among those in town for the consecration, were Mrs. K. Corkery, Miss Lizzie, and Vincent Dwyer, of Lindsay, and Miss Minnie Mulhearn, of Campbellford, who were the guests of Mr. and Mrs. A. H. LeHane, 283 McDonnel street.

—The many friends of Mrs. R. J. Munroe, who has been under going treatment in Toronto, will be pleased to learn that she is gradually improving. Mr. Munroe went up to see her on Saturday, and will return to-day.

—We are pleased to state that Mr. D. W. Dumole was sufficiently recovered from his late illness, as to be able to resume his seat on the police court bench on Saturday. He was the recipient of congratulations from many citizens, who were truly glad to see him about again.

—Miss Banks Clementi was surprised last Friday night, when about twenty of her young friends called at the family residence, No. 451 Water street, as a genuine old fashioned unannounced surprise party. A pleasant evening was passed with dancing, games and music.

—Adjutant Jennings, of the Salvation Army received word on Saturday from Toronto that Brigadier Southall is ill and would not be able to come to conduct the services which were held yesterday. Brigadier Southall, it is hoped, will be able to come a week from to-day.

—Sergeant and Mrs John Martin, of Lindsay, are in town visiting their daughter, Mrs. Godfrey, 23 Sheridan street. It was Sergeant Martin's son, Arthur John Martin, a lad of 18 years of age who first discovered the dead body of Mrs. Hannah and her son on the G.T.R. tracks a week ago Saturday night.

—Mr. and Mrs. George McWilliams have been in town looking up old friends. While their home is in Toronto, Mr. McWilliams has been for a year at Regina, N.W.T., putting in a planing mill plant for a firm newly established in the city. They left on Saturday night for Toronto and will return to the West early in March.

JAPS SHELLING MUKDEN GENERAL BATTLE NOW ON

Desperate Fighting from Noon to Dark for Passes---Russians Admit Japs Made Great Progress in Their Attacks.

Mukden, via Tieling, Feb. 28.—According to a person who has just returned here from the front, the Japanese are shelling Mukden with eleven-inch mortars. The bombardment, which was recently commenced, is further reported to have caused great damage far behind the Russian lines.

Advice from Chinese sources say that a general engagement is in progress all along the line. The heaviest firing is reported to be on the right, and General Kuroki is said to be sweeping far north and threatening to crumple the Russians back on the railroad. A special force is reported to be moving from the south and east with the intention of cutting off Russian communication by railroad with Vladivostock.

Madyadani, Manchuria, Feb. 28.—After fighting of the most desperate nature the Russians remained yesterday evening in possession of Che and Da Passes, against which the Japanese had been flinging themselves madly from noon until dark. The Russians who were greatly out-numbered, sustained repeated attacks, some units losing as high as seventy per cent. in killed or wounded in hand-to-hand fighting with the bayonet.

St. Petersburg, Feb. 28.—A despatch from General Kuropatkin, dated Feb. 26th, says; "The enemy is continuing the offensive against the front of our Tsinketchen detachment, and has turned both its flanks.

"The Japanese have also advanced against Kantie Pass, turning our left flank, but all his attacks on Tangu and Beydsling have been repulsed. His offensive movement against Momaguzi has also been repulsed. At some positions our riflemen forced the Japanese outposts to retire. Col. Gorsky was severely wounded."

THE WAYS OF THE CZAR

A recent article in the Quarterly Review gave an intimate portrait of "The Czar," and purported to be written by a Russian familiar with the court. In the current National Review the same writer has a sequel to that article, which he calls "An Autocrasy at Work." He presents a view of the Czar quite different from the one commonly accepted. The monarch is neither a weakling overburdened by routine labor and so kept from the real government by the bureaucracy, nor a blunted egotist indifferent to all that goes on outside of his immediate entourage. He is rather a narrow-minded and obstinate ruler, who keeps the reins of government tightly in his own grasp and mars everything by his ignorant conceit. According to the present writer, he believed that no country, least of all Japan, would dare to make war on Russia, and that peace was certain until he himself might take the initiative. Consequently he did everything against the will of his officers to bring about war, while making no preparations for such an event. Thus Baron Rosen, the ambassador to the Mikado, prophesied the war two years before it broke out, but was disregarded by the Czar. To continue in the anonymous author's words:

More startling still, two days after his prophecy had come to pass, he received a telegram from St. Petersburg assuring him that "the rupture of diplomatic relations does not mean the beginning of war; war will be avoided." This amazing dispatch was grimly commented on by the Japanese navy, which on the evening of the very same day delivered their torpedo attack against the Port Arthur squadron! As the Ministry of Foreign Affairs has since denied having sent any such telegram to Admiral Alexieff, it is clear that His Majesty alone could have written and sent it.

It was Nicholas II., therefore, who literally hindered preparations for the war which he himself had precipitated. He elaborately deceived himself before endeavoring to deceive others. His ambassador in Tokio, Baron Rosen, it is now known, had written dispatch after dispatch, announcing the imminence of war, and foretelling an attack on Port Arthur, until the Czar, incensed at this persistence, penned a remark on the margin of one of the ambassador's dispatches which compelled Baron Rosen to eschew that topic in future. And then officials naturally acted on the view that war was impossible. Now a subject who should thus mislead his country would be charged with high treason. But all that we demand of the Czar is that he should always in the future put the conduct of such weighty affairs in the hands of the men whom he himself designated as competent.

THE SEASON OF LENT

Will Begin on March 8th—Rev. E. A. Langfeldt's Address to His Parishioners

The Lenten season will begin on Ash Wednesday March 8th. Special services will be held in all the Anglican churches during the six weeks preceding Easter.

Rev. E. A. Langfeldt, rector of St. Luke's church has addressed the following to his parishioners—

As the lover and watchman of your souls, I pray you to make this a real Lent. Hate and avoid the awful sham of pretending to keep the sacred season with "extraordinary acts and exercises of devotion," while secretly consulting your own conveniences and indulging your ordinary appetites of the flesh and mind.

Lent is a season of humility, of self-denial, of renewed consecration of faithful service. Try to realise the spirit of the time in all your religious duties and observances. By real self-denial and real devotion to Christ try to get nearer to God and come into touch with His Holy Spirit. Beware lest you receive the grace of God in vain. Do something for others—some act of real helpfulness, of true sympathy, of Christlike kindness—every day, and so get something of the spirit of the One who went about doing good. Open your hearts to every good cause, and especially to God's great cause and prove your interest by doing something and giving something to help it on.

Say "no" to social functions, banquets, receptions, dinner parties, card parties, theatres and other forms of amusement, and be bold and honest enough in declining them to show your colors by saying "for it is Lent."

Lay fiction aside and read the serious books. There are large areas of Christian literature to which you are a stranger. Read Church history, the history of the Prayer Book, the principles of Christian symbolism and ceremonial, the biography of eminent Churchmen, and above all the Bible. Read the scriptures daily, according to the lectionary in the Prayer Book.

Lent is a time for self-crucifixion, a season of deliberate and voluntary asceticism. The great object of Lent is a better and a sweeter Christian life, and more grace from God's Church.

Remember also that it is your duty and privilege to come to the Lord's Table at Easter. Let this be a guiding thought throughout Lent. Prepare for your Easter Communion by honest self-examination and thorough repentance.

Make this Lent a real work of devotion, so that with the Lord you may have a holy and happy Easter.

HARCOURT TO LEAD

Toronto, Feb. 27.—Mr. C. N. Bowman, M. P. P., Whip of the Provincial Opposition, stated this morning that ex-Premier Ross would not return for the opening of the Legislature, and that very probably, Mr. Richard Harcourt, who is the senior ex-Cabinet Minister, would lead the Opposition.

BELL TELEPHONE CO.

Annual Meeting Held on Friday Last

GREAT PROGRESS MADE

The Company in Splendid Shape, and the Outlook Most Encouraging

The annual meeting of the Bell Telephone Company, of Canada, was held on Friday at the main office, Montreal.

Mr. C. P. Sclater, secretary of the company, read the annual statement which contained the following special features.

8,989 subscribers had been added during the year, the total number of sets of instruments now earning rental being 88,160.

The company now owns and operates 675 exchanges and 789 agencies.

1,242 miles of wire had been added to the long distance system in 1904. The long distance lines now owned and operated by the company comprise 32,211 miles of wire on 7,800 miles of poles.

20,000 shares of new stock were offered to the shareholders at 25 per cent. premium, with the option of paying for them in full or in quarterly instalments. 16,845 shares were paid up in full. The amount of $1,910,950 has been received during the year on account of stock, and $479,240 for premium thereon. The latter amount in accordance with our usual custom has been carried to the contingent account.

From the balance of revenue account, $154,323.98, $35,505.29 have been carried to insurance reserve account; $23,958.35 to accident insurance reserve account, and $50,000 to contingent account; leaving balance of revenue to be carried to 1905, $44,-906.45.

The receipts for the year amounted to $2,838,653; the expenses including bond interest, etc., totalled $2,-231,748. The net revenue for 1904 was $701,900. Of this sum the dividends took $560,000, leaving the sum of $113,700, $109,500 of which was carried to reserve, accident and contingent account. The latter account, with the additions of $479,000 premium on stock, and $50,000 added to it this last year, now amounts to $1,-845,410.

Those present were: C. F. Sise, W. R. Driver, Robert Archer, Geo. Smith, Percy R. Gault, Hugh Paton, E. Rawlings, W. E. Cheese, Frs. McLennan, Robert Mackay, Geo. A. Greene, C. Camila, F. G. Payne, J. A. Hawthorne, John Patterson, W. H. Evans, Abner Kingman, G. M. Kinghorn, F. B. McNamee, R. P. McLea, Henry Morton, C. F. Paul, Gen. Caverhill, R. MacCulloch, J. B. Robertson, Alex. Robertson, B. A. Boss, P. S. Ross & Sons, W. C. McIntyre, M. N. De Lisle, Geo. Hale, C. P. Sclater, G. N. Monsel, M. J. Foley, S. G. McElwain, John Black, James Williamson, D. Ross-Ross, H. J. Madge, F. S. Lyman, A. G. Watson.

Mr. C. F. Sise, the president, gave some interesting figures pertaining to the growth of that corporation.

The company began business in Canada 25 years ago with a capital of $997,000. Today the capital is just a trifle short of eight millions; the bond issue is $2,000,000. In 1885, the long distance mileage amounted to 2,000 miles; today it is 32,000 miles; ten years ago there was 60,-000,000 exchange connections during the twelve months now there are 238,000,000 during the same period. Ten years ago the subscribers throughout Canada numbered 29,000; today there are 88,000 instruments rented.

THE OLDEST MAN IN NEW YORK

Joseph McGrath Dies in That City 109th Year

A REMARKABLE OLD MAN

He Leaves Two Hundred Descendants —Scattered Through the County

New York, February 28. — Joseph McGrath, who was born in County Down, Ireland, died this week in this city, in the one hundred and ninth year of his age. He left more than 200 direct descendants, including children, grandchildren, great-grand-children, and great-great-grandchildren. At the time of his death he was probably the oldest man in New York. His wife died twelve years ago. She was three years older than he, so that at the time of her death she was ninety-eight years of age.

Until a month ago Mr. McGrath was as vigorous as a man of sixty. He was always on the move, visiting friends in the neighborhood, where he was greatly beloved, and taking open-air exercise every day, rain or shine. Old age seemed to seize him all at once. He was obliged to take to his bed and rapidly grew weaker. Sunday night there were four generations about his bedside, and neighbors were calling constantly to ascertain his condition. When the news of his death was circulated early yesterday forenoon there were general expressions of grief.

Members of his family attribute his hardiness and longevity to the outdoor life he led. In his youth, which he spent in Ireland, he was known as one of the speediest runners in the whole countryside.

He was born in September, 1796, and learned the trade of a stone-cutter in Ireland, where he married. He did not come to America until he was more than fifty years of age, and brought a large family with him. His wife bore him eleven children, four of whom survive. Michael, the eldest, is now 75 years old. He is proprietor of a stoneyard at Eighty-first street and Avenue B, where he works as hard as any of his men. The other surviving children are Mrs. Bridget O'Connor, Mrs. Agnes Ketchum, and Mrs. Catherine Ruddy.

Mr. McGrath transmitted his love for athletics to his descendants. Joseph A. Ruddy, the well-known swimmer of the New York Athletic Club, is a grandson. Stephen Ruddy was another well-known athlete who belonged to the old Manhattan Club.

"My father-in-law was a remarkable man," said Mr. Ruddy yesterday. "He worked hard until he quit active business some years ago, and then liked to be out in the open every day. He was a great smoker and took his little nip whenever he wanted to, but he was temperate and a great believer in exercise."

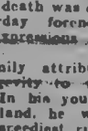
From the moment he received his naturalization papers Mr. McGrath took an interest in politics. He was a staunch adherent of Tammany Hall, and cast a ballot in the last election for the Democratic ticket. He was a man of some means, owning property at Whitestone, L. I.

The funeral was an event of moment in the neighborhood. Requiem high mass was said at St. Monica's, where Mr. McGrath had attended service regularly until he was obliged to take to his bed. The Rev. Father Walker, of the Jesuit church, in Sixtieth street, who had known him for forty-odd years, officiated.

Police Court

OFFICIALS

Chief of Police, C.I. Reed
Magistrate, D.W. Dumble



When Magistrate D. W. Dumble opened the Police Court yesterday morning, he saw a larger attendance than as customary. As foretold in the family journal yesterday, Henry Truesdale appeared to answer the charge of stealing a wolfskin rug from F. Heard of Smith. The case was defended by Mr. Medd of Hall, Davidson and Medd. The first witness, Mr. Heard, deposed that he had left his sleigh in the Windsor Hotel sheds, while he went to the Commercial House on business, leaving his father, who was intoxicated, in charge. On his return, in about ten minutes, his wolf-skin rug had disappeared. He was then notified by a lad named Fred Sullivan that a man had stolen his robe and drove off with it. Other witnesses were called who corroborated the evidence of Heard in most points. The lad, Sullivan, swore unhesitatingly that he had seen the prisoner carry over and deposit in his own rig the rug, which he identified as the one in court, exhibit A, as the one taken by the prisoner. A passage of arms was held between the lawyer for the defendant and the Prosecuting Attorney, Mr. R. E. Wood, as to the exact style, limit, description and extent of the jag carried by the man left by Heard in charge of the sleigh, to establish his ability or otherwise, to know by whom or how the rug had disappeared. The prisoner gave his evidence, which was flatly contradictory to that of the main witness, Sullivan. In summing up the case, the Magistrate considered that owing to the large number of farmers putting up in the various hotel yards in town, protection must be given their property, and to establish a precedent issued a pass for one to Castle Nesbitt, with hard labor, in favor of Henry Truesdale; said pass expires one month from

John Longdo, a quick and spanlooking young man faced the music on a charge of non-support of his wife. He pleaded with the Magistrate for an extension of time, in which to procure witnesses and was allowed to go on his own recognisances, to appear in a week's time.

A CATHEDRAL WEDDING

Nuptials of Mrs. D. O'Connell and Mr. John Flood, of Leduc, Alberta

At eight o'clock yesterday morning, St. Peter's cathedral was the scene of a very pretty wedding, when Mrs. D. O'Connell, daughter of Mr. C. Holland, town, and Mr. John Flood, of Leduc, Alberta, son of the late John Flood, of Enniskmore, were united in marriage by Rev. Father McColl.

The bride was most becomingly attired, and was attended by her sister, Miss Josephine Holland. The groom was supported by his cousin, Mr. Timothy O'Donaghue, of Strathclair, Man.

After the ceremony a dainty wedding breakfast was served at the home of the bride's father, after which the happy young couple left on the 11.45 C.P.R. train for their future home in Leduc, Alberta, followed by the good wishes of their many friends.

A large number of handsome and costly presents were received. The groom's gift to the bride was a Persian lamb coat with sable trimmings.

STUNDISTS MAY COME

Berlin, Germany, Feb. 27, —The Berliner Zeitung reports that 200,000 Russian Stundists are preparing to emigrate to Canada. The Stundists are members of a Russian religious community numbering 5,000,000 in the year 1900.

MENACE OF REVOLT THROUGHOUT RUSSIA

Organized Rising in the Caucasus now Reported

MAIN POLISH LINE TIED UP

No Trains out of Warsaw—Mob Destroys Factories at Riga—Slaughter at Baku

Berlin, February 28. — Telegrams which continue to arrive from almost every part of Russia tend to show that the labor movement and the attendant political disturbances have become epidemic and universal throughout the empire.

According to telegrams from various towns of the Caucasus district the Tatars, Armenians, and Circassians have banded together against the Government and the local authorities. Troops sent to deal with the movement are believed to have been repulsed and to have lost a number of rifles and other arms, including guns. The Governor of the Caucasus is said to be a prisoner in the hand sof the insurgents.

The telegraph service and railway communications are suspended. At Batum many steamers are unable to unload their cargoes.

Similar news comes from other South Russian industrial centres, and large bodies of revolutionaries are apparently encamped outside some of the towns.

Serious fires are reported in various localities in the oil fields.

The authorities are inactive either by design or because they are unable to cope with the situation.

The news from the northern provinces of Russia and from Russian Poland is no less grave.

In Riga the workmen are destroying factories. Cossacks and dragoons are being employed against the mob, and sanguinary encounters are occurring.

In Kharkoff a fresh strike has broken out.

Grand Rally at the Y.M.C.A. Sunday

Sunday last was a red letter day at the Y.M.C.A men's meeting. The Rev. W. J. Jolliffe, whose well-known ability and powers of oratorical persuasion always attract an audience, was down as speaker for the day, and this fact alone was sufficient to draw a crowd. At the men's meeting the attendance exceeded all past records, as there were over 100 men present to hear the rev. gentleman, who took as his subject "Leaving Home." His address was pointed but pleasing, and those present could not help but be deeply impressed. The effect of his words was patent to any onlooker, by the fixed attention of his audience.

Proposed Rubber Company

Bowmanville will vote to-morrow on the question of granting an additional bonus of $15,000 to the Durham Rubber Company. Some years ago, when the company was organized, they granted it a bonus, and now they are asking for another dose of financial pap. As a bait to catch the desired assistance, they dangled before the eyes of the Bowmanvillians, a statement that Peterborough had offered them $25,000 to come to this town. The town clerk here has no knowledge that Peterborough ever made any such bid for this factory; still if it, or any other concern that will employ help largely and run steadily, will come here on terms in

THE JAPANESE AT WORK CLOSE TO THE PASSES

Kouropatkin Reports the Enemy Cannonading in Another Direction---Russians Driven From a Hill Despite Exploding Mines.

St. Petersburg, Feb. 28.—General Kuropatkin, in a despatch dated Feb. 26, announced that the Japanese have commenced cannonading in the direction of Gauto and Wanfun Passes.

A JAPANESE SUCCESS.

St. Petersburg, Feb. 28.—General Sakharoff, General Kuropatkin's chief of Staff, in a despatch dated today, reports that when the Japanese attacked and captured Beresneff Hill on February 24 their dead lay in heaps. The Russian losses have not yet been ascertained.

The text of General Sakharoff's despatch is a follows:

We evacuated Beresneff Hill after a severe bayonet fight, the enemy bringing to the attack a considerable superior force. The attack on Tsenti Pass was repulsed. At Beresneff Hill the Japanese advanced over the bodies of their own dead, in the face of exploding surface mines, and through barbed wire entanglements. Their losses were considerable. Ours have not yet been ascertained.

HASTINGS HAPPENINGS

Two Painful Accidents Happened at Hastings Yesterday

A man, whose name is not yet known here, was injured yesterday by coming violently into collision with a car, as he jumped from the Grand Junction train which arrived in Hastings at 9.30 a.m. The man had taken the 6.30 a.m. train here, and in a hurry to get off the train at Hastings, as the train was pulling into that station, jumped for the platform, and slipping, struck his head against a car standing on an adjacent siding. He cut his head, and bled profusely; the wound, a scalp one, after the usual medical preliminary precautions had been attended to, was closed by a large number of stitches. The half-dazed man, who is a French Canadian, was taken at once to the Royal Hotel, and will recover.

Another accident occurred at Hastings yesterday, and, only too sad to relate, terminated fatally. As Mr. Wesley Cormick was adjusting a belt connecting the machinery in the Weisl. tannery of that village, he was caught by the flying belt and whirling round was immediately killed, both legs being torn off, and one arm at the elbow. He came from Havelock about two years ago, and has since his arrival, worked for the same tannery. Mr. Cormick was a married man, and leaves a large family without the means of support.

WHO FOUND BODY?

Mr. William Vass Claims Credit for Prompt ness in Notifying the Authorities

The local papers have given credit to John Martin for promptness in notifying the authorities of finding the bodies of the late Mrs. Hannah and her grandson, who met with such a sad and fatal accident last week. Now Mr. William Vass is not pleased that the whole credit is given to Mr. Martin, and says,—

"It is true that John Martin did find the bodies, but did not know that they were dead bodies until he reached the signal house at the diamond, where he told Mr. Graham. Mr. Penrose and myself there was something on the track. On being asked what it was, he said he did not know, but said there were boots and rubbers. We went to the spot and found the unfortunate woman and boy. Mr. Graham, Mr. Penrose and myself examined the woman and boy for signs of life and seeing they were dead, I, myself, promptly notified the railway authorities. Mr. Graham ran for Dr. Gray and also sent for the ambulance. Arthur Vass also arrived shortly and to make sure the ambulance would come, went to Braund's store and telephoned for it. As far as promptness, foresight, and good judgment are concerned, Mr. Martin never made any move to notify anyone after the bodies were found."

WANTS A DIVORCE

County of Durham Seeking to be Separated From Northumberland

In view of the fact that the Port Hope townspeople are moving both this mundane sphere and the starry firmament to get the outlet of the Trent Valley Canal at Port Hope, it may interest our readers to learn that the powers that be in the County of Durham, are trying to get their county separated from Northumberland. A largely attended meeting of the reeves, councillors, and commissioners of Durham county, has been held in Port Hope for organisation for the attainment of that idea. They feel that the burden of taxation for bridges over the Trent River, and other public works in Northumberland falls in unjust proportion on their shoulders. There were over 50 delegates from every municipality of Durham in attendance. John Kennedy, Warden of the united counties, was appointed Chairman, and Mr. Frank Mason, of Bowmanville, secretary. The meeting, which was in session all afternoon, appointed P. C. Trebilcock, Bowmanville; W. J. Bragg, Darlington; Thomas Donaldson, Cavan; A. A. Power, Clarke, and Thos. Long, Port Hope, a committee to procure the necessary information for further action, to report at an adjourned meeting in Port Hope three weeks from to-day.

Mr. Tom Boddy Leaves To-day

It is altogether likely that Mr. T. E. Boddy will leave Peterborough today for his new home in Streetsville. During the many years that Mr. Boddy has filled, so ably, the position of ticket agent for the C.P.R. he has made a host of friends in town, and when he changes his vocation from trying to save the legitimate passage money of the C.P.R. from the ticket

ATHLETIC WORLD

The T.A.C. and Cobourg will play to-night.

The Peterborough seniors will leave to-morrow morning on the 7.10 train for Berlin.

Will Play Here.

Toronto Telegram: The Marlboros have quite decided to play off against Smith's Falls for the O.H.A. senior championship on to-morrow week. They have chosen Peterborough as the scene of the struggle. The meeting of the club at the rink to-night will be rather an informal affair to complete the details of the general plan already decided upon. It is not yet known what team can be gotten together, but in all likelihood the regular seven will be in condition for the match. Winchester is a little doubtful on account of parental opposition, and there are objections to some of the other men, but on Tuesday, March 7th, the full team will in all probability be on the ice at the face of the puck. A special train will be run from Toronto, leaving here about five o'clock and returning after the game. The Marlboros will likely ask for an umpire to annual the referee and watch the rough work, leaving the off-sides to the regular official, and there is more than possibility of the request being granted.

WILL MEET IN JUNE

Annual Meeting of the Farmers' Institute will be Held in June

The Board of Directors of the Farmers' Institute, have settled the date of their next annual meeting. Those present at the meeting were; Messrs. R. Q. Dench, president, in the chair; H. C. Garbutt, T. M. Hunter, G. W. Bennett, R. Hanbridge, Richard Nurse, John Stothart, G. W. Mann, Sandy Matchett, Alex. McGregor, John Deyell, F. E. Kline, T. D. Young, John McConkey, and the secretary.

It was decided on motion of Messrs. Hunter and Garbutt, that the annual meeting of the institute be held on Saturday, June 17th, at one p.m. in the council chamber, and that a special speaker from the Department would not be requisitioned.

The secretary regretted that the the membership last year had fallen off some, and, judging by present prospects the same would be the case this year, unless the members of the board did some missionary work in their own localities. Some years ago meetings had been held in Lakehurst, Hall's Bridge and Young's Point, but, owing to the apathy and lack of interest displayed by those residing in those localities, the meetings had been discontinued.

BACHELORS MUST PAY

New Assessment Act Hits Them Quite Hard

The Times figures it that the new Assessment Act will cut off several thousands of dollars, by reason of the fact that the householder's income tax exemption has been raised from $700 to $1,000. Thus the average married man and householder will be particularly pleased with this portion of the Act. But woe and lamentation is in store for the lone bachelor and the bachelor girl, and in fact for every person not a householder who earns more than four hundred dollars a year will have to pay taxes on everything over that sum. This applies to men and women, and we believe will affect a number of the women school teachers and stenographers about town. It will certainly affect a large number of young men who have hitherto escaped taxation altogether with the exception of the poll tax, which is really only a nominal sum. But, as we have said, we shall do very well indeed if we are able to make up what we shall lose by the raising of the exemption on others from $700 to $1,000."

CALLAGHAN—WILSON.

A very pretty wedding was celebrated at Campbellford yesterday, when Mr. D. L. Callaghan of that place, was united in marriage to Miss Lottie Wilson, of Ashley, by the Rev. Father Whibbs. The newly wedded couple passed through Peterborough last night on their honeymoon trip

Royal Baking Powder

45 CENTS a pound can — AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

MOTHERHOOD WEAKNESS

Is Promptly Overcome — Health and Vigor Permanently Restored

FERROZONE

Cures all Ailments From which Women Suffer

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they abstain from using a good remedy like Ferrozone. And it would cure them.

Nothing renews weak women like Ferrozone. It brings back lost nerve force, supplies new vital energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness, feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and so establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

THE SCHOOL QUESTION

The Hamilton Spectator says that the interference of the Federal parliament in the school laws of the new western province is a distinct violation of the letter and spirit of the British North America Act, which gives to the provinces the sole power to deal with the question of education. This view is shared in by The Times. Sir Wilfrid Laurier had no right—no excuse—to raise the question, nor to incorporate in the constitution of the provinces a clause which compels them to establish separate schools within their boundaries.

The proposed enactment is a bit of inexcusable tyranny on the part of Sir Wilfrid Laurier, who in his turn is tyrannised by the province of Quebec and its real government.

Sir Wilfrid was able to escape the condemnation of the great people of Canada, in the matter of the Manitoba school question, by reason of the friendship of Greenway, who allowed himself to be Sir Wilfrid's tool in making certain changes in the original Manitoba school act, and ever since other it has been the boast of the Liberals that "there has been no coercion under Laurier." The familiar sentence was used in the last election campaign—not that the constitution of the new provinces was a question set before the people, for Sir Wilfrid took good care that his intentions in that respect were kept dark.

But now that Sir Wilfrid is assured of another five years of power, he takes off the mask of "no coercion," and shows himself in his true colors, and proceeds contrary to the wishes of the great bulk of the people: contrary to the spirit of progress, and contrary to the constitution of Canada, to coerce the new provinces and fasten upon the western people, forever, the incubus of separate schools.

Unfortunately the people of the new provinces are thinking more, just now, of the location of municipal capitals than the effect of this unwarranted interference with their provincial rights and legitimate privileges, and, so far, there has not been much outcry against forcing upon them a heavy load of future trouble. But they will be heard from before the bill passes parliament.

Mr. Borden said but little on the subject, and what he did say was of a non-committal nature. The Quebec idea is strong among Canadian politicians of both parties. They look upon the Quebec vote as being the key to success, and both parties have been scrambling for it for years. To us it has always seemed to be a hopeless waste of energy to endeavor to wrest the Quebec vote from a Quebec man. We have no idea what course Mr. Borden intends to take when this outrageous interference with provincial rights comes up again for discussion. It is quite possible that he may be able to see that opposition to Sir Wilfrid's proposal will meet with the warmest approval of more than two-thirds of the people of Canada, and, leaving out all question of party advantage, that course would be right as well as just.

BELL TELEPHONE CO.

(Continued from page 1.)

Referring to the annual statement, Mr. Sise remarked that the 20,000 shares of new stock which has been issued during the year had been readily taken up at a premium of 25 per cent., in spite of the poor money market, which prevailed; this he considered extremely gratifying. A portion of the money accruing from this source, half a million, was utilized in paying off a loan from the banks. In this connection, the president remarked that the growth of the company in every direction, required the expenditure of large sums. Indeed, they could utilize the sum of $2,000,000 per year, in this direction profitably for some time to come. Eight years ago they had installed apparatus in Montreal under the delusion that it was large enough for all time; now they had been obliged to abandon this for larger switchboards. This class of apparatus was not obsolete. It was merely outgrown by the demands of the business.

The president stated that the company under its charter, had the right of issuing $2,000,000, additional stock, or $10,000,000 in all. This, of course, was insufficient for future contingencies, but he very much doubted if Parliament could be persuaded to grant additional powers, without a great deal of trouble, owing to the opposition of some of the people of Toronto. They had the right, however, to issue bonds.

Asked if the company suffered from competition, Mr. Sise said that they did not to any appreciable extent. There were here and there small concerns in the business. In the neighborhood of Quebec were a number of small corporations, which had extending lines into the rural districts; they were more of a convenience to the farmer than a commercial enterprise. One of them owned lately, had not been paying dividends. At the present some thirty municipalities in Canada had given the Bell Company exclusive rights.

Referring to the question of real estate, Mr. Sise pointed out the necessity of the Bell Telephone Company owning its own offices. Gradually they had accumulated throughout Canada a valuable lot of buildings. On the first of May the company would move into their new building in the east end of the city, which was being equipped with the most up-to-date telephone exchange in the world.

A great deal had been said relative to the slot telephone, which had been largely introduced in the city. These machines had been installed for the reason that certain subscribers had not lived up to their contract, which does not permit a use of the telephone by the general public. Mr. Sise remarked that within three days of the time the slot machine was introduced into saloons, cigar stores, etc., several firms, doing business on St. James street, had come around and subscribed, indicating that they had for years been conducting their business over their neighbors' 'phones. It was ascertained that one saloon keeper was reaping quite a profit from the public use of his telephone.

Mr. B. A. Boss congratulated the management warmly upon the lucid statement. He stated that the Bell was the best managed corporation in Canada.

Mr. W. H. Evans (Canada Paint Co.) also congratulated the company. He gave a humorous account of one of his former lingsmen in British Columbia who became homesick because he missed the crying of his large family of children in Montreal. Mr. Evans took him to the long distance instrument and satisfied his longings for domestic music!

The old board of directors was unanimously elected. The meeting was unusually well attended, those present representing 57,000 shares of stock.

The following were elected directors for the current year; C. F. Sise, president; Hon. Robert Mackay, vice-president; F. P. Fish, Robert Archer, Wm. B. Driver, Hugh Paton, Charles Cassils, Thos. Sherwin.

PRACTICAL RECOGNITION

His Lordship, Bishop Scollard, Presented with a Beautiful Crozier and a Purse of Gold.

After the banquet, in the Concert Hall, which was given to the clergy attending the late consecration ceremony, a reception was held in the cathedral by His Lordship Bishop Scollard. The clergy of the diocese of Peterborough presented His Lordship with an address and a purse of money. His Lordship in replying to the address, referred to the new diocese over which he was placed, its area, possibilities and great future. In his farewell words to his brother priests of the diocese of Peterborough, his manifestations of grief were so marked that he was obliged to discontinue his remarks.

The clergy of the Diocese of Sault Ste. Marie next followed with an address in French, and presented His Lordship Bishop Scollard with a beautiful crozier and purse of gold. His reply was a graceful one in every respect. The address was read by Rev. Father Langlois, S.J., Sturgeon Falls, and the presentation made by Rev. Father Primeau, S.J., Sudbury.

Next followed a brief address from a body of laity, comprising several members of Ottawa Council Knights of Columbus. The address was accompanied by a gift of a pictoral cross, beautifully bejewelled. The address was signed by Hon. Chas. Fitzpatrick, Minister of Justice; Hon. John Costigan, M.P., Hon. F. R. Latchford, J. B. McColl, M.P., West Northumberland; C. A. McCool, M.P., Nipissing; Chevalier John Heney, M. J. Gorman, K.C., Ottawa; W. Powers, M. P., Quebec, and other distinguished Roman Catholics of the Dominion.

His Lordship had an address presented to him Sunday, in Ennismore, by his old parishoners of St. Martin's church. He will assume charge of the new diocese of Sault Ste. Marie next Sunday.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer, under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling it piece at about $6.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 8000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEE ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

Before Treatment

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious break out come when 16 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice but received only temporary benefit. At last I gave up in despair, and, as months after months came and went I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 30 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or No pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

GREATEST GOLD DISCOVERY OF THE AGE IS IN B. C.

The Big Four

Consolidated Gold Mines Limited.

Capital $625,000, of which 35 per cent in shares is now in our Treasury. Shares fully paid and non-assessable.

Mines directly west of the LeRoi and LeRoi No. 2, War Eagle and Centre Star, four of the largest gold-copper mines in the world, all of which have paid large dividends.

Same identical ore and veins now in sight on the BIG FOUR. Large ore bodies.

Assays from $5 to $800 in gold, copper, silver, etc. Very rich display on view on exhibition in the city ore exhibit, causing wide comment.

We have nearly two miles of Railway on Big Four property with water and timber in abundance.

Rossland ore shipments for 1903, 280,000 tons. Shipped for 1903, about 410,000 tons, 1904 about 400 000 tons. Total value of Rossland ores mined, $31,000,000.

Rossland's large ore bodies are a great success with the concentration system of ore reduction. $3.00 ore now pays to mine as now proved by the latest reports and dividends.

No less than 100 shares sold. Shares can be had on instalment plan, payments monthly. Twenty per cent. cash, balance within a year.

Company has no debts or liabilities and a full force of men now working.

References.—The Hon. Mayor, Gold Commissioner, postmaster, or any bank or business man in city.

Any amount less than $100 send by postoffice or express money order; over this amount, by bank draft to Secretary

Big Four Consolidated Gold Mines, Ltd. Rossland, B. C., Can'a.

Order Blanks and our most comprehensive and complete Illustrated Free pamphlet showing all Rossland mines and giving valuable information, with Maps and Reports from Mining engineers, sent only to investors or those desiring to invest. Sent free on receipt of 10 cents in stamps for postage.

25000 SHARES

The above number of shares of stock that is worth to day on the open market $2,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver. 1800 feet works has timbered, shaft with three levels, ore hoisted by gravity dropping from one level to another through winzes into our own railroad cars, which will then be hauled to the smelter, that will sell or has ever sold their ores.

10 CENTS PER SHARE - PAR VALUE $1.00.

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately? As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

THE GREATEST WARSHIP AFLOAT

Japan now Building Mammoth War Vessel

WILL COST TEN MILLIONS

The Largest and Most Powerful Vessel in the World

London, February 27.—The Daily Telegraph says that the Mikado's Government will immediately begin at Yokosuka a battleship of 19,000 tons, with a speed of 18.25 knots and an armament of four 12-inch guns, twelve 10-inch guns, and twelve 4.7 inch guns.

This enormous vessel will be the largest and most powerful in the world, and in line of battle would be equivalent to three or four vessels of the ordinary type. It will cost probably ten millions of dollars.

Note that the ship will, besides four 12-inch guns, have twelve 10-inch. The great majority of existing battle ships have only four 10-inch guns as their chief battery, backed up by 6-inch ones, or, at best, 7.5-inch. Britain, hitherto always in the lead, has been arming her recent battle ships with four 10-inch guns as the leaders, and with 7.5-inch as the secondary battery. The biggest battleship built or building for Britain, is 16,500 tons, with 12-inch and 9.2-inch guns. A battle ship of 18,000 tons for the British navy was designed at the Admiralty in 1903, but the proposal was abandoned on account of the immense expense involved. But Japan faces more.

The Japanese have come to the conclusion, in which they appear to be endorsed by the great majority of naval experts, that the biggest ships and the biggest guns are the winners. The talk of the torpedo boat value, rife at the beginning of the war, is dead. It is realized that torpedo boats don't count except working from the protection of battleships or forts, and that if an enemy's battleship can beat yours, no boat you cooked no matter how many torpedo boats or cruisers you have.

The Japs are not stopping with their big new battleship. The two most powerful armored cruisers yet built are to be begun—powerful not so much in tonnage, which is to be 12,000 (Britain has larger) but in guns, namely, four 12-inch and six 10-inch each. "All future ships," says the Tokio correspondent of The Telegraph, "are to be heavily armed, all guns below 10-inch being discarded, as the lesson of the war clearly shows that long-range guns can alone be decisive in future naval warfare."

DON'T WANT SEPARATE SCHOOLS

Mr. W. D. Thornton, of Calgary, Says Fight is On

Mr. W. D. Thornton, of Calgary, is in town, after an absence of 26 years. Mr. Thornton formerly resided in Lakefield, and went to the west over a quarter of a century ago. He is accompanied by Mrs. Thornton, who is visiting relatives in this district.

Mr. Thornton thinks that the west will not tolerate Separate Schools, and if the Government tries to force them on the people, there will be serious trouble. He believes that this matter should be left to the people themselves to deal with.

Mr. and Mrs. Thornton will return to the west about the middle of March.

RIVAL TO CLERGUE

Big Works to be Erected on St. Mary' Rapids

Sault Ste. Marie, February 25.—The great Clergue enterprise on the Michigan side. The Michigan Lake Superior Power Co., is to have a rival.

The Edison Sault Electric Co. will put up a big power plant on St. Mary's Rapids near the locks. It will expend $120,000 during the present summer.

The first section is to have a capacity of nearly three thousand horse power. Alex. Dow, of Detroit, with several Wall street capitalists, is behind the move.

It is the intention ultimately to use every bit of power in the St. Mary's River, amounting to about half a million horse power or more.

WRECKED OFF SPOOK ISLAND.

A Party From Peterborough Have an Unpleasant Experience.

A few evenings ago, Messrs. Desautel, Martin Connors, Wilt Metheral, Dan McCabe and Tobin, of town, with a large party of friends, drove to Harwood to a ball held at the Hotel Corkery. There were about 75 couples at the ball, which was a great success. People from Cobourg, Keene, Peterborough and Havelock attended. Mr. Archie Moore was master of ceremonies whilst Wilt Metheral held up the musical end. Dancing was kept up until about six o'clock in the morning. As the Peterborough guests were returning home they found the ice, on Rice Lake, covered with water, and dangerous. Whilst passing Spook Island the horses drawing a sleigh load of them, broke through the upper crust of ice, and in their struggles, smashed the double trees and ran off. The occupants of the sleigh had to wade ashore to Spook Islands, and remain there until the horses were caught and the breakage to their gear repaired; They arrived home about noon, none the worse.

Rev D O Cromie for Whitby

The many friends of the Rev. Mr. Cromley, who was a few years ago, pastor of the Charlotte street Methodist church, will be interested to learn that he has been called to Whitby. The Port Hope Times says; Rev. D. O. Cromley, who has very acceptably filled three years' pastorate in the Methodist church at Bowmanville, has received an unanimous invitation from the official and Trustee Boards of Whitby Methodist Tabernacle to become their pastor after next conference. He has accepted the invitation, subject to the will of the Stationing Committee. Rev. Vernor H. Emory of Whitby has received and accepted a similar invitation to succeed Mr. Cromley in the pastorate at Bowmanville. The church there has a membership of nearly 600, and pays a salary of $1,000 with free parsonage. The church is a very large one, with two towers, one of which contains a chime of five bells.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 3,484 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non-assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $370,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed. Estimates on ore from this shaft alone show a clear profit of $600 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Bell, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—**"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,

Advertising in The Times will bring Results

Lung, Throat and Catarrhal Troubles

Cold in the Head Cured Quickly if You Breathe Fragrant, Healing

Catarrhozone

The ordinary method of treating catarrh by the stomach is a very indirect way and, as experience has demonstrated, a very useless method to employ.

Fragrant, healing Catarrhozone, is breathed the air, laden with minute particles of this healing balsamic liquid, spreads itself over the whole area of inflammation.

It reaches the very root of disease instantly destroying by its antiseptic properties the germ life which excites and maintains the disease. Its soothing and healing action is at once apparent to the whole diseased surfaces. It cures quickly and it cures permanently.

We affirm that no proprietary medicine has ever brought forth from the people as many voluntary testimonials as Catarrhozone has received.

MRS. M. J. WHITNEY, Clay Street, Topeka, Kan., was cured of nasal catarrh, and say, "I owe Catarrhozone an immense debt of gratitude. It cured me of the most disagreeable catarrh after many doctors had pronounced my case incurable. I do not cough any more, my breath is sweet, and my respiration regular since using Catarrhozone.

MRS. JAMES TWEEDIE, of Jay Bridge, says; "For years my daughter doctored for catarrh. She had dropping in the throat, hawking, sneezed, and could not sleep at night. The first days use of Catarrhozone benefitted and it cured so the catarrh never returned.'

MR. R. SHELDON, of Leamington, Ont., says; "For two years I unsuccessfully sought a remedy to cure my son of catarrh but permanent results were not attained until Catarrhozone was used. It cured my little boy like magic and he has been quite free from catarrh ever since.'

REV. D. B. SMITH, of Whitehead, N.S., says; "Catarrhozone permanently cured me of chronic catarrh of the nose and throat from which I suffered for many years, 'heartily recommend Catarrhozone.'

MR. R. McCALLUM, of Spring Brook, Ont., says; "A sample of Catarrhozone benefitted me more than years of treatment with doctors, and by using the other third I was completely cured in a few weeks. I recommend Catarrhozone as the most satisfactory cure for catarrh on the market. Every word said for it is true.'

MR. S. T. WRIGHT of Steeds Mills Ont., says; "I had a bad attack of sore throat, with inflamed tonsils and sore chest. I inhaled Catarrhozone and it cured my trouble. I greatly admire its pleasant and soothing effect.'

MR. JAMES FERGUSON, of Perth, Ont., writes;—"I have used Catarrhozone for sore throat and cold in the head and find it a good remedy. I highly recommend it.'

MISS CLARA B. COLBY, of Loudon, Ont., writes;—"I had a continuous cold in the head for years, and never used anything giving such quick results as Catarrhozone. I am delighted at last to find a remedy that positively cures colds. I strongly advocate Catarrhozone; it cures every time.'

Catarrhozone cures without drugs and disagreeable medicine. It is Nature's cure—soothing, healing and pleasant to use. You simply inhale the medicated vapor of Catarrhozone through a Catarrhozone Inhaler and get cured quickly. Two months treatment costs only one dollar. It can be sent by mail and used right at home any time during the night or day. Sold by druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DAINES HERE AND THERE BY TIMES' REPORTERS

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on applications to any Grand Trunk Agent.

The attendance at the

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. ROBERTS

Special Settlers Trains to Northwest

Special train with Colonist Sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto at 1.45 P.M.

Fire vs. Enterprise

Fire destroyed the most complete art stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunslow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

Errdum

In our issue of yesterday's date appears the annual report of the Union Life Assurance Company. Through an oversight, the company's clerk sending us the advt., made a mistake in that part of the report headed "Cash Account." The item reading "To net ledger assets to Dec. 31st, 1904, $151,350.97," should have been "To net ledger assets to Dec. 31st, 1903, $115,336.07. The adv. as corrected now appears in to-day's issue.

New Industry for Lakefield

A meeting of the property owners and ratepayers of the village of Lakefield will be held in the town hall tomorrow at 8 o'clock, for the purpose of discussing a proposition to loan a sum of money to a Furniture Manufacturing Co., who are thinking of locating here. A full representation of those interested is desired. The Council will be largely influenced by the opinion expressed by this meeting in any action they may take. The representatives of the company will be present and address the meeting.

Annual Inspection of Weights

Mr. R. W. Errett, inspector of weights and measures, has completed his annual inspection, as far as the town is concerned. Mr. Errett reports that he had little difficulty this year, as regards false weights or measures. Such inaccuracies as be encountered, were mainly the result of ignorance. The fees collected amounted to $242, which is as much as the whole County of Peterborough contributed for this branch of the Inland Revenue Department ten years ago. Mr. Errett will begin his inspection of the county as soon as the summer weather sets in.

Bargains at the Grocery Sale

Now's the time to stock your larder with pure groceries. The great sale of the Tuck stock is attracting people who know what good groceries are at bargain prices. This is, without exception, the best possible chance in years. The goods are being sold at wholesale prices, and less, and the quality is guaranteed. Your time will not be wasted in attending this sale, as every lot will be sold at quick clearing prices. Remember the sale is going on at the Co-operative Grocery Store, corner of Brock and George streets. E. F. Mason & Co.

Still via New Rate West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Got His South African Medals

A month ago a one-legged veteran of the South African war, named Ryan, was committed to jail as a vag. Since his temporary retirement he has received his war medal, which is suspended from three clasps, Cape Colony, Blomenafontein and Pretoria. He served throughout with Strathcona's Horse. While in Castle Neabitt, Ryan made a number of really remarkable jointed photograph stands, entirely cut out by a jackknife. These he has distributed among a few of the George street merchants who showed him some kindness. The frames are, when opened out about two feet high, the legs are sub-divided into pedestal feet, and the whole frame closes up to occupy no more room than a policeman's baton.

SOCIAL AND PERSONAL

—Mr. S. T. Medd spent Sunday in Millbrook.

—Miss Allison Hamilton was home from Varsity for Sunday.

—Mr. M. D. Flavelle, of Lindsay is in town at the Oriental.

—Miss M. McHugh is visiting Miss M. Doherty, Rubidge street.

—Mr. Percy Campbell, was home from Victoria College, Toronto, for Sunday.

—Dr. Morrow, returned yesterday morning from Millbrook, where he spent Sunday.

—Mr. F. W. Kelly, principal of the East Ward school was in Port Hope over Sunday.

—Ernie O'Brien, brother of Mrs. Bernard Morrow, is visiting her for a few days.

—Mr. M. Lee and Professor Boyle, of Havelock, with their wives, spent Sunday in town.

—Mr. F. W. Blackhall, of Toronto, was in town Saturday, on business, and gave The Times a call.

—Mr. Percy Coward, of Toronto, was a guest of Rev. and Mrs. W. J. Jolliffe during his stay in town.

—Miss Minnie Mulhern and Miss Maggie Sullivan, of Campbellford, are guests at the Royal Hotel.

$500 REWARD for WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I was a great sufferer for six years and doctored all the time with a number of physicians but did not receive any benefit," writes Mrs. George Boyden, of 641 Bonds Street, Saginaw (south), Michigan. "I had given up all hope of ever feeling better. Thought I would write to you. When I received your letter telling me what to do I commenced to take your 'Favorite Prescription' and follow your advice. I have taken ten bottles in all, also five vials of the 'Pleasant Pellets.' Am now regular, after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

Don't hesitate to write to Dr. R.V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N.Y., if you want good medical advice from a fully qualified physician as to your personal good health. Such letters are always answered free of charge and confidentially.

A medicine which has outsold all others for women in the past third of a century and being recommended by all those who have used it, is a good remedy to tie to. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself.

—Miss Nora and Miss Maggie McGillen, of Hastings, are visiting with the Misses Flynn, of the Royal Hotel.

—Mrs. W. H. Robertson is spending a few days at Fenelon Falls, the guest of her mother, Mrs. Brandon.

—Miss Scollard and Mrs. Costello, of Young's Point, have been spending a few days with friends in town.

—J. R. Church, J. E. Mellory, Toronto; W. R. Campbell, London, and J. C. Ivory, Omemee are guests at the Snowden House.

—Mr. Gus. Gough, of Gough Bros., Toronto, is renewing acquaintances in town. He is the guest of Mrs. Bernard Morrow, 283 Stewart street.

—W. Leith, Uptergrove; Ed. P. Bomeril, Montreal; A. E. Barrett, Havelock; Mrs. Geo. M. Lee, Toronto, are guests at the Oriental.

—Miss Davies left yesterday for Toronto, where she will sing in Massey Hall this evening, at Prof. Hamm's Great National chorus concert. Miss Davies will return to-morrow evening.

—Mr. J. H. Carnegie, M.L.A., spent Sunday in town, the guest of his father, Mr. John Carnegie. He left yesterday, accompanied by his two charming little children, for Chatham to visit friends.

—Mrs. A. Campbell, of Peterborough is at present in the village visiting her parents, Mr. and Mrs. W. Watson. Mr. Chas. Thomson was visiting freinds in Peterborough this week.—Lakefield News.

—The engagement is announced of Miss Minnie Jones to Mr. W. E. Wasson of Peterborough. Mr. Wasson is the popular goal keeper of the Peterborough hockey team. The wedding will take place in Toronto on April 5th.—Toronto Star.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Weather probs. for to-day, fine and higher temperature.

—The Charity Board met last night when the usual routine was observed.

—To-night in the Brock street rink Cobourg and the T.A.S. Hockey teams, will cross sticks.

—There was a meeting of the Barbers' Union last night, held in Mr. S. H. Baker's shop, Water St.

—Mr. Joe Welch, Manager of the Yonge street branch of Patterson's candy works, Toronto, is visiting at his home on Elm street.

—The Loyal True Blues of Young's Point will celebrate the coming Twelfth of July at that place. Invitations have been sent out to all the lodges in this district.

—A meeting of the Directors of the Peterborough and Ashburnham Horticultural Society will be held in the office of the president this afternoon at four o'clock.

—Court Stanley, A.O.F., will hold a smoker in the S.O.E. Hall this evening. A good program will be presented Members of the Order and their friends are invited.

—The sewer leading from the town buildings, on George and Charlotte streets, was plugged yesterday. In the afternoon it was pumped out, preparatory to removing the obstruction.

—Wm. Lock & Sons had on view last week a very fine silver fox skin which was shot by a man named Sawyers near Minden. The skin was valued at $150, being of a kind that is very rare.

—A very large audience in the Park street Baptist church, listened to the Rev. E. A. Langfeldt's lecture last night, on "Life in the German Army." The Rev. gentleman is to deliver another lecture a week from yesterday.

—The Dominion Government, as the result of the County Council's visit to Ottawa, will probably assume control of the swing bridges in the Counties of Peterborough, Northumberland and Durham.

—The crowd of people looking for bargains at the sale advertised to take place yesterday afternoon at 188 Brock street were disappointed as the sale was postponed. It is likely that circumstances will make the postponement sine die.

—At the Y.W.C.A. Gospel meeting held Sunday afternoon, Miss Louisa Thomas read a most excellent paper on the topic, "The Best Gift." The solo, "Moment by Moment," rendered by Miss Clara Kidd was also much appreciated by the young women present.

BIRTH

HOUDRY—At St. Joseph's Hospital, on 25th instant, a son to Mr. and

BUY BARRIE'S FUR BARGAINS. BUY THEM NOW.

THOS. BARRIE & CO. FURRIERS AND FURNISHERS.

—The Bijou Comedy Company report that they are playing to crowded houses in Lindsay and will, as advertised in the g.f.j., return next week to Peterborough.

—Speaking of the death of Walter D. Sager, son of Mr. S. Sager, McDougal street, the Cobourg Sentinel-Star says—"Mr. Sager and his family lived in Cobourg until about a year ago, when they moved to Peterborough. The many friends of the family will deeply sympathise with Mr. and Mrs. Sager in their bereavement.

—Mr. and Mrs. S. Sager of McDonnel street, desire through The Times to extend to their many friends heartfelt thanks for the general sympathy shown them in the loss of their son, Walter D. Sager, and the numerous floral tokens received. The parents and family appreciate the many evidences of good will and kindness very much.

—The Lindsay Post says that Mr. Charles Hartley, of East Ops, has a clock that can be traced back for 275 years, and was then supposed to be an old one. After a stoppage of thirty years, Mr. Webster, of Lindsay, fixed it up, and it is now on exhibition in his shop and in keeping perfect time. There is about fifteen pounds of iron in each of its weights.

St. Luke's Meetings

During the week the following meetings will be held;—

Wednesday, 8 p.m.—Evensong and study of the Sunday school lesson.

Thursday, 2.30 p.m.—Meeting of the W.A. 4.30, meeting of the Mission Band.

Next Sunday the members of the W.A. and of Mr. Turner's Bible class will attend Holy Communion in a body, and occupy the front pews.

Cheese Makers to Meet Saturday

On Saturday next, March 4th, the annual meeting of the Peterborough and Lindsay Cheese and Buttermakers' Association will be held in the Ontario Bank Chambers. There will be two sessions, the first commencing at ten a.m., and the second at one o'clock. It is expected that there will be a large attendance not only of those directly engaged in the manufacture of dairy products, but also of those interested in the industry, and all such are cordially invited. Messrs. Mitchell and Publow of Kingston, the former the superintendent of the Kingston Dairy School and the latter the chief inspector of cheese and butter factories in Ontario, will be present and deliver addresses on subjects which, it is felt, will be interesting to all.

BEAUTIFUL SCENERY AT NIAGARA FALLS

KOUROPATKIN DEFEATED A DECISIVE VICTORY.

Kuroki Has Outflanked the Russians. Who are in Full Retreat to the Northward---A Decisive Jap Victory Would End the War.

St. Petersburg, March 1.—The fragmentary official and press reports of the fresh reverse sustained by General Kuropatkin are inadequate to draw a conclusion of the magnitude of General Kuroki's success against the Russian left, but the public is ready to believe the worst, and the city is full of reports that disaster has again overtaken the Russian arms, according to which Mukden has been outflanked, and is untenable, and Kuropatkin is withdrawing from his strong position on the Shakhe River.

That such reports are exaggerated is beyond question, but, although reticent and seeking to minimise the operations o fthe last few days, the officials of the War Office are plainly discouraged at the fashion in which Kuroki is able to drive in and turn the Russian extreme left, his advance columns actually crossing the Shakhe River. It is admitted that the fighting was desperate at several passes on Sunday and Monday, while the front was being involved, the purpose of Field Marshal Oyama evidently being to keep the centre and right engaged and prevent Kuropatkin from sending reinforcements to head off Kuroki. Should Kuroki cross the Hun River, the high road to Tie Pass, forty miles north of Mukden, would be open, and Kuropatkin's retreat threatened.

St. Petersburg, March 1.—General Kuropatkin considers his position on the Shakhe River to be menaced to such an extent by Gen. Kuroki's success on the left flank as to necessitate the immediate withdrawal of his army to Tie Pass, and has so advised Emperor Nicholas. No confirmation of this is obtainable in military circles here, where it is pointed out that with the Japanese pressing the whole Russian line such an operation must almost inevitably end in disaster of the greatest magnitude.

General Kuropatkin, in a despatch to Emperor Nicholas dated yesterday, says; "Ten attacks made by two Japanese battalions and some cavalry west of the village of Tansintog have been repulsed. The Japanese renewed the attack on the morning of February 27, and were again repulsed. They left a hundred corpses in front of our positions. The Russian loss was six men."

Tokio, March 1.—It is reported that when the Japanese attacked and defeated the Russians February 28 at Tsinkstchen, twenty-five miles north of Simoche on the extreme Japanese right the Russians numbered 7,000 men. Their losses are estimated at two thousand. The Japanese losses were tight.

AYLESWORTH FOR CABINET

Will Enter Dominion Government in August Next

Toronto, Feb. 28.—A. B. Aylesworth will be Minister of Justice in August. This is what his intimate friends say. "Why not before August?" one was asked.

"Because," he returned, "he is obliged to appear before the Privy Council, in June and July in half a dozen important cases."

That is all the friend of the eminent counsel would say. Mr. Aylesworth himself is silent. His defeat in Durham has in no way changed him. It has apparently had no more effect than if the Durham contest had been a lawsuit and he had been given the worst end of the brief.

His close friends have known since November that he would yet be a member of the Laurier Administration.

THE BOY'S CHOICE

Would Prefer Position of Sporting Editor to any Other

A small boy stopped a representative of this great family journal on the street yesterday, and submitted the following essay on editors, for which we rewarded him.

THE ESSAY.

They are 3 kinds of editors;
1. Hens editors.
2. Other editors.
3. Sporting editors,

I would like to be the sporting editor because he gits into all the fights and ball gaims free and the other editors pay when they go, but dosn't go they aint get time. The hens editor is the best job for money.

editors is pretty hard to lick they don't git licked much. Once my Pa tried to lick a editor but got licked himself and came home with a eye all black and Ma said it serves ya rite trying to take away the freedom of the Press.

THE NEW ASSESSMENT

A Busy Time in the Assessment Courts of the Province

The township assessors are now wrestling with the new Assessment Act. In some parts of the county the assessors find that their "instructions" compel them to boost the assessed value of the property, and there is likely to be a busy time at the revision courts. The ratepayers cannot understand why a new assessment law should add largely to the value of their property. In the hands of the rural assessor the assessing of a farm is now an elaborate affair, involving much calculation and the asking and answering of many questions. If the operation results in a boost of the assessed value of the property in the township, all around, it will make little difference, for the rate can be adjusted to suit. But if the modus operandi leads to the raising of the assessed value of a piece of property here and there, and perhaps a decrease in some other property—changes from the figures which have obtained for many years, there will very likely be a row over the new assessment.

The best Cough Medicine.

ABSOLUTE SAFETY

should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

BRITAIN AND GERMANY

Sectional Trouble Feared Between the Two Great Nations

London, Eng. Mr. G. E. Morrison, the well known correspondent at Peking of the London Times, complains that hitherto Germany has used her influence to preserve a monopoly and keep the door shut against all but Germans. Now she is extending her interference to purely domestic affairs. She insists that China shall, before appointing a governor, submit his name to the German legation for approval. When Hu Ting-Kan was appointed in October as acting governor she protested against the appointment because she had not been consulted. Now, in the case of the appointment of Yang Shih-hsuang as acting governor, she repeats the protest because her approval was not sought. China has replied that these officials were only acting governors, thus allowing, by implication, Germany's right in the case of actual governors. Baron Mumm, the German minister, insisted that before proceeding to his post Yang Shihhsuang must go to Pekin and see him. Yang Shihhsuang declined, and asked Baron Mumm to go to Tientsin. Baron Mumm promptly refused, whereupon Yang Shihhsuang, with characteristic Chinese evasion, visited a temple near Pekin, where he had a long interview with Baron Mumm after a luncheon given by a Chinese official.

Of course it won't do to have Germany have more power and influence in China than England has, and it is not likely that she will have.

"BIGOTRY"

Minneapolis, Minn., February 28.—The Journal resents Sir Wilfrid Laurier's declaration regarding the product of American schools. It says: "It is a matter of politics with the Prime Minister of Canada. He knows where his votes come from. But for his offensive and unnecessary references to this country the incident might be treated as one entirely domestic. The United States excluded sectarian teachings from her Public Schools, and has always been satisfied. With all our apparent lagging behind the mighty Dominion of Canada in Christian progress and morals, you could not change the school system of this country today without a revolution. It is true we have our race problem and our lynching problem, but nobody pretending to the grade of statesmanship would for a moment think that this problem arose as the result of failure to teach some particular dogmas in the Public Schools. If the Prime Minister of Canada thinks that, he is either a hopeless demagogue (for home consumption) or else he never read much in his youth except dogma. He must have omitted history entirely."

—The Ladies' Aid Society of George street Methodist church will hold their regular monthly meeting this evening at the close of prayer meeting.

NO INQUEST

Dr Gray, the Coroner, Decides That an Inquest is Necessary at Hastings

Last night, Doctor Gray, the coroner, received notification that his presence was required in Hastings to hold an inquest over the sad death of John Wesley Cormick, who, as intimated in yesterday's issue, was torn to pieces in the tannery in that village. As there was no appearance or hint that the death was due tobegligence or fault of any one, but plainly an accident, the coroner, with the concurrence of the County Crown Attorney, decided that no inquest was necessary, and so did not go. Doctor Gray's sphere of action, as coroner, is a wide one, embracing the counties of Hastings, Northumberland, Durham and Peterborough. The doctor used to practice at Baileboro, which is at the junction of the counties of Northumberland, Durham and Peterborough, hence the extent of his jurisdiction.

A THOUGHTFUL ACT

Canadian Order of Foresters Condole with a Brother in Distress

At a recent meeting of Court Littlejohn, No. 92, Canadian Order of Foresters, a resolution of condolence was passed to Mr. J. B. Cuncannon on the death of his daughter. The resolution was as follows;—

Peterborough, Feb. 22nd, 1905.

To Bro. Cuncannon.

Dear Sir,—We, the officers and members of Court Littlejohn No. 92 Canadian Order of Foresters, desier to express our sympathy to you and your wife, in your sad bereavement and in the loss you have sustained in the calling away of your loving little daughter and we trust that the Hand that removed her will give you the strength and grace to bear your sufferings and to understand that she has "gone before."

Signed on behalf of the Court.

L. A. LANG, C. R.
R. MULLIGAN, R. S.

A copy of this resolution has been mailed to Mr. Cuncannon.

WILL SEE THE BILL THROUGH

Ottawa, Feb. 28.—There is, for the present at any rate, no foundation for the story that Hon. Clifford Sifton intends to resign on account of differences with the Government over the Autonomy bill. Mr. Sifton has promised to see the bill through and intends to do so.

JEWISH MASSACRE IN THE CRIMEA

Forty-seven Jews, Including Seventeen Women, Were Killed

WAS DUE TO OFFICIAL RISE

In Order to Protect Themselves They Cried "Down With the Jews"

Berlin, March 1.—Prominent Jews here have received confirmation of the anti-Jewish riots at Geodosia, Crimea, reported last week. The political strike was in progress at Geodosia, and a mob of workmen assaulted the prefecture. The officials, to protect themselves, started a cry of "Down with the Jews."

The mobs immediately abandoned their attack on the prefecture, and rushed to the Ghetto and began a massacre of the Jews. They forced an entrance to houses, shot their victims with revolvers, or stabbed or beat them to death. Corpses were thrown through the windows into the street.

In one house Jewesses were found literally battered to death. Their skulls and almost every bond in their bodies were broken. In many cases the mob refrained from killing their victims, and deliberately broke their limbs, leaving them in their misery.

Forty-seven Jews, including seventeen women, were killed and 123 were wounded.

WILL LIKELY GO TO GALT

The Farmers' Institutes will likely go to Galt this coming summer. On Saturday morning at the Munro House a meeting of the Executive Committee of East Durham and East and West Peterborough Farmers' Institute were held, the object of the meeting being to decide upon the annual excursion of the Institute. Those present were;—Messrs. F. Birdsall and Chas. O'Reilly, East Peterborough; T. A. Kelley, and A. J. Fallis, East Durham, and R. Q. Dench, H. C. Garbutt and Wm. Collins, West Peterborough. Mr. Birdsall acted as chairman and Mr. Collins secretary.

The question of the annual excursion was discussed and various plans suggested.

Mr. D. Hughes-Charles, president of the Peterborough Industrial Fair, was present and addressed the meeting. He advocated running this year's excursion to Galt, where a horse show is to be held on June 1st to 3rd instead of going to Guelph as was intended.

It was considered by those present in a favorable light, but definite action was deferred until it could be ascertained what the financial results would be of such an undertaking.

It was finally decided to instruct the chairman and secretary to find out if it would be possible to arrange rates so that the excursionists could visit either Galt or Guelph as they preferred, and all particulars. They will report at a meeting to be held on March 11th at the Munro House at 10 o'clock.

COUNTRY BEING AROUSED

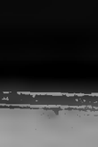
Protestant Churches Everywhere to Fight Separate Schools

It is plainly evident that the country is being aroused over the attempt to fasten Separate schools on the new provinces. We are informed that the Ministerial Association of Peterborough propose to take action at their meeting on Monday next. Already several of the local ministers have denounced the measure, but united action is necessary. In Toronto the Presbyterian Ministerial Association appointed a committee to confer with the General Ministerial Association with a view to giving expression of opinion on the iniquitous bill, now before Parliament. The result of the agitation will be that Sir Wilfrid will be forced to abandon his attempt to coerce the new provinces.

Police Court

OFFICIALS

Chief of Police, G.I. Rossi
Magistrate, D.W. Dumble



When Magistrate D. W. Dumble opened his court yesterday morning it was not a case of drunk and disorderly, but Drink, Dagos and Deluke. Camille Deluke, with that love of rest that characterizes the sons of Italy, is of the opinion that a pick and shovel are not in it with a life of ease made by retailing the seductive booze. On the 31st of January, as noted in the P.P., he faced the magisterial music with a charge against him of selling liquor. This first charge was owing to the keen intuition and Sherlock Holmes reason of Chief Rossi. Leduke was implicated in the stabbing affair, for which the Italians are now awaiting trial. After the stabbing affair had been threshed out in the police court, the chief by permission of the magistrate asked Ouvido, the stabbed man, a few questions, which resulted in a conviction for selling liquor illegally. Now Leduke had a second charge of similar nature against him. The prisoner was defended by Mr. D. O'Connell, while Mr. E. H. D. Hall looked after the interests of the State. As will be remembered by readers of The Times, Leduke's place at 367 Simcoe street, is a haven of refuge for a large number of Italians. Olivero Ouvido, in giving evidence, stated that there had been a game of cards in progress for the beer, which Leduke supplied at drug store cut rate prices, a dispute arose, and he was stabbed. From the stabbing as noted, the present action was born. Several witnesses, including several employes of wholesale and retail liquor merchants of town, were examined, who all declared that liquor, in quantities too large for the private consumption of the most regular worshipper of Bacchus, was supplied to Leduke.

A peculiar point arose in connection with the case. Bail to the amount of $200 had been deposited, for the prisoner's appearance, and the latter, though present at the opening of court, disappeared mysteriously; however he was shortly afterwards arrestedd, and sent up on the hill on a sentence of four months away from vermicelli and illegal beer.

The case of the three Italians charged with complicity in the stabbing affray received another enlargement till Thursday.

GRANTS TO FALL FAIRS

Societies may be cut off as a Result of Recent Meeting

The resolutions passed at the convention of the Ontario Association of Fairs and Exhibitions, held in Toronto, February 14th to 16th, are likely to have far reaching effects. The Agricultural Societies of the Province for many years have been receiving fixed grants from the Government, irrespective of the work they were doing. At the recent convention, as a result of information furnished by Provincial Superintendent H. B. Cowan a resolution was adopted recommending that in future grants should be distributed to societies in proportion to the amount of money they expend for agricultural purposes.

It is probable that the Agricultural and Arts Act will be revised and this change made within a year or so. Should this be done it will result in many of the smaller societies in the Province being cut off and societies which are doing good work being strengthened. An examination of the returns made to the Department of Agriculture, by some of the societies of the Province shows how such a change is likely to work out. In a county in Eastern Ontario, where the district society has been devoting a great deal of attention to horse racing, this society will lose $140 from its grant, which money will go to a township society farther back in the county, which is being conducted on agricultural lines. In another Eastern Ontario county, the district society will receive an increase in its grant of $101, which will be taken from the grants of three small township societies. This will probably mean that two of the small societies will have to go out of existence and that the third one will be strengthened, leaving two strong societies in the riding instead of four as at present.

In yet another county the grant to the district society will remain about as it is, while two small township societies will lose $98, which will go to a third township society. In this county it will probably also mean that the two small township societies will have to give up holding exhibitions, while the second township fair will be strengthened. This will mean that all through the Province the best societies will be strengthened, while the weak and struggling ones, which are doing little or no good will go out of existence. Such a change in the Act will do away with all distinctions between township and district societies and will place all societies on the same footing as regards their Government grants.

The convention adopted a resolution requesting the Department of Agriculture to enforce the Act by cutting off the grants to all societies which permit games of chance at their exhibitions, and pledged its support to the Department in any measures it may take to suppress such features at fall fairs.

THE TIMES' POSITION

Regarding Separate Schools in the North West Provinces

The Times notices that neither of its local contemporaries have a word to say regarding the great issue involved in the Separate school question now before Parliament. They are evidently afraid to express an opinion one way or other on the subject. So far as The Times is concerned, we believe that the children of the people should be educated together without distinction of creed. We believe that this is certain to mean a better education for all, a kindlier feeling among all, a warmer and readier national patriotism. We believe that the moral element in education can be done justice to in schools without the introduction of any denominational element in the ordinary school house, and that every step taken to facilitate religious aims, whether Protestant or Catholic or otherwise, in connection with the schools means a weakening of the possible general efficiency and unifying effects of the schools, and so of the fibre of the nation. Without going into either legal labyrinth, The Times is content to express its conviction that for Parliament to impose Separate schools on the new provinces is a mistaken national policy.

This is our position, and we are not afraid to exercise the right that all reputable newspapers should exercise, in dealing with a question of such momentous importance as the one referred to.

A CIRCULAR TO THE POWERS

St. Petersburg, Feb. 28.—In view of the appearance of Japanese troops in the rear of the Russian army west of the railway Russia will address a circular to the powers protesting against Japan's persistent violation of Chinese neutrality.

TORONTO GLOBE IN REVOLT

SPECIALLY REFUSES TO SUPPORT LAURIER

On Separate Schools Question—Says it is a Matter of Constitutional Right and Not of Educational Policy.

Toronto, March 1.—In a column editorial the Globe contends that The question at issue in the Northwest is not one of educational policy but of constitutional rights.

After citing arguments in favor of this contention the editorial concludes;

"So it is that in all these grounds theoretical and practical, constitutional and historical, the Globe feels itself constrained to withhold support from the autonomy measures now before Parliament in so far as they interfere with the rights of the provinces in matters of education.

"The highest interests of all parties for the present and for the future will be best served by Parliament dealing only with federal matters and leaving to the legislature of the provinces all the duties and responsibilities which the Confederation Act intended to be provincial and that is the central question at issue."

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

CHANDOS.

The roads that have been blocked for the past week are being opened up again, thanks to the perseverance of Wm. Ellerton. He is anxious to get his lumber cut to finish the new barn he is erecting. His establishment will then be complete, house, barn, stock, furniture and man. Now girls who will win?

The camps are all breaking up and our shanty boys are home again. A load of Lakefield men left A. Kilborne's camps yesterday for home.

Mr. Harry Roberts we are happy to say is able to be out again.

Mr. Fred Wilson has purchased a new cutter, it is to be hoped he will give us a drive.

JAPS CROSS THE SHAKHE

Japanese Cross the Shakhe River, Driving Back the Russians.

Mukden, March 1.—The Japanese crossed the Shakhe River Sunday evening, having driven in the pickets of the Russian vanguard. Russian supports came up and stopped the Japanese advance. On the right flank all is quiet, but the movements of the Japanese indicate an intention of attacking the Russian center at least in the way of a demonstration. Heavy firing continued all yesterday to the eastward.

The soldiers of the Tsinkhetchen division are in good spirits in spite of the heavy losses they have sustained and the necessity which compelled them to retreat. They are encouraged by the execution they wrought upon the Japanese, whose bodies piled in heaps outside the redoubts at Bereaneft Hill and the trenches at Tsinkhetchen. Sunday afternoon there was a violent storm of heavy and wet snow. The temperature moderated during the night.

PROBABLE FATALITY

Councillor Maloney, of Douro, Had His Home Burned and Possibly His Son

Word was received in town yesterday that the house of Mr. Dennis Moloney, County Councillor, Douro Townahip, about 1 1-2 miles from Warsaw, was completely destroyed by fire about noon to-day. The fire originated in the kitchen, supposedly from a stove, and as nothing could be done towards checking the flames they spread rapidly to all parts of the house.

Mr. Moloney was away from home being absent at a funeral.

It is feared that an invalid son was unable to escape from the building as, according to the last information received, he has not been seen since the conflagration.

KINGLY RECOGNITION

His Majesty Graciously Replies to Answer to a Townsman's Letter.

When in 1860, his Majesty, King Edward VII. visited Peterborough, as a youth, under his then title of Prince of Wales, he saw and recognised Mr. Andrew Fawcett, whom he had previously met and honored with his acquaintance at Enniskillen, Ireland, during the Crimean war; His Royal Highness, insisted on Mr. Fawcett's entering his carriage, and retained him there during his drive of inspection of the town.

Mr. Fawcett, who lives on the corner of Bethune and London streets, on January 22nd, wrote a personal letter to His Majesty, congratulating him on his birthday, and wished him long life and every happiness. Yesterday he received a personal reply to his communication, in which His Majesty thanked him for his good wishes.

A PROSPEROUS COMPANY

Annual Meeting of the Toronto General Trusts Corporation

As many of our readers are directly or indirectly interested in the welfare and doings of the Toronto General Trusts Corporation, it will be reassuring to them to learn that at the Annual Meeting of the Company, the showing of its business for the year was most satisfactory.

The statements submitted showed that the enormous sum of $23,000,000 (twenty-three millions) of trust and agency business had passed through the hands of the corporation during the year. This amount merely represents the residum of business left in its hands, as probably an equal sum, or more, has been distributed during the past years.

The shareholders have every reason to congratulate themselves on their investment in this corporation, as they have received an annual dividend of 7 1-2 per cent. during the year. $12,000 (twelve thousand) written of the buildings and vaults, has been carried forward to credit of profit and loss $14,521.20. Every thing tends to show that the important interests entrusted to the corporation are thoroughly safe and protected in every respect. The uniquely conservative policy of the corporation has established for it a feeling of confidence that is limitless.

HARMONP QUARTETTE

Peterborough Fast Becoming a Musical Centre, and Home of the Muse

It is not only in industrial and commercial progress, that Peterborough is making a name for itself; but is now demonstrating the fact that it contains literary and musical ability. The latest addition to the already large number of musical organisations in town, is the Harmony Male Quartette.

Since the days that the younger generation hardly remembers, we have not, of late had many male quartettes; not since the old popular quartette that so often were invited to the aid of churches and similar good causes, when the two Dunns, M. Tierney and Alex. Elliott used to hold their audience spellbound, has so strong a combination come together as the newly organised "Harmony." It is composed of well-known local singers who have been frequently heard in solo work and whose voices should be found quite effective in part singing. The members are;—First tenor, Jas. Legg, choirmaster and soloist of St. Luke's church; second tenor, Mark Wilson, choirmaster and soloist of St. Andrew's church; baritone and conductor, R. N. Jolliffe, soloist at Charlotte street church; basso, R. H. Shepherd.

The quartette is prepared to accept engagements, communications to be addressed to the secretary, R. N. Jolliffe.

Derailed Freight Upsets Schedule

A derailed freight train between here and Millbrook, delayed traffic on the G.T.R. yesterday. The 11.45 train from Toronto instead of coming through Peterborough, reached Port Hope by means of the Omemee branch. The Lakefield train went up to Omemee taking the passengers from here desirous of going to Port Hope and brought back some here. The Lakefield train which should leave here about 12.45 was nearly an hour late.

—Rev. Father Keilty, of Douro, was much to his chagrin and regret, prevented by the bad weather, from being present at the service in Enniskmore, when his Lordship, Bishop Scollard, celebrated mass in that parish. The rev. father from Douro; 25 years ago, first met Bishop Scollard when a boy in Enniskmore church, where he was priest at the time.

A ROYAL LOVE AFFAIR

Romance in the Life of the Princess Victoria

London, March 1.—Because of love letters which he had written to Princess Victoria, and to which she had replied during the past eight years, Frederick Robert Naylor has been placed in an insane asylum. The Princess is a daughter of the King, and was born in 1868. Naylor is a leather gilder, whose wages are $18 a week. They had never met. Her letters were found in a drawer in his mother's humble home. On this drawer the police have placed a seal.

Many years ago Naylor, enra-tured by the beauty of the Princess, wrote her the first of a remarkable series of beautiful letters, and in pure womanliness the Princess answered. News of the secret correspondence leaked out just before an operation for appendicitis, which was performed on the Princess a few weeks ago, and the police immediately took action.

A PETERBOROUGH ARTISTE

Miss Moira Shirley Has Honor to Sing Native Town Last Night

We all take pride in what comes from or relates to Peterborough. Those of our townsmen, who were fortunate enough last night to be able to attend the concert in Massey Hall, must have been filled with dual emotions, pride in the fair artiste as a fellow citizen and admiration for the singer who, both as a leading soprano in the chorus, and as soloist in the Glee attracted attention by the clear and well pitched volume of her voice. The large hall was filled, owing to such an attraction as The National Chorus, under the leadership of Dr. Ham, assisted by Victor Herbert's New York orchestra. Miss [illegible] was the soloist in Sir Henry Bishop's glee, "Now Tramp o'er Moss and Fell," taking the soprano obligato, a very exacting piece of work. It is a very distinct honor to be thus selected. There is no doubt that this young singer has in her voice a key that will unlock the door of worldwide success and recognition.

Special Features at the Barracks

To-night those who attend the Salvation Army meeting at the barracks, at eight o'clock will have a little addition to the regular program Some of the more ambitious of the Army bandsmen have formed themselves into a special band or warlike orchestra, and will make their debut to-night in that capacity. The following are some of the selections they most excel in; "Canadian March." This is a new piece of music and has a part in it called "The Maple Leaf," Vocal trio, the "Three Hebrew Boys" by the Bowman Bros. Saxaphone solo, "Robin Adair" by Bandsman Brown. Fountain Selection by the band. This is also a new piece. Vocal quartette, by Bandsmen Gandy, Brown, Ford, and Gray. Selections, "Faith's Ascent." These selections with others, will make a very interesting program. All are invited to attend the meeting which is free.

FERROZONE

Braced — Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find an abundance of health in Ferrozone. It completely vitalized Mrs. F. Levine, a well-known resident of Point Alexander, Ont., who writes;

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength!

"Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased. I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

THE WAYS OF THE CZAR

A recent article in the Quarterly Review gave an intimate portrait of "The Czar," and purported to be written by a Russian familiar with the court. In the current National Review the same writer has a sequel to that article, which he calls "An Autocracy at Work." He presents a view of the Czar quite different from the one commonly accepted: the monarch is neither a weakling overburdened by routine labor and so kept from the real government by the bureaucracy, nor a blunted egotist indifferent to all that goes on outside of his immediate entourage. He is rather a narrow-minded and obstinate ruler, who keeps the reins of government tightly in his own grasp and mars everything by his ignorant conceit. According to the present writer, he believed that no country, least of all Japan, would dare to make war on Russia, and that peace was certain until he himself might take the initiative. Consequently he did everything against the will of his officers to bring about war, while making no preparations for such an event. Thus Baron Rosen, the ambassador to the Mikado, prophesied the war two years before it broke out, but was disregarded by the Czar. To continue in the anonymous author's words:

"More startling still, two days after his prophecy had come to pass, he received a telegram from St. Petersburg assuring him that 'the rupture of diplomatic relations does not mean the beginning of war; war will be avoided.' This amazing dispatch was grimly commented on by the Japanese navy, which on the evening of the very same day delivered their torpedo attack against the Port Arthur squadron! As the Ministry of Foreign Affairs has since denied having sent any such telegram to Admiral Alexieff, it is clear that His Majesty alone could have written and sent it.

It was Nicholas II., therefore, who literally hindered preparations for the war which he himself had precipitated. He elaborately deceived himself before endeavoring to deceive others. His ambassador in Tokio, Baron Rosen, it is now known, had written dispatch after dispatch, announcing the imminence of war, and foretelling an attack on Port Arthur, until the Czar, incensed at this persistence, penned a remark on the margin of one of the ambassador's dispatches which compelled Baron Rosen to eschew that topic in future. And then officials naturally acted on the view that war was impossible. Now a subject who should thus mislead his country would be charged with high treason. But all that we demand of the Czar is that he should always in the future put the conduct of such weighty affairs in the hands of the men whom he himself designated as competent.

MEREDITY. Whether Consumption is inherited or not the only safe way is to check the first signs of decline or loss of weight. Physicians everywhere recommend "The D & L" Emulsion for this purpose.

Record of Proceedings at the Annual General Meeting OF

THE TORONTO GENERAL TRUSTS CORPORATION

The Sixth Annual Meeting of the Shareholders of The Toronto General Trusts Corporation (being the twenty-third of The Toronto General Trusts Company) was held in the board room of the Corporation, on the corner of Yonge and Colborne streets, Toronto, Wednesday, 22nd February, 1905.

There were present; W. D. Matthews, W. H. Beatty, J. L. Blackie, B. E. Bull, Alfred Hoskin, K.C., J. W. Langmuir, Hon. J. J. Foy, K. E. Arglea, Robert Jaffray, A. D. Langmuir, Hon. Colin Campbell, John Y. Reid, J. G. Scott, K.C., John Paton, S. Nordheimer, E. T. Malone, K.C., B. E. Walker, W. G. Watson, Alex. Smith, John. T. Small, James Davey, B. Osler, E. Galley, Thos. Long, Aemilius Irving, K.C., Hon. S. C. Wood, J. J. Kenney, D. R. Wilkie, Hon. Richard Harcourt, A. L. Malone.

Owing to the absence of Dr. Hoskin, the President, the Hon. S. C. Wood, Vice-President, took the chair, and Mr. A. D. Langmuir, the Assistant Manager, was appointed to act as Secretary.

The various financial statements, showing the operations of the Corporations for the year ended 31st December, 1904, were submitted by the Managing Director, Mr. J. W. Langmuir, and commented upon by him.

The Report of the Directors to the Shareholders was then read, as follows;

Sixth Annual Report of the Directors of The Toronto General Trusts Corporation, for the year ended 31st December, 1904.

To the Shareholders;

The Directors of The Toronto General Trusts Corporation beg to submit their Sixth Annual Report (being the twenty-third of The Toronto General Trusts Company), which, together with the accompanying financial statements, shows the operations of the Corporation and the financial results of the same for the year ended 31st December, 1904.

The new business taken over by the Corporation for the year amounts to $2,122,296.26, as shown by the following summary;

Executorships	$334,429.19
Administrations	357,282.42
Trusteeships	543,848.00
Investment Agencies	363,225.25
Estate Agencies	299,417.39
Guaranteed Mortgage Investment Agencies	137,372.61
Committeeships	6,715.79
Guardianships	68,177.39
Lunatic Estate Agencies	51,828.23
Total	$2,122,296.26

In addition to the foregoing, the Corporation has during the year acted as Trustee for the issue of bonds, the debentures for a large amount, and has also been appointed Registrar, Transfer Agent, and in other capacities not included in the above summary.

The Profit and Loss Statement herewith submitted shows the sources from which the revenues of the Corporation were derived, and the charges against the same. The net profits for the year, after making provision for every ascertained or estimated loss, amount to $100,797.72. Out of these net profits your Directors have declared two semi-annual dividends at the rate of 7 1-2 per cent. per annum, amounting to $75,000; have written off from the buildings and vaults at the Head Office and Ottawa $11,276.52; and have carried forward to the credit of Profit and Loss $14,521.20.

Your Directors have to record with deep regret the death of three of their colleagues during the past year, namely, Messrs. T. Sutherland Stayner, A. B. Lee, and John Foy. The two former were on the Directorate since the organization of the Corporation, in 1882, and Mr. Foy was appointed in the place of Sir Frank Smith, in 1901.

All of which is respectfully submitted.

J. W. LANGMUIR,
Managing Director.

JOHN HOSKIN,
President.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of one [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weaknesses? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

—INCORPORATED—

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company that who are depositing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Stimmer and Jack Mining Co:. Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 8000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the preciptal stone ore, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,400, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver. 1800 foot working tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when to be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately. As this will likely be advanced to $1 00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

THE TORONTO GENERAL TRUSTS CORPORATION

Concluded from page 2.

Auditors of the Winnipeg and Ottawa Branches, and find that they agree with the Head Office Books.

(Signed) R. F. SPENCE, F.C.A. "Can."
GEO. MACBETH.
Auditors.

Toronto, 15th February, 1905.

THE VICE-PRESIDENT'S ADDRESS.

Vice-President the Hon. S. C. Wood, in moving the adoption of the report, said; in the absence of President Hoskin, I have the pleasure of moving the adoption of the report which has just been read. Upon the whole, it should be accepted as satisfactory.

You will notice that during the year over $2,000,000 worth of new estates and trusts have been placed under the care of the Corporation. The net profits, after payment of all expenses at the Head Office, and at the branches in Winnipeg and Ottawa, and after providing for every ascertained loss, amounted to a little over $100,000. Out of this there has been paid the usual dividend of 7 1-2 per cent. per annum, amounting to $75,000; $11,276.52 has been written off our office buildings and vaults, and $14,317.20 has been carried forward to credit of profit and loss.

For the enormous amount of business transacted the profits have been very moderate, and will be considered by bankers, managers of loan companies, and other corporations, as decidedly small, and not by any means a fair equivalent for the responsibility assumed and work done; it may as well be frankly stated that, for the kind of business the Corporation is carrying on, large profits can never be looked for. Our business is simply that of skilled managers of estates and trusts, involving continued oversight and the greatest possible care in every branch of management. The revenues of the Corporation and the sources from which they are derived are plainly set forth in the profit and loss statement which has just been submitted to you, and from which it is quite evident that we are strictly conducting a trust and agency business, and nothing else.

Our Board religiously adheres to the policy that was adopted when the Corporation was organized in 1882, and from which it has never deviated, viz.: that it shall not transact any business of a speculative character, such as promotions, underwriting, or the purchase of securities of a more or less fluctuating value. Doubtless, with the expansion that has taken place in Canada in recent years, this practice may have resulted in pecuniary loss to the Corporation in the investment of its capital, but your Directors consider that the capital of the Corporation should be kept intact and free from risk, as security for the proper performance of its duties as executor, trustee, etc. The strict adherence to this policy, along with the moderate fees allowed to, and charged by the Corporation will in the future, as in the past, result in only moderate profits.

The successful management of estates and trusts aggregating over $22,000,000 requires not only that the General and Assistant Managers shall be men of acknowledged financial ability, and peculiarly adapted for this particular work, but also that the whole staff should be carefully selected and trained, with the view of handling estates and trusts in strict accordance with the law, the provisions of each trust and in the best interests of the various legatees or parties interested, and also the proper investment of the funds of the Corporation.

As an evidence of our success in this direction, I may state that in establishing the important branches at Ottawa and Winnipeg, two of our superior officers were placed in charge, and their places filled by competent and trained members of the staff, without in any way interfering with the efficiency of the work at the Head Office.

Mr. W. H. Beatty, Vice-President, in seconding the adoption of the report, said:

In seconding the adoption of the report, I would like to say a few words, but rather in my capacity of Chairman of the Inspection Committee than as Vice-President of the Corporation. I have occupied that position for the past 15 years, and along with my colleagues on the committee have performed the duties devolving upon us under the inspection by-law. The scope and variety of work that has to be performed by the Committee is very clearly set out in the By-laws of the Corporation, copies of which you will find on the table. When I tell you that our inspection for the past year necessitated the reading of over 800 pages of minutes of the Executive, you will have some idea of the volume of work devolving upon us.

The Inspection Committee has not only to assure itself that the directions of the Executive, as recorded in the minutes, have been carried out, but they have to examine and initial every mortgage, debenture, and security that has been taken as an investment by the Corporation during the quarter. The securities examined and initialed during the past year, apart from Call Loan Scrip, amount to two millions and a quarter dollars. The Committee have further to see, under the certificates of the Auditors, that the securities so examined are earmarked in the books of the Corporation to the respective trusts to which they belong. Under this system the securities held by the Corporation pass under the review, first, of the Inspection Committee at the end of each quarter, and then again, at the end of each year, of the Auditors of the Corporation.

I am sure you will agree with me that the inspection of the affairs of this Corporation is as thorough and searching as it is possible to devise.

The securities taken for trusts all come within the provisions of the Trustee Investment Act, unless the instrument under which the Corporation acts authorizes the taking of other classes of securities—and I may say, as one having had a pretty long and extensive experience in investing, that the mortgages taken by the Corporation are of a distinctly high grade. Another word or two, and I have done. Occasionally I hear it said that the compensation of the Corporation is greater than is allowed or paid to private executors or trustees. On this point I can also speak from the standpoint of long experience, and I have no hesitation whatever in corroborating the statements made by President Hoskin at previous meetings of the shareholders, that the charges of the Corporation, instead of being greater, are very considerably less than is allowed to private individuals. This statement is also amply corroborated by the exceedingly moderate profits that the Corporation makes (as is shown in the profit and loss statement, which has just been submitted to you) out of a business aggregating nearly twenty-five million dollars.

THE MANAGING DIRECTOR.

Mr. J. W. Langmuir, being asked to make a few remarks, said:

Before the report is submitted for adoption, there are two or three matters which I would like to say a few words about; and the first is to call attention to the changed conditions that the Corporation has now to face in the transaction of its business, as compared with what existed at the time of its organization in 1882. Then, and up till about 1890, we were the only Trust Company in Canada. Now, we have seven trust companies in Ontario, three in Manitoba, (with another seeking incorporation there), two in Quebec, with agencies all over Canada, and two in the Lower Provinces—in all fourteen companies. Some of these trust companies were established by chartered banks, and are practically being carried on by them, inasmuch as the directors of such banks are also on the board of the trust companies, thus throwing the whole weight of their influence, which is very great, in favor of the trust companies so affiliated. Moreover, a loan company in Western Ontario has also established a trust company, with the same directorate on both boards.

Many of these new companies undertake every variety of financial work; promoting industrial organizations, underwriting bond issues, and in many instances competing with the banks inasmuch as they receive deposits and accept cheques drawn against them in the same manner as chartered banks, with the exception that they pay a higher rate of interest. Not only this, but guarantee companies have practically entered the field, and their bonds are accepted by Surrogate Courts, which enables estates to be wound up, either directly or indirectly under their supervision.

I do not wish it to be understood that I am finding fault with this greatly enlarged scope of trust companies in Canada. In this respect the Governments of the Dominion, and the Provinces, in granting such wide charters, are simply copying the methods in existence in the United States, under which trust companies in that country practically are banks with the control of enormous accumulations of capital, out of which they earn enormous profits. Such companies in the United States do not care to be troubled with estate management, with its great responsibilities, and comparatively small earnings, when ten times the profit can be made from the custodianship of the immense blocks of capital deposited with them.

Notwithstanding all these changes, and the greatly increased scope United States, under which trust companies in Canada, this Corporation has steadfastly adhered to the principle adopted at its organization, that it would strictly confine itself to the management of estates, trusts, administrations, and work of a kindred character, firmly believing that the Corporation, having in charge estate and trust funds approximating closely to twenty-five millions of dollars, should not engage in transactions of a speculative character, through which its capital and trust estates might be endangered, but should confine itself exclusively to the management of the estates and trusts committed to its care.

The second point that I wish to refer to in our compensation for the management of estates, trusts, etc. The idea prevails in some quarters that the Corporation's charges are greater than is allowed to individual executors and trustees. This conclusion is based very often on statements made by parties who are entirely opposed to trust company administration, and although we are generally treated very fairly by the legal profession, I regret to say that now and again interested solicitors, who desire to keep the estates in their hands, and under their own management, inform their clients that the charges of the Corporation are excessive. If parties intending to make wills and trusts, instead of accepting such interested advice, would only communicate with the Corporation, or instruct their solicitors to do so, they would ascertain beyond all doubt that, as far from the Corporation's [illegible]

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1903, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $30,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY.—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."

A freighter and miners at Idaho City have invested; the stock is a money-maker for you also, NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

lowed to or exacted by individual executors and trustees. This statement has been made over and over again by President Hoskin, and is now corroborated by Vice-President Beatty, than whom no men have had greater or wider experience upon the subject than these two gentlemen, and I know that I can appeal to all the Directors on the Board of the Corporation, who have made inquiries and have looked into the subject, in order to corroborate this statement to the fullest extent.

Having regard to the increased competition now existing, and the other conditions which I have referred to, and which to a greater or less extent operate against the Corporation in its endeavors to transact a purely trust and agency business on an extensive scale (and I may as well admit that its business has to be on a most extensive scale, with the charges made, in order to pay a reasonable profit), I have to ask the co-operation of every shareholder, and more particularly every director, in using their good offices and influence in bringing business to the Corporation.

Many men of means have sons, relatives, or friends whom they consider perfectly capable to act as executors and trustees, but apart from the fact that such individuals may not live to execute the trusts, there are very few instances, even in such cases, where it would not be in the best interests of a widow or daughters to create, under provisions in wills or otherwise, a trust fund, which would, under the care of the Trusts Corporation, be free from all the vicissitudes of business operations, and be absolutely safe for all time to come for the purposes for which it was designed. Our friends can safely point out three cardinal points in the system of management adopted by the Corporation, which cannot fail to commend themselves to all parties who contemplate making their wills or creating trusts;

(1) That by strictly confining ourselves to the business of executor, trustee, or agent, and eliminating from our transactions everything of a speculative character, the funds entrusted to us will be absolutely safe.

(2) That the charges of the Corporation are not only reasonable, but considerably less than would be given to individual trustees under similar circumstances. Anyone can determine this for himself without taking the word of interested parties, who are opposed to trust companies, by simply applying to the Corporation.

(3) That all business committed to the care of the Corporation, whether an estate of a few hundred dollars or a million dollars, will receive not only careful but the most prompt attention. In this connection it has come to my knowledge that some solicitors, for reasons of their own, when consulted with a view to the appointment of the Corporation, have informed their clients that the Corporation has so much business to attend to that it cannot give prompt attention to what they desire to place with it. This statement, I need not say, is entirely without foundation.

Before sitting down I desire to say that the entire staff of the Head Office and Branches have performed their duties in the most satisfactory manner.

The Report of the Directors was adopted, as well as the Report of the Inspection Committee, as presented by Mr. W. H. Beatty.

Certain by-laws and amendments were confirmed.

The following shareholders were elected Directors:

JOHN HOSKIN, K.C., LL.D., Director of the Canadian Bank of Commerce, and the Canada Life Assurance Company, etc., etc.

HON. S. C. WOOD, Vice-President of the Imperial Life Assurance Company, and Director of The Western Assurance Company.

W. H. BEATTY, Vice-President of the Bank of Toronto; President of The Confederation Life Association, etc.

JOHN BELL, K.C., formerly Chief Counsel for the Grand Trunk Railway Company of Canada.

JOHN L. BLAIKIE, President of The North American Life Assurance Company, and President of The Canada Landed & National Investment Company.

W. R. BROCK, President of the Canadian General Electric Company; Director of the Dominion Bank.

J. W. DIGBY, M.D., President of the Royal Loan and Savings Company, Brantford.

HON. J. J. FOY, K.C., M.P.P., Commissioner of Crown Lands for Ontario; Director of Dominion Bank, and President of the Niagara Navigation Co.

HON. G. T. FULFORD, Senator Dominion of Canada.

GEORGE GOODERHAM, President Bank of Toronto, and President Canada Permanent Mortgage Corporation.

WILLIAM HENDRIE, Director Imperial Bank of Canada.

AEMILIUS IRVING, K.C., Treasurer of the Law Society of Upper Canada.

ROBERT JAFFRAY, President of the Globe Printing Company; Director of the Imperial Bank of Canada.

J. J. KENNY, Managing Director of the Western Assurance Company.

J. W. LANGMUIR, Managing Director of the Toronto General Trusts Corporation; Chairman, Niagara Falls Park Commission.

THOMAS LONG, Director of the Merchants Bank of Canada, and the British America Assurance Company.

W. D. MATTHEWS, Director of the Canadian Pacific Railway Company, and the Dominion Bank, etc.

HON. PETER McLAREN, Senator Dominion of Canada.

E. B. OSLER, M.P., President of the Dominion Bank, and Director of the Canadian Pacific Railway Company.

J. G. SCOTT, K.C., Master of Titles for Ontario.

BYRON E. WALKER, General Manager of the Canadian Bank of Commerce, and Director of the Canada Life Assurance Company.

D. R. WILKIE, Vice-President and General Manager of the Imperial Bank of Canada, and Director of the North American Life Assurance Company.

Together with the following members of the Advisory Boards at Winnipeg and Ottawa:

WINNIPEG—Hon. Sir D. H. McMillan, Lieutenant-Governor of Manitoba, Chairman; D. W. Bole, M.P., President and Managing Director of the Bole Drug Co.; A. M. Nanton, of Messrs. Osler, Hammond and Nanton, and H. H. Smith, formerly Dominion Land Commissioner for Manitoba and the North-West Territories.

OTTAWA—Hon. W. C. Edwards, Senator, Chairman; George, P. Brophy, President Ottawa River Works, and Director Ottawa Electric Company; George Burn, General Manager Bank of Ottawa; C. A. Douglas, Financial Broker; J. B. Fraser, Director Bank of Ottawa; James Gillies, Lumber Merchant; W. D. Hogg, K.C., President Capitol Real Estate Company; Capt. J. L. Murphy, Capitalist; Hiram Robinson, President Hawkesbury Lumber Company, and Peter Whalen, Manager Shepherd and Morse Lumber Company; President Ottawa Investment Company, and Director Ottawa Electric Railway Company.

At a subsequent meeting of the Board of Directors, Dr. Hoskin was re-elected President, and Hon. S. C. Wood and Mr. W. H. Beatty, Vice-Presidents. The Executive Committee was re-elected, and Mr. [illegible]

Tuberculosis The Lungs Cured

World's Greatest Physician Eulogizes Catarrhozone, which kills all the Germs Heals the Membranes, Cures Thoroughly.

That consumption is due to the presence of germs in the air passages is now admitted by all physicians. Before the disease can be cured of course these germs must be killed. Liquid medicine taken into the stomach can't possibly reach the air cells of the lungs, and is therefore useless.

Catarrhozone never fails to kill the bacilli of consumption for the following reasons, which are plain to every thinking person;

First—Each breath of medicated air you draw through Catarrhozone Inhaler is at once sent through every air cell and air passage in the throat, bronchial tubes and lungs; it is thus sure to reach the seat of the consumption germs.

Being a powerful antiseptic Catarrhozone at once kills these germs and establishes such a healthy condition in the lungs that microbes can't live there. Once the cause of the disease is removed it is only a matter of time till you get well and strong again.

That Catharrhozone does permanently cure Tubercular Trouble can no longer be doubted. Ample evidence of its marvellous merit is witnessed every day. Thousands have been cured after all else has failed by this great germ destroyed, which is inimical to the very source of the disease.

Mrs. G. P. McCluskly, writing from Salt Lake City, U.S., says; "My doctor ordered me to Colorado, where I first used Catarrhozone. I inhaled it probably twenty times a day. In one week it stopped my cough completely, and it was not very long in taking every bit of soreness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed till the germs of consumption in my lungs, for I came home in seven months a cure. My doctor says Catarrhozone is a marvel. It is of the greatest assistance in lung trouble, and cured me permanently."

Not only consumption but every form of catarrh and throat trouble is easily cured by Catarrhozone. Two months' treatment costs $1.00. At druggists or by mail from N. C. Eason & Co., Hartford, Conn., U.S.A., and Kingston, Ont. For a quick and certain cure use only Catarrhozone.

GATHERED HERE AND THERE BY TIMES' REPORTERS

Special Soldiers Trains to Northwest

Special train with Colonist Sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto at 1.45 P.M.

Fire vs. Enterprise

Fire destroyed the most complete art stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunslow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

Who Owns the Tongues?

The Chief of Police is in receipt of a letter, which explains itself.

Dear Sir,—A lady living on Stewart street, bought two tongues on the market on Saturday. The man who sold them to her lost the number. They await an ownership at Marvin's butcher shop. Would you kindly see if the lady can be found and oblige.

THE SELLER.

DUTTON'S MARKET.

Bitter Oranges, per dozen, 25c
Fresh Herring, per dozen, 25

Phone 304. 419-420 George Street

The attendance at the

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. SHAPLEY.

Customs House Monthly Returns

The business of Peterborough, as guaged by that almost infallible test, the custom house collections, is growing every year. By courtesy of the local customs house staff, we submit the collections for last month, as compared with those of February of the preceding year, showing an increase of $12,142.01. Collections for Feb. 1905, $27,530; Feb. 1904, $15,388.79; Increase, $12,142.01

Something New in Peterborough

Messrs. McCollum Brothers, who lately bought the livery business of Mr. Leary on Water street, have added to their large stock of vehicles, an easy riding cutter, which they claim is original of its kind. The body of the cutter is hung on finely finished, reinforced springs and was manufactured by an Orillia maker as an experiment. Mr. McCollum, seeing the cutter, took a fancy to it, and after purchasing for a large sum, brought it here. This new firm have added six more horses to their stables.

Wedded at St. Peter's

Yesterday morning a very pretty wedding took place at St. Peter's cathedral when Miss Mary Ann Hickey, daughter of the late Thomas Hickey, became the bride of Mr. John Roach, son of the late John Roach, of town. The ceremony was performed by Rev. Father Kelly. Miss Mollie Whaley, of town, was bridesmaid, while Mr. Timothy Dineen, of town, supported the groom. After the ceremony a dainty wedding breakfast was served at the home of the bride's brother, Mr. Jas. Hickey. Mr. and Mrs. Roach will reside in Peterborough.

Mr. George Panter as Host

Mr. George Panter is a believer in the old fashioned way of celebrating his birthday, he thinks he gets his pleasure by giving pleasure. On Monday night, his natal day, he invited among others his fellow workmen for Mr. Adam Hall, to an oyster supper at his residence on Stewart street. Dull care and fractious stove pipes were forgotten in a round of games, music and songs. His guests all say that he knows something about an oyster, from how to catch, to have to cook him, and speak in high terms of the pleasant evening they spent. Before the party broke up they expressed their hopes of every happiness to come in the lives of their host, hostess and heir.

Donna Belle vs. Carthorse

There was quite a close race yesterday morning between Mr. Johnston's famous mare, Donna Belle, and a cart horse. Donna Belle was a good second at the wire, being handicapped by the cart horse having no driver, and thus saved the extra weight and pulling. The cart horse came down Hunter street as though his Satanic Majesty held a judgment against him, and was going to serve it. Mr. Johnston was driving Donna Belle and, seeing the runaway horse going in the same direction as he was driving, expected to easily pass it. At the first turn, at the post office, Donna Belle lost her feet, and thus the cart horse won the heat.

G. T. R. Engine Riddles a Wall

Yesterday morning, just after the witching hour of midnight, two locomotives entered the engine shed of the G.T.R. at that station and, owing to the dim light, the drivers made a slight error in calculating the momentum of their iron horses. The leading engine, No. 180 without excuse or apology kept right on and ran clear through the back of the shed. This might not have occurred, but the wall had been weakened by a similar accident last summer. The cost of yesterday's collision with the wall will probably quadruple that of the former one, owing to the more complete smash. Neither of the engines in yesterday's smash were materially injured nor did they jump the rails.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Royal Templars met in their hall last night.

—The 57th Regimental Band had a good attendance at their practice last night.

—There was a meeting of the Girl's Guild of St. John's church held last night, in the Sunday school room.

—Those interested in the match tonight, who do not go to the rink can hear the returns as they come in, in the Oriental Hotel.

—There will be a meeting to-night of the Music Committee of St. Andrew's church, to appoint a successor to Miss Florence Miller.

—The revival in Wales will be the subject of the mid-week service tonight at the Park street Baptist church, by the Rev. A. H. Brace.

—The Brock street rink management has arranged for a telegraph service to-night, reporting the Berlin game in full. The 57th Band will also be present.

—The many friends of Adj. Jennings will learn with regret that he is still confined to his bed, and is not improving as rapidly as might be wished.

—Brigadier Southall, who was prevented through illness from filling his engagement here on Sunday, will probably be in the Barracks on Sunday next.

—The annual meeting of the Peterborough Radial Street Railway Company, takes place this afternoon, at three o'clock in the company's office on George street.

—Owing to a freight car being off the rails near Millbrook yesterday, the noon G.T.R. train was unable to come through to Peterborough. A special went from town to connect with the express at Omemee.

—To-morrow the Iron Moulders of Peterborough will hold a banquet in the Oriental Hotel. These events have always been very successful in the past and there is every reason to believe that this will be no exception.

AT FIRE SPREADS in dry grass, so does an inflammation in the throat, grown down into the lungs. Deal promptly with a cold as with a fire, and when you begin to cough use Allen's Lung Balsam.

—Mr. D. Hughes Charles will give an address on "Banking," at a lecture held under the auspices of St. [illegible] 1905. Mr. J. H. Burnham will also give a lecture under the same auspices some time in April on "Canada."

—Mr T. H. G. Deane, of the American Cereal Company stated yesterday that they are now paying 41 cents to farmers for oats.

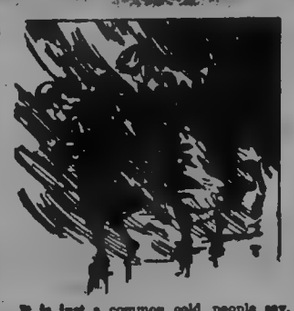
—The Lady Maccabees will hold their regular meeting in Sons of England Hall on Friday evening next at 7.30. A good attendance is requested.

—The Rev. Dr. Moore, of Ottawa, addressed a fairly large audience at the Y.M.C.A. last night. The rev. gentleman is secretary of the Canadian Society for the prevention of tuberculosis, so was well versed in his subject, the prevention of that dread scourge in Canada, and handled the subject effectively and lucidly.

—Mark street Methodist church had a fire last night, but the services of the brigade were not requisitioned, as nothing was burned but the mortgage on the building. The fair incendiaries defacto, were the Ladies Aid Society, as by their labors of love they raised the wherewithal to pay off the mortgage.

—On Monday evening, St. Andrew's Young Men's Guild, debating team, went to Centerville to help the Centerville Literary Society of the Presbyterian church, make an entertainment gotten up by the society more interesting. The debate was very spirited and well argued. A reception followed the entertainment, and both are well spoken of by the orators who returned yesterday morning.

THE NORTH WIND DOTH BLOW and with it comes the twinge of rheumatism. Dress warmly, stay indoors as much as you can and rub the swollen, tender muscles with Perry Davis' Painkiller, 25 and 50 cents.



It is just a common cold, people say, there's no danger in that. Admitting their statement, then there are *uncommon* colds, colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the best is "Dr. Pierce's Pleasant Pellets." If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alterative extract, which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

It contains no alcohol to shrivel up the blood corpuscles, but makes pure rich red blood.

Dr. Pierce's 1000-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay cost of customs and mailing *only*. For 50 stamps the cloth-bound volume will be sent. 1008 pages. It was formerly sold for $1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

SOCIAL AND PERSONAL

—Mr. and Mrs. T. C. Elliot, of the "Beehive," are out of town to-day visiting the wholesale markets.

—Mr. and Mrs. J. W. Green, the photographer, who lately sold out, left yesterday for the West; he will visit in Toronto, Hamilton and Detroit.

—Miss Lillian Hanna of Toronto returned home Monday, after spending the past three weeks with her friend, Miss Stella Morrow, of Stewart street.

—Mrs. J. L. Wood, 342 Charlotte street will receive this afternoon and evening, Wednesday, March 1st and afterwards on the first and third Wednesdays of the month.

—Mrs. Fred Tremble and daughter, Florence, of Toronto, who have been spending a few days with Mrs. Tremble's mother, Mrs. George Woods, at 123 Stewart street, left for home yesterday.

—Mr. Tom Eastwood, mine host at Buckhorn, is in town to see his daughter Miss Maggie, the guest of Mr. Isaac Eastwood, who will in a few days leave town for an extended tripp, including Toronto, Buffalo, and Pittsburg.

—Mrs. T. E. Boddy and daughter, Miss Rita, left yesterday for Toronto, Mr. and Mrs. Boddy wish to thank their neighbors and friends for the many kindness shown them during the breaking up of their household through removal. Mr. Boddy will remain in town some days longer.

JUST A WORD of caution; Where the skin is destroyed by burns or scalds apply Weaver's Cerate, reduced with sweet oil or lard. Otherwise the Cerate is full strength should be used; the sooner the better.

Alexander Munroe and George H. Munroe Have Resumed Business

Having adjusted their affairs so that their creditors will receive one hundred cents on the dollar, in the shortest time on record in Wall Street, they are now prepared to receive their clients and friends at their old offices.

Marconi Wireless Telegraph Co. of Canada, Ltd.

Shares in the above named Company are offered by Munro & Munro for subscription at $5 per share. This is the best investment that has ever been offered to the people of Canada, and one which promises profits of from one hundred to five hundred per cent. within the next few years. Greater progress has been made by the Canadian Marconi Co., in the development of the wireless telegraph system than was ever made in a like period by any similar industrial enterprise. The Dominion Government is supporting this enterprise pith large subsidy and liberal concessions, and within a short period, through the perfection of this system, Canada will be in the enjoyment of a direct medium of communication with England, which it has never heretofore enjoyed. The development of the Marconi Wireless Telegraph System is proceeding both from a scientific and a financial standpoint much more rapidly than the telegraph cable, telephone or electric light were developed. Those who are familiar with the immense fortunes that have been accumulated through investment in the securities of the industries named, will recognize the opportunity offered by this stock for the founding of a future competence.

Applications for the purchase of stock in this company will be accepted by Munro & Munro in blocks of from one to one hundred shares at Five ($5) Dollars each.

Full information and blank applications will be forwarded on receipt of request. Address all communications to and make all checks payable to

MUNROE & MUNROE

Broad Exchange Building, New York. State Mutual Building, Boston.
Canada Life Building, Montreal.

NOTE: The difficulties in which this firm became involved during the panic of December, 1904, in no way involved the Marconi Company, but had to do so solely with the Montreal & Boston Consolidated Mining & Smelting Co., and were precipitated by general market conditions in relation to copper metal and copper stock. The settlement of these difficulties by the payment in full of all claimants has been accomplished within the shortest time on record in Wall Street, and the firm's position to-day is stronger than ever before.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 51 PETERBOROUGH ONTARIO, THURSDAY MARCH 2 1905. PRICE TWO CENTS

MR. SIFTON HAS RESIGNED OTHERS MAY FOLLOW.

The Separate School Clauses Do Not Meet with the Approval of the Minister of the Interior---Resignation Much Discussed.

Ottawa, March 1.—Hon. Clifford Sifton has resigned his portfolio as Minister of the Interior in the Federal Cabinet, on account of his inability to concur in the educational clauses of the North-West autonomy legislation. He will explain to the House of Commons, possibly to-day, the reasons which have forced him to this conclusion. He was at his department this morning, but declined to be interviewed. It is perfectly well known, however, that he feels unable to support the action his colleagues have taken in providing for Separate schools in the Provinces of Alberta and Saskatchewan under a Federal Government, which the local legislatures will not have the right to disregard. In view of the stand which Mr. Sifton, as a member of the Greenway Government in Manitoba, took against Separate schools and upon the right of the provinces to frame and administer their own educational policy, the Minister of Interior has been reluctantly compelled to surrender his seat at the Cabinet Board and to vote against this feature of the Autonomy bill

From present appearances, it looks as though the Manitoba delegation in the Commons, with a number of the North-West and Ontario representatives, will follow Mr. Sifton in his opinion that the new provinces should be left perfectly free to regulate their own educational affairs. Hon. Thomas Greenway, member for Lisgar, and ex-Premier of Manitoba, is every bit as firmly committed against Separate schools and in favor of provincial rights in educational matters as Mr. Sifton himself. In fact, Mr. Greenway was Premier of Manitoba at the time Separate schools was abolished in that province. Mr. T. Acton Burrows, member for Dauphin, is a brother-in-law of the Minister of Interior, and is tolerably certain to vote with the latter. At all events he is committed to the same policy as Mr. Sifton on the Separate school question. Mr. Jackson of Selkirk and Mr. Crawford of Portage were both members of the legislature in Manitoba when Separate schools were wiped out there. The former was Speaker of the Assembly at the time.

Sir Wilfrid Laurier was made aware of the views of his Manitoba supporters in opposition to Separate schools before the autonomy legislation was framed. More than one of these men told the party leader, at the time, that they could not consistently vote for an enactment that forced Separate schools on the new provinces. Hon. Mr. Sifton was in the Southern States at the time, and nobody knows to what extent he was consulted in the preparation of the bills.

In the Senate, Hon. Robert Watson and Hon. Finlay Young are committed to the same stand for provincial rights in school matters as the Minister of Interior. The former was Commissioner of Public Works under Mr. Greenway. The latter was Speaker of the Assembly for one term.

In their reply to the remedial order of 1895 the Manitoba Legislature, to which Mr. Sifton, Mr. Greenway, Mr. Young, Mr. Watson, Mr. Crawford, and Mr. Jackson all belonged, expressed its view of the Separate school question in the following terms:

"It will be obvious that the establishment of a set of Roman Catholic schools followed by a set of Anglican schools, and possibly Mennonite, Icelandic, and other schools, would so impair our present system that any approach to even our present general standard of efficiency would be quite impossible. We contemplate the inauguration of such a state of affairs with grave apprehension. We have no hesitation in saying that there cannot be suggested any measure which, to our minds, would more seriously imperil the development of our Province."

EFFECT OF SYSTEM.

In 1896 the reply of the Manitoba Government to the wish of the then Federal Government to restore Separate schools was prepared by Hon. Mr. Sifton.

The objections to the policy of the Sowell Government declare it would have the following effect;

1. The statutory division of the people into separate denominational classes.

2. The necessary inferiority of the Separate schools;

3. Impairment of the efficiency of the Public schools through division of the school revenues.

4. The burdening of non-Catholic ratepayers by compelling them to maintain Separate schools.

5. The according of special privileges to one denomination, which could not on principle, be denied to all others, but which, in practice, could not be granted to such others without the entire destruction of the school system.

CANNOT AGREE.

Holding views like these on the general undesirability of Separate schools, Mr. Sifton is driven to the conclusion that he cannot lend his aid to a measure which is so framed as to saddle State-aided Separate schools on Alberta and Saskatchewan for all time to come.

THE SUCCESSOR.

The Premier, has, as yet, given no hint as to who will replace Mr. Sifton in his Administration. It has been known, however, to Mr. Sifton's intimate friends that he was desirous of retiring from the Government at an early date, even though this difference of opinion with his colleagues had never arisen. It has been current gossip that the Government's immigration work would be made a separate department, and placed under the charge of Walter Scott, the brilliant young member from Regina. The natural successor to Mr. Sifton in the Interior Department is Hon. Thos. Greenway, ex-Premier of Manitoba, who was returned to the House of Commons for Lisgar at the last general elections. If, however, Sir Wilfrid Laurier desires to avail himself of Mr. Greenway's services, the portfolio may be allowed to remain vacant for a time.

There is this complication about the situation, that Mr. Greenway will no more accept responsibility for the educational feature of the North-West autonomy legislation than Mr. Sifton. The Liberals who vote with the late Minister of Interior on this question make no secret of the regret with which they feel compelled to go against the leader of their party. In view, however, of the circumstances, they consider that there is no other course open to them to take as honorable men, and as representatives of public opinion in the constituencies which have returned them to Parliament.

FIELDING, TOO!

Hon. Mr. Sifton's resignation and the rumored dissatisfaction of the Finance Minister, Hon. W. S. Fielding, with the autonomy legislation, has given the Opposition new heart, and it is now practically certain that Mr. Borden will lead the Conservative party in a vigorous assault on the school clauses of the bill and the Government's refusal to hand over to Alberta and Saskatchewan the Dominion lands within their respective borders.

ONLY 44 YEARS OLD.

The Minister of Interior, who will be 44 years of age on Friday of next week, is a native of Middlesex county, Ontario.

COMING TO CANADA

Many Thousands of Russian Farmers Coming Here

St. Petersburg, March 2. Canada will gain many thousands of the best farm hands in Russia-Finns, Baltics and Greater Russians, by today's circular stopping emigration to Siberia during the war," said the head of the Government emigration office to a press correspondent.

"Hitherto," he continued, "emigration to these countries has consisted mainly of Hebrews. This year the governors of various provinces report that the farmers are emigrating."

General Ignatieff's appointment as chief of the commissioners for reforming the administration is interpreted as a reactionary triumph.

HANDS OFF

If the Romish hierarchy is incapable of understanding the spirit of the age and of learning the lessons of the past, then it must be told in words so plain that they cannot be misunderstood that they must keep their hands off our educational system, and that they must be content with the same rights and privileges as are granted to others. The whole matter may safely be entrusted to the provinces themselves, and any political party is strangely blind to the spirit of the age that allows itself to be dragooned into any course contrary to its own convictions by the Romish hierarchy or any other sect or nationality. The new provinces must not be started out on their career handicapped for all time by a system which stands as a direct menace to united citizenship.

THE FINANCES AND EDUCATION

Senator Lougheed Opposed to Autonomy Bill on Both Points

A CONSTITUTIONAL ISSUE

The Senator Declares That Separate School Provisions Invade Provincial Rights

Winnipeg, March 2. — Senator Lougheed has left Winnipeg for Calgary, and before doing so took occasion to outline to a correspondent his views of the controversial aspects of the provisions of the autonomy bill in regard to the financial and educational provisions. The Senator is of the opinion that the subsidies offered are no more than sufficient for the financial requirements of the new provinces, when a vigorous policy is taken into consideration, and that no provision is made for compensation in lieu of Crown Lands. Not only would the proposed legislation act as a detriment to the well-being of the provinces, but it would cripple the provinces' natural development by taking out of their hands the control of their immigration and placing it at Ottawa with those unacquainted with the needs of the West. Senator Lougheed also pointed out the injustice that had ignored the obvious claims of Calgary to become the administrative centre of Alberta, and the prejudice that had made of Edmonton the provincial capital.

Coming to the educational question, the Senator said: "I predict unrest and dissatisfaction throughout the whole Dominion over the restrictions imposed on the new provinces by the Dominion Government. Better far that their status should remain as it is than that their hands should be tied for all time to come on this question of education. The legislation, as proposed, is of the most reactionary character, and so far as it can be heard the voice of the Territories will be raised in protest against it.

"The question at issue is not sectional; it is constitutional. It is not concerned with the relative merits of public and separate schools, but with a deliberate assault on provincial rights, the fundamental basis

"The passage of this legislation," declared the Senator, in conclusion, "will constitute a menace to the whole body politic, and its introduction is only explicable when taken in conjunction with the party exigencies and affiliations of the Prime Minister."

MAY HAVE TO WALK

Kingston Railway to Shut Down as it Cannot Run at a Profit

Kingston, March 1.—The citizens may have to walk next week, as the street railway talks of closing down. The municipalization of the lighting plants has injured the Railway Company, which used the plants for its advantage. The stockholders of one being those of the other, and the bondholders having foreclosed a $200,000 mortgage. Dr. Rogers, trustee, has ordered that the line must not be run at a loss. The company has asked for power at $2 per car per day for six months, which they decline. That price is below cost. The city will give electricity at cost. This the company says it cannot pay and carry on the line at a profit. The upshot will be that the railway will be sold to the highest bidder. March 6 will determine the company's action.

The Civic Finance Committee will take a hand in seeking to keep the line in business. The winter has been very hard on the company, as the cost of removal of snow has piled up debt.

FOR BLIND, DEAF AND DUMB

A Joint Campaign Started on Their Behalf

Mr. H. F. Gardiner, Superintendent of the Institute for the Blind at Brantford, and Mr. R. Mathison, Superintendent of the Institution for the Deaf and Dumb at Belleville, are undertaking a joint campaign, with a view to ascertaining the names of all persons in the Province under 20 years of age who could be benefitted by courses at their respective institutes. Board, tuition, books and medical attendance are provided at the institutes to the people they are intended to aid. While both have reached and benefitted a very large proportion of the blind and deaf and dumb, it is felt there are many more who could be helped if they knew of the advantages offered. One part of the campaign of the superintendents named is the sending out to the school teachers of the Province a circular reciting the above facts, requesting them to assist in the work by reading the same to the pupils and asking the latter to give the names of blind, deaf and dumb young people of their acquaintance.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

NO EXHIBITION

The Horticultural Society Have Changed Their Modus Operandi

On Monday the Horticultural Society had their annual meeting. This society, from the results of their efforts, as seen in our beautiful parks, are justly entitled to the term. "Philanthropists," as every one, townsman or stranger, could not but experience a feeling of pleasure and gratitude to the society, whenever he passed through or by Victoria or Central Park last summer. The officers, and most of the members are enthusiastic lovers of floral beauty, and have devoted their time, money and experience towards giving the poorest citizen practically a garden of his own; the society is well deserving of every support in their endeavors. There has been some complaint that, at the annual exhibitions held by the society, the prizes are won among a very limited few exhibitors; this of course is no fault of the society, but rather a credit to the few ambitious lovers of horticulture who show the best specimens.

It is found that the annual show has cost the society yearly about $150 for prizes and other expenses, and the receipts at the door only about $20, so the society have decided to discontinue the annual shows, and will offer more prizes for the decoration of private premises, irrespective of personality. In the spring and fall each subscriber will receive a number of the best Dutch bulbs and will give each subscriber a small useful magazine "The Home of Flowers" published monthly.

For this spring's planting the gift will be ten gladiolli, four double tuberous begonias, and for the fall planting the gift will be seven hyacinths—two white, two blue, two red, single named varieties and one double; twenty-one narcissi, seven varieties, three of each.

These gifts will be worth more

REBELLION HINTED AT?

London, March 1.—Rev. Mr. Martin, pastor of Hamilton Road Methodist church, in referring to Separate schools, said; "It was well for those who had the destines of the people in their control to be wary, for though it might appear to some that the people would stand for everything, yet they might be compared to a mountain which for years had appeared [illegible] and fertile, but suddenly belches forth the burning lava and which when it found an outlet left death and disaster in its wake."

A BIG BANQUET

Insurance Men From Western Ontario to Attend a Banquet Given by Mr. John Rothwell.

Mr. John Rothwell, as intimated by this p.f.j., has recently been sent to Peterborough, as Superintendent of the Metropolitan Life Insurance Company. Mr. Rothwell, who is very much pleased, both with the town and the prospects of his company, has informed The Times that he intends, very shortly, issuing invitations to a banquet, to be held here. The guests will be mainly the agents and officers of his company, throughout his district, which extends from North Bay east to Buffalo, and from Toronto to Peterborough, his headquarters. It is probable that Mr. Kavanagh, Superintendent of agencies throughout Western New York, and the Dominion will speak at the banquet. And, it is expected, this bringing together of so many leading insurance men will accomplish certain hoped for results. During the past fiscal year, Mr. Rothwell's company wrote up $436,570,339 of business.

STRONGER THAN EVER

The British America Assurance Company Not Affected by Recent Conflagrations in Toronto and Baltimore.

Notwithstanding the fact that some of the fire insurance companies in both Canada and the United States were crippled and others actually swamped last year, the British America Assurance Company, although to some extent affected by the terrible holocausts of Baltimore and Toronto, to-day, owing in part to conservation and progressive management, and partly to the enthusiastic manner in which the shareholders showed such a practical confidence in the company, is stronger than ever, and worthy of the confidence such a company cannot but entail.

At the 71st annual meeting, held in the offices of the company last Monday, reports and statements showed that the income from premiums alone, in 1904, exceeded that of any previous year since the company's inception. To offset the inevitable loss from two such fires as above noted, the shareholders adopted a resolution to write off a portion of the capital, and, in addition, to subscribe for new capital to the amount of $350,000. Such convincing and substantial proof of the company's validity, and a glance at their annual statement in another column, which shows such a splendid record of business during the latter months of the year cannot but be most reassuring to the policy holders, and those holding stock. The security, which the company offers to its policy holders, as given in detail, in this journal, amounts to the enormous sum of $1,874,042.80.

The board of directors were unanimously re-elected, and at a subsequent meeting Hon. George A. Cox, was re-elected president, and Mr. J. J. Kenny, vice-president for the ensuing year.

With Mr. Cox, president of the Canadian Bank of Commerce, also of the vast Canada Life Company, and the guiding spirit of many of Canada's greatest corporations, re-elected to the presidency, the prospects of the British America Assurance Company are more than bright

WAY IS OPEN FOR KUROKI TO GET IN BEHIND MUKDEN

Victorious Japs Sweep Kuropatkin's Forces Back ---General Engagement is on Between the Two Armies---Progress of the Campaign.

The Japanese have apparently decided to drive the Russians out of Mukden, the capital of Manchuria, before the ice melts in the rivers and the roads become useless for the movements of artillery. There is ample reason in the physical conditions environing him for Oyama's decision. The country held by the centre columns of both armies is flat and well watered. Ditches, narrow streams, and at least one great river, the Hun, lie between the Japanese headquarters on the Sha River, a little north of Yentai, and Mukden. The Japanese guns must cross these waterways on the ice. So long as this means is open to use a crossing can be made at any time and at the most unexpected places, whereas were the rivers open the larger ones could only be crossed by pontoons and under the concentrated fire of the enemy. The Russian despatches last night spoke of holding the line of the Sha River, the first important stream on the map south of the Hun. It was admitted, however, that on the extreme Russian left—that is, the right-hand side of the map—Kuroki was on the move and was menacing Fushuncheng on the Hun River. If Kuroki can cross the Hun there and cut the Russian lines of communication he will be able to drive Kuropatkin out of Mukden, and force a retreat to Tieling, which is a narrow pass in the mountains. Through this gorge, not three miles wide, the Liao River, the Manchurian Railway and the Chinese Imperial highway all pass. The position is an excellent one, and there was general surprise that Kuropatkin did not choose it in the first place for his stand against the Japanese advance. He is seeking now to hinder the advance of Kuroki on the east by taking the offensive against the Japanese centre and left. Some minor successes have followed his initiative, but it is too soon yet to tell what is happening behind the smoke of the guns. A battle with 600,000 men engaged and extending over one hundred miles of frontage cannot be weighed and parcelled out like the results of a morning's shopping.

PROVED TO BE FATAL

Later Intelligence Concerning the Douro Fire Confirms the Rumor of Fatality

In the account in yesterday's issue, of the fire in Douro, whereby Mr. Dennis Moloney, county councillor, had his residence destroyed, we reported a rumor that Mr. Moloney had lost his only child by the occurence. The rumor proves to be only too true, and this journal would respectfully add an expression of sincere sympathy with the bereaved parents, to those of the whole community. Just before the fire broke out, Mrs. Moloney had put her son, who is an invalid, to bed. The fire was caused by dust or some inflammable substance lodged in the stove pipe thimble, and once started, made very rapid headway. Mr. Moloney being absent at a funeral, Mrs. Moloney was alone, except a visitor in the house. Mr. Edward Sullivan of Mchigan. When the fire showed first sign of danger, Mrs. Moloney, with the natural mother's instinct, rushed for the stairs to protect her sick son, but, sad to relate, the stairs were enwrapped in volumes of flame and smoke. Though at the peril of her life, the distracted mother, tried again and again to climb the burning stairs, until to save her own life, she was held back and prevented from going to what would have been certain death; she was severely burned about the face, and when removed to the house of a neighbor, Mr P. Fitzpatrick, she was placed under the care of a physician, and for some time her condition was critical. The young man, stricken down so suddenly at the early age of 26, was buried yesterday in St. Joseph's cemetery. The house was completely destroyed and very little of its contents saved.

LEECHES ON GOVERNMENT

HOW THE DUCAL DRONES OF RUSSIA LIVE

Czar Has 122 Palaces Scattered Throughout his Great Empire

St. Petersburg, March 2.—If the revolution had succeeded the Czar and the Grand Dukes would not have been the only ones to suffer. Between them they employ 52,000 servants, lackeys and maids, all of whom are well paid, fed and clothed.

The Czar owns 122 palaces, 100 of which must always be ready for the master. These 100 palaces are administered just as if the majesty was at home. The rooms are full of flowers, and five elaborate meals are served to the marshal and his family, representing the Czar and Grand Dukes, and every servant is at his or her post. In these hundred palaces 32,000 male and female servants are employed year in, year out, and their salaries, feeding and the maintenance of the immense piles set up $20,000,000 of money annually, which the Russian people must furnish.

No one knows the exact sums paid by the Russian people to the Czar annually, but the law of the realm guarantees each of the 22 Grand Dukes an annual income of $4,125,000 annually. These 22 drones own 225 palaces between them, in which they employ 22,000 servants — think of Boris getting along with 637 flunkeys and maids!

Besides the Grand Dukes own the fortieth part of all the tillable land in European Russia, and there is not a government contract made that does not furnish some member of the Imperial family considerable "graft."

HOCKEY.

Secretary Barker of the Smith's Falls Club has turned over to the O. H.A. the receipts of last week's Marlboro game, and the team will, therefore, be eligible to play in Peterborough for the senior championship.

• • • •

Rat Portage is Well Satisfied.

Winnipeg, Man., March 1.—The date suggested for the first Stanley Cup game by Ottawa is satisfactory to the Thistles, and will be accepted by Rat Portage Club. President Joe Johnson of the Thistles has received a letter naming March 8 from Frank McGee, and he expressed himself as pleased with it.

• • • •

Hockeyist Arrested.

Alexandria, Ont., March 1.—Early this morning A. Losey, of Maxville, the hockey player who struck the blow that killed Alcide Laurin, of this place, was arrested at Maxville by a constable from Alexandria, and taken direct to the jail at Cornwall on advice of Crown Attorney Dingwall.

• • • •

Winnipeg, Feb. 28.—While the Auditorium rink here was packed with 2,500 people witnessing a hockey match between the champion Rat Portagers and a picked city team last night, fire almost caused a serious panic.

The existence of the fire was first discovered by a volume of smoke pouring out below the band stand in the rear and of the rink. The flames burst into view almost at once, and the crowd in the tiers closest to the band-box made a helter-skelter rush over the seats to get out.

The band struck up and tried to play to prevent a panic, but their quarters rapidly became too hot for them and they had to clear out.

The players pluckly tried to go on with the game, but the spectators crowded onto the ice. Fortunately most of the crowd kept their wits and began an orderly, if hasty exit, and only a few were injured by being knocked over the seats.

The fire was soon extinguished by a line of hose. The spectators then returned and the game was continued. Rat Portage winning by fifteen to six.

• • • •

BERLIN WON.

The Peterborough seniors lost their first game in the first of the last round of the semi-finals at Berlin last night by a score of 9 to 1. The half time score was 5—0.

• • • •

It looks like Berlin and Victoria Harbor for the finals, as the Dutchmen have a good lead over the locals, who will have to go some to pull it down and win out.

DEAFNESS CANNOT BE CURED, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

Royal Baking Powder

45 CENTS a pound can (AT ALL GROCERS)

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

U. S. Colonel Cured of Rheumatism

So Crippled He Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cure.

FERROZONE

Relieved at Once—Cured Permanently—Well Ever Since

Colonel H. M. Rusa, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 6 for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, MARCH 2 1905

"SATURDAY NIGHT" ON THE SCHOOL QUESTION

Toronto Saturday Night makes some drastic comments on the Separate school matter now before Parliament. It says:

"Sir Wilfrid Laurier has swallowed himself. His whole life, since he reached manhood, has been a fight for liberty. In politics he has been a Liberal in the broadest sense; in religion he has been scarcely less emancipated; as a statesman he has been a consistent and persistent federalist. But in the House of Commons last Tuesday he rolled his past and himself into one large ball and swallowed it with an oratorical gulp. He doubtless hopes that the process of digestion will be pleasant. It is almost sure to be painful. The opportunity for the display of this gastronomical feat was furnished by the North-West Territories Autonomy Bill, which came before the House at the expected time. I had expected to see the Government turn a handspring on the Separate school question, but in my most pessimistic mood I looked for nothing so bold, so insolent and unjust as the clause providing for Separate schools in the new Provinces of Saskatchewan and Alberta contained in the Autonomy Bill."

Our contemporary then publishes the clauses in the Bill, and goes on to say:

"This means that Separate schools are fastened to the new Provinces forever, or until a bitter battle has been fought and won and the clause expunged. It means that Separate schools are as much a State institution as Public schools—entitled to the same privileges as Public schools, and to receive the same Government money grants as Public schools. In other words it means that the Roman Catholic church is to be subsidized, and the Roman Catholic religion is to be propagated at the expense of the whole country. And this is the law fastened upon the country by Sir Wilfrid Laurier, the man who came into power on the strength of his campaign against Federal legislation forcing Separate schools on Manitoba. The conduct of the Premier can be explained on only two grounds. Either old age has drawn him back to the arms of the Church against the aggressions of which he has persistently fought, or he has calmly and deliberately decided that the immediate political future can more conveniently be observed by apostatizing himself than by pursuing the honest and patriotic policy which he has received credit for following from proper motives. The question of principle evidently did not play any part in his calculations. Either cold-blooded expediency or religious prejudice directed him to his remarkable decision. Though he made a grotesque attempt to justify his stand by dealing with the Separate school clause, as if it were to be decided purely as a constitutional question, the constitution was so tied into knots, twisted, cut spliced and generally juggled with that it would never be recognized as the British North America Act when Sir Wilfrid had finished his sleight-of-hand performance."

Then follows the arguments in favor of Separate schools, alleged to be found in the British North America Act and in the North-West Territories Act. In presenting the Bill to the House, Sir Wilfrid said:

"We live by the side of a country, a great nation—a nation for which I have the greatest admiration—but whose example I do not take in everything. In the schools of which these morals and these dogmas are not taught for fear that dogmas might be taught in which all do not believe. When I compare these two countries, when I compare Canada with the United States, when I compare the status of the two nations, when I think upon their future, when I observe the social condition of the civil society in each of them, and when I observe in this country of ours a total absence of lynchings and almost total absence of divorces and murders, for my part, I thank heaven that we are living in a country where the young children of the land are taught Christian morals and Christian dogmas. Either the American system is right or the Canadian system is right. They cannot both be right. For my part, I say, and I say it without any hesitation, I know that we are in the right, and in this instance, as in many others, I have an abiding faith in the institutions of my own country."

Then our contemporary further adds: "This is as fanatical an attitude as any priest in the country would take. Divorces, murders, lynchings and what not are to be placed to the credit of secular schools, and any little morality Canada may possess must be credited to our Separate schools, where the Roman Catholic catechism displaces arithmetic and church history crowds the records of the struggle for British freedom into the background. Following Sir Wilfrid's reasoning to its logical conclusion, we must decide that the Public school as we have it in Ontario is a menace to the morals and peace of the nation, and as such should be stamped out. If secular schools have produced the shocking condition of society in the United States to which Sir Wilfrid refers, there is every reason to believe that it is only a matter of time until they will produce the same condition here. If Sir Wilfrid Laurier be sincere in his belief, the only course open to him as an honest man is to throw himself with all his energy into a fight for the salvation of his country by compelling the abolition of our secular schools. Before starting the campaign, however, he would be wise to examine our criminal statistics and compare the criminal-producing capacity of our Public schools with that of the Separate schools. He will find, I think, that the guests at the various penal institutions who have received their education in the religious schools are altogether out of proportion to the number of such schools in the country, as well as out of all proportion to the number of persons professing the Roman Catholic faith. If any form of education is to be held responsible for the production of criminals, the criminal statistics certainly indicate that it is the variety which is taught at public expense in the Separate schools of this Province, the variety which Sir Wilfrid Laurier is now endeavoring to fasten for all time on the new Provinces of Saskatchewan and Alberta. But this fanatical advocacy of the advantages of the Roman Catholic schools over our regular Public schools, in which the Premier indulges is not more fantastic than any of the other "reasons" he advanced for endowing his church with public moneys. The whole argument—if one may call perversion of facts, arguments—was rabidly partizan, offensive and as grave a menace to the liberty of this country as has ever been given expression in a Canadian Parliament. If the indefensible clause in the new Autonomy Bill should once become law it will mean the final withdrawal of any serious opposition to Roman Catholic clerical rule of this country. Now is the time for some man of capacity, talent and energy to come to the front and lead the fight for Canadian liberty and democracy. Now is the opportunity for the man for whom Goldwin Smith called a few weeks ago, when no such serious misuse of power as that which is now threatened was even suspected—the man who will 'move a resolution that, saving denominational rights specifically reserved by the British North America Act, the entire separation of the Church from the State, and the perfect equality of all religious denominations before the law, are fundamental principles of this commonwealth.' On such a resolution the fight should be fought to a satisfactory conclusion — and then, and not till then, will this ghost of mediaeval clerical authority be finally laid in Canada."

Something New in Peterborough

Messrs. McCollum Brothers, who lately bought the livery business of Mr. Leary on Water street, have added to their large stock of vehicles, an easy riding cutter, which they claim is original of its kind. The body of the cutter is hung on finely finished, reinforced springs and was manufactured by an Orillia maker as an experiment. Mr. McCollum, seeing the cutter, took a fancy to it, and after purchasing for a large sum, brought it here. This new firm have added six more horses to their

KILLED BY COMRADE

Dreadful Sequel to an Afterschool Sham Battle

London, Ont., March 1. — Little Joseph Charles Burridge, known among his companions as Charley, was killed by an accidental blow from an axe in the hands of a playmate, George Fox, about five o'clock last evening on Riverview avenue, South London, near the home of Mr. and Mrs. Joseph T. Burridge, the parents of the dead boy, who are prostrated with grief, as is also the lad who was the cause of the fatality. The latter's parents are Mr. and Mrs. G. M. Fox, of Riverview avenue. The dead boy was 13 years of age and the other just a year his senior.

Four lads, Charley Burridge, Geo. Fox, Allison Lewis, and Robert Watt, were playing together in the snow after school. They had built a small snow fort on the declivity which slopes from Riverview avenue to the river and were pretending, as only boys know how, that they were hostile armies engaged in a battle. "All the boys were good friends and no ill-feeling entered into their sport.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

FIVE BIG BARGAINS

(1)—15 Copies of Webster's Dictionary, (the new census edition), with 1800 illustrations and an appendix of 10,000 words. Indexed and bound in Morocco, for only $1.50 each, while they last.

SANTAL-MIDY

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

The Marconi Wireless Telegraph Company of Canada Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allotment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalization, of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £50,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This estimate of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send, full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of 5s each.

Address all communications and make all checks payable to

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter B. Summers, of Kalamazoo, Mich., relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physician, were an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While AFTER TREATMENT at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call, write for a QUESTION BLANK for Home Treatment.

DRS. KENNEDY & KERGAN

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:. Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the cheapest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $6,000,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Stanley, I saw on the dumps several thousand tons, probably 2000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot works long tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when in bunker to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

JEWISH MASSACRE IN THE CRIMEA

Forty-seven Jews, Including Seventeen Women, Were Killed

WAS DUE TO OFFICIAL RISE

In Order to Protect Themselves They Cried "Down With the Jews"

Berlin, March 1.—Prominent Jews here have received confirmation of the anti-Jewish riots at Geodosia, Crimea, reported last week. The political strike was in progress at Geodosia, and a mob of workmen assaulted the prefecture. The officials, to protect themselves, started a cry of "Down with the Jews."

The mobs immediately abandoned their attack on the prefecture, and rushed to the Ghetto and began a massacre of the Jews. They forced an entrance to houses, shot their victims with revolvers, or stabbed or beat them to death. Corpses were thrown through the windows into the street.

In one house Jewesses were found literally battered to death. Their skulls and almost every bone in their bodies were broken. In many cases the mob refrained from killing their victims, and deliberately broke their limbs, leaving them in their misery.

Forty-seven Jews, including seventeen women, were killed and 193 were wounded.

BRITAIN AND GERMANY

Serious Trouble Feared Between the Two Great Nations

London, Feb. 28.—Dr. Morrison, the well known correspondent at Peking of the London Times, complains that hitherto Germany has used her influence to preserve a monopoly and keep the door shut against all but Germans. Now she is extending her interference to purely domestic affairs. She insists that China shall, before appointing a governor, submit his name to the German legation for approval. When Hu Ting-kan was appointed in October as acting governor she protested against the appointment because she had not been consulted. Now, in the case of the appointment of Yang Shih-hsiang as acting governor, she repeats the protest because her approval was not sought. China has replied that these officials were only acting governors, thus allowing, by implication, Germany's right in the case of actual governors. Baron Mumm, the German minister, insisted that before proceeding to his post Yang Shihhsiang must go to Pekin and see him. Yang Shihhsiang declined, and asked Baron Mumm to go to Tientsin. Baron Mumm promptly refused, whereupon Yang Shihhsiang, with characteristic Chinese evasion, visited a temple near Pekin, where he had a long interview with Baron Mumm after a luncheon given by a Chinese official.

Of course it won't do to have Germany have more power and influence in China than England has, and it is not likely that she will have.

A ROYAL LOVE AFFAIR

Romance in the Life of the Princess Victoria

London, March 1.—Because of love letters which he had written to Princess Victoria, and to which she had replied during the past eight years, Frederick Robert Naylor has been placed in an insane asylum. The Princess is a daughter of the King, and was born in 1868. Naylor is a leather gilder, whose wages are $16 a week. They had never met. Her letters were found in a drawer in his mother's humble home. On the drawer the police have placed a seal.

Many years ago Naylor, enraptured by the beauty of the Princess, wrote her the first of a remarkable series of beautiful letters, and in pure womanliness the Princess answered. News of the secret correspondence leaked out just before an operation for appendicitis, which was performed on the Princess a few weeks ago, and the police immediately took action.

THE NEW ASSESSMENT

A Busy Time in the Assessment Courts of the Province

The township assessors are now wrestling with the new Assessment Act. In some parts of the county the assessors find that their "instructions" compel them to boost the assessed value of the property, and there is likely to be a busy time at the revision courts. The ratepayers cannot understand why a new assessment law should add largely to the value of their property. In the hands of the rural assessor the assessing of a farm is now an elaborate affair, involving much calculation and the asking and answering of many questions. If the operation results in a boost of the assessed value of the property in the township, all around, it will make little difference, for the rate can be adjusted to suit. But if the modus operandi leads to the raising of the assessed value of a piece of property here and there, (and perhaps a decrease in some other property — changes from the figures which have obtained for many years, there will very likely be a row over the new assessment.

GULLIBILITY OF WOMEN.

Ask Mrs. Chadwick What She Thinks About Their Susceptibility to the Wiles of Sharpers.

Women naturally are rather sensitive about being officially or otherwise classed with idiots and criminals. Equally naturally they resent the implication that they are particularly gullible and hence easily susceptible to sharpers who would play upon their highly organized nervous temperaments. In a recent attack upon the patent medicine business, it was implied that women are the victims of patent medicine advertisers, because they are so much more gullible than men. Well, perhaps they are more easily fooled, but we doubt if Mrs. Chadwick, if she were asked her opinion, would say so. As a matter of fact, women with their wonderful intuitions are apt to be pretty good judges of what is so and what is not so.

For this reason, women are not likely to be long imposed upon by misrepresentations concerning patent medicines or anything else, and when a patent medicine business has steadily grown for thirty-eight years it necessarily means that it has won the confidence of the women as well as of the men who have been and are its grateful patrons. Such a business as that described here is conducted by Dr. Ray V. Pierce of Buffalo, whose name is a synonym for honesty and honor in the business and professional world. Dr. Pierce has a great establishment in Buffalo, which is one of the chief points of interest to visitors in that city. It consists of a large laboratory for the manufacture of the medicines which bear his name and a hospital in connection therewith for the treatment of various ailments. This hospital is taxed to its full capacity at all times by patients who come from all parts of the country for treatment by the large staff of graduated specialists. In the laboratory the famous Dr. Pierce remedies are compounded from pure roots, herbs and barks of known properties and for special purposes. The change was recently made that alcohol was the principal ingredient of these medicines. The journal which made that baseless charge was promptly sued for $300,000 damages. An immediate retraction was the result.

Dr. Pierce is not only one of the principal manufacturers of patent medicines in the world but he is also one of the largest advertisers. He knows that the essence of dealing with the public is to let the public know that you have something which it wants, which it needs. But Dr. Pierce also knows that truth and honor must be the basis of all business and he permits no misrepresentations in any department of his business, not even in the advertising. Thousands of men and women have found the truth of this statement in their dealings with Dr. Pierce, a large part of whose business is conducted by correspondence. The charge has been made that this feature of the patent medicine business is a fake, as well as other features, that letters from patients do not receive attention from physicians, that they are made the subject of flippant comment by clerks who read them and prescribe remedies. This charge is absolutely untrue so far as Dr. Pierce's business is concerned. He employs a large number of highly trained physicians and surgeons for this work and they give quite as careful attention to all cases coming to them as does the private practitioner. All letters are treated with the utmost confidence and are not subject to miscellaneous inspection. The proprietary remedies are not prescribed for all patients, but prescriptions are given just as any doctor would give them. And the names and addresses of patients are not sold to others for sending out circulars.

In short, Dr. Pierce's business is what it is because Dr. Pierce has always done just what he advertises to do and because his medicines are just what they are advertised to be.

INVESTORS.

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Denton and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Wedded at St. Peter's

On Tuesday Morning a very pretty wedding took place at St. Peter's cathedral when Miss Mary Ann Hickey, daughter of the late Thomas Hickey, became the bride of Mr. John Roach, son of the late John Roach, of town. The ceremony was performed by Rev. Father Keily. Miss Mollie Whalley, of town, was bridesmaid, while Mr. Timothy Dineen, of town, supported the groom. After the ceremony a dainty wedding breakfast was served at the home of the bride's brother, Mr. Jas. Hickey. Mr. and Mrs. Roach will reside in Peter-

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non-assessable; of the 1,000,000 shares. 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $370,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $24 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you a. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

AN OPEN LETTER FROM MR. W. J. GAGE.

TORONTO, ONT., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,600 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 600 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 2,494 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

Not Only Relief, but Lasting Cure

Is What You Get From Catarrhozone Which Eradicates Every Trace o Catarrh From the System.

Relief is a good thing, but we soon get tired of it and look for a remedy that will drive the seeds of Catarrh right out of the system. It is only a waste of time to trifle with internal dosing. You must treat Catarrh locally because it is a local disease.

The most sensible treatment is Catarrhozone which really does reach the diseased membranes in a most thorough way. Every case of catarrh can be cured if Catarrhozone is used. It unquestionably penetrates every air cell and air passage of the breathing organs. It completely destroys the catarrh germs and heals all the inflamed surfaces.

Every requirement of an ideal catarrh cure is embraced in Catarrhozone. Other treatments may have failed to even bring relief, but one trial is sufficient to prove merit in Catarrhozone not found in the ordinary snuff or wash that unscrupulous people sometimes recommend for catarrh.

If you are subject to colds, catarrh or throat trouble you will find quick relief and lasting cure in fragrant, healing Catarrhozone. Mrs E. P. Fairbanks, of Durham, was cured of chronic catarrh by this remedy and endorses it in the following letter, which speaks for itself:

"I suffered continually from catarrh which affected my throat. My nostrils were usually inflammed and I was greatly bothered with droppings in the throat which made me sick at my stomach. I had a bad taste in my mouth, and felt a ringing in my ears. I read of Catarrhozone and commenced to use it. In a few days it helped me more than I ever expected. I used it four times daily and it two weeks most of the disagreeable symptoms disappeared. I continued the Catarrhozone treatment for six weeks and was perfectly cured. The catarrh has never returned."

Every complete outfit of Catarrhozone sufficient for two months' use is guaranteed to permanently cure; trial size 25c. Sold by druggists or by mail from N. C. Polson & Co. Hartford, Conn., U.S.A., or Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Wanted

Cook wanted at the White Kitchen, Simcoe street. 3d

Fifth Hill Class

New book, Nursing taken up Friday evening, 9 p.m., March 3rd, by Dr. Scott. Examination on first book of "First Aid to the Injured" will be given Saturday night, March 4th, 8 p.m. All the men are expected to take this examination.

Peterborough Man Got the Contract

The Toronto Globe yesterday contained a despatch from Ottawa to the effect that the contract for the eastern extension of Collingwood wharf has been let to Edwin Conroy, of Peterborough, the price being in the neighborhood of $25,000. This work will no doubt be performed in the same workmanlike manner in which has characterized the work done by this firm in the past.

A New Geography of Canada

We beg to tender our thanks to Mr. R. R. Hall, M.P., for a copy received yesterday of "Geography of the Dominion of Canada." This work, issued by the Minister of the Interior, is a beautifully gotten up artistic booklet showing maps of the different Provinces, and districts of Assiniboia, Alberta and Saskatchewan. It bears mostly on the north-western part of Canada, is profusely illustrated and contains valuable economistic statistics. The views of the Northwest are particularly good.

DUTTON'S MARKET

Bitter Oranges, per dozen, 25c
Fresh Herring per dozen, 25

R. A. DUTTON
Phone 304. 418-420 George Stree

The attendance at the
Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE.

Special Settlers Trains to Northwest

Special train with Colonist Sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto at 1.45 P.M.

Fire vs. Enterprise

Fire destroyed the most complete art stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunsiow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

Debate at the Y.M.C.A.

The regular meeting of the Y.M.C.A. Literary Society was held last night, when a good program was presented. When the roll was called and the members answered by a quotation. A feature of the evening was a debate on the following subject;—"Resolved that the unmarried man has a greater opportunity of making a success of life than has the married man." The debate was taken part in by Messrs. T. H. Hutchinson and W. Tretheway for the affirmative and Messrs. G. H. Williamson and C. Coleman for the negative. Mr. D. Downie spoke on current events, while Mr. H. V. Snook gave an impromptu address. Mr W. Coleman contributed a reading. Mr. Kenner is the critic of the Society and took his usual part.

Mr. J. O'Brien Returns Thanks

It is with a deep sense of gratitude, that I have to thank the good people of North Monaghan and Peterborough for the kindness they showed my family and myself, on the occasion of the disastrous fire which destroyed my dwelling, and all the contents, on the early morning of February 12th, and left me on the road. It is therefore all the more binding on me to again thank all the good people of the town, and neighborhood, who helped us in our sad plight; more especially, Mr. and Mrs. Thos. Williams and family, who by their hard work and kindness housed us after the fire. Again thanking all the good citizens, and hoping it will be in my power to aid them if needed on some future occasion, and wishing them all God's blessing and a prosperous life.

Thankfully yours,
JOHN O'BRIEN.

Red Tape Rampant in Lindsay

A travelling man, who came here from Lindsay yesterday, told the g.f.j. a story about our suburb, of Lindsay. While we cannot guarantee the exact truth of the tale, we give it. It appears that a lady engaged one of the Lindsay hackmen to take her for a long drive; after driving about for a short time, she intimated her desire to alight, and paid off the jehu. On returning to the stand cabby found that the lady, a complete stranger to him, had left on the seat, a paper covered parcel, which he investigated, and found to contain a very very dead cat, in fact a cat that had died long weeks ago. In his rage and disgust, he drove to the police station, and laying a complaint asked the chief what he should do under the circumstances. "Well," said the officer, "the lady is a stranger, and I guess she cannot be touched, but as far as the cat goes, the law allows you, as you found it, to advertise your find and, if not called for in six months, it becomes your own personal property.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Chief has a chisel found near Victoria Park, awaiting a claimant.

—The Maple Leaf hockey team had a group photo taken at Whiten's studio.

—Mrs. Morrow's Chegus Class met last night; in the T.A.S. rooms, there was a good attendance.

—March has come in like a lamb, but don't monkey with the band wagon until after the 1st of April.

—The Lady Maccabees will hold their regular meeting in the Sons of England Hall to-morrow evening at 7.30.

—Tickets for the Berlin game tomorrow night may be obtained at the Oriental Hotel, W. A. Sanderson's and F. A. Clarke's.

—The Fifth Ward is agitating for another street letter box, to be placed in the southern part of the town east of the river.

—The Oriental Hotel received special reports of the Berlin game last night. Mr. Graham has the interests of his patrons at heart.

—Town Clerk Armstrong would like to have a heart to heart talk with one or two members of the Licenced Victuallers' Association, ancient coin of the realm overdue.

HOW TO KEEP WELL

Strengthen the Stomach With Mi-o-na and Get Perfect Health

The source of health is the stomach and the digestive system. When acting as Nature designed they should, the organs of digestion do their work regularly and unconsciously, like a perfect machine.

Those who use Mi-o-na do not have a sallow complexion, sunken cheeks, nor flabby flesh. Their skin has a ruddy glow, the eyes are bright, the breath sweet and the step elastic. In short, the users of Mi-o-na have the maximum of good health and are plump, rosy and robust.

Nine-tenths of all sickness comes from a weak stomach, causing loss of flesh, shattered nerves, flatulency, heartburn, sick headaches, backaches, spots before the eyes, rheumatic troubles, and general weakness and debility. Take a Mi-o-na tablet before each meal, and all irritation, congestion and inflammation in the stomach or bowels will be immediately soothed and relieved. In fact, the stomach will become well and strong and the whole system filled with strength and vitality.

Even if a weakened stomach has brought you to a chronic stage of ill health, where life is one long drawn out pain, do not despair. Mi-o-na will effect a cure if the simple direction in each 50c. box are faithfully followed.

Read the guarantee given by Wm. Medill with every package of Mi-o-na he sells. He pledges himself in this guarantee to refund the money

"I enjoyed good health until about two years ago when I noticed my back began to ache frequently; it became sore and lame, and headache soon added to my misery; also found that my general health diminished. I became thin and weak and nervous, having severe pains at regular intervals," writes Mrs. Augustus Emory, Treasurer New Century Club, 34 Dean Street (Roxbury), Boston, Mass. She continues: "My work which before had seemed an easy task soon seemed like a heavy burden. I decided to try Dr. Pierce's Favorite Prescription, which several of my friends praised so highly. I felt relief within a week, my appetite came back, the pains gradually decreased and I enjoyed sound sleep. Within fourteen weeks I had completely recovered my health. I seemed built up anew; my pulse, which had been weak became normal, and new life animated my entire being. I gladly endorse your medicine."

Doctor Pierce's Favorite Prescription restores weak and sick women to sound health, by curing the local womanly diseases which are generally responsible for the failure of the general health. A woman's entire being is centered in her womanly nature. When the delicate womanly organism is attacked by disease; when there is irregularity or a disagreeable drain; when inflammation burns and ulcers gnaw the general health will reflect the progress of disease, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness.

So sure of it is the World's Dispensary Medical Association, of Buffalo, N. Y., proprietors of Dr. Pierce's Favorite Prescription, that they offer $500 reward for women who cannot be cured of Leucorrhea, Female weakness, Prolapsus, or Falling of Womb. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Pleasant Pellets regulate the stomach, liver and bowels.

—The Iron Moulders will hold their banquet to-night in the Oriental Hotel, and as usual the moulders are not doing things by halves. A first-class banquet is assured.

—Don't fail to take advantage of the big reduction sale of fancy goods, books of every description, stationery and notions, which will continue all through this month. Sacrifice prices to lighten our stock. Times Bookstore.

Personal and Social
Movements of the people in and out of town . . . .

—Mr. J. H. Brandon of Fenelon Falls is in town.

—Mrs. Stratton, of Strathormond, will not receive this afternoon.

—Bishop Scollard leaves for Sault Ste. Marie, and Bishop O'Connor for North Bay to-day.

—Miss Rose McGee, of Parry Sound, is visiting with her aunt, Mrs. A. Garlick, 332 Water street.

—Mr. A. R. Taylor, representing the old reliable Heintzman Piano Company, is in town, a guest at the Snowden House.

—The Bachelors and Benedicts of Millbrook held their annual ball last night. Mr. E. S. Clary and others went down to trip it on the lights fantastic toe.

—Mr. A. P. and Mr. J. W. Sager have returned to their home in Oil City, Pa. Mr. S. Sager's son, Hermon, has returned to North Chili Seminary, New York, where he will resume his studies.

—G. N. Prescott, W. S. Fleming, Victor Lyon, J. C. Broddy, R. S. Mackleam, D. E. Mashreen, all of Toronto; Geo. Walton, Ottawa, and George Pepper, Boston, are guests at the Oriental.

—Mr. and Mrs. Payne, of Campbellford, were in town yesterday, completing a large business transaction with Peterborough's leading fur house. Mr. Barrie reports a most satisfactory sale.

—Mr. J. S. Willison, editor of the Toronto News will deliver a lecture under the auspices of the Fortnightly Club. He will speak on "The Relations of the Press to Public Life." on March 30th.

—Miss Wright and Miss Ross, of Messrs. Richard Hall & Son's millinery department, have returned to Peterborough, after spending two weeks in New York, selecting the latest ideas and novelties in millinery for spring wear.

Police Court
OFFICIALS
Chief of Police, C. I. Reed
Magistrate, R. W. Dumble

Yesterday was very quiet with his Honor, nothing doing but a poor old man, named John Oakley, who asked Magistrate Dumble to accommodate him with quarters in Castle Nesbitt until the birds that build in the spring showed up. His Honor gave him an order for one month.

James Ferguson, replying to a hint from the Chief that he had not boozed wisely, but too well, said he had only just arrived in town, but could not remember by what train or whence. On the chance that he might make a similar slip of the memory while round the stations, and get hence, he was found "not guilty but don't do it again." James did not linger longer Loo, nor wait to distribute his blessing.

Meeting of the Charity Board

On Monday night the Charity Board met for business in the town clerk's office, when the following members were present;—Messrs. R. Rush, chairman; Rev. Father McColl, Rev. J. G. Lewis, Rev. E. A. Langfeldt, Wm. Aldridge, Wm. Yelland, R. C. Braund, Ald. Batten, J. D. Collins, F. W. Miller and Wm. Kemp. The minutes of the meeting of February 13th, 1905, were read and confirmed.

Reports of disbursements for aid given since last meeting, which amounted to $236.80. During 1905 to $482.16. Accounts were presented amounting to $106.65.

Moved by Ald. Batten, seconded by Mr. Aldridge, that the accounts presented be paid.—Carried.

Several applications for aid were left with the Relief Officer to deal with. The Board adjourned until Mon-

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorize the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorize the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 963 of the County of Peterborough, passed to authorize such conveyance by the said County.

4. To authorize the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 3 of chapter 74 of 3 Edward VII. so as to authorize the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

BY-LAW No. 1081—To provide for borrowing money to pay the Town's proportion of the cost of sewers on certain streets in the said Town;

BY-LAW No. 1082—To provide for borrowing money to pay the cost of the construction of sewers on certain streets in the said Town secured by local special rates;

BY-LAW No. 1100—To provide for borrowing the sum of $10,000 for the purchase of a site for an Armory in the said Town;

BY-LAW No. 1112—To provide for borrowing the sum of $3,000 required by the Board of Education to pay for alterations in the heating apparatus in the Central Public School;

BY-LAW No. 1117—To provide for borrowing $20,000 for the purpose of making extensions, improvements and alterations in the Waterworks system of the said Town;

BY-LAW No. 1119—To provide for borrowing the sum of $12,000 for reconstructing and repairing bridges and for purchasing land for and opening new streets in the said Town;

BY-LAW No. 1126—To aid The Peterborough Cereal Company (Limited) by a grant of land and a fixed assessment of $10,000 for ten years;

BY-LAW No. 1127—To aid The Peterborough Shovel and Tool Company (Limited) by a grant of land and a fixed assessment of $4,000 for ten years;

Dated at Peterborough this 14th Day of February, 1905.

F. H. D. HALL
Town Solicitor.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 52 — PETERBOROUGH ONTARIO, FRIDAY MARCH 3 1905 — PRICE TWO CENTS

SWEEPING SUCCESSES FOR THE MIKADO'S ARMIES?

Daring Japs Raid Sinmintin---Cavalry Ransack Town West of Mukden While Gun Trained on the Street.

New Chwang, March 3, via Tien Tsin.—A detachment of four hundred Japanese cavalry with one gun raided Sinmintin, about 30 miles west of Mukden, this afternoon. With the gun trained on the main street the troopers ransacked the railroad station and other buildings.

General Kuroki's Headquarters in the field, via Fusan, March 3.—During the night the Japanese infantry crept forward from the hills and took three small villages in front of Witoman, on the plain close to the river, which has been the scene of many outpost affairs. One column advanced north-east, and captured the town of Kodiaes, fifteen miles from Witoman.

Tokio, March 3.—Advices from the headquarters of the Japanese armies in Manchuria show that the Japanese activity on the extreme right continues. That wing is pressing forward, and is dislodging the Russians.

Sakhetun, Manchuria, March 1,—Delayed in transmission.—A stubborn fight is waging on the left wing. Vigorous attacks of the Japanese on the village of Kudaza have been repulsed, and the Russians maintain their position by reason of the intervention of a relief column which attacked the Japanese from the west after two passes had been occupied. This column was hard pressed by the Japanese, and suffered great losses. It advanced in detachments to the neighborhood of Ubenupuss, and was attacked thrice during the night, but repulsed all the Japanese onslaughts.

To the westward, the Japanese made a night attack on Kutai Pass. Some of the assaults were repulsed, but at 9 a.m., the Russian advance guard vacated two outworks, which had been destroyed by the Japanese artillery, and retired to adjacent and better fortified positions.

The Japanese attacked Nanshanpu, in the Khandienuan district, at six a.m., but were repulsed.

General Oku's Headquarters, Feb. 28, via Fusan, March 3.—The Japanese left wing is driving back the Russian outposts.

The Japanese have occupied a line from Shutsemun, two miles west of the Hun River, in a north-west direction to Kalita, on the east bank of the Liao River. A heavy bombardment along the entire line west of the railroad is in progress night and day.

The Russians are firing blindly with field and heavy guns. The Japanese remain in their position and make no serious response to the Russian fire.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The final game in the City League was played last night by the T.A.S. and Farriers, the former team winning the championship.

• • • •

A Great Game To-Night.

The game to-night with Berlin will be the game of the season. The locals who, are handicapped by a lead of eight goals, are going to make a hard fight to overcome the lead and get into the finals.

It looks like Berlin and Victoria Harbor for the O.H.A. intermediate championship. Still, the Peterborough team are wonders on their own ice, and it must not be forgotten that last week they scored 27 goals against a supposedly strong team. Berlin's margin of eight goals is, however, a pretty big handicap to overcome.

NEW SEPARATE SCHOOL

The New Separate School Building to be Commenced Shortly

His Lordship Bishop O'Connor set the seal of his approval on the plans for the Separate school, soon to be erected on the land immediately north of his lordship's palace. The architect, Mr. E. W. Argue, has completed the plans which show a handsome red brick structure, with Longford stone foundations.

This school will be used instead of the present Murray street structure, which will be pulled down, to make way for the new drill shed. It is to be 99 by 85 feet, with a 14x39 foot front projection.

It will be an eight-room school, and will practically have four storeys, including the basement. In the latter two large recreation rooms, one twenty-seven feet by 55 feet and the other 30 feet square will be situated, and there will also be a boiler room and lavatories. The heating will be by low pressure steam, the direct and indirect current system being adopted. The basement will have a concrete floor.

The outer lobby of the main entrance is 7 feet by 15 feet, and within is a hall-way 30 feet square.

As far as drawings show the school will be of handsome appearance, the arched doorway being situated in the centre of the front projection, while the same design has been followed out in the treatment of the windows above. There will be a side and rear entrance to the school. The site, which has been selected is an excellent one, and the idea is to crown it with an imposing structure, and one that will be in every way adapted to educational purposes.

It is understood that work will begin in connection with its construction immediately.

PROTECT YOURSELF AGAINST GERMS

People With Weak Stomachs Most Liable to Catch Disease

When the stomach and digestive organs are weak, the food does not digest, and there is a sour, slimy, fermenting mass, making it an ideal spot for the disease germs to multiply. The only way to protect yourself against disease germs is to strengthen the stomach and digestive organs, and Mi-o-na is the only agent, so far as is known, that will accomplish this.

The ordinary medicine that is taken for indigestion and stomach troubles is advertised to act upon the food alone, and hence can give no more than temporary relief. Mi-o-na is a certain cure in all cases of stomach troubles, excepting cancer, because it enables the stomach and digestive organs to act in the way Nature intended they should. Drugs cannot digest the food; they simply decompose it.

If you suffer with distress after eating, pains in the head, chest, sides and back, belching of gases and undigested food, bad taste in the mouth, dizziness, or vertigo, heartburn, variable appetite, sick headaches, spots before the eyes, and have a general feeling of despondency, weakness, and debility you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful does with Mi-o-na. Just one simple tablet out of a fifty cent box before eating, and your stomach will soon become so strong and healthy that you will be germ proof. Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na; costs nothing unless it cures.

$1000 REWARD, $1000.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co. Toledo, O

Hall's Family Pills are the best.

COMPARITION STATEMENT

Inland Revenue Returns for February 1905 and 1904

By courtesy of Mr. W. Rudkins and his staff, we give a comparison of the Inland Revenue Receipts for Peterborough for February, 1905, and for comparison to show the great increase since February of last year:

Total collection, Feb. 1905 ...	$7,899.29
Total collection, Feb. 1904 ...	4,753.60
Increase	$3,145.69

The items of this year's collection for February are;

Spirits	$6,775.79
Malt	942.42
Raw leaf tobacco	18.90
Cigars	66.00
Methylated spirits	96.18
Total	$7,899.29

STRONGER THAN EVER

The British America Assurance Company Not Affected by Recent Conflagrations in Toronto and Baltimore.

Notwithstanding the fact that some of the fire insurance companies in both Canada and the United States were crippled and others actually swamped last year, the British America Assurance Company, although to some extent affected by the terrible holocausts of Baltimore and Toronto, to-day, owing in part to conservation and progressive management, and partly to the enthusiastic manner in which the shareholders showed such a practical confidence in the company, is stronger than ever, and worthy of the confidence such a company cannot but entail.

At the 71st annual meeting, held in the offices of the company last Monday, reports and statements showed that the income from premiums alone, in 1904, exceeded that of any previous year since the company's inception. To offset the inevitable loss from two such fires as above noted, the shareholders adopted a resolution to write off a portion of the capital, and, in addition, to subscribe for new capital to the amount of $350,000. Such convincing and substantial proof of the company's validity, and a glance at their annual statement in another column, which shows such a splendid record of business during the latter months of the year cannot but be most reassuring to the policy holders, and those holding stock. The security, which the company offers to its policy holders, as given in detail, in this journal, amounts to the enormous sum of $1,874,042.95.

The board of directors were unanimously re-elected, and at a subsequent meeting Hon. George A. Cox, was re-elected president, and Mr. J. J. Kenny, vice-president for the ensuing year.

With Mr. Cox, president of the Canadian Bank of Commerce, also of the vast Canada Life Company, and the guiding spirit of many of Canada's greatest corporations, re-elected to the presidency, the prospects of the British America Assurance Company are more than bright for the future.

PROVINCIAL RIGHTS.

The Liberals during the Manitoba agitation ten years ago voted almost solidly against the introduction of Separate schools in the Northwest, and defeated Sir Charles Tupper's government mainly on that issue. They will not likely go en masse for what they denounced in 1896. Sir Wilfrid contends that by the spirit of the confederation it was intended to give every province desiring Separate schools the right to establish them. The two new provinces, as such will have nothing to say, as the system will be legalized by the new Dominion enactment.

Police Court

OFFICIALS

Chief of Police, G.I. Hood
Magistrate, D.W. Dumble

Magistrate D. W. Dumble had a very short bill of fare yesterday at the court, although the only prisoner was by name Longdo. James Longdo is a youngish man, who by appearances ought to be able to cough up enough for his family support, but the evidence went to show that he fails to connect in this particular. He has a wife and family, whom he has, of late, not only lived with, but sponged on. After this his family can safely sing "Honey you live in your own back yard," as the Magistrate allowed him to waft out on condition that he kept severely away from his wife and family; the lady, with genuine pluck, can and will support the family, but not James.

Chief Rossel has a rosary and chain of beads that would just fit some one's neck, and wants to find whose. He also has a right hand glove and wants either a right hand to fit it or the left glove to fit him.

MR. JAS. CALDER DEAD

An Octogenarian of Norwood Passes Away on February 28th

Norwood lost a well known resident and octogenarian on Monday, February 28th, in the death of Mr. Jno. Calder, in the 80th year of his age, at his late residence, where he has lived for more than half a century.

He was born in Elgin, Morrisshire, Scotland, in the year 1817, and came to Canada in 1843. After spending a short time in Peterborough and Aldendale, he located in Norwood, in [illegible]

The funeral took place Wednesday, at 2 p.m., to the Norwood cemetery, and the services connected therewith were conducted by the Rev. Mr. Parker, assisted by Rev. Mr. Lobb.

THE FORMAL OPENING.

A Dazzling Scene at Conservative Club

The Handsome Rooms a Blaze of Light and Beauty—Hon. J. W. St. John and Mr. W.H. Bennett, M. P. Honored Guests — Banquet at Longs.—An Unfortunate Occurence, Floor Sags.

THE Conservatives of Peterborough have every reason to feel proud of the opening night of their new home on George street. They had strained every effort to make the inauguration of their handsome and homelike premises a success, and their labors were not in vain. Last night the commodious club rooms were literally packed by representatives of every class and station among followers of the policy, promugated by the revered chieftian, the late Sir John A. Macdonald. Before eight o'clock the guests began to arrive, and from that time on there was a continuous stream of people entering the rooms.

The whereabouts of the club is patent to any stranger as outside the street entrance hangs a large illumination bearing the ledgend "Young Conservative Club," Messrs. J. J. Turner and Sons, had the decorations in charge, and complied with all requirements of their contract in a manner both pleasing to all present and reflecting credit on their taste and display. At the entrance to the rooms, flags of Canada and the Empire, reinforced by festoons of bunting suggested the decorations to be seen inside. The first large sitting room was a blaze of color, the walls being draped effectively with our National flags and emblems. Conspicuous on the walls were portraits, both in colors and photographic, of his Majesty the King, and in special place of honor, the world-known features of Sir John Macdonald, the late Sir John Thompson, so sadly cut off at the zenith of his political career, and many others, including our present member in the local legislature, Mr. T. E. Bradburn. In this room the guests of the evening, Hon. J. W. St. John, Speaker of the Ontario Legislative Assembly, Mr. Clarke, M. P.P., of Centre Bruce, and Mr. W. H. Bennett, M.P. for East Simcoe, received. Entering by a large arch to the next room, one found himself in the reading, and card room, which on ordinary days, is a snug well furnished apartment, with many tables for cards, magazines and papers, but last night, to provide room for the large assemblage, the tables had been removed. Here is also the piano where by the members can sing the songs appropriate to coming Conservative victories. Passing through another generous arch, one finds the well equipped billiard room, where there are several tables of the most modern style, well supplied with the necessary outfit of balls and cues. The club has other rooms, including the smoking rooms and lavatories, the whole premises being a home that would be an honor and a joy to any club or association.

In the largest room presided over by Mr. R. E. Layfield, the guests of honor were introduced to most of those present, and expressed their individual appreciation of their reception, and spoke in warmest terms of praise of the new club rooms. Mrs. Hardly Wilmot was to have sung at the reception, but the pleasure of hearing this talented vocalist was denied those present, as she had another engagement that debarred her presence, however, the 57th Regt. Band discoursed its usual sweet strains, and solos by Messrs. J. Legg and R. N. Jolliffe, with duets by the same two gentlemen, greatly enlivened the conversazione.

About 10 o'clock the scene of enjoyment was nolens volens changed. The center, or card room was so overweighted by the crowd that the floor began to sink, in fact, sunk some two inches. Fortunately, owing to the presence of mind of the officers and executive no panic was engendered, and all present, were got out in good order, and adjourned the conversazione to the chambers of the Albany Club in Bradburn's Opera House building, when the immense throng, among which the fair sex predominated, forgot the little contretempts and ended the evening very pleasantly.

The President, Mr. Layfield introduced in well chosen words, the Hon. Mr. St. John and Mr. Bennett, the guests of honor, who both delivered short but interesting speeches on public matters of interest, in which he emphasised the pleasure he and all members of the club felt at the large number of ladies present, and humorously reminded them of the great things they had accomplished at election time and trusted The great Conservative party would always deserve and receive the support of the ladies.

At 11 o'clock, about 80 of those present repaired to the handsome Palm Gardens of Mr. Harry Long, where his extensive dining saloons had been specially decorated, and tables arranged to seat the guests. In the inner room, were two long tables parallel to one another, and across them at the end, another table, where sat the officers of the club and the leading guests. The chair at the banquet was occupied by Mr. Layfield, who managed admirably and kept the interest of those present from flagging at any stage of the banquet.

The menu provided was one that would tickle the palate of an epicurean, beginning with soup and running through the several courses to Neapolitan ice cream and coffee. After these present had satisfied the inner man's cravings, Mr. St. John, Mr. Bennett and leading local Conservatives, made speeches, and a very pleasant evening, enlivened by songs and humor, ended at a late hour. Mr. R. E. Layfield, President of the club, took great interest in and worked hard over this affair, and was warmly congratulated on the great success of his labors.

Yesterday was a red-letter day in the annuals of Conservatism in Peterborough. The vice-chairman's end, at both events, was ably held up by Mr. Harry Morgan, vice-president of the club. Messrs. James Kendry, ex-M.P., and R. Max Dennistoun, were unavoidably absent through sickness.

PAID BY FRIENDS OF CONVICTS

Guards at Kingston Dismissed for Supplying Prisoners

Kingston, March 2.—Secret Service men have been working up cases in the Penitentiary, and as a result Inspector Dawson, who is here, suspended two guards and an overseer for having broken the rules by trafficking with convicts, receiving pay from outside friends for carrying tobacco, letters, and papers in to those in prison yards. It is said the men will be brought before the police magistrate for trial.

Some years ago other guards and instructors were dismissed and heavily fined for having committed similar offences. It is said that when a number of convicts come up for trial in June for attempted escape, witnesses will be called to prove that prison discipline and management is very much out of date. Counsel for the convicts intimates that the testimony of the guards alone will create a sensation.

THE AUTONOMY BILL

The two provinces to extend to 60th parallel.

Regina to be the temporary capital of Saskatchewan.

Edmonton to be the temporary capital of Alberta.

Each to have a Legislature of 25.

Date of autonomy, 1st July next.

The public domain to remain vested in the Dominion.

Manitoba is refused westward extension.

The district north of Manitoba taken is kept out of Saskatchewan.

A modified form of Separate schools is established.

A conference is to be held of Quebec, Ontario, Manitoba, Saskatchewan and perhaps other provinces, to determine the whole question of access to Hudson Bay.

AN INIQUITOUS ACT

Proposal to Establish Separate Schools Denounced

REV. LANGFELDT SPEAKS

He is Opposed to Federal Interference, and Presents Strong Arguments Against Government's Policy

The following, taken from the Toronto News, speaks for itself: In St. Luke's Anglican Church on Sunday Rev. E. A. Langfeldt, M.A., made a reference to the Autonomy Bill introduced in the House of Commons by Sir Wilfrid Laurier, and in connection with the education clauses, he said, "While not intending to meddle with party politics, I must, nevertheless, make today from my pulpit a protest against that iniquitous measure which the Dominion Premier has dared to enforce upon the new Provinces, namely, Separate Schools. This champion of democracy, this persistent opponent of unfair discrimination and the arrogant claims of the Roman hierarchy, advocating Separate Schools, after having in 1896 so strongly opposed them, assumes by this Bill the disgusting part of a hypocrite. One thing he does prove by this bill is that he is, in spite of his assertions to the contrary, lamentably under the influence and in the hands of the Roman Church. The spectacle of having for a Premier a man who will, with such presumption, compel a people to give out of the Government treasury money to endow his Church, a Church which substitutes in the Separate Schools Church catechism for arithmetic, fast and feast days, the names of a host of spurious saints and other absurdities peculiar to the Roman Church for the teaching of such subjects as will be helpful for the child's progress, should arouse such indignation amongst fair-minded men that would compel Sir Wilfrid Laurier to abandon his infamous scheme at once.

"I further protest against his holding the Public Schools responsible for divorces, murders, lynchings, etc., and implying that the morals among Protestants educated in Public Schools fall below those of Roman Catholics educated in Separate Schools. Without fear of contradiction, I say that the intelligence and morals of the people educated in the Public Schools are superior to that of the priestly-trained children. If the criminal statistics are at all reliable. It will be interesting for Sir Wilfrid Laurier to compare the criminal producing capacity of our Public Schools with that of the Separate Schools, and the result will be to the advantage of the former.

"I hope that the agitation over this iniquitous measure will lead the Premier of the Dominion Parliament to the same defeat which Sir Charles Tupper experienced when supporting Separate Schools for Manitoba."

FOOD FOR REFLECTION

Regarding the Aggressive Policy of the Church Hierarchy

Here is some food for reflection: Will Protestants, for the sake of being "good fellows," allow the hierarchy to apply their money for the endowment of the church? Separate Schools and priestly control on the part of the Roman Catholic church are inseparable. Are Protestants not going to put a "halt" to the continuous aggression of that church? What will be the future of Canada if its citizens will not stop playing into the hands of the hierarchy?

We would call upon the Protestant Churches of Peterborough and the Orangemen to go to work and arrange for a public meeting to be held as a protest against the Laurier Autonomy Bill. Now is the time to arouse public sentiment and to go towards the goal of stopping forever the greed of that arrogant aggregation, the Roman hierarchy.

KIDNAPPED HER DAUGHTER

Mrs. Lorenz Committed at Montreal for Extradition to New York

Montreal, March 2.—Not long ago a woman named Mrs. B. A. Lorenz, accompanied by her little daughter, came to Montreal from New York, and lived in an obscure way under an assumed name. She had been divorced from her husband, and the custody of the children had been granted by the New York Court to the father. However, while the decision of the court was being written for service on the mother, Mrs. Lorenz slipped away with her little girl and managed to get this far. Detectives traced her, and her arrest followed on a charge of kidnapping. The woman fought extradition, but Judge Hall to-day confirmed the decision of Extradition Commissioner Lafontaine that Mrs. Lorenz properly came under the terms of the extradition treaty between Great Britain and the United States. The father appeared in court, and the little girl burst into tears at the sight of him. Then mother and daughter were escorted back to jail, to await the arrival of an officer from New York.

WEDDING BELLS

Miss May Earle Became the Bride of Mr. Henry Edgar.

On Wednesday at Millbrook a happy couple took on themselves the golden fetters that chain them together for the remainder of a happy life. The ceremony was performed in the house of the bride's father, Mr. Henry Earle, and was a particularly pretty and interesting one. The bride was Miss Mary Earle, sister of Mrs. J. T. C. Lang, of town, and is a lady with many friends here. Rev. Mr. Clare, the resident Methodist minister looked the fetters, in the handsomely decorated drawing room.

Only the immediate relatives of the bride and groom were present.

The contracting parties were unattended except by a maid-of-honor Miss May Earle, neice of the bride who carried a beautiful basket of flowers, which contained the ring.

After the ceremony the guests sat down to a fine repast, after which the bride and groom departed on the five o'clock train for Denver, Col., where a honey-moon of several months will be spent. They will reside in Cavan on their return.

The bride was the recipient of many beautiful presents, amongst these being two well filled purses of money, the gift of her father and brother.

She has been one of Millbrook's most popular young ladies, being a zealous worker in the interests of the Methodist Church, by whom body her absence will be most keenly felt.

WAR IN THE EAST

Da Pass was Taken After Stubborn Fighting

Russian Headquarters, Huan Mountain, Manchuria, March 1.—The Japanese attack was renewed at dawn yesterday along the whole eastern front, and Da Pass was taken after fighting of the most stubborn character. An engagement simultaneously was in progress on the front, extending almost twenty miles from the extreme left eastward of Kandoleaan, where the Japanese opened a heavy artillery fire to the district of Laolinza, where they advanced in great force, meeting with stubborn resistance.

ROAD TO FUSHUN OPEN.

The capture of Da Pass opens the road to Fushun, east of Mukden, and Tie Pass, but the Russians are gathering a strong force to meet the threatened attack on their line of communications. The Japanese attack was supported by a strong park of artillery, a reserve of seven batteries being discovered east of Kandoleaan, which is yet silent.

The Japanese army now holds a line from Syoubehe, opposite Dzhantan, through Shahepao along the Shakhe River to Vanupudzi, and thence to Da Pass and Toumadzi south eastward.

The Japanese have effected a crossing of the Shakhe at Kanupudzi, and attacked the Russian centre under cover of darkness February 28th, driving back the Russian advance posts; but supports came up and stopped the Japanese advances. The officer in command of the latter heard the Russians cry out that their cartridges were exhausted, and they thereupon advanced invariously and received a volley at point blank range, losing heavily.

Big Victory for Joe Chamberlain

London, March 2.—The conference of the Association of Chambers of Commerce of the United Kingdom now sitting in London, to-day, discussed fiscal reforms and ultimately decided by the vote of 43 chambers against 21 that "changes in the fiscal system are essential to provide against unfair competition, and an Imperial conference should be called to discuss the question."

SANTAL-MIDY

These tiny Capsules arrest in 48 hours without inconvenience, affections in which Copaiba, Cubebs and Injections fail.

THE GUARDIAN ON SCHOOL BILL

Methodist Organ Denounces the Measure Soundly

STRONG LANGUAGE USED

Question is Whether Mediaevalism Shall Triumph Over Modernity, and we Shall Have a State Church

The Christian Guardian, in an editorial this week, strongly assails the Separate School clauses of the North-West Autonomy Act. The article is in part as follows:

"This drastic proposal comes as a bolt from the blues. The worst that was expected was that the Separate School provisions of the North-West Territories Act would be incorporated in the draft Act of Autonomy. And the people of the Territories themselves do not appear to have anticipated even that. But no one dreamt that Separate Schools as a state institution, Separate Schools with the same privileges as Public Schools, and receiving the same money grants from the Government, would be riveted upon the new Provinces forever. Who could dream that Sir Wilfrid Laurier, who was swept triumphantly into power nine years ago as the chivalrous champion of the opponents of coercion in Manitoba, would today seek to forge upon the wrists and ankles of Saskatchewan and Alberta chains that, as compared with those with which Manitoba was threatened, are as the girth of a man's loins to the thickness of his little finger?

"It is the question as to whether mediaevalism is to triumph over modernity, and narrow and arbitrary ecclesiasticism over personal liberty and popular government. It is the question as to whether we are to have in this free and democratic country a state church, and that church the Church of Rome. It is the question whether public funds are to be administered for the propagation of sectarian dogmas, and public men to become the puppets of an arrogant and aggressive hierarchy.

"Let the free and independent electors of this country deluge their representatives with letters at once, and warn them to vote down the educational clauses of this bill. Let the wily and persistent hierarchy, periodical disturbers of our country's peace, and consistent enemies of our country's freedom, find that their machinations have been thwarted. Sir Wilfrid Laurier may go to Canossa if he will. But we take it that Canada will not follow him."

BROUGHT GOOD PRICES

Mr. Wm. Rutherford's Sale of Farm Stock a Success

The sale of farm stock on Wednesday last, conducted by Mr. J. H. Gardiner, the well-known auctioneer, at the home of Mr. Wm. Rutherford, South Monaghan, was largely attended, and the bidding was exceedingly lively. The sale had been advertised by poster and through The Times, which no doubt accounted for its success. Horses and colts brought from $150 to $180; short horns and grade Durham cows from $30 to $75 a head, and Shropshire ewes $14 to $20 per pair. The sale totalled within a fraction of $3,000.

QUEBEC'S PULL

In the House on Wednesday, Mr. W. F. Maclean said, in his remarks on the Separate School issue, that the Bill had been framed with the aid of only three of his colleagues, all of whom were from the Province of Quebec. The Liberals, he said, came into office on the school question, and by the school question they would perish.

EVANGELISTS EVANGELISING

Messrs. Irving and May are Carrying For ward the Good Work to Victory

Mr. Irving is delighting the large audience that nightly come to drink at the fountain in the Gospel Hall. It is manifestly evident that this gentleman fits his vocation like a kid glove; gifted by nature with a good address, persuasive manners, clear resonant voice, and the happy faculty of avoiding tautology, he leads on an audience so that they are led, whether they will or not, as he desires. Both he and his colleague, Mr. May are well worth a long trip to hear their expounding of the Scriptures.

SEPARATE SCHOOL QUESTION

Public Meetings to be Held Within Ten Days

It is altogether likely that public meetings will be held to discuss the Separate school question now agitating the country. The Times is informed that the first meeting will be held in the opera house at an early date. These meetings will be addressed by several leading local ministers and others.

It is felt that strong and united action is necessary in order to prevent the great injustice which is threatening our new provinces. The Times will announce the date as soon as it is fixed.

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George E. Stineburg, of 179 Queen street, Toronto, was completely rebuilt by Ferrozone, and writes;

"I was subject to spells of dizziness and light feeling in the head,

"I broke out in cold sweats.

"My appetite was poor and I lived in perfect dread of a collapse.

"I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health, just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you. It will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

TIMES PRINTING COMPANY, Publishers and Proprietors, Peterborough, Ontario.

UNION LABEL

PETERBOROUGH, MARCH 4 1905

REACTIONARY PROPOSALS

The legislation imposing Separate Schools on the new Provinces is in every sense reactionary," says The Star. Self-government within the Empire, self-government within Canada, have been watch-words of freedom and progress. It has been found that this principle conduces not only to liberty, but to order and good government. The relations of Great Britain with Canada were never on a satisfactory basis until self-government was conceded. The attempt to join Upper and Lower Canada in a legislative union resulted in a deadlock, and no subject was more fruitful of discord than education. The application of the federal principle not only put an end to the dispute between Ontario and Quebec, but rendered possible the extension of the Dominion from the Atlantic to the Pacific. At the outset the boundaries of central and local authority were not clearly settled, and a series of contests between Ontario and the Dominion resulted in an extension of Provincial jurisdiction at several points. The power of disallowance fell into disuse except for rare occasions. Everywhere the advocates of centralization were defeated, and our system of government removed as far as possible from a legislative union.

It is now proposed to take a step backward toward legislative union. The new Provinces are to be admitted on terms less liberal than the old; the growing West is to have less freedom than the East. Moreover, its freedom is to be hampered at a vital point. The East assumes to dictate to the West what its educational system shall be, and to force upon it institutions against which the friends of freedom and progress in every country have contended. American civilization is not perfect, but the rapid growth of the United States is due largely to its national school system. On the other hand, the universal experience in that clerical education, whatever denomination may attempt it, is a failure. To establish such a system in any community is not a privilege, but an injustice to the people; it hampers the young in the struggle for existence, which is becoming so strenuous. To impose it on the West is so absurd and unjust as to compel the settler to use the agricultural methods of his ancestors. What strange infatuation in driving into this reactionary course the party of responsible government, the party of Provincial rights, the party that fought for the secularization of the clergy reserves, and for a national system of education?

MR. JAS. CALDER DEAD

An Octogenarian of Norwood Passes Away on February 26th

Norwood lost a well known resident and octogenarian on Monday, February 20th, in the death of Mr. Jas. Calder, in the 89th year of his age, at his late residence, where he has lived for more than half a century.

He was born in Elgin, Morrisshire, Scotland, in the year 1817, and came to Canada in 1843. After spending a short time in Peterborough and Allendale, he located in Norwood, in which place he has since resided.

The funeral took place Wednesday, at 2 p.m., to the Norwood cemetery, and the services connected therewith were conducted by the Rev. Mr. Parker, assisted by Rev. Mr. Lobb.

The pall-bearers were his sons, James Calder, of Norwood; John B. Calder, of Toronto; Wm. Calder, of Stirling, Geo. B. Calder, of Watertown, N.Y.; J. M. Robertson, of Tweed; Alex. J. Robertson, of Norwood.

APSLEY

—Mr. T. McIlmoyle spent Sunday at his daughter's, Mrs. Robert Hales.

—The roads are getting in much better condition now, and the stage is beginning to run regular trips again.

—Mrs. Blairy came home from visiting friends on Saturday last. She was accompanied by her brother, Mr. Jas. Clifford, and Miss Maggie is to return home with him

—Mr. Percy Coones arrived home from Minnesota recently. Garry, his brother, is also home from the camp, arriving home earlier than the others because he had an attack of rheumatism, and so could not work. But he seems to be better again.

—Last Sunday evening in church a young man made himself very offensive to those about him by spitting on the floor. To say the least, it was annoying, but when one considers that it is in church and the offender a young man, of a family who are respectable, it is sincerely hoped it will not be repeated.

—Mr. Williamson, Methodist minister, preached a sermon on the "Trinity" on Sunday evening last. Although the attendence was not large, those present, it is hoped, felt the force of his impressive remarks. Opening, he spoke of the different beliefs regarding the Trinity. Some were unwilling to believe in it because of its mystery, which they cannot explain. It is a mystery which we cannot comprehend nor explain, for it grows more mystical the more we try to explain. We have to believe much that we cannot explain, and the speaker showed this by referring to Light, Electricity and Life, giving several examples and quoting the opinions of great men on the same topic. Next Sunday his sermon will be on "Ministering Spirits—the Angels," and doubtless will prove of much interest.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

HOCKEY.

Secretary Barker of the Smith's Falls Club has turned over to the O.H.A. the receipts of last week's Marlboro game, and the team will, therefore, be eligible to play in Peterborough for the senior championship.

• • • •

Rat Portage is Well Satisfied.

Winnipeg, Man., March 1.—The date suggested for the first Stanley Cup game by Ottawas is satisfactory to the Thistles, and will be accepted by Rat Portage Club. President Joe Johnson of the Thistles has received a letter naming March 8 from Frank McGee, and he expressed himself as pleased with it.

• • • •

Hockeyist Arrested.

Alexandria, Ont., March 1.—Early this morning A. Loney, of Maxville, the hockey player who struck the blow that killed Alcide Laurin, of this place, was arrested at Maxville by a constable from Alexandria, and taken direct to the jail at Cornwall on advice of Crown Attorney Dingwall.

• • • •

Winnipeg, Feb. 28.—While the Auditorium rink here was packed with 2,500 people witnessing a hockey match between the champion Rat Portagers and a picked city team last night, fire almost caused a serious panic.

The existence of the fire was first discovered by a volume of smoke pouring out below the band stand in the rear end of the rink. The flames burst into view almost at once, and the crowd in the tiers closest to the band-box made a helter-skelter rush over the seats to get out.

The band struck up and tried to play to prevent a panic, but their quarters rapidly became too hot for them and they had to clear out.

The players pluckly tried to go on with the game, but the spectators crowded onto the ice. Fortunately most of the crowd kept their wits and began an orderly, if hasty exit, and only a few were injured by being knocked over the seats.

The fire was soon extinguished by a line of hose. The spectators then returned and the game was continued, Rat Portage winning by fifteen to six.

PROTECT YOURSELF AGAINST GERMS

People With Weak Stomachs Most Liable to Catch Disease

When the stomach and digestive organs are weak, the food does not digest, and there is a sour, slimy, fermenting mass, making it an ideal spot for the disease germs to multiply. The only way to protect yourself against disease germs is to strengthen the stomach and digestive organs, and Mi-o-na is the only agent, so far as is known, that will accomplish this.

The ordinary medicine that is taken for indigestion, and stomach troubles is advertised to act upon the food alone, and hence can give no more than temporary relief. Mi-o-na is a certain cure in all cases of stomach troubles, excepting cancer, because it enables the stomach and digestive organs to act in the way Nature intended they should. Drugs cannot digest the food; they simply decompose it.

If you suffer with distress after eating, pains in the head, chest, sides and back, belching of gases and undigested food, bad taste in the mouth, dizziness, or vertigo, heartburn, variable appetite, sick headaches, spots before the eyes, and have a general feeling of despondency, weakness, and debility you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful does with Mi-o-na. Just one simple tablet out of a fifty cent box before eating, and your stomach will soon become so strong and healthy that you will be germ proof. Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na; costs nothing unless it cures.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clause [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

FIVE BIG BARGAINS

(1)—15 Copies of Webster's Dictionary, (the new census edition) with 1500 illustrations and an appendix of 10,000 words, indexed and bound in Morocco, for only $1.50 each, while they last.

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

The Marconi Wireless Telegraph Company of Canada Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allottment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalization of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £56,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This estimate of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

—INCORPORATED—

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivered and milling, I place at about $6.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiser, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

2500 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $20 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels are handled by gravity dropping from one level to another through winzes into our own railroad cars, which we then haul to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money in what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

THE FINANCES AND EDUCATION

Senator Lougheed Opposed to Autonomy Bill on Both Points

A CONSTITUTIONAL ISSUE

The Senator Declares That Separate School Provisions Invade Provincial Rights

Winnipeg, March 2. — Senator Lougheed has left Winnipeg for Calgary, and before doing so took occasion to outline to a correspondent his views of the controversial aspects of the provisions of the autonomy bill in regard to the financial and educational provisions. The Senator is of the opinion that the subsidies offered are no more than sufficient for the financial requirements of the new provinces, when a vigorous policy is taken into consideration, and that no provision is made for compensation in lieu of of Crown Lands. Not only would the proposed legislation act as a detriment to the well-being of the provinces, but it would cripple the provinces' natural development by taking out of their hands the control of their immigration and placing it at Ottawa with those unacquainted with the needs of the West. Senator Lougheed also pointed out the injustice that had ignored the obvious claims of Calgary to become the administrative centre of Alberta, and the prejudice that had made of Edmonton the provincial capital.

Coming to the educational question, the Senator said: "I predict unrest and dissatisfaction throughout the whole Dominion over the restrictions imposed on the new provinces by the Dominion Government. Better far that their status should remain as it is than that their hands should be tied for all time to come on this question of education. The legislation, as proposed, is of the most reactionary character, and so far as it can be heard the voice of the Territories will be raised in protest against it.

"The question at issue is not sectional; it is constitutional. It is not concerned with the relative merits of public and separate schools, but with a deliberate assault on provincial rights, the fundamental basis of the political fabric.

LEECHES ON GOVERNMENT

HOW THE DUCAL DRONES OF RUSSIA LIVE

Czar Has 122 Palaces Scattered Throughout his Great Empire

St. Petersburg, March 2.—If the revolution had succeeded the Czar and the Grand Dukes would not have been the only ones to suffer. Between them they employ 52,000 servants, lackeys and maids, all of whom are well paid, fed and clothed.

The Czar owns 122 palaces, 100 of which must always be ready for the master. These 100 palaces are administered just as if the majesty was at home. The rooms are full of flowers, and five elaborate meals are served to the marshal and his family, representing the Czar and Grand Dukes, and every servant is at his or her post. In these hundred palaces 32,000 male and female servants are employed year in, year out, and their salaries, feeding and the maintenance of the immense piles eat up $20,000,000 of money annually, which the Russian people must furnish.

No one knows the exact sums paid by the Russian people to the Czar annually, but the law of the realm guarantees each of the 33 Grand Dukes an annual income of $4,125,000 annually. These 33 drones own 325 palaces between them, in which they employ 22,000 servants — think of Boris getting along with 637 flunkeys and maids!

Besides the Grand Dukes own the fortieth part of all the tillable land in European Russia, and there is not a government contract made that does not furnish some member of the imperial family considerable "graft."

COMING TO CANADA

Many Thousands of Russian Farmers Coming Here

St. Petersburg, March 2. Canada will gain many thousands of the best farm hands in Russia-Finns, Baltics and Greater Russians, by today's circular stopping emigration to Siberia during the war," said the head of the Government emigration office to a press correspondent.

"Hitherto," he continued, "emigration to these countries has consisted mainly of Hebrews. This year the governors of various provinces report that the farmers are emigrating."

General Ignatieff's appointment as chief of the commissioners for reforming the administration is interpreted as a reactionary triumph.

MAY HAVE TO WALK

Kingston Railway to Shut Down as it Cannot Run at a Profit

Kingston, March 1.—The citizens may have to walk next week, as the street railway talks of closing down. The municipalization of the lighting plants has injured the Railway Company, which used the plants for its advantage. The stockholders of one being those of the other, and the bondholders having foreclosed a $200,000 mortgage. Dr. Rogers, trustee, has ordered that the line must not be run at a loss. The company has asked for power at $2 per car per day for six months during slack season. That price is below cost. The city will give electricity at cost. This the company says it cannot pay and carry on the line at a profit. The upshot will be that the railway will be sold to the highest bidder. March 6 will determine the company's action.

The Civic Finance Committee will take a hand in seeking to keep the line in business. The winter has been very hard on the company, as the cost of removal of snow has piled up debt.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

FOR BLIND, DEAF AND DUMB

A Joint Campaign Started on Their Behalf

Mr. H. F. Gardiner, Superintendent of the Institute for the Blind at Brantford, and Mr. R. Mathison, Superintendent of the Institution for the Deaf and Dumb at Belleville, are undertaking a joint campaign, with a view to ascertaining the names of all persons in the Province under 20 years of age who could be benefitted by courses at their respective institutes. Board, tuition, books and medical attendance are provided at the institutes to the people they are intended to aid. While both have reached and benefitted a very large proportion of the blind and deaf and dumb, it is felt there are many more who could be helped if they knew of the advantages offered. One part of the campaign of the superintendents named is the sending out to the school teachers of the Province a circular reciting the above facts, requesting them to assist in the work by reading the same to the pupils and asking the latter to give the names of blind, deaf and dumb young people of their acquaintance.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $300,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."

A freighter and miners at Idaho City have invested: the stock is a money-maker for you as well. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 50 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

Is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

W. SAILSBURY.
PETERBOROUGH, ONT.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 80.

$80,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,073 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely,

W. J. Gage

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT UNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhozone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhozone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The microorganisms infecting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhozone and you are soon completely cured.

It is impossible to breathe through a Catarrhozone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhozone, which thoroughly disinfects and purifies every organ of the body.

Catarrhozone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhozone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., Kingston, Ont.

The attendance at the

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE.

A Fatal Mistake

Belleville, March 2.—Mrs. H. Diamond, of Queensboro, a young married woman 25 years of age, took a dose of poison yesterday morning, supposing it to be salts. She died about noon. Dr. Harrison of Madoc, took the bottle of poison to be analysed. An inquest will be held this afternoon by Dr. Sutton, coroner of Madoc.

Farmers Want Laborers

About fifty immigrants arrived at Toronto last night from Great Britain. The officials of the Government Immigration Department stated that they could now place a large number of men with the farmers of the country. Mr. Parnee showed a representative of the press a big bundle of applications, which he said he had recently received, and he stated that he could secure positions for farm hands almost as soon as they arrived. Quite a number of laborers are needed in the Peterborough section.

Mr. J. L. Richmond Established

—Mr. J. L. Richmond, who, as noted in a former issue of this journal, purchased the photograph business formerly conducted by Mr. J. W. Green and Son, on Simcoe street, has now fully established himself. Mr. Richmond is a gentlemen who has had an extensive experience in this branch of art, having conducted the photograph business for years, with great success, in Toronto, Brantford and other cities in both Canada and the United States. He has added, and is going to add more backgrounds and paraphernalia to the already well equipped studio, so that he will, with the extensive alterations contemplated, and to be made at once, have a studio second to none. This journal's representative has seen some of Mr. Richmond's work, and it is of high artistic merit, particularly in family groups, which are particularly effective.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Blues met last night at the Y.M.C.A.

—Did you hear the Hon. Mr. St. John last night? He is a corker.

—The Iron Moulders' banquet last night was a great success. It was held at the Oriental Hotel.

—Buyer Mellbeggbey shipped a consignment of hogs to Peterborough this morning.—Lindsay Post, 9

—We are selling an extra large and strong double hobby horse for only one dollar at Times Bookstore.

—If you are thinking of getting a stringed instrument, see samples and get our prices before buying. Times Bookstore.

—Patrick Dorin, a resident of Westwood, was brought in to St. Joseph's hospital on Wednesday night to get a broken leg attended to.

—A meeting of the directors of the Peterborough Radial Railway was held Wednesday afternoon but no business of importance was transacted.

—Brigadier Southall, of Toronto, trade secretary of the Salvation Army, will be here on Sunday, and will conduct special services in the S.A. Hall.

—The Ladies' Aid of St. Andrew's church will hold their regular monthly meeting this afternoon at 3.30 in the church parlor. A full attendance is requested.

—The last carnival of the season will be held at the Keene skating rink to-night. It promises to be a big success. If the roads are favorable a number will attend from town.

—Messrs. Alexander & Miller have secured the contract for installing electroliers in the new Armstrong Hotel at Havelock. In addition to this they will place over 100 lights in the building.

—The Sunday school rooms of the Murray street Baptist church are being calcimined and painted. This will greatly brighten their appearance and make them attractive for the members of the school.

—A delay was caused Wednesday morning at Lindsay to the 9.15 westbound Peterborough train by the breaking of a wheel. The car was exchanged for another one. The accident occurred as the train was pulling into the station.

—Since the beginning of winter the ice on Little Lake has lowered several feet. The stop logs at the lock having been raised. The lake water is now low although the Otonabee river affords ample power for mill owners and power users.

—The Children's Aid Society wishes to acknowledge with thanks the donation from Richard Hall & Son's of a quantity of clothing, consisting principally of ladies' jackets. The gift is a most handsome one, the clothing being of a most superior quality.

—The degree team of Otonabee lodge I.O.O.F., will go to Millbrook on the 14th inst. It is expected forty or fifty Oddfellows will accompany the team, which will go down by special train. The team is now holding several practices a week and is getting the degree work down to perfection.

—At the social to be held at St. Luke's church next Thursday night solos will be given by Messrs. Jos. Legg, R. N. Jolliffe, who sang at the Conservative conversazione last night, and H. Morpisett, in addition to these musical numbers the Rector will give his interesting lecture on "The German Army."

—A car of oil for the Gas Works arrived yesterday in a damaged condition. The outlet valve was injured, necessitating the removal of its four thousand gallons by hand pumping. Worse than the band shaking of a successful political candidate, on the bloops.

—Wednesday night the members of the Tennyson Club with a number of their young gentlemen friends took a sleigh-drive into Smith township, and spent a pleasant evening at the residence of Mr. Bert McKee. A few delightful hours were spent at the conclusion of which refreshments were served. One of the incidents of the trip was an upset which the passengers in one of the sleighs participated in.

Separate School Board Meeting

At Wednesday night's meeting of the Separate School Board, the chairman, Mr. James Murty, and Messrs. Hickey, Primeau, Burns, Ball, Hourigan, Gosselin, Carveth, Beary and Lane were present. The minutes of last meeting were read and confirmed. Some small accounts were received and referred to the Finance Committee. Reports of attendance for the month of February were received and the Board adjourned.

The Love of Eating.

IS THE AMERICAN BECOMING A GOURMAND?

In our largest centers of population, such as New York and Chicago, we daily see more attention given to the inner man. Cafes and lunch-rooms are filled with men and women who seem to give all their time and attention to thoughts of properly or improperly feeding their stomachs. "It is of course best to eat slowly, but not too much," says Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. In this 20th century people devote so much time to head work that their brain is fagged and there isn't sufficient blood left to properly take care of the other organs of the body. The stomach must be assisted in its hard work—the liver started into action—by the use of a good stomach tonic, which should be entirely of vegetable ingredients and without alcohol. After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in a blood-maker and tissue-builder. He called it Dr. Pierce's Golden Medical Discovery—an alterative extract that assists in the digestion and assimilation of the food in the stomach—so that the blood gets what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine.

Send Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R.V. Pierce, Buffalo, N. Y.

Personal and Social

Movements of the people in and out of town . . . .

—Staff-Captain Patterson left town yesterday for Lindsay.

—Mr. Devitch, of the G.T.P., survey, is visiting in town for a few days.

—Mr. Alf. George, Port Hope's leading funeral director, was in town yesterday.

—Miss Lillian Argue, of Millbrook, is visiting her sister, Mrs. G. B. Richardson, 580 Aylmer street.

—Mr. Roberts was in town yesterday in the interests of the Port Hope Brewing Co., and left last night.

—Miss E. Goodman, Peterborough, is visiting her cousin, Misses Brownscombe, Ridout street. —Port Hope Guide.

—Mr. Cortez Fessenden, Principal of the Collegiate Institute, was unable to attend work yesterday through illness.

—Miss Kate Bolin and Mrs. John F. Gartland of Rochester, are the guests of their mother, Mrs. John Bolin, Charlotte street.

—Mr. W. C. Cooney, of Peterborough, is visiting friends in the section.—Kirby correspondent, Bowmanville News.

—Mr. Williard Caldwell, McDonel treet, left yesterday for Omemee, where he will spend a short time visiting friends.

—Miss Armstrong, head milliner of the Golden Lion, leaves to-morrow morning for New York to select the latest novelties in head wear.

—Mrs. C. B. McAllister will not receive to-day, but will receive for the last time until after Lent on March 10th. When Mrs. J. D. Allen will also receive with her.

—Miss Noble, buyer for the J. C. Turnbull Co's millinery department, has returned after spending three weeks visiting the American and Canadian wholesale millinery centres.

—Miss Young, who has charge of the J. C. Turnbull Co's ready-to-wear department this season again, is on a buying trip through the Canadian wholesale ready-to-wear houses. She returns on Monday.

—Miss Lough, former general secretary of the local Y.W.C.A., who was called home on account of her mother's illness, will return for the opening of the new buildings which will take place about April 1st.

—Miss Neild, head dressmaker of Robt. Fair & Co., re-opened the department Wednesday morning. During her month's vacation she took many opportunities of becoming familiar with the new spring costumes.

—His Lordship Bishop Scollard left for North Bay yesterday morning by the early G.T.R. train. He was given a reception last night by the people of that town. His lordship Bishop O'Connor accompanied him.

—Miss Lough, former secretary of the Y.W.C.A., is returning for the first of April and will be here for the opening of the new building. It is a pleasure to note that Miss Lough's mother, who was in ill-health has greatly improved. The new Association building will be in charge of Miss Lough for a couple of months.

—The Toronto Empire says; "Mrs. J. D. Collins, who has been visiting Mrs. Walter Stewart, Carlton street, for some weeks, returned to Peterborough yesterday." As noted in a former issue of the g.f.j., Mrs. Collins has been in attendance on her son, who has undergone an important operation in the Toronto Hospital, and who now is convalescent.

Millbrook's Ball a Success

The ball given by the young men of Millbrook was held in the town hall Wednesday night and a most enjoyable time was spent. The young people of Millbrook are very fortunate in having such a fine town hall, which is found very convenient for the purpose to which it was put last evening. Quite a number of Peterborough people went down to attend it, and report having a good time. The patronesses were; Mrs. John Allen, (Dr.) H. A. Turner, Mrs. J. R. Kells, Mrs. Wm. O'Brien and Mrs. A. St. A. Smith; Messrs. S. T. Medd, W. S. Davidson, and E. S. Clarry of town, attended the ball.

DEATH AT ST. JOSEPH'S

Mrs Catharine Londergan Dies of Pneumonia on Wednesday

On Wednesday, Catharine, the wife of the late Mr. Morris Londergan, died of pneumonia in St. Joseph's Hospital.

Deceased, who was born in Ireland, was 47 years of age and died of pneumonia after an illness of about four days' duration. The late Mrs. Londergan and her husband resided up to the time of his death, which occurred about seven years ago. In Otonabee township, when she removed to 57 Elm street, town where she lived till the time of her death. The deceased leaves only one child Mary, a little girl who is twelve years of age. A brother, Mr. J. S. Hyland, resides in Chicago.

The funeral will leave the late residence of Mrs. Londergan, 57 Elm street, this morning at 9 o'clock and proceed to St. Peter's Cathedral where requiem mass will be sung, thence to St. Peter's Cemetery for interment.

APSLEY

—Mr. T. McIlmoyle spent Sunday at his daughter's, Mrs. Robert Hales.

—The roads are getting in much better condition now, and the stage is beginning to run regular trips again.

—Mrs. Slairs came home from visiting friends on Saturday last. She was accompanied by her brother, Mr. Jas. Clifford, and Miss Maggie is to return home with him.

—Mr. Percy Coones arrived home from Minnesota recently. Garry, his brother, is also home from the camp, arriving home earlier than the others because he had an attack of rheumatism, and so could not work. But he seems to be better again.

—Mr. Williamson, Methodist minister, preached a sermon on the "Trinity" on Sunday evening last. Although the attendance was not large, those present, it is hoped, felt the force of his impressive remarks. Opening, he spoke of the different beliefs regarding the Trinity. Some were unwilling to believe in it because of its mystery, which they cannot explain. It is a mystery which we cannot comprehend nor explain, for it grows more mystical the more we try to explain. We have to believe much that we cannot explain, and the speaker showed this by referring to Light, Electricity and Life, giving several examples and quoting the opinions of great men on the same topic. Next Sunday his sermon will be on "Ministering Spirits—the Angels," and doubtless will prove of much interest.

GEN. KUROPATKIN ADMITS REPULSES BY THE JAPS

The Enemy Charged With the Bayonet and Forced the Russian Advance Guard to Retire ---Japs Gaining Ground Fast.

St. Petersburg, March 3.—A despatch from General Kuropatkin, dated March 1, says;

"In a third attack on the Russian detachment near Tubenenuss the Japanese charged with the bayonet and succeeded in occupying the central height, forcing the Russian advance guard to retire to the neighboring crest.

"The Russians at 9 o'clock at night on February 28, were still holding a position near Kondiasa against the Japanese attack.

"The Japanese made a fresh attack on the Gauto Pass position at three a.m., March 1. After repulsing several assaults the Russians were forced to abandon two entrenchments which had been demolished by the Japanese artillery."

General Kuropatkin adds that several Japanese attacks on Nanshanpu on the Shakhe River on the morning of March 1 were repulsed, and says the bombardment of Poutilo and Novgorod Hills and the Russian position at Sandepas was continued through March 1. The losses were insignificant.

DIES THE VICTIM OF MURDERER

Mrs. Stanford, one of the World's Richest Women Could not Escape Poisoner

Honolulu, March 3.—The chemist's report of the analysis of the bicarbonate of soda, of which Mrs. Stanford took a dose shortly before her death, states positively that the soda contained strychnine.

"A HORRIBLE DEATH."

Honolulu, March 3.—Mrs. Jane Lathrop Stanford of San Francisco, widow of United States Senator Leland Stanford, and one of the world's richest women, died at 11.40 o'clock last night at the Mona Hospital here. She was taken ill at 11 o'clock, and said, "I have been poisoned."

Her last words were, "This is a horrible death to die."

Mrs. Stanford came here from San Francisco, on the steamer Korea, Feb. 21st. In conversation with Mrs. Henry Highton, of San Francisco, who is now here, Mrs. Stanford said that an attempt had been made to poison her in that city, and that this was her reason for sailing on the Korea. Before retiring on Tuesday, Mrs. Stanford took a dose of bicarbonate of soda, which she purchased at San Francisco.

In the afternoon Mrs. Stanford went to a picnic. She ate heartily. On returning to the hotel she took no dinner, and retired shortly after ten o'clock.

HEARD A GROAN.

The guest who had found her, a Mr. Henniman, said; "I retired shortly before 11 o'clock, and soon fell asleep. My room is next to that occupied by Mrs. Stanford. I had not been asleep long when I was awakened by hearing a groan, and then another. I opened my door, and saw Mrs. Stanford standing in the doorway of her room. She threw up her arms, as if suffering pain, and said; "Oh, I am so ill; get me a doctor, get me a doctor." I ran to the elevator and summoned Dr. Humphries, who was a guest of the hotel. Mrs. Stanford at that time did not seem to be very weak."

WAS A SPIRITUALIST.

Honolulu, March 3.—Mrs. Highton, wife of Henry E. Highton, the well-known San Francisco lawyers, says that Mrs. Stanford cried when telling her of the attempt which had been made to poison her in San Francisco, and that she could not conceive why anyone should try to do so. During a discussion on spiritualism Mrs. Stanford said she believed in spirits, and intended to establish a department at Stanford University for the investigation of psychic phenomena. Miss Berner, her secretary, says, in regard to the alleged attempt at poisoning in San Francisco, that Mrs. Stanford drank a glass of mineral water with the bicarbonate of soda, the strychnine of which made her violently ill, so much strychnine being absorbed that her stomach rebelled, and she finally recovered.

POWER FROM BURLEIGH

Mr. Culverwell's Scheme to Transmit it to Lake Towns

The Bowmanville Statesman says;

The Central Ontario Power Company, owners of Burleigh Falls, and of which J. A. Culverwell, of Port Hope, is managing director, have in contemplation the transmission of the electric current for power and lighting purposes from Burleigh Falls to Peterborough, 18 miles south, and thence across the country by way of Millbrook, Newcastle and Orono, to Bowmanville, Oshawa and Whitby; and to carry out the scheme Mr. Culverwell has of late appeared before different municipal councils and secured the rights of erecting poles, stringing wires, etc., through their respective municipalities.

As to the feasibility of the proposition, we herewith submit for the consideration of our readers in this interested portion of territory, the substance of reported interviews with Mr. Culverwell, from which, to say the least, considerable knowledge may be gained by perusal.

Mr. Culverwell says difficulty has been experienced heretofore by his company in securing revenue at Peterborough, as his organization work had been the cause of forcing the water power proprietors of Peterborough, to fully develop the local water powers, but at last, owing to the remarkable recent industrial development at Peterborough, his company was assured of revenue there. However, their principal market would be at Oshawa and Bowmanville, where the manufacturers had given applications to his company for large quantities of electric power. Whitby may also be supplied. Notwithstanding the distance of transmission from Burleigh to Oshawa, 58 miles, electric power can be sold there from 30 to 50 per cent. less than the cost of steam power, two firms of consulting engineers having made surveys and reported to that effect. This is made possible owing to the low cost of completing the hydraulic development, one engineer writing; "Compared with other water powers the cost of completing the natural development at Burleigh is a mere bagatelle." A large lake is against the dam at Burleigh Falls, which will not only increase the power during the working hours of the day, but prevent the formation of frazile or floating ice the great source of trouble to river water powers. The engineers show that three thousand electric horse power can be developed during the dry season in the summer. The company, however, will eventually arrange to have nearly five thousand electric horse power at their disposal. In fine, the company will furnish not only a continuous electric lighting service but also a satisfactory one, and will be the means of fostering and furthering the interests of the industrial life of the community in which it operates.

FIRST MEETING CALLED

Mass Meeting in Toronto to Protest Against School Bill

Toronto has taken the initiative in calling a public meeting to protest against the Separate school clauses of the Autonomy Bill. The meeting is to take place in Association Hall on Monday evening, and will be addressed by several of the leading ministers of the city, and others.

We understand the meeting which it is proposed to hold in the opera house here, will be arranged early next week.

CHANGE OF PATRONAGE

Division Courts Has Been Transferred to Attorney General

The Division Court Inspector's office has been transferred from the department of the Commissioner of Public Works to the Attorney-General's department. The change was made by an order-in-council. This office which has charge of the division courts throughout the Province, has been for four years under the Commissioner of Public Works and before that was under the Provincial Treasurer. It is felt that it will be more properly associated with the Attorney-General's Department.

An important feature of the office is the extended patronage it controls in the appointment of Division Court clerks and bailiffs. Both Mr. Joseph Dickie and Mr. Bruce Macdonald, the Inspector and Assistant-Inspector, have been associated with the Government for some time.

A PROSPEROUS COMPANY

Annual Meeting of the Dominion Permanent Loan Company

We heartily congratulate Hon. J. R. Stratton and directors and officers of the Dominion Permanent Loan Company on the result of their year's operations, as set forth in the report submitted at the fourteenth annual meeting, held at the head office, Toronto, on Wednesday last. It is exceedingly gratifying to the shareholders to know that the affairs of the company have been so wisely managed. Its funds have been profitably employed, and the earnings of the year of $112,259.28 have, in addition to paying operating and managerial expenses, permitted of adding $45,000 to reserve, making the fund total $160,000, and carrying forward the sum of $20,684.68 to profit and loss. The surplus of assets over liabilities has increased the past year from $1,429,432.50 to $1,441,676.30.

The officers elected for the coming year were; Hon. J. R. Stratton, president; T. P. Coffey, vice-president. Directors—D. W. Karn; Woodstock; C. Kloepfer, Guelph; F. M. Holland, Toronto.

Rev. Mr. Tandy Regrets Leaving Havelock

The Havelock Standard has interviewed Rev. Mr. Tandy on the matter of his transfer to Peterborough to become assistant at St. John's. He stated that the announcement was entirely well founded. He has not yet received his official notice from the Lord Bishop, but he has every reason to believe that His Lordship will ratify the appointment. Mr. Tandy added that it was not without great regret that he thought of leaving Havelock, where he has spent three years of busy and happy parish life. But he feels that the opportunity of work in the new city of Peterborough constitutes a call to a larger field, which he cannot decline. Every effort will be made to secure the prompt appointment of Mr. Tandy's successor, so that the work and services of the church here may be maintained with the least possible interruption.

A Hint for Hospital Visitors

As a hint to the many kind people in town, who are ever ready to help, and amuse those in distress, particularly those lying sick in the hospitals, we might mention a good idea that came before our observation yesterday. A kind hearted young lady in in town has taken a number of oblong shaped pieces of card board, ornamented the outside sheet with pretty pictures cut from magazines and other colored works, and bound all together with ribbon at the long ends so as to allow their hanging on a nail or bed. Then she pastes continued stories, cut from the newspapers on one side of each sheet, having a complete story with each set of cardboards. She has made a number of these homemade booklets, adapted to every kind of readers' taste. Some are made suitable for children. This is as complete a way of getting reading matter into the hands of the sick, in an attractive form, as we have seen. She is sending her gifts to both hospitals to-day.

Sage Advice

Mr. H. Wilmot-Young, the popular manager and actor with the Bijou Stock Company, which will be at the Bradburn opera House all next week, although a young man can give words of advice having the force and terseness, that age and experience alone are supposed to possess. One instance of this was recently illustrated in his answer to a young woman who had requested his counsel concerning her selection of the stage as a profession.

The young woman was a friend of one of Mr. Young's relatives, who suggested her asking his advice on the subject, which she did in a letter to the young actor-manager. After detailing her histrionic aspirations and giving the opinion of a few authorities concerning her ability, and stating her difficulties in overcoming the objections of her relatives to her choice of profession, the young would-be actress ended her letter with the following; "My parents and some of my friends who are trying to deter me have, I think, a decidedly wrong idea of the stage and stage people. They say that if I carry out my intentions I will not only lose their regard and respect, but I will lose my own self respect, such are the deteriorating effects of stage life." Now you know all about stage life, and I do not. I will abide by your advice. Shall I give up the stage or my self respect?"

"Give up neither," was Mr. Young's brief reply, one that might well be reserved as a valuable example of advice to give all undecided aspirants.

NEXT SUMMERS FUN

The Cottagers in Stony Lake and Vicinity to Arrange Programs

Who is there in town but looks forward eagerly to his annual outing in Stony or the nearby lakes? On Monday night there will be held in the Y.M.C.A. building, on George street, a meeting of those interested in the proceedings and items of amusement that Stony Lake and its vicinity will provide in the coming summer. The meeting will be partly in the nature of business and partly as a reunion of those who have learned the delights of cottaging in camping in the ozone of that fairest of all Canadian summer resorts. The meeting will nominate the committees that will take charge of regattas and other forms of enhancing the pleasures that are to be found there. The general business of the association will be transacted including the different programs for the summer. As our readers will remember, it was decided last year to issue an illustrated booklet for the season, containing a list of the several events, with their dates and the names of the different committeemen, who will have them in charge. The meeting will also consider the advisability of holding three or four weekly regattas, at different sections of the lake, controlled by local section committees. This, it has been suggested will naturally create more and better timber for participation in the great annual regatta.

It is possible that a succession of concerts may be arranged, so as to create a fund for forwarding more valuable prizes. The meeting will entertain a wide scope of amusements including dances, masquerades, illuminated parades, and any other feasible kinds of fun suggested. A manager or chairman for each event will be chosen at the meeting so that every one will know who to look to for information regarding each event.

It is a positive duty for every citizen of this town to take interest in and give practical backing to each and every legitimate attraction that our beautiful lakes offer, as the number and class of people who are brought here, through the medium of Stony and Chemong Lakes, every summer, are the kind to whom we may safely rely on advertising and possibly advancing permanently the town, its merchants and its industries.

PROPHETIC

Secret, crafty uncontrolled,
Laying on the new land
Evil of the old!
Forcing education
To dwarf the heart and brain,
All our fathers died to loose,
Would land on us again!

—Kipling.

MUNROES MAKE FULL STATEMENT

Brokerage Firm Give in Detail Explanation of Recent Crisis

HOW THE CRASH CAME

First and Only Official Statement yet Made by the Firm—Interesting Facts and Figures.

The following signed interview was given out today by Messrs. Munroe and Munroe, the Montreal brokers, whose dealings have attracted so much attention in Wall Street of late. It is the first official and complete statement made of the firm's affairs:

"In the settlement just made with our creditors,' they say, "we voluntarily surrendered all our interest in and to the Montreal and Boston Consolidated Mining and Smelting Company, to secure the payment of creditors' claims, and of the balance due to the vendors of the properties, combined in the consolidation. Such sums of cash as have been included in this settlement have been advanced by persons friendly to us and by ourselves, and not by new interests.

"This settlement, in all essential particulars, is the same as that verbally proposed by us to our creditors on the evening of December 8th, save and excepting that—whereas, under the original proposition we held ourselves liable for the payment of all claims in full within a limited period (offering Montreal and Boston Consolidated stock as collateral security)—under the present arrangement creditors accept the Montreal and Boston Consolidated stock alloted to them in full payment, releasing us absolutely from further liability and binding themselves by an option to an individual, for six months, to accept cash in exchange therefor at the settlement rate. Under our original proposition they would have had a claim against us for any deficiency in value of Montreal and Boston Consolidated stock on the day of settlement. Under the consummated settlement they have no claim for deficiencies against any one, and have voluntarily surrendered all claim to any profit that might possibly have accrued to them.

OFFERS OF SETTLEMENT.

"A statement has recently been given some currency in which it was said that 'apparently' we 'had no assets,' and that proceedings were instituted to compel the restitution of assets that had been secreted and disposed of.' On the evening of December 8th, the day of our suspension, at a meeting of the brokers-creditors, we made certain verbal proposals of settlement, as above stated, and, furthermore, on that date we handed to the newspapers for publication a statement in which we said:

"In the meanwhile, negotiations are well under way looking toward the purchase of a large block of the stock by certain strong interests, and it seems not improbable that this deal will be closed up within the next few days, in which event brokers and all others interested will probably make a profit out of what seems a loss.'

"The real object of subsequent proceedings was not to compel restitution of assets thus openly acknowledged to be in our possession, but by extra-judicial and ex parte proceedings, to compel the substitution of cash which we did not have for assets, and thereby enforce immediate payment of all claims in full. That these proceedings failed utterly of their purpose is evidenced by the settlement subsequently made.

"It has been averred that statements and representations were spread broadcast throughout the country to the effect that all the properties of the Montreal and Boston Consolidated Mining and Smelting Company were fully paid for. Nothing could be further from the truth. No such statement, either direct or inferential, was ever made by us. On the contrary, it was well known that an underwriting syndicate had been organized for the purpose of taking over these properties and to supply a certain amount of working capital. If the properties had been paid for, there would have been no need of such an underwriting syndicate. The plan of providing capital to complete the purchase by the sale of underwriters' stock is in exact accord with modern financial methods in the promotion of similar enterprises.

"The same statement has generously accorded to us the privilege of settling with our 'other creditors' if we 'are able to do so.' The fact that the receiver has been discharged, and we are once more in possession of our offices is the best evidence of our ability 'to do so.' By the same authority it has been stated that 'the books and some hundred reels

Continued on Page Two.

Correction Concerning Conversazione

In our issue of yesterday we did an unintentional injury to the Young Conservative Club's new apartments. As known by our readers, the very successful opening given by the club on Thursday night, was somewhat interrupted by a rumor that the floor was giving way under the weight of the large assemblage present, causing the guests to leave precipitately and adjourn to the rooms of the Albany Club, which had, as a courtesy from one club to another, been placed at the temporary disposal of the Conservative Club, by the President of the former. The real cause of the slight scare which impelled the Conservative Club's guests to leave, was that an unused stair case had been temporarily boarded over, and when a number of people stood over it, the makeshift covering of the stairway naturally was influenced by the weight, and the boards bending, gave forth a creaking sound. The actual floors of the new club rooms would have withstood more weight than could, as human beings, have been packed on to them, and on a close examination yesterday showed no sign of having given away the fraction of an inch. We cheerfully make this correction of a wrong description of the trouble given, during the absence elsewhere, at the time of this journal's representative, so that any misapprehension in the minds of future guests of the club may be absolutely removed.

Police Court

OFFICIALS
Chief of Police, G.I. Hazel
Magistrate, D.W. Dumble

The chief has a handsome purse on hand awaiting a claimant.

Magistrate D. W. Dumble at yesterday morning's court took as his text "A soft answer turneth away a fine of $2 and costs." William Brown and his sister, Mrs. Billington, rent a house between them, in the west end of the town. The reciprocal arrangements involved a question of rent due by the sister, and a bag of Ireland's apples on the one hand, and a loaned washing machine on the other. When Brown tried to recover the machine, his sister, to use a classic quotation, "Shot the con into him," whereupon Brown waxed wrathy, and very unparliamentary language, proceeded to the laying on of violent hands. The magistrate could not follow the line of argument used by Brown in his defence, and chalked up on the slate $2 fine, with costs of $4.50. Brown has fifteen days time allowance in his race for the gold.

NOT MELONS

But Good Old Grape Nuts This Time

Out at Rocky Ford, Colo., where the wonderful melons come from, a man had an experience with food that he will never forget. —

"I had been running down for a long time, memory got very bad. I had that dreadful feeling of apprehension that something was going to happen, and could not get rid of it.

"I lay many nights almost without any sleep whatever, had a dull sick headache most of the time, was nervous and my stomach was in a dreadful condition.

"I had become almost a complete physical wreck. Heart irregular. My complexion was sallow, and I had lost flesh until I was very thin.

"At this period I was induced to change my food and go on Grape-Nuts and cream, and from the first week I found a marked change. I kept on steadily until now I have been using the food for four months. I have gone back to my old weight, my complexion is rosy and indicates perfect health. My memory is better than it has been in years. All the old stomach and heart trouble is gone. I sleep like a baby at night and no one can tell how I appreciate the feeling of perfect health brought to me by Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the famous little book, "The Road to Wellville."

Kuropatkin Badly Whipped Retreating From Mukden

Greatest Military Battle in History now in Progress in Manchuria---Russian Flanks Turned and Centre Hard Pressed.

St. Petersburg, March 4.—According to the latest information from the front the battle is now general and of the most desperate character. The losses have been exceedingly heavy on both sides during the preliminary fighting. Although it is not officially admitted, it is regarded as certain that General Kuropatkin is directing all his efforts to the withdrawal of his army to Tie Pass. It is now practically a rear-guard action, but the task of extricating himself is proving very difficult. The Japanese have not only driven in his left, but a column is already reported to have crossed the Hun River, east of Fushun. At the same time the Japanese are pressing the Russian centre under cover of the fire of their siege guns, and General Kuropatkin is gradually retiring before the Japanese advance.

The efforts of the Japanese to envelope the Russian right wing have been unsuccessful, but it has been forced back almost on a line with Mukden. Two Russian divisions were despatched to head off the wide flanking column advancing from the Hun River towards Sinmintin, about thirty miles west of Mukden, but, according to the latest advices, they were too late, the Japanese having entered the town yesterday.

No official figures regarding the losses are obtainable, but, according to unofficial reports, the Russian losses up to last night were nearly seven thousand men.

General Rennenkampff particularly distinguished himself during the fighting in the mountain passes southeast of Mukden.

Mukden, March 3.—A ceaseless artillery fire is heard ten miles southward. The roar of the guns is becoming more distinct every hour. The Russian losses during the last five days have been heavy.

Sakheten, Manchuria, March 4.—Stubborn fighting has been in progress all day long.

Four Japanese divisions are about eleven miles west of Mukden. The Japanese to-day made two infantry attacks on Pontiloff Hill but were repulsed. They have resumed the bombardment of the hill. The Japanese attacked the Russian extreme left wing at two points as well as at Gaute Pass, where during the morning the fortifications previously abandoned were recaptured by the Russians.

The bombardment of the Russian positions on the left and right flanks continued while the Japanese swept Pontiloff Hill with at least 2,000 shells from siege guns and mortars, the latter's projectiles being recognizable by their enormous explosive force and massive splinters. Towards evening the Japanese advanced on the right wing, where stubborn fighting continued.

CHECK ADVANCED.

Though the Japanese are pushing forward on the left bank of the Hun River the Russians are maintaining a stubborn defence.

The four Japanese division engaged in the turning movement on the Russian right on the Liao River today reached Sawniu, about eleven miles west of Mukden, but Russian reinforcements were sent ouf and checked the advance.

A Japanese attack on the positions east of Erdagou at four o'clock this morning was repulsed. Under cover of the artillery fire and a mist the Japanese opened an infantry attack on Pontiloff Hill at seven o'clock this morning, but were beaten off by the desolating fire of the Russian guns.

A second attack at noon was similarly repulsed, after which the Japanese resumed the bombardment of the hill with siege guns preparatory to making a fresh assault. General Nogi's Port Arthur veterans are participating in the present fighting. The losses on both sides are heavy, but the results are indecisive.

The report that a detachment of Japanese cavalry has appeared at Sinmintin is confirmed.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Berlin Wins the Round

The crowd that turned out at the Brock street rink last night to witness the return game with Berlin in the intermediate semi-finals was the largest of the season about 2,500 people being in attendance. The game brought back to the spectators, some of the hard battles of last winter, as it was the hardest and closest game played here this season. The Peterboroughs tried hard to pull down the big lead of eight goals which the visitors had piled up against them on their ice in the first game, but the Dutchmen played a determined and steady game, checked close and followed up well. Any attempt at combination on the part of either team was almost useless, owing to the sticky condition of the ice, which made the passing inaccurate. The visitors are a well balanced team, are exceedingly clever stick handlers and should capture the intermediate championship honors. They have a splendid defense and their work last night kept down the score considerably. Gross at cover-point, clearing and breaking up many dangerous attacks on the goal. Schmidt, at left wing, was the most effective player on the forwards, while Bricker in goal, put up a splendid game. Every man on the local line-up played a hard and strenuous game, and it would be hard to single out any particular one, although Wasson in goal stopped some hard ones, two of the three goals entering the nets being from lifts up the ice. They checked heavy and with determination, the forwards made repeated attempts to get their com. working, but owing to the rubber sticking, considerably handicapped them. The defence put up by Crowley and Glover was superb, and only once did the visitors succeed in penetrating the nets on a shot from Cochrane, the other two being mid-air lifts.

Peterborough won the toss and chose to defend their favorite goal at the south end. From the sound of the whistle the locals set in to score, and before long had got one passed Bricker, but the goal umpire failed to see, and so was replaced by another, and the goal did not count. It took seven minutes more actual play when Cochrane got one past Wasson. Then the locals started in, and in five minutes Morgan got one passed Bricker. Berlin tried hard to score again but the locals were pressing them hard, finally Cavanah tallied on a pass from Graham. Neither team scored in the remainder of the half. Half time score 2 to 1.

In the second half Peterborough rushed the puck to the visitors nets and Parnell, Morgan and Graham, all had a poke, but their shots were turned aside. V. Cochrane, of the visitors, injured his knee, and retired, Chris Graham going off with him. Schmidt got away with the rubber, and made a dangerous assault on the nets, but Wasson cleared. Gross at cover-point evened the score on a lift. G. Cochrane, followed with another, for the visitors, lifting the puck from centre ice. This ended the scoring for the visitors, the locals pressing them from then on; keeping the disc, for the greater part of the time in Berlin territory the visitors playing more of a defence game, while the locals bombarded the nets frequently but only landed three in the nets. The game finishing 5—3 in favor of Peterborough, and the round 12—6 in favor of Berlin.

"Chaucer" Elliott handled the puck in a very efficient manner, although he had no easy task as some very heavy checking was indulged in.

Following are the players;—

Peterborough.		Berlin
Wasson	Goal.	Bricker
Glover	Point.	Forest
Crowley	Cover-point.	Gross
Cavanah	Rover.	G. Cochrane
Morgan	Centre.	Knell
Parnell	Right Wing.	Schmidt
Graham	Left Wing.	V. Cochrane

Iron Moulders' Banquet

The Iron Moulders of Peterborough, know how to get up and carry through a successful banquet; this was manifested on Thursday night, when about seventy members of the local union and their friends gathered at the Oriental for their annual reunion. Mine Host Graham, who always takes special interest and devotes unceasing labor to such occasions, outdid even himself on Thursday night, he being an honorary member of the union. The tables had specially appropriate and pretty decorations, and he must have been a hungry man, who had anything to crave for, not-as-night. The banquet began at eight o'clock and lasted until nearly two in the morning. The toast list was a very happy one, and speeches, toasts, and music made the evening a memorable one.

COMPLAINS TO FRANCE

Brazil Says a Frenchman Has Raised $2,000,000 to Finance a Revolt

Paris, March 5.—Brazil has made formal complaint to the French government against the Jameson-like raids made by French subjects in the territory of Counani, which is about the size of Ireland, and adjoins the frontier of French Guiana. The territory was long in dispute, but was finally awarded to Brazil by arbitration. The Brazilian government declares a man named Brezet raised a fund in Paris to organize an armed revolt and declare the independence of Counani, he even issued a red book to the several powers setting forth that Counani was a free state.

Police Commissariat Sober has been directed to investigate. Brezet, it is said, has left Paris, and the sum raised to achieve the independence of Counani is put as high as $2,000,000.

WEATHER NOTES

Fair and mild.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half-pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

When Baby Comes You'l Need Strength

No Mother Can Rear a Healthy Child Unless She is Stronger Herself.

FERROZONE

Imparts New Vigor—Braces Nourishes Strengthens Weak Women.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story of her own case—told that other women may profit by her experience.

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers."

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel uplifted at once. Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

MUNROES MAKE FULL STATEMENT

(Continued from page 1.)

on the dollar, but this is not due to Munroe and Munroe, and they are entitled to little credit for it." The only credit that we claim for it is the fact that our assets to an amount much greater than the aggregate of all claims have been sacrificed to this end.

NOT MOTIVES OF PHILANTROPHY

"The responsible people familiar with the manufacture of copper and not friends of Munroe & Munroe' who have an option for the purchase of our Montreal & Boston Consolidated Mining & Smelting Stock, are not acting from motives of philantrophy in using their good offices to bring about the settlement. Evidently they know a good thing when they see it, and in 'completely severing' us from the 'management of the property' they are almost completely separating us from certain things of value which once belonged to us, and which will amply recompense them for their philantrophy. We submit to the reasoning man that if our friends have put up no money for us, as has been said, and if we are entitled to little credit' for the adjustment of our affairs that has been effected, it follows as a natural conclusion that somebody (neither our friends nor ourselves) has done this thing from other motives than those of friendship. What can the motive be? What motive impels a man to take a stranger's property and pay a stranger's debt?

"In what follows, we purpose giving a brief history of the Montreal & Boston Consolidated Mining & Smelting Company, and the stock operations which have resulted so disastrously to us. We are the only losers to date by these operations, and those who now stand in our previous relation to the property, also stand to reap the profits that would have justly been ours, had we been able to carry the matter to a successful and final issue.

HISTORY OF THE OPERATIONS.

"In the year 1899, the newly discovered copper mining regions of British Columbia were being brought to public attention, and companies for the development of those regions were being organized and promoted throughout the United States, Canada and England. Over the border in the United States, adjacent to the British Columbia fields, great fortunes had been accumulated in mining copper. The mining camps of Republic, Rossland, Phoenix and Greenwood, have sprung up almost within a night, and the greatest activity was displayed throughout that entire region in the development of mining properties. Public interest had been attracted to copper stocks as a profitable investment. Speculation in copper stocks was rife, and everywhere the public prints were filled with stories of great fortunes to be accumulated through the manufacture of copper metal. One of the companies organized at this time for the development of the British Columbia regions, was the Montreal Boundary Creek Copper Mining Company. The gentlemen engaged in the promotion of the enterprise, solicited our aid in financing that corporation, and through our individual efforts, we succeeded in interesting a large number of friends in Montreal and neighboring communities in the company. Up to this time, we were absolutely ignorant of the science of mining, knew nothing of the amount of capital that would be required to successfully develop a property. After having invested our money and interested our friends in the project, a member of the firm visited the property, and made investigations into the conduct of its affairs. This visit proved conclusively to our minds that if the property of the Montreal & Boundary Creek Co. ever reached the productive stage, it would be necessary to increase the amount of its working capital very materially. Accordingly plans were effected for the reorganization of that company on a larger scale, with more money at its command for pushing development operations. The result was the organization on November 3rd, 1900, of the Montreal & Boston Copper Company, with a capitalization of $3,000,000. This company succeeded to the ownership of the mines of the Montreal Boundary Creek Company.

PLACING THE STOCK.

"Mr. George H. Munroe, of this firm, visited New York, City and Boston, seeking financial assistance, with the result that large blocks of

THE Dominion Permanent Loan Company.

Fourteenth Annual Report

The Fourteenth Regular Annual Meeting of the Dominion Permanent Loan Company was held at the offices of the Company on Wednesday, March 1st, 1905, a large number of shareholders being present.

The President, the Hon. J. R. Stratton, occupied the chair. Mr. T. P. Coffee, Vice-President, was requested to act as Secretary.

The President presented the following report of the Directors for the year ending Dec. 31st, 1904.

Your Directors are pleased to be able to state that active and profitable employment has been found for the funds of the Company during the past year, the demand for satisfactory loans being sufficient to call into requisition the available funds of the Company.

The earnings for the past year have enabled the Company to declare and pay dividends amounting to $69,134.14, and to permit of the transfer of $45,000 to the Reserve Fund of the Company. After payment of such dividends, and the addition to the Reserve Fund of $45,000, and the writing off of $1,444.54 off office furniture and premises, there remains to be placed to the credit of Profit and Loss the sum of $20,654.68.

Your Directors are pleased to be in a position to congratulate the Shareholders upon the gratifying results of the operations of the Company during the past year, and have also pleasure in testifying to the generally efficient character of the services rendered by the officials, agents and staff of the Company.

All of which is respectfully submitted,

J. R. STRATTON, President.

The Dominion Permanent Loan Company, Toronto. Statement of Account for the Year Ending December 31st, 1904.

AUDITORS' CERTIFICATE.

We have examined the Cash Transactions, Receipts and Payments, affecting the Accounts of the Assets and Investments for the year ended Dec. 31st, 1904, and we find the same in good order and properly vouched. We have also examined the Mortgages and Securities, representing the Assets and Investments set out in the above Account, and we certify that they were in possession and safe custody as on Dec. 31st, 1904.

(Signed) HARRY VIGEON,
(Signed) O. M. HUDSON, Chartered Accountants.

Toronto, Feb. 11th, 1905.

Mr. Stratton, in moving the adoption of the Report, said:

It gives me very great pleasure to move the adoption of the Fourteenth Annual Report of The Dominion Permanent Loan Company, a feeling which is, to my mind, amply justified by the favorable showing as to the outcome of the past year's operations, which the report demonstrates, results which I am sure the Directors and Shareholdres will regard as very proper subjects for congratulation.

The good financial standing of the Company is gratifyingly reflected by the statement that the surplus of assets over liabilities shows a continued steady advance. This surplus on Dec. 31st, 1903, amounted to $1,429,423.59, while on Dec. 31st, 1904, the figure had advanced to $1,441,676.30. The net income arising from the operations of the Company for the year under review amounted to $113,250.25. After deducting from this amount the expenses of management, it will be noted that there remained a balance of $89,861.68, permitting of the transfer of $45,000 to the Reserve Fund, which advanced the total of that fund to $160,000, and leaving a balance of $20,654.68 for entry in the credit column of Profit and Loss Account, as against a similar balance for the preceding year of $18,847.63

All these things taken together affords reasonable grounds for gratification, which are all the more pressing since the general condition of the country points to continued, if not increased, activity in the various departments of our nations commerce. The more conspicuous position Canada as a whole is assuming in the eyes of the world at large, and the more general attention being given to her resources, and promise of growth and expansion, are making this country a favorable resort for those seeking to better their condition under circumstances of the most favorable character. There is every prospect that the inflow of population from abroad will become increasingly augmented in volume for some years to come. The extension of farming operations which will naturally result means an important increase in our home market, which, in turn, means a corresponding increase of industrial activity. All these conditions point to increased demand for capital, not only for the work of great industrial and railway corporations, but also for the more modest demands of individuals for smaller enterprises, but numerically of sufficient extent and general distribution to create a fair demand for accommodation such as our Company is equipped to afford. With an increase of population, such as the immediate future promises, and with the increasing wealth which the rapidly extending developments of our great natural resources will bring, there seems to be no reason why The Dominion Permanent Loan Company should not get its full share of the business benefits from the conditions mentioned.

Thus, with a satisfactory year's operations, added to past years of success, and a promising future, there is reason for confidence in the coming year.

I have very great pleasure in moving the adoption of the Report.

Mr. D. W. Karn, in seconding the motion for the adoption of the Report, said:

It affords me great pleasure to second the motion for the adoption of the Report of the Company, for it reveals a condition of affairs affording reasonable satisfactory grounds for congratulations, in the improved standing and increased earnings of the Company, as shown by the substantial amount available to strengthen the Reserve Fund, and the handsome balance carried forward to Profit and Loss. The extended reference of the President leaves me little to say, except to add my congratulations, which the character of the Annual Report so fairly justifies.

The Report was unanimously adopted, several shareholders speaking most favorably of the operations of the Company.

The following Directors were then re-elected: Hon. J. R. Stratton, President Trusts and Guarantee Company; D. W. Karn, President of the D. W. Karn Company, Woodstock, C. Kloepfer, manufacturer, and Director Traders' Bank, Toronto; T. P. Coffee, and F. M. Holland, Toronto.

Mr. H. A. Vigeon and Mr. O. M. Hudson were re-appointed the Auditors of the Company.

The meeting then adjourned.

At a subsequent meeting of the Directors Hon. J. R. Stratton was re-elected President, and Mr. T. P. Coffee, Vice-President.

You walk with her, you rock her, you give her sugar, you try all kinds of things!

But she coughs all through the long night, just the same!

No need spending another night this way. Just a dose or two of Ayer's Cherry Pectoral will soothe the throat, quiet the cough, insure a good night's rest.

Ask your doctor about the wisdom of your keeping this remedy in the house, ready for these night coughs of the children. Doctors have the formula. They know all about this medicine.

ATTENTION IS YOUR NAME

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

The Marconi Wireless Telegraph Company of Canada Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allottment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalisation of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 15th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £56,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This estimate of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

MUNROES MAKE FULL STATEMENT

Concluded from page 2.

the stock were placed both in New York and Boston. The stock was listed on the Boston and Philadelphia Stock Exchanges, and was dealt in on the New York curb market. Every indication pointed to the success of the company."

"The promise was not fulfilled, however, for the reason that at a critical juncture, the general trend of the market changed. First came the announcement that there had been a large overproduction of the copper metal, and that some 300,000,000 lbs. of copper was being carried by the largest producers without a market therefor, at the prevailing price of 17c. a lb. Public knowledge of this fact was immediately followed by a break in the price of the copper metal and an attendant drop in the price of all copper stocks. In a comparatively short time, the metal market quotations receded to 11c. a lb. The price of copper stock depreciated correspondingly, and the investing and speculative public looked with doubt upon every mining corporation producing copper ore. The price of Amalgamated shares declined from 130 to 33. Montreal & Boston Copper stocks, in sympathy, declined from $5 to $1 per share.

"During this period, development work had been pushed industriously, over $500,000 having been expended in betterments. The mines had reached the productive stage where 350 tons of ore daily were being taken out and shipped, but the character of the ore was such that no profit could be derived from the shipment thereof to distant smelters, and we were confronted with the necessity of providing smelting facilities nearer the mine. A pyritic smelter had recently been completed at Boundary Falls, but it had never been operated. We procured the best smelter experts in Montana to visit it and report upon its conditions, with the result that they recommended its purchase and re-construction to adapt it to the reduction of the ores produced by the Montreal & Boston Copper Company.

"The smelter was thereupon taken over and necessary changes made in accordance with the recommendations of these experts. One furnace was blown in and additional furnaces purchased for installation in order to develop a capacity sufficient to treat the entire output of the company's mines. In the meantime, improvements at the mines had been going on, railway facilities had been provided, storage facilities were installed, and there was every prospect of a successful year.

"About this time, it was discovered that the general character of the ores of the Montreal and Boston properties were such that the best results could be obtained only by the admixture of ores from adjacent mines. Contracts were entered into between the company and the owners of the outside properties, whereby the requisite ores were to be supplied. Taking advantage of certain clauses in these contracts, the owners of the outside properties failed to deliver their ores in sufficient quantities to keep the smelter in constant operation at its full capacity and on the most advantageous basis. During the period when sufficient ore accumulations had been made to give promise of a fairly profitable period of operation a strike of the coke operatives at the Crow's Nest Pass coal field caused a sudden and unexpected interruption of our fuel supply, and it became necessary to close down the smelter. The result was that the year 1903, which had promised to produce a profit, resulted, not in actual loss, but in an absolute lack of profits. The conditions heretofore described in relation to the procurement of ore supplies was one which threatened the success of the company, and made the constant profitable operation of the smelter extremely precarious. It was then that we decided that if the Montreal and Boston Copper Company was to have a successful history it was essential that it should obtain possession of the mines producing the ores, which in conjunction with those of Montreal and Boston, netted the best results.

THE STRATEGIC POSITION.

"The Montreal and Boston Copper Company occupied a strong strategic position in the Boundary District, owing to the fact that its ores contained the fluxing elements which missing from the other ores, and to the further fact that it owned a modern smelting plant. We therefore opened negotiations for the purchase of the mines from which we had been buying ores, for the purpose of consolidating them with the Montreal and Boston Copper Company mines and smelter. We succeeded in closing contracts with the owners of these properties, and the Montreal and Boston Consolidated Mining and Smelting Company was organized to take over the Montreal and Boston Copper Company, the Athelstan and Jackpot Gold Mining Company, Mountain Rose Mine and others whose combined capitalization of about $15,000,000 was reduced to $7,500,000, of which amount $6,500,000 of stock was issued to acquire those properties and provide $150,000 for the treasury as working capital.

"By the acquisition of these mines, if the opinions of the noted experts and mining men of experience who had examined them are to be relied upon, we had created a property having an intrinsic worth equal to the total capitalization.

"But we were not satisfied with the reports of our experts. We wanted further knowledge of the value of the property from disinterested sources, and so we invited a party of gentlemen, among them men of experience in mining and finance, to visit British Columbia, examine the properties, and give us the benefit of their judgment.

"The following extracts from reports made by these gentlemen will indicate how thoroughly they were impressed with the character of the properties. The originals of these documents are on file in our office. One engineer, reporting to his principal, said: 'There is no doubt but that with the development, the Montreal and Boston Consolidated Mining and Smelting Co. will be able to ship 3,000 tons of ore per day to its smelter. . . . When the improvements contemplated are finished . . . . the revenue derived from same, I estimate at the following: 1,200 tons at an average of $6, $7,200. Cost of mining, smelting, shipping and refining, $4,770. Profit per day, $2,430.

"Another made these statements: 'The whole length of these (underground) workings amounts to about four miles, in all of them excellent mining engineering was shown. Five of the mines are open workings, practically quarrying works, the cheapest kind of mining. The estimated cost of the work already done would be about $1,000,000 at present rate of wages and material. At all the mines where working plants are installed, the machinery is up to date and in excellent condition, and probably could not be duplicated (including the smelter) for $1,000,000. . . . I was impressed with the energy, care, economy, and remarkable ability of the management. Not one dollar seemed to be used for anything except the betterment of the properties. . . . I am so strongly impressed with this enterprise, that it seems that only some great calamity can prevent it from being a profitable investment.'

"The entire party joined in sending the following telegram to us: 'Inspection of mines and smelting plant Montreal and Boston Consolidated Co. completed today. It is the unanimous opinion of our party of sixteen that we have reason to believe that the statement made to us will be fully realized. Modern smelting plant in satisfactory operation and mines show enormous tonnage in sight. Management vigorously efficient and success seems assured. Congratulations.'

"Subsequently, this telegram was confirmed in writing, attested by sixteen signatures.

"An expert wrote as follows: 'Ore in sight and blocked out is conservatively estimated at over 2,000,000 tons.'

"The growth of the property under our management and control, as shown above, indicates the result of our efforts to place Montreal and Boston on a paying basis.

INTERESTING INVESTORS.

"Now as to our methods of obtaining public attention for this stock and of interesting investors in its purchase. These methods have been severely criticised and we have been charged with 'stock washing' and various other offences. What we did with Montreal and Boston Consolidated stock is only in promoting the sale of securities; the same methods that are commonly used, what is done every day in Wall Street in attracting the attention of investors. We are not at fault in having followed the same every-day practice of the Street, but only in having over-estimated our strength to carry these operations through to success.

"The majority of brokers who assisted us in creating an active market for the shares, solicited the privilege. Many others sought the favor of our orders. Those who received them made large profits out of commissions paid them. Those who bought, saw large profits quickly accruing. Investors who had watched the course of copper metal for two years past, and who had been observers of the general trend of the market for copper securities, saw before them constantly increasing value for copper shares. There was every reason to anticipate the successful fruition of our plans, which would have insured to every holder of the stock an increased value therefor.

"But the speculators who had bought the shares at low prices saw an opportunity to realize their profits by sales at the higher figures, and when Thomas W. Lawson, in his memorable advertisement of November 28th, made his attack, said that there were 'Coppers which it would be like finding money to sell short,' they grasped the opportunity and there was an avalanche of selling orders in all copper shares.

"It became necessary for us, in order to support the market, to repurchase from the public large blocks of the stocks previously sold at low figures, at the high price of that and succeeding days

"In an endeavor to stem the tide of this selling, we gave orders to purchase at increasing prices in the hope that by showing a constant tendency to rise in price, the sale of Montreal and Boston Consolidated stock would be discouraged.

"The hope was vain, and when the sixth of December dawned with another broadside from Lawson, and the general market for securities fell off from ten to twenty points, the public practically divested itself of its holdings in copper stocks.

"We were still optimistic. All day on the 6th and 7th we supported the market to the full limit of our resources, and, at the close of business on the 7th, had no thought but that we would do the same on the 8th.

OVER-ESTIMATED STRENGTH.

"We found, however, that we had over-estimated our strength.

"Owing to conditions which we had not anticipated, we found that we would be compelled to depend wholly upon ourselves with assistance from any quarter to meet our engagements on the 8th.

"It was impossible for us, within the alloted time intervening between the close of business on the 7th, and the opening on the 8th, to so handle our resources as to produce the sum necessary to make our clearances on that day.

"We personally felt the assurance that another forty-eight hours would see an end to the frantic endeavors of the holders of copper stocks to rid themselves of it, and that prices would again advance. Our opinions were justified by the events of the next forty-eight hours, but it did not avail us, and we were compelled on the morning of the 8th to suspend payment. On that day some of those who had purchased Montreal and Boston on our orders, threw their shares on the market for sale at any price they could obtain from fifty cents upwards, resulting in a veritable panic.

SUBSEQUENT PROCEEDINGS.

"With the subsequent proceedings, the public is more or less familiar. We have been charged with 'washing stock' which in the parlance of the street is intended to describe a bogus sale of stock in order to create a market price of which the public cannot avail itself. To be more explicit—a 'wash sale,' according to the Wall Street definition, means a transaction wherein the orders to sell and the orders to buy stocks emanate from the same individual, and no stock ever passes between the brokers who execute the order, and no commission is paid upon the transaction. All the transactions of Munroe & Munroe, as it was proved in court, were bona fide transactions in the open market, upon which commissions were paid, and the stock actually delivered, and any person having Montreal and Boston stocks to sell could have sold them to us and made delivery. Therefore, the term 'wash sales' does not apply.

"It is not believeable that any one should expect that we would have been dealing in Montreal and Boston Consolidated stock as promoters and as managers of the Underwriting Syndicate, for the mere purpose of buying the stock. What we were aiming to do was to establish the stock at its intrinsic value. This is a legitimate procedure, and one which is followed universally by underwriting syndicates and pool managers in Wall Street.

"It has been asserted that Munroe & Munroe borrowed $480,000 from the National City Bank, absolutely without security. This statement has been disproved in court by the revelation that ample collateral was deposited as security for the loan, which, in fact, was but $60,000, instead of $480,000, as claimed.

"By a process of reasoning which we do not understand, a loan of $60,000 for eight days was made to appear to be $480,000. If it could have been such in fact as well as in fancy, there would have been no trouble in maintaining the market price of Montreal and Boston Consolidated stock throughout the days of panic. By the same process of reasoning, it has been given to the world that Munroe & Munroe paid 160 per cent. per annum interest on borrowed money. This is done by the simple multiplication of the amount of interest paid for a 10 day loan by the number of like periods in the year. There have been occasions during panic times in Wall Street, of which the history is well known, when Stock Exchange houses have paid as high as 100 per cent. for call money. By the same process of reasoning, if these loans were called within twenty-four hours, then the rate of interest paid by the borrower could as well be said to be 36,500 per cent. per annum.

"It has been stated that the furnishings of our offices, which were described as being grandly luxurious, were purchased on the instalment plan. The best answer to this is the fact that we are now occupying these offices with the same furniture and fittings, and that the instalment man has not appeared at our door with his van for their removal. Any one who knows the habits of the instalment man, knows that he does not part with title to his furniture until it is wholly paid for, and that no legal proceedings could divest him of his right to remove them at any time for failure to meet the instalment promptly.

"It has also been stated that the management of the Montreal and Boston Consolidated Mining and Smelting Company has been taken out of the hands of Munroe & Munroe. It may be stated in answer to this, that the same management is in charge of the Montreal and Boston Consolidated Mining and Smelting Company's properties today, as had charge of them on December 7th, 1904.

"In conclusion, we desire to say emphatically, that the Montreal and Boston Consolidated Mining and Smelting Company is an enterprise which will, if as well managed in the future as during our management, produce a satisfactory profit to all concerned, and that its condition today is such as to justify the estimate of intrinsic value placed upon it by eminent experts, to wit: one hundred cents on the dollar of capitalized value.

"While we regret very much our great loss incurred by the surrender of this property, to which we have devoted our unceasing energies since we first became interested in it as the Montreal and Boundary Creek Mining Company, and just as it had reached the productive stage, we are consoled by the knowledge that it is not the first instance where men, after toiling for years to build up a valuable business, have been forced to sacrifice it for the protection of their creditors; and by the further knowledge that if the future Montreal and Boston Consolidated Mining and Smelting Company is as well managed as it has been during our control, it will produce a handsome profit to every one who became a stockholder therein through our solicitation."

$500 REWARD, $500.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE YOUNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhozone

MR. ARCHIBALD BASS, of New Harbor, writes; "Catarrhozone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, spoilt my digestion and kept me sick all the time. Catarrhozone relieved in a short time and cured perfectly."

MRS. W. F. BREACH, of Chapman, writes; "I have used a great many catarrh remedies but none of them ever helped like Catarrhozone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhozone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; "For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH De ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhozone for a sore throat, cold in the head and head ache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhozone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful polished hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford Conn., U.S.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

When chilled to the bone a dose of Perry Davis' Painkiller in hot, sweetened water will quickly warm you up. It is a thousand times better than drinking whiskey. Wards off Colds and Coughs.

Special Settlers Trains to Northwest

Special train with Colonist Sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto at 1.45 P.M.

Fire vs. Enterprise

Fire destroyed the most complete art stock in Peterborough, at the "Framery," but new goods come by every express and freight train, and Mr. Dunslow may be found doing business four doors north of the old "Framery," in Col. Miller's store, with a steadily increasing and brand new stock. 3d

New Musicstore Being Altered

The premises at 426 to 430 Water street, to soon be occupied by Mr. J. M. Green, late of the Salvation Army Band, as a music store, are in the hands of painters and decorators, who are pushing forward the work as quickly as can be. Mr. Green intends having a modern music emporium, with all kinds of small musical instruments, organs and every description of musical sundries. In the shop at the rear he will carry a line of sewing machines and bicycles.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 60 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

A Coming Tr

Have you bought your ticket for the Triangular Concert to be given in St. Paul's church, on the evening of Monday, March 13th? Don't miss it. An exceedingly interesting program is being prepared, and the musical entertainment will be unique, and rarely talented. Rev. Mr. McLennan of Norwood, will speak, and also Rev. Mr. Yule, of Springville. Fuller notice later."

Mr. Stevenson Arrives in Prince

Miss Stevenson, Simcoe street was last night in receipt of a long telegram from her father, Mr. James Stevenson, saying he had just arrived safely in San Francisco, after a very pleasant trip, and a temporary stoppage, en route, in Chicago. As noted in this journal last week, Mr. Stevenson, ex-M.P., for West Peterborough, left a week ago, last Wednesday on an extended tour of the Western States, and will spend a few weeks in San Francisco with his sister Mrs. Swayne, formerly a resident here.

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Weather Probs.—Fair and mild; Saturday, mild.

—The Finance Committee met last night, and transacted routine business.

—Rev. E. A. Langfeldt will speak at the Y.M.C.A. on Sunday at 4 p.m., and the Charlotte street male quartette will sing.

—The meeting of St. Andrew's Guild which was announced for Tuesday evening next, has been postponed on account of the hockey match.

—See the north window of Times Bookstore for ten cent bargains, consisting of games, toys of every description, dolls, fancy and useful articles.

Please bear in mind that what is called a skin disease may be but a symptom of bad blood. In that case, Weaver's Cerate, externally applied, should be supplemented with Weaver's Syrup, taken daily.

—There was a meeting of the Primary and Junior Union last night, held in the Y.M.C.A., the lesson for Sunday, will be in charge of Mrs. E. D. Lawis and Rev. J. G. Lewis.

—It seems probable that the St. Thomas gentleman, who is negotiating for a butter and cream industry here, will succeed, and the industry add to Peterborough's prosperity.

—A meeting of the Building Committee of the Board of Education was held last night to consider tenders for the erection of the new Collegiate Institute, the time for receiving expired yesterday.

The Salvation Army song services are drawing large attendance. Bandsman Gandy knows just how to conduct a special service. The solos and choruses by the Brigade are practically effective.

"A Little Cold, You Know" will become a great danger if it be allowed to reach down from the throat to the lungs. Nip the peril in the bud, with Allen's Lung Balsam, safe remedy containing no opium.

—Don't fail to take advantage of the big reduction sale of fancy goods, books of every description, stationery and notions, which will continue all through this month. Sacrifice prices to lighten our stock. Times Bookstore.

—The American Cereal Company report that there is a very large supply of oats coming in from the surrounding country, for which they were yesterday paying 41 cents per bushel. They operated the works four days this week.

—Keep the evening of Monday, March 13th, open for the triangular concert to be given in St. Paul's church, under the auspices of the Young People's Society. The program promises to be a treat. Rev. Mr. McClennan of Norwood, and Rev Mr. Yule of Springville, will deliver addresses, and the musical entertainment will be novel, varied and rarely talented.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Very often a married woman or young girl does not know who to turn to for advice in circumstances where she dislikes to talk with the family physician about delicate matters. At such times write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for free consultation and advice, and the same will be held as sacredly confidential. It is foolish to consult women friends or persons without medical training.

Dr. Pierce's Favorite Prescription contains no alcohol, is entirely vegetable and was the first exclusively women's tonic on the market—it has sold more largely in the past third of a century than any other medicine for women.

All other compounds intended for women only are made with alcohol, or alcohol in a large combination—this alcohol injures the system. The little red corpuscles of the blood are destroyed by alcohol. All such compounds, therefore, do harm.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One tiny sugar-coated "Pellet" is a gentle laxative; four are a mild cathartic. One is a dose, easy to take as candy.

Personal and Social

Movements of the people in and out of town . . . .

—William McIndoo, Pontypool, was in town yesterday on business.

—Mr. John Conroy, proprietor of the Windsor Hotel, is confined to bed by an attack of quincy.

—Miss Olive Goodfellow is visting in Port Hope, the guest of her cousins, the Misses Bronscombe.

—Mr. W. Huntin has returned from Toronto, and is at the old stand again raking in the shekels for G. T. R. tickets.

—E. S Elliott, Kingston; Henry Crouk, G. W. W. Falconr, Toronto; and F. A. Wray, Montreal, are guests at the Oriental.

—Mrs. Joseph Pollard and her grandson, Willie, have returned home after spending a week with friends in Franklin.

—Miss Eakins of Peterborough has rented the vacant store in the Ackerman block, and will open a millinery—and fancy goods store.—Norwood Register.

—Mr. Arthur Doyle, of Preston, who is a loyal supporter of the Berlin hockey team, is visiting his uncle, Mr. Robt. Shera, 621 Water street.

—John Carter, foreman at the Cordage Works, was called away to the United States, yesterday, his father having died suddenly at the early age of 57.

—Mr. Cortez Fessenden, who has been confined to the house for a few days, with an attack of la grippe, was somewhat better yesterday. He hopes to be able to attend his duties at the Collegiate Institute on Monday.

—Mrs. T. Roach and Miss Hannah Heffernan spent a few days of past week with friends at Peterborough. Mr. Harry Lynch, of Peterborough, made a flying visit to friends in the village on Saturday last.—Westwood correspondent to Hastings Star.

—Mr. Walter Woods, late of Peterborough, but who will soon leave for the West, is spending a few days at his home here. Mrs. M. Dineen spent a few days with friends in Peterborough during the past week.—Havelock Standard.

—The following gentlemen from Berlin are guests at the Oriental. Comment is unnecessary. C. H. Dour, John Cochrane, G. M. Debus, W. Schheman, G. Cochrane, V. Cochrane, W. Krill, C. Schroder, J. Bricker, N. Gross, N. Forest, P. Ellis, Sb. Brinkert, Fred Gebhardt, Ed. Brown, John Moat, Alf. Arnoal.

—Mr. Walter E. Kidd has sold his farm to Mr. John Rose and intends moving into Peterborough to live. There will be a sale of stock and implements on the 13th March, and Mr. Rose expects to take possession shortly after this. The number of Scotch on the Scotch line of Dummer is rapidly growing smaller.—Warsaw correspondent to Norwood Register.

Something new and Up-to-date? This is all very well but what about the old things that have stood the test of time? Now there is "The D & L" Emulsion; everybody knows you cannot find a better preparation for all Lung troubles.

Death of Mr. Chas. Davidson.

The many friends of Mr. Charles Davidson, who resided at the corner of Dublin and Aylmer street, both in town and in the township of Smith; will rejoice to hear of his sad death, yesterday. Mr. Davidson, who was 63 years of age, lived in the township for many years, only having been a resident here for the past two years. His health had been failing for some time but a paralytic stroke on Tuesday night hastened the end. He is survived by his wife and three brothers and one sister. They are Alex of Smith, Donald of Clarkshoro, Ont., Angus of the North West Territory, and Mrs. A. McIntosh, town. The funeral will take place tomorrow at 2.30 o'clock to Little Lake cemetery.

Wanted

Cook wanted at the White Kitchen, Simcoe street. 3d

Bay Shorts Injured

North Bay, March 3.—A rear-end collision occurred on the C.P.R. east of here last night, in which Engineer John Lynch of this place was killed, and Brakeman Shorts badly injured.

The last named gentleman is Mr. Ray Shorts, formerly of town, and was employed in the Lork Works. He left for North Bay last fall.

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Western Block, alterations and additions," will be received at this office until Wednesday, March 15, 1905, inclusively, for additions and alterations of the Western Block, Departmental Buildings, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures; and, if called upon to enter into the contract, they will be bound to complete the whole of the works within eighteen months from the date of acceptance of tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS.
Secretary.

Department of Public Works,
Ottawa, February 28, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

ADVERTISE IN THE TIMES

The Grip Leaves Thousands in its Path Weak, Nervous, Dyspeptic, Catarrh Wrecks.

From New York Journal.
"During the recent Grip epidemic, claiming a million victims or more, the efficiency of Peruna in quickly relieving this malady and its after-effects has been the talk of the continent."

LIKE A DEMON grip has crossed our country, leaving behind scores of physical wrecks.

Victims of catarrh of the head, catarrh of the throat, catarrh of the lungs, catarrh of the stomach, catarrh of the kidneys, catarrh of the pelvic organs, are to be counted by hundreds of thousands. Grip is epidemic catarrh, and sows the seed of chronic catarrh within the system.

This is so true that few grip sufferers are able to make a complete recovery until they have used Peruna.

Never in the history of medicine has a remedy received such unqualified and universal eulogies as Peruna.

A New York Alderman's Experience.

Hon. Joseph A. Flinn, alderman Fifth District, writes from 104 Christopher street, New York City, as follows:

"When a pestilence overtakes our people we take precaution as a nation to preserve the citizens against the dread disease.

"La grippe has entered thousands of our homes this fall, and I noticed that the people who used Peruna were quickly restored, while those who depended on doctor's prescriptions, spent weeks in recovering, leaving them weak and emaciated.

"I had a slight attack of la grippe and at once took Peruna, which drove the disease out of my system in a few days and did not hinder me from pursuing my daily work.

"I should like to see our Board of Health give it official recognition and have it used generally among our poor sick people in Greater New York."—Joseph A. Flinn.

—D. L. Wallace, a charter member of the International Barber's Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over. I suffered with a severe backache, indigestion and numerous ills, so I could neither eat nor sleep, and I thought I would give up my work, which I could not afford to do.

"One of my customers who was greatly helped by Peruna advised me to try it, and I procured a bottle the same day. I used it faithfully and felt a marked improvement. During the next two months I took five bottles, and then felt splendid. Now my head is clear, my nerves steady, I enjoy food, and rest well. Peruna has been worth a dollar a dose to me."—D. L. Wallace.

Mr. O. H. Perry, Atchison, Kansas, writes:

"Again, after repeated trials of your medicines, Peruna and Manalin, I give this as my expression of the wonderful results of your very valuable medicine in its effects in my case after repeated trials.

"First, it cured me of chronic bronchitis of fifteen years' standing by using two bottles of Peruna in January, 1894, and no return of it.

"After I was cured of bronchitis I had la grippe every winter for several winters. But, through the use of Peruna, it got gradually weaker in its severity, until it dwindled down to a mere stupor for two or three days. Now the stupor does not trouble me any more."—O. H Perry.

A Congressman's Experience.

House of Representatives,
Washington, D. C.

Peruna Medicine Co., Columbus, Ohio.

Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,
George H. White.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

LEARY'S
Hack, Livery and Horse Repository
CHANGED HANDS

M'Collum Bros

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. R. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended in the past to our predecessor.

McCOLLUM BROS.

WANTED

5 MORE MEN OR WOMEN, Wage-Earners, who can invest $10 per month for 6 months, to whom an annual return of $200 would be appreciated. Act quickly. First come first served. This is no gamble or idle dream. Highest bank references.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 59 PETERBOROUGH ONTARIO, MONDAY MARCH 6 1905. PRICE TWO CENTS

KEY TO THE RUSSIAN RIGHT FLANK A SCENE OF AN AWFUL CARNAGE--JAPS GAINING GROUND.

The Russians Are Making a Desperate Attempt to Hold on to Their Positions---The Terrible Slaughter Has Now Been in Progress Six Days---Reported That One Section of Jap Army Was Repulsed and in a Counter Attack The Russians Captured Seven Machine Guns.

Mukden, March 6.—The Russians are holding on desperately to their positions. The fighting has now been in progress six days. One of General Kuropatkin's staff officers said to the Associated Press; "Oyama's strategy appears to be to break our centre and then inclose the wings and compel a demoralized retreat, but till now their attacks against the centre have been only measureably successful.

GENERAL KUROKI IS STALLED ON THE LEFT FLANK

"Sanlinpou, which is the key to our position on the right flank, was the scene of awful carnage last night. The Japanese concentrated on it the fire of over a hundred guns, and then attacked with the bayonet. According to the reports coming in they were repulsed, and in a counter attack we captured seven machine guns."

Trains are leaving Mukden ceaselessly for the north with wounded men and stores.

SANLINPOU THE SCENE OF AN AWFUL CARNAGE

St. Petersburg, March 6.—The battle raging at the front has assumed enormous proportions. Already one of the Associated Press' Russian correspondents places the Russian losses at 30,000 and those of the Japanese at 40,000. It is added that the attempt to draw a net around General Kuropatkin has not yet succeeded, but it is said that the Japanese from Sinmintin are attempting by forced marches to cut the Russian line of communications.

General Kuroki, according to the latest reports, is stalled by the Russian left, but the Russian centre is yielding slowly before the Japanese onslaughts.

On Thursday Field Marshal Oyama shifted the weight to his left, seeking to envelope the Russian right eight miles southwest of Mukden. In the bloody hand to hand fighting which followed and continued for hours the losses on both sides were enormous.

But the most serious news is a report that the Japanese flanking columnat Sinmintin, about 30 miles west of Mukden, has divided, part of it moving straight east to roll up the Russian right wing, while the other is making forced marches south with the evident purpose of cutting the Russian line of communication with Tie Pass and closing the line of retreat. Should the operation prove successful, the Russian army might be surrounded.

FOR THE PRESENT PEACE PREVAILS

Hon. Mr. Fielding Will Not Retire From the Cabinet

SEPARATE SCHOOL CLAUSES

The One Which Gives Rise to Controversy Will Probably be Struck out

Ottawa, Ont., March 15.—The troubles in the Government camp are taking a rest, although they can hardly be said to be over. The terms demanded by Mr. Fielding have been conceded, provisionally at any rate, and for the moment there is peace.

The Separate school clause is to remain in the Autonomy bill, but in a form which will render it practically useless, as the following clause is to be struck out.

"In the appropriation of public money by the legislature, in aid of any moneys paid to the Government of the said province arising from the school fund established by the Dominion Lands Act, there shall be no discrimination between the public schools and the separate schools and such moneys shall be applied to the support of public and separate schools in equitable shares or proportion." This arrangement would leave separate schools the right to levy on their own supporters, but would give them no right to any government grant.

Mr. Fielding is satisfied with this and will remain. There is even some talk that Mr. Sifton might accept it and return. This is not likely, but should he be asked to do so he can legally return to the Cabinet any time within thirty days without requiring to be re-elected.

The English-speaking end of the difficulty may now be regarded as straightened out, and if Quebec members will stand for the new arrangement everything will be lovely. But there are signs that they may not be altogether willing. As one member put it "a large sum of money is being granted by the Dominion to these new provinces. All classes of the community have to pay their share of this money, and all classes should get their share of the benefit."

The Quebec members are discussing the situation quietly among themselves, but have not yet made any move towards united action.

PERIL TO NATIONAL LIFE

Brockville Presbytery's Interpretation of Separate School Provision

Brockville, March 6.—At a full meeting of the Brockville Presbytery held at Winchester, the following protest was introduced by the Rev. John Chisholm, of Kemptville, and unanimously passed, the clerk being instructed to send copies of same to the House of Commons and Senate of the Dominion:

"This Presbytery of Brockville begs to exercise the right to address the Parliament of Canada in humble protest against any legislation establishing a system of Separate schools in the proposed Provinces of Saskatchewan and Alberta, asserting that in our judgment Separate schools are detrimental to the interest of our national life, whereas national schools bringing all the divers elements of the newer districts under common educational influence are a means of developing a sense of Canadian citizenship. And we desire to enter our most emphatic protest against impressing any constitutional limitations upon the prospective provinces, of which their people have not been freely consulting parties."

A CANADIAN'S DEATH

An Ex-Montrealer Commits Suicide in California

San Francisco, Cal., March 6.—Ira Bishop, the former millionaire steel man, has committed suicide. Ira Bishop was a native of Montreal and came to this city thirty-five years ago. He was about 60 years of age. For a month and a half he had been conducting the Hotel Kyle at 230 Powell street. Some time ago he was engaged in the steel business, and he then lived at the Palace Hotel. He was a reputed millionaire, but lost heavily in business enterprises and speculation.

DUCHESS STOPPED LOAN

Duke of Manchester Had Arranged to Borrow $50,000

London, March 4.—The Duke of Manchester has just been sued successfully for $3,750, commission on a loan of $50,000 which the plaintiff had arranged for him from Sir Henry Cochrane, the millionaire ginger ale manufacturer of Belfast and Dublin.

The Duke failed to take up the loan because the Duchess put her foot down and refused to permit him to give the security demanded. It was said in court that the Duke was now "somewhere in America," as though there was difficulty in ascertaining his whereabouts.

THE TRICKS

Coffee Plays on Some

It hardly pays to laugh before you are certain of facts, for it is sometimes humiliating to think of afterwards.

"When I was a young girl I was a lover of coffee, but was sick so much the doctor told me to quit and I did, but after my marriage my husband begged me to drink it again as he did not think it was the coffee caused the troubles.

"So I commenced it again and continued about 9 months until my stomach commenced acting bad and choking as if I had swallowed something the size of an egg. One doctor said it was neuralgia and indigestion.

"One day I took a drive with my husband three miles in the country and I drank a cup of coffee for dinner. I thought sure I would die before I got back to town to a doctor. I was drawn double in the buggy and when my husband hitched the horse to get me out into the doctor's office, misery came up in my throat, and seemed to shut my breath off entirely, then left all in a flash and went to my heart. The doctor pronounced it nervous heart trouble and when I got home I was so weak I could not sit up.

"My husband brought my supper to my bedside with a nice cup of hot coffee, but I said: 'Take that back, dear, I will never drink another cup of coffee if you gave me everything you are worth, for it is just killing me.' He and the others laughed at me and said;

"'The idea of coffee killing anybody.'

"'Well, I said, 'it is nothing else but coffee that is doing it.'

"In the grocery one day my husband was persuaded to buy a box of Postum which he brought home and I made it for dinner and we both thought how good it was but said nothing to the hired men and they thought they had drank coffee until we laughed and told them. Well we kept on with Postum and it was not long before the color came back to my cheeks and I got stout and felt as good as I ever did in my life. I have no more stomach trouble and I know I owe it all to Postum in place of coffee.

"My husband has gained good health on Postum, as well as baby and I, and we all think nothing is too good to say about it." Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the famous little book, "The Road to Wellville."

TROUBLE OVER AUTONOMY BILL

Is not Yet Settled by any Means

FRAME A NEW CLAUSE

What They are Willing to Accept Some Eastern Members Disagree

Ottawa, March 6.—The more the Autonomy Bill is discussed by the Western men the more firmly they are convinced that the original position they took was the best to pursue. They notified the Government in the first instance that the present conditions in the North-West with regard to education were the only ones which they could accept. But the bill, it is said, goes very much further. To settle all disputes upon this point the North-West members will frame it and submit it to the Government. It will embody what they will support and can defend. It will contain all that is now in existence in the North-West Territories, as far as the school system is concerned, and nothing more.

This ought to be satisfactory, but there are those in the East, who want to go very much further, although maintaining that the clause as now framed merely gives what the people now have. The men from the West say that is all they want, and upon the point at issue they will have nothing less.

Until this is settled the crisis still hangs over the Parliament Buildings at Ottawa. One would think that as the matter has simmered down to one of the phraseology of a clause it would be easily disposed of but seemingly the reverse is the case. It is not safe to predict at this stage which way it is to go.

New Electro-Plating Business

Mr. H. H. Bell, late of the Peterborough Lock Works, where he gained an extended knowledge of his trade, has filled a long felt want, in Peterborough, by establishing an electro-plating business at 452 George street, where he will share the premises occupied by Mr. C. Wilhelmy. Mr. Bell has installed a new Westinghouse, alternating current motor, manufactured in Pittsburg, Pa. The new machinery also includes a plating dynamo, polishing lathe and all other requisites to do first-class work of this nature. He is now in a position to undertake all kinds of electro-plating silver, nickel, brass bronze, copper, etc., as well as oxidising, polishing and buffing of all kinds.

Bank of Nova Scotia Bank News

Owing to an unavoidable delay, caused by influenza among the workmen who were to put in the brasswork, including grill work, in the new Bank of Nova Scotia premises in the market building, the bank will not be open for business until Thursday. The large treasury safe was placed in position, at the rear end of the Bank on Saturday evening. There will be four openings or wickets in the glass partition, to enable the public to transact business with the least possible delay; first, or nearest the entrance door, will be the teller's, followed in succession by the ledger keeper, savings bank, and, at the far end, the discount clerk. Mr. Hammett, the new manager, has decided, for aesthetic as well as light purposes to have the bank counter, the natural light wood color, which in contrast with the superstructure of brass will have a very effective appearance.

WEATHER NOTES

Fair and mild.

A FOURTH SQUADRON

More Russian Warships to be put in Commission

London, March 4.—A despatch to the Central News from Cronstadt says that a fourth Russian squadron consisting of two battleships, six cruisers, four torpedo-boat destroyers, and other craft, will begin taking on its armament to-morrow.

NAN PATTERSON'S CASE

Decision Reserved in the Case of Nan Patterson

New York, March 4.—After hearing arguments on the writ of habeas corpus and certiorari having for their objects to secure the release of Nan Patterson from the Tombs prison, where she is awaiting trial for the murder of Caesar Young, Justice Gaynor, in the Supreme Court in Brooklyn to-day reserved decision. Miss Patterson was not in court.

WILL FIGHT SCHOOL CLAUSE

Evangelical Alliance Also Opposes School Clauses of the Bill

Halifax, N.S., March 5.—A meeting of the Evangelical Alliance was held to-day at which a resolution strongly condemnatory of the school clauses of the Autonomy Bill was adopted. The resolution was ordered to be sent to Sir Wilfrid Laurier, R. L. Borden and the Nova Scotia members of Parliament. It sets forth that the attempt now being made in the bill to fasten Separate schools, either Protestant or Roman Catholic, upon the new provinces, would, if carried into effect, be prejudicial to the best interests of our country. It opposes improper use of public funds derived from public lands which are the domain of the whole people, as opposed to the spirit of free institutions.

IN SEPARATE SCHOOLS

An Order Issued Requiring Their Teachers to Have Certificates

The Archbishop of Toronto has given instructions to the Sisters of St. Joseph to the effect that no more postulants are to be received into the order as teachers unless they have passed the examinations and received Government certificates allowing them to teach. This instruction was given at the semi-annual conference of the order, held in St. Joseph's Convent, Broadalbane street.

In this particular the Archbishop is simply telling the sisters to comply with the Provincial educational laws, for these require a teacher in a convent to hold a Government certificate. Some time ago it was thought that the only qualification necessary was for a teacher to belong to the order, but a decision of the courts altered the condition of affairs, and convent teachers must qualify according to Government regulations.

OUR POSITION

The Times is in receipt of an unsigned letter, in which the writer takes us to task for our attitude on the Separate School question. That we may be clearly understood, we repeat what we before said: We have no quarrel with our Roman Catholic fellow citizens, to whom we accord all the rights and privileges that Protestants enjoy. But we will oppose with all our might any legislation that will give any one denomination advantages that the others do not possess. "One school and one flag" should be the motto of every loyal citizen of the Dominion.

RUSSIAN JEWS ARE POURING IN

Rapidly Increasing Colony Augmented by Fresh Batch of Arrivals

NATIVES SOUTHERN RUSSIA

Six Hundred are Now Dependent on the Local Charity at Baron de Hirsch Institute

Montreal, March 6.—"The business of Canada with the Republic of Mexico is rapidly increasing. A still greater impetus to this trade would be given, however, were the Government, following its example on the Pacific, to subsidize a line of steamers between Montreal and Veracruz, or between Halifax or St. John and Veracruz in the winter. The line would not pay possibly for the first two years, but after the third year it would do a good business. A subsidy need only be granted for four or five years at the longest."

These observations were made yesterday to a reporter by Mr. D. A. Ansell, the Consul-General of Mexico in this city, who has just returned from his annual trip to Mexico, where he found all the enterprises in which Canadians are interested, in a flourishing condition. He spoke especially of the Light, Heat & Power Company. "That company," he said, "will prove not only a great benefit to the Republic of Mexico as a whole, but to the miners individually as well. Arrangements are now being made to have the mines lit by electricity, which will be an immense advantage."

Mr. Ansell says that Mr. A. W. Donnelly, the new Canadian commercial agent for Mexico, had not completely settled before he left for the north, but his efforts to introduce Canadian goods would be greatly facilitated were the Canadian merchants to send samples to Mr. Donnelly in order that they might be brought to the attention of Mexican merchants. Mexico's trade with foreign countries was greatly increasing.

Railways in Mexico were expanding rapidly, but Mr. Ansell had not heard anything of Sir William Van Horne constructing a line. One, however, was in contemplation between Veracruz and the City of Mexico, which would draw the capital of the country much nearer the seaboard than heretofore. Mr. Ansell remarked that he was aware that Sir William had contemplated a trip to Mexico for some little time, but just what that intention might portend he was not in a position to state.

"Canada's trade with Mexico has been on the increase for several years past," observed Mr. Ansell, "and the increase was particularly heavy during the year just closed. With direct steamer lines on both oceans and lower freight rates the trade between the two countries is certain to advance rapidly. The Pacific Ocean steamer line will be soon in operation, and I know that its establishment will result in the exchange of great quantities of Canadian coal and coke and lumber for agriculture and other products of Mexico."

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

The chief has added to his museum at headquarters, one brand new ladies high shoe. Will the fair owner either call or send its mate.

Nothing doing at Saturday morning's court. At four o'clock in the afternoon, there was a special session however the complaintant withdrew the charge, and Magistrate D. W. Dumble allowed the prisoners to go hence, after paying the costs.

On Thursday last, William Austin, who it will be remembered clinched a political argument by trying to drive it into the head of Fred Adlum through the medium of a piece of iron, was by his Honor Judge Weller, found guilty, and fined $50 or one month in jail.

ART AND LUMBER

Village of Lakefield's Proposed New Industry

The village of Lakefield is asked to guarantee the bonds of a new combination of interests, to the tune of $15,000 for a period of 15 years. The Lillicrap-Tate Lumber Company are considering a junction with the Standard Art Company of Toronto, and pooling their interests in a new concern. The Lakefield end of the combination to supply the raw material, in the shape of lumber, while the Toronto company will deal with the finished articles in this way the combined company hope to save several middle profits. Lakefield will not be asked for the above amount as a cash or exemption bonus, but merely to guarantee interest on the company's bonds. It seems a fair proposition, if, as intimated, the Toronto concern is worth $25,000, and the combined interests $65,000. It is said that the promoters of the scheme propose to employ from 90 to 100 men, whose annual pay sheet will show close on to $50,000 in wages, not to mention that the newly enlarged industry would bring several new families to the village. If this deal meets and ends in the success foreshadowed, why not consider the advisability of incorporating Lakefield as a new ward?

Barbers Agitating Early Hours

The barbers in town are circulating a petition among the master barbers for signatures, asking the Council to pass a by-law compelling shops to close at 11 o'clock Saturday nights. If all the shops in town were in the Union, this would be an easy matter, but there are some non-union ones. The prevailing system in operation is for all union shops to close at eight o'clock and at midnight on Saturdays or nights preceding holidays; this is not observed by non-union shops. If, however, two-thirds of the bosses sign it, the Council will have the power to pass a by-law which will compel all the shops to close at certain stated hours. Of course all the men are in favor of the movement, and the majority of the bosses want to close at eight o'clock, but the 11 o'clock on Saturday night closing may be the sticker. It seems as though a man who has stood on his feet steadily clipping, shaving and talking from dewy morn until 11 o'clock p.m., deserved and needed a rest.

Selling Day for Dry Goods Men

Throughout the whole country, Saturday was either a day of dread or self congratulation among the dry goods trade, all outstanding paper, then held by the banks requiring redemption or tangible settlement. From enquiries both among the trade and at the banks, The Times is able to give the pleasing intelligence that the local drygoods men met their obligations in a very satisfactory manner. While business of late, from obvious reasons, has been somewhat dull, the trade have managed, partly from the more modern system of shorter periods of discounts, to settle promptly with both banks and the wholesale trade. The old-fashioned system of giving paper dated at long periods for payment, has been almost abolished, and 30 days is more common on a merchant's note nowadays than six months. The merchant saves his discounts, and the bank managers much anxiety.

The Russians Forced to Retire From Gaotu Pass

After Six Day's Heavy Fighting Positions are Being Desperately Retained---Losses Reach Enormous Proportions.

St. Petersburg, March 6.—General Kuropatkin reports that the Russians have been compelled to evacuate their position at Gaotu Pass.

General Oku's headquarters in the field, March 4.—via Fusan—Delayed in transmission.—During last night the Japanese occupied three more villages in the Russian second line of defences, carrying the captured lines twelve miles east of Changtan. The Russians are falling back on their heavy defences south of Mukden. The Japanese movement is entirely successful. The Japanese losses have not been reported, but it is probable that they will not be heavy, considering the importance of the movement. The pursuit of the Russians continues. A heavy bombardment is in progress.

INTERESTING LECTURE

Mr. J. D. Allen, President of the Toronto Board of Trade, Will Lecture on "Land of the Tsar."

Mrs. C. B. McAllister, who is always a patron of, and interested in, literary matters, has arranged for a lecture in St. John's church Sunday school, for March 10th., by Mr. J. D. Allan, President of the Toronto Board of Trade. This gentleman is in a particularly good position to deliver a lecture on his subject, "The Land of the Tsar," as he visits Russia every summer, in fact he has made more than fifty round trips across the Atlantic, and has looked at the victims of Japan through both social, political and commercial spectacles. The lecture will be under the auspices of the Fortnightly Club.

Saturday's Market Reports

There was a somewhat smaller attendance at Saturday's market, than a week ago. Owing to the town roads being more passable, and the fine weather, more moderate prices ruled. The leading commodities were on an average;—Pork, 8 to 9c.; beef 5 to 6c.; potatoes, 75c. per bag; apples were selling at, russetts 65c., and Northern Spies, $1.00 per bag. Poultry was not very plentiful and sold well; geese making $1.25 each, while chickens brought 80 to $1.00 per pair. Butter and eggs were in abundance and the prices were, 23 to 25c. for the former and eggs 25 cents.

DROWNED LANDS

Land Owners Seek Compensation From Government

The Otonabee river stands guilty before a jury of Riparian land owners, of drowning their property. It is estimated that about fifteen hundred acres along the banks of our pretty river have been devoured or rendered useless, and the owners have repeatedly petitioned the Government for compensation. On Saturday Mr. Joseph Clarke, of Centerville, was in town, and, in speaking on this subject, stated that 30 acres of fine pasture land belonging to him have sustained damage to the extent of $2,000, adding that he would sooner have the land back intact than this amount of compensation. He further said he has been assured by the Hon. Mr. Emmerson, Minister of Railways and Canals that the Government has under consideration his and other claims arising from land being drowned by the Otonabee, as the result of building the Government dam at Hastings. This will be good news to Riparian owners along the course of the Otonabee.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

HOCKEY.

The tie existing in the Trent Valley League will probably be played off at Port Hope.

• • • •

Cobourg Won from Fenelon.

Cobourg, March 4.—Cobourg defeated Fenelon Falls here last night in the finals of the Trent Valley League by the score of 9—8 in the fastest and best game of the season.

• • • •

Victoria Harbor and Berlin play off this week, while the Marlboros and Smith's Falls will play a sudden-death game at Peterborough Tuesday night.

• • • • •

With the O.H.A. decision regarding the Smith's Falls affair, both the clubs involved seem more than disappointed. The Marlboros, usually strong upholders of the powers that be, went so far as to pass a definitely-worded resolution expressing their disapproval of the action of the O.H.A. executive. Public opinion on the whole seems to condemn the O.H.A. decision in the Smith's Falls matter.—Sunday World.

• • • •

The Stanley Cup.

Ottawa, March 6.—The Ottawa Hockey Club must defend the Stanley Cup against the challenging Rat Portage team on Tuesday and Thursday, March 7 and 9, with a third game if necessary on Saturday the 11th. These are the dates finally fixed after a conference with the trustees at which the defending club endeavored to have the 9th, 11th and if necessary the 13th named as the dates. Trustee Ross would not agree to having the series go over into the third week in March and suggested that the teams might agree to to play on the 9th and 11th, the majority of goals to count. This was, however, not suitable to Ottawa and the club will bow to the inevitable and meet Rat Portage on Tuesday, Thursday and Saturday.

While Rat Portage is reputed to be the strongest team yet sent out of the west in quest of the trophy, and has seemingly justified this claim by practically outclassing the best team that could be selected from the various Winnipeg clubs, all is uncertainty in the camp of the Ottawas. The unfortunate match with Wanderers in Montreal has in all probability robbed the club of the services for the coming series at least of Frank McGee, one of the mainstays of the team. McGee's injured wrist is still in bad shape, and unless it recovers with unexpected rapidity it is extremely unlikely that he will be able to help to defend the trophy which he so nobly assisted in winning. McGee's absence will be a heavy blow to the efficiency of the seven. Then to make matters worse, from present indications it does not appear at all likely that Bill Gilmour can be counted upon. He does not seem desirous of getting out for the series of hard games ahead and even if he were prevailed upon to get into the game at the last moment he would very probably be out of condition, not having done any work since the game against the Wanderers in Montreal on February 11. Even the best of men cannot do themselves justice after being a month away from the game.

To fill these vacancies Shore, who has already been tried out and made good in pretty fast company and Gaul of the Emmetts of the city league are the men most available. Both are game to the core and clever stick handlers, but they lack the experience necessary against such a team of veterans as Tom Phillips' bunch and cannot be expected to fill the positions with the effectiveness of the regular men. It is doubtful if since coming into possession of the trophy the club has been in greater need of a tried seven than on this occasion, and at the present time prospects for such are not of the brightest order. But the old reliables have a faculty of pulling together at the last moment and handing out a happy surprise to their friends, and it is at least to be hoped that they will do so in the present emergency. But, judging from reports of some of those who have seen the Rats go this season, the moorings of the old home of contention will have to withstand the most serious wrench they have experienced in the past two years.

• • • •

FOOTBALL.

On Friday, March 10th, the annual meeting of the Peterborough Quaker Football Club will be held in the Y.M.C.A. rooms, when reports will be presented and officers for the year elected. The prospects are that there will be only one football team in Peterborough this year, the Y.M.C.A. having decided not to place a team in the League.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A Death From Heart Disease

Overtake Those Who Neglect Their Weak Heart and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm. A. F. Beattie, of the Allen Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS:	
Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone. 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 6 1905

BY NO AUTHORITY

During the recent Dominion election campaign there was no word of the coercion of the new Provinces. The formation of the new Provinces was rarely discussed, and when it was the assurance was given that there would be coercion under Laurier. The debate in Parliament shows that Laurier kept his secret, even from the members of his Cabinet, with the exception of two Quebec Ministers.

Mr. Sifton knew nothing of Sir Wilfrid Laurier's intention to interfere with the educational rights of the Provinces. No Ontario Minister knew anything of it. People were kept totally in the dark, and Sir Wilfrid devoted his whole attention to the elections, making a tremendous endeavor to increase his following in the House, and to such purpose that Ontario alone was able to resist the powerful pecuniary appeals made in behalf of the Government. The country was prosperous, there was plenty of money and plenty of work; business was good, and all Canada enjoyed a season of good times. Under these circumstances it was not a difficult job for the Government to pile up a large majority.

The elections over, the first thing we hear from the strongly entrenched Government is a proposal to interfere with the educational privileges of the new Provinces. It came as a bolt from the blue upon Grit and Tory alike.

Without the sanction of the electorate; without any previous knowledge by the people; without the slightest warrant by the people of Canada, Sir Wilfrid Laurier announced that he proposed to ignore the constitution of Canada and coerce the new Provinces in the matter of education. He did this without the sanction—without even the knowledge of his own Ministers. Sir Wilfrid Laurier assumes the role of dictator, brushes aside the constitution of Canada, ignores the wishes of all but himself, and declares that Alberta and Saskatchewan shall not have the privilege of arranging their school affairs to suit themselves. The dictator imagines that he has a "brute" majority of thick and thin supporters who will back him in this attack upon the rights of a couple of enormous Provinces, each equalling in area a first-class European country, and each to be, under good government, the home of many millions of people.

There ought to be some way in which to check the ambition of a Canadian Premier who does that sort of thing, and we think there is. We cannot believe that there is a member of Parliament outside the Quebec contingent who will support Sir Wilfrid in thus springing upon Parliament one of the most important propositions Parliament has discussed for many a day—a proposition which will have a tremendous effect for good or ill upon the future welfare of new Canada.

PUBLIC POISONERS

The Hamilton Herald points to the lax manner in which the law against the adulteration of foods has been enforced in Canada in the past. After stating that the law provides for penalties of from $600 to $1,000 fine or six months' to a year's imprisonment, or both, for adulterations of drugs or food which are harmful to the health, and for about half these penalties for adulterations with merely inferior but not harmful ingredients, it asks "why is the law not brought to bear upon the adulterating rascals?"

"The sole punishment of the adulterators has been," it says, "that they (perhaps) have been called upon to pay for the analyses. But that is practically no punishment at all. A few round-ups of these law-breakers, and their fining and imprisonment as the law provides, would do much to impress upon Canadian makers of prepared foods the great truth that honesty is the best policy."

It is undoubtedly a case for severe measures. No theft is meaner than that which steals from a workingman's family a part of the food for which he has paid; and no attack upon the health of the community is graver than that which comes masked in the very articles which are supposed to bring health and strength. Then "the spirit of murder works in the very means of life."

If a few adulterators were to be sent to penitentiary, our Inland Revenue Department would have fewer cases of this sordid crime to report to Parliament.

A LOGICAL CONCLUSION

If the Dominion Parliament chose to allow the new Provinces full power to deal with the schools, it would be under no obligation to consider the merits of Separate Schools. When it undertakes to force Separate Schools on the Provinces it is bound to consider the merits of Separate Schools. It must abide by the logical and inevitable result of forcing a Provincial question into the Federal arena. The first of these consequences is the Premier's extraordinary contention that schools without dogmatic teaching are nurseries of crime. As he is forcing Separate Schools on the West, he has a right to defend them by any arguments he pleases. But others must be allowed to answer him, and to say that denominational education is the parent of ignorance and tyranny, as it is all the world over, and the National School system the parent of intelligence and freedom. The whole question is raised; Provincial liberties are attacked by the new law; and the Separate School which it entrenches is a menace to individual liberty, to liberty of thought, and to the growth of the human intellect.

CANADA'S ELECTRIC ENERGY

On the Canadian side of Niagara power stations aggregating 285,000 horse power are under construction, and this total is to be increased after a time to 405,000 horse power. This stupendous figure is compared by the Electrical Review with the grand total for the world, which is only 1,483,000 horse power. On the American side of the falls 150,000 horse power is developed, and in the entire Niagara Falls district about 325,000. Long-distance transmission will have to be resorted to if the power developed is to be utilised in the next thirty years. The United States has at present 527,467 horse power, Canada 228,225, Italy 210,000, France 161,343, Switzerland 133,202, Germany 81,077, and Sweden 71,000.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

JAP CAVALRY RAID

Quantity of Contraband Stores Seized in Sinminting

New Chwang, March 5.—Four hundred Japanese cavalry have raided the Town of Sinminting, west of the Liao River. They ransacked the railway buildings and Chinese inns. It is well known that Sinminting has been for months the headquarters of persons supplying contraband of war to the Russians. The Japanese found a train of laden carts in the town, waiting for night to start on the journey to Mukden. Numbers of Greek and German traders superintending the contraband business were terribly alarmed. The Japanese, however, did not harm them. Neither did they meddle with the Chinese, who fled into the streets and hid. One of three Cossacks who were in the town were killed. The other two escaped. It is reported that the Japanese previously captured 15 Russian scouts outside the place.

The Japanese eventually withdrew to Pamhiatun, where an engagement is expected. It is known that rival forces are in that neighborhood. The Japanese hold all the roads. It is believed that they intend to seize the railway from Sinminting, which has been used for months for the conveyance of Russian stores and material. For this reason the line, which is in Chinese territory, cannot be regarded as neutral.

HEARTS THAT ARE TOUCHED

Interesting Letters from Friends who are Helping the Muskoka Free Hospital for Consumptives.

DEAR MR. EDITOR,—I would like to quote from two or three letters that are on my desk from friends who have been sending in contributions for the Muskoka Free Hospital for Consumptives. One contributor who sent $50.00 says: "I am sure the country is grateful to you for your good work, and many will bless you." The record-keeper of the Knights of the Maccabees, in sending $5.00 from his lodge, says: "Our Order has paid lots on lives that would undoubtedly have survived had proper treatment been within reach." W. C. McMaster, Township Clerk, Cookstown, sends $10.00 from his municipal council, and says: "We are sure you are doing a noble work to check that dread disease consumption." S. R. Spottiswood, Paris, closes a letter, in which he sent $5.00, in this way: "Such a work should enlist the sympathy of every true Canadian."

At the present, I may be permitted to say that the burden being borne by our Trustees is a very heavy one. Expenses always run heavier during the winter season. We have been compelled to build a laundry because other laundries refused our work, and this has called for an immediate expenditure of $4,000.

How hopeful is the work the Hospital is doing is plainly indicated in the reduction in the death-rate in Ontario from consumption.

Our Trustees are anxious to further extend accommodation at Muskoka, and the work can only be delayed by the need of funds. I do not hesitate to ask for a generous contribution from your readers, with so good a cause to advocate.

J. S. ROBERTSON, Secretary.

Head Office: Mail Building, Toronto.

P.S.—Contributions may be sent to Sir Wm. R. Meredith, Kt., 4 Lamport Ave., or W. J. Gage, Esq., 54 Front Street West, Toronto.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of one more [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the homestead, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

The Marconi Wireless Telegraph Company of Canada Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allotment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalization of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £50,000 in assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This estimate of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

Address all communications and make all checks payable to

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.

Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish."

W. H. S.

We treat **Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints** of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men. Sealed Book on "Diseases of Women" Free.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of treatment FREE.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, extraordinarily profitable investment. Every dollar of stock is guaranteed by twenty years; full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debenatured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:. Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4 00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,1.0 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 8000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot works long tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which w then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 90 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

Address **W. P. FIFE,**
1641 Tremont St., Denver, Colo.

DIES THE VICTIM OF MURDERER

Mrs. Stanford, one of the World's Richest Women Could not Escape Poisoner

Honolulu, March 3.—The chemist's report of the analysis of the bicarbonate of soda, of which Mrs. Stanford took a dose shortly before her death, states positively that the soda contained strychnine.

"A HORRIBLE DEATH."

Honolulu, March 3.—Mrs. Jane Lathrop Stanford of San Francisco, widow of United States Senator Leland Stanford, and one of the world's richest women, died at 11.40 o'clock last night at the Mona Hospital here. She was taken ill at 11 o'clock, and said, "I have been poisoned."

Her last words were, "This is a horrible death to die."

Mrs. Stanford came here from San Francisco, on the steamer Korea, Feb. 21st. In conversation with Mrs. Henry Highton, of San Francisco, who is now here, Mrs. Stanford said that an attempt had been made to poison her in that city, and that this was her reason for sailing on the Korea. Before retiring on Tuesday, Mrs. Stanford took a dose of bicarbonate of soda, which she purchased at San Francisco.

In the afternoon Mrs. Stanford went to a picnic. She ate heartily. On returning to the hotel she took no dinner, and retired shortly after ten o'clock.

HEARD A GROAN.

The guest who had found her, a Mr. Hennison, said; "I retired shortly before 11 o'clock, and soon fell asleep. My room is next to that occupied by Mrs. Stanford. I had not been asleep long when I was awakened by hearing a groan, and then another. I opened my door, and saw Mrs. Stanford standing in the doorway of her room. She threw up her arms, as if suffering pain, and said; "Oh, I am so ill; get me a doctor, get me a doctor." I ran to the elevator and summoned Dr. Humphries, who was a guest of the hotel. Mrs. Stanford at that time did not seem to be very weak."

WAS A SPIRITUALIST.

Honolulu, March 3.—Mrs. Highton, wife of Henry E. Highton, the well-known San Francisco lawyers, says that Mrs. Stanford cried when telling her of the attempt which had been made to poison her in San Francisco, and that she could not conceive why anyone should try to do so. During a discussion on spiritualism Mrs. Stanford said she believed in spirits, and intended to establish a department at Stanford University for the investigation of psychic phenomena. Miss Berner, her secretary, says, in regard to the alleged attempt at poisoning in San Francisco, that Mrs. Stanford drank a glass of mineral water with the bicarbonate of soda, the strychnine of which made her violently ill, so much strychnine being absorbed that her stomach rebelled, and she finally recovered.

POWER FROM BURLEIGH

Mr. Culverwell's Scheme to Transmit it to Lake Towns

The Bowmanville Statesman says;

The Central Ontario Power Company, owners of Burleigh Falls, and of which J. A. Culverwell, of Port Hope, is managing director, have in contemplation the transmission of the electric current for power and lighting purposes from Burleigh Falls to Peterborough, 18 miles south, and thence across the country by way of Millbrook, Newcastle and Orono, to Bowmanville, Oshawa and Whitby; and to carry out the scheme, Mr. Culverwell has of late appeared before different municipal councils, and secured the rights of erecting poles, stringing wires, etc., through their respective municipalities.

As to the feasibility of the proposition we herewith submit for the consideration of our readers in this interested portion of territory, the substance of reported interviews with Mr. Culverwell, from which, to say the least, considerable knowledge may be gained by perusal.

Mr. Culverwell says; Difficulty had been experienced heretofore by his company in securing revenue at Peterborough, as his organisation work had been the cause of forcing the water power proprietors of Peterborough, to fully develop the local water powers, but at last, owing to the remarkable recent industrial development at Peterborough, his company was assured of revenue there. However, their principal market would be at Oshawa and Bowmanville, where the manufacturers had given applications to his company for large quantities of electric power. Whitby may also be supplied. Notwithstanding the distance of transmission from Burleigh to Oshawa, 58 miles, electric power can be sold there from 30 to 50 per cent. less than the cost of steam power, two firms of consulting engineers having made surveys and reported to that effect. This is made possible owing to the low cost of completing the hydraulic development, one engineer writing; "Compared with other water powers the cost of completing the natural development at Burleigh is a mere bagatelle." A large lake is against the dam at Burleigh Falls, which will not only increase the power during the working hours of the day, but prevent the formation of frazils or floating ice the great source of trouble to river water powers. The engineers show that three thousand electric horse power can be developed during the dry season in the summer. The company, however, will eventually arrange to have nearly five thousand electric horse power at their disposal. In fine, the company will furnish not only a continuous electric lighting service but also a satisfactory one, and will be the means of fostering and furthering the interests of the industrial life of the community in which it operates.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $14,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

COMPLAINS TO FRANCE

Brazil Says a Frenchman Has Raised $2,000,000 to Finance a Revolt

Paris, March 5.—Brazil has made formal complaint to the French government against the Jameson-like raids made by French subjects in the territory of Counani, which is about the size of Ireland, and adjoins the frontier of French Guiana. The territory was long in dispute, but was finally awarded to Brazil by arbitration. The Brazilian government declares a man named Brezet raised a fund in Paris to organize an armed revolt and declare the independence of Counani; he even issued a red book to the several powers setting forth that Counani was a free state.

Police Commissariat Sobrier has been directed to investigate. Brezet, it is said, has left Paris, and the sum raised to achieve the independence of Counani is put as high as $2,000,000.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $330,000,000 in gold. An adjoining mine has produced $93,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you NO CHANCE, NO SPECULATION, A CERTAIN WINNER

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Western Block, alterations and additions," will be received at this office until Wednesday, March 15, 1905, inclusively, for additions and alterations of the Western Block, Departmental Buildings, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures; and, if called upon to enter into the contract, they will be bound to complete the whole of the works within eighteen months from the date of acceptance of tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, February 28, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

STEVENS

Catarrh Cannot be Cured by Dosing

IT IS A LOCAL DISEASE AND IF CURED MUST BE LOCALLY TREATED.

Seven people out of ten suffer from catarrh. There is no lack of medicines, and if dosing would cure, very few cases of catarrh would be found.

You probably have it yourself. How much benefit have you obtained so far from medicine-taking? A little relief is all that you have derived. You have spent lots of money and yet the catarrh is growing worse all the time.

Has it ever occurred to you how desirable and how successful a treatment would be that you could breathe to where the disease existed. Perhaps you have thought about this form of cure but you have been unable to find a remedy that could be pleasantly and safely used.

Try Catarrhosone, it can be broken up by the air and carried in small drops to every part of the breathing organism. It touches the catarrh with healing, that is why it cures.

This healing, balsamic, vegetable substance is so volatile that the air greedily takes up from the inhaler, so antiseptic that it instantly destroys the microbes which produce disease of the breathing organs, and so soothing that it relieves congestion subdues inflammation, and stops mucous discharge.

Plainly Catarrhosone is an ideal remedy for diseases of the throat, lungs and nasal passages. If you have catarrh, bronchitis or asthma all are equally curable by Catarrhosone. You have been told why this is so. These diseases are all modifications of an inflammatory condition of the lining membrane of the throat and nasal passages.

Now, bear in mind, you breathe Catarrhosone. Do you not think this is a rational treatment—a certain way of reaching the diseased surfaces which lie so far in the cavity of the body or in the head that they can be reached in no other way.

You cannot possibly fail to obtain quick cure from any of these maladies if you use Catarrhosone.

All dealers in medicine sell Catarrhosone. Trial, 25c., complete outfit, $1.00, which will last two months and is guaranteed to cure permanently. Sent postpaid to any address by N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Local Incidents

BY THE THIRD MAN ON THE STREET.

—Real estate agents report bright prospects for sales.

—Board of Education will meet this evening.

—Mr. A. Brundrette sang at St. Luke's church last night.

—At St. John's the Lenten address and announcements were issued yesterday.

—Yesterday evening Rev. E. A. Langfeldt and Rev. J. C. Davidson exchanged pulpits.

—Mrs. Ernest Sterwood, daughter of Mrs. P. M. Pearse has returned home from her trip to Kansas.

—The stirring drama "Robert Emmett," will be presented by St. Martin's T.A.S., Ennismore, on March 17th.

—The meeting of St. Andrews Young Men's Guild announced for to-morrow evening has been postponed.

—The regular monthly meeting of St. Paul's Young Men's Guild has been postponed until Tuesday evening, March 14th.

—The Presbytery of Peterborough will hold its regular quarterly meeting in St. Paul's church to-morrow, beginning at nine o'clock.

—Jeremiah Heffernan, bottlekeeper at Westwood has been fined $50 and costs for selling in illegal hours. This is his first offence.

—Rev. E. A. Langfeldt spoke and Charlotte street male quartette entertained a large audience at the Y.M.C.A. yesterday at 4.

—Orillia is canvassing subscriptions toward a Y.M.C.A. building. The committee are meeting with substantial and encouraging success.

—St. John's church Young People, at their regular meeting to-night will hear Mr. J. Hampden Burnham lecture on the "African White Ant."

—Dr. Grear delivered an interesting address to men, on Saturday evening in the Y.M.C.A. His subject, which was capably handled was "First Aid to the Injured."

—Rev. H. B. A. Ketchen was the speaker at the Y.W.C.A. yesterday at 4.15 p.m. His subject was "Influence." Mr. Homer Herd sang. There was a good attendance.

—An illustrated entertainment will be given in the Methodist church, Lakefield, this evening, by Mr. Jas Stubbs, of Peterborough, under the auspices of the Epworth League.

—A good way to find the date of Easter Day is to hammer into your memory the fact that it falls on "The first Sunday after the first full moon after the 21st of March."

—Esther D. Begg, of Norfolk, died in February last, leaving a will appointing The Trusts and Guarantee Company, Limited, Toronto, her executors. The estate consists of a large amount of real estate in Norfolk county.

—The Girls' Guild of George street Methodist church will hold an Irish entertainment on March 17th, for which an excellent program is being prepared. Full particulars will be given later.

—Mr. and Mrs. H. H. Blackwell, whom readers of this p.p.j. will remember were arrested for the mutual slapping scrap at Mosmouth, have been discharged; they claimed the shooting was accidental.

—The annual meeting of the Board of Trade will be held to-morrow night in the town council chamber. Reports for the past year will be presented and officers and committees appointed.

—The Peterborough Radial Street Railway Co., owing to melting caused by the strong rays of Saturday's sun, had to flood their rink on Saturday night. Weather permitting there will be good skating to-day.

—Mr. F. K. Holmes, physical director of the Peterborough Y.M.C.A., was in town on Sunday and made arrangements for two basketball games, a junior and a senior. The date is not yet settled, but all players are requested to practice.—Port Hop Times.

—The local architects report that while there will be considerable building done this spring, the contractors are much more keen in looking for contracts than this time last year. The prices will average about the same.

—Don't fail to take advantage of the big reduction sale of fancy goods, books of every description, stationary and notions, which will continue all through this month. Sacrifice prices to lighten our stock. Times Bookstore.

—It is astonishing the number of rigs that are shipped. Tuesday Mr. Silverwood shipped a load and filled up another car at Dunsford. Wednesday, Mr. Moore shipped a carload The price was $5.80 a hundred pound live weight.—Bobcaygeon Independent

—Lent begins this year on the 8th of March and ends on the 23rd of April. The last possible date that Easter may occur upon is April 25 and it is only at long periods that Easter falls as late as that. In 1886 Easter came on April 25th, and will not again fall upon that date until 1942. Easter has not fallen on April 23 since 1848 and after this year will not fall on that date until 1916.

—A despatch from Beaufort says: "The property down by the river said to contain 235 acres, and known as Sodom, was sold by Mr. J. Kerr, Sr., a few days ago to Mr. Overend, of Peterborough. The property is situated on the east half of con. 6, and immediately north of Wedlocks. Mr. Overend intends putting wood cutters at work at once, and haul the wood to the river for shipment."

The grain section of the Canadian Marine Association met in Toronto on Friday, and grain boat owners in the Lake Superior to Montreal trade agreed that present rates on grain carriage did not pay. Let Port Hope and Belleville shake dice and decide on a midway terminal for the T.V.O. and the Government get a move on, then their boats can call at Peterborough for supplies en route, whilst making their boats pay over Trent Valley route.

A great deal of comment and controversy has filled the papers of late, concerning Dr. William Osler's alleged saying that all men over sixty years of age are incapable of great achievements, and should be put out of the way. With all due deference to various interpretations on the subject made by our esteemed contemporaries, we are of the humble opinion that the whole matter is the fruit of a misinterpretation or typographical error as to what Dr. Osler really was writing about. If man was his subject, he must, to use a gentle term, be "Batty," but we believe he must have shared up the basket of eggs.

What The Earth Produces.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our health [illegible] if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alterative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

"I was all run down, very nervous, and suffered from dizziness, sleeplessness, [illegible] Mrs. [illegible] of Hartford, Mich., "I doctored with [illegible] Dr. Pierce's Golden Medical Discovery, and after the use of nine bottles I felt [illegible] health, again owned the [illegible] Discovery' by the use [illegible] Instead was [illegible] by its use."

To gain knowledge of your own body—its sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 cents in stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, Main Street, Buffalo, N. Y.

we purchased last week. In this case he was justified.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. Chas. Stapleton, Jr., was home for Sunday.

—Miss Minnie Frosts, of Yonkers, N.Y., is home on a visit.

—Mr. Robert Kirkpatrick of Cobourg is the guest of friends in town.

—Prof. Sheets, Collingwood, is in town for a couple of weeks a guest at the Munro House.

—Mr. R. R. Hall, M.P., came up from Ottawa Friday evening, returned Saturday night.

—Mr. F. W. Moody, accountant of the new branch of the Bank of Nova Scotia has arrived in town.

—Miss Grierson has returned after spending a month at her home in Toronto.

—Miss Armstrong, of R. Fair & Co's, staff, left Saturday to visit the millinery wholesalers in New York City.

—Among the arrivals at the Oriental Hotel, Saturday were, P. H. Davis, Canton, O.; A. H. Smith, Toronto.

—Miss E. Goodman, Peterborough, is visiting her cousins, Misses Browne combe, Ridout street.—Port Hope Guide.

—Miss Isabel Morphet entertained a number of her little friends Friday afternoon at her home, Walton street.

—Miss L. Manley, of Peterborough, spent Sunday at the home of Mr. James Dixon, of Campbellcroft.—Port Hope Times.

—Miss Florence Miner, who leaves for Oxbow, Man., on Wednesday morning, sang at both services in St. Andrew's church yesterday.

—Miss Isabelle Middleton, of Alameda, Asst., has returned after a three months' visit to her sister, Mrs. J. Thornback, 513 McDonnell street.

—Mr. Francis Armstrong of Selwyn leaves to-day for McLeod, Alberta, to farm a quarter section. His sister Mrs. Hatton accompanies him.

—Miss Julia Greenan, who has been the guest of Mr. and Mrs. Maher, Stewart street, for the past few days, returned Saturday morning to her home in Lindsay.

—Mrs. W. Marshall, of Peterboro has been visiting her sister-in-law, Mrs. William Pearce, of the East Ward, for the past few days.—Lindsay Post.

—Mr. James Kerr, of Douro, has gone to reside in North Dakota. He was a gentleman highly respected in his neighborhood, and his loss will be keenly felt.

—Miss Paisley, who has been spending her vacation in Toronto has returned to take charge of the millinery department of A. W. Cressman for another season.

—Mrs. McNish, who has been out from Peterborough visiting her sister Mrs. Robert Burley, at Granby, has gone to Oshawa to visit with her sister, Mrs. Bowen. — Port Hope Times.

—Mr. Charles Stapleton has returned from an extended tour of sales in Dunmer. At one sale, Mr. G. G. Taylor's, he sold a mare weighing 1400 pounds for $146. He also had a sale at Geo. Ray's, and will soon sell the household goods of Mr. Grieve near Lakefield.

—The Trinity College School Hockey team, arrived in town Saturday noon to play the West End team, they were Messrs. H. P. Boyle, W. V. Carey, E. T. Rathbone, A. E. Copeland, A. E. Deacon, T. Seagram, and were a bright, well built lot of young men, who, by appearance, mix athletics in fair share with the ologies.

—The Lindsay Post says;—Mr. J. R. Stratton, of Peterborough, was a guest at the Benson house this morning for a few hours on his way back from Bobcaygeon. In addition to being a keen politican, Mr. Stratton is a keen curler, and he greatly enjoy the games with the Boydville rinks and the brief match against Lindsay this morning.

—Referring to the singing of Miss Helen Davies at a recent recital in Toronto, Saturday Night says.—The great triumph of the evening however, was made in Sir Henry Bishop's "Now Tramp over Moss and Fell," which with its bright exhilarating tune, its suggestive orchestration and its brilliant soprano solo created quite a furore and had to be repeated. Miss Helen Davies, a pupil of Dr. Ham, contributed largely to the success of the number by her singing of the solo, in which her voice rang out with telling effect and with charming freshness and clarity of tone.

IT PAYS TO PAY FOR
THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction-Alteration Sale During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

Greatest Battle of Modern Times Expected

Russians Under Kouropatkin Make a Desperate Attempt to Avert Defeat by Smashing Japs' Centre and Divlding Enemy's Forces---Battle will be Decisive.

St. Petersburg, March 7.—General Kuropatkin in a despatch from the front dated March 5, says: "The situation on the Mukden front remains quiet.

"On the left flank on the right bank of the Hun River, near Machiapu, the Japanese this morning resumed the offensive energetically. Two attacks were repulsed.

"The battle continues successfully northward of Machiapu. All are showing the greatest tenacity.

"In the center our positions on the Shakhe River as far as Shahopao are retained. Night attacks on Poutiloff and Novgorod Hills were beaten off."

RUSSIANS LOSE FIFTEEN GUNS BUT ARE HOLDING ON

With the Japanese Left Army, via Fusan, March 5.—The left wing of this force is continuing its advance in the direction of Mukden, attacking small villages in the angle north of the Hun River and west of the railroad. The Russian center near the railroad began retiring last night, the Japanese advancing on a hill and capturing fifteen guns, including howitzers and machine guns. The Russian loss is estimated at three thousand, and that of the Japanese under five hundred.

The right wing of this force advancing eastward has captured Onshiniu and Tachucapu, close to the railroad and twelve miles south of Mukden. The Russian center retired to Tinchatun station, ten miles south of Mukden. It is believed the Russians have set fire to their stores and retreated.

The left of this army is rapidly closing in on Mukden. A general attack is only a matter of hours.

CONFIDENCE IN KOUROPATKIN

St. Petersburg, March 7.—The Associated Press has just learned that Gen. Kuropatkin has launched a blow at Field Marshal Oyama's left center just west of the railroad. This fighting is desperate along almost the entire line.

Kuropatkin's losses in killed and wounded up to last night are placed at 23,500. Oyama is believed to have already lost fully 40,000 men.

The Japanese army, according to the prisoners, is greatly exhausted. They repeat the statement that some of General Nogi's men have not had any food for two days.

St. Petersburg, March 7.—The official reports to-day bring the battle up to last night, when General Kuropatkin had succeeded in arresting the advance of the Japanese left wing, the hardest fighting having occurred north of Machiapu, which was the pivot of General Nogi's movement.

The confidence placed in Kuropatkin was reflected by an advance in Russian Imperial fours of a quarter of a point on the Bourse to-day.

FURTHER JAP SUCCESSES

Tokio, March 7.—The headquarters of the Japanese armies in the field, reporting yesterday, said;

"In the Singking, or Yenden direction the enemy continues a stubborn resistance at several lines of defence.

"In the Shakhe River direction our detachment, which attacked the northern eminence of Pinniupao on Saturday, has occupied Pinniupao, four miles west of Waitso Mountain.

"Our forces in the neighborhood of Houmpoutsu occupied a redoubt on a height north-east of the village at dawn on Sunday.

"East of the railroad at eight o'clock Sunday morning our forces occupied Liuchientum, three miles south-west of Wanjao Mountain, and pressed part of the enemy into the center of the village, where it is now surrounding them.

"West of the railroad on Sunday our forces captured Hanchangpao and Simonchepao, and now continues to advance. Suchiatun railroad station is burning."

Suchiatun is the starting point of the railroad the Russians constructed westward to Sutsuiao.

ESCAPE SEEMS IMPOSSIBLE

General Oku's Headquarters in the Field, March 4, via Fusan—Delayed in transmission.—Since last Friday night the Japanese left, which is now extending north and south, has advanced several miles. The Russians are retreating in great disorder.

The Japanese extreme left is now fifteen miles north-west of Mukden, and is advancing rapidly.

The escape of the main Russian forces seems impossible. It is already estimated that the Russians have lost over 10,000 men.

The Russians are throwing away their arms and clothing in order to facilitate their escape.

DIED IN WINNIPEG

John Nelson Hooper, a Native of Peterborough, Dead

On February 17th, J. N. Hooper who was born in Peterborough 58 years ago, died in the Winnipeg Hospital. This gentleman had many friends both here, and in Exeter, where he moved to from Peterborough. He was engaged in the dry goods business in Exeter until removing to Winnipeg a few years ago; by his business ability and grab he built up a large and lucrative business in the Western Capital, but about four months ago, by ill-health, which continued deteriorating, until his sad death last month.

His father, Rev. Wm. Hooper, at the time of his birth 52 years ago, was pastor of the Bible Christian Church, which then stood upon the site now occupied by the Murray street Baptist church. Mr. James Beal, Dublin street, town, is a cousin of the late Mr. Hooper.

Appeal Made for St. Luke's Church.

As a practical mode of self deprivitation that will aid a good cause, Col. J. Z. Rogers and Mr. Frank Adams, the popular Wardens of St. Luke's church, have made the following appeal:

"At this season we again appeal to your generosity to help us in making up the annual deficit. The Lenten season will be welcomed by every loyal Christian to do something over and above the usual efforts for the church. We earnestly ask you to make a liberal offering towards the accumulated deficit of $250.00, so that the new financial year might be begun without any encumbrance. We enclose special envelopes for your special offerings over and above your Sunday givings, and we ask you to be as generous as your circumstances permit you. Will you be so kind and place your contributions from Sunday to Sunday on the offering plates, and thus add your share to a large thank-offering on the glad Easter Sunday."

Royal Baking Powder

45 CENTS a pound can (AT ALL GROCERS)

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves [illegible] flour and eggs; saves health.

DEATH OF N. B. FAULKINER

A Belleville Lawyer, but Well Known in Peterborough

Nathaniel Baldwin Faulkiner, one of the best known lawyers in this Province, died on Thursday morning, after a brief illness from pleumonia. He was born in County Tipperary, Ireland, 68 years ago, and had resided here for half a century. He came here as a boy, and studied law with Mr. John Bell, K.C., He became a most successful practioner, and was one of this city's most popular men. He married Miss Murney, a daughter of the late Edmund Murney, M.P., and she, with one daughter, Miss Mary Faulkiner, survive. Mr. Faulkner was a prominent member of the Masonic Order, and at one time prominent as an Orangeman. He was a very hard worker in the Conservative interests, and had served many years with the City Council and School Board. He was a corporal of the 15th Regiment at Prescott, during the days of the Fenian Raid, and a member of the Veterans' Association of this city. The flags on the public buildings in Belleville are half-masted, out of respect to his memory.

POPE WILL TRAVEL

Seclusion in Vatican is Hurtful to the Health of Pope

Rome, March 7.—"Pope Pius," said a prominent cardinal to-day to a press correspondent, "considers that his further seclusion in the Vatican will be politically useless and hurtful to his health. He requires change of air, and dreads the oppressive heat of the Roman summer. It is likely that his Holiness will go to his suburban villa at Castel Gandolfo during the summer months.

BOARD OF EDUCATION

Met Last Night — New Collegiate Institute Building, and Other Business Transacted.

The following gentlemen met to discuss educational matters; Messrs. Ferguson, chairman; Fair, Hayes, Rogers, Crane, Hill, Eastwood, Ackerman, Pringle, Morrison, Hartley, and Morton, secretary.

After the minutes of last meeting had been read and confirmed, the Property Committee reported the purchase of a German dictionary at $21 and other books, making a total of $27.

The summary of attendance at the Public schools for January and February, was presented, which showe for January;

	Roll.	Aver.	Percent P.C
Central School	409	374	91.5
South Central	444	400	90.0
East Ward	186	169	90.7
North Ward	168	155	92.6
West Ward	187	174	92.9
George street	149	136	91.1
Total	1543	1408	91.2
Kindergartens	97	69	71.1
Totals	1640	1477	90.0

For February;

	Roll.	Aver.	P.C
Central School	407	372	91.4
South Central	448	409	91.3
East Ward	182	166	91.3
North Ward	166	155	93.4
West Ward	187	175	93.6
George street	146	136	92.8
Totals	1536	1413	92.0
Kindergarten	93	75	80.1
Total	1629	1488	91.3

Then followed the statement of monies received;

Town Treasurer	$3,500.00
Text book fees	226.32
	$3,726.32

Statement of accounts paid;

J. Duncan	$150
S. Williams	6.25
	$7.75

Accounts rendered.

R. Hicks & Co.	$123.00
Adam Hall	2.45
Bell Telephone Co.	10.00
Adamson & Dobbin	7.0
P. Light & Power Co.	12.45
Alexander & Miller	49.00
Light & Power Co.	4.25
Peterborough Hardware Co.	5.42
Times Publishing Co.	5.75
Total	$220.00

The Property Committee recommended the purchase of some small necessaries for the schools, and that the tenders for 65 cords of green wood reported in a former issue, as having been recommended, has been raised to about 95 cords, that amount having been found to be necessary. The wood has been delivered and found to be first-class.

The committee in charge of tenders for the Collegiate Institute Building, reported that some tenders had been received, but that the tenders were altogether beyond what the Board was authorized to expend. After some discussion as to ways and means including modifications, such as changing the proposed Credit Valley stone to a cheaper kind, except for trimmings and corners, and inside brick of cheaper make, a resolution was passed which virtually is that At a special meeting of the Board, called for Friday night, the Board, as a Committee of the Whole, will consider modifications of the specifications for the building, and act as an advisory committee, and that the architect should not alter his plans until after the decison attained on Friday night.

Mr. John Graine moved that the salary of the caretaker of the Fifth Ward school be raised from $18 to $20 month. Carried.

The meeting then adjourned.

TREAT ALL ALIKE.

If there should be Separate Schools for Roman Catholics, why not for Jews whose religion differs more sharply from any Protestant cummunion than does Roman Catholicism? That is the question propounded by Rev. A. M. Walker, of St. John, N. B., in the course of a sermon. He put it in this way: "It is a logical absurdity for the Government to "stop at a division between Protestants and Catholics and "say there should be but two classes. Logic demands that "the Presbyterians, the Methodists, Baptists and Unitarians "should each have a separate school, and the Jews, who are "coming to Canada in great numbers, differ greatly in religion from all others. They, at least, are entitled to a "school for themselves." The appeal is not to logic, but to the constitution, which is strained beyond its original intention to support the claims of the hierarchy. If the argument could be decided upon logical grounds, the Separate Schools would soon cease to exist. A further point raised by Rev. Mr. Walker is that Separate Schools are not in accord with the spirit of democracy, and that if it is desired to have unity of purpose and life, and to foster patriotism, it can only be accomplished by ceasing to recognise theological quarrels.

LEGAL AUTHORITY TO BE CONSULTED

Orangemen Will Secure a Pronouncement

PLEDGES TO BE SOUGHT

Members of Parliament Irrespective of Bias to be Approached—Commitee Formed to Approach other Bodies

Toronto, March 6.—At a conference of prominent Ontario Orangemen with Dr. Sproule Saturday the initial steps were taken to inaugurate a provincial campaign against the school clauses of the autonomy bill. It was suggested that a central organization should be formed comprising all those who are willing to co-operate in the movement, and through that medium arrange for public meetings in every constituency in the Province. A committee was appointed to interview the chairman of other bodies and endeavor to unite for that purpose, to arrange meetings of protest and to secure signatures to a petition against the obnoxious clauses of the bill. Efforts will be made to secure pledges from all members of the House of Commons, Liberals and Conservatives alike, with the object of securing the withdrawal of the clauses.

Dr. T. S. Sproule, the Grand Master of the Grand Lodge of British North America, was authorized to obtain the highest constitutional opinion in Canada as to the legality of the school clauses, and funds were reported for whatever purpose the Grand Master considers wise in making the fight against the bill. If possible the old Equal Rights Association is to be revived so that the proposals can be fought throughout the Dominion free from party bias.

Among those present were Mr. W. J. Parkhill, of Midland, Grand Treasurer; Mr. William Lockhart, Allaston, Grand Secretary; Mr. Fred Dane, County Master; Mr. John McMillan, Past Grand Master of Ontario West; Mr. W. Lee, Grand Secretary, Ontario West, and others.

—The congregation of Charlotte street church will hold a meeting on Thursday night to discuss the advisability of raising the present Sunday school building so that a gallery may be erected to give additional accommodation. Tea will be served on Thursday night and a program of vocal and instrumental music rendered.

—Don't fail to take advantage of the big reduction sale of fancy goods, books of every description, stationery and notions, which will continue all through this month. Sacrifices

EVERY MEMBER ON RECORD

The Separate School Bill Before the Legislature

The Times has been informed that an effort will be made by the Orangemen to put every member of the Ontario Legislature on record by having a resolution condemning the Autonomy Bill, introduced by a member of the Order in the Legislature. No name was suggested as the mover, but it would not be surprising if Dr. Beattie Nesbitt were asked to take charge of the resolution.

A SATISFACTORY REPORT

Prosperous Condition of the London Life Insurance Company

We heartily congratulate the shareholders of the London Life Insurance Company on the very satisfactory financial statement presented at the thirteenth annual meeting, held at the head office, London, Ontario, on February 13th. The report shows the company has had an exceptionally prosperous year, the business done being the largest in its history. The total revenue from all sources was $429,826.03, out of which was paid to policy holders and heirs, $99,456.40 and dividends and disbursements, $153,-062.48, leaving a balance to be added to the investment account of $177,307.15.

Reference to the list of assets of the Company will show that the funds of the Company are invested in securities of undoubted character, and as the average rate of interest realized was 5.64 per cent. on the mean invested assets of the year, the investments have proven fairly remunerative as well.

This progressive company is ably represented in Peterborough by Mr. George Lee, 236 Water street.

MARCH CANADIAN MAGAZINE

For interesting illustrations and variety of contents, the March Canadian Magazine is noteworthy. The beautifully tinted pictures of the Russo-Japanese War show considerable care on the part of the publishers, and set a high standard for Canadian printers. The article on the Cornwall Canal Lighting Contract should attract considerable attention. The case is well stated, from a purely business standpoint, while the illustrations add to the illuminating explanations. Frederick Hamiltons sketch of Professor Robertson will no doubt be widely read, for it is well done. The article on "Agricultural Progress in Quebec," with its striking portraits of families of thirteen and sixteen children, is pleasing as well as informing. It may surprise the average reader to learn of the magnificent development which has recently taken place in a province which is often unfairly said to lack the progressive spirit. Alan C. Thompson, a brother of Seton Thompson, writes on "The Taxation of Franchises." Douglas Kerr has a message for the public in his "Future Calls Upon the Empire." Albert R. Carman deals with the universal practice of "Tipping." The stories are five in number, the authors being W. Victor Cook, H. M. Johnston, Mary Stewart Durie, James W. Falconer and Eric Bobo. The frontispiece "To The Memory of

PLUMBING INSPECTION BY-LAW REPEALED LAST NIGHT

And Mr. Sturgeon's Appointment Quashed---No Other Appointment Yet Made--Paying for St. Watering by a General Rate Under Consideration.

"We have evidently a Council of Aldermen who do not know their own mind," sarcastically exclaimed Ald. Mason last night, when Ald. Adams, with a majority support, introduced a by-law to repeal the by-law passed at last meeting, appointing Mr. Sturgeon Plumbing Inspector at a salary of $400 a year. "This is the second appointment this year, that has been reconsidered at a subsequent meeting of the Council after a majority of the aldermen endorsing it. Ald. Adams' by-law was seconded by Ald. McIntyre. Ald. Adams said he took this course on the same grounds offered by him at last meeting, and he could not very well see how the interests of the town could be safeguarded by a man occupying a dual position—that of Plumbing Inspector and plumber for the Toronto Savings and Loan Company. A merchant on George street had complained of bad plumbing on his premises, and had not been able to get Mr. Sturgeon to remedy the evil. Such being the case under existing condition how could the town expect Mr. Sturgeon to enforce more satisfactory plumbing in this particular case. For instance even were he plumbing inspector. Personally, he believed Mr. Sturgeon to be a first-class man, but that qualification was not the only thing to be considered in this matter.

Ald. Mason—"As the tenant, Mr. Adams refers to, and those are the grounds which led me to introduce the question of appointing a plumbing inspector. Mr. Sturgeon now can only do such work as he is allowed to undertake by his employers. Whatever plumbing he has done stands a monument to his ability to do the work and to do it thoroughly. Since last June or July, Mr. Sturgeon has helped me in framing this Plumbing Inspection by-law, which is as good as any similar one in Canada. And it is not right after all his assistance to me in this respect, to allow some other man to apply the by-law he has materially aided in drafting."

Ald. Mason moved in amendment, seconded by Ald. Scott,—That the by-law be not repealed.

For the information of Ald. Batten, Ald. Mason explained that the duties of the Plumbing Inspector would be to inspect all plumbing and sewer drains; he will be responsible for all connections from the main sewer to the roof of a building. He will be allowed 24 hours in which to begin his duties as inspector from the evening of the day notice is given him that his services are required.

Ald. Begley reiterated his previously expressed conviction that the positions of Building and Plumbing Inspectors should be combined. He did not approve of the appointment of Mr. Sturgeon, and were the appointment sustained, the Town should at least have some guarantee that he would not be engaged in his own work to the neglect of his duties as Inspector.

His Worship then put Ald. Mason's amendment that the by-law be not repealed, which was lost on the following vote;—

Years—Ald. Mason, Scott and Tovey.

Nays—Ald. Johnston, Begley, Hicks, McIntyre and Adams.

Ald. Adams' by-law to repeal the by law appointing Mr. Sturgeon Plumbing Inspector was then read three times and carried on the same division.

Ald. Leary, Crowe and Batten did not vote either way.

Ald. Crowe wanted the votes taken by ballot, which of course, was overruled.

The Town Council met in regular monthly session last night, when there were present; Mayor Henry Best, and Aldermen Johnston, Begley, Mason, Hicks, Leary, Tovey, McIntyre, Batten, Scott, Adams and Crowe.

The minutes of the preceeding meetings were confirmed.

A by-law to authorise the execution of an agreement with John and Mary Kelly for the purchase of lots, 108, 110, and 111, north of Maria street in connection with the outfall sewer passed its several readings. The purchase price is $7.50.

NEW FIRE HALL.

Ald. Johnston raised the question of better fire protection for the town. He thought the time had arrived when some steps should be taken along this line. Then the town has grown to such a size as to render the extension of the fire limits a crying need. He had advocated the enlargement of the present fire hall; but this had not met the views of many people, especially Chief Rutherford, whom he suggested be allowed to address the Council on this question.

Mr. Thos. Rutherford, Chief of the Fire Brigade, characterized the present fire hall as unsuitable and utterly inadequate for the requirements of the town. He would favor enlarging the present premises, which would mean building a stable abutting on the market square. Then there would be the question of the [illegible] The time is coming shortly when fire stations will have to be provided in order to meet the requirements of the underwriters. A good central station could be erected at a cost of say $20,000—$5,000 for land, $9,000 or $10,000 for a building, and $3,000 to $5,000 for a new alarm system, hose and other modern equipments. In using side stations, after a fire, the hose would have to be returned to the central station to be dried and repaired. A new and improved fire alarm system, together with a chemical engine must shortly be forthcoming even to maintain our present rates from the underwriters.

Ald. Johnston moved, seconded by Ald. Leary,—That this matter be referred to a Committee of the Whole Council to meet Friday evening.—Carried.

MARKET TOLLS.

Ald. Batten moved, seconded by Ald. McIntyre,—That the Property Committee be authorized to sell by public auction the market tolls and fees—Carried.

Ald. Batten and Leary pointed out that many farmers and others were anxious to have the present market clerk retained in his position as the market had considerably improved under his jurisdiction.

Ald. Leary added that something must be done to keep our market up to all requirements. He did not wish the Council to take any action which would jeopardize so valuable an asset as our market tolls; but at one time, owing to unreliable and unjust market clerks the weighing trade had been driven away to scales kept by Mr. Stevens and Mr. Kennedy; and for years most all of his hay bore Stevens' ticket. For this reason he would feel inclined to support any measure which would secure to the present market clerk another year's lease of the tolls and fees. He thought asking for tenders a better way than selling the tolls and fees by auction. By the former system the lowest tender need not be accepted should the tenderer not be deemed a desirable person to hold the position of market clerk in the best interests of all concerned.

The Council as a whole felt that they had better not deviate from the old system this year, and consequently the tolls will be sold by auction.

NEW SIGNS.

Ald. Batten was given authority to have signs painted for the Tax Collector's and Town Engineer's offices.

HOUSE-NUMBERING.

Ald. Begley moved, seconded by Ald. Johnston—That the houses in that portion of the town recently acquired from Smith be numbered; also any other streets that still remain unnumbered—Carried.

Continued in To-morrow's issue.

L.O.L. NO. 80 PROTESTS

Resolution of Protest to be Forwarded to the Dominion Government

At a meeting of L.O.L. No. 80, held last night, it was unanimously decided to forward a resolution of protest to Mr. R. R. Hall, M.P., and the Premier, against the Northwest Autonomy Bill, introduced by Sir Wilfrid Laurier. Following is the resolution;—

"The members of L.O.L. 80, Peterborough, place themselves on record as being strongly opposed to the Northwest Autonomy Bill, introduced by Sir Wilfrid Laurier. We believe that the Federal Government has no right to interfere with the educational affairs of Provinces, and we protest against Separate schools being forced upon the Provinces about to be created. We believe in equal rights to all people, and we most emphatically object to Government aid being given to the establishment of Separate schools. We call upon all rightminded people independent of race and creed to exert their influence against this measure, and to resent, as we do, the action of Sir Wilfrid Laurier, who, at the bidding of the Roman Hierarchy, has stirred up by this educational clause, race and religious feelings."

BUSINESS WITH MEXICO INCREASING

Steamship Line From Montreal Would Give it a Great Impetus

VIEWS OF CONSUL-GENERAL

Enterprises in Which Canadians are Interested in a Very Flourishing Condition

Montreal, March 7.—The steamer Mount Temple, which reached St. John, N.B., last week, brought over 400 Russian Jews. The secretary of the Baron de Hirsch Institute went to St. John to meet them. They came on direct to Montreal, and are now lodged in the Institute's shelter on St. Lawrence street.

The new arrivals, natives of Southern Russia, make up a fine-looking body of men. They are mostly young and of the artisan and agricultural classes. They will remain in Montreal for a few weeks, while the authorities at the Institute fit them out for the different parts of Canada to which they will go. Many of them have friends or relatives already here, who have obtained employment for them.

At the Institute this morning the business of dealing with the immigrants was being carried on by the committee. The men were drawn up in a long row in the corridor, each receiving his lodging ticket. One by one they were admitted to the offices where addresses are received and com where addresses are received and com-

Medicines Loaded With Alcohol

Think of it! The Danger You Run — Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using an alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong, you must build up the blood—alcohol weakens it. You must increase your nerve force—alcohol steadily devours it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Farrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up in nature's way. Never known to fail.

Whether weak from worry, overwork, "the blues," or ill-nourished nerves, Farrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Farrozone if in poor health.

Farrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 7 1905

IS THE WAR NEARING ITS END?

The cable this morning announces that the position of the Russian forces in Manchuria is regarded at St. Petersburg as being more or less critical, for while Oyama is rolling back the Russian left, Kuroki is making progress in a turning movement east of Mukden. From a Russian source comes a rumor that the withdrawal of stores and supplies from Mukden north is in progress, indicating the abandonment by the Russians of their winter quarters. So deep is the depression in official circles at St. Petersburg that it would not be surprising if one more staggering blow by the Japanese put an end to the war. That blow seems to be near at hand. It is nearly thirteen months now since Admiral Togo disabled the Port Arthur fleet in a night attack and the Varing and Korvets were destroyed in Chemulpo harbor. It is a year since the Japanese land forces under Oyama, Kuroki, Oku, and Nodzu, moved into Korea, and took Ping Yang. Since then the Yalu has been crossed and the Russian Zassulitch beaten back. Those three armies of Kuroki, Oku and Nodzu have moved forward irresistibly. Alexieff has been sent home in disgrace. Stackelberg made a serio-comic effort to relieve Port Arthur. The union of the divisions under Oyama was immediately followed by the disastrous defeat of Kuropatkin at the fortified city of Liao-Yang and the precipitous though well conducted retreat. The ill-advised attack of Kuropatkin upon the combined forces at the Sha river resulted in another Russian repulse. Port Arthur has fallen. The Port Arthur fleet has been destroyed. Vladivostok is doomed. Mukden is being shelled and Kuropatkin's rear is seriously threatened. What matters it if General Kuropatkin has conducted his many retreats in a masterful manner. The fact remains that he has always retreated. He is now facing a foe immeasurably stronger than at the close of the first campaign; stronger with the strength of reinforcements, and unchecked victory. Gen. Nogi and his wonderful army that took Port Arthur are now arrayed against the Russians. All the strategical points, all the bases which the Japanese set out to take, they have taken. Russia has lost at every turn; lost sometimes disastrously; sometimes they have saved their distance by brilliant tactics; but always they have lost! The ultimate defeat of Kuropatkin seems as certain as was that of General Stoessel and his heroic garrison. He is beset with enemies whom he has succeeded only thus far in eluding. Let it be hoped that his destruction will be the last chapter in a tale of horrors which humanity and Christianity still bear with under the captious title of war.

THIRTIETH ANNUAL MEETING OF THE

LONDON LIFE

INSURANCE COMPANY.

The Thirtieth Annual Meeting of the Shareholders and Policyholders of the London Life Insurance Company was held at the Company's offices, London, Canada, February 13th 1905.

The President, Mr. John McClary, occupied the chair, and there were present a number of Shareholders and Policyholders of the Company.

The notice calling the meeting was read by the Manager and Secretary, Mr. J. G. Richter, after which the following Report and Financial Statement was submitted:

THIRTIETH ANNUAL REPORT.

The Directors of the Company beg to submit Annual Report and duly audited Financial Statement for year ending December 31st, 1904.

During the year, 14,194 applications for insurance, amounting to $2,-985,776.40, were accepted and policies issued therefor.

The net Premium and Interest receipts of the year were respectively $355,597.92 and $74,228.11, totaling $429,826.03, an increase of $41,814.76 over the previous year.

The sum of $99,456.40 was paid for Death Claims, Matured Endowments, Surrendered Policies and Cash Profits during the year, an increase of $4,218.15 over the previous year.

The insurance in force on the Company's books at the close of the year, after deducting all Re-insurances, amounted to $8,000,000, under "Ordinary" and $2,027 "Industrial" policies—an increase of 3,131 policies for insurance of $735,669.55 for the year.

The Assets of the Company, exclusive of uncalled but Subscribed Capital, amount to $1,643,183.92, an increase of $180,218.04 for the year. The interest and other payments falling due during the year were in the main satisfactorily met, and no losses in respect of investments were incurred.

The Liabilities of the Company under existing policies, and in all other respects, have been provided for in the most ample manner, the whole amounting to $1,542,693.33. The surplus on policyholders' account, exclusive of uncalled but subscribed capital, is on the Company's standard, $100,490.59, and after deducting paid-up capital, there remains a net surplus over all liabilities and capital, of $50,490.59, an increase of $5,-955.26 for the year.

JOHN G. RICHTER, Manager and Secretary. JOHN McCLARY, President

SYNOPSIS OF FINANCIAL STATEMENT

REVENUE ACCOUNT.

Receipts.		Disbursements.	
Interest	$ 74,228 11	Paid Policyholders or heirs	$ 99,456 40
"Ordinary" Premiums	118,691 06	Div'd and other Disbursements	153,062 48

I hereby certify that I have audited the books and accounts of the London Life Insurance Company, and examined their securities for the year ending December 31st, 1904, and find them correct. The above cash statement and balance sheet exhibit the Company's business correctly at the date mentioned.

London, 1st February, 1905. JAMES McMILLAN, Auditor.

ACTUARY'S REPORT.

The valuation of the Company's policies has been computed on the same basis as that employed for the previous four years, and assumes for all policies except those issued in the "Ordinary" Branch since 1st January, 1900, an interest rate 1-2 per cent. more stringent than that required by the Government standard. The basis of reserves in the "Industrial" Branch is, so far as can be ascertained, as stringent than that adopted for such business by any other Insurance Company on the continent.

In addition to the reserve liability special attention should be directed to the item of accumulating profits in order to fully appreciate the financial position of the Company, as presented in the statement. For some years past "with-profit" policies of the Company have been issued under distribution periods of not less than five years, and the usual method would be to ignore the amount of profits accruing on such policies until the distribution period should be completed. Instead of this, however, all policies are treated as if they were on the annual distribution basis, and the proper proportion of the profits due at the end of the profit periods was computed on each policy, and the total so included in the liabilities. The accumulations under this heading form a very considerable item of liability, which, if treated in the usual manner, would result in a largely increased surplus being shown.

The rates under which the "Ordinary" Policies of the Company are now issued came into force on 1st January, 1900, and consequently the first profit distributions under these policies are made this year. It is satisfactory to note that these distributions are fully in accordance with the scale of profits issued to our agents five years ago, except that in the case of those policies where a Provincial tax is imposed on the premium income of the Company, the tax payable on such policies is deducted from the profits otherwise allotted thereto. The interest earnings of the Company having steadily improved since 1900, there is good reason to anticipate that the liberal scale of profits now in force is a conservative estimate, and likely to be maintained for some time to come.

During the past year the policies of the Company in force on the 31st December, 1903, were valued by the Insurance Department at Ottawa, as by law required. The result of this valuation shows that the Company held at that date reserve in excess of what is required by the present Government standard to the amount of $26,612 in the "Ordinary" Branch, and $31,646 in the "Industrial" Branch, or a total in excess reserve of $60,259.

E. E. REID, B. A., A. I. A., Actuary.

The President, Mr. John McClary, in moving the adoption of the Report, said:

The Report of the Directors and accompanying Financial Statement are, as heretofore, very full, and present the affairs of the Company in such manner as to be readily comprehended.

The new Business of the year was the largest in the history of the Company, and the increase in total insurance in force at the close of the year was likewise favorable. The Cash Income from Premiums and Interest shows a good increase ove the previous year, and payments to policyholders under the various headings also aggregate somewhat more than did like payments for 1903, though death losses on the "Ordinary" Branch were much more favorable than for the year previous.

Reference to the list of assets of the Company will show that the funds of the Company are invested in securities of undoubted character; and as the average rate of interest realized was 5.84 per cent. on the mean invested assets of the year, the investments have proven fairly remunerative as well.

The Reserve and other Liabilities of the Company have, as shown by the Report of the Actuary, been taken account of in the most ample manner. So much so is the case as regards the Reserve Liability in particular, that a word of explanation in this connection may be in order. In 1899, the Parliament of Canada passed an Act changing the standard of valuation of Life Insurance Policies as regards rate of interest to be employed, from 4 1-2 per cent. to 3 1-2 per cent., from and after the 1st January, 1900, in respect of all new business issued thereafter; and in respect to the then existing business, the Companies are given until the 1st of January, 1910, to bring the Reserve valuations to a 4 per cent. basis, and to 1st of January, 1918, to come to a 3 1-2 per cent. basis, which will thereafter be the rate applicable in like manner as in the case of new business issued since 1900. In order to comply with these requirements in a proper manner it is necessary to make provision in the meantime for the extra liabilities that will have to be accounted for in the times above stated. It is a source of no little satisfaction to know that the valuation of all old business of this Company is already being made on a 4 per cent. basis, and that the Company in each year setting aside a further sum towards bringing the valuation to a 3 1-2 per cent. basis at a early date, and hence the reason of the Reserve Liabilities, on the Company's standard, being so much in excess of the Government standard as is indicated in the Report of the Actuary.

The surplus of Assets over all Liabilities and Capital, amounting to $50,490.59, being ascertained on the very stringent basis indicated in the Actuary's Report, is all that terminal, and not subject to any deductions whatever, as is so often the case in the make-up of Financial Statements.

I have much pleasure in moving the adoption of the report.

The Vice-President, Mr. A. O. Jeffrey, K. C., LL. D., D. C. L., in seconding the adoption of the Report, said:

After the very exhaustive manner in which the President has dealt with the affairs of the Company in moving the adoption of the Report, no extended remarks in reference thereto would seem to be further called for.

I would, however, point out the notwithstanding the very considerable increase in the new business of the year over any previous year of the Company, the ratio of expense to income has not been materially increased, but stands at 34.7 per cent. for both branches, which is practically the same as for the year previous. In order to arrive at the ratio of expense to Income of the respective Branches. It is necessary to apportion the total interest Income between the "Ordinary" and "Industrial" Branches. On basis of the respective funds of the two Branches the share of interest apportionable to the "Ordinary" Branch is $26,939.98, and to the "Industrial" Branch $41,591.13 It is likewise necessary to apportion the [illegible]

"Ordinary" and $32,274.81 for the "Industrial." On this basis the ratio of expense to income of the "Ordinary" Branch for the past year was 26.3 per cent., and of the "Industrial" Branch 39.2 per cent., which, having regard to the character and value of the business transacted and the exceptionally good interest earnings of the Company, is a very good showing.

There is one other point to which I wish to call attention, viz., that the "Ordinary" claims for the past year amounted to only 81 per cent. of the interest received from the investments of that Branch, which, considering the age of the Company, is very favorable.

In the "Industrial" Branch the claims exceeded the interest receipts somewhat, but amounted to a little under 23 per cent. of the "Industrial" premiums received, and to only 19.5 per cent. of the total premium and interest receipts of that Branch.

With these remarks I beg to second the adoption of the Report.

The Report was adopted unanimously.

A cordial vote of thanks was tendered the Agents and other employes of the Company for the very satisfactory manner in which they had discharged their several duties during the past year.

The election of Directors resulted in the re-election of John McClary, President; A. O. Jeffery, Vice-President; Judge Bell, W. Bowman, W. F. Bullen, Thos. H. Smallman, Geo. C. Gibbons, A. S. Emery, and Thos. W. Baker.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or conterminous township.

A settler who avails himself of the provisions of sub-sections [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have broken 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

We desire to call the attention at this time to the securities of

The Marconi Wireless Telegraph Company of Canada

Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allotment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 4 1-2 per cent. on the total capitalization of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £56,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This computation of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I was delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight." G. E. WRIGHT, Lansing.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully-Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiser, I saw on the dumps several thousand tons, probably 6000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 175 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, rails and over one mile long, engines on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

RUSSIAN JEWS ARE POURING IN

Rapidly Increasing Colony Augmented by Fresh Batch of Arrivals

NATIVES SOUTHERN RUSSIA

Six Hundred are Now Dependent on the Local Charity at Baron de Hirsch Institute

Montreal, March 6.—"The business of Canada with the Republic of Mexico is rapidly increasing. A still greater impetus to this trade would be given, however, were the Government, following its example on the Pacific, to subsidize a line of steamers between Montreal and Veracruz, or between Halifax or St. John and Veracruz in the winter. The line would not pay possibly for the first two years, but after the third year it would do a good business. A subsidy need only be granted for four or five years at the longest."

These observations were made yesterday to a reporter by Mr. D. A. Ansell, the Consul-General of Mexico in this city, who has just returned from his annual trip to Mexico, where he found all the enterprises in which Canadians are interested, in a flourishing condition. He spoke especially of the Light, Heat & Power Company. "That company," he said, "will prove not only a great benefit to the Republic of Mexico as a whole, but to the miners individually as well. Arrangements are now being made to have the mines lit by electricity, which will be an immense advantage."

Mr. Ansell says that Mr. A. W. Donnelly, the new Canadian commercial agent for Mexico, had not completely settled before he left for the north, but his efforts to introduce Canadian goods would be greatly facilitated were the Canadian merchants to send samples to Mr. Donnelly in order that they might be brought to the attention of Mexican merchants. Mexico's trade with foreign countries was greatly increasing.

Railways in Mexico were expanding rapidly, but Mr. Ansell had not heard anything of Sir William Van Horne constructing a line. One, however, was in contemplation between Veracruz and the City of Mexico, which would draw the capital of the country much nearer the seaboard than heretofore. Mr. Ansell remarked that he was aware that Sir William had contemplated a trip to Mexico for some little time, but just what that intention might portend he was not in a position to state.

"Canada's trade with Mexico has been on the increase for several years past," observed Mr. Ansell, "and the increase was particularly heavy during the year just closed. With direct steamer lines on both oceans and lower freight rates the trade between the two countries is certain to advance rapidly. The Pacific Ocean steamer line will be soon in operation, and I know that its establishment will result in the exchange of great quantities of Canadian coal and coke and lumber for agriculture and other products of Mexico."

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

—Esther D. Begg, of Norfolk, died in February last, leaving a will appointing The Trusts and Guarantee Company, Limited, Toronto, her executor.

COMPLAINS TO FRANCE

Brazil Says a Frenchman Has Raised $2,000,000 to Finance a Revolt

Paris, March 5.—Brazil has made formal complaint to the French government against the Jameson-like raids made by French subjects in the territory of Counani, which is about the size of Ireland, and adjoins the frontier of French Guiana. The territory was long in dispute, but was finally awarded to Brazil by arbitration. The Brazilian government declares a man named Brezet raised a fund in Paris to organize an armed revolt and declare the independence of Counani; he even issued a red book to the several powers setting forth that Counani was a free state.

Police Commissaire Sobier has been directed to investigate. Brezet, it is said, has left Paris, and the sum raised to achieve the independence of Counani is put as high as $2,000,000.

A CANADIAN'S DEATH

An Ex-Montrealer Commits Suicide in California

San Francisco, Cal., March 6.—Ira Bishop, the former millionaire steel man, has committed suicide. Ira Bishop was a native of Montreal and came to this city thirty-five years ago. He was about 60 years of age. For a month and a half he had been conducting the Hotel Kyle at 230 Powell street. Some time ago he was engaged in the steel business, and he then lived at the Palace Hotel. He was a reputed millionaire, but lost heavily in business enterprises and speculation.

NAN PATTERSON'S CASE

Decision Reserved in the Case of Nan Patterson

New York, March 4.—After hearing arguments on the writ of habeas corpus and certiorari having for their objects to secure the release of Nan Patterson from the Tombs prison, where she is awaiting trial for the murder of Caesar Young, Justice Gaynor, in the Supreme Court in Brooklyn to-day reserved decision. Miss Patterson was not in court.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar.

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock.

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $300,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 320 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed.** Estimates on ore from **this shaft alone show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—**"It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine."** In 1904 Mr. F. M. Whiteman said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore."**

A freighter and miners at Idaho City have invested: the stock is a money-maker for you. NO CHANCE, NO SPECULATION, A CERTAIN WINNER.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company, Peterborough, Ont., or to

S. E. PHELPS, Secretary,

311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Western Block, alterations and additions," will be received at this office until Wednesday, March 15, 1905, inclusively, for additions and alterations of the Western Block, Departmental Buildings, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures; and, if called upon to enter into the contract, they will be bound to complete the whole of the works within eighteen months from the date of acceptance of tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS,

Secretary.

Department of Public Works,

Ottawa, February 28, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days.

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

BIG G
CURES
MEN AND WOMEN.
Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous.
Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives,** for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

$26,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year,** reducing the death-rate from 2,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

The Catarrhozone Dry Air Treatment

THE ONLY RATIONAL, SURE CURE FOR CATARRH AND DISEASES OF THE NOSE, THROAT AND LUNGS.

This only natural cure for catarrh is the dry air treatment which effects startling cures without resorting to drugs, dangerous snuff and cocaine mixtures.

Catarrhozone kills the catarrh germs, soothes and heals the sore mucous membrane, clears the air passages of the nose and throat, cures chronic catarrh that has resisted all other treatments.

The reason why Catarrhozone cures is because it really gets at the cause of the disease. No matter how remote or long standing your catarrh may be you can place perfect faith in Ferrozone. It is Nature's Cure composed of the most healing balsamic antiseptics known to medical science. Read the following;

MR. L. MURPHY, well known in West Medford, Mass., writes; "Catarrhozone cured my catarrh, after a score of doctors failed. I used to hawk and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrhozone has removed every trace of catarrh from my system."

MISS EMMA PETERS, Highland Grove, N.S., writes; "I am more than pleased with the results from Catarrhozone. It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrhozone are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

Mr. LAWRENCE KENNEDY, of West New Annan, says; "For three years I suffered from catarrh and throat trouble. I tried many remedies but they were of no avail. I got no relief till I tried Catarrhozone. Too much cannot be said of so valuable a medicine. I shall always recommend Catarrhozone to anyone troubled with catarrh; it is a positive cure."

MR. W. W. BEACH, of Chapman, Ont., who suffered for years from "systematic catarrh says; "Catarrhozone is the best remedy I have ever used for catarrh and I have used a lot of them. Catarrhozone was exactly suited to my case."

No intelligent person can doubt the merit of Catarrhozone which receives more praise from Medical Journals, Doctors and the public than any other remedy; it is certain to cure every type of catarrh, lung and throat trouble. Two months' treatment, $1.00; sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S., and Kingston, Ont. Refuse a substitute for Catarrhozone.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

National Banquet

An interesting entertainment, and one that will appeal to the public both from its novelty and the good cause promoting it will be the National Banquet, to be held by the Ladies' Aid of Murray street Baptist church on March 9th. Supper will be served at 7 o'clock. Admission 25c. 3d

East Lynne To-night

The Bijou Comedy Company made its reappearance last night before a large audience. This play, "Paws Ticket 210," has been seen here before, but under another title. The right title was used, however, last night and the parts were all well taken. M. Young as "Uncle Harris Levi," gave a fine interpretation of a trying dialect character. Miss Adams as "Meg," was chic and changes from grave to gay were effective. The rest of the characters were in able hands. The specialties are all new, and the moving pictures and illustrated songs very good. To-night, East Lynne.

DUTTON'S MARKET.
Bitter Oranges, per dozen, 25c
Fresh Herring, per dozen, 25
R. A. DUTTON
Phone 204. 418-420 George Stree

The attendance at the Peterboro' Business College
larger this year than ever
WHY?
Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.
Over 90 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.
NOW IS THE TIME TO ENTER
If you cannot attend our School write for particulars regarding our Correspondence course.

Real Estate Changes Hands

That valuable house property, situated at 766 Water street, and until now owned by Mr. Tully of Messrs. Tully, Merrill and Meredith, George street, has been sold to Mr. Robert Graham of Smith, who will probably move into town, and occupy the premises as a residence as soon as his sale in Smith, on March 8th, of his live stock, farm implements and sundries is over. We understand that the price paid for this desirable location is approximately $3,000.

Snow Shovel vs. Double Runaway

A compound runaway was yesterday morning stopped by a snowshovel. Two horses were rushing in wild impetuosity down Water street, when a man armed with a large push snowshovel barred the center of the street, and stopped the flying steeds, long enough, staring with astonishment at this peculiar semiphore to allow passersby to run to their heads. It appears that in the north end of Water street, a horse with an empty cutter ran away, and frightened a horse belonging to Messrs. McCallums' livery; it was a neck and neck race for several blocks. McCallums' cutter was somewhat damaged, but no serious result occrued.

An Interesting Trade-mark Decision

Owners of trade-marks as well as all wholesale and retail druggists will be interested to learn that the proprietors of Perry Davis Painkiller have recently won another trade-mark infringement. They took action against the Lightening Medicine Company, of Rock Island, to restrain them from using the word Painkiller. The Court decreed that the Davis & Lawrence Company are only entitled to use this word, and issued an injunction against the Lightening Medicine Company restraining them forever from its use. The Davis & Lawrence Co., own the name Painkiller as a trade-mark, by right of originality, by right of adoption and first use. Apparently they have all the law and equity on their side and they have the will and disposition to protect their rights. They will prosecute to the extent of the law any party using the name "Painkiller" as applied to a medicine.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The probs for to-day are; "Easterly winds a little higher temperature."

—Town Council met last night. For particulars see other columns.

—A meeting of the George street Girls' Guild will be held to-night at 7.30.

—The Board of Trade will hold its annual meeting in the town council chamber to-night.

—St. John's Young Men's Guild met yesterday evening. An excellent program was rendered.

—St. John's Guild will journey to Lakefield to-night to play an exhibition game of hockey.

—The Board of Education held their regular monthly meeting last night particulars in another column.

—The Quarterly Official Board of George street Methodist church will meet after the prayer service to morrow evening.

—An entertainment will be held at St. Paul's church mission to-morrow evening under the auspices of the Ladies' Aid Society;

—The water works officials report that the frost is sinking deeper this year than last, consequently more calls are made on the city steamer to thaw out frozen water connections.

—The Y.M.C.A. boys' gymnasium exhibition will be held on Thursday evening at eight o'clock. Each boy has four free tickets and none will be admitted without them.

—The regular meeting of George street Young Men's Guild will be held on Thursday morning at eight o'clock, when Mr. R. M. Denniston will give his popular lecture on "Jean Valjean."

—All events at the Brock street rink were wiped off the slate for last night. The Smith's Falls team had a practice between 7 and 8 o'clock and those wanting to see the workout had to part with a dime.

—The time for receiving tenders for the erection of the new Collegiate Institute has been extended to March 21st. Tenders will be received from the different trades as well as covering the entire contract.

—An entertainment consisting of recitations and vocal and instrumental music will be held in St. Paul's Mission corner Reid and Wolfe streets, to-morrow evening at eight o'clock. Proceeds in aid of the mission funds.

—Mrs. Cathcart, Springville, lost a purse in front of, or near the Munroe House yesterday. It contained a gap-

Trial proves
Look in each pkg. for the famous little book "The Road to Wellville."

er and a V. The finder will receive a reward for return of the property to the police station, or its owner's address.

—Do not miss seeing our stock of fancy goods, stationery and notions which are on bargain all this month. We must have room for spring goods coming in so that all winter games will be sold at sacrifice prices. Times Bookstore.

—On Wednesday night at eight o'clock an entertainment will be given in St. Paul's Mission, corner of Wolfe and Reid streets. In addition to recitations, there will be vocal and instrumental music. The proceeds will be in aid of the funds of the Mission.

Police Court
OFFICIALS
Chief of Police, G.I. Rossi
Magistrate, D.W. Dumble

Last night John Dugan was gathered in by Officers Adams and Mc-Cready, charged with raising a disturbance at the C.P.R. Hotel. He will explain matters to his Worship this morning.

This morning's police court will see an assault case that dates from the fall of 1903, threshed out.

It appears that one night in the fall of that year, two men entered a certain restaurant in town, and a dispute arose which resulted in mine Host getting an eye in mourning. The prisoner in the case will be defended by Mr. Kerr of Messrs. Denniston, Peck, Kerr and Stevenson. A case of a constable's powers of arrest without a warrant with him at the time of making the arrest is involved, but, fortunately the parties who questioned the policeman's authority did not press their contention, or the prisoner might have had company in the dock; the warrant had been originally issued although the officer did not have it with him making the arrest. This is a point that Chief Rossi raised, and ultimately proved to his satisfaction some years ago, although the then acting judge and the legal fraternity of town, for a time almost unanimously opposed his view of an officer's powers.

The three Italians in the now moss-grown assault case, were up before his Worship yesterday morning. One of the prisoners was put into the witness box, and, although advised to do so by both his counsel and the Magistrate, refused to bear testimony, even though, as the lawyers say, "Without prejudice," viz., that his evidence should never be taken against himself personally. The case was enlarged, for eight days.

THE ART EXHIBITION

Members Are Requested to Send in Their Pros at Once

The ladies who have handed in their names as willing to become members of the Women's Art Association are requested to hand in their fee of $1.00, to the acting secretary, Miss A. E. Bennett, 402 Charlotte street, or P. O. drawer 1026. This should be done before Wednesday, in order that the ladies may receive their invitation to the opening night of the W. A. C. Exhibition on Monday, March 13th.

UNCLAIMED FREIGHT

Who Among the List Given Below, is Overlooking Something Belonging to Him?

This great family journal with the care that has always characterized its interest in its readers, submits a list of Peterborough consignees of goods that will, if unclaimed, previous to that date be sold as unclaimed freight on March 23rd in Toronto.

These goods will, in conjunction with thousands of others, from every express office in Canada, be sold by the Canadian Express Company, for just what they may bring, as the small boy says, in a knife trade. "Unsight unseen." The Peterborough consignees are;—E. H. Clegg, Miss M. Crown, Development Co., J. R. Dixon, Devlin & Co., F. Doughty, A. E. Douglas, J. W. Green, E. Kidd, Thos. Leahey, Principal Public School, Jas. Reed.

Personal and Social
Movements of the people in and out of town . . . .

—Mrs. A. D. Browne, of Chicago, is in town visiting friends for a few days.

—Mr. Cortez Fessenden was sufficiently recovered from his late illness to attend to his duties in the Collegiate Institute yesterday.

—Mr. Ed. Pratt and daughter, Miss Edna M. Pratt left for Toronto to attend the funeral of his uncle, Mr. T. Holloway. They will remain in Toronto for a few days.

—Mr. J. A. Sutcliffe has just returned from a two weeks' trip to New York in the interests of his different business enterprises. We have no doubt the widening of ideas, coupled with the purchases made by Mr. Sutcliffe will be inflicted into the season's business.

—Mr. F. S. Schneider, with his usual generosity, has donated a very handsome eight-day clock to St. Peter's T.A.S., and it now adorns the library of the society's rooms. The society appreciates very much Mr. Schneider's kindness in this and other respects.

In our issue of yesterday's date we said to the effect that Mr. Holmes of the Y.M.C.A. was in Port Hope for Sunday and, when there, made arrangements for a basketball game. This has been interpreted to mean that the arrangement was consummated on the hold day. To any one reading intelligibly "between the lines," we cannot see but that our meaning was clear that the gentleman spent the Sabbath there, but transacted his secular business on the day preceding or following it. Nuf sed!

Stony Lake Cottagers' Association

Last night a large and enthusiastic meeting of the Stony Lake Cottagers' Association, presided over by Mr. R. B. Rogers, was held in the Y.M.C.A. Hall. The tone of the meeting was highly indicative of a successful summer's season. Among other business transacted, weekly regattas were arranged for at the Norwood end, Jumper Island and at Bobcat Neil's Island, between Clear and

GIRLHOOD WOMANHOOD MOTHERHOOD

The first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Doctor Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits is very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held strictly confidential.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women, ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask for a fair and reasonable trial of their means of cure.

"My wonderful medicine, 'Favorite Prescription,' has helped me greatly in time of suffering," writes Mrs. Minta Wright, of Edwards, Miss. "Last winter I was unable to do my work, and was to be confined in February, and a lady in Illinois wrote and told me about your medicine. I used three bottles of 'Favorite Prescription,' and will say I had the easiest and quickest confinement I ever had. Had three children before, and would suffer from twenty-four to thirty-six hours before birth, but this time only two hours. Have a fine baby girl and she is the most healthy one of all. I am still using the 'Favorite Prescription' as a tonic."

events were named, including the annual regatta. Committees were appointed to take charge of the concerts camp fires, masquerade dances and illuminated parades. There were about 35 persons present including Mr. Davidson, head master of the Normal school at Norwood. The first regatta will take place about July 15th.

—The Chief of Police yesterday bumped up against the steam boiler used by the Water Commissioners in thawing out pipes. It was run up on the sidewalk and proved an inconvenience to pedestrians. The chief says the proper place for the boiler is the road, and not the sidewalk.

Mr. D. Hughes Charles President of Board of Trade for a Third Year

Annual Meeting Last Night, Officers Elected---Mr. Charles Scores the Town Council for Their Action in Repealing the Plumbing Inspector By-law.

The Board of Trade met in annual session last night, when there were present the following members; President D. Hughes Charles, H. F. Ackerman, T. A. S. Hay, J. Coyle Brown, J. S. McClellan, F. W. McPherson, G. B. Van Blaricom, E. B. Edwards, S. W. Dean, J. H. Burnham, R. E. Wood, and Secretary T. Q. Quartermaine.

The Secretary read the minutes of the last annual meeting, which were confirmed as read.

FREIGHT RATES.

A communication was read from Geo. Hadrill, Secretary Montreal Board of Trade, saying that the Council of this Board, being aware that the curtailment of the operations of the Cereal Mills, Peterborough, is owing to the circumstance that the price of oats has of late been much lower in the United States than in Canada, considers that it cannot ask the Railway Commission to interfere with the freight rates on cereals. This was in reply to a request that Montreal Board of Trade co-operate with that of Peterborough in an effort to secure the placing of cereal exports on the same footing with American cereal exports in the matter of transportation to the sea board.

PRESIDENT'S ADDRESS.

This being the annual meeting, the retiring president, Mr. D. Hughes Charles, submitted a very acceptable and comprehensive review of another prosperous year for our town, which he considered it his duty to make a note of, as President of so important a body as the Board of Trade. He touched on the satisfactory growth of the town, new industries established and to commence operations in the near future, industrial and commercial conditions, and municipal matters in general, commended the Town Council for their appointment of a Plumbing Inspector, and thought their choice of Mr. Sturgeon an excellent one. He thought the question of transportation, and the development of the Trent waterway route of more than local interest, and hoped that Sir Wilfrid Laurier's Government would complete the remaining sections of this route at the earliest possible date. The full text of Mr. Charles' address will be published to-morrow.

SCORED THE COUNCIL.

Mr. Charles here went on to explain that in preparing his annual address he did not dream that the Town Council would re-open the Plumbing Inspection question, and repeal their by-law appointing Mr. Sturgeon, Plumbing Inspector. He regretted that the City Fathers had gone to the length of, for the second time this year, stultifying themselves by annulling their previous appointments. He considered Mr. Sturgeon an A1 man in his business, who should have been given an opportunity to at least show his efficiency as a Plumbing Inspector before being dismissed. Those aldermen who voted on this appointment in the first place, and sat in silence Monday night when the question was re-opened, have no right to represent this town on the Civic Board. Mr. Charles sarcastically characterized the Council's action in this respect as child's play.

The President's address and subsequent remarks were endorsed by the Board.

SECRETARY'S REPORT.

Secretary Quartermaine submitted the following;—

Mr. President and Gentlemen;—

I have the honor of presenting to you, as Secretary, the Sixteenth Annual Report of the Board;

MEETINGS—Since our last annual meeting, we have held five meetings of the Board, viz., on April 15, September 13, December 6, 1904; January 24, and February 9, 1905.

We have also held five meetings of the Council of the Board, on first Tuesdays in the months of June, July, October, November, 1904, and January, 1905. The February meeting due to take place 7th was abandoned on account of special meeting of the Board, February 9th.

MEMBERSHIP—The number of members on the roll last year was 74, an increase of two on that of the previous year.

ATTENDANCE—The average attendance of members was 14, a decrease of four on that of the previous year.

SUBJECTS UNDER DISCUSSION—The following subjects have been duly discussed at above meetings;—"Conservation of the Waters of the Trent Canal," "Transportation," "Sugar Beet Industry in Peterborough," "Frontage Tax, with reference to the construction of permanent sidewalks," "Town's Civic Holiday," "Our Water Works System," "Improvement of Live Stock," "Small manufacturing Enterprises," "Completion of Trent Canal," "Corporation Work," "Translation of Town of Peterborough into a City," "Partial Shutting-down of American Cereal Company's Works in Town," and "Local Sanitarium."

ROYAL COMMISSION ON TRANSPORTATION—On 24th and 25th March, 1904, this Commission sat in town, and was largely attended on both days. On 10th March, 1904, the following circular was forwarded to Secretaries of Boards of Trade of cities and towns adjacent to the Trent Waterway, as also to those who might eventually be benefitted by this means of transportation.

HYDRAULIC LIFT LOCK ON TRENT CANAL—On Saturday, July 9th, 1904, our lift lock was duly declared open by the Hon. H. R. Emmerson, Minister of Railways and Canals; notice of which was duly mailed to all presidents and secretaries of Boards of Trade in Ontario, also the Board of Trade and Chambre de Commerce, Montreal.

TOWN COUNCIL CHAMBER—The thanks of the Board are due ex-Mayor Roger, His Worship, Mayor Best, the Board of Aldermen and Town Clerk Armstrong for the use of the Town Council Chamber during the past year.

LOCAL PRESS—THE thanks of the Board are also due the reporters of our three local newspapers, for the able manner in which the business of the Board has been reported.

T. Q. QUARTERMAINE.
Secretary.

Peterborough, Ont.
March 7, 1905.

OFFICERS ELECTED.

Mr. Burnham here asked Mr. Hughes Charles if he would meet the Board's wishes in remaining its President for a third year.

Mr. Charles replied that he had loudly decided to retire from the Presidency as he did not think he was given the support he had a right to expect from the members. The attendance last year had been very disheartening. He came to town a stranger and took upon himself a share of the burden of the community's interests; but he did not see why he, a comparative stranger, should devote a considerable portion of his spare time to Board of Trade duties, when merchants and business men are vitally interested in the town's prosperity, neglect to give him the necessary active co-operation to successfully carry on the Board of Trade's business.

Mr. Burnham urged Mr. Charles to reconsider his decision and said he was only expressing the feeling of the Board and Trade in general and prominent citizens when he assured Mr. Charles that his splendid and highly successful work as President of this important body was fully recognized and appreciated by the whole town. The people are very grateful to him for his deep interest in this community's welfare, and would be greviously disappointed were he to refuse the Presidency at this time.

Col. K. B. Edwards, T. A. S. Hay, R. E. Wood, J. Coyle Brown, and others spoke on the same lines in eulogy of Mr. Charles.

Mr. Brown moved, seconded by Col. Edwards.—That the President be requested to occupy the chair for the ensuing year.—Carried unanimously.

Mr. Charles finally acquesced in the wishes of the Board, when the following officers were elected.

President—D. Hughes Charles.
Vice-Pres.—H. F. Ackerman.
Treasurer—K. Kardley-Wilmot.
Secretary—T. Q. Quartermaine.

Messrs. D. Hughes Charles, K. Kardley-Wilmot, and R. E. Wood, were appointed a committee to strike the members of the Council.

VOTES OF THANKS.

A vote of thanks was extended ex-Mayor Roger, Mayor Best, and the past and present Town Councils for the use of the Council Chamber in which to hold the Board of Trade meetings.

A vote of thanks was also tendered Mr. A. H. Stratton for his efficient conduction of meetings of the Council of the Board.

A vote of thanks was also extended to Mr. Peter Campbell for the satisfactory discharge of his duties as Treasurer.

Col. Edwards moved, seconded by T. A. S. Hay,—That a hearty vote of thanks be extended to President D. Hughes Charles for the capable manner in which he has conducted the business of this Board the past year —Carried unanimously.

Mr. Charles in a happy response replied that wherever he is located he always feels it his duty to further to the best of his ability the interests of that community.

PRAISE FOR THE SECRETARY.

The President, Mr. T. A. S. Hay, and others, eulogized Secretary T. Q. Quartermaine for the highly satisfactory manner in which he had discharged his duties, and pointed out that on numerous occasions he had gone considerably beyond what might reasonably be expected from him to further the interests of the Board.

PUBLIC LIBRARY.

Mr. R. E. Wood raised the question of whether this is not an opportune time for the Town of Peterborough to take advantage of Mr. Carnegie's offer to establish public libraries in those communities willing to comply with the stipulations coupled with his generosity in this respect. It might be well to call a public meeting at which this question could be discussed.

A public meeting will be called for this purpose at an early date.

The Board then adjourned.

TEARING DOWN SIGNALS does not delay the storms. Opium-laden "medicines" may check coughing, but the cold stays. Do not trifle; when you begin to cough take Allan's Lung Balsam, free from opium, full of healing power.

EVERYBODY READS THE TIMES.

A $1.00 Bottle for a Deep-seated Cough.
Sold by all Druggists.

JAPS ARE CONFIDENT

Tokio, March 8. — All Japan is eagerly watching developments at the great theatre of war in Manchuria. The people are confident that Field Marshal Oyama will defeat General Kuropatkin.

PUBLIC MASS MEETING

To be Held to Discuss the Separate School Question

It was decided to defer the proposed public meeting to protest against the Separate School clause in the Autonomy Bill until after the County Orange Lodge takes action, which will be at an early date. A special meeting has been called to consider the matter, when, it is expected, public meetings will be held, which will be addressed by leading citizens and prominent ministers.

AN EMPHATIC PROTEST

By Ministerial Association Against Separate schools

At the regular monthly meeting of the Peterborough Ministerial Association, held yesterday morning in the Y.M.C.A. Hall, the following was carried unanimously.

Moved by Rev. E. A. Langfeldt, seconded by Rev. Dr. Orothers: "The Ministerial Association of Peterborough desires to protest against the proposed legislation settling upon the new provinces a system of Separate schools. The Ministerial Association is of the opinion that Separate schools are detrimental to the interests of our national life, and also tend to the separation of our Canadian children, who should grow up and be educated side by side, without any barriers of sectarianism. We uphold and assert our belief in our national schools, which help in developing a true sense of Canadian citizenship, and which unify the different races and creeds of the people of this Dominion on broad principles of British liberty. We enter our emphatic protest against imposing any constitutional limitations upon the people of the new provinces, without giving the people concerned in the measure a free expression of their will concerning it."

Important Real Estate Transfer

The Dalton Ullyott property on the corner of Brock and Rubidge streets, has for years, been the eyesore of property speculators' eyes, and more than one Peterborough man has strained the tenth commandment severely when looking at this desirable location. The property, in front of St. Andrew's church, including the house and two lots, with a frontage of about 150 feet by 150 feet, was yesterday sold to Messrs. J. J. McBain and Son, by the late owner, Mr. John Craig. The consideration which we are requested to withhold, was a large one. The house, built by the late Mr. Ullyott, as a residence for himself, is a valuable one, in which no expense was spared, and the location is one of the best in town.

Fire Insurance Adjustment

Mr. J. E. Trennum, of town, speaks in very complimentary terms of the promptness and business-like manner in which the Monarch Fire Insurance company met his claims for losses, inflicted by the recent fire at the "Framery." Mr. Trennum resides over the Framery, and as a result of smoke and water, due to the fire, his household furniture and other goods were considerably damaged. Mr. A. J. Clark, the local agent of the Monarch Fire Insurance Company, immediately after the fire, took the matter in hand, and a prompt settlement was reached, highly satisfactory to all parties concerned.

Fish for All Fishermen

The exclusive few, who sought from the late Ontario Government, sole proprietorship in all fishing in the neighborhood of Rice Lake, may have to share up the sport with the public. Dr. Shaw, of Keene, an ardent fisherman and lover of justice to all, has, with a local deputation, asked the Hon. J. J. Foy and Hon. Dr. Resume to see that the Government should not grant to the Ontario Fishing Club the lease for 21 years of 6,000 acres of land, as provideddd in the Order-in-Council already in force. Their petition was promised a careful consideration.

Sad Death of Mr Charles Fox

Yesterday, Mr. Charles Fox, son of Mr. Henry Fox, Monroe avenue, passed away at the early age of 19. This young man, whose loss will be severely felt by a large circle of friends and relatives, was exceptionally clever, and his kindly, affectionate, nature, made him beloved by all who knew him. The funeral will take place to-morrow morning at 9 o'clock from the family residence, Monroe avenue, to St. Peter's Cathedral, and thence to the Roman Catholic cemetery for interment.

—Mr. Jacobs, the well-known horse buyer, is in town to purchase, along with Mr. T. Cavanagh, two car loads of prime heavy horses, for the English market.

St. Petersburg, March 8.—All hope that General Kuropatkin will be able to turn defeat into victory is rapidly vanishing. The position of the Russian army has been growing increasingly desperate during the last twenty-four hours. The gravest danger is from the Japanese left, which has been pushed northward on the Sinmintin road to a point eight miles north-west of Mukden, where it has joined a flanking column from the west around the village of Tatchekiao, which is located at this point.

The battle raged with terrible bitterness throughout yesterday with all the reserves hurried to the scene to block the stroke at the Russian line of communications.

Has Abandoned the Offensive

General Baron Kaulbars, who is defending the wing, is only able to hold his own. On account of the desperate situation there General Kuropatkin has not attempted to drive home his counterstroke at the Japanese center, and his offensive, which was abortive, has been abandoned. At the same time, encouraged by the progress of the main turning movement west, General Kuro again pressed forward from the east yesterday against General Linivitch, forcing the Russians to give ground. It is rumored that Kuropatkin has already given the order to retreat, and he is gradually withdrawing forces from the center, but experts are inclined to believe that he has waited too long, that he must fight it out in his present position, and that it is impossible to extricate more than the remnants of his army.

The Terrible Japanese Siege Guns

At the War Office it is said the Japanese siege guns from Port Arthur, with a range of eight miles, are causing terrible punishment. Nothing can stand up against them.

The only news received at the War Office till this hour is that the battle was resumed at daylight this morning at Tatchekiao. During the night both sides brought up additional guns, and at daybreak a perfect hail of artillery projectiles filled the air.

If the Japanese crush General Kaulbars to-day the Russian retreat will be cut off, and Kuropatkin's army will be almost surrounded. There is the greatest fear that telegraphic communications may be cut at any moment.

The public is pessimistic, as usual. The Liberals especially look forward to the complete defeat of Kuropatkin's army with equanimity on the theory that the Russian victory would stiffen the backbone of the reactionaries. According to the Liberal view, the more the Government is embarrassed the more it will be obliged to yield.

Russians Lose a Vital Position

General Rennenkampff's Headquarters, Outen-Pass, March 6, midnight.—Events took an unfavorable turn for the Russians this evening. After a day of a marked succession of determined attacks, the Japanese ousted the Russians from an important position on the left center of the eastern army. The Japanese are also pressing the right center hard. The Russians have been expected to retake the position at any cost. There were heavy losses to-day on both sides.

Russians Retreating to Tie Pass

Tokio, March 8, noon—It is reported that the Russians are preparing to abandon Mukden and Fushun and to retreat to Tie Pass.

Battling Around Mukden Yesterday

Mukden, March 8,—The battle around Mukden was renewed at the break of day.

Artillery fire is becoming very heavy.

Kouropatkin Must Hold Fushun

Tokio, March 8.—The greatest concentration of the Russians defending Fushun seems to be along the line from Tita to Machuntan. General Kuropatkin continues resolutely to defend the position at Fushun. The operations in that vicinity do not indicate whether Kuropatkin intends to fight or retire, but he must hold Fushun to protect the army on the Shakhe River.

BRITISH CLAIMS

London, March 7. —The British claims to be paid by Russia, as a result of the North Sea incident, total $325,000. This amount will be paid in a few days.

Police Court

OFFICIALS
Chief of Police, G.I. Read
Magistrate, D.W. Dumble

John Dugan made his bow to the Magistrate yesterday morning and pleaded not guilty to a charge of disorderly conduct in a local hotel. It appears that John was in a convivial condition on Monday night, and whilst embracing a friend in the hotel bar, had the misfortune to break a pair of clippers in the friend's pocket. Now Damon drunk and Pythias sober, do not always respect the old time bond of union that should unite them, and Pythias sober, resented the breakage. An altercation led to blows, and blows to a knock down. Had John observed the dictates of common sense he would have gone home and sobered up, but alas and alack, he came back looking for trouble. He got it. $2 fine and costs.

Joseph Cunningham, who has for years enjoyed the hospitality of Castle Nesbitt, yesterday was threatened with nervious prostration when he found that his last committment had expired. In all haste he flew to the fostering arms of the police station, and eloquently pleaded for another smell of the ozone that surrounds the jail; the Magistrate's heart was touched, and he allowed Cunningham to remain for five months' more. The police faced him due north, and by the time his papers arrived on the hill, Cunningham was splitting wood pro bono publico.

The assault case, as noted in yesterday's issue, was enlarged for one day, as the complaintant, a local restaurant keeper, was out of town. The case is on for this morning's court.

Benjamin Lebar will appear at the court this morning to answer a charge of disorderly conduct preferred by the chief.

ST. LUKE'S CHURCH

List of Subjects for Sermons During the Lenten Season—Wardens' Appeal

The tireless Rector of St. Luke's church has fully impressed on his flock both the full meaning of and the obligations they owe both themselves and their church, to the Lenten season. Mr. Langfeldt has issued a full series of special services, and a most interesting and instructive series of sermons for Lent.

The subjects for sermons during Lent are; Sunday mornings, a series of six sermons on "The Woman of Samaria."

Sunday evenings, a series of sermons on "Actors in the Lord's Passion—Judas, Peter, Caiaphas, Pontius Pilate, Herod, Barabbas."

Wednesday evenings, special sermons by the rector and visiting clergy.

Friday evenings, study of the Sunday school Bible lessons.

Mondays, Tuesdays, Thursdays, 4.30 p.m., short services and meditations.

Offertories to defray expenses will be taken up on Wednesday evenings.

The 17th of Old Ireland

The 17th of this month is a day respected, revered, and celebrated by every true son of Erin, or his descendants wherever he or they may be. The 17th of March is somewhat like the British Empire, "the sun never sets on its celebration." This year the T.A.S. are determined to make the day in Peterborough a memorable one, and when the T.A.S. take hold of a thing they generally carry it to a successful termination. For the concert they have secured talent that in itself is a sufficient inducement for any lover of music to attend. Among those who will take part are Mr. H. Ruthven McDonald, baritone; Mr. George Ellis Fax, entertainer; Mrs. McAllister, Miss Hallahan, Miss L. Hallahan, Miss Bell, of Keene, and the T.A.S. band. The Hon. J. R. Stratton will give the medals he presented to the City League.

Death of Mrs. Frank White

On Sunday a lady well known, liked and respected in Peterborough passed away. Ida Lavina Lowes, wife of Mr. Frank White of 37 Stewart street has been a sufferer for some time from heart disease, but her untimely death at the early age of 33 years, will be a sad shock to her many friends in Cavan and Peterborough. She was the daughter of Mr. Wm. Lowes, formerly of Cavan, but now residing in Peterborough. Besides the bereaved husband she leaves four brothers and three sisters to mourn her loss, they are Henry and John of Cavan; Elias, of Peterborough; Dr. Albert Lowes of Chicago; Bella, of Peterborough, and Mrs. Richard Howden and Mrs. William Lee, of Cavan. The funeral will take place this afternoon at two o'clock, from this family residence, 37 Stewart street, to Ida cemetery for interment.

A PROSPEROUS YEAR

The Annual Statement of the Ontario Accident Insurance Co. Most Reassuring

Since the inception, in 1896, of the Ontario Accident Insurance Company, the financial history of this company, has been a progressive, though conservative one. At the ninth annual meeting held in Toronto on the 20th of February, the reports and statements for the past year, showed an increased volume of business and an altogether satisfactory condition of the company's standing. The prospects of the company are very bright for the future, the balance sheet being one to inspire confidence in policy holders and encouragement to shareholders.

The financial statement showed that the assets of the company are of the highest class, including bonds for $44,324.45, of some of Canada's largest towns and cities, and amounting in all to $119,892.01. During the year the company received in premiums, after deducting rebates, $223,637.57, as against $178,786.03 in 1903. The confidence placed in this company by the insuring public, can be guessed when the increase for the year in its premiums has actually averaged nearly $1,000 per week. As evidence of the conservatism of the company's management, and the protection it provides against unforseen or unprovided for, contingencies, the Reserve Fund was increased, in the year, from $45,500 to $55,500, whilst the contingent fund of $10,000, remained the same as in the preceding year. The company's assets show an increase of $16,468.30 over the year before. All this sound financial standing is in the face of a dividend of six per cent. in the preceding year having been raised to seven per cent. in 1904. The President of the company, Dr. Larratt Smith, and the Directorate have every reason for congratulation on the successful termination of their last fiscal year.

THAT HORRID STUFF! no wonder people say that about cod liver oil, for it is; but it do not (and does not) smell fresh as it will D & L. Emulsion, and nothing will

Mrs G. Johnston Seriously Ill

All the older citizens of Peterborough will remember our guondam Chief of Police, Mr. George Johnston, and many who are acquainted with his widow, will regret to learn that Mrs. Johnston is seriously ill at Riverside, Cal. Mrs. Edward Green, Water street, her sister, has had a letter to this effect, Mrs. Johnston is at present living with her daughter, Mrs. W. J. Wallace. Mrs. Johnston is suffering from heart failure and it is feared that she may not recover. She was born in Emily township and for a number of years lived in Peterborough, where she is well known, and where news of her illness will cause great regret. Mr. A. J. Johnston, of Nugent's, is a nephew of Mrs. Johnston's. Her husband died in Peterborough some years ago while on duty.

Large Consignment of Wheels

Mr. F. R. J. McPherson, of McPherson & McGregor, George street, yesterday received the largest single consignment of bicycles that ever came to Peterborough. The pavement in front of his and the two adjoining stores, was literally barricaded for a short time, by crates of wheels, the consignment consisting of about sixty bicycles. The bicycles were purchased from the Canada Cycle Motor Company of Toronto, and comprise the best specimens of the Cleveland, Massey Harris Company, Brantford and Perfect wheels. This enterprising young man is now sole local agent for the C.C.M. Co., and parts of the above named bicycles will have to be procured through him. Mr. McPherson intends to boom the bicycle business in Peterborough through the coming season. He seems to have faith in the townspeople, in ordering so large a shipment, and believes that wheels can be sold as cheaply, and of as good a quality here, as in Toronto or elsewhere. Mr. McPherson is emphatic in stating his opinion that Canada now makes a better and more durable wheel than any country in the world.

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.

"I was as weak as a child.

"I was no longer able to eat.

"My blood was thin. My cheeks were white and hollow.

"Doctor gave me all kinds of medicine, but none of them brought me strength.

"My relatives were losing, passing away with some slow disease, and I bid them good-bye.

"Then I heard of the wonderful Ferrozone.

"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well today. I weigh fifteen pounds heavier than ever before, and feel like a new man.

(Signed) "H. A Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

MONDAY NIGHT'S COUNCIL

HOW SHALL STREET WATERING BE PAID FOR?

Ald. Mason and Adams Favor a General Rebate system instead of by Frontage Tax as Last Year

Ald. Leary moved, seconded by Ald. Tovey,—That tenders be asked for all the pine on the Hilliard estate.

Ald. Hicks thought that only the pine on that portion of the property to be used this year should be sold. There is a nice grove there which may be used as a recreation ground for north end citizens.

The Council fell in line with these views, and the motion was changed to read "Tenders be asked for all the trees on the gravel ridge on the Hilliard property." The resolution then carried.

STREET WATERING.

Ald. Mason's finance report embodied a clause to pay for street watering by a general rate.

Regarding this clause, His Worship was not sure that the Council would be wise in going back to the system of paying for street watering by general tax instead of by a frontage assessment as last year, which had proved perfectly satisfactory. No complaints had been made of that system, although the public may not have been entirely satisfied with the service. He thought the fairest way was undoubtedly to make the citizens benefitted by street watering pay for it, and not the general public.

Ald. Mason replied that the committee had considered that everybody was either directly or indirectly benefitted by street watering, the cost of which distributed amongst all the ratepayers would be scarcely felt.

Ald. Adams supported Ald. Mason. He said the incentive for a street watering system was largely that of preserving the goods of merchants and household effects from being damaged by dust. The goods in the stores derive the greatest benefit, and these are, under the assessment act, exempt from taxation. Consequently in paying for this service by a frontage tax like last year, the land and buildings only of business concerns are taxed, and this means loading up the suburbs. He thought a general tax the fairest to all concerned.

This was referred to a Committee of the Whole to meet on Thursday night.

COMMUNICATIONS.

From ratepayers in the northern part of the town, including that portion of the corporation acquired from the Township of Smith, as well as ratepayers on the northern extremity of Reid and Dowan streets, and the western extremity of Smith street, pointing out that they were practically without any fire protection and street lighting, and asking that these deficiencies be adequately provided for; also that proper sidewalks be built—Fire, Water and Light Com.

From merchants and ratepayers, submitting that the granting of licenses to pedlars enabling them to sell from door to door is a grave injustice to merchants who are paying large amounts for taxes upon store properties and stocks, and thus helping to build up the town.

build up the town. The amount of revenue derived from licenses was also small, and the merchants asked that the necessary action be taken to remove the evils complained of—License Com.

From H. C. Winch calling attention to the fact that for some time the town has been using the lot, belonging to the Chamberlaine estate, east of the National Hotel, as a dumping ground for snow, etc., in consideration for which he asked that the taxes for said lot be remitted.—Received.

Tax Collector W. J. Green's monthly report shows the amount of taxes collected in February to have been $605.93, leaving a balance of $7,007.72 still to collect.—On motion of Ald. Adams, seconded by Ald. Tovey, the collector will be instructed to have the roll returned by April 1st.

From R. M. Dennistoun, Paymaster of the 57th Regiment, asking that the grant of $100 made by 1904's Council to the Regiment to assist in entertaining the Governor-General's Foot-Guards, be paid. As this money was not drawn in 1904, the Treasurer cannot issue a cheque for the amount without authority from this year's Council—The Treasurer will be authorized to pay this amount.

From the Warren Bituminous Paving Company, of Toronto, asking that the Council investigate the merits of their Bitulithic pavement for sidewalks. This pavement was awarded the gold medal at St. Louis in competition with all other pavements.—Board of Works.

A circular was received from the Climax Road Machine Company, Hamilton, setting forth the merits of this company's concrete moulds and all kinds of road machinery—Board of Works.

From E. W. Argus, asking the town to open up the sewer at least half way between Downie and Reid streets so as to drain the new school houses to be erected on the Nicholls estate, bounded by Brock, Reid and Downie streets—On a petition for this extension being forwarded and found sufficiently signed, the town will take this matter up.

A SKIN THAT BURNS with eczema, and is covered with eruptions that discharge a thin fluid, may be made smooth and sightly with Weaver's Carate. But this external remedy should be used in conjunction with Weaver's Syrup.

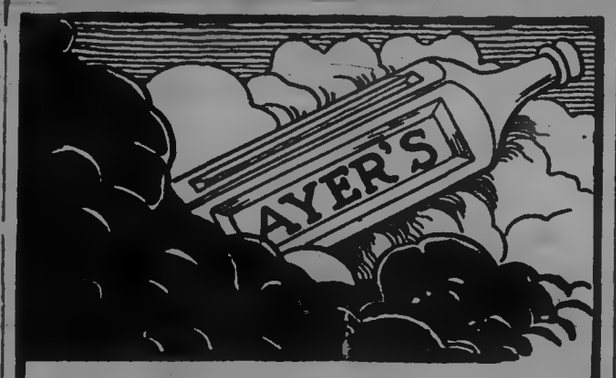
Steamship Line From Montreal Would Give it a Great Impetus

Montreal, March 7.—The steamer Mount Temple, which reached St. John, N.B., last week, brought over 40 Russian Jews. The secretary of the Baron de Hirsch Institute went to St. John to meet them. They came on direct to Montreal, and are now lodged in the Institute's shelter on St. Lawrence street.

The new arrivals, natives of Southern Russia, make up a fine-looking body of men. They are mostly young and of the artisan and agricultural classes. They will remain in Montreal or a few weeks, while the authorities at the Institute fit them out for the different parts of Canada to which they will go. Many of them have friends or relatives already here, who have obtained employment for them.

At the Institute this morning the business of dealing with the immigrants was being carried on by the committee. The men were drawn up in a long row in the corridor, each receiving his lodging ticket. One by one they were admitted to the offices where addresses are received and communications despatched to relatives and friends previously in this country.



Sixty years of experience with Ayer's Sarsaparilla! Think of that! Think of the millions of people who have been cured by this medicine!

If despondent, down-hearted, discouraged, and almost ready to give up, this splendid old family medicine will prove the silver lining to your dark and dismal cloud. Ask your doctor.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Sport and Adventure with Rod and Gun

If you like to read of the experiences of anglers, shooters and campers, or yachting; or if you are interested in country life, ask your newsdealer for "FOREST AND STREAM," or send us twenty-five cents for four weeks trial trip. A large illustrated weekly journal of shooting, fishing, natural history and yachting. A new department has to do with the Country Home and its surroundings. Terms: $4 a year, $2 for six months. We send free on request our catalogue of the best books on outdoor life and recreation.

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realize how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

We desire to call the attention at this time to the securities of

The Marconi Wireless Telegraph Company of Canada

Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allotment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalization of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £56,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This computation of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 300 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are seeking a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

Address all communications and make all checks payable to

MONDAY NIGHT'S COUNCIL

HOW SHALL STREET WATERING BE PAID FOR?

Ald. Mason and Adams Favor a General Rebate system Instead of by Frontage Tax as Last Year

Ald. Leary moved, seconded by Ald. Tovey,—That tenders be asked for all the pine on the Hilliard estate.

Ald. Hicks thought that only the pine on that portion of the property to be used this year should be sold. There is a nice grove there which may be used as a recreation ground for north end citizens.

The Council fell in line with these views, and the motion was changed to read "Tenders be asked for all the trees on the gravel ridge on the Hilliard property." The resolution then carried.

STREET WATERING.

Ald. Mason's finance report embodied a clause to pay for street watering by a general rate.

Regarding this clause, His Worship was not sure that the Council would be wise in going back to the system of paying for street watering by general tax instead of by a frontage assessment as last year, which had proved perfectly satisfactory. No complaints had been made of that system, although the public may not have been entirely satisfied with the service. He thought the fairest way was undoubtedly to make the citizens benefitted by street watering pay for it, and not the general public.

Ald. Mason replied that the committee had considered that everybody was either directly or indirectly benefitted by street watering, the cost of which distributed amongst all the ratepayers would be scarcely felt.

Ald. Adams supported Ald. Mason. He said the incentive for a street watering system was largely that of preserving the goods of merchants and household effects from being damaged by dust. The goods in the stores derive the greatest benefit, and these are, under the assessment act, exempt from taxation. Consequently in paying for this service by a frontage tax like last year, the land and buildings only of business concerns are taxed, and this means loading up the suburbs. He thought a general tax the fairest to all concerned.

This was referred to a Committee of the Whole to meet on Thursday night.

COMMUNICATIONS.

From ratepayers in the northern part of the town, including that portion of the corporation acquired from the Township of Smith, as well as ratepayers on the northern extremity of Reid and Downie streets, and the western extremity of Smith street, pointing out that they were practically without any fire protection and street lighting, and asking that these deficiencies be adequately provided for; also that proper sidewalks be built—Fire, Water and Light Com.

From merchants and ratepayers, submitting that the granting of licenses to pedlars enabling them to call from door to door is a grave injustice to merchants who are paying large amounts for taxes upon store properties and stocks, and thus helping to build up the town.

build up the town. The amount of revenue derived from licenses was also small, and the merchants asked that the necessary action be taken to remove the evils complained of—License Com.

From H. C. Winch calling attention to the fact that for some time the town has been using the lot, belonging to the Chamberlaine estate, east of the National Hotel, as a dumping ground for snow, etc., in consideration for which he asked that the taxes for said lot be remitted.—Received.

Tax Collector W. J. Green's monthly report shows the amount of taxes collected in February to have been $605.03, leaving a balance of $2,807.72 still to collect.—On motion of Ald. Adams, seconded by Ald. Tovey, the collector will be instructed to have the roll returned by April 1st.

From R. M. Dennistoun, Paymaster of the 57th Regiment, asking that the grant of $100 made by 1904's Council to the Regiment to assist in entertaining the Governor-General's Foot-Guards, be paid. As the money was not drawn in 1904, the Treasurer cannot issue a cheque for the amount without authority from this year's Council—The Treasurer was authorized to pay this amount.

From the Warren Bituminous Paving Company, of Toronto, asking that the Council investigate the merits of their Bitulithic pavement for sidewalks. This pavement was awarded the gold medal at St. Louis in competition with all other pavements.—Board of Works.

A circular was received from the Climax Road Machine Company, Hamilton, setting forth the merits of this company's concrete moulds and all kinds of road machinery—Board of Works.

From E. W. Argue, asking the town to open up the sewer at least half way between Downie and Reid streets so as to drain the new school houses to be erected on the Nicholls estate, bounded by Brock, Reid and Downie streets—On a petition for this extension being forwarded and found sufficiently signed, the town will take this matter up.

A SKIN THAT BURNS with eczema, and is covered with eruptions that discharge a thin fluid, may be made smooth and sightly with Weaver's Cerate. But this external remedy should be used in conjunction with Weaver's Syrup.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1893.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Sport and Adventure with Rod and Gun

If you like to read of the experiences of anglers, shooters and campers, or yachting; or if you are interested in country life, ask your newsdealer for "FOREST AND STREAM," or send us twenty-five cents for four weeks trial trip. EVERYBODY READS THE TIMES

ALEXANDER MUNROE AND GEORGE H. MUNROE

Take this opportunity to thank their many friends and clients throughout Canada for the confidence and friendship displayed in the thousands of letters and telegrams which have been received, congratulating them upon the happy culmination of their difficulties, and their resumption of business.

So many letters and telegrams have been received by us, and so many visitors have called at our offices, that it has been impossible for us to personally acknowledge the courtesy by an individual letter to each.

It has been borne in upon us that we did not realise how many friends we had made throughout Canada and America until circumstances tended to draw out these unsolicited expressions of confidence and esteem. It is one of the compensations for the great sacrifices we have made in order to maintain our credit that the public has so readily responded with expressions of good-will. There is a reason for this which we are not too modest to thoroughly understand. No one who has transacted any business with us has had occasion to regret it. Every client who has entrusted any of his money with us for investment has been well repaid, and the circumstances of our suspension were such as in no way involved any of our clients, but affected only Wall Street brokers. These have all been satisfied, and we are now in a position to devote our energies solely to the interests of our clients and friends.

We desire to call the attention at this time to the securities of

The Marconi Wireless Telegraph Company of Canada Limited

The shares of this company are offered for public subscription in blocks of from one share to two hundred shares at $5 each. This price will soon advance, and those who desire to avail themselves of a profit thus insured must make their applications early in order to secure a fair allotment. The demand for Marconi securities has not ceased at any time during the difficulties above mentioned, but applications for their purchase have been received daily, and are now being filled by us. The developments of the past two months in this system have been constantly tending toward the increase of earning capacity, and new stations are in course of construction or are planned in conformity with contracts entered into with the company by the Dominion Government. The great advantages conferred upon the shipping of Canada by the early installation of stations along the Atlantic and Pacific coasts must be manifest to every one. The Dominion Government has laid itself under heavy tribute to the Marconi Company for the installation and maintenance of these stations, which will insure an income that will be greatly added to by the ordinary business messages of the public.

The English Company, in its annual report, recently issued to its stockholders, shows a net revenue of 41-2 per cent. on the total capitalization of that company, and in our opinion it is only a matter of a short time until the Canadian Company will equal the record.

Mr. Marconi will depart for America on the 18th of March, and during his stay in Canada will install new apparatus in the Glace Bay station, which will enable the company to open communication with England, through the medium of the station at Poldhu, in Cornwall. The directors of the English Company have announced this as a positive certainty in their annual report, and have stated that a revenue of over £56,000 is assured by the establishment of this service. This estimated revenue will be increased by every addition to the number of stations. This computation of the earnings is based upon the transmission of only 9,000 words per day, and a rate of sixpence per word, whereas the rate at which the cable companies are now operating is 25 cents per word. It follows as a natural conclusion that if a rate of a sixpence per word is established by the Marconi Company the estimate of the number of words to be transmitted daily is a very decided minimum, and that under ordinary commercial pressure four to ten times that number will be offered.

By the opening of these stations Canada will for the first time in its history have a direct medium of communication with the mother country. Press and public alike will hail this innovation with the greatest satisfaction.

Through the report of the English Company it is learned that there are now 75 passenger steamships equipped with the Marconi apparatus. To this number will probably be added the steamers of the Empress Line plying between Vancouver and the Orient. There are now over 200 vessels in all parts of the world equipped with the Marconi system, and the time is not far distant when all manner of sea-going craft will adopt it as a necessity of navigation.

The above cited facts make the Marconi investment the safest and most profitable ever offered to the public, and we do not hesitate to advise the immediate purchase of these shares by all who are making a sure means of increasing their wealth.

We will send full information to all who may require. We would advise readers of the above not to delay their applications, but to forward their remittance at once to us, for as many shares as they can buy at the present rate of $5 each.

Address all communications and make all checks payable to

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elandsfontein South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 75 ton smelter, with ten stamp mills, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity ore house, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when to be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

LEGAL AUTHORITY TO BE CONSULTED

Orangemen Will Secure a Pronouncement

PLEDGES TO BE SOUGHT

Members of Parliament Irrespective of Bias to be Approached—Committee Formed to Approach other Bodies.

Toronto, March 6.—At a conference of prominent Ontario Orangemen with Dr. Sproule Saturday the initial steps were taken to inaugurate a provincial campaign against the school clauses of the autonomy bill. It was suggested that a central organization should be formed comprising all those who are willing to co-operate in the movement, and through that medium arrange for public meetings in every constituency in the Province. A committee was appointed to interview the chairmen of other bodies and endeavor to unite for that purpose, to arrange meetings of protest and to secure signatures to a petition against the obnoxious clauses of the bill. Efforts will be made to secure pledges from all members of the House of Commons, Liberals and Conservatives alike, with the object of securing the withdrawal of the clauses.

Dr. T. S. Sproule, the Grand Master of the Grand Lodge of British North America, was authorized to obtain the highest constitutional opinion in Canada as to the legality of the school clauses, and funds were reported for whatever purpose the Grand Master considers wise in making the fight against the bill. If possible the old Equal Rights Association is to be revived so that the proposals can be fought throughout the Dominion free from party bias.

Among those present were Mr. W. J. Parkhill, of Midland, Grand Treasurer; Mr. William Lockhart, Alliston, Grand Secretary; Mr. Fred Dane, County Master; Mr. John McMillan, Past Grand Master of Ontario West; Mr. W. Lee, Grand Secretary, Ontario West, and others.

MARCH CANADIAN MAGAZINE

For interesting illustrations and variety of contents, the March Canadian Magazine is noteworthy. The beautifully tinted pictures of the Russo-Japanese War show considerable care on the part of the publishers and set a high standard for Canadian printers. The article on the Cornwall Canal Lighting Contract should attract considerable attention. The case is well stated, from a purely business standpoint, while the illustrations add to the illuminating statements. Frederick Hamilton's sketch of Professor Robertson will no doubt be widely read, for it is well done. The article on "Agricultural Progress in Quebec," with its striking portraits of families of thirteen and sixteen children, is pleasing as well as informing. It may surprise the average reader to learn of the magnificent development which has recently taken place in a province which is often unfairly said to lack the progressive spirit. Alan C. Thompson, a brother of Seton Thompson, writes on "The Taxation of Franchises." Douglas Kerr has a message for the public in his "Future Calls Upon the Empire." Albert R. Carman deals with the universal practice of "Tipping." The stories are five in number, the authors being W. Victor Cook, H. M. Johnston, Mary Stewart Durie, James W. Falconer and Eric Hoke. The frontispiece, "To The Memory of Brave Men," presents a famous incident in the Metabele wars.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $84,500, besides several thousand dollars in dividends. One Hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $100,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

THE ONTARIO ACCIDENT INSURANCE COMPANY

NINTH ANNUAL REPORT

Submitted to the Shareholders at the Annual General Meeting Held at the Company's Offices, 61 65 Adelaide Street East, on Monday, the 20th day of February, 1905, at 12 o'clock noon.

The Directors have pleasure in presenting to the Shareholders the Company's Ninth Annual Report for the year ending December 31st, 1904, together with the balance sheet and revenue account, and the attention of all interested in the Company's affairs is again directed to its continued satisfactory progress.

The net income from Premiums, after deducting $7,420.31 for re-insurance, was $216,417.26.

The interest upon investments amounted to $2,017.45.

During the year the Company paid under its policies 1,824 claims; the total, after deducting $8,157.60 received from reinsuring companies, amounted to $104,591.69.

The Revenue Account submitted herewith, after debiting all charges and expenses, shows a balance of $24,169.70. This has been applied as follows: $10,000.00 to Reserve Fund, $10,000.00 to Contingency Account, $3,250.95 in payment of Dividend No. 7, leaving $929.75 unappropriated.

The Reserve Fund has been raised to $55,500.00, the Contingency Fund standing at $10,000.00.

During the year authority was obtained from the Dominion Parliament to enable the Company to insure personal property, other than plate or glass, against accidental damage, and in relation thereto the paid-up capital has been increased to $50,070.00, and the deposit with the Receiver-General at Ottawa to $42,222.00.

The Premium Income shows an increase over that of 1903 of $45,051.54.

All of which is respectfully submitted.

LARRATT W. SMITH,
President.

Proceedings of the Ninth Annual General Meeting

The Ninth Annual General Meeting of the Shareholders was held at the Company's Offices, Nos. 61-65 Adelaide Street East, Toronto, on Monday, the 20th of February, 1905, at 12 o'clock, noon.

The following Shareholders were present:—Dr. Larratt W. Smith, E. C. Bourchier, W. H. Pearson, Wm. Davies, W. H. Cross, D. Miller, R. Greer, J. N. Shenstone, A. W. Thomas, A. L. Eastmure, G. H. Munts, G. W. Monk, E. T. Lightbourn, J. F. Smith, F. J. Lightbourn, and 45 Shareholders represented by proxy.

The chair was occupied by the President, Dr. Larratt W. Smith, and Mr. F. J. Lightbourn, the Secretary, acted as Secretary of the meeting.

The notice calling the meeting having been read by the Secretary, the President submitted the Report, together with Financial Statements, and said:

PRESIDENT'S REMARKS

Gentlemen:

I have much pleasure in submitting the Ninth Annual Report, and in congratulating the Shareholders upon the gratifying proofs which the figures give of the Company's continued satisfactory progress.

On policies issued and renewed during the year the net premiums, as will be seen more fully from the statements submitted, amounted, after all owing for rebates, to $223,837.57, as against $178,786.03 in 1903, which year also, in volume of transactions and other gains, had fairly established a record, all of which indicates that the Company is not only retaining, but is steadily enlarging the highly satisfactory position which it undoubtedly holds in public favor.

The aggregate income derived from premiums since the Company commenced business in 1896 has reached a total of $909,302.07, and during the same period payments on claims amounting to $401,916.30 were distributed among 3,567 beneficiaries.

As illustrating the rate of progress, and incidentally the confidence of the insuring public in the Company's stability and methods, it will be observed that during the the past two years the increase in its income from premiums has averaged nearly $1,000 per week.

During 1904, claims under the Company's policies were received from 1,824 persons, representing in the aggregate a total of $107,751.78, all of which were satisfactorily adjusted and promptly settled.

It will be observed that the Reserve, which in our last report was raised to $45,500.00, has been still further increased, and now stands at $55,500.00, whilst the Contingency Fund remains the same at $10,000.00.

The Company's assets, as shown by the statements laid before you, stood on 31st December last at $119,892.01, being an advance of $16,466.30 over the year preceding.

The greater portion of our surplus has again, as in previous years, been carried to Reserve, your Directors holding to the policy, which has been observed since the inception of the Company, of steadily increasing this fund. The Directors have, however, while not departing from that principle, felt themselves justified in again increasing the Shareholders' dividend, which has been advanced from 6 per cent. to 7 per cent. for the year 1904.

It will be observed that a further amendment to the Act of Incorporation was obtained from the Dominion Parliament during 1904, enabling the Company to make contracts insuring the owner of personal property, (other than plate or other glass) against accidental damage or loss, partial or total, to such property, and whether in situ or transit, arising from any cause whatsoever, excepting loss directly or indirectly, occasioned by fire or by the perils of navigation, and in view of these enlarged powers the paid-up capital has been increased to $50,000.00, necessitating a further deposit of $10,000, which has been made with the Receiver-General at Ottawa.

The "Ontario Accident" was the first Company chartered by the Dominion Parliament to transact the business of Steam Boiler Insurance, and for some years it was the only Home Office operating that branch. It is now the first and only Company specially empowered by Dominion Act to insure against damage of loss to property, and it is anticipated that a satisfactory business in this direction will result.

I cannot close my remarks without alluding to the value of the services rendered by our Vice-President and Managing Director, Mr. Eastmure, and Secretary, Mr. Lightbourn, without which the results shown today could hardly have been realized. Also to the efficiency, energy, and loyalty displayed by the Company's General District and Resident Agents in every part of the Dominion, as well as by our Head and Branch Office Staffs, to whose efforts the successful progress made has been so largely due.

I beg to move, seconded by the Vice-President,

"That the Ninth Annual Report, now submitted, be adopted, and that the same, together with the Financial Statements read herewith, be printed, and a copy thereof forwarded to each of the Shareholders."

But before the vote is taken, I shall be happy to give any information or answer any questions upon the statements laid before you.

VICE-PRESIDENT'S REMARKS

Mr. A. L. Eastmure, the Vice-President, in seconding the motion for the adoption of the report, referred to the absence of their President, Dr. Larratt W. Smith, and also of Mr. J. Herbert Mason and Mr. W. H. Pearson from last year's annual meeting, through indisposition, and expressed gratification that all of these gentlemen were again to the fore.

The report which had been read was a very satisfactory one, and he had pleasure in seconding the motion for its adoption. The growth of the Company's business had been rapid. As illustrating this, they had issued or renewed during 1904, 8,225 policies for insurance, aggregating $15,614,900, as against 6,580 in 1903, for $10,930,500, which year, as the President had remarked, had itself established a record. The steady advance could fairly be attributed to their endeavor to keep abreast of the times. The Company's transactions might be divided into five groups, viz.: Personal Accident, Liability, Workmen's Collective, Sickness and Property damage.

In Personal Accident insurances all approved forms were issued, including a number of original plans, each popular in its special field.

The Liability branch was also completely equipped, all classes of work and indeed every known hazard being provided for. It was gratifying to be able to state that, although the "Ontario Accident" had for years transacted one of the largest businesses in this branch of underwriting in the Dominion, the Company had never been called upon to contest a claim at law with a policy-holder.

Considerable progress had also been made during the year in extending the principle of Workmen's collective insurance, in combination with the customary insurance against liability on the score of negligence, a branch of underwriting to which special legislation in Germany, England, and, lately, British Columbia (dealing with factory and other industrial accidents), had given increased impetus.

Insurance against disability occasioned by sickness was still in an experimental stage, but there was an active and increasing demand for this form of protection. The business was becoming greater in volume, and with every probability that insurance against sickness must now be regarded as a permanent institution, satisfactory results might, with conservative underwriting, be ultimately looked for from its working. During 1904 our premiums from this source slightly exceeded $25,000, and the benefits disbursed to policyholders amounted to $10,842.14, 230 persons receiving compensation.

That "accidents will happen" is as true in respect of personal property as of individuals, but up to the present time no provision had existed in Canada for insurance against loss arising from the first named cause. The "Ontario Accident" had again led the way in obtaining Government authority to effect insurances upon personal property whereby accidental damage to such property could be made good, thereby continuing the Company's policy of endeavoring to supply what the people want and further extending its sphere of usefulness. He anticipated a satisfactory amount of business from the new branch.

Perhaps no greater tribute to the growing importance of casualty underwriting need be looked for than was furnished by the personnel and work of the International Association of Accident Underwriters, the National Insurance Information Bureau, the Accident Underwriters' Association of Canada, the National Board of Casualty Underwriters, the Detroit Conference, and other kindred organizations, all of which collectively, and aided by executive and special committees, were actively engaged in reducing the numerous details, inseparable from a business having such a multiplicity of hazards, to conditions of order and uniformity. The subjects dealt with covered a wide range, and indeed might be said to embrace the entire casualty curriculum. Much benefit would undoubtedly result from their labors.

The Directors, and indeed the entire Staff, had occasion to regret the loss by death last year of an old and valued representative of the Company, Mr. E. H. Butterfield, of Montreal.

In closing, Mr. Eastmure heartily endorsed the President's remarks, testifying to the capacity and energetic attention so visible in the conduct of the Company's affairs in both office and field.

Appreciate remarks on the satisfactory results from the year's workings, and the substantial advance so apparent in all branches of the Company's business, were made by Mr. W. H. Pearson, Mr. G. W. Monk, Mr. A. W. Thomas and others.

The Report was adopted unanimously, after which it was moved by Mr. W. H. Pearson, seconded by Mr. G. W. Monk, and carried:

"That the thanks of the Shareholders are justly due to the Company's General and District Agents in the several provinces for the zeal and efficiency displayed by them in their several departments during the year."

On motion, Messrs. Clarkson and Cross were reappointed auditors for the ensuing year.

Mr. A. W. Thomas and Mr. E. T. Lightbourn, having been appointed scrutineers, reported the following gentlemen elected as Directors, Larratt W. Smith, A. L. Eastmure, W. H. Pearson, J. Herbert Mason, J. N. Shenstone, F. J. Lightbourn, Thomas Fyshe (Montreal), J. F. Smith, K.C., and G. W. Monk.

After the customary vote of thanks to the President, Vice-President, Secretary, and officials in the office, the meeting adjourned.

At a meeting of the Directors held immediately after the Annual Meeting, Dr. Larratt W. Smith was re-elected President and Mr. A. L. Eastmure, Vice-President of the Company.

Executive Committee—Messrs. Larratt W. Smith, A. L. Eastmure, and W. H. Pearson.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Catarrh Leads to Consumption

The Experience of a Lady in Sydney Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was a cold, just a single cold," writes Mrs. A. V. Thurburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use Catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning, but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of saving my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing colds to develop. To neglect catarrh is even worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally. It prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by all intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months' treatment guaranteed to cure. Price $1.00, trial size 25c., at druggists or N. C. Polson & Co., Kingston, Ont. Refuse a substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

WHY?
Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.
Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.
NOW IS THE TIME TO ENTER
If you cannot attend our School write for particulars regarding our [illegible] courses.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—To-day is Ash Wednesday and Lent has begun.

—The Board of Trade held their annual meeting last night. For particulars see other columns.

—Hockey tickets were at a decided premium yesterday afternoon, many being sold as high as $2 each.

—Yesterday was Shrove Tuesday, a day inseparably connected in the small boys' mind with the nightmare breeding pancakes.

—Yesterday evening George street was quite enlivened by the visiting crowds, most of whom, patriotically sported bunches of club ribbons.

—Before the clock struck seven last night there were, on a conservative estimate, six hundred people awaiting in front of the Brock street rink for the doors to open.

—Remember the concert to be given in St. Paul's next Monday evening under the auspices of the Young People's Society. An excellent program is provided.

—Third Pop. at the Y.M.C.A. next Saturday. Mr. J. Hampden Burnham will deliver a lecture on "Wit and Humor." Miss Helen Davies will sing and Mrs. Torrance will give a piano solo. All are welcome.

—Remember the concert in St. Paul's next Monday evening under the auspices of the Young People's Society. The program will be exceptionally entertaining.

—A full attendance of the members of the choir of George street church is asked for to-morrow evening at eight o'clock sharp, when Prof. Glidden will take charge of the practice for that evening.

—There were ten special constables on duty at the big hockey match in the Brock street rink yesterday evening. Mr. Archie Moore was in charge and looked after the seating accommodation. The supporters of Smith's Falls occupied the southeastern part of the rink and those of the Marlboros the south-western.

A SKIN THAT BURNS with eczema, and is covered with eruptions that discharge a thin fluid, may be made smooth and sightly with Weaver's Cerate. But this external remedy should be used in conjunction with Weaver's Syrup.

—The Light and Power Company have a gang of men at work at the corner of Brock and George streets trying to locate the gas leaking at that point. This escape of gas has given trouble for some months; the management are determined to stop this nuisance, and see that the gas goes through its proper channels to their customers' meters.

$100 REWARD, $100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address, F. J. CHENEY & Co., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

LECTURE ON RUSSIA

The Board of Trade will attend the lecture on Russia, to be given by Mr. J. D. Allan, President of Toronto Board of Trade, in St. John's school house, Friday evening. A large attendance should be present.

Last Lyons at the Opera House

Last night there was not as large an audience at the opera house, as the merits of the play deserved; this was of course due to the heavy handicap at the rink, which took nearly all the younger people. Mr. H. Wilmot Young, as Archibald Carlisle, and Miss Marjie Adams, as Isabel, and Madame de Vine, sustained the reputation that Peterborough now accords them. For to-night's bill see advertising columns.

Personal and Social
Movements of the people in and out of town . . . .

—Mr. E. Weller, of Toronto, is in town for a few days.

—Mr. Roberts, of Port Hope, is spending a few days in town.

—Miss Aggie Doris, of Keene, is visiting Miss Hanrahan, Bolivar St.

—Mr. Robert Kirkpatrick, Cobourg, was in town yesterday for the hockey match.

—Mr. M. Mahoney, of Toronto, is in town the guest of Mr. and Mrs. B. A. Dutton.

—Mrs. Reid, of Prescott, who has been visiting Mrs. K. Eardley-Wilmot left Monday for Toronto.

—Miss Eileen Fair, who has been visiting in Millbrook for the past few weeks, returned home Monday night.

—Mr. A. L. Dixon, of Maple Creek, Assa., is in town on a visit to his uncle, Mr. A. E. Dixon, for a few days.

—Mr. James Kendry, who has been confined to his home for some time is convalescent.

—Mr. Fred C. Waghorne, the well-known referee in hockey and lacrosse games, and Mr. Ed. Elliott, of Kingston, also a referee, of more than local repute, in baseball, and catcher of the Kingston team, were in town yesterday, attending last night's game.

Lindsay Post: Mr. Percy McLean, formerly of Lindsay, but now of the George Matthews Company, Peterborough, was in town to-day on business. Mr. James J. Dorris, of Peterborough, was in town Saturday.

—Ottawa Free Press: Mrs. F. Cockburn Clemow entertained at a bright and enjoyable "progressive bridge" party on Saturday afternoon, in honor of her guest, Miss Landy, of Peterborough. The prizes were won by Mrs. Worthington and Mrs. Frank Macdonald, of Toronto.

ATHLETIC WORLD
BY OUR SPORTING EDITOR

Rat Portage defeated Ottawa in the first game of the series for the Stanley Cup by 6—3.

* * * *

The Marlboro—Smiths Falls hockey game last night in the Brock street rink resulted in a victory for the Marlboros by a score of 9—3.

QUEEN ALEXANDRA
The Sweetness and Charity of England's Queen

Queen Alexandra, whom Dean Stanley termed "the angel in the palace," has for over forty years endeared herself to the hearts of the British people since 1863, when a girl of nineteen in her quaint, little, old-fashioned poplin frock and shawl, she landed at Gravesend as the bride of the Prince of Wales.

Her early life was passed in extreme plainness and simplicity, because of the smallness of the family income. When she was born, her father, then Prince Christian, had no hope of ever being King of Denmark, for his relation to the reigning king was so distant. He had nothing but his military pay and his wife's modest dowry. The life in their home, the Yellow Palace at Copenhagen, was pretentious only in name. The daughters, Alexandra and Dagmar, who became Empress of Russia, wore garments of cheap material cut in the plainest style.

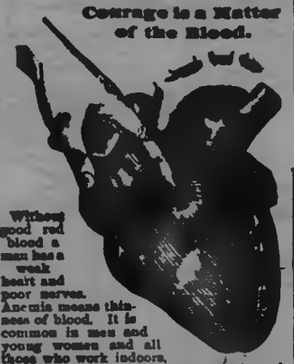
When Alexandra was seventeen, the Prince of Wales, while speaking to one of his friends, jestingly asked to see the portrait of his sweetheart. Inadvertently the wrong picture was handed to the Prince, and instead of the face of his friend's fiancée, he saw the likeness of "the most beautiful woman in Europe." The future king of England promptly fell in love with the portrait which led to his marriage two years later.

The simplicity of her early years has ever clung to the Queen; though in the court she has not been of it, and for society she has cared little. Her home circle has been her throne, where she has reigned with sweetness and love. Her kindness, gentleness, tact and generosity have been always at the call of need, and since she went to England has been instrumental in raising or causing to be raised over $250,000,000 for charity.

In one of King Christian's weekly letters to her, he wrote that an elderly lady-in-waiting to the late Queen of Denmark was dying, and that her one wish was to speak again to her dear "Princess Alex." At that time it was impossible for Alexandra to leave England, but a long tender message of love and hope spoken by her into a phonograph, was sent by special courier to Copenhagen. Its arrival a short time before the aged lady's death made her last hours serenely happy.

At Sandringham she led the life of a country lady; finding her pleasure in her children, the house, the grounds, her pets, and in ministering acts of mercy. Serene, gracious and beautiful, her life has been quiet, though with a [illegible] of [illegible] [illegible] [illegible] days of [illegible] [illegible] happiness.

Courage is a Matter of the Blood.



Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which the victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics. Dr. Pierce's Pleasant Pellets are the best liver pills.

THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale. During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 62 — PETERBOROUGH ONTARIO, THURSDAY MARCH 9 1905. — PRICE TWO CENTS

RUSSIANS IN FULL RETREAT HARD PRESSED BY JAPS

Main Army Under Kouropatkin Forced to Abandon Fortifications on the Shakhe and Flee.

St. Petersburg, March 9.—The Associated Press is now in a position positively to deny the current rumors that General Kuropatkin's lines of communication have been cut. Within an hour a cipher despatch from Kuropatkin to Emperor Nicholas, containing a report of the day's operations, has arrived, and is now being transmitted to Tsarskoe Selo. Its contents are unknown, except that Kuropatkin at night fall still held Mukden.

The Associated Press hears from a high source that the position of the Russian left is critical.

Compelled by the failure of Generals Oku and Nogi to crush the Russian right yesterday. Field Marshal Oyama again transferred the weight to his right, and General Kuroki succeeded in driving in a wedge between General Linevitch's main army and General Rennenkampff's corps, which is the extreme left. The latter is declared to be in grave danger of being cut off and surrounded.

JAPS CAPTURE MACHUNTAN

Tokio, March 9.—The Japanese captured Machuntan, south-west of Mukden, at eight o'clock this morning.

The following despatch has just been received from the headquarters of the Japanese army in Manchuria;

"Our force which has been engaging a superior force of the enemy in the neighborhood of Machuntan south-east of Mukden, dislodged the enemy from his positions at eight o'clock this morning, and is now pursuing him northward."

RUSSIANS IN FULL RETREAT

General Kuroki's Headquarters in the field, via Fusan, March 9, — The Russians last night, under cover of darkness, evacuated the whole line along the Shakhe River, and are now in full retreat northward. The Japanese infantry is pressing them closely.

Before retreating the Russians set fire to great heaps of supplies, which burned throughout the night.

The fall of Mukden appears imminent

The Japanese are pushing the Russians hard on the east.

BALTIC FLEET IS RETURNING?

Paris, March 9.—A despatch to the Temps from Tananarivo, capital of the Island of Madagascar, says the entire Russian fleet has left the water of Madagascar on its return to Jibutil, French Somaliland.

BUILD INTO THE CLOUDS

A Structure Which Will be 125 Storeys High

COST FIFTEEN MILLIONS

With Fifty-two Miles of Hall Space Through the Great Building

New York, March. 9. — The Ohio Architect and Builder gives a description of a 125-storey sky scraper which an architect has designed for New York. To erect the building, it would cost $15,000,000 and five years' steady labor.

Because of the immensity of this building, the plans call for features, each of which is much out of the ordinary. There are forty immense elevators, which, instead of running straight up and down, travel on tracks on inclined planes. They are more like aerial railways than elevators, and altogether there are fifty miles of these aerial elevators in the structure. Some run only to the fifteenth floor, others to the twenty-fifth floor, and the rest to the very top, where they reach an elevation of more than a quarter of a mile.

In the professor's plans there are only fifty-five main storeys. The five lower storeys are very high, ranging from 50 to 150 feet each, to accommodate large auditoriums and halls. Surrounding these on all sides will be galleries, mezzanine floors and half storeys, which will make up a grand total of 125 storeys.

The first storey, with its grand staircase, will rise to a height of 100 feet. This storey will be given to a great rotunda, corridors, elevator entrances and staircases leading to the big auditorium above. In the second storey will be located the immense auditorium, rising to the height of 150 feet. This has six balconies and a seating capacity of 25,000. Four other storeys above these contain large halls in the middle, surrounded by anti-rooms, reception rooms and offices. The auditoriums are planned to be used for public purposes, meetings of all kinds of civic societies. The storeys mentioned will reach an aggregate height of 700 feet.

Above the 700 foot level and extending to 1400 feet are thirty-five storeys, each 20 feet high, for municipal and civic offices. This section will be made into seventy storeys by mezzanine floors. From the 1400 foot line the building tapers to a pointed tower.

In this tower will be five storeys, of 10 feet each, to be occupied by the United States weather bureau. Rising 50 feet above the top will extend a large beacon or searchlight, which, when in operation, can be seen for a distance more than 100 miles.

The plans call for 1500 rooms and 7500 windows are to furnish light. It is safe to assume that the majority of these windows would be so far above the street that they would look like mere loop-holes. The floor space of this structure would be 8,400,000 square feet. It is estimated that if such a structure should be erected and a person was to traverse all the corridors and staircases, he would travel a distance of 52 miles, and it would take him the whole of two days. The dimensions call for a building 700 feet square, and to erect it would necessitate the use of sixteen city blocks.

The amount of material which would be required to build this great structure—stone, iron and other materials—it is estimated would weigh fully 2,000,000 tons, to carry which would require 100,000 freight cars. These cars would stretch in an unbroken line for 800 miles, almost from New York to Chicago. If the cars were broken up into trains, and run as close together as permitted, the trains would reach from Boston to San Francisco. The volume of material that would be used in the construction of the building would be 22,101,000 cubic feet. It would exert a pressure of forty tons to the square on the base, without the added amount of wind pressure. It estimated that the foundation would have to extend a distance of 100 feet into the ground, a distance greater than thousands of office buildings rise above mother earth.

BARS RELIGIOUS PARADES

Latest Addition to French Bill Separating Church and State

Paris, March 8.—The Council of Ministers has decided to accept the proposed change in the bill providing for the Separation of Church and State whereby religious processions will be strictly prohibited.

It has been decided not to accept the proposition whereby pensions accorded to the aged clergy were to be cut off after the separation.

OBITUARY

Death of Mr. Thomas Bridgewater, an Old and Esteemed Citizen

The older generation of Peterborough, are missing one by one the well-known features of old friends and acquaintances. After a lingering illness, Mr. Thomas Bridgewater died on Tuesday evening, at his home on Haslett street, Ward Five. Mr. Bridgewater has been a well-known, and highly respected citizen of Peterborough thirty-six years. He was born in Oxford, England, 67 years ago. Twenty-five years later he was married to Miss Anne Pharaoh and death now comes to create a severance in the happy union then formed. Mr. Bridgewater followed the trade of a joiner in the old country, and on coming to this country he assisted to build many of the present large structures now standing. He was foreman in the construction of the George street Methodist church and filled many other responsible positions.

He leaves to mourn his loss, his widow and two sons. These are Mr. Harry Bridgewater, who is in the same business in Orillia and Mr. Alex. Bridgewater of the Dominion Bridge Works, Montreal. One brother, John, and a sister, Mrs. Adams, reside in Oxford, England.

Mr. Bridgewater was an esteemed member of the Lansdowne Lodge, Sons of England, in politics a Conservative, and he attended St. Luke's Anglican church.

The funeral will take place this afternoon from the family residence, Haslett street, Peterborough east at 2.30 o'clock to Little Lake Cemetery.

SUIT FOR SLANDER

Mrs. J. G. Macklin sues Mr. Benjamin Farrell for $500 Damages

By the Montreal Sunday Sun of March 5th, we learn that Mrs J. G. Macklin, a lady well known, and respected here, has entered an action for slander against Benjamin Farrell, churchwarden at Chambly, Que. Both parties are well known in Anglican church circles in Montreal, and the church members are very much agitated over this legal dispute, whilst the Methodists there are incidentally affected. In his defence, Mr. Farrell claims inter alia, that the complaintant has composed and circulated injurious doggerel verses about him, and capped the climax, by referring to him as a "Methodist," hence the introduction of that sect on the scene. Messrs. Barnard and Desaulles are attorneys for the complaintant, and Messrs. Claxton and Ker for the defendant. The main contention of Mrs. Macklin is that on a certain Sunday in August last, when she tried, with friends accompanying her, to enter her pew in church, the Warden, in front of the whole congregation, disputed her right to it as the rent had not been paid, threatening to forcibly eject her, and using insulting language, in fact Mr. Farrell turned to the congregation, and told them Mrs. Macklem had not paid her rent for some time.

In rebuttal, Mr. Farrell says that, on the first of May, 1904 plaintiffs were in arrears for pew rent for the half year beginning May, 1903, and November 1903, to wit, $12, and a third term would then have become due, and that payment, although frequently asked for, had been neglected, and that Mrs. Macklen wrote the rector informing him she had given up the pew. Further, that Mr. and Mrs. Macklen had not attended the church for some time, and that, although knowing that her pew was let to some one else, she had come expressly to cause annoyance to the lawful tenants of the pew. That he had argued with Mrs. Macklen and offered her seats elsewhere, but that she insisted on keeping possession of the old pew.

The defendant further says that if the court should award any damage to the plaintiff he would bring a contra action for slander, as she had called him a "Methodist" in the presence of witnesses.

The Rev. Dr. Griffith, of the Douglas Methodist church, in commenting on the matter, said to a reporter that in the epithet "Methodist," she had paid him one of the highest compliments possible.

National Banquet

An interesting entertainment, and one that will appeal to the public both from its novelty and the good cause promoting it will be the National Banquet, to be held by the Ladies' Aid of Murray street Baptist church on March 9th. Supper will be served at 7 o'clock. Admission 25c

NO PICTURES OF MARTIN HANGING

Law Forbids Illustrations in Papers and Requires Brief Formal Accounts

ATTENDANCE WAS SLIM

Sheriff Mowat Arranging for the Execution Which is to be Held on Friday Morning

Toronto, March 9.—When Alexander Martin, the murder of his child, goes to the scaffold in the yard of Toronto jail at 8 o'clock tomorrow morning, there will probably be fewer spectators present than has been the custom at previous events of this somber character.

Hitherto Sheriff Mowat has exercised his discretion in regard to the admission of spectators, but recent amendments to the statute fix on jail officers, inspectors, justices of the peace, a clergyman, and such relatives of the prisoner to be executed as may be proper to admit, as those who may be admitted. A representative of each newspaper published in the city or county in which the execution is to take place is to be admitted, if the sheriff gives his written consent, but the statute expressly states that no kodak or telegraphic instrument shall be admitted to the yard. The law also stipulates that any account of the execution which may be published in any paper must be merely a brief statement of the facts, without enlargement or illustration.

It is rather a curious circumstance that executions are almost invariably fixed for Fridays. Is it superstition on the part of the authorities? Nobody seems to know the reason. The custom has been created by long usage.

The last execution in Toronto was that of Fred Lee Rice on Friday, July 18, 1902, and the one previous to that was of Henry Williams, on April 13, 1900. An execution was once fixed for Good Friday, the judge not noticing at the time of the sentence, that the date would fall on that day, but when the time drew near, an arrangement was made whereby the hanging was postponed for a day or two.

Sheriff Widdifield remarked this morning that he was the only sheriff in the Province of Ontario who could not be called upon to conduct a hanging if a man were sentenced to be executed in his county. This is accounted for by the fact that Mr. Widdifield is Sheriff of the County of York, and Mr. Fred Mowat is City Sheriff. The latter is in attendance on the High Court of Assizes, and it falls to his lot to execute any sentences of death imposed by that court.

GRAND DUKES NOW FOR PEACE

If One Victory, Only, Could be Won, Russia Would Gladly Quit

A DIFFICULTY OVER TERMS

The Defeat of Kuropatkin Will Hasten Cecession of Hostilities

St. Petersburg, March 9.—Far more important than the matter of riots in Russia is the arrangement of terms of peace with Japan. In Russia are two great parties, led, respectively, by the grand dukes and by M. Witte. The one was the party of war, the other is the party of peace. M. Witte was removed from his position as Minister of Finance because he opposed war. Associated with him in his ideas was Count Lamsdorff, the Minister for Foreign affairs. Against them were the grand dukes, Monsieur Bezobrasoff and the general staff in Manchuria.

War followed. Witte was removed from active position in politics, the grand dukes held the reins of government. The result is to be read in fourteen lost engagements and the dissatisfaction of the people with the burden of the war.

As a consequence the grand dukes have agreed to consider the question of peace as the best means to avoid still graver dangers in the interior of the country, and have listened once more to the voice of M. Witte.

M. Witte considers peace imperative. He is prepared to grant much to the enemy if only the war be brought to a speedy termination. Unpalatable as his advice is, the grand dukes realize his importance when the support of a strong man is needed. In such times he holds the policy of Russia.

Such a time is now, and Russia is prepared to make peace with its adversary quickly if only a means to that end can be found, but so far none has been bold enough to take upon himself the odium of proposing peace until the unbroken record of defeat should have been destroyed.

Terms are matters difficult to define, but it may be accepted as the present opinion of Russia that peace would be cheaply bought at the cession of Port Arthur and southern Sakhalin, if only the nation were saved the indignity and material disadvantage of indemnity.

Japan needs peace almost as much as Russia, and it needs indemnity more. It is the duty of the peacemakers to find a "modus vivendi" between the nations, and with both countries willing, this should no longer be impossible.

CEREAL COMPANY'S LOSS

The Mill at Cedar Rapids, Iowa, Reported to be Burned

The whole talk of the town yesterday was of the great conflagration in Cedar Rapids, Iowa, whereby the Cereal Company lost not only their largest mill, but the largest oatmeal mill in the world was destroyed by fire. The mill comprises two brick and iron structures, covering two blocks. Mr. John Stuart, of Chicago, treasurer of the Cereal Company, who is in town, had not received full particulars last night, but from what he could learn, the report is somewhat exaggerated. The loss is estimated to be about one and a half millions of dollars, with insurance of one million. Two people lost their lives by the fire, Joe Hollingsworth, Parnell, Ia., the other man was unknown. Hollingsworth was blown out of the building into the street by an explosion. It is feared that several others lost their lives, but this is not definitely known. A man who was seen at a window fell back into the flames.

The fire started in the hull grinding room of one of the elevators.

Police Court

OFFICIALS

Chief of Police, G.I. Hazel
Magistrate, D.W. Dumble

The heavy old assault case of 1903, was again before the Magistrate yesterday morning. The original complaintant, a restaurant keeper, gave his evidence, as did one or two others; but nothing but what has already been mentioned in this journal was produced in evidence. The prisoner's counsel, Mr. Kerr, raised a contention that the prosecution should have had completed their case within six months after the assault. The Magistrate took the matter under consideration, enlarging the case until Saturday morning.

The case against Lebar was enlarged and will come up this morning.

A SPLENDID REPORT

The Mutual Life Assurance Company in in a Flourishing State

We congratulate the officers, directors and shareholders of the Mutual Life Assurance Company on the splendid report presented at the thirty-fifth annual meeting, held at the head office of the company, Waterloo.

The report is a most gratifying one, large gains having been made in incomes, assets and surplus.

The total new business in 1904 was 3,452 policies for $5,048,168, all of which excepting $30,000, was written in the Dominion. The statement presented in another column will serve to establish this company more firmly in the minds of those people desirous of investing in life assurance. The total assets were $8 230,530.45 and the liabilities were $7,448,457.58, leaving the net surplus over all liabilities on the valuation standard of the company at $772,072.87. The total income in 1904 was $1,725,308.90, and the balance carried over was $699 866.56. The net surplus over all liabilities on Government standard of valuation was $1,049,400.71.

Canadians have great reason to be proud of this company, which since its inception 35 years ago has steadily progressed, till it now occupies such a splendid position.

The retiring directors, Hon. Sir Wilfrid Laurier, A. Hoskin, K.C., Hon. Mr. Justice Garrow, and E. P. Clement, were unanimously re-elected, and at a subsequent meeting, Mr. Robert Melvin was elected to the presidency, Mr. Alfred Hoskin, K.C., was made first vice-president, and Hon. Mr. Justice Britton second vice-president for the ensuing year.

The company is ably represented in this district by Mr. John E. Wilcox 392 Water street.

PRESIDENT CHARLES' ADDRESS

Submitted to the Board of Trade Tuesday Night, at Their Annual Meeting

Gentlemen,—It is my pleasing duty to record another prosperous year for our town. Many new houses were erected, additions made to factories, and several miles of cement sidewalks laid by the corporation, so that apart from the factories, labor was well employed.

The Montreal Branch of the Canadian General Electric Co. was closed early in the year, and the plant and machinery established here, making a large increase in the number of hands employed and in the wages paid out. All the other manufacturing concerns were kept fully employed, except the American Cereal Company, which had to practically close down in November partly owing to the price of oats being higher here than in the United States, but more particularly to the freight rates imposed by our railways, which discriminate against all Ontario mills doing an export trade. There was a special meeting of our Board to consider this serious matter, and if negotiations which are now going on between the American Cereal Company, and the railways fail, an appeal will have to be made to the Railway Commission.

The Colonial Weaving Company commenced manufacturing last spring, and is meeting with success.

The Peterborough Shovel Company a new industry, has commenced building operations and in a few months will be turning out goods. I am sure we all wish them well.

Another new manufacturing company which is to join our list of industries, is the Peterborough Cereal Company, which has been granted a charter, and we also wish the promoters every success.

It is a regrettable but well known fact that the farmers did not realize nearly as much from their labor this past year as in the previous one and this must have been felt considerably by the merchants, but without going into the statistics which I did in my last address, I know that there was a very material increase in the amount of wages paid out by the factories, and this coupled with the large employment of outdoor labor helped to keep their business up to the level of 1903. There is an increase in the number of stores and no failures of any importance to note.

The street railway was opened for traffic in September and a good service has been maintained all winter. The patronage extended to it by the citizens in general shows that it was required, and that the Town Council's action regarding it is thus confirmed.

Although our town is in general healthy, we must look to the future, and the Council did a wise thing, in appointing an inspector of plumbing, and I think they made a good choice in their appointment, but I would like to see the Board of Health make the use of the town water, where it can be used, compulsory, and also see that all lanes and back yards are kept thoroughly clean.

A step is being made in the direction of affording better fire protection by the proposed new water mains. This I am sure is highly satisfactory to the merchants on George street, especially, as the payment of the work will come out of the water users.

And now I come to something which is of more than local interest. I refer to the matter of transportation and the development of the Trent Waterway Route. A meeting of the Royal Commission was held here on the 24th and 25th of March last. Through the joint action of the Town Council our Board delegates were sent from all the municipalities interested in the route from Midland to Belleville. Toronto and Montreal were also represented. A good deal of important evidence was taken and I think the impression made upon the Commission was favorable to the early completion of the Trent Canal via Trenton. Mr. R. R. Hall, M.P., made this one of the chief planks in his platform in his recent election campaign, and I have no doubt but that he will do his utmost with the Government to have this carried out. The Premier, (Sir Wilfrid Laurier), and the Leader of the Opposition (Mr. Borden) both pledged themselves at the public political meetings, held in the rink here, to the early completion of this work which has already cost the country about $6,000,000, and no return can be obtained until completed, and open to navigation.

No report of the Commission has yet been made public, owing perhaps to the death of the chairman, Mr. John Bertram, and I would here express my deep regret at the great loss the country has sustained in the death of such an able and honorable man, who was formerly a townsman, and member of Parliament for this riding. Such men can ill be spared, and the country is the poorer for his death.

The Hydraulic Lift Lock was formally opened by the Hon. S. L. Emmerson, Minister of Railways and Canals, on the 9th of July. A large number of Senators and members of Parliament were present, and they were all favorably impressed with the gigantic pieces of work. Mr. Emmerson, Sir William Mulock, and other prominent public men in their speeches committed themselves to the early completion of the canal, which they said was of National importance.

RUSSIAN TROOPS IN A PANIC-STRICKEN CONDITION

St. Petersburg Prepared to Hear that Kouropatkin's Retreat has Been Cut off North of Mukden.

St. Petersburg, March 9.—The despatch of the Associated Press, from its correspondent with the army of General Kuroki, announcing the withdrawal of the Russians from their positions on the Shakhe River and that the Russians were in full retreat, was the first definite news received here to the effect that the battle was ended and that General Kuropatkin was making the best of his way northward; but it did not come unexpectedly. The defeat of General Kuropatkin had been expected since Field Marshal Oyama made his brilliant stroke against the Russian right.

PANIC-STRICKEN.

To-day's reports show the Russian troops almost in a panic-stricken condition, one army corps, retiring without making practically any resistance. It is estimated that the enemy's losses were over ten thousand. The Japanese loss during the four days does not exceed four thousand.

The Russian right center near the railroad, which last heard from, retained its former position, but it may since have retired. The entire command, it is believed, will be surrounded and cut off.

Ti-Wankamtu, on the bank of the Hun, was captured last night by the Japanese, who captured large quantities of supplies and light railroad material. The Russians retreated precipitately, not taking time to carry away or destroy their stores. The Japanese have not taken any guns, but have captured many rifles and much ammunition.

DIED IN COBOURG

Mrs. William Burke, Formerly of Peterborough Passes Away

This journal would respectfully tender its sympathy to Messrs. R. J. and H. C. Winch, on the sad death Tuesday, of their sister, Mrs. Wm Burke. The deceased lady died in Cobourg, of diabetes, from which disease she has been a sufferer for many years.

Rebecca Mary Winch, wife of Mr. Wm. Burke, was a daughter of the late Richard Winch, and was born in Peterborough on July 7th, 1837, and was married 40 years ago. She leaves one daughter and two sons. Her two sisters are Mrs. R. J. Hatzer, of Royalton, Manu., and Mrs. John Grierson, of Brooklyn, N.Y.

Mr. R. J. Winch left yesterday morning for Cobourg. The remains will be brought to Peterborough for interment at a date not yet determined.

ANOTHER PROTEST

L. O. L. No. 457, Nassau, Passed a Resolution for Presentation

At the last meeting of Nassau Lodge, No. 457, the following resolution was passed:—

"Whereas the provincial legislature have the power to make laws in relation to education, subject to the right of the Federal Parliament when appealed to in a specific case, to enact remedial legislation.

"Whereas the bill creating the new provinces of Alberta and Saskatchewan proposes to make the maintenance of a Separate school system a permanent constitutional condition of these provinces, thus depriving them of their constitutional rights, and fettering their whole educational development, and whereas, in these territories whose population is composed of divers peoples, public schools in the past have proved to be the most powerful agency in creating a common Canadian life and sentiment, therefore, be it resolved that the members of Wellington Loyal Orange Lodge No. 457 respectfully protest against the proposed legislation and express the hope that the government may eliminate clause 16 of its bill and leave the determination of their educational policy to the provinces more particularly concerned.

"Be it further resolved that copies of this resolution be forwarded to Sir Wilfrid Laurier, Mr. R. L. Borden, and the members for this constituency and also to the Orange Sentinel for publication."

SHOT HIMSELF IN THEATRE

Crowded House Sees Chicago Man Commit Suicide

Chicago, March 9.—Suicide in the balcony of a crowded theatre was the method of death chosen by an unknown man, about 22 years of age, who shot and killed himself at the Chicago Opera House this afternoon while a vaudeville performance was going on. The young man shot himself in the head, and the body fell into the lap of a woman occupying an adjoining seat. She and several other women fainted, but were quickly revived.

When the sound of the shot was heard many women screamed and left their seats but ushers quieted the excitement. The orchestra struck up a lively tune and aided in averting a panic while the body was removed. The man shot himself during the singing of a song picturing scenes in a farm house, which he had applauded.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

In the first game of the finals for the intermediate championship, at Victoria Harbor last night, Berlin was defeated by a score of 7 to 4.

• • • •

Harold Armstrong, the cover-point is a product of Peterborough. This was his first season in senior company, and he made good right off the bat. His great speed and clever stick-handling make him a valuable man for the team.—Toronto Star.

• • • •

Bruce Ridpath, right wing, jumped from junior to senior this year and made good most emphatically. He is undoubtedly the find of the season. He was born in Lakefield and got an inkling of the game playing shinny on the river.—Toronto Star.

• • • •

To-morrow night in the Y.M.C.A. Hall, the annual meeting of the Quaker Football Club will be held, and the plans for the season will be formed. This team got into the semi-finals of the Midland League last year, and won the city championship, and proposes to place a team on the field this year, which will do the town credit.

• • • •

This journal has it on the best of authority that a Senior Canadian Lacrosse Association team will play here this coming summer, and that the Shamrocks of Montreal, will play an exhibition game in Peterborough. This arrangement has been consummated, so that lovers of our national game, will have an opportunity to see lacrosse as it is played by the very best. There is as good material for lacrosse in Peterborough as in any town of its size, and such an event as above mentioned, will enthuse our younger generation, in the pitch that was current when Mr. H. LaFlum, used some years ago, to cheer on his team, and with the choicest of English and French cuss words, made any one who showed signs of moderation in their efforts, come to the scratch.

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous diseases of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

MR. GUTHRIE DISCOUNTED

The opinions of Hugh Guthrie, M. P., of Guelph, are not usually important. But he happens to be an Ontario member of the Dominion Parliament, and his opinion on the Western school question thus becomes a matter of public interest. Mr. Guthrie announced the other day that he was entirely satisfied with the autonomy bills as prepared by Sir Wilfrid Laurier. So prompt was Mr. Guthrie in announcing his opinion that a suspicion was created that he had approved of them before he read them. But Mr. Guthrie now finds that he was rather premature in declaring himself, and that his opinion was not the opinion of the people of his riding. The Guelph Mercury, the organ of the Liberal party, declares that if the bills which Mr. Guthrie promptly endorsed are passed, it will "result in a serious decrease in the Liberal party throughout the country." The Mercury further adds:

A prevalent feeling is that if the Liberals of Canada are to be asked by the Prime Minister to override provincial autonomy on education, and fix upon the new provinces for all time to come the system of Separate schools, with full provincial and municipal aid, whether they will or not, it should be made clear to them that the Separate school privileges for these new provinces is an essential part of the confederation compact, and that the North-West acts simply carry out that understanding. If a judicial decision on the statutes involved can be reached so much the better.

Mr. Guthrie may as well discover new light as speedily as possible.

$500 REWARD, $500.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Special Settlers Trains to Northwest

Special train with Colonist sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto 9.00 a.m. daily for Winnipeg, Brandon, Portage la Prairie, Regina, Moose Jaw, Calgary, Edmonton and Prince Albert. Through Tourist Sleeping Cars to Winnipeg, Brandon, Regina, Calgary and Edmonton. Full particulars from any C. P. R. agent, or C. B. Foster, D.P.A., Toronto.

INDIAN RIVER.

—Mr. P. Torpey shipped a carload of logs from Indian River on Wednesday last.

—Mr. Joseph Quinlan, of Ennismore is visiting Mr. James Devlin.

—Miss Katie Crowley, of Otonabee, is visiting friends here.

—Mr. Patrick Cronge, of Canville Corners, and Miss Clara Clancy, of Peterborough, are visiting friends in Hastings. Patrick expects a pleasant outing.

—Mrs. Fred Fleurd, of Buckhorn, and sister, Miss Teberesa O'Leary, are visiting their father, Mr. Daniel O'Leary.

—Mr. John Fife, our worthy reeve, was in the village Monday. Mr. Fife is doing his utmost to keep the roads passible.

—A number of Indian River's most popular young folks assembled at the residence of Mr. James Collins where an address was read and presentation made to Mr. Dunleve, who has been very popular with the young folks of this part. Mr. B. Leahy read a most touching address on the good feelings which always existed between Mr. Dunleve and the young folks. Mr. James Foley presented him with a gent's assorted ring, for which Mr. Dunleve heartily thanked them, and said it would always remind him of the kind people of I. R.

—Miss Hannah Fraser, of Peterborough, is visiting friends here.

—Mr. James Hall attended the sale of his uncle, Mr. Taylor, in Dummer.

—Mr. Gilbert Rancier, cheesemaker, is busily engaged arranging the milk routes for the coming season.

—Mr. John Grady purchased a valuable team of horses from Mr. T. Cavanagh, Peterborough. Mr. Grady paid $300 for the team.

A PROSPEROUS YEAR

The Annual Statement of the Ontario Accident Insurance Co. Most Reassuring

Since the inception, in 1896, of the Ontario Accident Insurance Company, the financial history of this company, has been a progressive, though Conservative one. At the ninth annual meeting held in Toronto on the 20th of February, the reports and statements for the past year, showed an increased volume of business and an altogether satisfactory condition of the company's standing. The prospects of the company are very bright for the future, the balance sheet being one to inspire confidence in policy holders and encouragement to shareholders.

The financial statement showed that the assets of the company are of the highest class, including bonds for $44,324.45, of some of Canada's largest towns and cities, and amounting in all to $119,892.01. During the year the company received in premiums, after deducting rebates, $223,-637.57, as against $178,786.03 in 1903. The confidence placed in this company by the insuring public, can be guessed when the increase for the year in its premiums has actually averaged nearly $1,000 per week. As evidence of the conservatism of the company's management, and the protection it provides against unforeseen or unprovided for, contingencies, the Reserve Fund was increased, in the year, from $45,500 to $55,500, whilst the contingent fund of $10,000, remained the same as in the preceding year. The company's assets show an increase of $16,468.30 over the year before. All this sound financial standing is in the face of a divdend of six per cent. in the preceding year having been raised to seven per cent. in 1904. The President of the company, Dr. Larratt Smith, and the Directorate have every reason for congratulation on the successful termination of their last fiscal year.

DIRECTORS' REPORT

Your Directors have pleasure in submitting their 35th Annual Report, showing the transactions for the year, and the Financial standing of the Company as at December 31st, 1904. The business of 1904 was most gratifying in all respects, large gains having been made in income, Assets and Surplus.

INSURANCE ACCOUNT.—The volume of new business exceeds that of any former year, being 3,452 Policies for $5,048,165, all of which, except $30,000, was written within the Dominion. The total assurance now in force is $40,476,970.58 under 27,742 policies, the net addition for the year being $2,859,419. While many of our native Companies are seeking business abroad, some of them in distant parts of the world, it is thought by your Directors that good Canadian business is preferable to foreign business, which is secured with less certainty as to its quality, and at excessive cost.

INCOME.—The total income was $1,725,308.90, being $1,373,364.69 for premiums, and $351,944.21 for interest. The gain over 1903 was $164,-238.87.

DISBURSEMENTS.—The payments to Policyholders amounted to $524,-613.34, and consisted of Death Claims, $220,304.50; Endowments, $180,003; Purchased Policies, $52,394.54; Surplus, $83,184.40, and Annuities, $3,679.90. The claims by death were exceptionally light, being $61,404 less than last year, and only 41 per cent. of the amount expected.

THE EXPENSES AND TAXES were $300,807, using 17.4 per cent. of the total income, or about 1 per cent. less than in 1903.

ASSETS.—The cash assets are $7,794,098.35, and the total assets $8,-220,530.45, showing gains of $905,450.05 and $937,372.05 respectively. The funds are being invested in the same classes of securities as heretofore, principally in Mortgage loans on farms and city properties, Bonds and Municipal Debentures. The latter are taken into account at their book value or cost, which is considerably below their market value. The demand for money was active during the year, at better rates than for some years past, resulting in a slight advance in the rate of interest earned, viz., 5.00 per cent. Payments on Mortgages for interest and instalments of principal were well met, though in the case of our Manitoba loans they were not quite as satisfactory as in former years, due to the partial failure of the wheat crop. The interest and rents overdue at the close of the year were but a small portion of the receipts, being only $13,740.19, most of which has since been paid.

LIABILITIES.—The liabilities were again computed on the Combined Experience Table with 4 per cent. interest for all business up to January 1st, 1900. From that date to January 1st, 1903, on the Institute of Actuaries' Table with 3 1-2 per cent., and thereafter on the same Table with 3 per cent.

SURPLUS.—After making provision for all liabilities the surplus on our own standard is $772,072.87, being an increase of $170,920.20 over 1903, and this after distributing amongst Policyholders $83,184.40. On the Government standard of reserves, namely, 4 1-2 per cent. for business to January 1st, 1900, and 3 1-2 per cent. thereafter, our Surplus is $1,049,460.71. The earnings for the year were $354,103.60.

On behalf of the Board.

ROBERT MELVIN, President.

The various reports having been adopted, the retiring directors, Right Hon. Sir Wilfrid Laurier, A. Hoskin, Esq., K.C., Hon. Mr. Justice Garrow and E. P. Clement, Esq., K.C., were unanimously re-elected. After a number of able and thoughtful addresses had been made by members of the Board, prominent Policy-holders, the Manager, the agents and others, the meeting adjourned.

The Directors met subsequently and re-elected Mr. Robert Melvin President; Mr. Alfred Hoskin, K.C., First Vice-President; and the Hon. Mr. Justice Britton, Second Vice-President of the Company for the ensuing year.

(Booklets containing full report, comprising lists of death and endowment claims paid, of securities held, and other interesting and instructive particulars are being issued and will in due course be distributed among policyholders and intending insurants.

Waterloo, March 2, 1905.

W. H. RIDDELL.

Consumption can certainly be cured

Nearly all cases in the early stages. Many even when far advanced. Fresh air stands first. Good food next. Then a medicine to quiet the cough and control the inflammation—Ayer's Cherry Pectoral. Ask your doctor about this advice. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchasers of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the cheapest dozen veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore is eight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiser, I saw on the dumps several thousand tons, probably 6000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS, PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to day on the open market $3,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 75 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ox capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 3 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when they are hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1 00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

Address **W. P. FIFE,**

1641 Tremont St., Denver, Colo.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

MARCH CANADIAN MAGAZINE

For interesting illustrations and variety of contents, the March Canadian Magazine is noteworthy. The beautifully tinted pictures of the Russo-Japanese War show considerable care on the part of the publishers and set a high standard for Canadian printers. The article on the Cornwall Canal Lighting Contract should attract considerable attention. The case is well stated, from a purely business standpoint, while the illustrations add to the illuminating explanations. Frederick Hamilton's sketch of Professor Roberts on will no doubt be widely read, for it is well done. The article on "Agricultural Progress in Quebec," with its striking portraits of families of thirteen and sixteen children, is pleasing as well as informing. It may surprise the average reader to learn of the magnificent development which has recently taken place in a province which is often unfairly said to lack the progressive spirit. Alan C. Thompson, a brother of Seton Thompson, writes on "The Taxation of Franchises." Douglas Kerr has a message for the public in his "Future Calls Upon the Empire," Albert R. Carman deals with the universal practice of "Tipping." The stories are five in number, the authors being W. Victor Cook, H. M. Johnston, Mary Stewart Durie, James W. Falconer and Eric Bolin. The frontispiece, "To The Memory of Brave Men," presents a famous incident in the Metable wars.

JAPS ARE CONFIDENT

Tokio, March 8. — All Japan is eagerly watching developments at the great theatre of war in Manchuria. The people are confident that Field Marshal Oyama will defeat General Kuropatkin.

Large Consignment of Wheels

Mr. F. R. J. McPherson, of McPherson & McGregor, George street, yesterday received the largest single consignment of bicycles that ever came to Peterborough. The pavement in front of his and the two adjoining stores, was literally barricaded for a short time, by crates of wheels, the consignment consisting of about sixty bicycles. The bicycles were purchased from the Canada Cycle Motor Company of Toronto, and comprise the best specimens of the Cleveland, Massey Harris Company, Brantford and Perfect wheels. This enterprising young man is now sole local agent for the C.C.M. Co., and parts of the above named bicycles will have to be procured through him. Mr. McPherson intends to boom the bicycle business in Peterborough, through the coming season. He seems to have faith in the townspeople, in ordering so large a shipment, and believes that wheels can be sold as cheaply, and of as good a quality here, as in Toronto or elsewhere. Mr. McPherson is emphatic in stating his opinion that Canada now makes a better and more durable wheel than any country in the world.

Fish for All Fishermen

The exclusive few, who sought from the late Ontario Government, sole proprietorship in all fishing in the neighborhood of Rice Lake, may have to share up the sport with the public. Dr. Shaw, of Keene, an ardent fisherman and lover of justice to all, has, with a local deputation, asked the Hon. J. J. Foy and Hon. Dr. Beaume to see that the Government should not grant to the Ontario Fishing Club the lease for 21 years of 6,000 acres of land, as provided in the Order-in-Council already in force. Their petition was promised careful consideration.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS — NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd., of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the system, as an aid to navigation, and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

AN EMPHATIC PROTEST

By Ministerial Association Against Separate Schools

At the regular monthly meeting of the Peterborough Ministerial Association, held yesterday morning in the Y.M.C.A. hall, the following was carried unanimously.

Moved by Rev. E. A. Langfeldt, seconded by Rev. Dr. Crothers: "The Ministerial Association of Peterborough desires to protest against the proposed legislation settling upon the new provinces a system of Separate schools. The Ministerial Association is of the opinion that Separate schools are detrimental to the interests of our national life, and also tend to the separation of our Canadian children, who should grow up and be educated side by side, without any barriers of sectarianism. We uphold and assert our belief in our national schools, which help in developing a true sense of Canadian citizenship, and which unify the different races and creeds of the people of this Dominion on broad principles of British liberty. We enter our emphatic protest against imposing any constitutional limitations upon the people of the new provinces, without giving the people concerned in the measure a free expression of their will concerning it."

The Fish of Old Ireland

The 17th of this month is a day respected, revered, and celebrated by every true son of Erin, or his descendants wherever he or they may be. The 17th of March is somewhat like the British Empire, "the sun never sets on its celebration." This year the T.A.S. are determined to make the day in Peterborough a memorable one, and when the T.A.S. take hold of a thing they generally carry it to a successful termination. For the concert they have secured talent that in itself is a sufficient inducement for any lover of music to attend. Among those who will take part are Mr. H. Ruthven McDonald, baritone, Mr. George Ellis Fax, entertainer; Mrs. McAllister, Miss Hallahan Miss L. Hallahan, Miss Bell, of Keene and the T.A.S. band. The Hon. J. R. Stratton will give the medals he presented to the City League.

—Don't fail to take advantage of the big reduction sale of fancy goods, books of every description, stationery and notions, which will continue all through this month. Sacrifice prices to lighten our stock. Times Bookstore.

HOTELS

THE QUEEN'S HOTEL TORONTO

Celebrated for its homelike comforts and the peculiar excellence of its cuisine, has always been favored by the patronage of the best people

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cured for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 13 to the widowed mother of 60.

$36,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 2,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

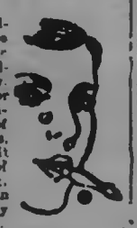
LIPTON'S

It is the purity which gains them the preference over other teas. This is an honest statement. Prove it or disprove it by trying a package of

LIPTON'S TEAS

CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.



Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now.

So certain is Catarrhozone to remove and cure that doctors, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No house should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation, heals sore spots and running at the nose.

On Saturday we will put on sale six double rocking horses, reg. price $1.25, will be sold, while they last, for 85 cents. Times Bookstore.

Opera House

"A Secret Marriage," a comedy drama, after the style of "Hazel Kirke," drew a good sized house, and pleased immensely. H. Wilmot Young gave a clever character portrayal. Marjie Adams as "Mable," was particularly strong, and wore some pretty gowns. Frederick Bigelow in the heavy, gave good support. The illustrated songs and moving pictures are a feature. Dumas' "Monte Cristo," is announced for Friday night. H. Wilmot Young as Edmund Dantes.

Has Many Friends in Peterborough

Campbellford Herald: No man in the Midland district has seen so many years of service in the lumber business of Mr. Thos. Callaghan of Campbellford. For the long period of forty-seven years continuously he has visited the woods and guided the affairs of large gangs of men in the lumbering districts and is still actively employed travelling about from place to place. Mr. Callaghan has served under three generations of Rathbuns, and although advancing to old age, he may be a useful man for many years to come.

DUTTON'S MARKET.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W.H. PRINGLE

Peterborough to Lose a Good Citizen

Mr. J. A. Sutcliffe, although in town for a few days to arrange his affairs, is about to exchange retail business in Peterborough for wholesale business in Toronto. Messrs. Sutcliffe and Sons, have acquirred the business formerly carried on by Kelk & Co., and will continue it under the firm name of Kelk, Sutcliffe & Co. the lines being fancy goods and notions, wholesale only. Mr. Kelk remains a member of the firm. Mr. Sutcliffe has made many friends, and built up a prosperous business since he bought out R. H. Kells & Co., six years ago, and his departure will be universally regretted.

The New Assessment Act

The new assessment law has already earned the hostility of the farmers. It may be by reason of its provisions and instructions, or it may be because of the misunderstanding of the rural assessors. But, in this neighborhood, we understand, the result is an increase in the assessed value of the farmers' property. The farm land is now assessed separately and the buildings are assessed separetly, the sum of the two added together being the total assessed value of the place. It will be difficult to persuade the farmer that he is not being punished for having good buildings. And the result will be that farm buildings will fall off very materially. When the wise men of the back concessions get together at Toronto there will be music in the legislative air.

Peterboro Presbytery Meet

Monday the Presbytery of Peterborough met in St. Paul's church. Those present were:—Rev. Geo. Yule, of Springville, moderator, presiding; Rev. Wm. Bennett, clerk; Rev. D. A. Thompson, Hastings, assistant clerk; Rev. E. F. Torrance, D.D., St. Paul's; Wm. Johnston, Millbrook; A. C. Reeves, Campbellford; J. G. Potter, St. Andrews; C. A. Campbell, Lakefield; D. D. McDonald; Keene. A. E. Camp, Havelock; J. F. MacFarlane, Warkworth; T. W. Goodwill, Marmora; G. A. McLennan, Norwood; J. M. Whitelaw, Omemee; J. Skeene, Baltimore; Elders John. Pritchard, Millbrook; J. Drummond, Keene; W. Fowler, St. Andrews; J. C. Brown, St. Paul's; Jas. Russell, Cobourg; Andrew Fairbairn, Lakefield; Hugh Donaldson, Coldsprings.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

Special Settlers Trains to Northwest

Special train with Colonist sleeper will leave Toronto at 9.00 P.M. every Tuesday during March and April for Manitoba and North-West. Passengers travelling without Live Stock should take the Pacific Express leaving Toronto at 1.45 P.M.

A Slow Time Drive to Chemong

The janitor of the Ontario Bank, Mr. Isaac Richardson, is a gentleman whom his many friends will never accuse of being a sport or judge of horseflesh. He and a friend, a few days ago, decided to take a trip to Chemong in the good cause. The two gentlemen procured a horse and set out on their journey. Rosinante was not a 1.57 horse, he is one of those placid, easy going horses, that take more interest in rest than in evangelicism. The two gentlemen tried several session, whip, and every kind of encouragement that should appeal to a horse open to argument, except profanity, but the hours flew by faster than the miles. Eventually the two weary drivers got beyond the snow drifts and pitch holes, and their voices were heard in the meeting at Chemong. Owing to their outward experience, the gentlemen decided to leave Chemong early. On the way, home, to use Mr. Richardson's words "it was terrible." The sun behind them sank to rest under the snowbound horizon, the farm house lights twinkled spasmodically along the road, mental visions of midnight wolves, perhaps passed through the drivers' thoughts, but still the horse walked. The latest bulletin reports that they did really get home. But the next drive they take to Chemong in winter will be on foot.

HOW TO KEEP WELL

Strengthen the Stomach With Mi-o-na and Get Perfect Health

The source of health is the stomach and the digestive system. When acting as Nature designed they should, the organs of digestion do their work regularly and unconsciously, like a perfect machine.

Those who use Mi-o-na do not have a sallow complexion, sunken cheeks, nor flabby flesh. Their skin has a ruddy glow, the eyes are bright, the breath sweet and the step elastic. In short, the users of Mi-o-na have the maximum of good health and are plump, rosy and robust.

Nine-tenths of all sickness comes from a weak stomach, causing loss of flesh, shattered nerves, flatulency, heartburn, sick headaches, backaches, spots before the eyes, rheumatic troubles, and general weakness and debility. Take a Mi-o-na tablet before each meal, and all irritation, congestion and inflammation in the stomach or bowels will be immediately soothed and relieved. In fact, the stomach will become well and strong and the whole system filled with strength and vitality.

Even if a weakened stomach has brought you to a chronic stage of ill health, where life is one long drawn out pain, do not despair. Mi-o-na will effect a cure if the simple direction in each 50c. box are faithfully followed.

Read the guarantee given by Wm. Medill with every package of Mi-o-na he sells. He pledges himself in this guarantee to refund the money should Mi-o-na fail to help.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. C. M. Cawthra, Toronto, was in town yesterday.

—Miss Annie Ritchie has returned from a visit to Toronto with friends.

—The Hon. George A. Cox, of Peterborough and Toronto, was in town yesterday.

—Mr. J. H. Brandon, of Lemelon Falls, was a guest at the Snowden House, yesterday.

—Mr. Bert Cannill left town yesterday evening for Toronto, and may remain there.

—Mr. George Stevenson, once Secretary of the Lock Works here, was in town yesterday.

—Mr. George Jackson, formerly of the Canadian Express Company, was in town yesterday.

—Mr. John Stuart, of Chicago, assistant secretary of the American Cereal Co., is in town.

—Mr. H. T. Barrie is in town, and stopping for a short visit with his mother, 623 George street.

—Mr. Walter S. Maguire, of Toronto Central Y.M.C.A., is in town renewing old acquaintances.

—Mr. J. W. Ward, a member of the B.A.C. Club, is confined to the house by illness.

—Mr. Percy Rutherford, of Bailliboro, will shortly move into his new residence on Charlotte street.

—Mr. R. D. Lundy, an old Peterborough boy, is in town, in the interests of the Imperial Oil and Varnish Co.

—Mrs. M. Nelson and Mrs. W. F. Trude of Lakefield, are the guests of Mr. R. J. McWilliams, 271 Park street.

—Mr. F. D. Mackay, general manager of the Canadian Machine Telephone Company, arrived in town yesterday.

—Lithrop Wells, Montreal; J. P. Conklin, Toronto, A. B. Moffatt, Weston; W. L. Rachman, Lindsay, are guests at the Snowden House.

—Mr. Fred Collins has returned home from the hospital in Toronto. He has almost recovered from the effects of the severe operation he underwent there.

—Rev. Canon Sweeney, D.D., Toronto, delivered the first of St. John's church series of Lenten Lectures. His subject was "The Building of the Temple."

—Word has been received by Mr. A. J. Johnston that his aunt Mrs. George Johnston, now residing in Riverside, Cal., who has been ill, is somewhat improved.

—Mr. J. W. Garvin, Chief Inspector of the Agencies for the Manufacturers' Life Ins. Co., is in town for a few days. Mr. Garvin's present address is care of his company, Toronto.

—Chas. Shannon, Harmora; Messrs. L. G. Mickles, Miles W. Green, Geo. Priestman, C. P. Willey, W. J. Fuller, C. S. Morrow, P. A. V. Andrews, W. G. Hogwood, all of Toronto, are guests at the Oriental.

—Prof. Falls, late of the Island of Jersey, now of Smith's Falls, was in town yesterday. It will be remembered that the George street Methodist church tried to retain his services some time ago.

—Mr. H. B. Spencer, of 11 Elm street, who is employed at the Canadian General Electric Company's Works, and who has been seriously ill, is, we are pleased to learn, somewhat improved. His father Mr. W. D. Spencer, of Nanaimo is in town.

—We are pleased to learn that Mr. Peter Campbell's son, Gordon, who has been in the hospital here with appendicitis, is so far recovered as to have left the hospital. He is one of the brightest boys Attending Trinity College school.

—Some of the leading ladies in town, of a literary turn of mind, are organizing a girls' reading club, which will meet at the various members' houses in rotation. This is a move in the right direction. Such clubs as this always encourage literary tastes and invariably bar their meetings from social or other gossip.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Mr. Con. O'Brien is about to erect a new house in Doure.

—The German Conversation Club will meet at St. Luke's Rector on Saturday night at 7.30

—George street choir will practice to-night, and all members are requested to be present.

—At St. Luke's service last night Rev. E. A. Langfeldt preached on the "Uses of Lent."

—The S.O.E. held a special meeting last night at eight o'clock to arrange for the funeral of their late Bro. Bridgewater.

—The Tennyson Club met last night at Miss Ulva Bellegham's home, Aylmer street. Mr. John Jeffries gave a lecture on "Tennyson and the Holy Grail."

—For the balance of this month we will sell "The Rival" Fountain Pen for 25 cents. Satisfaction guaranteed or money refunded. Times Bookstore.

—The Salvation Army offer an unusually interesting program for to-night's service. The selections to be rendered by the band, being new music just imported from England.

—The Nova Scotia Bank will have to again postpone their opening, on account of illness of the man in charge of the brass work. It is probable that the bank will open on Saturday.

—The Trent Valley Canal surveyors, somewhere in the snow between Rice Lake and Cobourg, report that they are badly handicapped by cold and snow.

—The Board of Trade, in a body will attend, out of compliment to the speaker, the lecture given by Mr. Allan, President of the Toronto Board of Trade, to-morrow night in St. John's church Sunday school.

—The Presbytery of Peterborough adopted a resolution condemnatory of the Autonomy Bill, in regard to the Separate schools, and have sent copies to the Federal members of the constituency within bounds of the Presbytery.

—Messrs. J. J. Turner & Sons, have executed an order in one, two, three time. Yesterday they shipped six heavy duck tents, 15 by 20 feet, to Bridgewater, N.S. These tents were wired for the preceding evening and were cut out, made, and shipped inside of one day.

A MOTHER'S LOVE.

A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, Motherhood is looked forward to with feelings of great dread by almost all women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nervine, a strength builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot help but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event.

This is what one mother says:

"With a heart overflowing with gratitude I will endeavor to write you. It is nearly two years ago since I first wrote to you for advice regarding my health which was then very bad," writes Mrs. L. Poore, of Hinesdale, Ky., to Dr. R. V. Pierce, chief consulting surgeon of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. "I have described my sufferings in other letters to you. After receiving your advice and the 'Common Sense Medical Adviser' I bought some of your 'Favorite Prescription,' and to-day am a well woman and the proud mother of a dear little boy."

Backed up by over a third of a century of remarkable cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century.

How to live in health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay customs and mailing only. Send 21 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

MILLBROOK'S FIRE

The G. T. R. Station at Millbrook Wiped Out by Flame

To-day Millbrook passengers have to hold up umbrellas to keep off the snow or rain, their station has disappeared with the sweet subsequently. Fire broke out in the ticket office, caused, supposedly, by the heating apparatus, and in a few minutes the whole station and freight sheds were in the grasp of the fire king, who was restless. Every thing, including books, tickets and freight was totally destroyed. Fortunately, just previous to the fire breaking out, some heavy consignments of freight had been removed.

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorize the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorize the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 863 of the County of Peterborough, passed to authorize such conveyance by the said County.

4. To authorize the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 3 of chapter 74 of 3 Edward VII. so as to authorize the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

BY-LAW No. 1081—To provide for borrowing money to pay the Town's proportion of the cost of sewers on certain streets in the said Town;

BY-LAW No. 1082—To provide for borrowing money to pay the cost of the construction of sewers on certain streets in the said Town secured by local special rates;

BY-LAW No. 1109—To provide for borrowing the sum of $10,000 for the purchase of a site for an Armory in the said Town;

BY-LAW No. 1112—To provide for borrowing the sum of $3,000 required by the Board of Education to pay for alterations in the heating apparatus in the Central Public School;

BY-LAW No. 1117—To provide for borrowing $20,000 for the purpose of making extensions, improvements and alterations in the Waterworks system of the said Town;

BY-LAW No. 1119—To provide for borrowing the sum of $12,000 for reconstructing and repairing bridges and for purchasing land for and opening new streets in the said Town;

BY-LAW No. 1126—To aid The Peterborough Cereal Company (Limited) by a grant of land and a fixed assessment of $10,000 for ten years;

BY-LAW No. 1127—To aid The Peterborough Shovel and Tool Company (Limited) by a grant of land and a fixed assessment of $4,000 for ten years;

Dated at Peterborough this 14th Day of February, 1905.

IT PAYS TO PAY FOR

THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale. During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

VOL XXXIII NO 68 PETERBOROUGH ONTARIO, FRIDAY MARCH 10 1905. PRICE TWO CENTS

LOSSES IN THE GREAT BATTLE WILL EXCEED 100,000 MEN--JAPS HAVE INVESTED TIE PASS.

Japanese Cut Line North of Old Manchu Capital and Russians Retreat in Disorder---Terrible Russian Disaster Likely---Japs Admit Loss of 50,000 Men, But Say Total Loss Will Far Exceed One Hundred Thousand

New Chwang, March 10., via Tien-Tain.—It is reported that Tie Pass has been invested by the Japanese, and that General Kuropatkin having no alternative, will probably be forced to surrender within a week.

RUSSIANS RETREAT IN GREAT CONFUSION

With the Japanese Left Armies, March 9, via Fusan, March 10.—The left armies have cut and destroyed the railroad between Mukden and Tie Pass. Details are not obtainable at present. The Russians are in retreat over the Northern roads. The left column of the Japanese armies is at Likempu, seven miles north of the Hun River and five miles west of the railroad, and has had a fierce fight with a Russian force thrice its number. The Russian casualties number ten thousand.

The Russian center is retreating in great confusion.

STUBBORN FIGHTING NORTH OF TOMBS

Mukden, March 10.—The Japanese yesterday attacked the village of Podiaza, north-west of the Imperial Tombs, and a stubborn fight followed, but the Russian advance guard was obliged to abandon the village. During the night the Japanese attacked the village of Santaitse, north of the Imperial Tombs. The fight continues as this despatch is filed.

The Japanese outposts have reached Hirantchen on the south front, and a heavy cannonade is in progress there.

JAPS MAY SIEZE SINMINTIN LINES

Tien-Tain, March 10.—The Japanese have requested the transportation of 450 tons of rice to Sinmintin. Unless the request is complied with, teh Japanese threaten to seize the railroad. It is believed to be a test case. The constant shipment of wheat and coal to Sinmintin by the Russians was not interfered with, and the Japanese demand impartiality. To-day they again seized the telegraph office at Sinmintin.

RUSS BURNING MORE SUPPLIES

With the Japanese Left Armies, March 8, via Fusan, March 10.—The Japanese made two attacks to-day on the village at the angle of the railroad and the Hun River. The Russians are making a strong resistance in a dozen villages in this vicinity, and are burning large quantities of supplies.

A movement of the Russians northward was visible this afternoon. It is uncertain whether it is a retreat or a reinforcement of the right wing.

The Japanese left armies advanced perceptibly across the plain in the direction of Mukden during the afternoon. A heavy artillery fire continues.

St. Petersburg, March 10.—The general staff has received the following despatch from General Sakharoff, Kuropatkin's chief of staff dated today;

"Several fierce attacks on our north front were made during the night. They were all repulsed. In other directions the night was quiet."

General Sakharoff's reference to the Russian "north front" would seem to indicate that a Japanese force is between Mukden and Tie Pass. Though the Japanese may have cut the telegraph lines along the railroad, it is possible that the field telegraph lines have been run between Fushun, where Kuropatkin may have his headquarters, and Tie Pass, thus accounting for the seeming conflict in the advices from Tokio and St. Petersburg regarding the severance of the Russian line of communications.

New Chwang, March 10, via Tien-Tain.—The Russians have not been reinforced from the direction of Harbin since March 1. General Nogi's army made a forced march of 25 miles daily, and acting in conjunction with General Oku's army, surrounded eighty thousand Russians in the direction of Tie Pass, and cut off their supplies.

Tokio, March 10.—The great battle in Manchuria raged all day yesterday along the entire enormous front. The Japanese were generally victorious, and they drove the Russians from a series of important positions. By nightfall it seemed imperative that General Kuropatkin would have to withdraw his shattered forces and avoid a complete disaster. Indeed, it appeared impossible for him to effect a retreat without heavy losses in prisoners, guns and stores.

The continuous battle is already the bloodiest of the war. Upon the ground that General Oku alone gained are eight thousand Russian dead. The reports from the other armies are expected to triple this figure. It is estimated that the Japanese have lost 50,000, making the joint slaughter thus far exceed one hundred thousand men. Details of the combat are lacking, but it is believed that the Japanese have cut the railway north of Mukden, leaving only the roadways and a light railway from Fushun to Tie Pass as avenues for the retreat of the Russians, but army headquarters refrain from affirming or denying a report to that effect. It is thought that Mukden is still in the hands of the Russians. The details of operations against Fushun are not yet at hand, but it is understood that following the capture of Mentuntan, the Japanese renewed the assault on Tieta and dislodged the Russians.

Various reports are in circulation concerning prisoners of war, but it is impossible to obtain reliable information as to the number taken.

Field Marshal Oyama in an order directing the pursuit of the retreating Russians yesterday prohibited his troops from entering Mukden in masses, in order to respect the tombs and sacred places of the Imperial Chinese household and to protect the welfare of the inhabitants.

With the Japanese left armies, Tuesday night, March 9, via Fusan, March 9.—The day's fighting of the left armies, although severe, has not changed the situation, so far as these armies are concerned. The attack on Mukden from the north-west is gradually progressing.

The Russians east of the railroad and near the Shakhe River seem to be gradually retreating.

Mukden, March 10.—At 4,30 a.m. to-day the Japanese, who last night attacked the Russian position north of Mukden, had forced the Russians to fall back a little. The Japanese are concentrated on the west front. The battle is in full progress.

At 10 a.m., a heavy cannonading is in progress north-west of this city, causing the walls of houses here to tremble. An engagement is in progress at the Imperial Tombs.

New Haven, Conn., March 10.—Baron Kaneko of Tokio, who has been in the United States for several months on a mission created for him by the Mikado's Government, delivered an address on the present war before the students of Yale last night. He said, among other things that Japan is fighting the war according to the rules of civilized warfare, and in trying to follow international law. Two professors of international law are with each army corps and two with each squadron. Thus far, he said, Japan has not been guilty of a single violation of the rules of international law. On the other hand, Baron Kaneko said Russia has repeatedly offended against such laws and has not been fair.

WILL ARMY ESCAPE.

St. Petersburg, March 10. —The great question now and the one over which the General Staff burned its lights late into the night is wether Field Marshal Oyama has entangled the Russians in his struggle not sufficiently to prevent a successful retreat to Tie Pass. General Rennenkampff's force to the eastward admittedly is in great danger of being cut off, and a considerable force of Japanese appears to be operating on the Russian right wall toward Tie Pass. If the Japanese succeed in reaching the railroad and interrupting traffic, if only for a few hours, it may have the greatest consequences for General Kuropatkin, who is now engaged in a literal race with the Japanese to reach a naturally defensible position forty miles northward.

Thus far he has stood off all attacks directly against the flanks of his army and holds the way of retreat open. He undoubtedly was forced to abandon a number of siege guns on his Shakhe positions; but if he succeeds in turning over the army intact, with the principal portion of its artillery train, to his successor, the Russian cause will be by no means desperate for Oyama will again have missed his quarry, and a comparatively barren victory will have been purchased at enormous cost of life.

With the Japanese Left Armies, March 8, via Tien Tsin, March 10.—The first day's fighting on this flank has resulted in the complete turning of the Russian right and promises the certain defeat of the entire Russian army. The two left armies have swung north to a point on the main highway five miles north of the Mukden line, and are now parallel to and four miles westward of the railway, and advancing directly east. The Russians at first made a strong fight, but later their resistance was slight, retreating in disorder before the onward rush of the Japanese, who have advanced over twenty miles in our days, constantly in touch with the enemy.

The Russians had many strong defences in several lines, but did not defend them as stubbornly as was expected. A number of strong positions were given up without a show of resistance, and the battlefield shows evidence of hasty retreat, being covered with clothing and heavy felt boots, besides many rifles and thousands of clips of rifle cartridges.

To-day's reports show the Russian troops almost in a panic-stricken condition, one army corps retiring without making practically any resistance. It is estimated that the enemy's losses were over ten thousand. The Japanese loss during the four days does not exceed four thousand.

The Russian right center, near the railway, when last eard from, retained its former position, but it may since have retired. The entire command, it is believed, will be surrounded and cut off.

Ti-Wankampo, on the bank of the Hun, was captured last night by the Japanese who secured large quantities of supplies and light railway material.

FRENCH ANXIETY FOR PEACE

Value of Russian Alliance Hurt by Prolongation of War

Paris, March 10.—From conversations gathered in Parliamentary and social circles it looks as though the longer Russia defers the conclusion of peace the more she will lose her hold on the sympathy of the French people.

It is one of the interesting features of the situation here that the longer the war lasts the more the French realise that the value of the Russian alliance which no doubt has been considerable in the past, might be compromised by the indefinite prolongation of the war.

That accounts for the eagerness, almost impatience, with which they look forward to peace.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co. Toledo, O

Sold by Druggists, 75c.

Hall's Family Pills are the best.

PROVINCIAL RIGHTS

It was naturally believed that in dealing with the school question the record of the Government on the principle of Provincial rights would be maintained.

In the great task of the assimilation of the almost numberless elements which go to make up the population of the North-West, the school is looked to as a most influential factor. It was stated recently in Winnipeg, on undoubted authority, that application had been made to the Bible Depository in that city for Bibles in sixty different languages. Is it desirable to have a school system imposed and fastened for all time to come upon these new Provinces which is likely to prove a serious obstruction to true national development?

The Times believes that if anywhere in the Dominion a National School system is necessary to help in the unification of sundry and diverse elements, and in the production of a desirable type of Canadian citizen, surely it is in the West. The Provinces should be left free to formulate their own school system.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

The T.A.S. v. Fenelon Falls game has been postponed until Monday night.

The Ottawa Stanley Cup holders defeated the Rat Portage team last night by a score of 4 to 2.

First Pittsburg Game Won by Klondike Team.

Pittsburg, March 9.—The Klondike team won a slow and uninteresting game from the I.A.C. team by eight to five. The weather was very stormy and the crowd small. The same teams play Friday and Saturday evenings.

Boys' Rink Won at Lindsay.

Lindsay, March 9.—The local bonspiel, which has been going on since Monday, finished to-night. The kid rink of Lindsay Collegiate Institute boys, Victor Gladman, Bruce Hopkins, Bert Eyres, Ross Harstone, skip, whose combined age is 70 years, won first place.

Bright Outlook for Cobourg Ball Team.

Cobourg, March 10. The prospects for a fast baseball club here are very bright, as most of last year's team are still in town, and Manager Mullall should pretty near get away with the Midland League pennant.

McKinnon and Downs will do the slab work while Turpin, Bulger, Bentley, and Duncan are available for the infield. The outfield will be strong with Burge, Buter and Payne.

Rich Floyd, the clever and hard-hitting catcher, who has been playing hockey with Ottawas, is expected home this week. Besides these there are a number of promising juniors from last year's town league.

McAllister, one of the best pitchers Cobourg ever turned loose, will likely be back in town. The club will organize next week.

A ball player who has just returned from Cuba says of the game as played there; "From ten to twelve thousand persons turn out twice a week to see the games there. The Cubans are excitable, and pandemonium breaks loose whenever the rooters have a chance to exercise their lung power. Their league is composed of three clubs, Havana, San Francisco and Almendares, and about two games a week are played. All the games are played in Havana, and the grounds are larger than the ordinary. A hit that gets pas a fielder is good for a home run. One peculiar thing is that the umpire has absolute control of the situation, and not even the captain is allowed to raise a rumpus over a close decision. This is a good thing, for, as betting is done on every conceivable play, there would be fruits if kicking was allowed. Mounted policemen, well armed, preserve order on the field. The teams come on the field with banners waving, and carrier pigeons with colored ribbons attached to their legs are released between innings. There are some pretty shifty players among the natives, but they do not as a rule class with the American ball tossers."

KENNEDY KILLS HIMSELF

Brantford, March 10. — Joseph Kennedy, who was last night sentenced to life imprisonment with 75 lashes, in connection with the death of Irene Cole, hanged himself in his cell at the county jail shortly before eight o'clock this morning. The only other occupant of the jail corridor was Felix Doyle, charged with the murder of his mother.

At 7.20 this morning the guard left the room while the prisoners were eating their breakfast. After the meal, Doyle went into a room at the end of the corridor, and returning in a few minutes, found Kennedy hanging by a bed sheet from the top of the cell door. Doyle raised the alarm, but it was too late, as death had already resulted from strangulation.

ANOTHER MURDER MYSTERY

Belleville, March 10.—The inquest at Plainsfield to enquire into the cause of the death of Mrs. Adam Lloyd lasted nearly all day yesterday and all night. It was nearly daylight this morning when the coroner, Dr. Yeomans, arrived home. The evidence showed that the woman was dead when found. Drs. Mather and Boyce, of this city, who made the post-mortem, testified to finding a cut on the left temple, which was sufficient to cause insensibility, also numerous burns about the body.

The dead woman's husband gave evidence, and the coroner this morning expressed the opinion that he could have told more about the case if he had wanted to. Other witnesses were heard, some twenty in number, and the jury returned the following verdict;

"That the deceased, Hannah Lloyd, did not come to her death through natural causes or by or through any suicidal acts or intentions of her own. Death was due to the shock caused by the burning, aggravated by the wound on the side of the head. As to the direct cause of the fire, or by what means she received the wound on the head, we are unable to say from the evidence produced."

A NEW WHARF

Mr. Fuller, a Dominion Government Engineer, Here Making the Preparatory Survey.

For some time the town has badly wanted more suitable steamboat connection, and now there is a prospect of a better landing, in the immediate future. Mr. J. W. Fuller, of the Public Works Department, Ottawa, is in town, taking the necessary measurements and making survey for plans, of a new wharf, to be made at the foot of Lock street. The proposition is to extend a wharf from the west side of Lock street, a distance of three hundred feet, the outer edge to be a distance of about sixty feet from the street railway tracks which terminate at the foot of Lock street. The crib foundation of the wharf is to have a concrete superstructure rising to a height of about six feet, and the inside is to be filled up in a substantial manner, so as to permit of the construction of an esplanade between the wharf and the street railway tracks.

The plans will show that an appropriate of between $8,000 and $10,000 will be required to complete the work. Work will probably begin as soon as the weather permits, so that the wharf will be completed in time for this summer's travel. Now that the tie summer's travel. Now that the street railway makes the boats so accessible, a wharf here will be a great public convenience. The street railway will make arrangements to handle freight from and to the boats for points up or down the Otonabee or its connections. For the convenience of canoeists and oarsmen, steps will lead down to the water, which at this point is not very rapid.

SIR WILFRID'S CHANGE

His Speech on the Remedial Bill in 1896

In a speech in the House of Commons on the Remedial Bill on March 3, 1896, Sir, then plain Hon., Wilfrid Laurier said;

"Sir, there is one thing that is certain at this moment. The attention of the people from all parts of the country is upon this chamber, and whatever may be our opinion upon this question, whatever views we may hold as to the policy of the Government, there is one thing which cannot be denied. These frequent recurrences of agitations and commotions are a severe strain, and a very severe strain upon the tie which binds these provinces together; and the danger is all the more to be apprehended. If, searching further on for the causes which have brought about this commotion, you find that on every occasion there was only one cause, always the same, and that was the feature of our constitution which abridges the independence, the sovereignty of the provincial legislatures. In one form or the other, such was the cause of these agitations."

And in direct violation of the spirit of the constitution Sir Wilfrid is to-day responsible for the agitation and commotion which exists in the premier province of the Dominion, and in a lesser degree in other sections of the Dominion.

In the same speech Sir Wilfrid said; "Indeed, it must be accepted, and accepted as a truism, that under popular government the majority must rule."

That being the case, and Sir Wilfrid knowing full well that the spirit of the constitution calls for no such legislation as he now proposes, why should he, in the face of the majority and promises, eat his own words?

WEDDED IN DOURO

Nuptials of Miss Annie O'Connor and Mr. Dennis O'Toole

On Wednesday, March 1st., a very pretty wedding was solemnised by Rev. Father Keilty, at St. Joseph's church, Douro, when Miss Annie O'Connor, daughter of Mr. William O'Connor became the bride of Mr. Dennis O'Toole, son of Mr. John O'Toole. The bride was becomingly gowned in brown silk trimmed with Irish point lace and hat to match Miss Lilly O'Brien, of Peterborough was bridesmaid, and wore a pretty dress of blue mohair. The groom was supported by Mr. Frank O'Connor, brother of the bride. The wedding march was played by Mrs. F. Shiels, Kingston.

Many handsome and costly presents were received by the happy young couple, showing the high regard in which they are both held. The groom's gift to the bride was a handsome gold chain, and to the bridesmaid a gold pin. Mr. and Mrs. O'Toole will reside in Douro.

TORONTO GLOBE IN REBELLION

Manly Stand Take by Liberal Organ on School Question

SIR WILFRID'S MISTAKE

Says the Premier Has Committed Fatal Error in Dealing With This Momentous Question

The Toronto Globe, the leading organ of the Liberal party in Canada, is in open revolt against the attempt now being made by Sir Wilfrid Laurier to fasten Separate schools on the new provinces. Our contemporary says:

"The most delicate question, the question most fraught with danger, now before the Parliament and people of Canada is the vexed question of Separate schools in the new Provinces of Saskatchewan and Alberta. The educational clauses in the autonomy bills in their present form are charged at every point with possibilities of controversy and strife. To pass these clauses and make them the constitutional basis of the school policy and administration in the North-West would, we are firmly convinced, be an irreparable political mistake and a great wrong against the people, not of the North-West alone, but of all Canada. Our growing confidence is that this will not and cannot be done.

"It is obvious that the purpose and desire of Sir Wilfrid Laurier was to continue this separate system as it is at present in operation in the North-West. He so declared himself again in his speech. He has made the same declaration since. The clauses as drawn are very far in excess of this declared purpose, and, especially in the proposed endowment of Separate schools out of the Dominion lands grant, are so emphatically a violation of the rights of the Provinces that we cannot conceive of their adoption by a Parliament in which Liberals are so largely in the majority. The educational clauses were the last part of the autonomy bills to be drafted and we cannot but think that other members of the Government, besides the Prime Minister, failed to appreciate the bearing of the language in which they were expressed.

"It was reported from Ottawa on Saturday afternoon that the western Liberal members have agreed to a clause which draws the teeth of the clauses at present in the bills. This clause simply makes for the continuance of the present rights and privileges of the minorities, whether Catholic or Protestant. We are still of the opinion that the same end would be as fully attained were education left wholly and without direction to the new Provincial legislators. Beyond doubt Separate schools would be continued, and the experience of the people in the Territories, Catholic and Protestant alike, suggests no objectionable result from such a course. The western men declare, as The Globe's correspondent has made plain, that public opinion there is not averse to the present system, in fact desires its continuance; and while they would have preferred the other course, no practical objection holds against inserting in the autonomy bills the clause they have drafted. All rightful privileges of all classes would in this way be secured, and the bitterness and strife inevitable on the selection of the clauses now in the bills would be averted. But the educational clauses as now presented are impossible, and Liberals in Parliament and out of it will give them unflinching opposition."

DEADLOCK EXISTS AT THE CAPITAL

Story That Satisfactory Compromise is Being Reached Denied

MR. SIFTON IS OBDURATE

Several Other Ministers are in Hot Water—The Ontario and Western Members

Ottawa, March 10.—The situation with reference to the Autonomy bill seems to have reached the position of a deadlock. There is much talk of a compromise, but there are a number on each side who are not willing to yield anything. The Premier, it is said, has even gone so far as to hint that another general election may become necessary if his followers are not willing to be reasonable.

"Mr. Sifton," said a member last night, "appears to be doing his utmost to drive the Government to the point of abject surrender on the Separate school clauses. He wants victory, not compromise. The feeling in the Government's following is running strongly against him, for he is now considered an outlander, and the influence he is bringing to bear on the Western members is regarded as an open act of aggression."

The Separate school clauses were prepared by Sir Wilfrid Laurier, Hon. R. W. Scott and Hon. Chas. Fitzpatrick. Mr. Sifton was not consulted, and he resigned. Mr. Fielding was not consulted, and he threatened to resign. The probability is that his resignation is in the hands of the Prime Minister, but the latter is not willing to accept it.

A COMPLICATED SITUATION.

The Ontario Liberals were not consulted in the preparation of the bill. They evidently want the schools clause dropped.

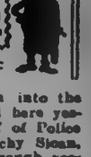
But the other side is beginning to move. Mr. Fitzpatrick is in the hottest kind of hot water. Mr. Scott threatens to resign if the schools clause is emasculated. Sir William Mulock is in troubled waters. The Sifton-Fielding sympathizers say Sir Wilfrid must modify the most offensive of all the clauses. The Quebec Liberals say he dare not modify them. Mr. Sifton is undoubtedly in a strong position, for a large section of the Western Liberals seem to be loyal to him.

He is farther strengthened by the fact that a successor to the portfolio on the Interior must be chosen from the West, and the choice is from Manitoba or the Territories. Mr. Sifton thinks he can control the election if the Government sees fit to defy him. For reasons best known to himself, Mr. Sifton is, apparently, fighting, and fighting hard, and he is confident that he has the West behind him.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble



"Out of the frying pan into the fire," was well illustrated here yesterday morning. The Chief of Police at Gravenhurst, Mr. Archy Sloan, was a visitor to Peterborough yesterday. His mission was neither to view the scenery, nor to procure concessions for a promised industry, but to make a personal call on Mr. John Carney, who accompanies him on the return trip.

On the 13th of December last, Carney, through the instrumentality of Chief Reed, obtained board and lodgings in Castle Nesbitt, for two months as a reward for stealing various articles. His time was up yesterday morning, but he only passed out of the jail to meet the Gravenhurst officer, who takes him back this morning for trial on a charge of theft in that pretty little Muskoka town.

Chief Reed drove his brother-in-clubs about the town in the afternoon, and showed the visiting officer some of our "Lions."

In yesterday's police court, Lebar was discharged, as the evidence of Mr. Allen, of the C.P.R. Hotel, showed that he had been sober, and had received provocation. Lebar was tried on a charge of disorderly conduct.

AT THE Y.M.C.A.

The boys' exhibition at the Y.M.C.A. last night was a decided success. There was a large attendance of the friends of the boys, who enjoyed the excellent program.

Following is the program.—

Maize Run—Smaller Junior Scholars.
Military Marching —Older Junior Scholars.
Mass Dumb-bell Drill—Juniors and Intermediates.
Wheelbarrow Race —Junior Intermediates, and Junior School, won by the latter.
Vocal solo—Arthur Bell.
Special parallel bars work — Junior Intermediate Leaders Corps.
30-yards dash—By Junior Intermediates, won by Fred Hall.
Special tumbling squad—Junior School Boys Leaders Corps.
Special individual tumbling — H. Sawby.

The last number was a very fast and exciting basket ball match between the Junior Intermediates and Junior School Boys, the former being victorious.

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down,

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Sleepless?—Yes, nervous and unhappy too.

"I brewed up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong, I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make this their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

English Office—30 Fleet street, London, E.C.

UNION LABEL

PETERBOROUGH, MARCH 10 1905

THE NEW PROVINCES

The events of the next few days may develop a crisis, so to say, in Canadian politics. The Ottawa Journal does not think it possible that the government of Sir Wilfrid Laurier is in any immediate danger of defeat in respect of the education clauses of the measures for the creation of the two new provinces of the West. The dissidence of the entire west and of such of the Ontario Liberal members as are known to be willing to follow Mr. Leighton McCarthy in opposition to the educational clauses would not destroy Sir Wilfrid's majority, if he were determined to press to enactment the original provisions of his bills.

Expert opinion is said to have declared that even if the solid Liberal vote from Nova Scotia were to join forces with the other advocates of educational Home Rule in the west, the bills in their entirety might be passed. Enough Liberals might rebel to destroy Laurier's majority, if the Conservatives remained solid but there are some Conservatives who on this issue would vote with Laurier.

But it is plain that now the Liberal leaders must do worse than lose votes among their following—it is plain that they are face to face with the fact that if they keep on bluntly, they face the fact that they must advocate that "coercion" which once was anathema to the Liberals. The opposition of the West to the education clauses, which was at first described as non-existent, has been sufficiently developed. The western members of the Dominion House, largely Liberals, have appointed a committee to draw up a resolution to express their views in respect of education clauses and the general belief is that these views will be towards an elimination of the clause providing for distribution of the proceeds of public lands, pro rata as between Public and Separate school supporters. That would leave the law in the new provinces in the condition in which it stands in the Territories.

There are evidences in Ontario, at least, of a desire for an even wider measure of freedom to the new provinces.

There is, therefore, on the one hand proof of opposition in the Territories, and on the other evidence of strong feeling among their eastern fellow Canadians. And the question, so far, at least, seems to have developed pretty well apart from the lines of political difference.

Therefore it seems to lend itself to amicable adjustment, but we fancy that the majority in the country at large will be satisfied only if the new provinces are empowered to adjust their own education systems.

COMPROMISE

Canadian politicians have always been great on compromise, says the Hamilton Spectator. And the result is that many things are not as they ought to be. Compromise has been a curse to the country.

Let us take this western school business as an example. It is laid down in the law that the legislatures of the new provinces shall have full and sole control of the educational laws and regulations of the province.

But the Quebec idea interferes. Sir Wilfrid Laurier is instructed that the Separate schools must be entered, forever, upon the new provinces, and be enriched by a share of the valuable school lands throughout the Canadian West.

Sir Wilfrid Laurier obediently produces his coercion bills and makes them strong. The inevitable protest coming, it is now proposed to "compromise." The result of a compromise, if it be permitted, will be that Separate schools will be fastened upon the new provinces according to the Quebec program, while some slight "modification" in the manner of their maintenance will be thrown as a sop to the opposition!

Thus, by means of "compromise," something is done that is entirely illegal: the promoters of the Quebec idea—who are entitled to nothing, and should get nothing—ask for much, and get the bulk of what they ask for!

Compromise in a case of this sort is simple robbery.

CEMENT PROTECTION

Thirty-five per cent. duty, which is the Canadian tariff for cement, does not keep American cement out of Canada. But why? Because the Canadian makers add the entire duty—and more—to the price paid by the consumers; thus making the price so high that the foreigner can come in with his goods, pay the duty, and make a satisfactory profit.

Under the same circumstances a thousand per cent. duty would not keep out the foreign cement. The Canadian makers would add the duty to the selling price to the consumer, and give the foreigner his opportunity.

This is how it works: We have been told that it costs some of the best Canadian companies 60 cents a barrel to manufacture cement. The cost in the United States is something less than that. If the Canadian manufacturer were content to take a dollar a barrel for his product he would have the entire Canadian market, as the American maker could not pay freight and 45 cents duty on his product and sell it here at a profit.

The American cement costs nearly the same as the Canadian cement made in first class mills—(How much the coal duty figures in the business may be inferred from the fact that the total cost of a barrel of cement is 60 cents), and so long as the Canadians make their price big enough to allow the Americans to come in here, pay the duty, and make a satisfactory profit, the 35 per cent. duty will not close out foreign cement.

The Canadian cement people have a big margin to work on in the 35 per cent. They prefer to take it all, and the result is that they open the door to importation.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

Has Many Friends in Peterborough

Campbellford Herald: No man in the Midland district has seen so many years of service in the lumber business of Mr. Thos. Callaghan of Campbellford. For the long period of forty-seven years continuously he has visited the woods and guided the affairs of large gangs of men in the lumbering districts and is still actively employed travelling about from place to place. Mr. Callaghan has served under three generations of Rathbuns, and although advancing in old age, he may be a useful man for many years to come.

NO PICTURES OF MARTIN HANGING

Law Forbids Illustrations in Papers and Requires Brief Formal Accounts

Toronto, March 9.—When Alexander Martin, the murder of his child, goes to the scaffold in the yard of Toronto jail at 8 o'clock tomorrow morning, there will probably be fewer spectators present than has been the custom at previous events of this somber character.

Hitherto Sheriff Mowat has exercised his discretion in regard to the admission of spectators, but recent amendments to the statute fix on jail officers, inspectors, justices of the peace, a clergyman, and such relatives of the prisoner to be executed as may be proper to admit, as those who may be admitted. A representative of each newspaper published in the city or county in which the execution is to take place is to be admitted, if the sheriff gives his written consent, but the statute expressly states that no kodak or telegraphic instrument shall be admitted to the yard. The law also stipulates that any account of the execution which may be published in any paper must be merely a brief statement of the facts, without enlargement or illustration.

It is rather a curious circumstance that executions are almost invariably fixed for Fridays. Is it superstition on the part of the authorities? Nobody seems to know the reason. The custom has been created by long usage.

The last execution in Toronto was that of Fred Lee Rice on Friday, July 18, 1902, and the one previous to that was of Henry Williams, on April 13, 1900. An execution was once fixed for Good Friday, the judge not noticing at the time of the sentence, that the date would fall on that day, but when the time drew near, an arrangement was made whereby the hanging was postponed for a day or two.

Sheriff Widdifield remarked this morning that he was the only sheriff in the Province of Ontario who could not be called upon to conduct a hanging if a man were sentenced to be executed in his county. This is accounted for by the fact that Mr. Widdifield is sheriff of the County of York, and Mr. Fred Mowat is City Sheriff. The latter is in attendance on the High Court of Assizes, and it falls to his lot to execute any sentences of death imposed by that court.

HEARTS THAT ARE TOUCHED

Interesting Letters from Friends who are Helping the Muskoka Free Hospital for Consumptives.

DEAR MR. EDITOR,—I would like to quote from two or three letters that are on my desk from friends who have been sending in contributions for the Muskoka Free Hospital for Consumptives. One contributor who sent $50.00 says: "I am sure the country is grateful to you for your good work, and many will bless you." The record-keeper of the Knights of the Maccabees, in sending $5.00 from his lodge, says: "Our Order has paid lots on lives that would undoubtedly have survived had proper treatment been within reach." W. C. McMaster, Township Clerk, Cookstown, sends $10.00 from his municipal council, and says: "We are sure you are doing a noble work to check that dread disease consumption." S. R. Spottswood, Paris, closes a letter, in which he sent $5.00, in this way: "Such a work should enlist the sympathy of every true Canadian."

At the present, I may be permitted to say that the burden being borne by our Trustees is a very heavy one. Expenses always run heavier during the winter season. We have been compelled to build a laundry because other laundries refused our work, and this has called for an immediate expenditure of $4,000.

How hopeful is the work the Hospital is doing is plainly indicated in the reduction in the death-rate in Ontario from consumption.

Our Trustees are anxious to further extend accommodation at Muskoka, and the work can only be delayed by the need of funds. I do not hesitate to ask for a generous contribution from your readers, with so good a cause to advocate.

J. S. ROBERTSON, Secretary.

Head Office: Mail Building, Toronto.

P.S.—Contributions may be sent to Sir Wm. R. Meredith, Kt., 4 Lamport Ave., or W. J. Gage, Esq., 54 Front Street West, Toronto.

SHOT HIMSELF IN THEATRE

Crowded House Sees Chicago Man Commit Suicide

Chicago, March 9.—Suicide in the balcony of a crowded theatre was the method of death chosen by an unknown man, about 22 years of age, who shot and killed himself at the Chicago Opera House this afternoon while a vaudeville performance was going on. The young man shot himself in the head, and the body fell into the lap of a woman occupying an adjoining seat. She and several other women fainted, but were quickly revived.

When the sound of the shot was heard many women screamed and left their seats but ushers quieted the excitement. The orchestra struck up a lively tune and aided in averting a panic while the body was removed. The man shot himself during the singing of a song picturing scenes in a farm house, which he had applauded.

—The Presbytery of Peterborough adopted a resolution condemnatory of the Autonomy Bill, in regard to the Separate schools, and have sent copies to the Federal members of the constituency within bounds of the Presbytery.

My! My! You are growing old fast!

And you know why, too. It's those gray hairs! Don't you know that Ayer's Hair Vigor restores color to gray hair? Well, it does. And it never fails, either. It stops falling hair also, and keeps the scalp clean. Sold for sixty years. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulation above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

FRANCIS L. JUDD & CO., BANKERS AND BROKERS, CLEVELAND, OHIO.

W. SAILSBURY, PETERBOROUGH, ONT.

WHAT

DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving?

NOT MORE THAN 3 TO 3 1-2 PER CENT

we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ————. It may be seen at our office as any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$306,499 81	CAPITAL STOCK PAIDIN	$ 75,000 00
Overdrafts, secured and unsecured	356 25		
U. S. Bonds to secure circulation	50,000 00	Surplus fund	60,000 00
STOCKS, SECURITIES, ETC.	300,000 00	Undivided profit, less expenses and taxes paid	2,161 53
Banking-house, furniture and fixtures	13,000 00	National Bank notes outstanding	50,000 00
Due from National Banks (not reserve agents)	1,999 25	Due to other National Banks	4,380 66
Due from approved reserve agents	13,841 68	Due to Trust Companies and Saving Banks	64 10
Checks and other cash items	1,535 74	Due to approved reserved agents	7,950 71
Notes of other National Banks	3,150 00	Dividends unpaid	4,704 00
Fractional paper currency, nickels and cents	280 09	Individual deposits subject to check	566,373 62
Lawful money reserve in bank, viz—Specie	$46,819 00	Cashier's checks outstanding	300 00
Legal tender notes	11,000 00		
Due from U. S. Treasury, other than 5 per cent. redemption fund	57,819 00		
	1,000 00		
	$730,830 33		$730,830 33

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of 67½ per cent. They show that over four times the amount of the authorized capital of the bank or $300,000 has been loaned and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE SILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEE AND BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. R is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. You see, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURED GUARANTEED OR NO PAY.
